Prudential sourcebook for MiFID Investment Firms (MIFIDPRU)

1 Application

1.1 Application and purpose

Application

- 1.1.1 G There is no overall application provision for *MIFIDPRU*. Each chapter or section has its own application statement. However, *MIFIDPRU* broadly applies to the following:
- (1) *MIFIDPRU investment firms*;
 - (2) *UK parent entities*; and
 - (3) *parent undertakings* in an *investment firm group* that are incorporated in, or have their principal place of business in, the *United Kingdom*.
- 1.1.2 G (1) The definition of a *MIFIDPRU investment firm* includes a *collective portfolio management investment firm*. This means that a *collective portfolio management investment firm* must comply with the *rules* in *MIFIDPRU*, except to the extent that a provision of *MIFIDPRU* otherwise provides.
- (2) A *collective portfolio management investment firm* is also subject to the prudential requirements in *IPRU-INV 11* (Collective Portfolio Management Firms and Collective Portfolio Management Investment Firms). These *firms* should refer to *IPRU-INV 11.6* for further *guidance* on how the requirements in *MIFIDPRU* interact with the requirements in *IPRU-INV 11*.
 - (3) As explained in *MIFIDPRU 1.1.5G*, many requirements in *MIFIDPRU* apply only in relation to the *MiFID business* of a *firm* and therefore will not apply to the collective portfolio management activities carried on by a *collective portfolio management investment firm*. However, some requirements in *MIFIDPRU* apply to the *firm* as a whole.

Application to overseas firms

- 1.1.3 G *MIFIDPRU* does not directly apply to an *undertaking* which is not incorporated in, and does not have its principal place of business in, the *United Kingdom*. However, *MIFIDPRU* imposes some obligations on *UK parent entities* and *responsible UK parents* relating to *undertakings* established in a *third country* that form part of the same *investment firm group*. *MIFIDPRU 2* (Levels of application) contains additional *guidance* on the application of *MIFIDPRU* to *investment firm groups*.
- 1.1.4 G (1) This *guidance* provision applies to a *third country MIFIDPRU investment firm*. It is without prejudice to the *FCA*'s general approach to authorising *overseas firms*.
- (2) The *FCA* will not normally give a *Part 4A permission* to a *third country MIFIDPRU investment firm* unless the *FCA* is satisfied that the applicant will be subject to prudential regulation by a *regulatory body* in its home jurisdiction and the regulatory requirements are broadly equivalent to the requirements that would apply under *MIFIDPRU*.
- (3) When conducting the assessment in (2), the *FCA* will take into account the following non-exhaustive list of factors:
- (a) whether the requirements of the jurisdiction are likely to achieve similar prudential outcomes to *MIFIDPRU*;
 - (b) how the overseas *regulatory body* supervises and enforces those requirements in practice;
 - (c) the broader legal framework applicable to the applicant in the jurisdiction; and
 - (d) whether there are adequate arrangements in place between the *FCA* and the overseas *regulatory body* to facilitate any necessary supervisory cooperation.
- (4) The *FCA* considers that the approach described in (2) and (3) is consistent with the following:
- (a) The requirements in the *threshold conditions* including, in particular, the effective supervision *threshold condition* described in *COND 2.3*, the appropriate resources *threshold condition* described in *COND 2.4* and the suitability *threshold condition* described in *COND 2.5*.
 - (b) The need for the *FCA* to be able to apply effective supervision to a *third country MIFIDPRU investment firm* to ensure appropriate protection for *consumers* or potential *consumers*. This relies on cooperation between the *FCA* and the overseas *regulatory body* that

supervises that *third country MIFIDPRU investment firm* and on the *FCA* being able to place appropriate reliance on the supervision applied by that overseas *regulatory body*.

- (5) If a *third country MIFIDPRU investment firm* is not subject to prudential regulation by a *regulatory body* in its home jurisdiction which is broadly equivalent to the requirements that would apply under *MIFIDPRU*, the *FCA* will normally expect it to establish a *subsidiary* in the *United Kingdom*. That *subsidiary* would need to be authorised as a *MIFIDPRU investment firm* and would then be directly subject to the requirements in *MIFIDPRU*. The *subsidiary* would need to demonstrate that it meets the *threshold conditions* to obtain *authorisation*.
- (6) Although a *third country MIFIDPRU investment firm* that is granted a *Part 4A permission* is not subject to *MIFIDPRU*, it must still comply with the requirements in the *threshold conditions* and *Principles* on an ongoing basis. This includes the obligation under *Principle 11* (Relations with regulators) to inform the *FCA* of anything of which the *FCA* would reasonably expect notice, which may include interactions between the *firm* and its overseas *regulatory body*.

Purpose

- 1.1.5 G The purpose of *MIFIDPRU* is to set out the detailed prudential requirements that apply to a *MIFIDPRU investment firm*. *MIFIDPRU* does not apply to a *designated investment firm*, which is subject to prudential regulation by the *PRA*. Generally, the *rules* in *MIFIDPRU* are intended to cover the *MiFID business* undertaken by a *firm*, but certain requirements apply to a *firm* as a whole.
- 1.1.6 G The requirements in *MIFIDPRU* expand upon the basic requirements under the appropriate resources *threshold condition* in *COND 2.4* and the requirement in *Principle 4* for a *firm* to maintain adequate financial resources.

Tied agents

- 1.1.7 G (1) Certain provisions of *MIFIDPRU* refer to, or apply in relation to, *tied agents*. The definition of a *tied agent* refers to a *person* who, on behalf of an *investment firm* (including a *third country investment firm*):
- (a) promotes *investment services* or *ancillary services* to *clients* or prospective *clients*;

- (b) receives and transmits instructions or orders from the *client* in respect of *investment services* or *financial instruments*;
 - (c) places *financial instruments*; or
 - (d) provides advice to *clients* or prospective *clients* in respect of *investment services* or *financial instruments*.
- (2) The references in *MIFIDPRU* to *tied agents* do not include *appointed representatives* that do not meet the definition of a *tied agent* (for example, because the relevant *appointed representative* does not carry on its activities in relation to the *MiFID business* of its principal *firm*). However, a *firm's* potential responsibility for *appointed representatives* (whether or not they are also *tied agents*) will be a relevant factor for a *firm's ICARA process* under *MIFIDPRU* 7 (Governance and risk management).

Voluntary application of stricter requirements

- 1.1.8 R No provision in *MIFIDPRU* prevents a *firm* from:
- (1) holding *own funds* (or components of *own funds*) or *liquid assets* that exceed those required by *MIFIDPRU*; or
 - (2) applying other measures that are stricter than those required by *MIFIDPRU*.
- 1.1.9 G (1) If a *firm* applies stricter measures than those required under *MIFIDPRU* in accordance with *MIFIDPRU* 1.1.8R, the *firm* must still ensure that it meets the basic requirements of *MIFIDPRU*. This is illustrated by the following two examples:
- (a) Example 1: A *firm* decides to hold *own funds* of 0.03% of its *average AUM*, rather than 0.02% as required under *MIFIDPRU* 4.7.5R. This would be a stricter measure that still met the basic requirements of *MIFIDPRU* and therefore would be permitted under *MIFIDPRU* 1.1.8R.
 - (b) Example 2: A *firm* decides to hold a significant amount of additional *own funds* instead of applying the deductions from its *common equity tier 1 capital* required under *MIFIDPRU* 3.3.6R. This is on the basis that the additional *own funds* far exceed the estimated value of the required deductions and the *firm* considers that the deduction calculations are too onerous. While the *firm* may consider that holding these additional *own funds* is a stricter measure, this approach would not meet the basic requirements of *MIFIDPRU*, which

require the *firm* to calculate and apply the deductions. In addition, the failure to apply the correct deductions to *common equity tier 1 capital* may result in the *firm* incorrectly applying the *concentration risk* requirements and limits in *MIFIDPRU 5*. This approach would therefore not be permitted under *MIFIDPRU 1.1.8R* because it does not meet the basic requirements of *MIFIDPRU*.

- (2) If a *firm* wishes to apply a stricter measure but is unsure of whether that measure would meet the basic requirements of *MIFIDPRU*, it should discuss the proposal with the *FCA* before applying the measure.

1.2 SNI MIFIDPRU investment firms

Basic conditions for classification as an SNI MIFIDPRU investment firm

- 1.2.1 R A *MIFIDPRU investment firm* is an *SNI MIFIDPRU investment firm* if it satisfies the following conditions:
- (1) its *average AUM*, as calculated in accordance with *MIFIDPRU 4.7.5R* is less than £1.2 billion;
 - (2) its *average COH*, as calculated in accordance with *MIFIDPRU 4.10.19R* is less than:
 - (a) £100 million per *day* for *cash trades*; and
 - (b) £1 billion per *day* for *derivatives trades*;
 - (3) its *average ASA*, as calculated in accordance with *MIFIDPRU 4.9.8R* is zero;
 - (4) its *average CMH*, as calculated in accordance with *MIFIDPRU 4.8.13R* is zero;
 - (5) it does not have *permission to deal on own account*;
 - (6) its on- and off-balance sheet total is less than £100 million;
 - (7) its total annual gross revenue from *investment services and/or activities* is less than £30 million, calculated as an average on the basis of the annual figures from the two-year period immediately preceding the given financial year;
 - (8) it has not been classified as a *non-SNI MIFIDPRU investment firm* due to the effect of *MIFIDPRU 10.2* (Categorisation of clearing firms as non-SNI MIFIDPRU investment firms); and
 - (9) its *average DTF*, as calculated in accordance with *MIFIDPRU 4.15.4R*, is zero.

- 1.2.2 G The definitions of *ASA* and *CMH* relate to *client* assets and *client money* that are held in the course of *MiFID business*. As a result, a *firm* may hold *client* assets or *client money* in the course of business other than *MiFID business* (provided that it has the necessary *permissions* to do so) and still meet the conditions to be classified as an *SNI MIFIDPRU investment firm*. When determining whether *client* assets or *client money* are to be treated as held in the course of *MiFID business* for these purposes, *MIFIDPRU investment firms* should refer to the *rules* and *guidance* in *MIFIDPRU* 4.8 (K-CMH requirement) and 4.9 (K-ASA requirement).

Additional provisions relating to the calculation of conditions to be classified as an *SNI MIFIDPRU investment firm*

- 1.2.3 R Notwithstanding the calculation methodologies in *MIFIDPRU* 4, the *firm* must use the following for the purposes of the conditions in *MIFIDPRU* 1.2.1R:
- (1) end-of-day values to calculate:
 - (a) its *average AUM* under *MIFIDPRU* 1.2.1R(1);
 - (b) its *average COH* under *MIFIDPRU* 1.2.1R(2);
 - (c) its *average ASA* under *MIFIDPRU* 1.2.1R(3);
 - (2) intra-day values to assess its *average CMH* under *MIFIDPRU* 1.2.1R(4).
- 1.2.4 R
- (1) By way of derogation from *MIFIDPRU* 1.2.1R, a *firm* may use the alternative approach in (2) to measure:
 - (a) its *average AUM* for the purposes of *MIFIDPRU* 1.2.1R(1); and/or
 - (b) its *average COH* for the purposes of *MIFIDPRU* 1.2.1R(2).
 - (2) The alternative approach is to apply the methodologies in *MIFIDPRU* 4 for measuring *average AUM* and *average COH*, but with the following modifications:
 - (a) the measurement must be performed over the immediately preceding 12 *months*; and
 - (b) the exclusion of the 3 most recently monthly values does not apply.
 - (3) If a *firm* uses the derogation in (1), it must:

- (a) notify the *FCA* by submitting the form in *MIFIDPRU* 1 Annex 1R via the *online notification and application system*; and
 - (b) apply the alternative approach for a continuous period of at least 12 *months* from the date specified in the *firm's* notice in (a).
 - (4) If a *firm* ceases to apply the derogation in (1), it must notify the *FCA* by submitting the form in *MIFIDPRU* 1 Annex 1R via the *online notification and application system*.
- 1.2.5 G Where a *firm* relies on the derogation in *MIFIDPRU* 1.2.4R, the alternative approach applies only for the purpose of determining whether the *firm* meets the requirements to be classified as an *SNI MIFIDPRU investment firm*. It does not apply for the purpose of the *firm's* calculation of its *K-factor requirement* under *MIFIDPRU* 4.
- 1.2.6 R
 - (1) Subject to (2), a *firm* must use the values recorded at the end of the last financial year for which accounts have been finalised and approved by its *management body* to assess each of the following conditions:
 - (a) its on- and off-balance sheet total under *MIFIDPRU* 1.2.1R(6); and
 - (b) its total annual gross revenue under *MIFIDPRU* 1.2.1R(7).
 - (2) The *firm* must use provisional accounts where its accounts have not been finalised and approved after 6 *months* from the end of the last financial year.
- 1.2.7 R
 - (1) A *firm* may use the end-of-day value for *average CMH* instead of the intra-day value under *MIFIDPRU* 1.2.3R(2) if:
 - (a) there is an error in record-keeping or in the reconciliation of accounts that incorrectly indicates that the *firm* has breached the zero threshold in *MIFIDPRU* 1.2.1R(4); and
 - (b) the error is resolved before the end of the *business day* to which it relates.
 - (2) If a *firm* uses an end-of-day value under (1), it must notify the *FCA* immediately of:
 - (a) the error;
 - (b) the reasons that the error occurred; and
 - (c) how the error has been corrected.

- (3) The notification in (2) must be submitted via the *online notification and application system* using the form in *MIFIDPRU 1 Annex 2R*.
- 1.2.8 G (1) *MIFIDPRU 1.2.7R* applies where a *firm* has incorrectly recorded an amount of *client money* as *CMH* and identifies the mistake before the end of the same *business day*. This could occur, for example, where there has been an error in data entry, or where a *firm* incorrectly records *client money* as meeting the *CMH* definition.
- (2) *MIFIDPRU 1.2.7R* does not apply where a *firm* mistakenly accepts an amount that satisfies the *CMH* definition and subsequently returns that amount to the relevant *client*. In that case, the *firm* will have breached the zero threshold in *MIFIDPRU 1.2.1R(4)* and the situation has not arisen due to an error in record-keeping or reconciliation. A *firm* that wishes to be classified as an *SNI investment firm* should therefore operate effective systems and controls that prevent it from mistakenly accepting *money* or assets that constitute *CMH* or *ASA*.
- 1.2.9 R A *MIFIDPRU investment firm* must assess the following conditions on the basis of the *firm's* individual situation:
- (1) *average ASA* under *MIFIDPRU 1.2.1R(3)*;
- (2) *average CMH* under *MIFIDPRU 1.2.1R(4)*;
- (3) *average DTF* under *MIFIDPRU 1.2.1R(9)*;
- (4) whether the *firm* has *permission to deal on own account*; and
- (5) whether the *firm* is a *clearing member* or an *indirect clearing firm*.
- 1.2.10 R (1) A *MIFIDPRU investment firm* must assess the conditions in (2) on the basis of the combined position of each of the following entities that form part of the same *group* as the *firm*:
- (a) *MIFIDPRU investment firms*;
- (b) *designated investment firms*;
- (c) *collective portfolio management investment firms*; and
- (d) *third country investment firms* that carry on *investment services and/or activities* in the *UK*.
- (2) The relevant conditions are:
- (a) *average AUM* under *MIFIDPRU 1.2.1R(1)*;

- (b) *average COH* under *MIFIDPRU* 1.2.1R(2);
 - (c) the on- and off-balance sheet total under *MIFIDPRU* 1.2.1R(6); and
 - (d) total annual gross revenue under *MIFIDPRU* 1.2.1R(7).
- (3) When measuring the combined total annual gross revenue under (2)(d), the *firm* may exclude any double counting that arises in respect of gross revenues generated within the *group*.
- (4) When calculating the contribution of the following to the combined position of the *group*, the *firm* must:
- (a) for a *collective portfolio management investment firm*, include only amounts that are attributable to the *investment services and/or activities* that fall within *COLL* 6.9.9R (4) to (6) or *FUND* 1.4.3R (3) to (6); and
 - (b) for a *third country investment firm*:
 - (i) include only amounts that are attributable to the *investment services and/or activities* that are carried on by the *third country investment firm* in the *UK*; and
 - (ii) apply the definitions of *AUM* and *COH* as if the references to “*MiFID business*” in those definitions included the *investment services and/or activities* in (i).
- 1.2.11 G (1) *MIFIDPRU* 1.2.10R applies to each individual *MIFIDPRU investment firm* by reference to the relevant entities that form part of that *firm’s group*. The purpose of the *rule* is to prevent a *MIFIDPRU investment firm* from dividing its business between separate *group* entities that may each carry-on *investment services and/or activities* in the *UK* in order to avoid being classified as a *non-SNI MIFIDPRU investment firm*. Where two or more *MIFIDPRU investment firms* exceed one or more of the relevant thresholds in *MIFIDPRU* 1.2.10R on a combined basis, each of those *firms* will be treated as a *non-SNI MIFIDPRU investment firm*.
- (2) Where a *MIFIDPRU investment firm* forms part of an *investment firm group* to which consolidation applies under *MIFIDPRU* 2.5, *MIFIDPRU* 2.5.21R explains how *MIFIDPRU* 1.2 applies to the *consolidated situation* of the relevant *UK parent entity*.

Summary of conditions for classification as an SNI MIFIDPRU investment firm and associated calculation requirements

1.2.12 G The following table summarises the effect of *MIFIDPRU* 1.2.1R to 1.2.10R.

Measure	Measurement of relevant values	Threshold to be classified as an SNI MIFIDPRU investment firm	Application of threshold on an individual basis or combined basis of investment firms within a group (see MIFIDPRU 1.2.9R and 1.2.10R)	
<i>Average AUM</i>	End-of-day	Less than £1.2 billion	Combined	See Note 1
<i>Average COH</i> (cash trades)	End-of-day	Less than £100 million per day	Combined	See Note 1
<i>Average COH</i> (derivatives)	End-of-day	Less than £1 billion per day	Combined	See Note 1
<i>Average ASA</i>	End-of-day	Zero	Individual	
<i>Average CMH</i>	Intra-day	Zero	Individual	See Note 2
<i>Average DTF</i>	End-of-day	Zero	Individual	
<i>NPR</i>	<i>Firm must not have permission to deal on own account, so these measures must always be zero</i>		Individual	
<i>CMG</i>			Individual	
<i>TCD</i>			Individual	
On- and off-balance sheet total	End of last financial year for which accounts finalised by <i>management body</i>	Less than £100 million	Combined	See Note 3

Total annual gross revenue from <i>investment services and/or activities</i>	End of last financial year for which accounts finalised by <i>management body</i>	Less than £30 million, based on an average of annual figures for the two-year period immediately preceding the given financial year	Combined	See Notes 3 and 4
Whether <i>firm</i> is a <i>clearing member</i> or <i>indirect clearing firm</i> under <i>MIFIDPRU</i> 10.2	<i>Firm</i> must not be a <i>clearing member</i> or <i>indirect clearing firm</i>		Individual	
Notes				
Note 1:	Under <i>MIFIDPRU</i> 1.2.4R, the <i>firm</i> can choose to calculate the relevant values for these measures by applying the applicable methodologies in <i>MIFIDPRU</i> 4 to the most recent 12 <i>months</i> without excluding the three most recent monthly values.			
Note 2:	Under <i>MIFIDPRU</i> 1.2.7R, the <i>firm</i> may use the end-of-day value if there has been an error in record keeping or in reconciliation of accounts that incorrectly indicates the <i>firm</i> has breached the zero threshold for <i>average CMH</i> , provided that the error is corrected before the end of the <i>business day</i> to which it relates.			
Note 3:	Under <i>MIFIDPRU</i> 1.2.6R, the <i>firm</i> must use provisional accounts where the relevant accounts have not been finalised and approved after 6 <i>months</i> from the end of the last financial year.			
Note 4:	Under <i>MIFIDPRU</i> 1.2.10R, the <i>firm</i> may exclude any double counting that arises in respect of gross revenues generated within the <i>group</i> .			

Non-SNI MIFIDPRU investment firms that subsequently satisfy the conditions to be an SNI MIFIDPRU investment firm

- 1.2.13 R (1) This *rule* applies to a *non-SNI MIFIDPRU investment firm* that subsequently satisfies all the conditions in *MIFIDPRU 1.2.1R*.
- (2) The *firm* in (1) shall be reclassified as an *SNI MIFIDPRU investment firm* only if:
- (a) the *firm* satisfies the relevant conditions for a continuous period of at least 6 *months* (or any longer period that has elapsed before the *firm* submits the notification in (b)); and
- (b) the *firm* notifies the *FCA* that it satisfies the conditions in (a).
- (3) The notification in (2)(b) must be submitted via the *online notification and application system* using the form in *MIFIDPRU 1 Annex 3R*.

Ceasing to meet the conditions to be an SNI MIFIDPRU investment firm

- 1.2.14 R Where a *MIFIDPRU investment firm* no longer satisfies all the conditions set out in *MIFIDPRU 1.2.1R*, it ceases to be an *SNI MIFIDPRU investment firm* with immediate effect, except where *MIFIDPRU 1.2.15R* applies.
- 1.2.15 R (1) Where a *MIFIDPRU investment firm* exceeds one or more of the thresholds in (2), but continues to satisfy all other conditions in *MIFIDPRU 1.2.1R*, it ceases to be an *SNI MIFIDPRU investment firm* 3 *months* after the date on which it first exceeded the relevant threshold.
- (2) The relevant thresholds are:
- (a) the *average AUM* threshold in *MIFIDPRU 1.2.1R(1)*;
- (b) either or both of the *average COH* thresholds in *MIFIDPRU 1.2.1R(2)*;
- (c) the on- and off-balance sheet total threshold in *MIFIDPRU 1.2.1R(6)*; and
- (d) the total annual gross revenue threshold in *MIFIDPRU 1.2.1R(7)*.
- 1.2.16 R (1) If a *MIFIDPRU investment firm* ceases to satisfy one of the conditions in *MIFIDPRU 1.2.1R*, it must promptly notify the *FCA*.
- (2) The notification in (1) must be submitted via the *online notification and application system* using the form in *MIFIDPRU 1 Annex 4R*.
- 1.2.17 G Where a *firm* ceases to satisfy one of the conditions in *MIFIDPRU 1.2.15R*, but subsequently satisfies that condition within the three-month period referred to in that *rule*, the *firm* will still be reclassified as a *non-SNI MIFIDPRU investment firm* 3 *months* after the date on which it first

ceased to satisfy that condition. The *firm* will only be reclassified as an *SNI MIFIDPRU investment firm* if it satisfies the conditions in, and requirements of, *MIFIDPRU 1.2.13R*.

Application of senior management, remuneration and systems and controls requirements to *SNI MIFIDPRU investment firms*

- 1.2.18 R (1) Subject to (2) and (3), the following provisions do not apply to an *SNI MIFIDPRU investment firm*:
- (a) *MIFIDPRU 7.3* (Risk, remuneration and nomination committees);
 - (b) the provisions in *SYSC 19G* (*MIFIDPRU Remuneration Code*) which are not listed in *SYSC 19G.1.6R(2)*.
- (2) Subject to (4) and (5), if a *non-SNI MIFIDPRU investment firm* satisfies the conditions in *MIFIDPRU 1.2.1R* to be classified as an *SNI MIFIDPRU investment firm*, the provisions in (1) will cease to apply only:
- (a) 6 months after the date on which the *firm* first satisfied those conditions (or after any longer period that has elapsed before the *firm* submits the notification in (b)(ii)); and
 - (b) provided that the *firm*:
 - (i) continued to satisfy the conditions throughout the period in (a); and
 - (ii) has notified the *FCA* under *MIFIDPRU 1.2.13R(2)(b)*.
- (3) Subject to (4) and (5), if an *SNI MIFIDPRU investment firm* no longer satisfies the conditions in *MIFIDPRU 1.2.1R* to be classified as an *SNI MIFIDPRU investment firm*, it must:
- (a) notify the *FCA* immediately in accordance with *MIFIDPRU 1.2.16R* of the date on which it ceased to satisfy the conditions; and
 - (b) comply with the provisions in (1) within 12 months from the date on which the *firm* ceased to satisfy the conditions.
- (4) *MIFIDPRU 7.3* (Risk, remuneration and nomination committees) does not apply to a *non-SNI MIFIDPRU investment firm* if the *firm* meets the conditions in *MIFIDPRU 7.1.4R*.
- (5) The provisions listed in *SYSC 19G.1.1R(4)* do not apply to a *non-SNI MIFIDPRU investment firm* if the *firm* meets the conditions in *SYSC 19G.1.1R(2)*.
- 1.2.19 G Under the Capital Requirements (Country-by-Country Reporting) Regulations 2013 (SI 2013/3118) as amended, *non-SNI MIFIDPRU*

investment firms may be required to disclose information relating to their branches or subsidiaries outside the *UK*. The Regulations also set out how the country-by-country reporting obligations apply when a *MIFIDPRU investment firm* is reclassified as an *SNI MIFIDPRU investment firm* or a *non-SNI MIFIDPRU investment firm*.

1.3 Actions for damages

- 1.3.1 R A contravention of any *rule* in *MIFIDPRU* does not give rise to a right of action by a *private person* under section 138D of the *Act* (and each of those *rules* is specified under section 138D(3) of the *Act* as a provision giving rise to no such right of action).

1. Please confirm in respect of which of the following this notification is being made (selection one):
 - a. the SNI status of a MIFIDPRU investment firm
 - b. the consolidated SNI status of an investment firm group
 - c. the SNI status of a MIFIDPRU firm and the investment firm group it is part of

This option should be selected if the use of the alternative approach by the MIFIDPRU investment firm and the consolidating UK parent relates to the same metric(s) and the same period of application. Otherwise, separate notification forms should be submitted.

2. Please confirm the FRN(s) and name(s) of the MIFIDPRU investment firm and/or the consolidating UK parent entity on whose behalf this notification is being made:

FRN	Entity name

3. Please confirm whether the notification relates to the firm's/group's intention to start or stop applying the alternative approach by completing either a. or b.:

- a. The firm/group intends to use the alternative approach to measure (select):

Average AUM for the purposes of MIFIDPRU 1.2.1R(1)

Average COH for the purposes of MIFIDPRU 1.2.1R(2)

Please confirm your understanding that the firm/group must continue to use this alternative approach for at least 12 months from the date this notification takes effect.

Yes

- b. The firm/group intends to cease to apply the alternative approach to measure (select):

Average AUM for the purposes of MIFIDPRU 1.2.1R(1)

Average COH for the purposes of MIFIDPRU 1.2.1R(2)

Please confirm that the firm/group have applied the alternative approach for at least 12 months.

Yes

4. Date notification takes effect (i.e. the date from which the firm/group proposes to start or cease using the alternative approach, as notified):

Please confirm whether the group continues to meet all conditions in MIFIDPRU 1.2.1R on a consolidated basis other than those listed in MIFIDPRU 1.2.15R(2).

Yes/No

7. Please confirm your understanding that the group:
- a. will be subject to additional obligations and reporting requirements by being treated as a non-SNI investment firm on a consolidated basis, and
 - b. will need to comply with the obligations in SYSC 19G (the MIFIDPRU Remuneration Code), to the extent that they apply on a consolidated basis, within 12 months of the date it first ceased to meet the SNI conditions in MIFIDPRU 1.2.R.

Yes

2 Level of application of requirements

2.1 Application and purpose

Application

2.1.1 R *MIFIDPRU 2* applies to:

- (1) a *MIFIDPRU investment firm*;
- (2) a *UK parent entity*;
- (3) a *UK investment holding company, UK mixed financial holding company or UK mixed-activity holding company*; and
- (4) a *parent undertaking in the UK that is a relevant financial undertaking in an investment firm group*.

Purpose

2.1.2 G This chapter contains:

- (1) a *rule in MIFIDPRU 2.2.1R* applying requirements in this sourcebook to *MIFIDPRU investment firms* on an individual basis;
- (2) *rules in MIFIDPRU 2.3* outlining the circumstances in which a *MIFIDPRU investment firm* may apply to the *FCA* for an exemption from specific requirements in this sourcebook that apply on an individual basis;
- (3) *rules and guidance in MIFIDPRU 2.4* which cover:
 - (a) the definition of an *investment firm group*;
 - (b) the *undertakings* that are included within an *investment firm group*; and
 - (c) when and how an *investment firm group* may apply to the *FCA* for permission to use the *group capital test* as an alternative to the prudential consolidation requirements in *MIFIDPRU 2.5*;
- (4) *rules and guidance in MIFIDPRU 2.5* which cover the following:
 - (a) when requirements in this sourcebook apply on a *consolidated basis*;
 - (b) the circumstances in which the *FCA* may permit an *investment firm group* to disapply certain prudential consolidation requirements; and

- (c) how an *investment firm group* must apply obligations in this sourcebook on a *consolidated basis*;
- (5) *rules and guidance in MIFIDPRU 2.6* in relation to the *group capital test*; and
- (6) *rules and guidance in MIFIDPRU 2.7* which cover:
 - (a) additional requirements and *FCA* supervisory powers that are relevant to a *UK parent entity*; and
 - (b) additional requirements that are relevant to a *MIFIDPRU investment firm* which is a *subsidiary* of a *UK mixed-activity holding company*.

2.2 General principle

- 2.2.1 R A *MIFIDPRU investment firm* must comply with the *rules in MIFIDPRU 3 to MIFIDPRU 9* on an individual basis.

2.3 Exemptions

- 2.3.1 R A *MIFIDPRU investment firm* will be exempt from *MIFIDPRU 8 (Disclosure)* on an individual basis if:
- (1) the *firm* has applied to the *FCA* in accordance with *MIFIDPRU 2.3.3R*;
 - (2) the application in (1) demonstrates to the satisfaction of the *FCA* that:
 - (a) the *firm* is a *SNI MIFIDPRU investment firm*;
 - (b) the *firm* is a *subsidiary* and is included in the supervision on a *consolidated basis* of an *insurance undertaking* or *reinsurance undertaking* in accordance with Rule 10.5 of the *PRA Rulebook: Solvency II firms: Group Supervision*;
 - (c) the *firm* and its *parent undertaking* are subject to *authorisation* and supervision in the *UK*;
 - (d) *own funds* are distributed adequately between the *firm* and its *parent undertaking* and:
 - (i) there is no current or foreseen material practical or legal impediment to the prompt transfer of capital or repayment of liabilities by the *parent undertaking*;
 - (ii) either the *parent undertaking* will guarantee the commitments entered into by the *firm*, or the risks in the *firm* are of negligible interest;

- (iii) the risk evaluation, measurement and control procedures of the *parent undertaking* include the *firm*; and
 - (iv) the *parent undertaking* holds more than 50% of the voting rights attached to shares in the capital of the *firm* or has the right to appoint or remove a majority of the members of the *firm's management body*.
- (3) the *PRA* does not object to the exemption.
- 2.3.2 R A *MIFIDPRU investment firm* will be exempt from *MIFIDPRU 6* (Liquidity) on an individual basis where:
- (1) the *firm* has applied to the *FCA* in accordance with *MIFIDPRU 2.3.3R*;
 - (2) the application in (1) demonstrates to the satisfaction of the *FCA* that:
 - (a) the *firm*:
 - (i) is supervised on a *consolidated basis* in accordance with Chapter 2 of Title II of Part One of the *UK CRR*; or
 - (ii) is included in an *investment firm group* that is subject to *MIFIDPRU 2.5.11R* and has not obtained the exemption referred to in *MIFIDPRU 2.5.19R*;
 - (b) the *parent undertaking*, on a *consolidated basis*, monitors and has oversight at all times over the liquidity positions of all *institutions* and *MIFIDPRU investment firms* within the group or sub-group that are exempted from liquidity requirements on an individual basis, and ensures a sufficient level of liquidity for all of those *institutions* and *MIFIDPRU investment firms*;
 - (c) the *parent undertaking* and the *firm* have entered into contracts that, to the satisfaction of the *appropriate regulator*, provide for the free movement of funds between the *parent undertaking* and the *firm* to enable them to meet their individual obligations and joint obligations as they become due;
 - (d) there is no current or foreseen material, practical or legal impediment to the fulfilment of the contracts in (c); and
 - (3) the *PRA* does not object to the exemption if it is the consolidating supervisor of the group.

- 2.3.3 R An application referred to in *MIFIDPRU 2.3.1R(1)* or *MIFIDPRU 2.3.2R(1)* must:
- (1) be made using the form in *MIFIDPRU 2 Annex 1R*; and
 - (2) be submitted using the *online notification and application system*.

2.4 Investment firm groups: general

Application and purpose

- 2.4.1 R This section applies to:
- (1) a *UK parent entity*; and
 - (2) a *MIFIDPRU investment firm*.
- 2.4.2 G
- (1) The definition of an *investment firm group* covers a *parent undertaking* that is incorporated in the *UK* or has its principal place of business in the *UK*, and its *subsidiaries*, at least one of which must be a *MIFIDPRU investment firm*.
 - (2) The definition of an *investment firm group* also includes *connected undertakings*. These are *relevant financial undertakings* that are not *subsidiaries*, but which form part of the *investment firm group* by one of the relationships listed in *MIFIDPRU 2.4.6R*.
 - (3) If the *subsidiaries* of the group include a *UK credit institution*, the group is not an *investment firm group*. However, if a *UK credit institution* is only a *connected undertaking* in relation to an *investment firm group*, the group is still an *investment firm group*. If the *investment firm group* includes a *subsidiary* or a *connected undertaking* that is *credit institution* established in a *third country*, the group is still an *investment firm group*.
- 2.4.3 G
- (1) When a *UK parent entity* or a *MIFIDPRU investment firm* is identifying whether it forms part of an *investment firm group*, it must identify all *relevant financial undertakings* that are either *subsidiaries* or *connected undertakings*.
 - (2) The *UK parent entity* or *MIFIDPRU investment firm* can use the analysis in (1) to determine whether the *investment firm group*:
 - (a) is likely to be subject to consolidation under *MIFIDPRU 2.5*; or
 - (b) has a sufficiently simple structure to justify submitting an application to the *FCA* to apply the *group capital test* under *MIFIDPRU 2.6*.
- 2.4.4 G
- (1) Where consolidation under *MIFIDPRU 2.5* applies, the definition of an *investment firm group* and the resulting *consolidated*

situation includes all *relevant financial undertakings* that are either *subsidiaries* or *connected undertakings*.

- (2) Where *MIFIDPRU* 2.6 applies, the definition of an *investment firm group* means that the *group capital test* only applies to a *parent undertaking* in relation to *relevant financial undertakings* that are its *subsidiaries* or that are *connected undertakings* in which it holds a *participation* in accordance with *MIFIDPRU* 2.4.15R. The *group capital test* does not apply in relation to a *relevant financial undertaking* that is a *connected undertaking* of the *parent undertaking* otherwise than due to a *participation*.
- (3) However, as explained in *MIFIDPRU* 2.4.19G, where an *investment firm group* contains material *connected undertakings* (other than those connected by a *participation*), the *FCA* considers that the underlying structure of the *investment firm group* is unlikely to be sufficiently simple to permit the application of the *group capital test*. In that case, it is likely that the *UK parent entity* of the *investment firm group* will be subject to consolidation under *MIFIDPRU* 2.5.

