In so far as prices are concerned, the issuer must not, when executing trades under a [buy back programme], purchase shares at a price higher than the higher of the price of the last independent trade and the highest current independent bid on the trading venues where the purchase is carried out.

If the trading venue is not a [regulated market], the price of the last independent trade or the highest current independent bid taken in reference shall be the one of the [regulated market] of the Member State in which the purchase is carried out.

Where the issuer carries out the purchase of own shares through derivative financial instruments, the exercise price of those derivative financial instruments shall not be above the higher of the prince of the last independent trade and the highest current independent bid.

2. In so far as volume is concerned, the issuer must not purchase more than 25% of the average daily volume of the shares in any one day on the [regulated market] on which the purchase is carried out.

The average daily volume figure must be based on the average daily volume traded in the month preceding the month of public disclosure

of that programme and fixed on that basis for the authorised period of the programme.

Where the programme makes no references to that volume, the average daily volume figure must be based on the average daily volume traded in the 20 trading days preceding the date of purchase.

- 3. For the purposes of paragraph 2, in cases of extreme low liquidity on the relevant market, the issuer may exceed the 25% limit, provided that the following conditions are met:
 - (a) the issuer informs the competent authority of the relevant market, in advance, of its intention to deviate from the 25% limit:
 - (b) the issuer [makes an adequate public disclosure of] the fact that it may deviate from the 25% limit;
 - (c) The issuer does not exceed 50% of the average daily volume. [deleted]
- 1.1.10 EU Table: Relevant recitals (Article 5) from the *Buy back and Stabilisation*Regulation

Recital 9

In order to prevent market abuse the daily volume of trading in own shares in buy back programmes shall be limited. However, some flexibility is necessary in order to respond to given market conditions such as a low level of transactions.

Recital 10

Particular attention has to be paid to the selling of own shares during the life of a [buy back programme] to the possible existence of closed periods within issuers during which transactions are prohibited and to the fact that an issuer may have legitimate reasons to delay public disclosure of inside information. [deleted]

- 1.1.11 G Whether a case of extreme low liquidity exists for the purposes of article 5(3) will depend on the circumstances of each case. *Issuers* and their advisers may wish to approach the *FCA* and seek further individual guidance on cases that come within article 5(3). [deleted]

a [buy-back programme], engage in the following trading:

- (a) selling of own shares during the life of the programme;
- (b) trading during a period which, under the law of the Member State in which trading takes place, is a closed period;
- (c) trading where the issuer has decided to delay the public disclosure of inside information in accordance with Article 6(22) of [the *Market Abuse Directive*].
- 2. Paragraph 1(a) shall not apply if the issuer is an [investment firm] or [credit institution] and has established effective information barriers (Chinese Walls) subject to supervision by the competent authority, between those responsible for the handling of [inside information] related directly or indirectly to the issuer and those responsible for any decision relating to the trading of own shares (including the trading of own shares on behalf of clients), when trading in own shares on the basis of such any decision.

Paragraphs 19b) and (c) shall not apply if the issuer is an [investment firm] or [credit institution] and has established effective information barriers (Chinese Walls) subject to supervision by the competent authority, between those responsible for the handling of inside information related directly or indirectly to the issuer (including trading decisions under the "buy back" programme) and those responsible for the trading of own shares on behalf of clients, when trading in own shares on behalf of those clients.

2 Stabilisation

2.1 Application and purpose

Application

- 2.1.1 R This chapter applies to every firm. [deleted]
- 2.1.2 G This chapter is available to every *person* who wishes to show that he acted in conformity with:
 - (1) the *Buy-back and Stabilisation Regulation*, in accordance with section 118A(5)(b) of the *Act*; or
 - (2) rules, in accordance with section 118A(5)(a) of the Act; or
 - (3) the *price stabilising rules*, for the purposes of paragraph 5(1) of Schedule 1 to the Criminal Justice Act 1993 (Insider Dealing); or
 - (4) the *price stabilising rules*, for the purposes of section 90(9)(b) (Misleading impressions) or section 91(4)(a) (Misleading statements etc in relation to benchmarks) of the Financial Services Act 2012. [deleted]

2.1.3 R This chapter:

- (1) so far as it provides a defence for any *person*, has the same territorial application as the provision which is alleged to have been contravened: and
- (2) in its application to a *firm* for purposes other than those falling within (1), applies to the *firm*'s business carried on from an establishment in the *United Kingdom*. [deleted]

