Supervision

Chapter 16

Reporting requirements

Guidance notes for completion of the Annual Financial Crime Report

The form in \blacksquare SUP 16 Annex 42AR should only be completed by *firms* and *electronic money institutions* and *payment institutions* subject to the reporting requirements in \blacksquare SUP 16.23.4R and \blacksquare SUP 16.15.5AD of the *FCA Handbook*.

General Notes

This data item is reported on a single unit basis and in integers, except where a full-time equivalent (FTE) figure is requested. Where an FTE figure is requested, this should be reported to two decimal places where available. If the figure to be reported is a whole number, this should be reported as [n] .00.

For the purposes of this data item and guidance notes, any references to *firm* or *firms* should be read as also applying to *electronic money institutions* and *payment institutions*.

This return allows *firms* to report for a specified *group* of *firms* in a single Annual Financial Crime Report. Where a report is filed for a *group* of *firms*, the reported information should be the aggregate data for those *firms*. *Firms* should note that this is only available where all the *firms* included are subject to the requirement (i.e. *firms* that would not be subject to the requirement on a solo entity basis, based on the application provision in SUP 16.23.1R should not be included).

Firms subject to the requirement and which have a different *accounting reference date* from the *firm* submitting the Annual Financial Crime Report on behalf of a *group* should have their firm reference numbers (FRNs) included in the group report list. They will then need to submit a nil return for the entity via the appropriate systems accessible from the *FCA* website.

For the purposes of completing this return, references to 'customer' or 'client' refer to *customer* or *client* relationships as defined in the FCA Handbook.

We will use the data we collect through this data item to assess the nature of financial crime risks within the financial services sector. Section 5 of this return is designed to allow the *FCA* to track the industry's perception of the most prevalent fraud risks. A *firm* may not be specifically affected by the fraud typologies it considers most prevalent across the industry.

Data Elements

Group reporting		
1A	Does the data in this report cover more than one authorised <i>firm</i> ?	If the report is being submitted on behalf of a number of <i>firms, firms</i> should answer 'yes' to this question.
2A	If yes, list the FRNs of all addi- tional <i>firms</i> included in this report.	Where a report is submitted on behalf of a num- ber of <i>firms</i> , the submitting <i>firm</i> should report all of the FRNs of the firms included.
		A <i>firm</i> listed in response to this question by an- other <i>firm</i> within its group will see the require- ment marked as 'satisfied for group' in the appro- priate systems accessible from the <i>FCA</i> website. <i>Firms</i> to whom this applies do not need to report a separate nil return.
Section 1: Op	perating jurisdictions	
Please list:		

3A	The jurisdictions within which the <i>firm</i> operates as at the end of the reporting period.	Input the country codes (in ISO 3166 format) of the jurisdictions within which the <i>firm</i> is operating as at the end of the reporting period.
		Only those jurisdictions active as at the end of the reporting period should be reported; if a <i>firm</i> terminated operations within a jurisdiction during the reporting period, this jurisdiction does not need to be reported.
		'Operates' for the purposes of this form is defined as where the <i>firm</i> carries on its business or has a physical presence through a legal entity.
		For avoidance of doubt, this definition includes those jurisdictions in which the <i>firm</i> has representative offices.
		Where a <i>firm</i> is operating in the <i>UK</i> as a branch or subsidiary of a foreign institution, it should re- port the operations of the <i>UK</i> branch or subsidi- ary rather than all jurisdictions where the <i>firm</i> operates.
		This question does not concern the geographical location of the <i>firm's customers</i> or <i>clients</i> .
		This question is mandatory and must contain at le- ast one entry, i.e. 'GBR'.
3B	Those jurisdictions assessed and considered high-risk by the <i>firm</i> .	Input the country codes (in ISO 3166 format) of the jurisdictions assessed and considered by the <i>firm</i> to be high-risk. As a minimum, <i>firms</i> should report any jurisdictions considered high-risk in which they operate. In addition, where a <i>firm</i> has conducted a Country Risk Assessment (i.e. it main- tains a 'high-risk jurisdiction list') the jurisdictions that were the subject of such an assessment should be recorded in 3B.
		This question should be answered with regard to the <i>firm's</i> own assessment of risk, which may or may not include the use of available public indices.
		A <i>firm</i> should therefore leave this section blank if it does not operate in any high-risk jurisdictions nor carry out a country risk assessment.
		<i>Firms</i> who provide a positive response to question 17 (customers linked to high-risk jurisdictions) should also provide a response to question 3B.
Section 2: Cus	tomer information	
Elements in the later		for the second s

Figures in this section should be for the number of *customer* or *client* relationships as at the end of the reporting period. It should include all accounts that are open, including dormant and inactive accounts. This would also include all *current accounts*, *CTF* bank accounts, *client* bank accounts and *client* transaction accounts. It excludes former *customers* or *clients*. Each party to a joint account should be recorded as a separate *customer* or *client*.