Subsidiaries

- 2.4.5 G (1) The definition of a *subsidiary* for the purposes of *MIFIDPRU* refers to any *undertaking* which is a “subsidiary undertaking” as defined in section 1162, read together with Schedule 7, of the Companies Act 2006.
- (2) Under section 1162(4) of the Companies Act 2006, this includes relationships where either of the following apply in relation to an *undertaking* (“A”) and another *undertaking* (“B”):
- (a) A has the power to exercise, or actually exercises, dominant influence or control over B; or
 - (b) A and B are managed on a unified basis.
- (3) Under section 1162(5) of the Companies Act 2006, if an *undertaking* (“A”) has a *subsidiary undertaking* (“B”) and B is a *parent undertaking* of another *undertaking* (“C”), then C is also a *subsidiary undertaking* of A. As a result, the definition of a *subsidiary* in *MIFIDPRU* includes *subsidiaries of subsidiaries*.

Connected undertakings: general

- 2.4.6 R An *undertaking* (“CU”) is a *connected undertaking* of another *undertaking* (“P1”) if:
- (1) P1 is connected to CU by *majority common management* in accordance with *MIFIDPRU* 2.4.8R(1);
 - (2) P1 exercises significant influence over CU in accordance with

MIFIDPRU 2.4.10R(1);

- (3) P1 and CU have been placed under single management, other than under a contract, clauses in memoranda or articles of association, in accordance with *MIFIDPRU 2.4.12R(1)*;
- (4) CU is a *subsidiary* of another *undertaking* (“P2”), and P2:
 - (a) is connected to P1 by *majority common management* in accordance with *MIFIDPRU 2.4.8R(1)*; or
 - (b) has been placed under single management with P1, other than under a contract, clauses in memoranda or articles of association, in accordance with *MIFIDPRU 2.4.12R(1)*; or
- (5) P1 holds a *participation* in CU in accordance with *MIFIDPRU 2.4.15R*.

- 2.4.7 G The criteria in *MIFIDPRU 2.4.8R(2)-(5)* and *MIFIDPRU 2.4.12R(2)-(5)* for determining the deemed *parent undertaking* in relation to a *connected undertaking* apply to the facts at the time when the relevant relationship is created. This means that a subsequent change in the *own funds requirement* of an entity or *investment firm group* does not change the deemed *parent undertaking*.

Connected undertakings: majority common management

- 2.4.8 R (1) This *rule* applies where:
- (a) a *MIFIDPRU investment firm* is connected to a *relevant financial undertaking* by *majority common management*; or
 - (b) a *relevant financial undertaking* that forms part of an *investment firm group* is connected to another *relevant financial undertaking* by *majority common management*.
- (2) If only one of the *undertakings* connected by *majority common management* forms part of an existing *investment firm group*, that *undertaking* is deemed to be the *parent undertaking* of the other *undertaking* when applying the requirements in *MIFIDPRU 2.5*.
 - (3) If both *undertakings* connected by *majority common management* form part of separate existing *investment firm groups*, the *undertaking* that forms part of the *investment firm group* which has, or would have, the higher consolidated *own funds requirement* based on its *consolidated situation*, is deemed to be the *parent undertaking* of the other *undertaking* when applying the requirements in *MIFIDPRU 2.5*.
 - (4) If neither of the *undertakings* connected by *majority common management* forms part of an existing *investment firm group* and

both *undertakings* are *MIFIDPRU investment firms*, the *MIFIDPRU investment firm* with the higher individual *own funds requirement* is deemed to be the *parent undertaking* of the other *MIFIDPRU investment firm* when applying the requirements in *MIFIDPRU 2.5*.

- (5) If neither of the *undertakings* connected by *majority common management* forms part of an existing *investment firm group* and only one of the *undertakings* is a *MIFIDPRU investment firm*, the *MIFIDPRU investment firm* is deemed to be the *parent undertaking* of the other *undertaking* when applying the requirements in *MIFIDPRU 2.5*.

- 2.4.9 G A *MIFIDPRU investment firm* may apply to the *FCA* under section 138A of the *Act* to modify the application of *MIFIDPRU 2.4.8R(2)-(5)*, if it considers that a different *undertaking* should be deemed to be the *parent undertaking* on the basis of *majority common management* for the purposes of *MIFIDPRU 2.5*.

Connected undertakings: significant influence without participation or capital ties

- 2.4.10 R (1) This *rule* applies where:
- (a) any of the following *undertakings* (“A”) exercises significant influence over a *relevant financial undertaking*:
 - (i) a *MIFIDPRU investment firm*;
 - (ii) an *investment holding company*; or
 - (iii) a *mixed financial holding company*; and
 - (b) the *relevant financial undertaking* is not:
 - (i) a *subsidiary* of A; or
 - (ii) connected to A by *majority common management*.
- (2) Where this *rule* applies, A is deemed to be the *parent undertaking* of the *relevant financial undertaking* when applying *MIFIDPRU 2.5*.
- 2.4.11 G (1) To assess whether A exercises significant influence over a *relevant financial undertaking*, the *FCA* considers that the equivalent accounting position, as it would be assessed under the guidance in International Accounting Standard 28 (as amended in 2011) under IFRS or Financial Reporting Standard 102 (March 2018) under UK GAAP, will be relevant. In particular, a *firm* should consider whether A has the power to participate in the financial and operating policy decisions of the *relevant financial undertaking*, even though A does not have control or joint control of those

policies. The indicators in (2) may be evidence of significant influence but are not conclusive. A *firm* should consider all relevant facts and circumstances.

- (2) When applying *MIFIDPRU 2.4.10R(1)(a)*, the following circumstances may be indicators that A exercises significant influence over the *relevant financial undertaking*:
- (a) A appoints or has the ability to appoint a representative in the *management body* of the *relevant financial undertaking*, either in the executive or in the supervisory function;
 - (b) A participates in the policy-making processes of the *relevant financial undertaking*, including participation in decisions about dividends and other distributions;
 - (c) the existence of material transactions between the two *undertakings*;
 - (d) the interchange of managerial personnel between the two *undertakings*;
 - (e) the provision of essential technical information or critical services from one entity to the other;
 - (f) A enjoys additional rights in the *relevant financial undertaking*, under a contract or a provision in the articles of association or other constitutional documents of the *relevant financial undertaking*, that could affect the management or the decision-making of the *relevant financial undertaking*; and
 - (g) the existence of share warrants, share call options, debt instruments that are convertible into ordinary shares or other similar instruments that are currently exercisable or convertible and have the potential, if exercised or converted, to give voting power or to reduce another party's voting power over the financial and operating policies of the *relevant financial undertaking*.

Connected undertakings: single management other than pursuant to a contract, clauses in memoranda or articles of association

- 2.4.12 R (1) This *rule* applies where:
- (a) any of the following *undertakings* (“A”) has been placed under single management, other than pursuant to a contract, clauses in memoranda or articles of association, with a *relevant financial undertaking*:
 - (i) a *MIFIDPRU investment firm*;

- (ii) an *investment holding company*; or
 - (iii) a *mixed financial holding company*; and
 - (b) the *relevant financial undertaking* is not:
 - (i) a *subsidiary* of A;
 - (ii) connected to A by *majority common management*; or
 - (iii) an *undertaking* over which A exercises significant influence in accordance with *MIFIDPRU 2.4.10R*.
 - (2) If only one of the *undertakings* placed under single management already forms part of an existing *investment firm group*, that *undertaking* is deemed to be the *parent undertaking* of the other *undertaking* when applying the requirements in *MIFIDPRU 2.5*.
 - (3) If both *undertakings* placed under single management form part of separate existing *investment firm groups*, the *undertaking* that forms part of the *investment firm group* which has, or would have, the higher consolidated *own funds requirement* based on its *consolidated situation* is deemed to be the *parent undertaking* of the other *undertaking* when applying the requirements in *MIFIDPRU 2.5*.
 - (4) If neither of the *undertakings* placed under single management forms part of an existing *investment firm group* and both of those *undertakings* are *MIFIDPRU investment firms*, the *MIFIDPRU investment firm* with the higher individual *own funds requirement* is deemed to be the *parent undertaking* of the other *MIFIDPRU investment firm* when applying the requirements in *MIFIDPRU 2.5*.
 - (5) If neither of the *undertakings* placed under single management forms part of an existing *investment firm group* and only one of those *undertakings* is a *MIFIDPRU investment firm*, the *MIFIDPRU investment firm* is deemed to be the *parent undertaking* of the other *undertaking* when applying the requirements in *MIFIDPRU 2.5*.
- 2.4.13 G When applying *MIFIDPRU 2.4.12R*, the following circumstances are indicators that the type of single management in *MIFIDPRU 2.4.12R(1)(a)* may exist:
- (1) A and the *relevant financial undertaking* are controlled by:
 - (a) the same natural *person*;
 - (b) the same group of natural *persons*;

- (c) an *undertaking* or the same group of *undertakings* that do not otherwise belong to that *group*;
 - (d) an *undertaking* or the same group of *undertakings* that are not established in the *UK*; or
- (2) the majority of the management body, either in its executive or in its supervisory function, of A and the *relevant financial undertaking* is composed of people appointed by the same *undertaking* or *undertakings*, by the same natural *person* or by the same group of natural *persons*, even if they do not necessarily consist of the same people.
- 2.4.14 G The indicators in *MIFIDPRU* 2.4.13G are not conclusive. Whether two or more *undertakings* are placed under single management for the purposes of *MIFIDPRU* 2.4.12R depends on whether in practice there is effective coordination of the financial and operating policies of the relevant *undertakings*. A *firm* should consider all relevant facts and circumstances.

Connected undertakings: participations

- 2.4.15 R (1) This *rule* applies where the following conditions are met:
- (a) one of the following (“A”) holds, directly or indirectly, a *participation* in a *relevant financial undertaking*:
 - (i) a *MIFIDPRU investment firm*;
 - (ii) an *investment holding company*; or
 - (iii) a *mixed financial holding company*;
 - (b) the *relevant financial undertaking* is not:
 - (i) a *subsidiary* of A; or
 - (ii) connected to A by *majority common management*; or
 - (iii) an *undertaking* over which A exercises significant influence in accordance with *MIFIDPRU* 2.4.10R; or
 - (iv) an *undertaking* with which A has been placed under single management in accordance with *MIFIDPRU* 2.4.12R; and
 - (c) A forms part of an existing *investment firm group*.
- (2) Where this *rule* applies, A is deemed to be the *parent undertaking* of the *relevant financial undertaking* when applying the requirements in *MIFIDPRU* 2.5 or the *group capital test* in

MIFIDPRU 2.6.

- 2.4.16 G (1) An *undertaking* (“A”) holds a *participation* in a *relevant financial undertaking* where A has direct or indirect ownership of 20% or more of the voting rights in, or capital of, a *relevant financial undertaking*.
- (2) However, A may also hold a *participation* where, even though A does not have an ownership interest as described in (1), A nonetheless has rights in the capital of the *relevant financial undertaking* which create a durable link with that *undertaking* which is intended to contribute to its activities.
- (3) For the purpose of assessing whether there is a *participation* of the type described in (2), it is relevant to consider the overall ownership structure of the *relevant financial undertaking*, having regard in particular to whether interests in the capital or voting rights of the *relevant financial undertaking* are distributed across a large number of shareholders, or whether A is the main investor.

Application to apply the group capital test to an investment firm group

- 2.4.17 R *MIFIDPRU 2.6* applies, and *MIFIDPRU 2.5* does not apply, to an *investment firm group* where:
- (1) the *UK parent entity* of that *investment firm group* or a *MIFIDPRU investment firm* within that *investment firm group* has applied to the *FCA* in accordance with *MIFIDPRU 2.4.18R*; and
- (2) the application in (1) demonstrates to the satisfaction of the *FCA* that:
- (a) the group structure of the *investment firm group* is sufficiently simple to justify applying the *group capital test*; and
- (b) there are no significant risks to *clients* or to the market stemming from the *investment firm group* as a whole that require supervision on a *consolidated basis*.
- 2.4.18 R An application submitted under *MIFIDPRU 2.4.17R(1)*:
- (1) must be made using the form in *MIFIDPRU 2 Annex 2R*, and should be submitted using the *online notification and application system*;
- (2) must include:
- (a) a group structure chart that:
- (i) identifies each *undertaking* that forms part of the *investment firm group*;

- (ii) explains the nature of the business or activities of each *undertaking*;
 - (iii) identifies whether each *undertaking* is a *relevant financial undertaking* and, if so, which type of *relevant financial undertaking* it is; and
 - (iv) explains the nature and degree of ownership or control that connects the *undertaking* to the *investment firm group* (including any relationship that has led the *undertaking* to be classified as a *connected undertaking* in relation to the *investment firm group*);
- (b) an explanation of why the group structure is sufficiently simple to justify the application of the *group capital test*;
 - (c) an explanation of why there are no significant risks to *clients* or to the market stemming from the *investment firm group* that require supervision on a *consolidated basis*;
 - (d) calculations which show how each *parent undertaking* within the *investment firm group* would satisfy the *group capital test*;
 - (e) evidence that the book value of each *parent undertaking's* investment in each of the following is a fair reflection of the consideration paid by the *parent undertaking*:
 - (i) a *subsidiary*, whether that *subsidiary* forms part of the *investment firm group* or not; and
 - (ii) an entity that is a *connected undertaking* due to a *participation* in accordance with *MIFIDPRU 2.4.15R*.
 - (f) calculations that demonstrate the consolidated *own funds* and *liquid assets* requirements that would apply on the basis of the *consolidated situation* of the *investment firm group* if consolidation under *MIFIDPRU 2.5* applied instead;
 - (g) an explanation of:
 - (i) how the *investment firm group* would comply with the consolidated requirements in (f) if the *FCA* did not grant permission to apply the *group capital test*; and
 - (ii) the timeframe in which the *investment firm group* would expect to achieve compliance with such

consolidated requirements; and

- (h) an explanation of how the *UK parent entity* of the *investment firm group*:
 - (i) would comply with the systems requirement in *MIFIDPRU 2.6.9R*; or
 - (ii) would comply with the systems requirement in *MIFIDPRU 2.5.8R* if the *FCA* did not grant permission to apply the *group capital test*.

- (3) must be submitted by a *UK parent entity* or a *MIFIDPRU investment firm* that has the necessary authority to make the application on behalf of all *undertakings* within the *investment firm group* that would be subject to the *group capital test*.

- 2.4.19 G In the *FCA*'s view, where an *investment firm group* includes one or more undertakings that are *connected undertakings* (other than *connected undertakings* due to a *participation* in accordance with *MIFIDPRU 2.4.15R*), that are material (either individually or in aggregate), it is unlikely that the *investment firm group* will be sufficiently simple to be able to apply the *group capital test*. This is because the relationship between the relevant member of the *investment firm group* and the *connected undertaking* is likely to be more complex and because the *group capital test* can only apply to holdings in instruments issued by, or claims on, an entity. Therefore, prudential consolidation under *MIFIDPRU 2.5* is likely to be more appropriate in such circumstances.

2.5 Prudential consolidation

- 2.5.1 R (1) This section applies to a *UK parent entity* that is not subject to the *group capital test* under *MIFIDPRU 2.6*.
- (2) This section also applies to a *MIFIDPRU investment firm* that forms part of the same *investment firm group* as the relevant *UK parent entity* in (1).
- 2.5.2 G Prudential consolidation under this section and the *group capital test* under *MIFIDPRU 2.6* are mutually exclusive requirements that may apply to an *investment firm group*. If an *investment firm group* is not permitted to use the *group capital test* under *MIFIDPRU 2.6*, the consolidation requirements in this section will apply to that *investment firm group*, except to the extent that an exemption applies.

Interaction between consolidation under MIFIDPRU and the UK CRR

- 2.5.4 G (1) Under this section, prudential consolidation applies where there is an *investment firm group*. The definition of an *investment firm group* excludes a *group* which contains a *UK credit institution* (except where the *credit institution* is a *connected undertaking*). Where a *group* includes a *UK credit institution*, prudential consolidation applies in accordance with the *UK CRR* and the *PRA Rulebook*.
- (2) However, a *group* may be an *investment firm group* where it contains both a *MIFIDPRU investment firm* and a *designated investment firm* subject to the *UK CRR*, but no *UK credit institution*. In this case, the *MIFIDPRU investment firm* would trigger prudential consolidation under this section and the *designated investment firm* would trigger consolidation under the *UK CRR*. Therefore, certain group structures may be subject to consolidation under both *MIFIDPRU* and the *UK CRR*, with the same entities included within the scope of consolidation of each. In this situation, the relevant *group* must comply with both sets of consolidated requirements, which are aimed at addressing different types of risks.

Meaning of “consolidated situation”

- 2.5.5 G (1) The application of prudential consolidation under this section is based on the *consolidated situation* of a *UK parent entity*.
- (2) A *consolidated situation* is defined as the situation that results from applying requirements in *MIFIDPRU* under *MIFIDPRU 2.5.7R* and *MIFIDPRU 2.5.11R* to a *UK parent entity*, as if it and the *relevant financial undertakings* in its *investment firm group*, form a single *MIFIDPRU investment firm*.
- (3) For the purposes of the *consolidated situation*, the term “*relevant financial undertaking*” and the underlying definitions of “*investment firm*”, “*financial institution*”, “*ancillary services undertaking*” and “*tied agent*” include *undertakings* established outside the *UK* that would satisfy those definitions if they were established in the *UK*.

Tied agents included within the consolidated situation

- 2.5.6 G (1) If a *tied agent* is included within the *consolidated situation*, all relevant activities and expenditure of that *tied agent* will be consolidated in full (or, where proportional consolidation applies, the relevant proportion of the activities of that *tied agent* will be consolidated) for the purpose of calculating the consolidated *fixed overheads requirement* and the consolidated *K-factor requirement*. This applies whether the *tied agent* carries out *investment services and/or activities* or incurs relevant expenses on behalf of another entity within the *consolidated situation* or on behalf of a third party.

- (2) The *guidance* in (1) relates to a *tied agent* that is included within the *consolidated situation*. There are separate requirements in:
- (a) *MIFIDPRU 4.5.6R*, which applies in relation to the individual *fixed overheads requirement* of a *MIFIDPRU investment firm* where a *tied agent* incurs expenses on behalf of that *firm*; and
 - (b) *MIFIDPRU 4.7.2R*, *MIFIDPRU 4.8.3R*, *MIFIDPRU 4.9.2R* or *MIFIDPRU 4.10.2R*, which apply in relation to the individual *K-factor requirement* of a *MIFIDPRU investment firm* where a *tied agent* carries on certain *investment services and/or activities* on behalf of that *firm*.

These requirements apply in relation to the calculation of the individual *fixed overheads requirement* and *K-factor requirement* of a *MIFIDPRU investment firm*, even if the *tied agent* is not part of the same *investment firm group* as that *MIFIDPRU investment firm*. Where *MIFIDPRU 4* applies on a *consolidated basis*, those requirements will also be relevant to any activities carried on by *tied agents* on behalf of a *third country investment firm* included within the *consolidated situation*.

- (3) Where the requirements in (2)(a) or (2)(b) apply in relation to a *MIFIDPRU investment firm* or a *third country investment firm* that is included within the *consolidated situation*, the relevant amounts that are added to the individual requirements of that *MIFIDPRU investment firm* or *third country investment firm* due to the activities of the *tied agent* must be included in the *consolidated situation*, irrespective of whether the *tied agent* is itself included within the *consolidated situation*.
- (4) An individual *tied agent* (“A”) may both:
- (a) be included within the *consolidated situation*; and
 - (b) incur expenses or carry on *investment services and/or activities* on behalf of a *MIFIDPRU investment firm* or *third country investment firm* (“B”) where B is also included in the *consolidated situation*.

In this case, the contribution of A to the consolidated *fixed overheads requirement* and consolidated *K-factor requirement* may be adjusted to prevent double-counting of any amounts due to B being included in the *consolidated situation* and a proportion of A’s activities or expenses having already been attributed to B.

Prudential consolidation – main requirements

- 2.5.7 R A *UK parent entity* must comply with the following on the basis of its *consolidated situation*:
- (1) *MIFIDPRU 3* (Own funds);
 - (2) *MIFIDPRU 4* (Own funds requirements);
 - (3) *MIFIDPRU 5* (Concentration risk);
 - (4) *MIFIDPRU 8* (Disclosure); and
 - (5) *MIFIDPRU 9* (Reporting).
- 2.5.8 R To ensure that the data required to comply with the consolidated requirements under *MIFIDPRU 2.5.7R* are duly processed and forwarded, a *UK parent entity* to which *MIFIDPRU 2.5.7R* applies and any *MIFIDPRU investment firm* in the same *investment firm group* must establish the following:
- (1) a proper organisational structure; and
 - (2) appropriate internal control mechanisms.
- 2.5.9 R A *UK parent entity* to which *MIFIDPRU 2.5.7R* applies and any *MIFIDPRU investment firm* in the same *investment firm group* must each ensure that any of their *subsidiaries* that are not subject to *MIFIDPRU* implement the necessary arrangements, processes and mechanisms to ensure that the *UK parent entity* complies with the consolidated requirements under *MIFIDPRU 2.5.7R*.
- 2.5.10 R
- (1) When applying *MIFIDPRU 3* on a *consolidated basis*, the requirements in Title II of Part Two of the *UK CRR* shall also apply.
 - (2) When applying the provisions of article 84(1), article 85(1) and article 87(1) of the *UK CRR* under (1):
 - (a) where those provisions refer to other provisions of the *UK CRR* that impose own funds requirements, only the references to article 92(1) of the *UK CRR* apply; and
 - (b) the references to article 92(1) of the *UK CRR* must be read as if they were references to the *own funds requirement* under *MIFIDPRU*.
- 2.5.11 R A *UK parent entity* must comply with *MIFIDPRU 6* (Liquidity) on the basis of its *consolidated situation*.
- 2.5.12 G *MIFIDPRU 2.5.7R* to 2.5.11R require a *UK parent entity* to comply with other chapters of *MIFIDPRU* on the basis of its *consolidated*

situation. Certain requirements in those chapters do not apply, or apply in a modified manner, to *SNI MIFIDPRU investment firms*. *MIFIDPRU 2.5.21R* explains how the *UK parent entity* should determine whether it should be treated as an *SNI MIFIDPRU investment firm* on the basis of its *consolidated situation*.

Default position: full consolidation of relevant entities

- 2.5.13 R (1) For the purposes of determining the *consolidated situation* under *MIFIDPRU 2.5.7R* and *MIFIDPRU 2.5.11R*, a *UK parent entity* must carry out a full consolidation of all *relevant financial undertakings* that form part of its *investment firm group*, unless (2) applies.
- (2) A *UK parent entity* is not required to carry out a full consolidation of a *relevant financial undertaking* under (1) where:
- (a) the *relevant financial undertaking* is a *connected undertaking* that forms part of the *investment firm group* due to a *participation* in accordance with *MIFIDPRU 2.4.15R*; and
- (b) the conditions for proportional consolidation under *MIFIDPRU 2.5.17R* are satisfied.
- 2.5.14 G A *UK parent entity* that is subject to *MIFIDPRU 2.5.13R(1)* may apply to the *FCA* under section 138A of the *Act* to modify the application of *MIFIDPRU 2.5.13R(1)* to require an alternative method of consolidation.
- 2.5.15 G When the *FCA* considers an application described in *MIFIDPRU 2.5.14G*, it will consider a range of factors, including whether full consolidation is appropriate because the *UK parent entity* or a *MIFIDPRU investment firm* within the same *investment firm group*:
- (1) acts as sponsor by managing or advising the *relevant financial undertaking* or marketing its securities;
- (2) provides liquidity or credit enhancements to the *relevant financial undertaking*;
- (3) is an important investor in the equity or debt instruments of the *relevant financial undertaking*;
- (4) through contractual or non-contractual relationships, is exposed to risks or equity-like returns that are derived from the assets of the *relevant financial undertaking* or that are dependent upon the performance of that *undertaking*;
- (5) is effectively involved in the decision-making process of the *relevant financial undertaking* or exercises influence over that

undertaking;

- (6) receives critical operational services from the *relevant financial undertaking* which cannot be replaced in a timely fashion without excessive cost;
- (7) has a credit rating upon which the credit rating of the *relevant financial undertaking* is based;
- (8) has a close commercial relationship with other investors in the *relevant financial undertaking*;
- (9) has a common customer base with the *relevant financial undertaking* or is involved in the commercialisation of its products;
- (10) is part of the same brand as the *relevant financial undertaking*;
- (11) has already provided financial support to the *relevant financial undertaking* in relation to financial difficulties; or
- (12) incurs a disproportionate amount of the expenses connected with the business operations of the *relevant financial undertaking*.

2.5.16 G The *FCA* would generally expect that the alternative method of consolidation proposed in an application described in *MIFIDPRU 2.5.14G* would involve either:

- (1) proportional consolidation according to the share of the capital or voting rights held in the *relevant financial undertaking*, in which case the *FCA* will take into account factors equivalent to those set out in *MIFIDPRU 2.5.17R(2)* in addition to the factors in *MIFIDPRU 2.5.15G*; or
- (2) consolidation of an appropriate alternative fixed percentage of the relevant metrics attributable to the *relevant financial undertaking*.

Proportional consolidation: participations

- 2.5.17 R
- (1) This *rule* applies where a *relevant financial undertaking* forms part of an *investment firm group* because it is a *connected undertaking* due to a *participation* in accordance with *MIFIDPRU 2.4.15R*.
 - (2) For the purposes of determining the *consolidated situation* under *MIFIDPRU 2.5.7R* and *MIFIDPRU 2.5.11R*, a *UK parent entity* (“A”) may apply proportional consolidation in relation to the *relevant financial undertaking* in (1) (“B”) if the following conditions are met:

- (a) A's liability is limited to the share of capital that it holds in B;
- (b) the liability of the other shareholders or members of B ("participating undertakings") is clearly established by a legally binding and enforceable contract between A and all participating undertakings which:
 - (i) limits the liability of each party to the percentage of its shareholding;
 - (ii) clearly states that any potential losses arising from B will be borne by all shareholders or members proportionately to the share of capital held by each of them at such point in time;
 - (iii) states that any change in the share of capital of a shareholder or member is subject to the explicit consent of all the shareholders or members;
 - (iv) states that if B is recapitalised, A will inform the *FCA* in a timely manner about the progress of the recapitalisation process and that each shareholder or member is liable to contribute to the recapitalisation no more than an amount that is proportionate to its current share of capital held in A;
- (c) there are no other agreements or arrangements between any of the following that would override or undermine any of the conditions in (b);
 - (i) some or all of the participating undertakings; or
 - (ii) some or all of the participating undertakings and one or more third parties;
- (d) any participating undertakings who do not form part of the same *investment firm group* as A either:
 - (i) are subject to prudential supervision; or
 - (ii) can reasonably be expected to have sufficient resources to fund any contribution for which they may be liable under (b)(iv);
- (e) the solvency of the participating undertakings is satisfactory and can be expected to remain satisfactory;
- (f) the *UK parent entity* has notified the *FCA* in advance that it intends to apply proportional consolidation in

relation to B; and

- (g) the notification in (f) has been made using the form in *MIFIDPRU 2 Annex 3R* and submitted using the *online notification and application system*.

- 2.5.18 G Proportional consolidation allows a *UK parent entity* to include within its *consolidated situation* only a proportion of the relevant metrics associated with the *relevant financial undertaking* to which it is connected by a *participation*. The relevant proportion is equal to the proportion of capital or voting rights that comprises that *participation*.

Exemption from consolidated liquidity requirements

- 2.5.19 R A *UK parent entity* is exempt from *MIFIDPRU 2.5.11R* if:
- (1) the *UK parent entity* has applied to the *FCA* in accordance with *MIFIDPRU 2.5.20R*; and
 - (2) the application in (1) demonstrates the following to the satisfaction of the *FCA*:
 - (a) all *MIFIDPRU investment firms* in the *investment firm group* are subject to the *rules* in *MIFIDPRU 6 (Liquidity)* on an individual basis; and
 - (b) the exemption is appropriate, taking into account the nature, scale and complexity of the *investment firm group*.
- 2.5.20 R A *UK parent entity* must make an application under *MIFIDPRU 2.5.19R(1)* by completing the form in *MIFIDPRU 2 Annex 4R* and submitting it using the *online notification and application system*.

Application of conditions for classification as an SNI MIFIDPRU investment firm on a consolidated basis

- 2.5.21 R (1) This *rule* applies for the purpose of determining whether a *UK parent entity* should be treated as an *SNI MIFIDPRU investment firm* when applying the chapters of *MIFIDPRU* specified in *MIFIDPRU 2.5.7R* and *2.5.11R* on a *consolidated basis*.
- (2) Where any individual *MIFIDPRU investment firm* within the *investment firm group* has been classified as a *non-SNI MIFIDPRU investment firm* in accordance with *MIFIDPRU 1.2* (including on a combined basis under *MIFIDPRU 1.2.10R*), the *UK parent entity* in (1) must comply with the relevant chapters of *MIFIDPRU* that apply on a *consolidated basis* as if it were a *non-SNI MIFIDPRU investment firm*.

- (3) Where no individual *MIFIDPRU investment firm* within the *investment firm group* has been classified as a *non-SNI MIFIDPRU investment firm* (including on a combined basis under *MIFIDPRU 1.2.10R*), the *UK parent entity* in (1) must apply the criteria and comply with the calculation requirements in *MIFIDPRU 1.2* on the basis of the *consolidated situation*.
- (4) When applying the criteria in *MIFIDPRU 1.2* in accordance with (3), if any entity included within the *consolidated situation* is *dealing on own account*, the *UK parent entity* in (1) must comply with the relevant chapters of *MIFIDPRU* that apply on a *consolidated basis* as if it were a *non-SNI MIFIDPRU investment firm*.
- (5) For the purposes of (3), when calculating the contribution of a *collective portfolio management investment firm* to the *consolidated situation*, the *UK parent entity* is required to include only amounts that are attributable to the *investment services and/or activities* carried on by the *collective portfolio management investment firm*.
- 2.5.22 G (1) *MIFIDPRU 2.5.21R(3)* requires the relevant *UK parent entity* to consolidate all of the relevant metrics for the criteria in *MIFIDPRU 1.2.1R*.
- (2) This is separate from the application of only certain metrics (*AUM, COH*, the on- and off-balance sheet total and the total annual gross revenue) on a combined basis to an individual *MIFIDPRU investment firm* under *MIFIDPRU 1.2.10R*.
- (3) If any of the thresholds in *MIFIDPRU 1.2.1R* are exceeded on a *consolidated basis*, the relevant chapters of *MIFIDPRU* specified in *MIFIDPRU 2.5.7R* and *2.5.11R* apply to the *UK parent entity* as if it were a *non-SNI MIFIDPRU investment firm*. However, if none of the thresholds in *MIFIDPRU 1.2.1R* are exceeded on a *consolidated basis*, the relevant chapters of *MIFIDPRU* that apply on a *consolidated basis* apply to the *UK parent entity* as if it were an *SNI MIFIDPRU investment firm*.
- (4) When calculating whether the thresholds in *MIFIDPRU 1.2.1R* are exceeded on a *consolidated basis*, *MIFIDPRU 2.5.21R(5)* permits a *UK parent entity* to exclude amounts that relate to its *non-MiFID business*. However, a *UK parent entity* should not apply this approach to the calculation of the consolidated on- and off-balance sheet total for the purposes of *MIFIDPRU 1.2.1R(6)*. This is because the *FCA* does not consider that it is reasonable to subdivide a *collective portfolio management investment firm's* balance sheet in this way. Therefore, a *UK parent entity* should include the full on- and off-balance sheet

total of a *collective portfolio management investment firm* in the consolidated total for these purposes.

Prudential consolidation in practice: own funds

- 2.5.23 G (1) Where *MIFIDPRU 3* applies on a *consolidated basis*, the total consolidated *own funds requirement* of an *investment firm group* must be met by consolidated *own funds*. Consolidated *own funds* must satisfy the requirements of *MIFIDPRU 3* and the deductions from consolidated *own funds* must be applied in accordance with that chapter as it applies on a *consolidated basis*.
- (2) *MIFIDPRU 2.5.10R* applies the provisions on minority interests and *additional tier 1 instruments* and *tier 2 instruments* issued by *subsidiaries* in Title II of Part Two of the *UK CRR* to a *UK parent entity*, but with the modifications set out in that *rule*.
- (3) The determination of consolidated *own funds* should be consistent with any reporting of consolidated financial statements that the *FCA* may require. Under section 165(6) and (7) of the *Act*, the *FCA* may require a *UK parent entity* to provide independent verification of the calculation of its consolidated *own funds*.

Prudential consolidation in practice: own funds requirement

General

- 2.5.24 G (1) Generally, the same approach to *own funds requirements* that applies to a *MIFIDPRU investment firm* on an individual basis under *MIFIDPRU 4* applies to a *UK parent entity* on a *consolidated basis*.
- (2) Where *MIFIDPRU 4* applies on a *consolidated basis*, the consolidated *own funds requirement* is the highest of the components of the *own funds requirement* specified in *MIFIDPRU 4.3* as they apply on a *consolidated basis* – i.e. the highest of:
- (a) the consolidated *fixed overheads requirement*;
 - (b) the consolidated *permanent minimum capital requirement*; or
 - (c) the consolidated *K-factor requirement* if the *UK parent entity* is treated as a *non-SNI MIFIDPRU investment firm* in accordance with *MIFIDPRU 2.5.21R*.

Consolidated fixed overheads requirement

- 2.5.25 R (1) This *rule* applies for the purposes of a *UK parent entity's* calculation of the *fixed overheads requirement* on a *consolidated basis*.
- (2) A *UK parent entity* must:
- (a) use figures arising from its most recent:
- (i) audited consolidated *annual financial statements* after distribution of profits; or
- (ii) unaudited consolidated *annual financial statements*, where audited financial statements are not available;
- (b) if the relevant figures under (a) are not available, calculate the consolidated fixed overheads as the sum of the following:
- (i) the individual fixed overheads of the *UK parent entity*;
- (ii) the full amount of the individual fixed overheads of each *relevant financial undertaking* that is fully consolidated within the *consolidated situation*; and
- (iii) the relevant proportion of the individual fixed overheads of each *relevant financial undertaking* that is subject to proportional consolidation on a *consolidated basis*.
- (3) Where these amounts are not already included in the relevant figures under (2), a *UK parent entity* must include within its calculation of the consolidated fixed overheads any fixed expenses incurred by a third party, including a *tied agent*, on behalf of:
- (a) the *UK parent entity*; or
- (b) any *relevant financial undertaking* included in the *consolidated situation*.
- (4) Where the figures under (2)(b) include expenses that are incurred between entities included in the *consolidated situation*, the *UK parent entity* may adjust the consolidated fixed overheads figure to avoid double-counting of these amounts.
- 2.5.26 G Where the *FCA* considers that there has been a material change in the activities of the *investment firm group*, the *FCA* may use its powers under section 55L or section 143K of the *Act* to require a *UK parent*

entity to use an appropriate adjusted figure as the consolidated *fixed overheads requirement*.

Consolidated permanent minimum capital requirement

- 2.5.27 R (1) This *rule* applies for the purposes of a *UK parent entity's* calculation of the consolidated *permanent minimum capital requirement* when *MIFIDPRU 4* applies on a *consolidated basis*.
- (2) The consolidated *permanent minimum capital requirement* is the sum of the following:
- (a) for entities that are fully consolidated within the *consolidated situation*, the full amount of each of the following:
 - (i) the individual *permanent minimum capital requirement* of each *MIFIDPRU investment firm*; and
 - (ii) where applicable, the base own funds requirement or initial capital requirement of any other *relevant financial undertaking*; and
 - (b) for entities that are subject to proportional consolidation under the *consolidated situation*, the relevant proportion of each of the amounts specified in (a).
- (3) For the purposes of (2):
- (a) references to a *MIFIDPRU investment firm* include a *third country* entity within the *investment firm group* that would satisfy the definition if it were established in the *UK*; and
 - (b) the individual *permanent minimum capital requirement*, base own funds requirement or initial capital requirement of any *third country* entity in (a) is the individual requirement that would apply if that entity were established in the *UK*.