Purpose

- 2.1.4 G The purpose of this chapter is to describe the extent to which stabilisation activity has the benefit of a "safe harbour" for market abuse under the Buyback and Stabilisation Regulation (see MAR 2.2 and MAR 2.3), and to specify by rules the extent to which stabilisation activity has the benefit of a "safe harbour" for market abuse (misleading behaviour) or market abuse (distortion) (see MAR 2.2 and MAR 2.4), or for the criminal offences referred to in MAR 2.1.2G(3) and MAR 2.1.2G(4) (MAR 2.3 MAR 2.5). [deleted]
- 2.1.5 G Stabilisation transactions mainly have the effect of providing support for the price of an offering of relevant securities during a limited time period if they come under selling pressure, thus alleviating sales pressure generated by short term investors and maintaining an orderly market in the relevant securities. This is in the interest of those investors having subscribed or purchased those relevant securities in the context of a significant

- distribution, and of issuers. In this way, stabilisation can contribute to greater confidence of investors and issuers in the financial markets. [Note: Recital 11 of the Buy back and Stabilisation Regulation] [deleted]
- 2.1.6 G Stabilisation activity may be carried out either on or off a regulated market and may be carried out by use of financial instruments other than those admitted or to be admitted to the regulated market which may influence the price of the instrument admitted or to be admitted to trading on a regulated market. [Note: Recital 12 Buy-back and Stabilisation Regulation] [deleted]

2.2 Stabilisation: general

Permitted stabilisation

- 2.2.1 R Stabilisation or ancillary stabilisation may be carried out by a firm in relation to a significant distribution of securities, if:
 - (1) they are relevant securities that have been admitted to trading on a regulated market or a request for their admission to trading on such a market has been made, and the stabilisation is carried out in accordance with the Buy-back and Stabilisation Regulation (see MAR 2.3); or
 - (2) the securities are not within (1) and they:
 - (a) have been admitted to trading on a market, exchange or other institution included in MAR 2 Annex 1 R; or
 - (b) a request for their admission to trading on such a market, exchange or institution has been made; or
 - (c) are or may be traded under the rules of the International Securities Markets Association; and

the *stabilisation* or *ancillary stabilisation* is carried out in accordance with the provisions in MAR 2.4. [deleted]

2.2.2 G Relevant securities include financial instruments that become fungible after an initial period because they are substantially the same, although they have different initial dividend or interest payment rights. [Note: Recital 13 Buy back and Stabilisation Regulation.] [deleted]

Scope of stabilisation "safe harbours" for market abuse

- 2.2.3 R For the purposes of section 118A(5)(a) of the *Act*, *behaviour* (whether by a *firm* or not) conforming with the *MAR* 2.2.1R(2) does not amount to *market* abuse. [deleted]
- 2.2.4 G The effect of article 8 of the *Market Abuse Directive* and section 118A(5)(b) of the *Act* is that *behaviour* by any *person* which conforms with the

- stabilisation provisions in the *Buy-back and Stabilisation Regulation* (see *MAR* 2.3) will not amount to *market abuse*. [deleted]
- 2.2.5 G However, the mere fact that *stabilisation* does not conform with the *stabilisation* provisions in the *Buy back and Stabilisation Regulation* (see *MAR* 2.3) or with) *MAR* 2.2.1R(2) will not of itself mean that the *behaviour* constitutes *market abuse*. [Note: Recital 2 *Buy-back and Stabilisation Regulation*] [deleted]

Block trades

2.2.6 G In relation to *stabilisation*, block trades are not considered as a *significant* distribution of relevant securities as they are strictly private transactions.

[Note: Recital 14 Buy-back and Stabilisation Regulation] [deleted]

Behaviour not related to stabilisation

- 2.2.7 G On the other hand, the exemptions created by the *Buy-back and Stabilisation Regulation* only cover *behaviour* directly related to the purpose of *stabilisation* activities. *Behaviour* which is not directly related to the purpose of *stabilisation* activities is therefore considered in the same way as any other action covered by the *Market Abuse Directive* and may result in sanctions, if the competent authority establishes that the action in question constitutes *market abuse*. [Note: Recital 3 *Buy-back and Stabilisation Regulation*] [deleted]
- 2.2.8 G In order to avoid confusion of market participants, stabilisation activity should be carried out by taking into account the market conditions and the offering price of the relevant security and transactions to liquidate positions established as a result of stabilisation activity should be undertaken to minimise market impact having due regard to prevailing market conditions.

 [Note: Recital 18 Buy back and Stabilisation Regulation] [deleted]

Rights of action for damages

2.2.9 R A contravention of the *rules* in *MAR* 2 does not give rise to a right of action by a *private person* under section 138D of the *Act* (and each of those rules is specified under section 138D(3) of the *Act* as a provision giving rise to no such right of action). [deleted]

2.3 Stabilisation under the Buy-back and Stabilisation Regulation

[deleted]

- 2.3.2 G Article 8 of the *Market Abuse Directive* is implemented in the *United Kingdom* in section 118A(5)(b) of the *Act*. [deleted]
- 2.3.3 R For the purposes of article 2(8) of the *Buy-back and Stabilisation Regulation* the standards of transparency of the markets, exchanges and institutions referred to in *MAR* 2.2.1R(2) are considered by the *FCA* to be adequate. [deleted]