Where the figure requested is 'new in the reporting period', a *firm* should report new (not pre-existing) *customer* or *client* relationships initiated within the reporting period. This should not include existing customers taking on new products. A *firm* should only provide figures in this section for those areas of its business subject to the *Money Laundering Regulations*.

For non-financial institutions which may carry out some regulated business (e.g. consumer credit), the *firm* should not include customers which are outside the scope of the *Money Laundering Regulations*.

Firms should refer to sector specific industry guidance (i.e. JMLSG Guidance Part II) for additional information on who is their *customer* or *client* for the purposes of this section.

Firms should ensure they record an entry in each field. Where a *firm* has no data to report it should record '0'.

If any part of the *firm's* business is subject to the *Money Laundering Regulations*, please provide the total number of the *firm's* relationships with:

4A&B	Politically Exposed Persons (PEPs)	A definition of 'Politically Exposed Person' can be found in Regulation 35(12)(a). The figure should include family members and known close associ- ates of PEPs, as defined in Regulation 35(12)(b) and (c) of the <i>Money Laundering Regulations</i> . These definitions should be read in conjunction with the guidance published by the <i>FCA</i> in FG17/ 6.
		<i>Firms</i> should report the number of <i>customer</i> or <i>client</i> relationships, either individual or corporate, which they have classified in accordance with FG17/6 as being a "higher risk" PEP, family member, known close associate or PEP-connected relationship. They should not report the total number of PEPs associated with a particular corporate <i>customer</i> or <i>client</i> .
		<i>UK</i> PEPs do not need to be reported as PEP customers. However, if there are other factors which might indicate higher risks, then this should be reported in Question 6A&B.
		<i>Firms</i> should not reclassify <i>customers</i> or <i>clients</i> for the purposes of completing this return. If <i>firms</i> do not classify or identify PEP-connected corporate entities as PEP <i>customers</i> or <i>clients</i> within their current policies, there is similarly no requirement to report.
		The figure provided should include existing <i>cus-tomer</i> or <i>client</i> relationships that became PEPs in the reporting period.
		Where a PEP has multiple relationships with the <i>firm</i> , that PEP should only be reported once in each of questions 4A and 4B.
5A&B	Non-EEA correspondent banks	This refers to situations where a <i>credit institution</i> has a correspondent banking relationship with a respondent institution from a <i>non-EEA state</i> . These terms are intended as set out in Regulation 34(4)(a)(i) of the <i>Money Laundering Regulations</i> . Non- <i>credit institutions</i> who do not hold these types of relationships should simply record zero in their response. In addition, for the purposes of reporting, a <i>firm</i> is not required to include any relationship that falls within Regulation 34(4)(a)(i).
6A&B	All other high-risk customers	This refers to a <i>customer</i> or <i>client</i> categorised as being high-risk for the purposes of compliance with Regulation 33(1)(a) of the <i>Money Laundering</i> <i>Regulations</i> , and therefore subject to Enhanced Customer Due Diligence measures, but not other- wise captured in response to question 4 or 5.