Consolidated K-Factor Requirement

- 2.5.28 G (1) The general principle is that the consolidated *K-factor requirement* should be calculated on the basis of the *consolidated situation* of a *UK parent entity*, so that the entities included in the *consolidated situation* are treated as if they form a single *MIFIDPRU investment firm*. This is subject to any *rules* in this section which require a modified approach to the relevant calculation on a *consolidated basis*.

- (2) As is the case when calculating the *K-factor requirement* on an individual basis, the *K-factor metrics* that are relevant to the *consolidated situation* depend on the *investment services and/or activities* (or equivalent activities in the case of a *third country* entity) carried on by relevant entities within the *investment firm group*. The consolidated *K-factor requirement* should be calculated in accordance with *MIFIDPRU* 4, but on the basis of the *consolidated situation*.
- (3) *MIFIDPRU* 2.5.6G contains additional *guidance* on how the consolidated *K-factor requirement* applies in relation to *tiered agents* that are included within the *consolidated situation*.

Consolidated K-AUM, K-COH and K-DTF requirements

- 2.5.29 R (1) This *rule* applies for the purposes of a *UK parent entity's* calculation on a *consolidated basis* of the following:
- (a) the *K-AUM requirement*;
 - (b) the *K-COH requirement*; and
 - (c) the *K-DTF requirement*.
- (2) Subject to (4), the consolidated *AUM*, *COH* or *DTF* for the purposes of (1) is the sum of the following:
- (a) the full amount of the relevant individual *K-factor metrics* of each *MIFIDPRU investment firm* that is fully consolidated within the *consolidated situation*; and
 - (b) the relevant proportion of the relevant individual *K-factor metrics* of each *MIFIDPRU investment firm* that is subject to proportional consolidation on a *consolidated basis*.
- (3) For the purposes of (2):
- (a) references to a *MIFIDPRU investment firm* include a *third country* entity within the *investment firm group* that would satisfy that definition if it were established in the *UK*; and
 - (b) the relevant individual *K-factor metric* of any *third country* entity in (a) is the individual *K-factor metric* that would be attributable to that entity if that entity were established in the *UK*.
- (4) Where the consolidated *AUM*, *COH* or *DTF* under (2) includes amounts attributable to transactions or arrangements solely between two or more entities included within the *consolidated*

situation, those amounts are excluded when calculating the consolidated *AUM*, *COH* or *DTF*.

Consolidated K-CMH and K-ASA requirements

- 2.5.30 R The consolidated *K-CMH requirement* and consolidated *K-ASA requirement* for an *investment firm group* must be calculated in accordance with the following:
- (1) the contribution of any individual *MIFIDPRU investment firm* to the *consolidated situation* must be determined by applying the *rules* for calculating *CMH* and *ASA* in *MIFIDPRU* 4.8 and 4.9 to that individual *firm*; and
 - (2) the contribution of any other entity (“X”) in the *investment firm group* to the *consolidated situation* must be determined by:
 - (a) identifying whether, in the course of, or in connection with, business which would be *MiFID business* if it were carried on by a *MIFIDPRU investment firm* in the *UK*, X holds:
 - (i) any *money* that was received from its *clients*; or
 - (ii) any assets belonging to its *clients*;
 - (b) subject to (3), applying the calculation *rules* in *MIFIDPRU* 4.8 or 4.9 to the amounts in (a) by treating:
 - (i) the amounts identified in (a)(i) as *CMH*;
 - (ii) the amounts identified in (a)(ii) as *ASA*;
 - (c) where an amount under (a) was originally received by X from a client in the form of money but has subsequently been placed in a collective investment undertaking to meet segregation requirements, treating the relevant amount as:
 - (i) *ASA* if, on the insolvency of X, the relevant client would be considered to have a direct proprietary interest in the relevant units, *shares* or equivalent interests in the collective investment undertaking; or
 - (ii) *CMH* in any other circumstance.
 - (3) when applying the calculation *rules* in *MIFIDPRU* 4.8, an arrangement operated by X in relation to client money is a *segregated account* only if (ignoring *MIFIDPRU* 4.8.9E, which does not apply for these purposes) it meets the requirements in *MIFIDPRU* 4.8.8R.

- 2.5.31 R Where the *UK parent entity* of the *investment firm group* has been unable to ascertain whether:
- (1) the money or assets referred to in *MIFIDPRU 2.5.30R(2)(a)* were received or are held in the course of, or in connection with, business which would be *MiFID business* if it were carried on by a *MIFIDPRU investment firm* in the *UK*, it must treat the amounts as if they were received or are held in connection with such business;
 - (2) any amount treated as *CMH* held by *X* under *MIFIDPRU 2.5.30R(2)* is held in an account which meets the requirements to be classified as a *segregated account*, it must treat the relevant amount as held in a *non-segregated account*; and
 - (3) a client would be considered to have a direct proprietary interest in a *unit, share* or equivalent interest in a collective investment undertaking on the insolvency of *X* for the purposes of *MIFIDPRU 2.5.30R(2)(c)*, it must treat the relevant amount as *CMH*.

Consolidated K-NPR and K-CMG requirements

- 2.5.32 R A *UK parent entity* must apply the relevant provisions for the calculation of the *K-NPR requirement* in *MIFIDPRU 4* to a position or exposure included in the *consolidated situation* unless a *rule* in this section:
- (1) permits the *UK parent entity* to include that position or exposure within the calculation of the consolidated *K-CMG requirement*; or
 - (2) otherwise permits the position or exposure to be excluded from the calculation of the consolidated *K-NPR requirement*.
- 2.5.33 G For the *K-NPR requirement* there is no coefficient in *MIFIDPRU 4*. The requirement is instead based upon the concept of positions and exposures.
- 2.5.34 R
- (1) This *rule* applies to a *UK parent entity* when calculating the *K-NPR requirement* on a *consolidated basis*.
 - (2) The *UK parent entity* may only use positions in one *undertaking* to offset positions in another *undertaking* if it has obtained permission to do so in accordance with (3).
 - (3) The permission in (2) will only be granted where:
 - (a) the *UK parent entity* has applied to the *FCA* in accordance with (4); and

- (b) the application demonstrates to the satisfaction of the *FCA* that the conditions in article 325b of the *UK CRR* are met.
- (4) An entity that applies for a permission under (3) must complete the form in *MIFIDPRU 2 Annex 5R* and submit it using the *online notification and application system*.
- 2.5.35 G The effect of *MIFIDPRU 2.5.34R* is that there is no automatic offsetting of positions held by different *undertakings* within an *investment firm group* for the purposes of applying the *K-NPR requirement* on a *consolidated basis*. If a *UK parent entity* has not obtained permission under *MIFIDPRU 2.5.34R*, it must include all positions held by the relevant *undertakings* within the *investment firm group* within its calculation of the consolidated *K-NPR requirement* without netting such positions.
- 2.5.36 G (1) *MIFIDPRU 2.5.37R* to *2.5.42R* explain the circumstances in which a *UK parent entity* may calculate a *K-CMG requirement* when applying *MIFIDPRU 4* on a *consolidated basis*. Where a *UK parent entity* is not permitted to calculate a *K-CMG requirement* in relation to a relevant position included within its *consolidated situation*, it must include that position within its calculation of the consolidated *K-NPR requirement*.
- (2) *MIFIDPRU 4.13* permits a *MIFIDPRU investment firm* on an individual basis to calculate a *K-CMG requirement* for a portfolio in *trading book* if it has obtained a *K-CMG permission* from the *FCA*. A *MIFIDPRU investment firm* must calculate a *K-NPR requirement* in relation to all other *trading book* positions, and positions other than *trading book* positions where those positions give rise to foreign exchange risk or commodity risk. These positions must be included within the calculation of the *consolidated K-NPR requirement*.
- 2.5.37 R When applying *MIFIDPRU 4* on a *consolidated basis*, a *UK parent entity* may calculate a consolidated *K-CMG requirement* in relation to *portfolios* that form part of its *consolidated situation* in accordance with *MIFIDPRU 2.5.38R* to *2.5.42R*.
- 2.5.38 R (1) This *rule* applies where a *MIFIDPRU investment firm*:
- (a) is included within the *consolidated situation* of a *UK parent entity*; and
- (b) has been granted a *K-CMG permission* in relation to a *portfolio* on an individual basis.
- (2) Where this *rule* applies, the *UK parent entity* may include the *portfolio* in (1)(b) within its calculation of the consolidated *K-*

CMG requirement without requiring a further *K-CMG permission*.

- 2.5.39 G *MIFIDPRU* 2.5.38R sets out the only circumstance in which a *UK parent entity* can include a *portfolio* of a *MIFIDPRU investment firm* within the calculation of the consolidated *K-CMG requirement*. Unlike for *designated investment firms* under *MIFIDPRU* 2.5.40R and *third country entities* under *MIFIDPRU* 2.5.41R, it is not possible to make a separate application to calculate a *K-CMG requirement* in relation to that *portfolio* only on a *consolidated basis*. This reflects the *FCA*'s view that the choice of whether to calculate a *K-NPR requirement* or a *K-CMG requirement* in relation to a specific *portfolio* must be applied consistently on both an individual and consolidated level.
- 2.5.40 R (1) This *rule* applies where a *designated investment firm* (“A”) is included within the *consolidated situation* of a *UK parent entity*.
- (2) A *UK parent entity* may include a *portfolio* of A within the calculation of the *UK parent entity*'s consolidated *K-CMG requirement* if:
- (a) the *UK parent entity*, or a *MIFIDPRU investment firm* within the same *investment firm group*, has applied to the *FCA* in accordance with *MIFIDPRU* 2.5.42R; and
- (b) the application demonstrates to the satisfaction of the *FCA* that A satisfies the requirements in *MIFIDPRU* 4.13 as modified by (3) to obtain a *K-CMG permission* in respect of the portfolio on an individual basis.
- (3) For the purposes of (2), the following modifications apply to the *rules* relating to the calculation of the *K-CMG requirement* in *MIFIDPRU* 4.13:
- (a) a reference to the “*MIFIDPRU investment firm*” or “*firm*” is a reference to A;
- (b) the clearing member in *MIFIDPRU* 4.13.9R(2)(c) may be one of the following:
- (i) A itself;
- (ii) another *designated investment firm*;
- (iii) a *MIFIDPRU investment firm*;
- (iv) a *third country investment firm*;
- (v) a *UK credit institution*; or
- (vi) a *credit institution* established in a *third country*.

- (c) the reference in *MIFIDPRU* 4.13.12R to *MIFIDPRU* 4.13.9R is a reference to *MIFIDPRU* 4.13.9R as modified by this *rule*; and
 - (d) the requirement in *MIFIDPRU* 4.13.13R(1)(b) does not apply, but A must ensure that its ongoing processes and systems for assessing the nature and level of risks to which it is, or might be, exposed take into account the understanding of relevant *individuals* within A of the margin model for the purposes of considering whether:
 - (i) the resulting consolidated *K-CMG requirement* for the portfolio(s) is sufficient to cover the relevant risks to which A is exposed; and
 - (ii) the *K-CMG permission* remains appropriate in relation to the portfolio(s) in respect of which it was granted.
- 2.5.41 R (1) This *rule* applies where a *third country* entity (“B”) is included within the *consolidated situation* of a *UK parent entity*.
- (2) A *UK parent entity* may include a portfolio of B within the calculation of the *UK parent entity’s consolidated K-CMG requirement* if:
- (a) the *UK parent entity*, or a *MIFIDPRU investment firm* within the same *investment firm group*, has applied to the *FCA* in accordance with *MIFIDPRU* 2.5.42R; and
 - (b) the application demonstrates to the satisfaction of the *FCA* that B satisfies the requirements in *MIFIDPRU* 4.13 as modified by (3) to obtain a *K-CMG permission* in respect of the portfolio on an individual basis.
- (3) For the purposes of (2), the following modifications apply to the *rules* relating to the calculation of the *K-CMG requirement* in *MIFIDPRU* 4.13:
- (a) a reference to the “*MIFIDPRU investment firm*” or “*firm*” is a reference to B;
 - (b) the *clearing member* for the purposes of *MIFIDPRU* 4.13.9R(2)(c) may be any of the following:
 - (i) an entity listed in *MIFIDPRU* 4.13.9R(2)(c);
 - (ii) another entity that the application in (2)(a) demonstrates is subject to appropriate prudential regulation and supervision in the jurisdiction in which it operates; or

- (iii) B itself, provided that the application demonstrates that B satisfies the conditions in (ii);
- (c) a reference to the “*clearing member*” is a reference to the *clearing member* in (b);
- (d) the reference in *MIFIDPRU* 4.13.12R to:
 - (i) *MIFIDPRU* 4.13.9R is a reference to *MIFIDPRU* 4.13.9R as modified by this *rule*; and
 - (ii) both the *clearing member* and *client* of the *clearing member* being entities listed in *MIFIDPRU* 4.13.9R(2)(c) is to both of those entities being entities listed in (b)(i) or (b)(ii);
- (e) the obligation in *MIFIDPRU* 4.13.13R(1)(b) does not apply, but B must ensure that its ongoing processes and systems for assessing the nature and level of risks to which it is, or might be, exposed incorporate the understanding of relevant *individuals* within B of the margin model for the purposes of considering whether:
 - (i) the resulting consolidated *K-CMG requirement* for the *portfolio(s)* is sufficient to cover the relevant risks to which B is exposed; and
 - (ii) the *K-CMG permission* remains appropriate in relation to the *portfolio(s)* in respect of which it was granted.

- 2.5.42 R (1) A UK parent entity or a *MIFIDPRU investment firm* within the same *investment firm group* that wishes to apply for a *K-CMG permission* in relation to one or more *portfolios* included in the *consolidated situation* of its *investment firm group* must complete the application form in *MIFIDPRU* 2 Annex 6R or *MIFIDPRU* Annex 7R and submit it using the *online notification and application system*.
- (2) A single application under (1) may be made in respect of multiple portfolios of multiple entities referenced in *MIFIDPRU* 2.5.40R or 2.5.41R, provided that the application demonstrates to the *FCA* how the relevant conditions in *MIFIDPRU* 4.13.9R (as modified by *MIFIDPRU* 2.5.40R(3) in relation to a *portfolio* of a *designated investment firm* or *MIFIDPRU* 2.5.41R(3) in relation to a *portfolio* of a *third country entity*) are satisfied in respect of each such *portfolio*.

- (3) A *UK parent entity* or *MIFIDPRU investment firm* that submits an application under (1) must have the necessary authority to make the application on behalf of all entities within the *investment firm group* whose portfolios are the subject of that application.

Consolidated K-TCD requirement

- 2.5.43 G (1) For the *K-TCD requirement* there is no coefficient in *MIFIDPRU 4*. The requirement is instead based upon the concept of positions and exposures. The relevant provisions in *MIFIDPRU 4* for calculating the *K-TCD requirement* should therefore also be applied to transactions included in the *consolidated situation*.
- (2) When calculating the *K-TCD requirement* on a *consolidated basis*, transactions between counterparties included in the *consolidated situation* are disregarded. This applies irrespective of whether the exclusion in *MIFIDPRU 4.14.6R* applies to a transaction when a *MIFIDPRU investment firm* is calculating its *K-TCD requirement* on an individual basis.
- 2.5.44 R (1) When calculating its *K-TCD requirement* on a *consolidated basis*, a *UK parent entity* may only net offsetting transactions entered into between one or more entities included in the *consolidated situation* and a third party counterparty if the conditions in *MIFIDPRU 4.14.28R*, as modified by (2), are met.
- (2) When applying *MIFIDPRU 4.14.28R* on the basis of the *consolidated situation*, the following modifications apply:
- (a) any netting agreement or netting contract referenced in that *rule* must cover all entities included in the *consolidated situation* whose transactions with the same third party counterparty are being netted;
- (b) any references in that *rule* to the rights and obligations of the “*firm*” refer to the rights and obligations of the entities included in the *consolidated situation* whose transactions with the same third party counterparty are being netted; and
- (c) the legal opinion referenced in *MIFIDPRU 4.14.28R(3)(c)*:
- (i) may be obtained by the *UK parent entity* or any *MIFIDPRU investment firm* in the *investment firm group*; and

- (ii) must address the relevant claims and obligations of all entities included in the *consolidated situation* whose transactions with the same third party counterparty are being netted.

Consolidated K-CON requirement

- 2.5.45 G (1) The *K-CON requirement* under *MIFIDPRU 5* applies to a *MIFIDPRU investment firm* on an individual basis in relation to positions held in its *trading book*. Broadly, the *K-CON requirement* is calculated by reference to all relevant *trading book* exposures that exceed the *concentration risk soft limit*.
- (2) *MIFIDPRU 2.5.46R* explains how the *K-CON requirement* applies on a *consolidated basis*.
- 2.5.46 R When a *UK parent entity* is calculating a *K-CON requirement* on the basis of its *consolidated situation*, the provisions in *MIFIDPRU 5* apply, subject to the following:
- (1) the *exposure value* with regard to an individual *client* or *group of connected clients* must be calculated on the basis of all relevant exposures included in the *consolidated situation*;
 - (2) to the extent that the calculation *rules* for the *K-NPR requirement* or *K-TCD requirement* are relevant to the calculation of an *exposure value* under *MIFIDPRU 5.4* or the *OFR* under *MIFIDPRU 5.7.3R(2)*, the *UK parent entity* must apply the methods for the calculation of the consolidated *K-NPR requirement* in *MIFIDPRU 2.5.32R* to *2.5.34R* and consolidated *K-TCD requirement* in *2.5.43G* to *2.5.44R*; and
 - (3) the *own funds* to be used for the purposes of calculating the limits in *MIFIDPRU 5.5* and *MIFIDPRU 5.9* on a *consolidated basis* are the consolidated *own funds* of the *investment firm group*, as explained in the *guidance* in *MIFIDPRU 2.5.23G*.

Prudential consolidation in practice: liquidity

- 2.5.47 R When applying *MIFIDPRU 6* on a *consolidated basis*, a *UK parent entity* must ensure that the total *liquid assets* held by the *UK entities* included within the *consolidated situation* are equal to or greater than the consolidated *liquid assets* requirement.
- 2.5.48 G (1) *MIFIDPRU 2.5.11R* requires a *UK parent entity* to comply with the liquidity requirements in *MIFIDPRU 6* on the basis of its *consolidated situation*. In practice, this means that the *UK parent entity* must ensure that the *investment firm group* holds *liquid assets* equivalent to one third of the consolidated *fixed overhead requirement*, plus 1.6% of the total amount of any

guarantees provided to *clients* by entities included within the *consolidated situation*.

- (2) Under *MIFIDPRU 2.5.47R*, the required amount of consolidated liquid assets must be held by the *UK* entities included within the *consolidated situation*. This means that while *third country* entities may contribute to the consolidated *liquid assets* requirement (through the consolidated *fixed overheads* requirement), any *liquid assets* held by a *third country* entity do not count towards the *liquid assets* held by the *investment firm group* for the purposes of that *rule*.
- (3) *UK parent entities* are reminded that:
 - (a) the consolidated *liquid assets* requirement applies only where the *UK parent entity* is subject to consolidation obligations under *MIFIDPRU 2.5.11R*. It does not apply where the *group capital test* under *MIFIDPRU 2.6* applies to an *investment firm group* instead (although *MIFIDPRU 6* will continue to be relevant to *MIFIDPRU investment firms* within that *investment firm group* on an individual basis in such circumstances); and
 - (b) a *UK parent entity* that is subject to consolidation obligations under *MIFIDPRU 2.5.11R* is exempt from the consolidated liquidity requirement if the conditions in *MIFIDPRU 2.5.19R* are met.

Prudential consolidation in practice: disclosure by investment firms

2.5.49 G [This provision has been intentionally left blank.]

Prudential consolidation in practice: reporting by investment firms

2.5.50 G Under *MIFIDPRU 2.5.7R*, a *UK parent entity* must comply with the reporting obligations in *MIFIDPRU 9* on a *consolidated basis*. In practice, this involves reporting the same categories of information that would be reported by a *MIFIDPRU investment firm* to the *FCA* on an individual basis, but using the figures that result from applying the relevant requirements on a *consolidated basis* in accordance with this section. This does not apply to data item MIF007 (ICARA assessment questionnaire), which does not need to be submitted on a consolidated basis.

Prudential consolidation in practice: governance requirements

2.5.51 G (1) Under *MIFIDPRU 7.1.3R*, a *UK parent entity* to which *MIFIDPRU 2.5.7R* applies must comply with the general governance requirements in *MIFIDPRU 7.2* (Senior management and systems and controls) on a *consolidated basis*. In practice, this means that the *UK parent entity* must ensure that it has a proper organisational structure, effective processes

and adequate internal controls covering the business of the *investment firm group*.

- (2) The requirements in *MIFIDPRU 7.3* (Risk, remuneration and nomination committees) do not apply on a *consolidated basis*.

Prudential consolidation in practice: ICARA requirements

- 2.5.52 G As explained in *MIFIDPRU 7.9.4G*, an *investment firm group* is not required to operate an *ICARA process* on a *consolidated basis*. However, *MIFIDPRU 7.9.5R* permits an *investment firm group* to operate a single *group ICARA process* covering the business carried on by that *investment firm group*, provided that certain requirements are met.

2.6 The group capital test

- 2.6.1 R This section applies to an *investment firm group* that has been granted permission by the *FCA* to apply the *group capital test* under *MIFIDPRU 2.4.17R*.

Group capital test: requirements

- 2.6.2 R For the purposes of *MIFIDPRU 2.6*:
- (1) ‘own funds instruments’ means own funds as defined in *MIFIDPRU 3*, without applying the deductions referred to in *MIFIDPRU 3.3.6R(8)*, article 56(d), and article 66(d) of the *UK CRR*;
 - (2) the terms ‘*investment firm*’, ‘*financial institution*’, ‘*ancillary services undertaking*’, ‘*tied agent*’ and ‘*relevant financial undertaking*’ include *undertakings* established in *third countries* that would satisfy the definitions of those terms if they were established in the *UK*.
- 2.6.3 G The definition of ‘own funds instruments’ for the purpose of *MIFIDPRU 2.6.2R* ensures that significant investments in *common equity tier 1 instruments*, *additional tier 1 instruments* and *tier 2 instruments* of financial sector entities in the *investment firm group* do not need to be deducted by a *parent undertaking* when applying the *group capital test*. This is to avoid ‘double counting’ of those investments.
- 2.6.4 G *MIFIDPRU 3.7* contains *rules* and *guidance* on the composition of capital for *parent undertakings* subject to the *group capital test*.
- 2.6.5 R Where the *FCA* has granted an application under *MIFIDPRU 2.4.17R*, a *UK parent entity* and any other *GCT parent undertakings* in the *investment firm group* must hold own funds instruments sufficient to cover the sum of the following:

- (1) the sum of the full book value of their holdings, subordinated claims and instruments referred to in *MIFIDPRU* 3.3.6R(8), article 56(d), and article 66(d) of the *UK CRR* in *relevant financial undertakings* in the *investment firm group*; and
- (2) the total amount of their contingent liabilities in favour of *relevant financial undertakings* in the *investment firm group*.
- 2.6.6 G (1) Each *GCT parent undertaking* in the *investment firm group* must satisfy the *group capital test*. The *group capital test* can therefore apply at each level within the group structure. This mitigates the risk of leverage or capital gearing being introduced at levels underneath the *UK parent entity*.
- (2) The requirement in *MIFIDPRU* 2.6.5R only applies to *GCT parent undertakings*. However, *MIFIDPRU* 2.6.7R imposes obligations on *GCT parent undertakings* in relation to their *subsidiaries* that are:
- (a) *parent undertakings* established in a *third country*; or
- (b) *parent undertakings* incorporated in, or with their principal place of business in, the *UK* that are not *GCT parent undertakings*.
- (3) This prevents leverage and capital gearing being introduced into the *investment firm group* through:
- (a) *intermediate parent undertakings* established in a *third country*; or
- (b) *intermediate parent undertakings* in the *UK* to which the *group capital test* does not directly apply.
- 2.6.7 R (1) This *rule* applies where:
- (a) an *investment firm group* has been granted permission to apply the *group capital test* under *MIFIDPRU* 2.4.17R; and
- (b) a *parent undertaking* in that *investment firm group* is a *relevant financial undertaking* and either:
- (i) is established in a *third country*; or
- (ii) is incorporated in, or has its principal place of business in, the *UK* and is not a *GCT parent undertaking*.
- (2) Where this *rule* applies, the *responsible UK parent* must either:

- (a) ensure that the *undertaking* in (1)(b) holds own funds instruments sufficient to cover the sum of the amounts in *MIFIDPRU* 2.6.5R(1) and (2) as they would apply to that *undertaking*; or
- (b) hold own funds instruments sufficient to cover the sum of the amounts in *MIFIDPRU* 2.6.5R(1) and (2) that:
 - (i) apply to the *responsible UK parent* itself; and
 - (ii) would apply to the *undertaking* in (1)(b).

2.6.8 G (1) The effect of *MIFIDPRU* 2.6.7R is shown through the example below of a hypothetical *investment firm group* that contains the following *undertakings*:

- (a) a *UK parent entity* (“A”);
- (b) an intermediate *investment holding company* (“B”), that is incorporated in the *UK* and is a direct *subsidiary* of A;
- (c) an *undertaking* established in a *third country* (“C”) that would be an *investment holding company* if it were established in the *UK* and that is a direct *subsidiary* of B;
- (d) an *undertaking* established in a *third country* (“D”) that would be a *MIFIDPRU investment firm* if it were established in the *UK* and that is a direct *subsidiary* of C;
- (e) a *MIFIDPRU investment firm* (“E”) that is a direct *subsidiary* of D;
- (f) a *tied agent* (“F”) that is established in the *UK* and that is a direct *subsidiary* of B;
- (g) an *undertaking* established in a *third country* (“G”) that would be a *financial institution* if it were established in the *UK* and that is a direct *subsidiary* of C;
- (h) an intermediate holding company (“H”) that is incorporated in the *UK* and is a direct *subsidiary* of A; and
- (i) an *authorised payment institution* (“I”) that is incorporated in the *UK* and is a direct *subsidiary* of H.

(2) The *group capital test*:

- (a) applies directly to A and B because they are both *GCT parent undertakings*;

- (b) applies only indirectly to C and D, through the obligations imposed on the *responsible UK parent*, because C and D are *parent undertakings* established in a *third country*;
 - (c) applies only indirectly to H, through the obligations imposed on A in its capacity as the *responsible UK parent*, because H is not a *GCT parent undertaking*; and
 - (d) does not apply to E, F, G or I because they are not *parent undertakings*.
- (3) In this example, B is a *responsible UK parent* because:
- (a) B has two *subsidiaries* (a direct *subsidiary*, C, and an indirect *subsidiary*, D) that are both *parent undertakings* established in a *third country* and that would be *relevant financial undertakings* if they were established in the *UK*; and
 - (b) B does not have a *subsidiary* in the *UK* that is the *parent undertaking* of C or D. (Although F is a *UK subsidiary* of B, F is not a *parent undertaking*.) This means that there is no intermediate *parent undertaking* in the *UK* between B and either of C or D.
- (4) A is not a *responsible UK parent* in relation to C and D. This is because A has a *subsidiary*, B, that is a *parent undertaking* of C and D and that is incorporated in the *UK*. B is therefore an intermediate *parent undertaking* in the *UK* between A on the one hand and C and D on the other.
- (5) B is a *responsible UK parent* in relation to C and D. Note that B is the *responsible UK parent* of both C and D, even though D is only an indirect *subsidiary* of B. This is because there is no *parent undertaking* between C and D that is established in the *UK* and the definition of a *subsidiary* includes *subsidiaries of subsidiaries*.
- (6) Under *MIFIDPRU 2.6.7R(2)*, B therefore has the choice of whether to:
- (a) ensure that both C and D comply with the requirements of the *group capital test* as it would apply to them if they were established in the *UK*; or
 - (b) hold own funds instruments that are sufficient to cover the sum of the requirements of the *group capital test* that apply to B and would apply to C and D if they were established in the *UK*.

- (7) If B chooses the approach in (6)(a), B must:
- (a) hold sufficient own funds instruments to cover the sum of B's holdings in, and contingent liabilities in favour of, C and F;
 - (b) ensure that C holds sufficient own funds instruments to cover the sum of C's holdings in, and contingent liabilities in favour of, D and G; and
 - (c) ensure that D holds sufficient own funds instruments to cover the sum of D's holdings in, and contingent liabilities in favour of, E.
- (8) If B chooses the approach in (6)(b), B must hold sufficient own funds instruments to cover the sum of:
- (a) B's holdings in, and contingent liabilities in favour of, C and F;
 - (b) C's holdings in, and contingent liabilities in favour of, D and G; and
 - (c) D's holdings in, and contingent liabilities in favour of, E.
- (9) A is, however, a *responsible UK parent* in relation to H. This is because A is a *GCT parent undertaking* that is the *parent undertaking* of H. H is a *relevant financial undertaking* (being a holding company, and therefore a *financial institution*) and a *parent undertaking*. H is not a *GCT parent undertaking* because H is not an *authorised person* and does not have a *MIFIDPRU investment firm* as a *subsidiary*. There is also no intermediate *GCT parent undertaking* between A and H.
- (10) In a similar way to B above, A therefore has a choice under *MIFIDPRU 2.6.7R(2)* of whether to:
- (a) ensure that H complies with the requirements of the *group capital test* as if it applied directly to H; or
 - (b) hold own funds instruments that are sufficient to cover the sum of the requirements of the *group capital test* that apply to A and would apply to H.
- (11) If A chooses the approach in (10)(a), A must:
- (a) hold sufficient own funds instruments to cover the sum of A's holdings in, and contingent liabilities in favour of, B and H; and

- (b) ensure that H holds sufficient own funds instruments to cover the sum of H's holdings in, and contingent liabilities in favour of, I.
- (12) If A chooses the approach in (10)(b), A must hold sufficient own funds instruments to cover the sum of:
- (a) A's holdings in, and contingent liabilities in favour of, B and H; and
 - (b) H's holdings in, and contingent liabilities in favour of, I.
- 2.6.9 R A *UK parent entity* must have systems in place to monitor and control the sources of capital and funding of all *relevant financial undertakings* within the *investment firm group*.

Group capital test: reporting requirements

- 2.6.10 R (1) Where the *FCA* has granted an application under *MIFIDPRU 2.4.17R*, a *UK parent entity* and any other *GCT parent undertakings* in the *investment firm group* must comply with the reporting requirements in (2).
- (2) Each *GCT parent undertaking* in (1) must:
- (a) report in accordance with *MIFIDPRU 9* how that *GCT parent undertaking* meets the *group capital test*; and
 - (b) if the *GCT parent undertaking* is a *responsible UK parent*, also report in accordance with *MIFIDPRU 9* how:
 - (i) the *undertaking* in *MIFIDPRU 2.6.7R(1)(b)* holds the required amount of own funds instruments referenced in *MIFIDPRU 2.6.7R(2)(a)*; or
 - (ii) the *GCT parent undertaking* holds at least the amount of own funds instruments to cover the amount applicable to the *undertaking* in *MIFIDPRU 2.6.7R(1)(b)*, as referenced in *MIFIDPRU 2.6.7R(2)(b)*.
- 2.6.11 R An *investment firm group* may designate one *parent undertaking* in the *UK* to submit reports to the *FCA* under *MIFIDPRU 2.6.10R* on behalf of the *GCT parent undertakings* in the *investment firm group*.

Inclusion of holding companies in supervision of compliance with the group capital test

- 2.6.12 G *UK investment holding companies and UK mixed financial holding companies* are included in the *FCA's* supervision of compliance with the *group capital test* where they are *GCT parent undertakings*.

2.7 **Investment holding companies, mixed financial holding companies and mixed-activity holding companies**

Qualifications of directors

- 2.7.1 G Under section 143R of the *Act*, a *UK investment holding company*, *UK mixed financial holding company* or *UK mixed-activity holding company* must take reasonable care to ensure that the members of its *management body* are of sufficiently good repute and possess sufficient knowledge, skills and experience to perform their duties effectively.

Mixed-activity holding companies

- 2.7.2 G (1) Under section 165 of the *Act*, the *FCA* may require a *parent undertaking* of a *MIFIDPRU investment firm* to provide information that is relevant for the *FCA's* supervision of the *MIFIDPRU investment firm*.
- (2) Under section 167 of the *Act*, the *FCA* may appoint an investigator to verify the information received from a *parent undertaking* of a *MIFIDPRU investment firm* and any *subsidiaries* of that *parent undertaking*.
- (3) The powers in (1) and (2) also apply to a *mixed-activity holding company*.
- 2.7.3 R (1) Where the *parent undertaking* of a *MIFIDPRU investment firm* is a *UK mixed-activity holding company*, the *MIFIDPRU investment firm* must have in place adequate risk management processes and internal control mechanisms.
- (2) The processes and mechanisms in (1) must include sound reporting and accounting procedures to identify, measure, monitor and control transactions between the *firm*, the *UK mixed-activity holding company* and its *subsidiaries*.

Sanctions

- 2.7.4 G Under section 143W of the *Act*, the *FCA* may impose disciplinary measures on the following, where they are not *authorised persons*, to end or mitigate breaches of a requirement under the *MIFIDPRU sourcebook* or sections 143K, 143R or 143S(6) of the *Act*:
- (1) a *UK investment holding company*;
- (2) a *UK mixed financial holding company*;
- (3) a *UK mixed-activity holding company*; or

- (4) a member of the *management body* of the entities in (1) to (3).

MIFIDPRU 2 Annex 2R

Application under MIFIDPRU 2.4.17R for permission to apply the group capital test to an investment firm group instead of prudential consolidation

Details of Senior Manager responsible for this application:

If the application is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please confirm that the applicant firm has the necessary authority to make this application on behalf of all undertakings within the investment firm group which would be subject to the group capital test.
 - Yes
2. Please attach a group structure chart which:
 - a. identifies each undertaking in the investment firm group; and
 - b. indicates any undertaking that is a relevant financial undertaking, and which type of financial undertaking it is.
 - Attached
3. Please give details of the nature of business or activities carried out by each undertaking in the group.

FRN	Name of undertaking	Business/activities that bring the undertaking within the scope of investment firm group consolidation	Other unregulated business/activities

4. Please give details of the nature and degree of ownership or control connecting each undertaking to the investment firm group. This should include any that are connected undertakings.

FRN	Name of undertaking	Nature of ownership or control	Degree of ownership or control (where applicable)

5. Please explain why the group structure is simple enough to apply the group capital test. Please substantiate your response by providing supporting information.

Supporting information attached

6. Please explain why you do not believe there to be any significant risks to clients or to the market stemming from the group that would mean that it should be supervised on a consolidated basis.

7. Please attach calculations to demonstrate how each parent undertaking satisfies the group capital test.

Attached

8. Please demonstrate that the book value of each parent undertaking’s investment in a subsidiary is a fair reflection of the consideration paid by the parent undertaking for that subsidiary. This includes subsidiaries that are not part of the investment firm group. Please substantiate your response by providing supporting evidence.

Supporting evidence attached

9. Please provide details, including calculations, of the own funds and liquid assets requirements, which would apply if the group was subject to prudential consolidation in accordance with MIFIDPRU 2.5. Please indicate whether you are attaching this as a separate document.

Notification under MIFIDPRU 2.5.17R of the intended use of proportional consolidation in respect of a relevant financial undertaking

Details of Senior Manager responsible for this notification:

If the notification is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please provide the FRN and name of the UK parent entity:

FRN	UK parent entity name

2. Please provide details of the relevant financial undertaking(s) which are connected undertakings by virtue of a participation in accordance with MIFIDPRU 2.4.15R.

FRN	Name of relevant financial undertaking	Proportion included in prudential consolidation

3. Please confirm that the UK parent entity (A) satisfies the following conditions in MIFIDPRU 2.5.17R(2) in order to be able to apply proportional consolidation in relation to each relevant financial undertaking listed above (B) and that if requested, you can readily provide information to demonstrate compliance.
- a. A's liability is limited to the share of capital that it holds in B;
 - b. The liability of the other shareholders or members of B ("participating undertakings") is clearly established by means of a legally binding and enforceable contract between A and all participating undertakings which:

- i. limits the liability of the parties to the percentage of each shareholding;
 - ii. clearly states that any potential losses arising from B will be borne by all shareholders or members proportionately to the share of capital held by each of them at such point in time;
 - iii. clarifies that any changes in the share of capital of the shareholders or members are subject to the explicit consent of all the shareholders or members; and
 - iv. specifies that should B be recapitalised, A shall inform the FCA in a timely manner about the progress of the recapitalisation process and that each shareholder or member shall be liable to contribute to the recapitalisation no more than an amount that is proportionate to its current share of capital held in A;
- c. There are no other agreements or arrangements between any of the following that would override or undermine any of the conditions in b.:
- i. some or all of the participating undertakings; or
 - ii. some or all of the participating undertakings and one or more third parties;
- d. Any participating undertakings who do not form part of the same investment firm group as A either:
- i. are subject to prudential supervision; or
 - ii. can reasonably be expected to have sufficient resources to fund any contribution for which they may be liable under b.iv.; and
- e. The solvency of the participating undertakings is satisfactory and can be expected to remain so.
- Yes, we satisfy all above conditions and can readily provide information to demonstrate compliance.

2. Please provide details of the offsetting arrangement and the positions subject to it.

--

3. Please explain the expected impact of the offsetting arrangement on the consolidated K-NPR requirement should the permission be granted.

--

4. Please explain how you meet the following conditions set out in article 325b of the UK CRR:

- a. There is a satisfactory allocation of own funds within the group

- b. The regulatory, legal, or contractual framework in which the undertakings operate guarantees mutual financial support within the group

- 5. Where undertakings are located in third countries, please explain how you additionally meet the following conditions:

- a. Such undertakings are authorised in a third country and are either a credit institution or a third country investment firm (as defined in article 4(1)(25) UK CRR)

- b. On an individual basis, such undertakings comply with own funds requirements equivalent to those laid down in the UK CRR

- c. No regulations exist in those third countries which might significantly affect the transfer of funds within the group

Name	

3. Please confirm that the consolidating UK parent entity and the designated investment firm are not part of a group containing a credit institution.

Yes

4. Please list the portfolios to which this application relates. Please allocate a different name to each portfolio, and then complete the remaining questions below separately in relation to each portfolio.

#	Portfolio name
Portfolio 1	
Portfolio 2	
Portfolio 3	
Portfolio ...	

The questions that follow must be completed separately for each portfolio this application relates to.

5. Please state the name of the portfolio for which a K-CMG permission is requested.

--

6. Please list all types of positions within the portfolio.

--

7. Please list all models used to value the positions within the portfolio.

--

8. Does the portfolio cover all of the designated investment firm’s trading book positions?

If the designated investment firm has positions outside of the trading book that give rise to foreign exchange or commodities risk, the FCA would generally expect K-NPR to be calculated in relation to these positions.

- Yes
 No ▶ Give details below

--

9. Please confirm that the clearing and settlement of transactions in the relevant portfolio take place under the responsibility of a clearing member of an authorised or recognised central counterparty.

- Yes

10. Please confirm which of the following applies:

a. The designated investment firm itself is the clearing member	Yes/No
b. The designated investment firm is a direct client of the clearing member	Yes/No
c. The designated investment firm is an indirect client of the clearing member	Yes/No

11. Where the designated investment firm is not itself the clearing member, please provide the following information:

Name of clearing member	
-------------------------	--

Status of clearing member	<i>Select one of the following:</i> <ul style="list-style-type: none"> ● a MIFIDPRU investment firm ● other designated investment firm ● a third country investment firm ● a UK credit institution ● a third country credit institution
FRN/LEI of clearing member	

Where the designated investment firm is an indirect client of the clearing member, please provide the following information:

Name of intermediary	
Status of intermediary	<i>Select one of the following:</i> <ul style="list-style-type: none"> ● a MIFIDPRU investment firm ● other designated investment firm ● a third country investment firm ● a UK credit institution ● a third country credit institution
FRN/LEI of intermediary	

Where the clearing member and/or the intermediary do not have an FRN or LEI, please explain why and provide alternative details.

12. One of the conditions of the K-CMG permission is that transactions in the relevant portfolio are either:
- a. centrally cleared in an authorised or recognised central counterparty; or
 - b. settled on a delivery-versus-payment basis under the responsibility of the clearing member.

Please explain how this specific condition is satisfied.

13. In order to meet the conditions of the K-CMG permission, the designated investment firm is required to provide total margin calculated on the basis of a margin model that meets the criteria set out in MIFIDPRU 4.13.14R.
- a. Please confirm whether the margin model is operated:

By the authorised or recognised central counterparty <i>applies to self-clearing firms</i>	Yes/No
By the relevant clearing member <i>applies to firms other than self-clearing firms</i>	Yes/No

- b. Please provide further details of the margin model, including how it satisfies the specific criteria in MIFIDPRU 4.13.14R.

- c. Please confirm whether the parameters of the margin model meet the EMIR standards.

- Yes
 No ▶ Give details below of the mathematical adjustments that have been applied to produce an alternative margin requirement (see MIFIDPRU 4.13.14R(2))

- d. Please explain how this alternative requirement is at least equivalent to the margin requirement that would be produced by a margin model that meets the EMIR standards.

- e. Please attach a copy of the agreement with the clearing member concerning the margin model and collateral used.

- Attached

14. Please explain the rationale for the decision to calculate a consolidated K-CMG requirement in relation to the portfolio to which this application relates. In your response, please demonstrate that you have taken adequate account of the nature of, and risk arising from, the designated investment firm's trading activities, including whether:

- a. the main activities of the designated investment firm are essentially trading activities that are subject to clearing and margining under the responsibility of a clearing member; and
b. other activities performed by the designated investment firm are material in comparison to those main activities.

15. Please confirm that the rationale for the decision has been clearly documented and approved by the relevant management body or risk management function.

- Yes

16. Please show how the consolidated capital requirement calculated using K-CMG compares with that calculated using K-NPR.

17. Please confirm who within the designated investment firm is accountable for the operation of the margin model used. Please provide details of the specific role or function where the knowledge about the margin model sits within the firm (e.g. Head of Risk Management, Head of Models, etc.), rather than an individual's name.

18. In order to meet the conditions for the K-CMG permission, the designated investment firm must have in place ongoing processes and systems for assessing the nature and level of risks to which it is, or might be, exposed, which take into account the understanding of relevant individuals within the firm of the margin model to determine whether:
- a. the resulting consolidated K-CMG requirement for the portfolio is sufficient to cover the relevant risks to which the designated investment firm is exposed; and
 - b. the K-CMG permission remains appropriate in relation to the portfolio for which it was granted.

Please confirm that the designated investment firm's ongoing processes and systems satisfy these requirements.

Yes

19. Please confirm your understanding that you must notify the FCA immediately if any of the conditions in MIFIDPRU 4.13.9R (as modified by MIFIDPRU 2.5.40R(3)) are no longer met by any of the portfolios to which this application relates.

13. One of the conditions of the K-CMG permission is that transactions in the relevant portfolio are either:
- a. centrally cleared in an authorised or recognised central counterparty; or
 - b. settled on a delivery-versus-payment basis under the responsibility of the clearing member.

Please explain how this specific condition is satisfied.

14. In order to meet the conditions of the K-CMG permission, the third country entity is required to provide total margin calculated on the basis of a margin model that meets the criteria set out in MIFIDPRU 4.13.14R.

- a. Please confirm whether the margin model is operated:

By the authorised or recognised central counterparty <i>applies to self-clearing firms</i>	Yes/No
By the relevant clearing member <i>applies to firms other than self-clearing firms</i>	Yes/No

- b. Please provide further details of the margin model, including how it satisfies the specific criteria in MIFIDPRU 4.13.14R.

- c. Please confirm whether the parameters of the margin model meet the EMIR standards.

- a. the main activities of the third country entity are essentially trading activities that are subject to clearing and margining under the responsibility of a clearing member; and
- b. other activities performed by the third country entity are material in comparison to those main activities.

16. Please confirm that the rationale for the decision has been clearly documented and approved by the relevant management body or risk management function.

Yes

17. Please provide an indication of how the consolidated capital requirement calculated using K-CMG compares with that calculated using K-NPR.

18. Please confirm who within the third country entity is accountable for the operation of the margin model used. Please provide details of the specific role or function where the knowledge about the margin model sits within the entity (e.g. Head of Risk Management, Head of Models, etc.), rather than an individual's name.

19. Please confirm that the third country entity's ongoing processes and systems for assessing the nature and level of risks to which it is, or might be, exposed take into account the understanding of relevant individuals identified in Question 17 of the margin model for the purposes of considering whether:

- a. the resulting consolidated K-CMG requirement for the portfolio is sufficient to cover the relevant risks to which the third country entity is exposed; and

Yes

- b. the K-CMG permission remains appropriate in relation to the portfolio for which it was granted.

Yes

20. Please confirm your understanding that you must notify the FCA immediately if the conditions in MIFIDPRU 4.13.9R, as modified by MIFIDPRU 2.5.41R(3), are no longer met by that portfolio.

3 Own funds

3.1 Application and purpose

Application

- 3.1.1 R This chapter applies to:
- (1) a *MIFIDPRU investment firm*; and
 - (2) a *UK parent entity* that is required by *MIFIDPRU 2.5.7R* to comply with *MIFIDPRU 3* on the basis of its *consolidated situation*.
- 3.1.2 R This chapter also applies to a *parent undertaking* that is subject to the *group capital test* in accordance with *MIFIDPRU 2.6.5R*, but with the following modifications:
- (1) the definitions in *MIFIDPRU 2.6.2R* apply when calculating the *own funds instruments* of the *parent undertaking* for the purposes of the *group capital test*; and
 - (2) *MIFIDPRU 3.2.2R* and *MIFIDPRU 3.2.3R* do not apply, but *MIFIDPRU 3.7* applies instead.
- 3.1.3 R For the purposes of this chapter:
- (1) any reference to the “*UK CRR*” is to the *UK CRR* in the form in which it stood on 1 January 2022, read together with any *CRR* rules (as defined in section 144A of the *Act*) made by the *PRA* that applied on that date;
 - (2) where a term is not italicised but is defined in the *UK CRR*, the definition in the *UK CRR* applies;
 - (3) where this chapter applies to a *parent undertaking* that is not a *firm*, reference to a “*MIFIDPRU investment firm*” or a “*firm*” includes a reference to that *parent undertaking*; and
 - (4) where this chapter applies on the basis of the *consolidated situation* of an entity under *MIFIDPRU 3.1.1R(2)*, a reference in this chapter to a “*firm*” is a reference to the hypothetical single *MIFIDPRU investment firm* created under the *consolidated situation*.

Purpose

- 3.1.4 G This chapter contains requirements for the calculation of a *MIFIDPRU investment firm’s own funds*. These requirements are based on the provisions in Title I of Part Two of the *UK CRR*, but with the modifications set out in this chapter.

3.2 Composition of own funds and initial capital

- 3.2.1 R The *own funds* of a *firm* are the sum of its:
- (1) *common equity tier 1 capital*;
 - (2) *additional tier 1 capital*; and
 - (3) *tier 2 capital*.
- 3.2.2 R A *firm* must, at all times, have *own funds* that satisfy all the following conditions:
- (1) the *firm's common equity tier 1 capital* must be equal to or greater than 56% of the *firm's own funds requirement* under *MIFIDPRU 4.3*;
 - (2) the sum of the *firm's common equity tier 1 capital* and *additional tier 1 capital* must be equal to or greater than 75% of the *firm's own funds requirement* under *MIFIDPRU 4.3*; and
 - (3) the *firm's own funds* must be equal to or greater than 100% of the *firm's own funds requirement* under *MIFIDPRU 4.3*.
- 3.2.3 R A *firm's initial capital* must be made up of *own funds*.
- 3.2.4 G For the purposes of this chapter, the categorisation and the valuation of assets and off-balance sheet items should be carried out in accordance with the applicable accounting framework, unless a *rule* directs otherwise.

3.3 Common equity tier 1 capital

- 3.3.1 R (1) A *firm* must determine its *common equity tier 1 capital* in accordance with Chapter 2 of Title I of Part Two of the *UK CRR*, as modified by the *rules* in this section.
- (2) Any reference to the *UK CRR* in this section is to the *UK CRR* as applied by (1) and modified by the *rules* in this section.

Prior permission to include interim profits or year-end profits in common equity tier 1 capital

- 3.3.2 R To apply for permission to include interim or year-end profits in its *common equity tier 1 capital* before the *firm* has taken a formal decision confirming the final profit or loss for the year in accordance with article 26(2) of the *UK CRR*, a *firm* must complete the form in *MIFIDPRU 3 Annex 1R* and submit it to the *FCA* using the *online notification and application system*.

Prior permission and notification of issuances of common equity tier 1 capital

- 3.3.3 R (1) To apply for permission to classify an issuance of capital instruments as *common equity tier 1 capital* in accordance with article 26(3) of the *UK CRR*, a *firm* must complete the form in *MIFIDPRU* 3 Annex 2R and submit it to the *FCA* using the *online notification and application system*.
- (2) To notify the *FCA* in accordance with article 26(3) subparagraph two of the *UK CRR* about subsequent issuances of capital instruments for which it has already received the permission in (1), a *firm* must complete the form in *MIFIDPRU* 3 Annex 3R and submit it to the *FCA* using the *online notification and application system*.
- 3.3.4 G (1) Under article 26(3) of the *UK CRR*, a *firm* must normally obtain the *FCA*'s permission before classifying an issuance of capital instruments as *common equity tier 1 capital*.
- (2) However, where a *firm* has already obtained permission from the *FCA* for a previous issuance of instruments that have been classified as *common equity tier 1 capital*, the *firm* is not required to obtain the *FCA*'s permission for a subsequent issuance of the same form of instruments if:
- (a) the provisions governing the subsequent issuance are substantially the same as the provisions governing the issuance for which the *firm* has already received permission; and
- (b) the *firm* has notified the *FCA* of the subsequent issuance sufficiently far in advance of the classification of the relevant instruments as *common equity tier 1 capital*.
- (3) The *FCA* generally expects to receive a notification of a subsequent issuance of an existing form of *common equity tier 1 capital* instruments under article 26(3) of the *UK CRR* at least 20 *business days* before the *firm* intends to classify that issuance as *common equity tier 1 capital*.

Deductions from common equity tier 1 capital

- 3.3.5 R For the purposes of *MIFIDPRU*:
- (1) *MIFIDPRU* 3.3.6R replaces article 36 of the *UK CRR*; and
- (2) any reference to article 36 of the *UK CRR* or any part of that article in the following is a reference to *MIFIDPRU* 3.3.6R (or the equivalent part of it):
- (a) another provision of the *UK CRR* that is incorporated by reference into *MIFIDPRU*; or

- (b) any technical standard that applies to a *MIFIDPRU investment firm* under a provision of the *UK CRR* to which (a) applies.

- 3.3.6 R A *MIFIDPRU investment firm* must deduct the following from its common equity tier 1 items:
- (1) losses for the current financial year;
 - (2) intangible assets;
 - (3) deferred tax assets that rely on future profitability;
 - (4) the value of any defined benefit pension fund assets on the balance sheet of the *firm* after deducting the amount of any associated deferred tax liability where that liability would be extinguished if the assets became impaired or were derecognised under the applicable accounting framework;
 - (5) direct, indirect and synthetic holdings by the *firm* of its own *common equity tier 1 instruments*, including own *common equity tier 1 instruments* that the *firm* is under an actual or contingent obligation to purchase by virtue of an existing contractual obligation;
 - (6) direct, indirect and synthetic holdings of the *common equity tier 1 instruments* of *financial sector entities* where those entities have a reciprocal cross holding with the *firm* that the *FCA* considers has been designed to inflate artificially the *own funds* of the *firm*;
 - (7) direct, indirect and synthetic holdings by the *firm* of *common equity tier 1 instruments* of *financial sector entities* where the *firm* does not have a significant investment in those entities;
 - (8) direct, indirect and synthetic holdings by the *firm* of the *common equity tier 1 instruments* of *financial sector entities* where the *firm* has a significant investment in those entities;
 - (9) the amount of items required to be deducted from additional tier 1 items under article 56 of the *UK CRR* that exceeds the additional tier 1 items of the *firm*; and
 - (10) any tax charge relating to common equity tier 1 items foreseeable at the moment of its calculation, except where the *firm* suitably adjusts the amount of common equity tier 1 items insofar as such tax charges reduce the amount up to which those items may be used to cover risks or losses.

- 3.3.7 R (1) For the purposes of *MIFIDPRU* 3.3.6R and *MIFIDPRU* 3.3.15R, holdings in a *fund* are to be treated as holdings in a *non-financial sector entity*.
- (2) The requirement in (1) does not affect the meaning of the terms “*financial sector entity*” or “*non-financial sector entity*” when used in any other context in the *Handbook*.

Deferred tax assets that rely on future profitability

- 3.3.8 R A *firm* must deduct deferred tax assets that rely on future profitability from its common equity tier 1 items under *MIFIDPRU* 3.3.6R(3) without applying:
- (1) article 39 of the *UK CRR* (tax overpayments, tax loss carry backs and deferred tax assets that do not rely on future profitability); or
- (2) article 48 of the *UK CRR* (threshold exemptions from deduction from common equity tier 1 items).

Defined benefit pension fund assets on the firm’s balance sheet

- 3.3.9 R A *firm* must deduct defined benefit pension fund assets on its balance sheet from its common equity tier 1 items under *MIFIDPRU* 3.3.6R(4) without applying article 41 of the *UK CRR* (deduction of defined benefit pension fund assets).

Holdings of common equity tier 1 instruments of financial sector entities

- 3.3.10 R (1) This *rule* applies to a *firm*’s holdings of capital instruments that are not held in its *trading book*.
- (2) Subject to *MIFIDPRU* 3.3.14R, a *firm* must deduct its direct, indirect and synthetic holdings of *common equity tier 1 instruments* of *financial sector entities* under *MIFIDPRU* 3.3.6R(7) without applying article 46 of the *UK CRR* (deduction of holdings of common equity tier 1 instruments where an institution does not have a significant investment in a financial sector entity).
- 3.3.11 R The following provisions do not apply to *common equity tier 1 instruments* held in the *trading book* of a *firm*:
- (1) *MIFIDPRU* 3.3.6R(7); and
- (2) article 46 of the *UK CRR*.
- 3.3.12 R Subject to *MIFIDPRU* 3.3.14R, a *firm* must deduct its direct, indirect and synthetic holdings in the *common equity tier 1 instruments* of *financial sector entities* under *MIFIDPRU* 3.3.6R(8) without applying

article 48 of the *UK CRR* (threshold exemptions from deduction from common equity tier 1 items).

- 3.3.13 R Article 49 of the *UK CRR* (requirement for deduction where consolidation, supplementary supervision or institutional protection schemes are applied) does not apply for the purposes of this section.

Holdings of common equity tier 1 instruments issued by a financial sector entity within an investment firm group

- 3.3.14 R A *firm* is not required to deduct holdings of *common equity tier 1 instruments* issued by a *financial sector entity* from the *firm's* common equity tier 1 items in accordance with *MIFIDPRU* 3.3.6R if all of the following conditions are met:

- (1) the *financial sector entity* forms part of the same *investment firm group* as the *firm*;
- (2) there is no current or foreseen material, practical or legal impediment to the prompt transfer of capital or repayment of liabilities by the *financial sector entity*;
- (3) the *investment firm group* is subject to prudential consolidation under *MIFIDPRU* 2.5; and
- (4) the risk evaluation, measurement and control procedures of a *parent undertaking* included within the *consolidated situation* of the *UK parent entity* of the *investment firm group* include the *financial sector entity*.

Qualifying holdings outside the financial sector

- 3.3.15 R (1) A *firm* must deduct from its common equity tier 1 items any amounts in excess of the following limits:
- (a) a *qualifying holding* in a *non-financial sector entity* which exceeds 15% of the *firm's own funds*; and
 - (b) the total of all the *qualifying holdings* of the *firm* in *non-financial sector entities* which exceeds 60% of the *firm's own funds*.
- (2) When calculating any amounts in (1), the following must not be included:
- (a) shares in *non-financial sector entities* where any of the following conditions is met:
 - (i) the shares are held temporarily during a financial assistance operation referred to in article 79 of the *UK CRR*;

- (ii) the holding of the shares is an underwriting position held for five *business days* or fewer; or
 - (iii) the shares are held in the name of the *firm* on behalf of others; and
- (b) shares which are not fixed financial assets under Directive 86/635/EEC UK law (as defined in article 4(1)(128B) of the *UK CRR*).

Common equity tier 1 instruments of partnerships

- 3.3.16 R A *partner's* account in relation to a *firm* that is a *partnership* satisfies the conditions in article 28(1)(e) (perpetual) and article 28(1)(f) (reduction or repayment) of the *UK CRR* if:
- (1) capital contributed by *partners* is paid into the account; and
 - (2) under the terms of the partnership agreement an amount representing capital may be withdrawn from the account by a *partner* (“A”) only if:
 - (a) A ceases to be a *partner* and an equal amount is transferred to another *partner's* account by A’s former *partners* or any *person* replacing A as their *partner*;
 - (b) any reduction in the capital credited to A’s account is immediately offset by additional contributions of at least an equal aggregate amount to other *partner* accounts by one or more of A’s *partners* (including any person becoming a *partner* of A at the time that the additional contribution is made);
 - (c) the *partnership* is wound up or dissolved; or
 - (d) the *firm* ceases to be *authorised* or no longer has a *Part 4A permission*.

Common equity tier 1 instruments of limited liability partnerships

- 3.3.17 R A member’s account in relation to a *firm* that is a *limited liability partnership* will meet the conditions in article 28(1)(e) (perpetual) and article 28(1)(f) (reduction or repayment) of the *UK CRR* if:
- (1) capital contributed by the members is paid into the account; and
 - (2) under the terms of the *limited liability partnership* agreement, an amount representing capital may be withdrawn from the account by a *partner* (“B”) only if:

- (a) B ceases to be a member and an equal amount is transferred to another member account by B's former fellow members or any *person* replacing B as a member;
- (b) any reduction in the capital credited to B's account is immediately offset by additional contributions of at least an equal aggregate amount to other member accounts by one or more of B's fellow members (including any person becoming a fellow member of B at the time that the additional contribution is made);
- (c) the *limited liability partnership* is wound up or dissolved; or
- (d) the *firm* ceases to be *authorised* or no longer has a *Part 4A permission*.

3.4 Additional Tier 1 capital

- 3.4.1 R (1) A *firm* must determine its *additional tier 1 capital* in accordance with Chapter 3 of Title I of Part Two of the *UK CRR*, as modified by the *rules* in this section.
- (2) Any reference to the *UK CRR* in this section is to the *UK CRR* as applied by (1) and modified by the *rules* in this section.

Trigger events and write-down or conversion

- 3.4.2 R The following provisions of the *UK CRR* do not apply in relation to the *additional tier 1 capital* of a *MIFIDPRU investment firm*:
- (1) article 54(1)(a); and
 - (2) article 54(4)(a).
- 3.4.3 R (1) A *firm* must specify in the terms of an *additional tier 1 instrument* one or more trigger events for the purposes of article 52(1)(n) of the *UK CRR*.
- (2) The trigger events specified under (1) must include a trigger event that occurs where the *common equity tier 1 capital* of the *firm* falls below a level specified by the *firm* that is no lower than 64% of the *firm's own funds requirement*.
 - (3) Article 54 of the *UK CRR* applies as if references to the trigger event in article 54(1)(a) of the *UK CRR* are references to the trigger event in (1).
 - (4) The full principal amount of an *additional tier 1 instrument* must be written down or converted when a trigger event occurs.

- 3.4.4 G *MIFIDPRU* 3.4.3R requires that the principal amount of an *additional tier 1 instrument* will convert into *common equity tier 1 capital* or will be written down if the *firm's common equity tier 1 capital* falls below a specified level. This level must be set at no lower than 64% of the *firm's own funds requirement*. The *firm* may set the relevant trigger at a higher level (such as 70% of its *own funds requirement*) if it wishes. The *firm* may also specify additional trigger events alongside the required trigger event in *MIFIDPRU* 3.4.3R(1).

Holdings of additional tier 1 instruments of financial sector entities

- 3.4.5 R (1) This *rule* applies to a *firm's* holdings of capital instruments that are not held in its *trading book*.
- (2) A *firm* must deduct its direct, indirect and synthetic holdings in *additional tier 1 instruments of financial sector entities* under article 56(c) of the *UK CRR* without applying article 60 of the *UK CRR* (deduction of holdings of additional tier 1 instruments where an institution does not have a significant investment in a financial sector entity).
- (3) The requirement in article 56(c) of the *UK CRR* does not apply where *MIFIDPRU* 3.4.7R applies.
- 3.4.6 R The following provisions do not apply to *additional tier 1 instruments* held in the *trading book* of a *firm*:
- (1) article 56(c) of the *UK CRR*; and
- (2) article 60 of the *UK CRR*.

Holdings of additional tier 1 instruments issued by a financial sector entity within an investment firm group

- 3.4.7 R A *firm* is not required to deduct holdings of *additional tier 1 instruments* issued by a *financial sector entity* from the *firm's* additional tier 1 items in accordance with article 56 of the *UK CRR* if all of the following conditions are met:
- (1) the *financial sector entity* forms part of the same *investment firm group* as the *firm*;
- (2) there is no current or foreseen material, practical or legal impediment to the prompt transfer of capital or repayment of liabilities by the *financial sector entity*;
- (3) the risk evaluation, measurement and control procedures of the *parent undertaking* include the *financial sector entity*; and
- (4) the *group capital test* under *MIFIDPRU* 2.5 does not apply to the *investment firm group*.

3.5 Tier 2 capital

- 3.5.1 R (1) A *firm* must determine its *tier 2 capital* in accordance with Chapter 4 of Title I of Part Two of the *UK CRR*, as modified by the *rules* in this section.
- (2) Any reference to the *UK CRR* in this section is to the *UK CRR* as applied by (1) and modified by the *rules* in this section.

Holdings of tier 2 instruments of financial sector entities

- 3.5.2 R (1) This *rule* applies to a *firm's* holdings of capital instruments that are not held in its *trading book*.
- (2) A *firm* must deduct its direct, indirect and synthetic holdings in the *tier 2 instruments* of *financial sector entities* under article 66(c) of the *UK CRR* without applying article 70 of the *UK CRR* (deduction of tier 2 instruments where an institution does not have a significant investment in the relevant entity).
- (3) The requirement in article 66(c) of the *UK CRR* does not apply where *MIFIDPRU* 3.5.4R applies.

- 3.5.3 R The following provisions do not apply to *tier 2 instruments* held in the *trading book* of the *firm*:

- (1) article 66(c) of the *UK CRR*; and
- (2) article 70 of the *UK CRR*.

Holdings of tier 2 instruments issued by a financial sector entity within an investment firm group

- 3.5.4 R A *firm* is not required to deduct holdings of *tier 2 instruments* issued by a *financial sector entity* from the *firm's tier 2 items* in accordance with article 66 of the *UK CRR* if all of the following conditions are met:
- (1) the *financial sector entity* forms part of the same *investment firm group* as the *firm*;
- (2) there is no current or foreseen material, practical or legal impediment to the prompt transfer of capital or repayment of liabilities by the *financial sector entity*;
- (3) the risk evaluation, measurement and control procedures of the *parent undertaking* include the *financial sector entity*; and
- (4) the *group capital test* under *MIFIDPRU* 2.6 does not apply to the *investment firm group*.

3.6 General requirements for own funds instruments

- 3.6.1 R (1) A *firm* must comply with Chapter 6 of Title I of Part Two of the *UK CRR*, as modified by the *rules* in this section.
- (2) Any reference to the *UK CRR* in this section is to the *UK CRR* as applied by (1) and modified by the *rules* in this section.

Reduction of own funds instruments

- 3.6.2 R To apply for permission for the purposes of articles 77 and 78 of the *UK CRR* to do any of the following, a *firm* must complete the form in *MIFIDPRU 3 Annex 4R* and submit it to the *FCA* using the *online notification and application system*:

- (1) reduce, redeem or repurchase any of its *common equity tier 1 instruments*;
- (2) reduce, distribute or reclassify as another *own funds* item the share premium accounts related to any of its *own funds instruments*; or
- (3) effect the call, redemption, repayment or repurchase of its *additional tier 1 instruments* or *tier 2 instruments* prior to the date of their contractual maturity;

- 3.6.3 R Permission under *MIFIDPRU 3.6.2R* is deemed to have been granted if the following conditions are met:

- (1) either of the conditions in *MIFIDPRU 3.6.4R* apply;
- (2) at least 20 *business days* before the *day* on which the reduction, repurchase, call or redemption is proposed to occur, the *firm* has notified the *FCA* of:
- (a) the proposed reduction, repurchase, call or redemption; and
- (b) the basis on which the *firm* has concluded that either condition in (1) is satisfied;
- (3) the notification in (2) is made using the form in *MIFIDPRU 3 Annex 5R* and submitted using the *online notification and application system*; and
- (4) the *FCA* has not notified the *firm* of any objection to the proposal before the *day* on which the reduction, repurchase, call or redemption is proposed to occur.

- 3.6.4 R The conditions referred to in *MIFIDPRU 3.6.3R* are that:

- (1) before or at the same time as the reduction, repurchase, call or redemption, the *firm* replaces the relevant *own funds instruments* with *own funds instruments* of equal or higher

quality on terms that are sustainable for the income capacity of the *firm*; or

- (2) the *firm* is redeeming *additional tier 1 instruments* or *tier 2 instruments* within five years of their date of issue and either:
 - (a) there is a change in the regulatory classification of the instruments that is likely to result in their exclusion from *own funds* or reclassification as a lower quality form of *own funds*, and both the following conditions are met:
 - (i) there are reasonable grounds to conclude that the change is sufficiently certain; and
 - (ii) the regulatory reclassification of the instruments was not reasonably foreseeable at the time of their issuance; or
 - (b) there is a change in the applicable tax treatment of those instruments which is material and was not reasonably foreseeable at the time of their issuance.

Notification of issuance of additional tier 1 and tier 2 instruments

- 3.6.5 R (1) A *firm* must notify the *FCA* at least 20 *business days* before the intended issuance date of the *firm's* intention to issue:
- (a) *additional tier 1 instruments*; or
 - (b) *tier 2 instruments*.
- (2) The notification requirement in (1) does not apply if:
- (a) the *firm* has previously notified the *FCA* of an issuance of the same class of *additional tier 1 instruments* or *tier 2 instruments*; and
 - (b) the terms of the new instruments are identical in all material respects to the terms of the instruments in the issuance previously notified to the *FCA*.
- (3) The notification under (1) must:
- (a) be submitted to the *FCA* through the *online notification and application system* using the form in *MIFIDPRU 3 Annex 6R*; and
 - (b) include the following:

- (i) confirmation of whether the instruments are intended to be classified as *additional tier 1 instruments* or *tier 2 instruments*;
 - (ii) confirmation of whether the instruments are intended to be issued to external investors or only to other members of the *firm's group* or connected parties;
 - (iii) a copy of the term sheet and details of any features of the capital instrument which are novel, unusual or different from a capital instrument of a similar nature previously issued by the *firm* or widely available in the market;
 - (iv) confirmation from a member of the *firm's senior management* or *governing body* who has oversight of the intended issuance that the instrument meets the conditions in *MIFIDPRU* 3.4 or *MIFIDPRU* 3.5 (as applicable, and including any conditions in the *UK CRR* applied by those sections) to be classified as *additional tier 1 instruments* or *tier 2 instruments*; and
 - (v) a properly reasoned legal opinion from an appropriately qualified *individual*, confirming that the capital instruments meet the conditions in (iv).
- 3.6.6 G (1) *MIFIDPRU investment firms* that were classified as *CRR firms* immediately before 1 January 2022 should refer to *MIFIDPRU* TP 1 for transitional provisions relating to *own funds* permissions that were issued, and notifications that were made, before that date.
- (2) *MIFIDPRU investment firms* that were in existence immediately before 1 January 2022, but were not classified as *CRR firms*, should refer to *MIFIDPRU* TP 7 for transitional provisions relating to *own funds* instruments issued before that date.
- 3.6.7 G *Firms* that are proposing to classify an issuance of capital instruments as *common equity tier 1 capital* should refer to the obligations and guidance in *MIFIDPRU* 3.3.3R and *MIFIDPRU* 3.3.4G. In particular, *firms* must obtain the *FCA's* prior permission for the first issuance of a class of instruments that is intended to comprise *common equity tier 1 capital*.
- 3.6.8 R (1) A *UK parent entity* must apply the modifications in (2) when either of the following apply on a *consolidated basis* in accordance with *MIFIDPRU* 2.5.7R:

- (a) *MIFIDPRU 3.3.2R to MIFIDPRU 3.3.4G*; and
 - (b) *MIFIDPRU 3.6.5R*.
- (2) The *Handbook* provisions in (1)(a) and (b) apply as if a reference to:
- (a) a “*firm*” is a reference to the *UK parent entity*;
 - (b) “*capital instruments*” is a reference to capital instruments issued by the *UK parent entity*;
 - (c) “*additional tier 1 instruments*” and “*tier 2 instruments*” is a reference to these instruments issued by the *UK parent entity*; and
 - (d) “*common equity tier 1 capital*” is a reference to that type of capital as calculated on a *consolidated basis*.
- 3.6.9 G Submitting a notification in accordance with *MIFIDPRU 3.6.5R to 3.6.8R* does not guarantee that the relevant instruments meet the required conditions in *MIFIDPRU 3.4* or *MIFIDPRU 3.5* to qualify as *own funds*. The *firm* or *parent undertaking* must ensure that an instrument continues to meet the conditions to be counted as *own funds*, including if its terms are varied on a later date.