		Existing customers who become high-risk during the relevant period should be included in the re- sponse to 6B.
For the firm	's business subject to the Money Laur	idering Regulations:
7-16	Please provide the number of the <i>firm's</i> customer relationships located in the following geo- graphical areas:	The location for <i>customer</i> or <i>client</i> relationships should be determined by the location in which the <i>customer</i> or <i>client</i> is based. Where a <i>customer</i> or <i>client</i> has multiple addresses, the location re- ported should be the primary correspondence ad- dress as determined by the <i>firm</i> .
		Where the relationship is with a trust, the <i>firm</i> should report the location as the location of the trust.
		Note that question 7 is an aggregate figure, there- fore responses recorded in questions 8 to 10 should be less than or equal to the figure re- corded in response to question 7.
		Except for the <i>United Kingdom</i> and <i>EEA</i> , for the purposes of this question geographical areas should be determined with reference to SUP 16 Annex 42CG.
17	Please provide the number of the <i>firm's</i> customers linked to those jurisdictions considered by the <i>firm</i> to be high-risk:	The <i>firm</i> should provide the number of customers judged by the <i>firm</i> to have links to jurisdictions identified by it as high-risk in question 3B. Therefore <i>firms</i> who provide customer numbers in response to question 17 should also provide a response to question 3B.
		Links to a high-risk jurisdiction, for the purposes of this question, means <i>customers</i> or <i>clients</i> that are resident/domiciled/incorporated in a jurisdic- tion identified as high-risk by the <i>firm</i> .
18A&B	Please provide the number of customer relationships refused or exited for financial crime reasons during the reporting period:	The number of 'refused' relationships refers to the number of <i>customers</i> or <i>clients</i> that the <i>firm</i> did not take on, where financial crime was the principal driver behind the decision. This could be at any stage of <i>customer</i> or <i>client</i> take-on.
		It would not include <i>customers</i> or <i>clients</i> whose application did not proceed because, for example, they lacked appropriate documentary evidence of identity or who failed Immigration Act 2014 checks. It would include <i>customers</i> or <i>clients</i> whose application was escalated to management (due to financial crime concerns) for a decision on whether to proceed, and was rejected.
		'Relationships exited' covers any <i>customers</i> or <i>clients</i> with whom the <i>firm</i> ceased to do business where financial crime was the principal driver behind the decision. This would only include <i>customers</i> or <i>clients</i> exited from all lines of business.
		'Relationships exited' also covers criminal behavi- our by the <i>customer</i> or <i>client</i> where such behavi- our has a financial element, e.g. benefits fraud.
Section 3: C	ompliance information	

Section 3: Compliance information

Firms should ensure they record an entry in each field. Where a firm has no data to report it should record '0'. Please provide the number of suspicious activity reports (SARs) under Part 7 of the Proceeds of Crime Act 2002 (POCA): 19A Submitted internally to the nominated officer/MLRO, within the firm, as at the end of the reporting period. 19B Disclosed to the National Crime Agency as at the end of the reporting period. This includes reports filed internally from staff to the MLRO in order to decide whether a form al submission to the authorities is justified. 19B Disclosed to the National Crime Agency as at the end of the reporting period. The number of SARs disclosed to the National Crime Agency within the reporting period. 19C The number of those SARs which sought constructions and sought construction and sought construction of the reporting period. 20 Please provide the number of SARs disclosed to the National Crime Agency under the Terrorism Act 2000 during the reporting period. 21 Please provide the number of investigative court orders received as at the end of the reporting period. 21 Please provide the number of form vestigative court orders received as at the end of the reporting period. 21 Please provide the number of restraint orders adefined by the POCA, and/or the reporting period. 21 Please provide the number of restraint order is set to the reporting period. 21 Please provide the number of restraint order is received and	<i>Cinness</i> de sud-l		field Whore a firm has no date to move at it should