3.7 Composition of capital for parent undertakings subject to the group capital test

- 3.7.1 R This section applies to a *parent undertaking* in accordance with *MIFIDPRU 3.1.2R*.
- 3.7.2 R A *parent undertaking* must, at all times, have *own funds instruments* that satisfy the following conditions:
- (1) the *parent undertaking’s common equity tier 1 capital* must be at least equal to:
 - (a) the sum of the book value of the *parent undertaking’s* holdings of the *common equity tier 1 capital* of the *relevant financial undertakings* under *MIFIDPRU 2.6.5R*; plus
 - (b) the total amount of all the *parent undertaking’s* contingent liabilities in favour of the *relevant financial undertakings* under *MIFIDPRU 2.6.5R*;
 - (2) the sum of *common equity tier 1 capital* and *additional tier 1 capital* of the *parent undertaking* must be at least equal to the sum of:
 - (a) the amounts in (1)(a) and (1)(b); plus

- (b) the sum of the book value of the *parent undertaking's holdings* in the *additional tier 1 capital* of the *relevant financial undertakings under MIFIDPRU 2.6.5R*; and
 - (3) the sum of the *parent undertaking's own funds instruments* must be at least equal to the total requirement under *MIFIDPRU 2.6.5R*.
- 3.7.3 G As explained in *MIFIDPRU 2.6.6G*, the *group capital test* effectively applies to each intermediate *parent undertaking*, as well as to the ultimate *parent undertaking* of the *investment firm group*.
- 3.7.4 R
 - (1) Subject to (2), a *parent undertaking* must comply with:
 - (a) *MIFIDPRU 3.3.2R* to *MIFIDPRU 3.3.4G* when issuing *own funds instruments* which are intended to qualify as *common equity tier 1 capital*;
 - (b) *MIFIDPRU 3.6.5R* when issuing *own funds instruments* which are intended to qualify as *additional tier 1 instruments* or *tier 2 instruments*.
 - (2) Where the *Handbook* provisions in (1)(a) and (b) apply, they apply as if a reference to:
 - (a) a “*firm*” is a reference to the *parent undertaking*;
 - (b) “*capital instruments*” is a reference to capital instruments issued by the *parent undertaking*;
 - (c) “*additional tier 1 instruments*” and “*tier 2 instruments*” is a reference to these instruments issued by the *parent undertaking*; and
 - (d) “*common equity tier 1 capital*” is a reference to this type of capital as held by the *parent undertaking*.
- 3.7.5 R
 - (1) This *rule* applies where a *responsible UK parent* applies the approach in *MIFIDPRU 2.6.7R(2)(a)* in relation to an *undertaking* established in a *third country*.
 - (2) Where this *rule* applies, a *responsible UK parent* must comply with *MIFIDPRU 3.7.4R* in relation to any issuance of *own funds instruments* by the *undertaking* established in a *third country*.

 - b. MIFIDPRU investment firm that is a consolidating UK parent entity
 - c. MIFIDPRU investment firm that is a GCT parent undertaking
 - d. Consolidating UK parent entity (other than a MIFIDPRU investment firm)
 - e. GCT parent undertaking (other than a MIFIDPRU investment firm)

If the application concerns more than one firm in the investment firm group, please submit separate applications for each firm.

For applications on consolidated basis, references to firm/institution should be interpreted as to a consolidated situation of the UK parent.

2. For the instrument you would like to classify as CET1 capital, please provide the following information:

a. Type of instrument (e.g. ordinary shares, partnership capital):

b. If there is more than one class of the instrument, please list the different instrument classes:

c. Total number of shares/units of instrument that have been issued or will be issued:

d. Nominal value per share/unit of instrument:

e. Share premium per share, if applicable:

f. Total amount of capital being raised:

g. Proposed date to be issued:

h. Total expected CET1 after the inclusion of the amounts to which this application relates (please complete for all that apply):

MIFIDPRU investment firm (solo CET1)	£
GCT parent undertaking (expected value of own funds instruments as specified in MIFIDPRU 2.6.2R(1))	£
Consolidating UK parent undertaking basis (consolidated CET1)	£

3. For capital instruments to qualify as CET1 instruments, the following conditions must be met (see article 28 of the UK CRR). Please confirm whether these conditions are met:

a. The instruments are issued directly by your institution, with prior approval of the owners or, if permitted by national law, the management body of the institution:

- b. The instruments are paid up and their purchase is not funded directly or indirectly by your institution (indirect funding is defined under article 8 of the onshored Regulatory Technical Standard (RTS) 241/2014 on own funds):

- c. The instruments meet all of the following conditions as regards their classification:

- i. they qualify as capital within the meaning of Art 28(1)(c)(i) of the UK CRR:

- ii. they are classified as equity within the meaning of the applicable accounting framework:

- iii. they are classified as equity capital for the purposes of determining balance sheet insolvency, where applicable under national insolvency law:

- d. The instruments are clearly and separately disclosed on the balance sheet in the financial statements of your institution:

- e. The instruments are perpetual:

- f. The principal amount of the instruments may not be reduced or repaid except in the following cases:

- i. the liquidation of your institution; or
 ii. discretionary repurchases of the instruments or other discretionary means of reducing capital (e.g. call, redemption or repayment), where your institution has been granted prior permission of the competent authority under article 77 of the UK CRR:

- h. The provisions governing the instruments do not indicate expressly or implicitly that the principal amount of the instruments would or might be reduced or repaid other than in the liquidation of your institution, and your

institution does not otherwise provide such an indication prior to or at issuance of the instruments:

Yes/No

i. The instruments meet the following conditions regarding distributions:

i. there is no preferential distribution treatment regarding the order of distribution payments, including in relation to other Common Equity Tier 1 instruments, and the terms governing the instruments do not provide preferential rights to payment of distributions:

Yes/No

ii. distributions to holders of the instruments may be paid only out of distributable items:

Yes/No

iii. the conditions governing the instruments do not include a cap or other restriction on the maximum level of distributions:

Yes/No

iv. the level of distributions is not determined on the basis of the amount for which the instruments were purchased at issuance:

Yes/No

v. the conditions governing the instruments do not include any obligation for your institution to make distributions to their holders and your institution is not otherwise subject to such an obligation:

Yes/No

vi. non-payment of distributions does not constitute an event of default of your institution:

Yes/No

vii. the cancellation of distributions imposes no restrictions on your institution:

Yes/No

j. Compared to all the capital instruments issued by your institution, the instruments absorb the first and proportionately greatest share of losses as they occur, and each instrument absorbs losses to the same degree as all other Common Equity Tier 1 instruments:

- k. The instruments rank below all other claims in the event of insolvency or liquidation of your institution:

- l. The instruments entitle their owners to a claim on the residual assets of your institution, which, in the event of its liquidation and after the payment of all senior claims, is proportionate to the amount of the instruments issued and is not fixed or subject to a cap:

- m. The instruments are not secured, or subject to a guarantee that enhances the seniority of the claim by any of the following (answer "yes" if the instruments are not secured in this way):

- i. your institution or its subsidiaries:
- ii. the parent undertaking of your institution or its subsidiaries:
- iii. the parent financial holding company or its subsidiaries:
- iv. the mixed activity holding company or its subsidiaries:
- v. the mixed financial holding company and its subsidiaries:
- vi. any undertaking that has close links with the entities referred to in points i. to v.:

- n. The instruments are not subject to any arrangement, contractual or otherwise, that enhances the seniority of claims under the instruments in insolvency or liquidation (answer "yes" if the instruments are not subject to any arrangement in this way):

4. Partnership capital (this section should only be completed by partnerships).

Is the capital contributed in accordance with MIFIDPRU 3.3.15R or MIFIDPRU 3.2.16R?

Material on how UK CRR article 28(1)(e) and (f) may be complied with can be found in MIFIDPRU 3.3.15R and 3.3.16R.

5. Please confirm whether the capital issuance to which this application relates meets the criteria required by the UK CRR and the onshored Regulatory Technical Standard (RTS) 241/2014 on own funds:

Please note that the FCA may request a copy of the terms of the instrument, or further information.

b. MIFIDPRU investment firm that is a consolidating UK parent entity	<input type="checkbox"/>
c. MIFIDPRU investment firm that is a GCT parent undertaking	<input type="checkbox"/>
d. Consolidating UK parent entity (other than a MIFIDPRU investment firm)	<input type="checkbox"/>
e. GCT parent undertaking (other than a MIFIDPRU investment firm)	<input type="checkbox"/>

If the notification concerns more than one firm in the consolidated group, please submit separate notifications for each firm.

2. Please confirm to which of the following the application relates:

- a. Permission to reduce, redeem or repurchase any of its CET1 instruments

- b. Permission to reduce, distribute or reclassify as another own funds item the share premium accounts related to any of its own funds instruments; or
- c. Permission to effect the call, redemption, repayment or repurchase of its additional tier 1 instruments or tier 2 instruments prior to the date of their contractual maturity.

3. Date of the intended capital reduction:

The intended reduction must not take place until at least 20 business days after this notification is made.

4. The amount of the intended reduction:

5. A firm may only make use of this notification procedure if one of the conditions in MIFIDPRU 3.6.4R are met, otherwise it must apply for permission under MIFIDPRU 3.6.2R. Please explain the basis on which the firm has concluded that one of the conditions in MIFIDPRU 3.6.4R applies.

Notification under MIFIDPRU 3.6.5R of issuance of additional tier 1 or tier 2 instruments

MIFIDPRU 3 Annex 6R

Notification under MIFIDPRU 3.6.5R of the intended issuance of AT1 or T2 instruments

Details of Senior Manager responsible for this notification:

If the notification is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please confirm which of the following the notifying entity is:
 - a. MIFIDPRU investment firm that is not a consolidating UK parent entity or a GCT parent undertaking
 - b. MIFIDPRU investment firm that is a consolidating UK parent entity
 - c. MIFIDPRU investment firm that is a GCT parent undertaking
 - d. Consolidating UK parent entity (other than a MIFIDPRU investment firm)
 - e. GCT parent undertaking (other than a MIFIDPRU investment firm)

2. Please confirm which of the following categories of instruments the notification relates to:
 - a. Additional tier 1 instruments
 - b. Tier 2 instruments

3. Please provide the following details of the intended issuance:
 - a. Type of instrument

b. Name of instrument	
c. Amount of instruments to be issued	£
d. Proposed issuance date (<i>this must be at least 20 business days after this notification is sent to the FCA</i>)	DD/MM/YYYY

4. Please confirm whether the instruments are intended to be issued to external investors or only to other members of the firm’s group and connected parties:

a. only to other members of the firm’s group and connected parties	Yes/No
b. to other members of the firm’s group and connected parties, as well as external investors	Yes/No
c. external parties only	Yes/No

5. Please attach a copy of the term sheet and provide details of any features of the capital instrument which are novel, unusual or different from a capital instrument of a similar nature previously issued by the firm or widely available in the market.

Term sheet attached

6. Please confirm that the firm’s senior management or governing body who has oversight of the intended issuance are satisfied that the instrument meets the conditions in MIFIDPRU 3.4 or MIFIDPRU 3.5 (as applicable, and including any conditions in the UK CRR applied by those sections) to be classified as AT1 or T2 instruments.

Yes/No

7. Please attach a legal opinion from an appropriately qualified individual, confirming that the capital instruments meet the conditions in MIFIDPRU 3.4 or MIFIDPRU 3.5 (as applicable, and including any conditions in the UK CRR applied by those sections).

Legal opinion attached

4 Own funds requirements

4.1 Application

- 4.1.1 R This chapter applies to:
- (1) a *MIFIDPRU investment firm*; and
 - (2) a *UK parent entity* that is required by *MIFIDPRU 2.5.7R* to comply with *MIFIDPRU 4* on the basis of its *consolidated situation*.
- 4.1.2 R Where this chapter applies to a *UK parent entity* under *MIFIDPRU 4.1.1R(2)*, it applies with the following modifications:
- (1) *MIFIDPRU 4.2.1R* (Initial capital requirement) does not apply; and
 - (2) any reference to a “*firm*” or “*MIFIDPRU investment firm*” in this chapter is to the hypothetical single *MIFIDPRU investment firm* created under the *consolidated situation*.
- 4.1.3 G *MIFIDPRU 2.5* contains additional *guidance* on how a *UK parent entity* should apply the requirements in this chapter on a *consolidated basis*.

4.2 Initial capital requirement

- 4.2.1 R
- (1) At the point at which a *firm* is first authorised as a *MIFIDPRU investment firm*, it must hold *initial capital* of not less than the amount in (2).
 - (2) The relevant amount is the *permanent minimum capital requirement* that would apply if the *firm* had been granted the *permissions* that it has requested in its application for *authorisation*.
- 4.2.2 G
- (1) The initial capital requirement in *MIFIDPRU 4.2.1R* applies only at the point at which the *FCA* first grants *permission* to a *MIFIDPRU investment firm* to carry on *investment services and/or activities*. After a *firm* has been authorised as a *MIFIDPRU investment firm*, the *permanent minimum capital requirement* applies on an ongoing basis instead.
 - (2) Where a *MIFIDPRU investment firm* applies to vary its *permissions* to add new *investment services and/or activities* that would result in an increase in its *permanent minimum capital requirement*, the *FCA* would generally expect to refuse

the application unless the *firm* demonstrates that it can comply with the new *permanent minimum capital requirement*.

- (3) The *FCA*'s approach to the application of the initial capital requirement under *MIFIDPRU* is based on the existence of the *permanent minimum capital requirement* for *MIFIDPRU investment firms*. For the avoidance of doubt, this *guidance* does not affect the *FCA*'s approach to whether the initial capital requirement under another prudential sourcebook applies on an ongoing basis.

4.3 Own funds requirement

- 4.3.1 R A *MIFIDPRU investment firm* must at all times maintain *own funds* that are at least equal to its *own funds requirement*.
- 4.3.2 R The *own funds requirement* of a *non-SNI MIFIDPRU investment firm* is the highest of:
- (1) its *permanent minimum capital requirement* under *MIFIDPRU* 4.4;
 - (2) its *fixed overheads requirement* under *MIFIDPRU* 4.5; or
 - (3) its *K-factor requirement* under *MIFIDPRU* 4.6.
- 4.3.3 R The *own funds requirement* of an *SNI MIFIDPRU investment firm* is the higher of:
- (1) its *permanent minimum capital requirement* under *MIFIDPRU* 4.4; or
 - (2) its *fixed overheads requirement* under *MIFIDPRU* 4.5.

4.4 Permanent minimum capital requirement

- 4.4.1 R (1) Where a *MIFIDPRU investment firm* has *permission* to carry on any of the *investment services and/or activities* in (2), its *permanent minimum capital requirement* is £750,000.
- (2) The relevant *investment services and/or activities* are:
- (a) *dealing on own account*;
 - (b) underwriting of *financial instruments* and/or placing of *financial instruments* on a firm commitment basis; or
 - (c) *operating an organised trading facility*, if the *firm* is not subject to a *limitation* that prevents it from carrying on the activities otherwise permitted by *MAR* 5A.3.5R.
- 4.4.2 G (1) Under *MAR* 5A.3.5R (Proprietary trading), a *firm* that has *permission* to operate an *organised trading facility* may deal on

own account in the following ways without requiring separate *permissions* for *dealing on own account*:

- (a) *matched principal trading* in the course of operating the *OTF*; or
 - (b) *dealing on own account* in relation to *sovereign debt* instruments for which there is no liquid market.
- (2) A *firm* that is *operating an organised trading facility* and does not wish to carry on the activities in (1) may apply to the *FCA* under section 55H of the *Act* for a *limitation* that prohibits the *firm* from carrying on the activities on the basis of that *permission*.
- (3) The effect of *MIFIDPRU* 4.4.1R(2)(c) is that if a *firm* is *operating an organised trading facility* and is not subject to the *limitation* described in (2), the *firm's permanent minimum capital requirement* is £750,000.
- 4.4.3 R (1) Where a *MIFIDPRU investment firm* satisfies the conditions in (2), its *permanent minimum capital requirement* is £150,000.
- (2) The relevant conditions are:
- (a) the *firm* has *permission* for any of the following:
 - (i) *operating a multilateral trading facility*;
 - (ii) *operating an organised trading facility*, if the *firm* is subject to a *limitation* that prevents it from carrying on the activities otherwise permitted by *MAR* 5A.3.5R;
 - (iii) holding *client money* or *client assets* in the course of *MiFID business*; and
 - (b) the *firm* does not have *permission* for any of the following:
 - (i) *dealing on own account*;
 - (ii) underwriting of *financial instruments* and/or placing of *financial instruments* on a *firm commitment basis*;
 - (iii) *operating an organised trading facility*, if the *firm* is not subject to a *limitation* that prevents it from carrying on the activities otherwise permitted by *MAR* 5A.3.5R.

- 4.4.4 R (1) Where a *MIFIDPRU investment firm* satisfies the conditions in (2), its *permanent minimum capital requirement* is £75,000.
- (2) The relevant conditions are:
- (a) the only *investment services and/or activities* that the *firm* has *permission* to carry on are one or more of the following:
- (i) reception and transmission of orders in relation to one or more *financial instruments*;
- (ii) *execution of orders on behalf of clients*;
- (iii) *portfolio management*;
- (iv) *investment advice*; or
- (v) placing of *financial instruments* without a firm commitment basis; and
- (b) the *firm* is not permitted to hold *client money* or client assets in the course of *MiFID business*.

- 4.4.5 G The relevant *permanent minimum capital requirement* under this section applies to a *collective portfolio management investment firm* in parallel with its *base own funds requirement* under *IPRU-INV 11*. This means that a *collective portfolio management investment firm* must comply with both requirements, but they are not cumulative.

4.5 Fixed overheads requirement

- 4.5.1 R (1) The *fixed overheads requirement* of a *MIFIDPRU investment firm* is an amount equal to one quarter of the *firm's relevant expenditure* during the preceding year.
- (2) When calculating its *fixed overheads requirement* in (1), a *firm* must use the figures resulting from the accounting framework applied by the *firm* in accordance with *MIFIDPRU 4.5.2R*.
- (3) This *rule* is subject to *MIFIDPRU 4.5.7R* and *MIFIDPRU 4.5.9R*.
- 4.5.2 R (1) For the purposes of the calculation in *MIFIDPRU 4.5.1R*, a *firm* must use the figures in its most recent:
- (a) audited *annual financial statements*; or
- (b) unaudited *annual financial statements*, where audited financial statements are not available.

- (2) If a *firm* has used unaudited *annual financial statements* in accordance with (1)(b) and audited *annual financial statements* subsequently become available, the *firm* must update the calculation in *MIFIDPRU* 4.5.1R using the audited figures.
- (3) Where the financial statements in (1) do not cover a 12-month period, the firm must:
 - (a) divide the amounts included in those statements by the number of *months* the financial statements cover; and
 - (b) multiply the result of the calculation in (a) by 12 to produce an equivalent annual amount.

- 4.5.3 R (1) For the purpose of *MIFIDPRU* 4.5.1R(1), a *firm* must calculate its *relevant expenditure* by:
- (a) calculating the *firm's* total expenditure before distribution of profits; and
 - (b) deducting any of the items in (2) from the total expenditure in (1)(a) to the extent that those items have been included in the expenditure.
- (2) The items that a *firm* may deduct from its total expenditure are:
- (a) any of the following, if they are fully discretionary:
 - (i) staff bonuses and other variable *remuneration*;
 - (ii) *employees', directors', partners' and limited liability partnership* members' shares in profits; and
 - (iii) other appropriations of profits;
 - (b) shared commission and fees payable that meet all of the following conditions:
 - (i) they are directly related to commission and fees receivable;
 - (ii) the commission and fees receivable are included within total revenue; and
 - (iii) the payment of the commission and fees payable is contingent on receipt of the commission and fees receivable;
 - (c) fees paid to *tied agents*;
 - (d) non-recurring expenses from non-ordinary activities;

- (e) unless *MIFIDPRU* 4.5.4R applies, fees, brokerage and other charges paid to *central counterparties*, exchanges and other *trading venues* and intermediate brokers for the purposes of executing, registering and clearing transactions, provided that the fees, brokerage and charges are directly passed on and charged to customers;
- (f) 80% of the value of any fees, brokerage and other charges, excluding any fees or charges to which *MIFIDPRU* 4.5.4R applies, paid to *central counterparties*, exchanges and other *trading venues* and intermediate brokers for the purposes of executing, registering and clearing transactions in relation to which:
 - (i) the *firm* is *dealing on own account*; and
 - (ii) the fees, brokerage or charges have not already been deducted under (e);
- (g) interest paid to customers on *client money*, where there is no obligation of any kind to pay the interest;
- (h) taxes where they fall due in relation to the annual profits of the *firm*;
- (i) losses from trading on own account in *financial instruments*;
- (j) payments related to contract-based profit and loss transfer agreements according to which the *firm* is obliged to transfer its annual profit to the *parent undertaking* following the preparation of the *firm's annual financial statements*;
- (k) payments into a fund for general banking risk in accordance with article 26(1)(f) of the *UK CRR*, as applied by *MIFIDPRU* 3.3.1R; and
- (l) other expenses, to the extent that their value has already been reflected in a deduction from *own funds* under *MIFIDPRU* 3.3.6R.

- 4.5.4 R The deducted amounts in *MIFIDPRU* 4.5.3R(2)(e) and (f) must not include fees and other charges necessary to maintain membership of, or otherwise meet loss-sharing financial obligations to, *central counterparties*, exchanges and other *trading venues*.

Additional deduction for commodity and emission allowance dealers

- 4.5.5 R In addition to the deductions in *MIFIDPRU* 4.5.3R(2), a *commodity and emission allowance dealer* may deduct expenditure on raw

materials in connection with the underlying commodity of the commodity derivatives the *firm* trades.

Expenses incurred on behalf of the firm by third parties

- 4.5.6 R (1) A *firm* must add any fixed expenses that have been incurred on its behalf by a third party, including a *tiered agent*, to the *firm's* total expenditure for the purposes of MIFIDPRU 4.5.3R in accordance with this *rule*.
- (2) A *firm* is not required to add fixed expenses incurred on its behalf by a third party to the *firm's* expenditure if the expenses are already included in the figures resulting from MIFIDPRU 4.5.2R.
- (3) Where a breakdown of the third party's expenses is available, the *firm* must add to the *firm's* total expenditure the share of the third party's expenses incurred on behalf of the *firm*.
- (4) Where a breakdown of the third party's expenses is not available, the *firm* must:
- (a) add to the *firm's* total expenditure the share of the third party's expenses incurred on behalf of the *firm* as projected in the *firm's* business plan; or
 - (b) if the *firm* does not have a business plan that projects the third party's expenses, reasonably estimate the share of those expenses that are attributable to the *firm's* business and add that estimated share of expenses to the *firm's* total expenditure.

Material change to projected relevant expenditure during the year

- 4.5.7 R (1) This *rule* applies where there:
- (a) is an increase of 30% or more in the *firm's* projected *relevant expenditure* for the current year; or
 - (b) would be an increase of £2 million or more in the *firm's* *fixed overheads requirement* based on projected *relevant expenditure* for the current year.
- (2) Where this *rule* applies, a *firm* must:
- (a) immediately recalculate its *fixed overheads requirement* by applying the methodology in MIFIDPRU 4.5.3R to the projected *relevant expenditure*, taking into account the increase in (1);
 - (b) immediately substitute the revised *fixed overheads requirement* that results from the calculation in (a) for

- the *firm's* original *fixed overheads requirement* under *MIFIDPRU 4.5.1R(1)*; and
- (c) immediately recalculate its *basic liquid assets requirement* using the revised *fixed overheads requirement* in (b) and substitute the updated amount for its original *basic liquid assets requirement*.
- 4.5.8 G (1) Where there is a material increase in the *firm's* projected *relevant expenditure* that triggers the obligation in *MIFIDPRU 4.5.7R*, a *firm* should also consider the potential impact on its *ICARA process* and the conclusions documented in its last *ICARA document*. In particular, the *firm* should consider any potential impact on:
- (a) the *liquid assets* that the *firm* must hold to comply with *MIFIDPRU 6*, as the requirements in that chapter are calibrated by reference to the *fixed overheads requirement*;
- (b) the level of *own funds* and *liquid assets* that the *firm* must hold to comply with its obligations under *MIFIDPRU 7*; and
- (c) the calibration of the *firm's wind-down triggers*.
- (2) The review in (1) is particularly important if the *firm's own funds requirement* was determined by the *fixed overheads requirement* immediately before the change occurred.
- 4.5.9 R (1) This *rule* applies where there:
- (a) is a decrease of 30% or more in the *firm's* projected *relevant expenditure* for the current year; or
- (b) would be a decrease of £2 million or more in the *firm's fixed overheads requirement* based on projected *relevant expenditure* for the current year.
- (2) Where this *rule* applies, a *firm* may:
- (a) recalculate its *fixed overheads requirement* by applying the methodology in *MIFIDPRU 4.5.3R* to the projected *relevant expenditure*, taking into account the decrease in (1); and
- (b) if it has obtained prior permission from the *FCA*, substitute the revised *fixed overheads requirement* that results from the calculation in (a) for the *firm's* original *fixed overheads requirement* under *MIFIDPRU 4.5.1R*.
- (3) To obtain the permission in (2), a *firm* must:

- (a) complete the application form in *MIFIDPRU* 4 Annex 11R and submit it to the *FCA* in accordance with the instructions on that form;
- (b) demonstrate all of the following:
 - (i) that one of the conditions in (1)(a) or (b) is met and the projected reduction in the *firm's relevant expenditure* is a reasonable projection;
 - (ii) that the *firm* has adequately considered the impact of the reduction on the *firm's ICARA process* and the conclusions documented in the *firm's last ICARA document*; and
 - (iii) that there is a reasonable basis to conclude that, following the reduction in the *firm's fixed overheads requirement*, the *firm* will continue to hold sufficient *own funds* and *liquid assets* to comply with its obligations under *MIFIDPRU* 7.

- 4.5.10 G (1) Under *MIFIDPRU* 4.5.1R, a *MIFIDPRU investment firm* is required to calculate its *fixed overheads requirement* based on its *relevant expenditure* as set out in its *annual financial statements* for the previous year.
- (2) Under *MIFIDPRU* 4.5.7R, if there is a material increase in the *firm's* projected *relevant expenditure* for the current year, the *firm* must recalculate its *fixed overheads requirement* on the basis of the projected increased *relevant expenditure*, taking into account the impact of that change.
- (3) However, under *MIFIDPRU* 4.5.9R, if there is a material change that results in a decrease in the *firm's* projected *relevant expenditure* for the current year, the *firm* must obtain permission from the *FCA* before substituting a reduced *fixed overheads requirement* calculated on the basis of the projected decrease.
- (4) In many cases, a material change of the type specified in *MIFIDPRU* 4.5.7R(1) or *MIFIDPRU* 4.5.9R(1) would result from planned changes to the *firm's* business. Examples of these changes may include:
- (a) starting or ceasing a major business line;
 - (b) acquiring or disposing of a major business; or
 - (c) undertaking a significant investment, upgrade or restructuring programme.

A *firm* that is planning to implement a material change to its business should calculate the anticipated impact of that change on its *fixed overheads requirement* (and its broader *own funds requirement*) before executing the relevant change. This should include considering the potential impact on its *ICARA process* and its obligations under *MIFIDPRU 7*.

Firms that have been providing investment services and/or activities for less than one year

- 4.5.11 R (1) This *rule* applies where a *firm* has been in business for less than one year.
- (2) For the purposes of the calculation in *MIFIDPRU 4.5.1R*, a *firm* must use the *relevant expenditure* included in its projections for the first 12 *months*' trading, as submitted in its application for *authorisation*.

4.6 Overall K-factor requirement

- 4.6.1 R The *K-factor requirement* of a *MIFIDPRU investment firm* is the sum of each of the following that apply to the *firm*:
- (1) *K-AUM requirement*;
 - (2) *K-CMH requirement*;
 - (3) *K-ASA requirement*;
 - (4) *K-COH requirement*;
 - (5) *K-NPR requirement*;
 - (6) *K-CMG requirement*;
 - (7) *K-TCD requirement*;
 - (8) *K-DTF requirement*; and
 - (9) *K-CON requirement*.
- 4.6.2 G (1) The *rules* and *guidance* in *MIFIDPRU 4.7* to *4.16* explain how a *MIFIDPRU investment firm* should calculate each component of its overall *K-factor requirement*.
- (2) The manner in which *firms* carry on activities that are potentially relevant to one or more *K-factor metrics* may vary considerably. It is not practical for the *FCA* to give an exhaustive set of *rules* and *guidance* covering every conceivable business arrangement that *firms* may operate when carrying on such activities.

- (3) If a *firm* is unsure whether a particular arrangement is within scope of one or more components of the *K-factor requirement*, the *FCA* expects the *firm* to apply a purposive approach to the interpretation of the requirement, as required by *GEN 2.2.1R*. Among other factors, the *FCA* would therefore expect the *firm* to consider:
- (a) whether the arrangement is sufficiently analogous to another arrangement that is clearly covered by any *rules* or associated *guidance*;
 - (b) the risks that the relevant component of the *K-factor requirement* is designed to address and whether the same or similar risks arise in relation to the arrangement in question; and
 - (c) where the component of the *K-factor requirement* is calculated by reference to a specific *investment service and/or activity*, the approach that the *firm* has adopted to applying other *rules* or *guidance* elsewhere in the *Handbook* to the arrangement, where those *rules* or *guidance* refer to the same *investment service and/or activity*.
- (4) The *FCA* expects that if asked, a *firm* will be able to justify the approach that the *firm* has taken to applying the *K-factor requirement* to a particular activity.
- (5) *MIFIDPRU investment firms* are reminded that even if an activity does not contribute towards the *K-factor requirement*, they should still consider, in accordance with the requirements in *MIFIDPRU 7*, whether that activity may give rise to potential material risks of harm or may be relevant to the *firm's* wind-down analysis.

4.7 K-AUM requirement

- 4.7.1 R The *K-AUM requirement* of a *MIFIDPRU investment firm* is equal to 0.02% of the *firm's* average *AUM*.
- 4.7.2 R When measuring its *AUM*, a *MIFIDPRU investment firm* must include any amounts that relate to the *MiFID business* of the *firm* that is carried on by any *tiered agents* acting on its behalf.
- 4.7.3 G The definition of *AUM* does not include any amounts arising from the *firm's* provision of the *ancillary service* in paragraph 3 of Part 3A of Schedule 2 to the *Regulated Activities Order* (i.e. providing advice to undertakings on capital structure, industrial strategy and related matters and advice and services relating to mergers and the purchase of undertakings).

- 4.7.4 R A *firm* must calculate its *K-AUM requirement* on the first *business day* of each *month*.
- 4.7.5 R (1) A *firm* must calculate the amount of its *average AUM* by:
- (a) taking the total *AUM* as measured on the last *business day* of each of the previous 15 *months*;
 - (b) excluding the 3 most recent monthly values; and
 - (c) calculating the arithmetic mean of the remaining 12 monthly values.
- (2) When measuring the value of its *AUM* on the last *business day* of each *month*, a *firm* must convert any amounts in foreign currencies on that date into the *firm's* functional currency.
- (3) For the purposes of the currency conversion in (2), a *firm* must:
- (a) determine the conversion rate by reference to an appropriate market rate; and
 - (b) record the rate used.
- 4.7.6 G (1) The effect of *MIFIDPRU 4.7.5R(2)* is that when measuring the value of *AUM* at the end of each *month*, a *firm* must apply the relevant conversion rate on that date to the *AUM* attributable to that *month*. The *AUM* for each relevant preceding *month* should continue to be measured by reference to the conversion rate that was applicable at the end of that particular preceding *month*.
- (2) For purposes of *MIFIDPRU 4.7.5R(3)*, where a *firm* is carrying out a conversion that involves sterling, the *FCA* considers that an example of an appropriate market rate is the relevant daily spot exchange rate against sterling published by the Bank of England.
- 4.7.7 R (1) When measuring the amount of its *AUM*, a *firm* must:
- (a) where available, use the market value of the relevant assets;
 - (b) where a market value is not available for an asset, use an alternative measure of fair value, which may include an estimated value calculated on a best efforts basis;
 - (c) exclude any amounts that are included in the *firm's* calculation of its *CMH*.

- (2) When measuring the amount of its *AUM*, a *firm* may offset any negative values or liabilities attributable to positions within the relevant portfolios, so that *AUM* is equal to the net total value of the relevant assets.
- 4.7.8 R Where the *firm* has delegated the management of assets to another entity, the *firm* must include the value of those assets in its measurement of *AUM*.
- 4.7.9 R (1) Subject to (2), where a *financial entity* has formally delegated the management of assets to the *firm*, the *firm* may exclude the value of those assets from its measurement of *AUM*.
- (2) The exclusion in (1) does not apply if the *financial entity* has excluded the relevant assets from the *financial entity's* calculation of its own capital requirements because the *financial entity* is also acting as a delegated manager.
- (3) For the purposes of (1), formal delegation requires a legally binding agreement between the *financial entity* and the *firm* that sets out the rights and obligations of each party in relation to the delegation of the relevant *portfolio management* activities.
- 4.7.10 G (1) *MIFIDPRU* 4.7.8R and 4.7.9R apply where one entity delegates management of assets to another entity. For these purposes, delegation involves a delegating entity (“A”) assuming a duty to the relevant *client* to manage the assets, and A then delegating the performance of that duty (in whole or in part) to another entity (“B”).
- (2) The following are not delegation for the purposes of *MIFIDPRU* 4.7.8R or 4.7.9R:
- (a) where A only arranges for B to provide a service directly to a *client*, so that B owes a duty directly to the *client* to manage the assets and A does not; or
- (b) where A advises a *client* to use B’s management services for the *client's* assets, but A does not assume any responsibility to the *client* for managing the assets.
- (3) *MIFIDPRU* 4.7.8R states that a *MIFIDPRU investment firm* cannot reduce its *AUM* by delegating management of assets to another entity. This is because the *firm* will normally continue to owe a duty directly to the *client*, even if performance of that duty has been delegated (wholly or partly) to another entity.
- (4) However, *MIFIDPRU* 4.7.9R(1) permits a *firm* to which the management of assets has been formally delegated to exclude the value of the assets when measuring its *AUM* if the

delegating entity is a *financial entity*. However, if the delegation does not meet the requirements to be a formal delegation, the *firm* may not exclude the relevant assets from its measurement of *AUM*. The definition of a *financial entity* covers:

- (a) entities that are subject to an *AUM*-based capital requirement that is similar to the *K-AUM requirement*;
 - (b) an *insurance undertaking* that forms part of the same *financial conglomerate* as the *firm* if the *FCA* is the *coordinator* for that *financial conglomerate*; and
 - (c) an *undertaking* that is part of the same *investment firm group* as the *firm*, provided that the *investment firm group* is subject to prudential consolidation under *MIFIDPRU 2.5* and both entities are included within the resulting *consolidated situation* of the *UK parent entity* of that *investment firm group*.
- (5) *MIFIDPRU 4.7.9R(1)* is a limited exclusion that applies where assets under management have been delegated to the *firm* by a *financial entity*. This reflects the fact that the *financial entity* will either have a minimum *AUM*-based capital requirement or the *FCA* will have additional supervisory powers to take into account the position of the *financial entity* because it forms part of the same *financial conglomerate* or prudential consolidation group as the *firm*. However, even where a *financial entity* is included within the same *financial conglomerate* or *investment firm group* to which *MIFIDPRU 2.5* applies, *MIFIDPRU 4.7.9R(1)* may be disapplied by *MIFIDPRU 4.7.9R(2)* for sub-delegation arrangements. This is because extended chains of delegation may involve additional operational risks.
- (6) *MIFIDPRU 4.7.9R(2)* applies if a *firm* is managing a portfolio under sub-delegation arrangements. Its effect is illustrated by the following example: Firm A (a *third country* entity that is a *financial entity*) formally delegates the management of a portfolio of assets to Firm B (a *MIFIDPRU investment firm*). Firm B formally sub-delegates the management of part of the portfolio to Firm C (another *MIFIDPRU investment firm*). Firm B may apply the exclusion in *MIFIDPRU 4.7.9R(1)*, on the basis that Firm A is a *financial entity*. However, if Firm B applies the *MIFIDPRU 4.7.9R(1)* exclusion, Firm C cannot also exclude the value of the sub-delegated assets from Firm C's measurement of *AUM*. This is because *MIFIDPRU 4.7.9R(2)* disapplies the *MIFIDPRU 4.7.9R(1)* exclusion if the delegating entity has already applied a similar exclusion in relation to the same portfolio.

- (7) *MIFIDPRU* 4.7.9R(2) also applies if the delegating entity is a *financial entity* in a *third country* and is applying an equivalent exclusion. For example, Firm D (an entity in a *third country*) delegates the management of a portfolio to Firm E (a *financial entity* in a *third country*). Firm E sub-delegates the management of part of that portfolio to Firm F (a *MIFIDPRU investment firm*). The *third country* rules to which Firm E is subject permit Firm E to exclude the value of the assets delegated by Firm D from Firm E's AUM-based capital requirement. If Firm E is relying on that exclusion, Firm F cannot rely on the exclusion in *MIFIDPRU* 4.7.9R(1).
- 4.7.11 G Where a *financial entity* ("A") provides *investment advice of an ongoing nature* to a *MIFIDPRU investment firm* ("B") and B undertakes discretionary *portfolio management*, the arrangement does not fall within *MIFIDPRU* 4.7.9R. This is because the arrangement is not a formal delegation of the management of assets by A to B, but involves 2 distinct activities: ongoing *investment advice* provided by A and discretionary *portfolio management* undertaken by B. In this situation, if A is a *MIFIDPRU investment firm*, it must include any assets in relation to which it is providing the advice in its measurement of AUM. Where B undertakes discretionary *portfolio management* in relation to the same assets, B must also include those assets in its own measurement of AUM.
- 4.7.12 R (1) This *rule* applies where a *firm* has been managing assets for its *clients* under discretionary *portfolio management* or non-discretionary arrangements constituting *investment advice of an ongoing nature* for less than 15 months.
- (2) For the purposes of calculating *average AUM* under *MIFIDPRU* 4.7.5R, a *firm* must use the modified calculation in *MIFIDPRU* TP 4.11R(1) with the following adjustments:
- (a) in *MIFIDPRU* TP 4.11R(1)(b), *n* is the relevant number of *months* for which the *firm* has been managing assets for its *clients* under discretionary *portfolio management* or non-discretionary arrangements constituting *investment advice of an ongoing nature* (with the *month* during which the *firm* begins that activity counted as *month zero*); and
- (b) during *month zero* of the calculation, the *firm* must:
- (i) use a best efforts estimate of expected AUM for that *month* based on the *firm's* projections when beginning the new activity; and
- (ii) use the estimate in (i) as its *average AUM*;

- (c) during *month 1* of the calculation and each *month* thereafter, the *firm* must apply the approach in (a) using observed historical data from the preceding *months*; and
- (d) the modified calculation ceases to apply on the date that falls 15 *months* after the date on which the *firm* began managing assets under (1).

4.7.13 G *MIFIDPRU* 4.10.26G to *MIFIDPRU* 4.10.32G and *MIFIDPRU* 4 Annex 12G contain additional *guidance* on the interaction between the measurement of a *firm's AUM* and the measurement of a *firm's COH*.

Investment advice of an ongoing nature

- 4.7.14 G
- (1) The definition of *investment advice of an ongoing nature* includes:
 - (a) the recurring provision of *investment advice*; or
 - (b) *investment advice* given in the context of the continuous or periodic assessment and monitoring, or review of a *client* portfolio of *financial instruments*, including of the *investments* undertaken by the *client* on the basis of a contractual arrangement.
 - (2) In either case, the *firm* must provide *investment advice* as part of the relevant arrangement. This means that the *firm* must provide a personal recommendation to the *client*. Therefore, where a *firm* merely provides generic advice to a *client* that does not result in a personal recommendation, the *firm* does not need to include the value of any assets that are the subject of the generic advice in its measurement of *AUM*. *Firms* should refer to the *guidance* in *PERG* 13.3 for further information on *investment advice*, personal recommendations and generic advice.
 - (3) For example, a *firm* may undertake a periodic review of a *client's* portfolio to assess whether the balance between investments in equities and fixed income products is appropriate. If the *firm* advises the *client* only in general terms to invest a higher proportion of the portfolio in equities and a lower proportion in bonds, this would not normally constitute *investment advice*, unless the *firm* also gave advice on investing in specific equities or bonds. Provided that the *firm* does not give advice relating to specific investments (i.e. a personal recommendation), it therefore would not need to include the value of the portfolio when measuring its *AUM*.

- 4.7.15 G (1) When giving *investment advice of an ongoing nature*, the assets that the *firm* must include within its measurement of *AUM* will depend on the scope of the *firm's* obligation to provide *investment advice*.
- (2) In some circumstances, a *firm* may have assumed a duty to provide *investment advice* in relation to the *client's* entire portfolio. For example, a financial adviser may agree to carry out periodic reviews of a *client's* entire portfolio and to make recommendations to the *client* about the specific *financial instruments* in which the *client* should invest. In that case, the *firm* must include the entire value of the *client's* portfolio (to the extent that the portfolio consists of *financial instruments*) in the *firm's* measurement of *AUM*. This is because the *firm* has assumed a duty to provide *investment advice of an ongoing nature* in relation to the entire portfolio.
- (3) In other situations, the scope of the *firm's* duty to provide *investment advice* may be more limited. For example, a *firm* may agree with a *client* that the *firm* will provide *investment advice* only on a particular subset of assets or only when specifically requested by the *client*. In that case, the *firm's* duty to provide *investment advice of an ongoing nature* is limited to the relevant subset of assets, or the specific *financial instruments* in respect of which the *client* requests advice. Therefore, the *firm* would be required to include only the value of those particular assets or *financial instruments* when measuring its *AUM*.
- (4) A *firm* may have assumed different duties in respect of different parts of a *client's* portfolio. For example, a *firm* may have agreed to carry out a general review of whether the *client's* portfolio is appropriately balanced in a manner that would constitute only generic advice, rather than a personal recommendation. However, the *firm* may also be under a duty to provide *investment advice* on the equities held within the portfolio. In that case, the general review would not constitute *investment advice* (as it is only generic advice) and therefore the *firm* does not need to include the entire value of the *client's* portfolio in the *firm's* measurement of *AUM*. However, as the *firm* does have an ongoing duty to provide *investment advice* in relation to the equities held in the portfolio, the *firm* must include the value of those assets within its measurement of *AUM*.
- (5) Where a *firm* provides recurring *investment advice* to a *client* without assuming a continuing duty, the *firm* is only required to include the value of the particular *financial instruments* in respect of which it provides *investment advice* in the *firm's* measurement of its *AUM*.

- 4.7.16 G (1) *Investment advice of an ongoing nature* includes arrangements involving periodic or continuous *investment advice* and arrangements involving recurring *investment advice*.
- (2) Periodic or continuous *investment advice* is most likely to arise where a *firm* agrees with a *client* that the *firm* will keep the *client's* portfolio under review or will provide advice to the *client* at various points during a specified period. For example, a *firm* may agree to manage a *client's* portfolio on a non-discretionary basis so that the *firm* has an ongoing duty to make personal recommendations to the *client*, but the *client* decides whether to proceed with each transaction. Alternatively, the *firm* may agree with the *client* to review the *client's* portfolio on, for example, a quarterly basis and to provide the *client* with personal recommendations following each review.
- (3) Recurring *investment advice* does not require the *firm* to have assumed an ongoing or periodic duty to provide *investment advice* to the *client*. Instead, the *firm* provides *investment advice* to the same *client* repeatedly, even though there is no agreement with the *client* to establish a formal ongoing relationship. When considering whether *investment advice* is recurring for these purposes, a *firm* should assess whether, in substance, the type and pattern of advice that it provides is similar to periodic or continuous advice. This means that a *firm* cannot prevent what are, in substance, ongoing advisory arrangements for a *client* from constituting *investment advice of an ongoing nature* by artificially separating them into multiple individual agreements to provide advice to that *client*. If requested by the *FCA*, a *firm* should be able to justify why the *firm* has concluded that a particular set of advisory arrangements with a *client* does not constitute *investment advice of an ongoing nature*.
- (4) *Investment advice of an ongoing nature* does not include genuinely isolated or sporadic instances of *investment advice* provided to the same *client* that do not, in substance, amount to ongoing arrangements. However, a *firm* should assess the potential harms arising from any *investment advice* that is not *investment advice of an ongoing nature* as part of its *ICARA* process.
- 4.7.17 G (1) Where a *firm* provides *investment advice* in the context of the continuous or periodic assessment and monitoring or review of a *client* portfolio of *financial instruments*, the value of *AUM* that the *firm* includes in respect of that portfolio should be determined by the scope of the *firm's* duty to the *client*.
- (2) If the *firm* is under a duty to review the *client's* entire portfolio and provide *investment advice* as a result, the value

of all *financial instruments* in the portfolio should be included in *AUM*. If the *firm's* duty is limited to specific *financial instruments*, only those *financial instruments* need to be included in *AUM*.

- 4.7.18 R For the purposes of the calculation of *average AUM* in *MIFIDPRU* 4.7.5R:
- (1) if the *firm* is under a duty to undertake a continuous assessment of the portfolio (or a subset of the portfolio), the *firm* must measure the value of *AUM* of the portfolio (or the relevant subset of it) on the last *business day* of each *month* during which that duty applies; and
 - (2) if the *firm* is under a duty to undertake periodic assessments of the portfolio (or a subset of the portfolio), the *firm* must use the value of the portfolio (or the relevant subset of it) at the time of the last review as the relevant value of *AUM* for each *month* until the next periodic review occurs (or the *firm's* duty ends, if earlier).
- 4.7.19 G The requirement in *MIFIDPRU* 4.7.18R(2) is illustrated by the following example:
- (1) On 1 March, the *firm* reviews the *client's* entire portfolio of *financial instruments* and provides *investment advice* to the *client*. The value of the *client's* portfolio is 100 on that date. The *firm* is required to carry out its next review of the *client's* portfolio on 1 June. The *firm* would include a value of 100 in its *AUM* for each of March, April and May.
 - (2) On 1 June, the *firm* reviews the *client's* entire portfolio again and provides further *investment advice* to the *client*. The value of the *client's* portfolio on that date is 110. The *firm* would include a value of 110 in its *AUM* for June and each subsequent *month* until the time of the next review, or until the *firm's* duty to carry out a review of the *client's* portfolio ends (if earlier).
- 4.7.20 G
- (1) Where a *firm* provides recurring *investment advice* to a *client*, the value of *AUM* that the *firm* must include in respect of that *client* should be measured by the value of the *financial instruments* that are the subject of the relevant *investment advice*.
 - (2) Under *MIFIDPRU* 4.7.5R, to calculate its *average AUM*, a *firm* must take the 15 most recent monthly values of *AUM* and exclude the most recent 3 *months* before calculating the arithmetic mean of the remaining values. *MIFIDPRU* 4.7.21R explains how a *firm* should measure the monthly value of

AUM when it is providing recurring *investment advice* to a *client*.

- 4.7.21 R (1) Subject to (2), for the purposes of the calculation of *average AUM* under *MIFIDPRU* 4.7.5R, the value of *AUM* for recurring *investment advice* given in relation to a *client* in any given *month* is the sum of:
- (a) the *AUM* arising from the recurring *investment advice* given by the *firm* to that *client* during that *month*; and
 - (b) the *AUM* arising from the recurring *investment advice* given by the *firm* to that *client* during the immediately preceding 11 *months*.
- (2) When measuring *AUM* under (1), a *firm* may adjust the *AUM* figure to reflect the fact that the *firm* has previously given *investment advice* in relation to the same assets during the preceding 11 *months*.

- 4.7.22 G (1) The effect of *MIFIDPRU* 4.7.21R is illustrated by the following example.
- (2) A *firm* provides recurring *investment advice* to a *client*. The dates on which the *firm* provides advice and the value of the *financial instruments* that are the subject of the advice are set out in the table below. In October 2022, the *firm* provides advice in relation to the same assets worth 25 on which the *firm* advised in March 2022, plus additional assets worth 45.

Date of advice	Value of financial instruments
January 2022	50
February 2022	No advice given
March 2022	25
April 2022	100
May 2022	No advice given
June 2022	50
July 2022	No advice given
August 2022	No advice given
September 2022	80

October 2022	70 (consisting of the same assets in March 2022 worth 25 and 45 of new assets)
November 2022	No advice given
December 2022	10
January 2023	No advice given
February 2023	No advice given
March 2023	30

- (3) *MIFIDPRU 4.7.21R* means that *AUM* from recurring *investment advice* is cumulative across a rolling 12-month period. The following table shows how the *firm* in (2) would calculate the *AUM* attributable to the provision of recurring *investment advice* to the *client*.

Month	Value of AUM
January 2022	50
February 2022	50
March 2022	75 (i.e. 50 + 25)
April 2022	175 (i.e. 50 + 25 + 100)
May 2022	175
June 2022	225 (i.e. 50 + 25 + 100 + 50)
July 2022	225
August 2022	225
September 2022	305 (i.e. 50 + 25 + 100 + 50 + 80)
October 2022	350 (i.e. 50 + 25 + 100 + 50 + 80 + 70 = 375)

	375 – 25 (adjustment for the same assets in March 2022) = 350)
November 2022	350
December 2022	360 (i.e. 50 + 25 + 100 + 50 + 80 + 70 + 10 = 385 385 – 25 (adjustment for the same assets in March 2022) = 360)
January 2023	310 (i.e. 25 + 100 + 50 + 80 + 70 + 10 = 335 335 – 25 (adjustment for the same assets in March 2022) = 310)
February 2023	310
March 2023	340 (i.e. 100 + 50 + 80 + 70 + 10 + 30)

- (4) At the end of March 2023, the *firm* would therefore calculate *average AUM* and the *K-AUM requirement* resulting from the above example of *investment advice of an ongoing nature* as follows:

Sum of the most recent 15 <i>months</i> of <i>AUM</i> , excluding the 3 most recent monthly values	50 + 50 + 75 + 175 + 175 + 225 + 225 + 225 + 305 + 350 + 350 + 360 = 2,565
<i>Average AUM</i>	2,565 / 12 = 213.75
<i>K-AUM requirement</i>	213.75 * 0.0002 = 0.043

4.8 K-CMH requirement

- 4.8.1 R The *K-CMH requirement* of a *MIFIDPRU investment firm* is equal to the sum of:

- (1) 0.4% of average CMH held by the firm in segregated accounts; and
- (2) 0.5% of average CMH held by the firm in non-segregated accounts.
- 4.8.2 G (1) Generally, a MIFIDPRU investment firm should be holding client money in one or more segregated accounts. Under MIFIDPRU 4.8.9E, where a firm complies with the applicable requirements of CASS 7 in relation to an amount of client money, there is a presumption that the client money is being held in a segregated account.
- (2) As a result, the K-CMH requirement for non-segregated accounts is most likely to be relevant where:
- (a) the K-CMH requirement applies on a consolidated basis and:
- (i) the consolidated situation includes one or more entities to which CASS does not apply, such as third country entities, that receive money from customers; and
- (ii) the arrangements under which the entity in (i) holds money received from customers do not meet the conditions in MIFIDPRU 4.8.8R (as they apply on a consolidated basis under MIFIDPRU 2.5.30R); or
- (b) a MIFIDPRU investment firm has not complied with the CASS 7 requirements, in which case the firm should treat any non-compliant arrangements as non-segregated accounts for the purposes of calculating any K-CMH requirement that includes that period of non-compliance.
- (3) However, the scenario in (2)(b) does not affect any obligation that the firm has under CASS, or under any other rule, to take specified action or to notify the FCA where the firm has identified that it has breached the requirements of CASS.
- 4.8.3 R When calculating its CMH in accordance with this section, a MIFIDPRU investment firm must include any amounts that relate to MiFID business of the firm that is carried on by any tied agent acting on its behalf.
- 4.8.4 G As a result of the restrictions in SUP 12.6.5R and SUP 12.6.15R, the FCA generally expects that MIFIDPRU 4.8.3R would not be directly relevant to MIFIDPRU investment firms on an individual basis. However, where this section applies on a consolidated basis in

accordance with *MIFIDPRU 2.5* (Prudential consolidation), the *UK parent entity* must include any *CMH* attributable to a *tied agent* of a *third country investment firm* included within the *consolidated situation*.

- 4.8.5 G
- (1) The definition of *CMH* includes only *client money* which is *MiFID client money*. Therefore, *client money* which is received in connection with business other than *MiFID business* does not need to be included within a *MIFIDPRU investment firm's* calculation of *CMH*, except to the extent that *MIFIDPRU 4.8.6R* applies.
 - (2) The definition of *MiFID client money* includes the following:
 - (a) *money* deposited into a *client bank account* in accordance with *CASS 7.13.3.R*;
 - (b) *money* originally received in connection with *MiFID business* which a *firm* has placed in a *qualifying money market fund* in accordance with *CASS 7.13.3R(4)*. This means that while the *units* or *shares* in the relevant *qualifying money market fund* must still be treated by the *firm* as *client* assets for the purposes of *CASS* and must be dealt with in accordance with *CASS 7.13.26R*, the value of those *units* or *shares* must be included in *CMH* for the purposes of *MIFIDPRU*;
 - (c) an amount of the *firm's* own *money* that the *firm* has paid into its *client bank account* for the purposes of:
 - (i) *prudent segregation*;
 - (ii) *alternative approach mandatory prudent segregation*; or
 - (iii) *clearing arrangement mandatory prudent segregation*; and
 - (d) *money* received from a *client* in connection with *MiFID business* which a *firm* has allowed a third party (such as an exchange, a *clearing house* or an *intermediate broker*) to hold in accordance with *CASS 7.14* (*Client money held by a third party*).
 - (3) Where a *firm* controls *money* under a *mandate* in accordance with *CASS 8*, the *money* is not *MiFID client money* if it is not *client money* received or held by the *firm*. A *firm* is not required to include any *money* it controls but does not hold within its calculation of *CMH*.
 - (4) Although *money* that is not *MiFID client money* does not contribute to the *K-CMH requirement*, a *MIFIDPRU*

investment firm should still consider any potential material harms that may arise in connection with receiving *money* from *clients* as part of their *ICARA process* under *MIFIDPRU 7*. This includes any material harms that may arise in relation to amounts received that are not treated as *client money*, such as under a *title transfer collateral arrangement*.

- 4.8.6 R If a *MIFIDPRU investment firm* is unsure whether *client money* should be classified as *MiFID client money*, it must treat the relevant amount as *MiFID client money* for the purposes of this section until the *firm* is satisfied that the amount is not *MiFID client money*.
- 4.8.7 G *MIFIDPRU 4.8.6R* applies only for the purposes of determining how the *client money* concerned should be treated for the purposes of *MIFIDPRU*. It does not affect how the *client money* should be treated for the purposes of other provisions in the *Handbook* (such as *CASS* or *COBS*) or under any other legislation.
- 4.8.8 R An arrangement is a *segregated account* if it is an arrangement in respect of which a *firm* (“A”) ensures that all of the following conditions are met:
- (1) A keeps records and accounts enabling A, at any time and without delay, to distinguish assets held for one *client* from assets held for any other *client* and from A’s own assets;
 - (2) A maintains its records and accounts in a way that ensures their accuracy, and in particular that they correspond to the assets held for *clients* and may be used as an audit trail;
 - (3) A conducts, on a regular basis, reconciliations between A’s internal accounts and records and those of any third parties by whom those assets are held;
 - (4) A takes the necessary steps to ensure that deposited *client* funds are held in an account or accounts identified separately from any accounts used to hold funds belonging to A;
 - (5) A operates adequate organisational arrangements to minimise the risk of the loss or diminution of *client* assets or of rights in connection with those assets, as a result of misuse of the assets, fraud, poor administration, inadequate record-keeping or negligence; and
 - (6) the applicable national law provides that, in the event of A’s insolvency or entry into resolution or administration, assuming that A has complied with (1) to (5), *client* funds cannot be used to satisfy claims against A, other than claims by the relevant *clients*.
- 4.8.9 E (1) This *rule* applies for the purposes of *MIFIDPRU 4.8.8R*.

- (2) A *MIFIDPRU investment firm* which holds *client money* must comply with, among other requirements, the applicable requirements on:
- (a) organisational requirements in relation to *client money* in CASS 7.12;
 - (b) segregation of *client money* in CASS 7.13 or *client money* held by a third party in CASS 7.14;
 - (c) records, accounts and reconciliations in CASS 7.15; and
 - (d) acknowledgement letters in CASS 7.18.
- (3) Compliance with (2) in relation to an arrangement may be relied on as tending to establish compliance with the conditions for that arrangement to be classified as a *segregated account* in *MIFIDPRU* 4.8.8R.
- (4) Contravention of (2) in relation to an arrangement may be relied on as tending to establish contravention of the conditions for that arrangement to be classified as a *segregated account* in *MIFIDPRU* 4.8.8R.
- 4.8.10 G The effect of *MIFIDPRU* 4.8.9E is that if a *MIFIDPRU investment firm* complies with the provisions of CASS specified in *MIFIDPRU* 4.8.9E(2) for a particular arrangement for *client money*, it can proceed on the basis that the *client money* is being held in a *segregated account* for the purposes of the *K-CMH requirement*. However, if the *firm* does not comply with the relevant CASS provisions in relation to a *client money* arrangement, this will generally be evidence that the relevant *client money* should be treated as being held in a *non-segregated account* for the purposes of calculating the *K-CMH requirement*.
- 4.8.11 G Where consolidation under *MIFIDPRU* 2.5 (Prudential consolidation) applies to an *investment firm group*, *MIFIDPRU* 2.5.30R and *MIFIDPRU* 2.5.31R explain how to calculate the consolidated *K-CMH requirement*.
- 4.8.12 R A *firm* must calculate its *K-CMH requirement* on the first *business day* of each *month*.
- 4.8.13 R A *firm* must calculate the amount of its *average CMH* by:
- (1) taking the total *CMH* as measured at the end of each *business day* during the previous 9 *months*;
 - (2) excluding the daily values for the most recent 3 *months*; and

- (3) calculating the arithmetic mean of the daily values for the remaining 6 months.
- 4.8.14 R For the purpose of the calculation in *MIFIDPRU* 4.8.13R, a *firm* must measure *CMH* in accordance with, to the extent applicable:
- (1) any records, accounts and reconciliations that the *firm* maintains to comply with the requirements of *CASS* 7.15 (Records, accounts and reconciliations); and
- (2) any values contained in accounting records.
- 4.8.15 R Where a *firm* has been holding *CMH* for less than 9 months, it must calculate its *average CMH* using the modified calculation in *MIFIDPRU* TP 4.11R(1) with the following adjustments:
- (1) in *MIFIDPRU* TP 4.11R(1)(b), *n* is the relevant number of months for which the *firm* has been holding *CMH* (with the month during which the firm begins that activity counted as month zero);
- (2) during month zero of the calculation, the *firm* must:
- (a) use a best efforts estimate of expected *CMH* for that month based on the *firm*'s projections when beginning the new activity; and
- (b) use the estimate in (a) as its *average CMH*;
- (3) during month 1 of the calculation and each month thereafter, the *firm* must apply the approach in (1) using observed historical data from the preceding months;
- (4) the modified calculation ceases to apply on the date that falls 9 months after the date on which the *firm* began holding *CMH*.
- 4.8.16 G (1) Under *MIFIDPRU* 4.8.13R(1), a *firm* must measure its *CMH* at the end of each *business day*. The relevant amount should reflect any subsequent adjustment that the *firm* must apply as a result of any requirement to carry out internal reconciliations in relation to *client money* (for example, under *CASS* 7.15). Therefore, where an internal reconciliation subsequently identifies that the amount of *CMH* recorded for a particular *business day* is incorrect, the *firm* should update the relevant amount to reflect the correct figure.
- (2) Where the *K-CMH requirement* applies on a *consolidated basis*, the *guidance* in (1) also applies in relation to any reconciliations carried out in accordance with the requirements of the jurisdiction in which any *third country* entity included in the *consolidated situation* is based.

4.9 K-ASA requirement

- 4.9.1 R The *K-ASA requirement* of a *MIFIDPRU investment firm* is equal to 0.04% of the *firm's average ASA*.
- 4.9.2 R When calculating its *K-ASA requirement* in accordance with this section, a *MIFIDPRU investment firm* must include within its *ASA* any amounts that relate to *MiFID business* of the *firm* that is carried on by any *tied agents* acting on its behalf.
- 4.9.3 G Due to the limited types of activities in respect of which a *tied agent* may be exempt from the requirement for *authorisation* in the *UK* (as explained in *SUP 12.2.7G*), the *FCA* generally expects that *MIFIDPRU 4.9.2R* would not be directly relevant to a *MIFIDPRU investment firm* on an individual basis. However, where *MIFIDPRU 4.9* applies on a *consolidated basis* in accordance with *MIFIDPRU 2.5* (Prudential consolidation), the *UK parent entity* must include any *ASA* attributable to a *tied agent* of a *third country investment firm* included within the *consolidated situation*.
- 4.9.4 R A *firm* must exclude from its measurement of *ASA* any units or shares in a *qualifying money market fund* that are treated as *MiFID client money*.
- 4.9.5 G
- (1) The definition of *ASA* includes only *client* assets held by a *MIFIDPRU investment firm* in the course of *MiFID business*. Therefore, *client* assets which are held in connection with business other than *MiFID business* do not need to be included within a *MIFIDPRU investment firm's* calculation of *ASA*, except to the extent that *MIFIDPRU 4.9.6R* applies.
 - (2) As explained in *MIFIDPRU 4.8.5G*, the definitions of *MiFID client money* and *CMH* include amounts that a *MIFIDPRU investment firm* has placed with *qualifying money market funds* in accordance with *CASS 7.13.3R(4)*. As a result, although the resulting units or shares in a *qualifying money market fund* may be treated as *client* assets for the purposes of the *custody rules*, under *MIFIDPRU 4.9.4R*, their value must be included in *CMH* not in *ASA*.
 - (3) Although *client* assets that a *firm* holds other than in the course of *MiFID business* do not contribute to the *K-ASA requirement*, a *MIFIDPRU investment firm* should still consider any potential material harms that may arise in connection with receiving assets from *clients* as part of its *ICARA process* under *MIFIDPRU 7*.
 - (4) As part of its *ICARA process*, a *firm* should also consider material harms that may arise in relation to amounts received that are not treated as *client* assets for the purposes of the *custody rules* but in relation to which the *firm* may have future

obligations to a *client*, such as under a *title transfer collateral arrangement*.

- 4.9.6 R If a *MIFIDPRU investment firm* is unsure whether *client* assets are held in the course of *MiFID business*, it must treat those assets as held in the course of *MiFID business* for the purposes of this section until it is satisfied that the assets are not held in the course of *MiFID business*.
- 4.9.7 R A *firm* must calculate its *K-ASA requirement* on the first *business day* of each *month*.
- 4.9.8 R A *firm* must calculate the amount of its *average ASA* by:
- (1) taking the total *ASA* as measured at the end of each *business day* for the previous 9 *months*;
 - (2) excluding the values for the most recent 3 *months*; and
 - (3) calculating the arithmetic mean of the daily values for the remaining 6 *months*.
- 4.9.9 R When measuring *ASA*, a *firm* must:
- (1) where available, use the market value of the relevant assets; and
 - (2) where a market value is not available for an asset, use an alternative measure of fair value, which may include an estimated value calculated on a best efforts basis.
- 4.9.10 G The values used by a *firm* under *MIFIDPRU 4.9.8R* should be consistent with the information on *client* assets in any relevant regulatory data reported by the *firm* to the *FCA*, and in any internal or external reconciliations and records maintained in accordance with *CASS 6.6* (Records, accounts and reconciliations) unless a *rule* or relevant *guidance* requires the *firm* to take a different approach.
- 4.9.11 R Where either of the following applies, a *firm* must include the value of the relevant assets in its measurement of *ASA*:
- (1) the *firm* has delegated the safeguarding and administration of assets to another entity; or
 - (2) another entity has delegated the safeguarding and administration of assets to the *firm*.
- 4.9.12 G The effect of *MIFIDPRU 4.9.11R* is that a *firm* will not reduce its level of *ASA* by delegating the safeguarding of assets to a third party. However, a *firm* will increase the level of its *ASA* by accepting the delegation of safeguarding and administration of assets to the *firm* by a third party. This reflects the harm that may result from a breach of

the *firm's* direct safeguarding responsibilities or the *firm's* responsibilities in relation to the selection, appointment and periodic review of any third party to which the *firm* has delegated safeguarding.

- 4.9.13 R Where a *firm* has been safeguarding assets constituting ASA for less than 9 *months*, it must calculate its *average ASA* using the modified calculation in *MIFIDPRU* TP 4.11R(1) with the following adjustments:
- (1) in *MIFIDPRU* TP 4.11R(1)(b), *n* is the relevant number of *months* for which the *firm* has been safeguarding assets (with the *month* during which the *firm* begins that activity counted as *month zero*); and
 - (2) during *month zero* of the calculation, the *firm* must:
 - (a) use a best efforts estimate of expected ASA for that *month* based on its projections when beginning the new activity;
 - (b) use the estimate in (a) as its *average ASA*;
 - (3) during *month 1* of the calculation and each *month* thereafter, the *firm* must apply the approach in (1) using observed historical data from the preceding *months*; and
 - (4) the modified calculation ceases to apply on the date that falls 9 *months* after the date on which the *firm* began safeguarding assets constituting ASA.

4.10 K-COH requirement

- 4.10.1 R The *K-COH requirement* of a *MIFIDPRU investment firm* is equal to the sum of:
- (1) 0.1% of *average COH* attributable to *cash trades*; and
 - (2) 0.01% of *average COH* attributable to *derivatives trades*.
- 4.10.2 R When calculating its *K-COH requirement* in accordance with this section, a *MIFIDPRU investment firm* must include within its *COH* any amounts that relate to *MiFID business* of the *firm* that is carried on by any *tied agent* acting on its behalf.
- 4.10.3 G The definition of *COH* includes orders that a *firm* handles when carrying on either of the following types of *MiFID business*:
- (1) reception and transmission of client orders; and
 - (2) *execution of orders on behalf of a client*.

- 4.10.4 R A *firm* is not required to include the following in its measurement of *COH*:
- (1) an order executed by a *firm* in its own name (including where the *firm* executes an order in its own name on behalf of a *client*);
 - (2) an order that a *firm* handles when acting in the capacity of the operator of a *multilateral trading facility* or *organised trading facility*;
 - (3) a transaction that falls within the definition of reception and transmission of *client* orders only as a result of the situation described in recital 44 of *MiFID*; and
 - (4) orders that are not ultimately executed.
- 4.10.5 G *MIFIDPRU* 4.10.6G to *MIFIDPRU* 4.10.17G contain further *guidance* on whether particular arrangements are included within the measurement of *COH*.

Execution of orders in the firm's own name

- 4.10.6 G Where a *firm* executes an order in its own name (irrespective of whether the order is ultimately for the benefit of a *client*), the order is included within the *firm's* measurement of its *DTF* under *MIFIDPRU* 4.15 (K-*DTF* requirement) and not within its measurement of *COH* under this section.

The extended ("bringing together") definition of reception and transmission

- 4.10.7 G Recital 44 of *MiFID* describes transactions that result from a *firm* bringing together 2 or more investors (such as introducing an issuer to a potential source of funding), but where the *firm* does not otherwise interpose itself within the chain of execution of any resulting order. In practice, this is most likely to be relevant in the context of *corporate finance business* or private equity business. A *firm* may exclude these transactions from its measurement of *COH* provided that its role does not go beyond this "extended" definition of reception and transmission. This is further described in the *guidance* in *PERG* 13.3 (Investment Services and Activities).

Matched principal trading

- 4.10.8 G A *firm* that trades in a matched principal capacity will be placing orders in its own name. These orders must therefore be included in the measurement of the *firm's DTF* and are not included in the calculation of *COH*.

Name give-up activities

- 4.10.9 G (1) The *FCA* understands that activities that are described as involving “name give-up” may take different forms.
- (2) In certain cases, a *firm* may distribute indications of interest that indicate a willingness to enter into a transaction, but do not have fixed terms. The *firm* may then pass the names of the counterparties to each other following a match to allow them to facilitate the trade. These indications of interest and name-passing are not included within the measurement of *COH*. However, this does not mean that every transaction which begins with an indication of interest is outside the scope of *COH*. Where a *firm* is subsequently instructed to transmit an order on firm terms, or to execute an order, that transaction will be within the scope of *COH*, even if the order results from a process that began with an initial indication of interest.
- (3) In some circumstances, a *firm* may disseminate orders on firm terms that result in a transaction as soon as they are confirmed by the recipient, following which the *firm* will disclose the name of the relevant counterparty. This activity is included within the measurement of *COH* because it involves reception and transmission of an order on firm terms.

Exchange give-up activities

- 4.10.10 G (1) A *firm* may facilitate trading by its *clients* on exchanges. Once a transaction has been executed, the relevant trade is then given up to the *client's* clearing firm.
- (2) A *firm* should consider the exact capacity in which it is acting, and whether it incurs any liability as principal, when determining whether orders resulting from exchange give-up activities are included within the measurement of *COH*.
- (3) If the *firm* enters into the transaction in its own name and therefore incurs principal liability, even for a short period, in relation to the trade before it is given up, the order should be included within the *firm's* measurement of *DTF* and not within its measurement of *COH*.
- (4) If the *firm* does not incur liability as principal and merely acts as agent in the name of a third party in relation to the trade, the order should be included within the *firm's* measurement of *COH*.

Exchange block trades

- 4.10.11 G (1) A *firm* may be involved in negotiating a bilateral trade in relation to an exchange-traded instrument between counterparties that takes place off-exchange because the size of the trade exceeds certain specified levels. In some cases,

the exchange may provide communications functionality to facilitate the block trades, but the trades are not executed on the exchange's public market.

- (2) A *firm* must determine the capacity in which the *firm* is acting in relation to the block trade to determine if the value of the trade should be included in the *firm's* measurement of *COH*.
- (3) If the *firm* enters into the block trade in its own name and the trade is then given up to a *client*, the *firm* should include the value of that trade in its measurement of *DTF*.
- (4) If the *firm* executes the block trade as agent by committing the *client* to the terms of the trade, the *firm* should include the value of that trade in its measurement of *COH*.
- (5) If the *firm* receives firm terms of the block trade from the *client* and transmits the terms to the counterparty in order for the counterparty to confirm the terms to create a binding transaction, the *firm* should include the value of that trade in its measurement of *COH*.

Broker functionality

- 4.10.12 G A *firm* may be a member of an exchange and may provide functionality whereby trades can be executed and booked directly into the account of the relevant *client*. In this case, the *FCA* considers that the trades should be included in the *firm's* measurement of *COH*, as the *firm* is still being used to execute the relevant trade.