SUP 16 : Reporting requirements

23A&B	Please provide the number of re- lationships maintained with nat- ural or corporate <i>persons</i> (ex- cluding group members) which introduce business to the <i>firm</i> . Please also provide the number of these relationships which have been exited for financial crime reasons during the re-	This question refers to individuals who, or corpor- ate entities which, directly introduce <i>customers</i> or <i>clients</i> to the <i>firm</i> under a formal agency/broker agreement in return for a direct or indirect fee, commission or other monetary benefit. If the <i>firm</i> makes no payment to the introducer (e.g. commission) it is not necessary to report these relationships.	
	porting period.	Legacy commission payments do not need to be included where these arrangements were made prior to the relevant reporting period.	
		This question does not concern reliance as defined under Regulation 39 of the <i>Money Laundering Regulations</i> .	
If the <i>firm</i> has	appointed representatives (ARs):		
24	Please provide the number of <i>appointed representative</i> (AR) relationships exited due to financial	<i>Firms</i> should report the number of existing AR relationships terminated for financial crime reasons during the reporting period.	
	crime reasons:	If the <i>firm</i> has no <i>appointed representatives</i> it should record '0'.	
For all <i>firms</i> :			
25	As at the end of the reporting period, please provide the total full time equivalent (FTE) of UK	<i>Firms</i> should provide an FTE figure on a reason- able endeavours basis.	
	staff with financial crime roles:	For example, if the <i>firm</i> has 20 part time staff that work 50% of normal hours in a financial crime role, the figure would be 10 FTE.	
		This figure should cover staff in roles relating to anti-money laundering, counter-terrorist finan- cing, anti-bribery and corruption, and fraud.	
		This field facilitates the entry of numbers to two decimal places. Integers should therefore be provided in the format [n].00.	
		If this report is being completed on a <i>group</i> basis this figure should be the FTE for the specified <i>group</i> .	
		Where this report is being completed on a single regulated entity basis and services are shared across multiple <i>firms</i> , <i>firms</i> may provide an estimate of the FTE spent on each reported entity on a best endeavours basis.	
		In <i>firms</i> where financial crime responsibilities are divided up among staff with other roles rather than managed by a dedicated function, the figure should reflect the aggregated FTE spent on financial crime activity.	
		The phrase 'financial crime roles' for the purposes of this question is intended to cover staff em- ployed in a dedicated financial crime function (for example AML or compliance teams) who deal with, or take decisions on financial crime issues. Therefore it would not cover teams or individuals responsible for collecting customer due diligence or those who submit internal suspicious activity reports.	

		Outsourced financial crime activities should not be included in this figure.
Of which:		
26	Please provide the percentage of the FTE stated above dedic- ated to fraud responsibilities	Firms should provide a percentage figure on a reasonable endeavours basis. This field facilitates the entry of numbers to two decimal places. Integers should therefore be provided in the format [n].00.
		<i>Firms</i> should note that this question requires them to provide the percentage of financial crime staff dedicated to fraud (i.e. of the total number provided in response to Q25, what proportion of staff deal with fraud only). This field should con- tain a value between 0 and 100 (to two decimal places).
		If this report is being completed on a <i>group</i> basis this figure should be the percentage for the specified <i>group</i> .
		Where this report is being completed on a single regulated entity basis and services are shared across multiple <i>firms</i> , <i>firms</i> may provide an estim- ate of the percentage spent on each reported en- tity on a best endeavours basis.
Section 4: San	ctions-specific information	
27	Does the <i>firm</i> use an automated system (or systems) to conduct screening against relevant sanc- tions lists?	<i>Firms</i> should answer 'Yes' or 'No'. Note there is no explicit regulatory or legal requirement for the use of automated screening tools. This question relates to automated systems for screening <i>customers</i> and <i>clients</i> only.
		Relevant sanctions lists are the lists against which the <i>firm</i> screens its <i>customers</i> and <i>clients</i> .
28A&B	How many TRUE sanctions matches were detected during the reporting period?	The number of confirmed true sanctions alerts which matched against the <i>firm's customer, client</i> or <i>payment</i> .
		The number to be reported relates to any matches against any relevant sanctions lists and is defined as any matches reported to the relevant authorities, regardless of whether these are con- firmed as true by the authority.
		Relevant sanctions lists are the lists against which the <i>firm</i> screens its <i>customers</i> or <i>clients</i> .
		Where no true sanctions matches were detected, <i>firms</i> should record '0'.
29	Does the <i>firm</i> conduct repeat customer sanctions screening?	Firms should answer 'Yes' or 'No'.
	customer surctions screening?	This question relates to repeat <i>customer</i> or <i>client</i> sanctions screening only.
Section 5: Frau	ıd	
30-35A-D	Please indicate the firm's view	NB. This question is not mandatory.
	of the top three most prevalent frauds which the FCA should be aware of and whether they are	This question is designed to obtain the <i>firm's</i> view on the most prevalent frauds relevant to the

increasing, decreasing or unchanged.	<i>firm's</i> business and will be used by the <i>FCA</i> to understand whether the organisation is aware of
	the fraud risks identified by the broader industry.
	The fraud typologies available in the dropdown list are a subset taken from the Action Fraud A-Z of fraud types and are specified below. Please re- fer to the Action Fraud definitions in answering this question.
	The identified fraud typologies may or may not be those by which the <i>firm</i> has been specifically impacted, but should be those that the <i>firm</i> con- siders most prevalent as at the end of the re- porting period.