Orders connected with the operation of trading venues

- 4.10.13 G (1) A *firm* which is *operating a multilateral trading facility* or *operating an organised trading facility* does not need to include any orders it handles solely in that capacity in its measurement of *COH*. However, it should consider as part of its *ICARA process* whether that activity gives rise to the risk of material potential harm which may require it to hold additional *own funds* or *liquid assets* under *MIFIDPRU 7*.
- (2) However, if the operator of an *organised trading facility* is engaging in *matched principal trading*, as permitted by *MAR 5A.3.5R*, any matched principal trades are included in its measurement of *DTF* under *MIFIDPRU 4.15* (K-DTF requirement).
- 4.10.14 G A *firm* that executes *client* orders on a *multilateral trading facility* or an *organised trading facility* when the *firm* is not acting in the capacity of the trading venue operator must include the orders in its measurement of *COH* (unless the *firm* executes the orders in its own

name, in which case it must include the orders in its measurement of *DTF*).

- 4.10.15 G In certain circumstances, the same *firm* may both act as the operator of a *multilateral trading facility* or an *organised trading facility* and also submit an order on that *trading venue* on behalf of a *client*. In this case, although the *firm* is not required to measure *COH* in relation to its role as the operator of the *trading venue*, it must still measure *COH* (or *DTF* if it is possible to enter into transactions in its own name on the *trading venue* and it is executing in that capacity) in relation to the order that it executes for the *client*.

Orders that are never executed

- 4.10.16 G (1) The effect of *MIFIDPRU* 4.10.4R(4) is that where a *firm* receives a *client* order but that order is not ultimately executed, it does not have to include the value of that order in its measurement of *COH*. However, as part of its *ICARA process*, a *firm* should consider whether the fact that an order has not been executed gives rise to any material risks to the *firm* or to its *clients*. This may depend on the reasons why the *client* order has not been executed.
- (2) If, for example, the order was not executed because market conditions did not allow the *firm* (or another entity to whom the order was ultimately transmitted) to achieve an appropriate outcome for the *client*, this may be consistent with the *firm's* contractual and regulatory duties. In that case, this may not give rise to any additional material risks.
- (3) However, if the *firm* failed to transmit or execute an order because of an oversight or an internal systems failure, this may indicate that the *firm* has been failing in its duties to its *client* or in its regulatory obligations. Alternatively, the *firm* may have successfully transmitted an order, but failed to select an appropriate entity to receive and execute the order, and therefore may have failed to comply with its obligations to act in the best interests of the *client* when transmitting the order. In this case, the *firm* should consider as part of its *ICARA process* whether the failures may give rise to material risks and how these risks should be addressed.
- 4.10.17 G (1) Although failure to achieve the execution of an individual order does not necessarily indicate potential material harms, a series or pattern of failures may be evidence of potential material harms.
- (2) A *firm's* analysis under its *ICARA process* is separate from the application of any individual regulatory or other legal duties owed to an individual *client*. Therefore, while a *firm* may conclude that an isolated oversight in relation to a *client* order

does not give rise to the risk of material harm under the *ICARA process*, this does not affect any obligations that the *firm* owes to the *client*.

Calculating COH

- 4.10.18 R A *firm* must calculate its *K-COH requirement* on the first *business day* of each *month*.
- 4.10.19 R (1) A *firm* must calculate the amount of its *average COH* by:
- (a) taking the total *COH* measured throughout each *business day* over the previous 6 *months*;
 - (b) excluding the daily values for the most recent 3 *months*; and
 - (c) calculating the arithmetic mean of the daily values of the remaining 3 *months*.
- (2) When measuring the value of *COH* for a particular *business day*, a *firm* must convert any amounts in foreign currencies on that date into the *firm's* functional currency.
- (3) For the purposes of the currency conversion in (2), a *firm* must:
- (a) determine the conversion rate by reference to an appropriate market rate; and
 - (b) record the rate used.

Measuring the value of orders for COH

- 4.10.20 R (1) When measuring its *COH*, a *firm* must use the sum of the absolute value of each buy order and sell order, as determined in accordance with the remainder of this *rule*.
- (2) For *cash trades* relating to *financial instruments*, the value of the order is the amount paid or received on the trade at the time at which it is executed, unless the *firm* has applied the approach in *MIFIDPRU* 4.10.23R.
- (3) For *derivatives trades* other than orders relating to interest rate derivatives, the value of the order is the notional amount of the contract, determined in accordance with *MIFIDPRU* 4.14.20R(2).
- (4) For orders relating to interest rate derivatives, the value of the order is the notional amount of the contract determined in accordance with *MIFIDPRU* 4.14.20R(2), adjusted in accordance with *MIFIDPRU* 4.10.25R.

- (5) A *firm* may calculate the value of an order by deducting any transaction costs to reflect the consideration received or paid by the *client* for the relevant instruments, provided that the transaction costs are not paid separately to the *firm* by the *client*.
- 4.10.21 G (1) Under the general approach in *MIFIDPRU* 4.10.20R(2), a *firm* determines the gross value of an order by multiplying the market price of the instrument by the quantity of the instrument being purchased or sold.
- (2) However, *MIFIDPRU* 4.10.20R(5) permits (but does not require) a *firm* to calculate the value of an order by reference to the consideration paid or received by the *client* for the instruments (i.e. net of transaction costs), provided that the transaction costs are included in the gross value of the order and are not paid by the *client* to the *firm* separately.
- (3) For example, Firm A executes an order for a *client* to buy 100 shares. The total cost of the order, including transaction costs, is £100. The *client* receives shares worth £88, after the *firm* uses £12 to cover transaction costs. Under the standard approach in *MIFIDPRU* 4.10.20R(2), the *firm* may record the value of the order in its *COH* as £100 (i.e. the gross cost of the order). The *firm* may, for example, choose this approach for reasons of simplicity and administrative convenience.
- (4) Alternatively, in the example above, the *firm* may apply the approach under *MIFIDPRU* 4.10.20R(5) to record the value of the order in its *COH* as £88 (i.e. net of transaction costs paid by the *client* in relation to the transaction).
- (5) However, a *firm* cannot rely on *MIFIDPRU* 4.10.20R(5) to reduce the value of an order by transaction costs that are paid separately by the *client* to the *firm*. For example, Firm B executes an order for a *client* to buy 100 shares. The total cost of the order is £100. The *client* additionally pays £12 to Firm B for transaction costs. In this case, the *firm* must record the net value of the order under *MIFIDPRU* 4.10.20R(5) in its *COH* as £100 (and not £88), as the transaction costs have been paid separately.
- (6) The effect of *MIFIDPRU* 4.10.19R(2) is that when measuring the value of *COH* at the end of each *business day*, a *firm* must apply the relevant conversion rate on that date to any amounts in foreign currencies forming part of the *COH* attributable to that *business day*. The *COH* for each preceding *business day* should continue to be measured by reference to the conversion rate that was applicable on that preceding day.

- (7) For the purposes of *MIFIDPRU* 4.10.19R(3), where a *firm* is carrying out a conversion that involves sterling, the *FCA* considers that an example of an appropriate market rate is the relevant daily spot exchange rate against sterling published by the Bank of England.
- 4.10.22 G For *cash trades* relating to exchange-traded options, the amount paid or received under *MIFIDPRU* 4.10.20R(2) is the premium paid for the option.
- 4.10.23 R (1) By way of derogation from *MIFIDPRU* 4.10.20R(2), a *firm* that receives and transmits an order that is a *cash trade* may apply the approach in this *rule* to determine the value of that order for the purposes of measuring *COH*.
- (2) Where a *firm* applies the approach in this *rule*, the value of the order shall be determined by reference to:
- (a) for an order which specifies a fixed price or limit price at which the order should be executed, that price; or
- (b) for an order which does not specify a price, the market price of the relevant instrument at the end of the day on which the order is transmitted by the *firm*.
- (3) A *firm* that applies the approach in this *rule* must apply it either:
- (a) in relation to all *cash trades* that the *firm* receives and transmits; or
- (b) only in relation to *cash trades* that the *firm* receives and transmits where it does not receive timely information from the executing entity about the terms on which the order was executed.
- (4) A *firm* that applies the approach in this *rule* must document which basis in (3) applies.
- 4.10.24 G (1) The effect of *MIFIDPRU* 4.10.23R is to permit a *firm* that receives and transmits orders that are *cash trades* to determine the *COH* attributable to the orders using an alternative approach. A *firm* may either:
- (a) apply the standard approach in *MIFIDPRU* 4.10.20R(2) and use the price at which the relevant order was ultimately executed, once this has been confirmed by the entity that executes the order; or
- (b) apply the alternative approach in *MIFIDPRU* 4.10.23R and use a deemed price that is determined by reference to the limit price of the order or, if there is no limit

price, the end-of-day market price at the time at which the order is transmitted.

- (2) However, a *firm* must not use the alternative approach in *MIFIDPRU* 4.10.23R for regulatory arbitrage to reduce its *K-COH requirement*. To prevent this, a *firm* may only apply the alternative approach either:
- (a) in relation to all *cash trades* that the *firm* receives and transmits; or
 - (b) in relation to *cash trades* that the *firm* receives and transmits where the *firm* does not receive timely information from the broker about the terms on which the order was executed. In this case, the *firm* must apply the standard approach in *MIFIDPRU* 4.10.20R(2) in relation to all other *cash trades*. This is designed to ensure that the *firm* can record daily information for *COH* in circumstances where information about the ultimate execution of the order is otherwise missing or significantly delayed.

- 4.10.25 R (1) For the purposes of *MIFIDPRU* 4.10.20R(4), a *firm* must adjust the notional amount of an interest rate derivative by multiplying the notional amount by the duration.
- (2) The duration in (1) shall be determined in accordance with the following formula:

$$\text{Duration} = \text{time to maturity (in years)} / 10$$

Interaction between K-COH requirement and K-AUM requirement

- 4.10.26 G *MIFIDPRU* 4.10.27G to *MIFIDPRU* 4.10.32G and *MIFIDPRU* 4 Annex 12G explain the circumstances in which a *firm* must include orders that arise in connection with *portfolio management* or *investment advice* in, or may exclude orders from, its measurement of *COH*.
- 4.10.27 G (1) The basic definition of *COH* includes:
- (a) orders that the *firm* executes when providing execution services for a *client*; and
 - (b) orders that the *firm* has received from a *client* and transmitted to another entity for execution.
- (2) The *rules and guidance* in *MIFIDPRU* 4.10.28R to 4.10.32G explain how this definition applies in particular scenarios and certain exclusions or modifications that may apply.

- 4.10.28 R A *firm* may exclude from its calculation of *COH* any order that the *firm* generates in the course of providing either of the following in relation to a portfolio, if the portfolio is included in the *firm's* calculation of its *K-AUM requirement*:
- (1) *portfolio management*; or
 - (2) *investment advice of an ongoing nature*.
- 4.10.29 R (1) This *rule* applies where:
- (a) *portfolio management* has been delegated to a *firm* by a *financial entity*; and
 - (b) as a result of the delegation in (a), the *firm* has excluded the delegated portfolio from its calculation in *AUM* in accordance with *MIFIDPRU 4.7.9R*.
- (2) The *firm* in (1) must include in its measurement of *COH* any orders that the *firm* executes in the course of providing *portfolio management* in relation to the delegated portfolio.
- (3) The *firm* in (1) is not required to include in its measurement of *COH*:
- (a) any order that the *firm* passes back to the delegating *financial entity* for execution (whether the order is executed by that *financial entity* or is transmitted by the *financial entity* to another entity for execution); or
 - (b) any order that the *firm* places with another entity for execution in the course of providing *portfolio management* in relation to the delegated portfolio.
- 4.10.30 G The exclusions in *MIFIDPRU 4.7.9R*, *MIFIDPRU 4.10.28R* and *MIFIDPRU 4.10.29R(3)* may result in a *firm* that carries on delegated *portfolio management* having no *K-AUM requirement* or *K-COH requirement* in relation to all or part of a delegated portfolio. Where one or more exclusions apply, a *firm* should still assess as part of its *ICARA process* whether the activity of providing delegated *portfolio management* may give rise to potential material harms that may need to be covered by additional financial resources. *Firms* should refer to the *rules and guidance* in *MIFIDPRU 7* for additional information on the *ICARA process*.
- 4.10.31 G (1) *MIFIDPRU 4.10.29R* does not apply where a *financial entity* (“A”) carries on *portfolio management* in relation to a portfolio and a *MIFIDPRU investment firm* (“B”) provides *investment advice of an ongoing nature* to A in relation to that portfolio. In this situation, A has not delegated *portfolio management* to B. Instead, A provides the service of *portfolio management* to A’s *client*, and B provides the separate service

of *investment advice* to A. If A is a *MIFIDPRU investment firm*, A will include the value of the relevant portfolio when calculating its *K-AUM requirement*. B will calculate its own *K-AUM requirement* in relation to the same portfolio.

- (2) Although *MIFIDPRU* 4.10.29R does not apply in this scenario, B may benefit from the separate exclusion in *MIFIDPRU* 4.10.28R(2) and therefore would not be required to include any orders that result from its ongoing *investment advice* within B's calculation of *COH*, because B will calculate a *K-AUM requirement* in relation to the relevant portfolio.

4.10.32 G When measuring *COH* for the purposes of *MIFIDPRU* 4.10.19R, a *firm* must include:

- (1) an order that the *firm* executes, or receives and transmits, as a result of providing *investment advice* (other than *investment advice of an ongoing nature*, if the *firm* calculates a *K-AUM requirement* in relation to the advice) to a *client* and subsequently receiving instructions from the *client* to transmit or execute the relevant order; and
- (2) an order that a *firm* receives from another *firm* ("X"), where:
- (a) X provides *investment advice* (including *investment advice of an ongoing nature*) to a *client*;
- (b) as a result of the advice in (a), the *client* instructs X to place an order with the *firm*; and
- (c) the *firm* executes or receives and transmits the order received from X.

Firms with less than 6 months data on COH

4.10.33 R (1) This *rule* applies where a *firm* has been handling *client* orders constituting *COH* for less than 6 *months*.

- (2) For the purposes of its calculation of *average COH* under *MIFIDPRU* 4.10.19R, a *firm* must use the modified calculation in *MIFIDPRU* TP 4.11R(1) with the following adjustments:
- (a) in *MIFIDPRU* TP 4.11R(1)(b), *n* is the relevant number of *months* for which the *firm* has been handling *client* orders constituting *COH* (with the *month* during which the firm begins that activity being counted as *month zero*); and
- (b) during *month zero* of the calculation, the *firm* must:

- (i) generate a best efforts estimate of expected *COH* for that *month* based on the *firm's* projections when beginning the new activity; and
- (ii) use the estimate in (i) as its *average COH*;
- (c) during *month 1* of the calculation and each *month* thereafter, the *firm* must apply the approach in (a) using observed historical data from the preceding *months*; and
- (d) the modified calculation ceases to apply on the date that falls *6 months* after the date on which the *firm* began handling *client* orders constituting *COH*.

4.11 Trading book and dealing on own account: general provisions

- 4.11.1 G References to *trading book* positions in *MIFIDPRU* include all *trading book* positions of the *firm*, including positions in:
- (1) equity instruments;
 - (2) debt instruments (including securitisation instruments);
 - (3) collective investment undertakings;
 - (4) foreign exchange;
 - (5) gold; and
 - (6) commodities and emissions allowances.
- 4.11.2 G (1) For the purposes of the definition of a *position held with trading intent* in relation to the *trading book*, positions arising from client servicing include those arising out of contracts in relation to which a *firm* is acting as principal (even in the context of activity described as ‘broking’ or ‘customer business’). This applies even if the nature of the business means that the only risks incurred by the *firm* are counterparty risks (i.e. no market risk charges apply).
- (2) If the nature of the business means that the only risks incurred by the *firm* are counterparty risks, the position will generally still be a *position held with trading intent*.
- (3) The *FCA* understands that business carried out under International Uniform Brokerage Execution (“Give-Up”) Agreements involve back to back trades as principal. If so, positions arising out of business carried out under such agreements should be allocated to a *firm's trading book*.

- 4.11.3 R (1) A *MIFIDPRU investment firm* must manage its *trading book* in accordance with Chapter 3 of Title I of Part Three of the *UK CRR* in the form in which it stood at 31 December 2021, with the following modifications:
- (a) if a *firm* is unsure whether a position is a *position held with trading intent* or is held to hedge a *position held with trading intent*, the *firm* must include that position within its *trading book*;
 - (b) the following provisions of the *UK CRR* do not apply:
 - (i) article 102(1);
 - (ii) article 102(4);
 - (iii) article 104(2)(g); and
 - (iv) article 106;
 - (c) the reference in article 104(1) of the *UK CRR* to “policies and procedures for determining which position to include in the trading book” is a reference to “policies and procedures for identifying which positions form part of the trading book”.
- (2) Any reference to the *UK CRR* in this *rule* is to the *UK CRR* as applied and modified by (1).
- 4.11.4 R The following requirements only apply to a *firm* that *deals on own account*, whether on its own behalf or on behalf of its *clients*:
- (1) the *K-NPR requirement*;
 - (2) the *K-CMG requirement*; and
 - (3) the *K-TCD requirement*.
- 4.11.5 R The *K-DTF requirement* applies to a *firm* that:
- (1) *deals on own account*; or
 - (2) *executes orders on behalf of clients* in the *firm’s* own name.
- 4.11.6 G A *MIFIDPRU investment firm* that *deals on own account* is also subject to the *K-CON requirement* in accordance with *MIFIDPRU 5*.
- 4.11.7 G A *MIFIDPRU investment firm* that has *permission* to operate an *organised trading facility* may rely on that *permission* to:

- (1) carry out *matched principal trading* in certain types of *financial instruments* with *client* consent, in accordance with *MAR 5A.3.5R(1)*; and
- (2) *deal on own account* in illiquid *sovereign debt* instruments in accordance with *MAR 5A.3.5R(2)*.

In either case, the *firm* will be *dealing on own account* and is therefore subject to the requirements in *MIFIDPRU 4.11.4R* and *MIFIDPRU 4.11.5R* to the extent relevant to the transactions it undertakes. *MIFIDPRU 5* explains how the *K-CON requirement* applies to such *firms*.

- 4.11.8 R A *firm* to which *MIFIDPRU 4.11.4R* applies is required to calculate its *K-NPR requirement* and *K-CMG requirement* only in relation to:
- (1) *trading book* positions; and
 - (2) positions other than *trading book* positions where the positions give rise to foreign exchange risk or commodity risk.
- 4.11.9 R (1) This *rule* applies where a *firm* has deliberately taken a position to hedge against the adverse impact of a foreign exchange rate on:
- (a) the *firm's own funds requirement*; or
 - (b) an item which the *firm* has deducted from its *own funds*.
- (2) A *firm* may exclude a position in (1) from its net open currency positions for the purpose of article 352 of the *UK CRR* (as applied by *MIFIDPRU 4.12.2R*) if the *firm* has prior permission from the *FCA*.
- (3) To obtain the permission in (2), a *firm* must:
- (a) complete the application form in *MIFIDPRU 4 Annex 1R* and submit it to the *FCA* using the *online notification and application system*;
 - (b) in the application, demonstrate to the satisfaction of the *FCA* that the position is:
 - (i) used for one of the hedging purposes in (1)(a) or (1)(b); and
 - (ii) of a non-trading or structural nature.
- (4) This *rule* replaces article 352(2) *UK CRR* where that article would otherwise apply under *MIFIDPRU 4.12.2R*.

4.11.10 R A *firm* to which *MIFIDPRU* 4.11.4R applies is required to calculate its *K-TCD requirement* only in relation to the following:

- (1) transactions that form part of its *trading book*; and
- (2) transactions specified in *MIFIDPRU* 4.14.3R(7).

4.12 K-NPR requirement

4.12.1 R A *MIFIDPRU investment firm* must calculate its *K-NPR requirement* by reference to every position referred to in *MIFIDPRU* 4.11.8R that does not form part of a *portfolio* for which the *firm* has been granted a *K-CMG permission*.

4.12.2 R (1) The *K-NPR requirement* of a *MIFIDPRU investment firm* must be calculated in accordance with Title IV of Part Three of the *UK CRR* in the form in which it stood at 31 December 2021.

(2) Any reference in this section to the *UK CRR* is to the *UK CRR* as applied by (1) and modified by the *rules* in this section.

(3) When applying the *UK CRR* in accordance with (1):

(a) any provision in the *UK CRR* relating to the effect that the market risk of a position has on the “own funds requirement” should be interpreted as relating instead to the effect that the position has on the *K-NPR requirement* of the *MIFIDPRU investment firm*;

(b) article 363 of the *UK CRR* does not apply;

(c) any reference in Title IV of Part Three of the *UK CRR* to:

(i) article 363 of the *UK CRR* (permission to use internal models) refers to *MIFIDPRU* 4.12.4R to *MIFIDPRU* 4.12.7R; and

(ii) permissions granted under article 363 of the *UK CRR* refers to equivalent permissions granted under *MIFIDPRU* 4.12.4R to *MIFIDPRU* 4.12.7R.

Instruments for which no treatment is specified in the *UK CRR*

4.12.3 R (1) Where a *MIFIDPRU investment firm* has a position in a *financial instrument* for which no treatment is specified in the *UK CRR*, it must consider whether:

(a) the position is sufficiently similar to a position for which a treatment is specified in the *UK CRR*; and

- (b) the application of the treatment in (a) would be prudent and appropriate.
- (2) If there is a treatment in the *UK CRR* that meets the requirements in (1), the *firm* must calculate the *K-NPR requirement* resulting from that position by applying that treatment.
- (3) If there are multiple treatments in the *UK CRR* that meet the requirements in (1), the *firm* must calculate the *K-NPR requirement* resulting from that position by applying the most appropriate treatment.
- (4) If there are no appropriate treatments in the *UK CRR*, the *firm* must add an appropriate percentage of the current value of the position to its overall *K-NPR requirement*. An appropriate percentage is either 100%, or a percentage that takes into account the characteristics of the position.
- (5) A *firm* must document its policies and procedures for calculating the *K-NPR requirement* of positions under this *rule* in its *trading book* policy statement.

Permission to use internal models

- 4.12.4 R (1) A *firm* must obtain prior permission from the *FCA* before using an internal model to calculate any of the following requirements under Part Three, Title IV, Chapter 5 of the *UK CRR*:
- (a) general risk of equity instruments;
 - (b) specific risk of equity instruments;
 - (c) general risk of debt instruments;
 - (d) specific risk of debt instruments;
 - (e) foreign exchange risk; and
 - (f) commodities risk.
- (2) To obtain the permission in (1), a *firm* must:
- (a) complete the application form in *MIFIDPRU 4 Annex 2R* and submit it to the *FCA* using the *online notification and application system*; and
 - (b) in the application, demonstrate to the satisfaction of the *FCA* that:

- (i) the *firm* meets the conditions for the use of the internal model specified in Part Three, Title IV, Chapter 5 of the *UK CRR*, as supplemented by the *rules* and *guidance* in this section; and
 - (ii) the internal model covers a significant share of the positions of the relevant risk category in (1).
 - (3) A *firm* must obtain a separate permission under this *rule* for each risk category in (1).
- 4.12.5 G *MIFIDPRU* 4.12.8R to 4.12.65G contain *rules* and *guidance* setting out requirements for internal models and explaining the factors that the *FCA* will consider when deciding whether to grant permission to use an internal model.
- 4.12.6 R
- (1) A *firm* that has a permission under *MIFIDPRU* 4.12.4R for an internal model must obtain approval from the *FCA* before it:
 - (a) implements a material change to the use of the model; or
 - (b) makes a material extension to the use of the model.
 - (2) To determine if a change or extension is material for the purposes of (1), a *firm* must apply the criteria and methodology set out in articles 3, 7a and 7b of the *Market Risk Model Extensions and Changes RTS*.
 - (3) To obtain the approval in (1), a *firm* must:
 - (a) complete the application form in *MIFIDPRU* 4 Annex 3R and submit it to the *FCA* using the *online notification and application system*; and
 - (b) perform an initial calculation of stressed value-at-risk in accordance with article 365(2) of the *UK CRR* on the basis of the model as changed or extended and submit the results as part of the application in (a).
- 4.12.7 R
- (1) A *firm* that has a permission under *MIFIDPRU* 4.12.4R for an internal model must notify the *FCA* before it:
 - (a) implements a change to the use of the model that is not a material change; or
 - (b) extends the use of the model in a manner that is not material.
 - (2) A *firm* must notify the *FCA* by completing the form in *MIFIDPRU* 4 Annex 4R and submitting it using the *online notification and application system*.

Use of internal models: risk capture

- 4.12.8 R A *MIFIDPRU investment firm* that has a permission to use an internal model in accordance with Part Three, Title IV, Chapter 5 of the *UK CRR* must:
- (1) identify any material risks (or group of risks are material in aggregate) that are not captured by those models;
 - (2) hold *own funds* to cover those risk(s) in addition to the *own funds* required to comply with the *K-NPR requirement*, calculated in accordance with Part Three, Title IV, Chapter 5 of the *UK CRR*; and
 - (3) hold additional *own funds* for value-at-risk (VaR) and stressed value-at-risk (sVaR) models that apply to the *firm*.
- 4.12.9 G
- (1) The methodology for identifying the risks in *MIFIDPRU* 4.12.8R and calculating additional *own funds* for VaR and sVaR models is called the “Risks not in VaR (RNIV) framework”. A *firm* is responsible for identifying these additional risks and this should be an opportunity for risk managers and the *firm’s* management to better understand the shortcomings of the *firm’s* models. Following this initial assessment, the *FCA* will engage with the *firm* to provide challenge and ensure an appropriate outcome.
 - (2) The RNIV framework is intended to ensure that *own funds* are held to meet all risks that are not captured, or not captured adequately, by the *firm’s* VaR and sVaR models. These include, but are not limited to, missing and/or illiquid risk factors such as cross-risks, basis risks, higher-order risks, and calibration parameters. The RNIV framework is also intended to cover event risks that could adversely affect the relevant business.
 - (3) A *firm* should systematically identify and measure all risks that are not captured, or not captured adequately. This analysis should be carried out at least quarterly, but the *FCA* may request more frequent analysis. The measurement of these risks should capture the losses that could arise due to the risk factor(s) of all products that are within the scope of the permission for the relevant internal model, but are not adequately captured by the relevant internal model.
 - (4) On a quarterly basis, the *firm* should identify and assess individual risk factors covered by the RNIV framework. The *FCA* will review the results of this exercise and may require that *firms* identify additional risk factors as being eligible for measurement.

- (5) (a) Where sufficient data is available, and where it is appropriate to do so, the *FCA* expects a *firm* to calculate a VaR and sVaR metric for each risk factor within scope of the framework. The stressed period for the RNIV framework should be consistent with that used for sVaR. No offsetting or diversification may be recognised across risk factors included in the RNIV framework. The multipliers used for VaR and sVaR should be applied to generate a *K-NPR requirement*.
- (b) If it is not appropriate to calculate a VaR and sVaR metric for a risk factor, a *firm* should instead measure the size of the risk based on a stress test. The confidence level and capital horizon of the stress test should be commensurate with the liquidity of the risk, and should be at least as conservative as comparable risk factors under the internal model approach. The capital charge should be at least equal to the losses arising from the stress test.

Standardised approach for options

- 4.12.10 R (1) A *MIFIDPRU investment firm* may use its own estimates for delta for the purposes of the standardised approach for options under article 329, article 352(1) or article 358 of the *UK CRR* if:
- (a) the option is:
- (i) an over-the-counter option; or
 - (ii) is traded on an exchange, but delta for the option is not available from that exchange;
- (b) the *firm* adequately reflects non-delta risks in the *K-NPR requirement* in accordance with the *Non-Delta Risk of Options RTS*;
- (c) the model the *firm* uses meets the minimum standards set out in *MIFIDPRU 4.12.12G* to *MIFIDPRU 4.12.18G* (Minimum standards for own estimates of delta) for each type of option for which it calculates delta;
- (d) the *firm* notifies the *FCA* that the requirements in (a) to (c) have been met before the *firm* begins to use its own estimates for the relevant delta; and
- (e) the notification in (d) is made using the form in *MIFIDPRU 4 Annex 5R* and submitted using the *online notification and application system*.

- (2) The value of delta is 1 where:
- (a) a *MIFIDPRU investment firm* is not permitted to use its own estimates for delta in accordance with (1); and
 - (b) if the option is traded on an exchange, delta is not available from that exchange.
- 4.12.11 G If a *MIFIDPRU investment firm* has notified the *FCA* under *MIFIDPRU* 4.12.10R that a model meets the minimum standards for a particular option type, but is subsequently unable to demonstrate to the *FCA* that the model meets those minimum standards, the *FCA* may apply a capital add-on and agree a risk mitigation plan. If a *firm* does not comply with the risk mitigation plan within the mandated timeframe, the *FCA* may take further supervisory measures. This may include variation of a *firm's Part 4A permission* so that the *firm* is no longer allowed to trade the relevant option types.

Minimum standards for own estimates of delta

- 4.12.12 G The sophistication of a pricing model used to calculate own estimates of delta for use in the standardised approach for options should be proportionate to the complexity and risk of each option and the overall risk of the *firm's* options trading business. In general, the *FCA* considers that the risk of sold options will be higher than the risk of the same options when bought.
- 4.12.13 G Delta should be recalculated at least daily. A *firm* should also recalculate delta promptly if there are significant movements in the market parameters used as inputs to calculate delta.
- 4.12.14 G The pricing model used to calculate delta should be:
- (1) based on appropriate assumptions that have been assessed and challenged by suitably qualified parties independent of the development process;
 - (2) independently tested, including validation of the mathematics, assumptions and software implementation; and
 - (3) developed or approved independently of the trading desk.
- 4.12.15 G A *firm* should use generally accepted industry standard pricing models for the calculation of own deltas where these are available, such as for relatively simple options.
- 4.12.16 G The IT systems used to calculate delta should be sufficient to ensure delta is calculated accurately and reliably.

- 4.12.17 G A *firm* should have adequate systems and controls in place when using a pricing model to calculate delta. This should include the following documented policies and procedures:
- (1) clearly defined responsibilities of the various areas involved in the calculation;
 - (2) frequency of independent testing of the accuracy of the model used to calculate delta; and
 - (3) guidelines for the use of unobservable inputs, where relevant.
- 4.12.18 G A *firm* should ensure its risk management functions are aware of weaknesses of the model used to calculate a delta. Where a *firm* identifies weaknesses, it should ensure that estimates of delta result in a prudent contribution to the *K-NPR requirement*. The outcome should be prudent across the whole portfolio of options and underlying positions at all times.

Netting: convertible

- 4.12.19 R The netting of a *convertible* and an offsetting position in the underlying instrument is permitted for the purposes of article 327(2) of the *UK CRR* (Netting).
- 4.12.20 G For the purposes of article 327(2) of the *UK CRR*, the *convertible* should be:
- (1) treated as a position in the *equity* into which it converts; and
 - (2) the component of the *firm's K-NPR requirement* attributable to the general and specific risk in its *equity* instruments should be adjusted by making:
 - (a) an addition equal to the current value of any loss that the *firm* would make if it did convert to *equity*; or
 - (b) a deduction equal to the current value of any profit that the *firm* would make if it did convert to *equity* (subject to a maximum deduction equal to the *K-NPR requirement* that would be attributable to the notional position underlying the *convertible*).

Offsetting derivative instruments

- 4.12.21 G Article 331(2) of the *UK CRR* (Interest rate risk in derivative instruments) sets out conditions that must be met before a *firm* not using interest rate pre-processing models can fully offset interest rate risk on derivative instruments. One of the conditions is that the reference rate (for floating-rate positions) or coupon (for fixed-rate positions) should be 'closely matched'. The *FCA* will normally consider a difference of less than 15 basis points as indicative of the

reference rate or coupon being ‘closely matched’ for the purposes of this requirement. A *firm* that wishes to use sensitivity models to calculate interest rate risk on derivative instruments in accordance with article 331(1) of the *UK CRR* should refer to *MIFIDPRU* 4.12.66R.

Exclusion of overshootings when determining multiplication factor addends

- 4.12.22 G (1) The *FCA*’s starting assumption is that all overshootings should be taken into account to calculate addends. If a *firm* believes that an overshooting should not count for that purpose, it should seek a variation of its VaR model permission from the *FCA* in accordance with *MIFIDPRU* 4.12.4R to exclude the overshooting.
- (2) An example of when a *firm*’s overshooting might properly be disregarded is when it has arisen as a result of a risk that is not captured in a *firm*’s VaR model but against which *own funds* are already held.

Derivation of notional positions for standardised approaches: general

- 4.12.23 G *MIFIDPRU* 4.12.24G to *MIFIDPRU* 4.12.38G set out *guidance* for the derivation of notional positions for standardised approaches to market risk under the *UK CRR*.

Futures and forwards on a basket or index of debt securities

- 4.12.24 G Futures or forwards on a basket or index of debt securities should be converted into forwards on single debt securities as follows:
- (1) futures or forwards on a single currency basket or index of debt securities should be treated as either:
- (a) a series of forwards, one for each of the constituent debt securities in the basket or index, of an amount that is a proportionate part of the total underlying the contract, according to the weighting of the relevant debt security in the basket; or
 - (b) a single forward on a notional debt security; and
- (2) futures or forwards on multiple currency baskets or indices of debt securities should be treated as either:
- (a) a series of forwards (using the method in (1)(a)); or
 - (b) a series of forwards, each one on a notional debt security to represent one of the currencies in the basket or index, of an amount that is a proportionate part of the total underlying the contract according to the weighting of the relevant currency in the basket.

- 4.12.25 G Notional debt securities derived through this treatment should be assigned a specific risk position risk adjustment and a general market risk position risk adjustment equal to the highest that would apply to the debt securities in the basket or index.
- 4.12.26 G The debt security with the highest specific risk position risk adjustment within the basket might not be the same as the one with the highest general market risk position risk adjustment. A *firm* should select the highest percentages, even if they relate to different debt securities in the basket or index, and regardless of the proportion of those debt securities in the basket or index.

Bonds where coupons and principal are paid in different currencies

- 4.12.27 G Where a debt security pays coupons in one currency but will be redeemed in a different currency, it should be treated as:
 - (1) a debt security denominated in the coupon’s currency; and
 - (2) a foreign currency forward to capture the fact that the debt security’s principal will be repaid in a different currency from that in which it pays coupons, specifically:
 - (a) a notional forward sale of the coupon currency and purchase of the redemption currency, in the case of a long position in the debt security; or
 - (b) a notional forward purchase of the coupon currency and sale of the redemption currency, in the case of a short position in the debt security.

Interest rate risk on other futures, forwards and swaps

- 4.12.28 G Other futures, forwards, and swaps for which a treatment is not specified in article 328 of the *UK CRR* (Interest rate futures and forwards) should be treated as positions in zero specific risk securities, each of which:
 - (1) has a zero coupon;
 - (2) has a maturity equal to that of the relevant contract; and
 - (3) is long or short, as set out in the table in *MIFIDPRU* 4.12.29G.
- 4.12.29 G This table belongs to *MIFIDPRU* 4.12.28G.

Instrument	Notional positions

Foreign currency forward or future	A long position denominated in the currency purchased	and	A short position denominated in the currency sold
Gold forward or future	A long position if the forward or future involves an actual (or notional) sale of gold	or	A short position if the forward or future involves an actual (or notional) purchase of gold
Equity forward or future	A long position if the contract involves an actual (or notional) sale of the underlying equity	or	A short position if the contract involves an actual (or notional) purchase of the underlying equity

Deferred start interest rate swaps or foreign currency swaps

- 4.12.30 G Interest rate swaps or foreign currency swaps with a deferred start should be treated as two notional positions (one long, one short). The paying leg should be treated as a short position in a zero specific risk security with a coupon equal to the fixed rate of the swap. The receiving leg should be treated as a long position in a zero specific risk security that also has a coupon equal to the fixed rate of the swap.
- 4.12.31 G The maturities of the notional positions in *MIFIDPRU* 4.12.30G are set out in the table in *MIFIDPRU* 4.12.32G.
- 4.12.32 G This table belongs to *MIFIDPRU* 4.13.31G.

	Paying leg	Receiving leg
Receiving fixed and paying floating	The maturity equals the start date of the swap	The maturity equals the end date of the swap
Paying fixed and receiving floating	The maturity equals the end date of the swap	The maturity equals the start date of the swap

Swaps where only one leg is an interest rate leg

- 4.12.33 G For interest rate risk, a *firm* should treat a swap (such as an equity swap) with only one interest rate leg as a notional position in a zero specific risk security:
- (1) with a coupon equal to that on the interest rate leg;
 - (2) with a maturity equal to the date that the interest rate will be reset; and
 - (3) that is a long position if the *firm* is receiving interest payments and is a short position if making interest payments.

Foreign exchange forwards, futures and contracts for differences

- 4.12.34 G (1) A *firm* should treat a foreign currency forward, future or contract for differences as two notional currency positions as follows:
- (a) a long notional position in the currency that the *firm* has contracted to buy; and
 - (b) a short notional position in the currency that the *firm* has contracted to sell.
- (2) In (1), the notional positions should have a value equal to either:
- (a) the contracted amount of each currency to be exchanged in a forward, future or contract for differences held outside the *trading book*; or
 - (b) the present value of the amount of each currency to be exchanged in a forward, future or contract for differences held in the *trading book*.

Foreign currency swaps

- 4.12.35 G (1) A *firm* should treat a foreign currency swap as:
- (a) a long notional position in the currency in which the *firm* has contracted to receive interest and principal; and
 - (b) a short notional position in the currency in which the *firm* has contracted to pay interest and principal.
- (2) In (1), the notional positions should have a value equal to either:
- (a) the nominal amount of each currency underlying the swap if it is held outside the *trading book*; or

- (b) the present value amount of all cash flows in the relevant currency in the case of a swap held in the *trading book*.

Futures, forwards and contract for differences on a single commodity

- 4.12.36 G Where a forward, future or contract for differences settles according to:
- (1) the difference between the price set on trade date and the price prevailing at contract expiry, the notional position should:
 - (a) equal the total quantity underlying the contract; and
 - (b) have a maturity equal to the expiry date of the contract;
 - (2) the difference between the price set on trade date and the average of prices prevailing over a certain period up to contract expiry, a notional position should be derived for each of the reference dates used in the averaging period to calculate the average price, which:
 - (a) equals a fractional share of the total quantity underlying the contract; and
 - (b) has a maturity equal to the relevant reference date.

Buying or selling a single commodity at an average of spot prices prevailing in the future

- 4.12.37 G Commitments to buy or sell at the average spot price of the commodity prevailing over some period between trade date and maturity should be treated as a combination of:
- (1) a position equal to the full amount underlying the contract with a maturity equal to the maturity date of the contract, which should be:
 - (a) long, where the *firm* will buy at the average price; or
 - (b) short, where the *firm* will sell at the average price; and
 - (2) a series of notional positions, one for each of the reference dates where the contract price remains unfixed, each of which should:
 - (a) be long if the position under (1) is short, or short if the position under (1) is long;
 - (b) be equal to a fractional share of the total quantity underlying the contract; and

- (c) have a maturity date of the relevant reference date.

Cash legs of repurchase agreements and reverse repurchase agreements

- 4.12.38 G The forward cash leg of a repurchase agreement or reverse repurchase agreement should be treated as a notional position in a zero specific risk security that:
- (1) is a short notional position in the case of a repurchase agreement and a long notional position in the case of a reverse repurchase agreement;
 - (2) has a value equal to the market value of the borrowing or deposit;
 - (3) has a maturity equal to that of the borrowing or deposit, or the next date the interest rate is reset (if earlier); and
 - (4) has a coupon equal to:
 - (a) zero, if the next interest payment date coincides with the maturity date; or
 - (b) the interest rate on the borrowing or deposit, if any interest is due to be paid before the maturity date.

Expectations relating to internal models

- 4.12.39 G *MIFIDPRU* 4.12.40G to *MIFIDPRU* 4.12.65G describe some of the standards that the *FCA* expects to be met when it is considering an application under *MIFIDPRU* 4.12.4R to use an internal model.

High-level standards

- 4.12.40 G A *firm* should be able to demonstrate that it meets the risk management standards in article 368 of the *UK CRR* (Qualitative requirements) on a legal entity and business-line basis where appropriate. This is particularly important for a *subsidiary* in a *group* subject to matrix management where the business lines cut across legal entity boundaries.

Categories of position

- 4.12.41 G A VaR model permission generally sets out the broad classes of position within each risk category in its scope. It may also specify how individual products within one of the classes may be brought into or taken out of the scope of the VaR model permission. The broad classes of permission are:
- (1) linear products, which comprise securities with linear pay-offs (such as bonds and *equities*) and derivative products which

have linear pay-offs in the underlying risk factor (such as interest rate swaps, *FRAs*, and total return swaps);

- (2) European, American and Bermudan put and call options (including caps, floors, and swaptions) and investments with these features;
- (3) Asian options, digital options, single barrier options, double barrier options, look-back options, forward-starting options, compound options and investments with these features; and
- (4) all other option-based products (such as basket options, quantos, outperformance options, timing options, and correlation-based products) and investments with these features.

Data standards

- 4.12.42 G A *firm* should ensure that the data series used by its VaR model is reliable. Where a reliable data series is not available, the *firm* may use proxies or any other reasonable value-at-risk measurement if the model meets the requirements in article 367(2)(e) of the *UK CRR* (Requirements on risk measurement). The technique must be appropriate and must not materially understate the modelled risks.
- 4.12.43 G Data may be insufficient if, for example, it contains missing data points or data points that contain stale data. For less liquid risk factors or positions, the *FCA* expects the *firm* to make a conservative assessment of those risks, using a combination of prudent valuation techniques and alternative VaR estimation techniques to ensure there is a sufficient cushion against risk over the close-out period, which takes account of the illiquidity of the risk factor or position.
- 4.12.44 G A *firm* is expected to update data sets to maintain standards of reliability in accordance with the frequency set out in its VaR model permission, or more frequently if necessary due to volatility in market prices or rates. This is in order to ensure a prudent calculation of the VaR measure.

Aggregating VaR measures

- 4.12.45 G (1) In determining whether it is appropriate for a *firm* to use empirical correlations within risk categories and across risk categories within a model, the *FCA* will consider whether such an approach is sound and implemented with integrity. In general, the *FCA* expects a *firm* to determine the aggregate VaR measure by adding the relevant VaR measure for each category, unless the *firm's* permission provides for a different method of aggregating VaR measures that is empirically sound.

- (2) The *FCA* does not expect a *firm* to use the square root of the sum of the squares approach when aggregating measures across risk categories unless the assumption of zero correlation between these categories is empirically justified. If correlations between risk categories are not empirically justified, the VaR measures for each category should simply be added to determine its aggregate VaR measure. However, to the extent that a *firm's* VaR model permission provides for a different way of aggregating VaR measures:
- (a) that method applies instead; and
 - (b) if the correlations between risk categories used for that purpose cease to be empirically justified then the *firm* is expected to notify the *FCA* immediately.

Testing prior to model validation

- 4.12.46 G A *firm* should demonstrate its ability to comply with the requirements for a VaR model permission. In general, a *firm* should have a back-testing programme in place and should provide 3 *months* of back-testing history.
- 4.12.47 G A *firm* should carry out a period of initial monitoring or live testing before the *FCA* will recognise a VaR model. This will be agreed on a *firm-by-firm* basis.
- 4.12.48 G The *FCA* will take into account the results of internal model validation procedures used by the *firm* to assess the VaR model when assessing the *firm's* VaR model and risk management.

Back-testing

- 4.12.49 G *MIFIDPRU* 4.12.50G to *MIFIDPRU* 4.12.53G provide further *guidance* on how a *firm* should comply with the requirements in article 366 of the *UK CRR* (Regulatory back testing and multiplication factors).
- 4.12.50 G If the *day* on which a loss is made is day *n*, the value-at-risk measure for that *day* will be calculated on day *n-1*, or overnight between day *n-1* and day *n*. Profit and loss figures are produced on day *n+1*, and back-testing also takes place on day *n+1*. The *firm's* supervisor should be notified of any overshootings by close of business on day *n+2*.
- 4.12.51 G Any overshooting initially counts for the purpose of the calculation of the plus factor, even if subsequently the *FCA* agrees to exclude it. Therefore, where the *firm* experiences an overshooting and already has 4 or more overshootings during the previous 250 *business days*, changes to the multiplication factor resulting from changes to the plus factor become effective at day *n+3*.

- 4.12.52 G A longer time period generally improves the power of back-testing. However, a longer time period may not be desirable if the VaR model or market conditions have changed to the extent that historical data is no longer relevant.
- 4.12.53 G The *FCA* will review a *firm's* processes and documentation relating to the derivation of profit and loss used for back-testing when assessing a VaR model permission application under *MIFIDPRU* 4.12.4R. A *firm's* documentation should clearly set out the basis for cleaning profit and loss. To the extent that certain profit and loss elements are not updated every *day* (for example, certain reserve calculations), the documentation should clearly set out how such elements are included in the profit and loss series.

Planned changes to the VaR model

- 4.12.54 G Under *MIFIDPRU* 4.12.6R, a *firm* must provide the *FCA* with details of any significant planned changes to the VaR model before those changes are implemented. This must include detailed information about the nature of the change, including an estimate of the impact on VaR numbers and the incremental risk charge. Material changes to internal models or material extensions to the use of internal models will require prior approval from the *FCA*.

Bias from overlapping intervals for 10-day VaR and stressed VaR

- 4.12.55 G The use of overlapping intervals of 10-*day* holding periods for article 365 of the *UK CRR* (VaR and sVaR calculation) introduces an autocorrelation into the data that would not exist should truly independent 10-*day* periods be used. This may give rise to an under-estimation of the volatility and the VaR at the 99% confidence level. To obtain clarity on the materiality of the bias, a *firm* should measure the bias arising from the use of overlapping intervals for 10-*day* VaR and sVaR when compared to using independent intervals. A report on the analysis, including a proposal for a multiplier on VaR and sVaR to adjust for the bias, should be submitted to the *FCA* for review and approval.

Stressed VaR calculation

- 4.12.56 G Under article 365 of the *UK CRR* (VaR and sVaR calculation), a *firm* that uses an internal model for calculating its *K-NPR requirement* must calculate, at least weekly, a sVaR of their current portfolio. The *FCA* would expect a sVaR internal model to contain the features in *MIFIDPRU* 4.12.57G to *MIFIDPRU* 4.12.60G before the *FCA* will grant permission to use the relevant model.

Quantile estimator

- 4.12.57 G A *firm* should calculate the sVaR measure to be greater than or equal to the average of the second and third worst loss in a 12-*month* time

series comprising of 250 observations. The *FCA* expects, as a minimum, that a corresponding linear weighting scheme should be applied if the *firm* uses a larger number of observations.

Meaning of ‘period of significant financial stress relevant to the institution’s portfolio’

- 4.12.58 G A *firm* should ensure that the sVaR period chosen is equivalent to the period that would maximise VaR, given the *firm*’s portfolio. A stressed period should be identified at each legal entity level at which capital is reported. Therefore, group level sVaR measures should be based on a period that maximises the group level VaR, whereas entity level sVaR should be based on a period that maximises VaR for that entity.

Antithetic data

- 4.12.59 G The *firm* should consider whether the use of antithetic data in the calculation of the sVaR measure is appropriate to the *firm*’s portfolio. The *firm* should provide a justification to the *FCA* for using or not using antithetic data as part of an application to use an internal model.

Absolute and relative shifts

- 4.12.60 G In its application to use an internal model, the *firm* should explain the reasons for the choice of absolute or relative shifts for both VaR and sVaR methodologies. In particular, the *firm* should evidence the statistical processes driving the risk factor changes for both VaR and sVaR.

- 4.12.61 R A *firm* that uses an internal model must submit the following information to the *FCA* on a quarterly basis:
- (1) analysis to support the equivalence of the *firm*’s current approach to a VaR-maximising approach on an ongoing basis;
 - (2) the reasons for the selection of key major risk factors used to find the period of significant financial stress;
 - (3) a summary of ongoing internal monitoring of stressed period selection for the current portfolio;
 - (4) analysis to support capital equivalence of upscaled 1-day VaR and sVaR measures to corresponding full 10-day VaR and sVaR measures;
 - (5) a graphed history of sVaR/VaR ratio;
 - (6) analysis to demonstrate accuracy of partial revaluation approaches specifically for sVaR purposes (for *firms* using revaluation ladders or spot/vol-matrices), including a review of the ladders/matrices or spot/vol-matrices, ensuring that they

are extended to include wider shocks to risk factors that occur in stress scenarios; and

- (7) minutes of risk committee meetings or other evidence of governance and senior management oversight of sVaR methodology.

- 4.12.62 G Under article 372 of the *UK CRR* (Requirement to have an internal IRC model), a *firm* that uses an internal model for calculating own funds requirements for specific risk of traded debt instruments must also have an internal incremental default and migration risk (IRC) model in place to capture the default and migration risk of its trading book positions that are incremental to the risks captured by its VaR model. When the *FCA* considers a *firm's* application for permission to use an IRC internal model under *MIFIDPRU* 4.12.4R, it expects that the matters in *MIFIDPRU* 4.12.63G to *MIFIDPRU* 4.12.65G will be included to demonstrate compliance with the standards in article 372.

Basis risks for migration

- 4.12.63 G The *FCA* expects the IRC model to capitalise pre-default basis risk. In this respect, the model should reflect that in periods of stress the basis could widen substantially. The *firm* should disclose to the *FCA* its material basis risks that are incremental to those already captured in existing market risk capital measures (VaR-based and others). This must take into account actual close-out periods during periods of illiquidity.

Price/spread change model

- 4.12.64 G The price/spread change model used to capture the profit and loss impact of migration should calibrate spread changes to long-term averages of differences between spreads for relevant ratings. These should either be conditioned on actual rating events, or use the entire history of spreads regardless of migration. Point-in-time estimates are not acceptable, unless the *firm* can demonstrate that they are as conservative as long-term averages.

Dependence of the recovery rate on the economic cycle

- 4.12.65 G To achieve a soundness standard comparable to those under the Internal Ratings Based (IRB) approach, loss given default (LGD) estimates should reflect the economic cycle. Therefore, the *FCA* expects a *firm* to incorporate dependence of the recovery rate on the economic cycle into the IRC model. If the *firm* uses a conservative parameterisation to comply with the IRB standard of the use of downturn estimates, the *firm* should submit evidence of this in its quarterly reporting to the *FCA*. A *firm* should note that for trading portfolios that contain long and short positions, downturn estimates will not be a conservative choice in all cases.

Permission to use sensitivity models to calculate interest rate risk on derivative instruments

- 4.12.66 R (1) A *firm* must obtain prior permission from the *FCA* to use a sensitivity model in accordance with article 331(1) of the *UK CRR* to calculate the interest rate risk for positions in:
- (a) derivative instruments under articles 328 to 330 of the *UK CRR*; or
 - (b) any bond which is amortised over its residual life, rather than via one final payment of principal.
- (2) To obtain the permission in (1), a *firm* must:
- (a) where the permission relates to one or more of the derivative instruments in (1)(a), mark to market the instruments and manage the interest rate risk on the instruments on a discounted cash flow basis;
 - (b) complete the form in *MIFIDPRU* 4 Annex 6R and submit it using the *online notification and application system*; and
 - (c) in its application under (b), demonstrate to the satisfaction of the *FCA* that:
 - (i) the model generates positions that have the same sensitivity to interest rate changes as the underlying cash flows; and
 - (ii) the sensitivity in (i) is assessed with reference to independent movements in sample rates across the yield curve, with at least one sensitivity point in each of the maturity bands set out in Table 2 in article 339 of the *UK CRR*.
- (3) Where a *firm* has been granted permission to apply a sensitivity model under this *rule*, any relevant positions must be included in the *firm's* calculation of its general risk of debt instruments for its *K-NPR requirement*.

4.13 K-CMG requirement

- 4.13.1 R (1) Subject to (2), the *K-CMG requirement* applies to a *MIFIDPRU investment firm* for portfolios for which the *firm* has been granted a *K-CMG permission*.
- (2) A *MIFIDPRU investment firm* must include a position specified in *MIFIDPRU* 4.11.8R within the calculation of its *K-NPR requirement* if that position:

- (a) is included in a *portfolio* for which the *firm* has been granted a *K-CMG permission*;
- (b) is a proprietary position of the *firm* that results from a trade that has settled;
- (c) is not included in the calculation of the required margin under the margin model of the *clearing member* or *authorised central counterparty* in *MIFIDPRU* 4.13.9R(2)(b); and
- (d) is not a position to which the *clearing member* or *authorised central counterparty* has applied a “haircut” of the type specified in *MIFIDPRU* 4.13.6R(2).
- 4.13.2 G *MIFIDPRU* 4.13.1R(2) is intended to cover the risks arising from proprietary trades that form part of a *portfolio* for which a *firm* has a *K-CMG permission*. Where trades have settled, the resulting proprietary position of the *firm* may no longer be included within the margin requirement calculated by the *clearing member* or *authorised central counterparty* for that *portfolio* and therefore would not contribute to the *firm's K-CMG requirement*. The *firm* should therefore include these positions within its calculation of the *K-NPR requirement* to take account of the resulting market risk. For these purposes, a *firm* is not required to apply this approach to a position that results from client servicing.
- 4.13.3 G In an application for a *K-CMG permission*, a *firm* must identify each *portfolio* for which it wishes to calculate a *K-CMG requirement*.
- 4.13.4 G *MIFIDPRU* 4.11.8R(2) includes positions held outside the *trading book* that give rise to foreign exchange or commodities risk. The *FCA* considers that it is unlikely that such positions would be eligible for a *K-CMG permission*. Therefore, even if the *FCA* has granted a *K-CMG permission* in relation to all *portfolios* in the *firm's trading book*, a *firm* may need to calculate a *K-NPR requirement* in relation to positions it holds outside of the *trading book*.
- 4.13.5 R The *K-CMG requirement* of a *MIFIDPRU investment firm* must be calculated using the following formula:
- $$K-CMG\ requirement = TM * 1.3$$
- where TM is the third highest amount of total margin as calculated under *MIFIDPRU* 4.13.6R required from the *firm* on a daily basis over the preceding 3 months.
- 4.13.6 R For the purposes of *MIFIDPRU* 4.13.5R, the total margin must be calculated as the sum of the following in relation to all *clearing*

members and to the extent that *MIFIDPRU* 4.13.9R(2)(c)(i) applies, all *authorised central counterparties*:

- (1) the amount of margin required by the margin model referenced in *MIFIDPRU* 4.13.9R(2)(e); plus
- (2) the value of any “haircut” applied by the *clearing member* or *authorised central counterparty* to positions included in the *portfolio* that represent settled trades and which the *clearing member* or *authorised central counterparty* is treating as collateral to secure the present or future obligations of the *MIFIDPRU investment firm*.

- 4.13.7 G *MIFIDPRU* 4.13.6R requires a *MIFIDPRU investment firm* to determine the amount of margin that is required under the relevant margin model of each *clearing member* (or, for a self-clearing *firm*, of each *authorised central counterparty*) for *portfolios* in respect of which the *firm* has been granted a *K-CMG permission*. For these purposes, the *clearing member’s* (or, where applicable, *authorised central counterparty’s*) margin model must satisfy the criteria in *MIFIDPRU* 4.13.14R. The effect of *MIFIDPRU* 4.13.6R is that if, notwithstanding the requirement under the margin model, the *MIFIDPRU investment firm* agrees with the *clearing member* or *authorised central counterparty* to provide a different amount of margin, it is the amount required under the model that must be used for the purposes of calculating the *firm’s K-CMG requirement* and not the amount of margin that is actually provided by the *firm*. This ensures that the *firm’s K-CMG requirement* is not artificially reduced by commercial negotiations that may result in the *clearing member* or *authorised central counterparty* accepting a lower amount of margin than the model requires.
- 4.13.8 G The calculation in *MIFIDPRU* 4.13.5R means that for each trading day during the calculation period, the *firm* must calculate the total combined margin in accordance with *MIFIDPRU* 4.13.6R provided to all clearing members in aggregate in respect of the relevant *portfolios*. The *K-CMG requirement* is then calculated on the basis of the third highest daily aggregate amount.
- 4.13.9 R To obtain a *K-CMG permission* for a *portfolio*, a *firm* must:
- (1) complete the application form in *MIFIDPRU* 4 Annex 7R and submit it using the *online notification and application system*;
 - (2) in the application, demonstrate to the satisfaction of the *FCA* that:
 - (a) the *firm* is not part of a *group* containing a *credit institution*;

- (b) the clearing and settlement of the transactions in the relevant *portfolio* take place under the responsibility of a *clearing member* of an *authorised central counterparty*;
- (c) the *clearing member* in (b) is one of the following:
 - (i) a *MIFIDPRU investment firm* (which may be the *firm* itself, where it is self-clearing);
 - (ii) a *UK credit institution*;
 - (iii) a *designated investment firm*;
 - (iv) a *third country investment firm*; or
 - (v) a *credit institution* established in a *third country*;
- (d) transactions in the relevant *portfolio* are either:
 - (i) centrally cleared in an *authorised central counterparty*; or
 - (ii) settled on a delivery-versus-payment basis under the responsibility of the *clearing member* in (b);
- (e) the *firm* is required to provide total margin calculated on the basis of a margin model that satisfies the criteria in *MIFIDPRU* 4.13.14R and is operated by:
 - (i) where the *clearing member* in (b) (where applicable, including the *firm* itself) is a *MIFIDPRU investment firm* or a *third country investment firm*, the *authorised central counterparty* in (b); or
 - (ii) in any other case, the relevant *clearing member* in (b);
- (f) the reasons for the *firm's* choice of calculating a *K-CMG requirement* for the *portfolio* have been clearly documented and approved by the *firm's management body* or risk management function; and
- (g) the choice of the *portfolio* to be subject to a *K-CMG requirement* has not been made with a view to engaging in regulatory arbitrage between the *K-NPR requirement* and the *K-CMG requirement* in a disproportionate or prudentially unsound manner.

4.13.10 R (1) A *firm* that has been granted a *K-CMG permission* for a *portfolio* must notify the *FCA* immediately if it becomes

aware that any of the conditions in *MIFIDPRU* 4.13.9R are no longer met in relation to the *portfolio*.

- (2) The notification in (1) must be made using the form in *MIFIDPRU* 4 Annex 8R and submitted via the *online notification and application system*.

4.13.11 G The *FCA* may revoke a *K-CMG permission* for a *portfolio* where one or more of the conditions in *MIFIDPRU* 4.13.9R is no longer met in relation to that *portfolio*. The *FCA* may review the appropriateness of any *K-CMG permissions* as part of any *SREP* it undertakes in relation to the *firm* in accordance with *MIFIDPRU* 7.

4.13.12 R A *firm* that is an *indirect client* of a *clearing member* may obtain a *K-CMG permission* if:

- (1) the indirect clearing arrangement satisfies all of the conditions in *MIFIDPRU* 4.13.9R and both the *clearing member* and the *client* of the *clearing member* that is providing clearing services to the *firm* are entities that are listed in *MIFIDPRU* 4.13.9R(2)(c); and
- (2) the *FCA* is satisfied that the relevant arrangement does not result in undue risks.

4.13.13 R (1) A *firm* that is relying on a *K-CMG permission* must ensure that:

(a) the *individuals* in the *firm* who are responsible for the *firm's* risk management function, or for the oversight of that function, have a reasonable understanding of the operation of the margin model referred to in *MIFIDPRU* 4.13.9R(2)(e); and

(b) the *firm* integrates this understanding of the margin model into its *ICARA process* for the purposes of considering whether:

- (i) the resulting *K-CMG requirement* is sufficient to cover the relevant risks to which the *firm* is exposed; and
- (ii) the *K-CMG permission* remains appropriate in relation to the *portfolio(s)* for which it was granted.

(2) For the purposes of (1), a *firm* may use suitable advice or analysis provided by an appropriate third party, but the *firm* is responsible for ensuring that the *individuals* in (1)(a) have the necessary knowledge and understanding of the margin model.

(3) An appropriate third party under (2) includes:

- (a) a suitably qualified professional adviser;
 - (b) the relevant *clearing member*; or
 - (c) another *undertaking* within the same *investment firm group* as the *firm* where *individuals* within that *undertaking* have the requisite knowledge and understanding of the margin model.
- 4.13.14 R (1) The criteria referred to in *MIFIDPRU* 4.13.9R(2)(e) are that:
- (a) the margin requirements are sufficient to cover losses that may result from at least 99% of the exposures movements over an appropriate time horizon with at least a two-*business day* holding period; and
 - (b) the margin model used by the *clearing member* or *authorised central counterparty* to call the margin is always designed to achieve a level of prudence similar to that required in the provisions on margin requirements in article 41 of *EMIR*.
- (2) If the parameters of a margin model operated by a *clearing member* or *authorised central counterparty* do not meet the criteria in (1)(a), those criteria shall nonetheless be deemed to be met if:
- (a) an adjustment mechanism is applied to produce an alternative margin requirement; and
 - (b) the alternative requirement in (a) is at least equivalent to the margin requirement that would be produced by a margin model that meets the criteria in (1)(a).
- (3) An adjustment mechanism under (2) may be applied by either of the following, provided that the conditions in (4) are met:
- (a) the relevant *clearing member*; or
 - (b) the *MIFIDPRU investment firm* that has been granted the relevant *K-CMG permission*.
- (4) The conditions are that the *MIFIDPRU investment firm* that has been granted the relevant *K-CMG permission*:
- (a) can provide to the *FCA* upon request a reasonable explanation of the adjustment that has been applied under (2); and
 - (b) monitors and reviews the effectiveness of the adjustment mechanism on an ongoing basis as part of its *ICARA process*.

- 4.13.15 G (1) *MIFIDPRU* 4.13.14R(2) permits the output of a margin model of a *clearing member* or *authorised central counterparty* to be adjusted to meet the criteria in *MIFIDPRU* 4.13.14R(1)(a). The adjustment is used solely to determine the *K-CMG requirement* of a *firm*. It does not affect the actual amount of margin that the *clearing member* or *authorised central counterparty* will receive from the *firm*, which will continue to be determined by the underlying (unadjusted) model.
- (2) For example, the *clearing member's* or *authorised central counterparty's* original margin model may produce margin requirements that are sufficient to cover losses that may result from at least 95% of the exposures movements over a two-*business day* holding period. This would not meet the minimum criteria in *MIFIDPRU* 4.13.14R(1)(a). To determine the *firm's K-CMG requirement*, the output of that model may be adjusted to produce a requirement that would cover losses that may result from at least 99% of the exposures movements over that same holding period. If the conditions in *MIFIDPRU* 4.13.14R(3) and (4) are satisfied, the minimum criteria in *MIFIDPRU* 4.13.14R(1)(a) will be deemed to be met when the adjustment is applied. This is the case even though the actual margin received by the *clearing member* or *authorised central counterparty* is determined by the underlying (unadjusted) model.
- 4.13.16 G Where the margin model of a *clearing member* uses parameters that are more conservative than the minimum criteria in *MIFIDPRU* 4.13.14R(1), the output of the model may be adjusted downwards under *MIFIDPRU* 4.13.14R(2) to produce margin requirements that are consistent with the minimum criteria. The requirements in *MIFIDPRU* 4.13.14R(3) and (4) still apply to a downwards adjustment. A *firm* is not required to apply a downwards adjustment to a more conservative model.
- 4.13.17 G The *FCA* will consider whether the *firm's* reasons for choosing a *K-CMG requirement* under *MIFIDPRU* 4.13.9R(2)(f) have taken adequate account of the nature of, and risks arising from, the *firm's* trading activities, including whether:
- (1) the main activities of the *firm* are essentially trading activities that are subject to clearing and margining under the responsibility of a *clearing member*; and
- (2) other activities performed by the *firm* are immaterial in comparison to those main activities.
- 4.13.18 G (1) For the purposes of *MIFIDPRU* 4.13.9R(2)(g), the fact that a *K-CMG permission* for a *portfolio* may result in a *K-CMG requirement* that is lower than the equivalent *K-NPR requirement* for that *portfolio* does not automatically mean

that the choice to apply a *K-CMG requirement* has been made with a view to engaging in regulatory arbitrage in a disproportionate or prudentially unsound manner.

- (2) When considering whether the condition in *MIFIDPRU* 4.13.9R(2)(g) is satisfied, a *firm* should consider whether the *K-CMG requirement* that would result from the relevant *K-CMG permission* more closely reflects the underlying economic risk of the relevant *portfolio* when compared with the equivalent *K-NPR requirement* for the same *portfolio*.
- (3) The *FCA* considers that even in circumstances where the *K-CMG requirement* is considerably lower than the equivalent *K-NPR requirement*, this does not automatically prevent a *firm* from meeting the conditions for a *K-CMG permission*. A significant difference between the two requirements may result from the calculation of the *K-CMG requirement* being better adapted for capturing the economic risks of the particular *portfolio* in question. For example, the margin model underlying the *K-CMG requirement* may have been specifically designed for *firms* that specialise in trading that type of *portfolio*. A *firm* that is applying for a *K-CMG permission* should provide a clear explanation of how the conditions in *MIFIDPRU* 4.13.9R(2) are satisfied for the *portfolio*. The *firm* should keep the appropriateness of a *K-CMG permission* under regular review as part of its *ICARA process*.

- 4.13.19 R (1) Except where (2) applies, a *firm* that has a *K-CMG permission* for a *portfolio* must calculate a *K-CMG requirement* for that *portfolio* for a continuous period of at least 24 months from the date that the permission is granted.
- (2) The requirement in (1) does not apply if:
- (a) the *FCA* revokes the relevant *K-CMG permission* in relation to that *portfolio* on its own initiative in the circumstances described in *MIFIDPRU* 4.13.11G; or
 - (b) the business strategy or operations of the *trading desk* with responsibility for the *portfolio* have changed to such an extent that it has become a different *trading desk*.
- 4.13.20 R (1) Where a *firm* that has been granted a *K-CMG permission* in relation to a *portfolio* subsequently chooses to calculate a *K-NPR requirement* for that *portfolio*, the *firm* must submit the notification in (2) to the *FCA* before the *firm* begins to calculate the *K-NPR requirement*.

- (2) The notification in (1) must:

- (a) confirm that the requirement in *MIFIDPRU* 4.13.19R(1) has been met in relation to the *portfolio*, or that the circumstance in *MIFIDPRU* 4.13.19R(2)(b) applies;
 - (b) specify the date on which the *K-CMG permission* should cease to apply to the *firm*; and
 - (c) be made using the form in *MIFIDPRU* 4 Annex 9R and submitted using the *online notification and application system*.
- 4.13.21 G Where a *firm* has submitted a notification in *MIFIDPRU* 4.13.20R(2), the *FCA* will not normally grant another *K-CMG permission* for the same *portfolio* until at least 24 months after the previous *K-CMG permission* ceased to apply.

4.14 K-TCD requirement

- 4.14.1 R (1) The *K-TCD requirement* of a *MIFIDPRU investment firm* is an amount equal to the sum of the *TCD own funds requirement* for all transactions specified in (2).
- (2) This *rule* applies to the transactions in *MIFIDPRU* 4.14.3R where the transactions:
- (a) are recorded in the *trading book* of a *firm dealing on own account* (whether for itself or on behalf of a *client*); or
 - (b) in the case of the transactions specified in *MIFIDPRU* 4.14.3R(7), are carried out by a *firm* that has the necessary *permissions to deal on own account*.
- 4.14.2 G (1) The effect of *MIFIDPRU* 4.14.1R(2)(b) is that where a *firm* is authorised to *deal on own account*, it must include in the calculation of its *K-TCD requirement* any transactions specified in *MIFIDPRU* 4.14.3R(7). This applies even if the *firm's* involvement in the transaction does not constitute *dealing on own account* and the transaction may not be recorded in its *trading book*.
- (2) A *firm* that is not authorised to *deal on own account* is not subject to the *K-TCD requirement* under *MIFIDPRU* 4.14.1R, even if it is involved in a transaction that would otherwise fall within *MIFIDPRU* 4.14.3R(7).

Transactions to which K-TCD applies

- 4.14.3 R Subject to *MIFIDPRU* 4.14.5R, the transactions to which *MIFIDPRU* 4.14.1R applies are as follows:

- (1) derivative contracts listed in Annex II to the *UK CRR*, with the exception of the following:
 - (a) derivative contracts directly or indirectly cleared through a *CCP*, where all of the following conditions are met:
 - (i) the positions and assets of the *firm* related to the contracts are distinguished and segregated, at the level of both the *clearing member* and the *CCP*, from the position and assets of the *clearing member* and the other clients of that *clearing member* and, as a result of that distinction and segregation, those positions and assets are bankruptcy remote under applicable law in the event of default or insolvency of the *clearing member* or one or more of its other clients;
 - (ii) the legal requirements applicable to or binding the *clearing member* facilitate the transfer of the client's positions relating to the contracts and of the corresponding collateral to another *clearing member* within the applicable margin period of risk in the event of default or insolvency of the original *clearing member*; and
 - (iii) the *firm* has obtained an independent, written and reasoned legal opinion that concludes that, in the event of a legal challenge, the *firm* would bear no losses on account of the insolvency of its *clearing member* or of any of its *clearing member's* clients;
 - (b) exchange-traded derivative contracts; and
 - (c) derivative contracts held for hedging a position of the *firm* resulting from an activity outside the *trading book*;
- (2) *long settlement transactions*;
- (3) *repurchase transactions*;
- (4) *securities or commodities lending or borrowing transactions*;
- (5) *margin lending transactions*;
- (6) any other types of *securities financing transactions*; and
- (7) credits and loans referred to in the activity in point 2 of paragraph 1 of Part 3A of Schedule 2 to the *Regulated Activities Order*, if the *firm* is:

- (a) executing the trade in the name of the *client*; or
 - (b) receiving and transmitting the order without executing it.

- 4.14.4 R A derivative contract that is directly or indirectly cleared through an *authorised central counterparty* is deemed to meet the conditions in *MIFIDPRU* 4.14.3R(1)(a).

- 4.14.5 R The *K-TCD requirement* does not apply to transactions with the following counterparties:
 - (1) central governments and central banks, where the underlying exposures would receive a 0% risk weight under article 114 of the *UK CRR*;
 - (2) multilateral development banks listed in article 117(2) of the *UK CRR*; or
 - (3) international organisations listed in article 118 of the *UK CRR*.

- 4.14.6 R
 - (1) With the prior consent of the *FCA*, a *firm* may exclude transactions with the following counterparties from the calculation of its *K-TCD requirement* under *MIFIDPRU* 4.14.1R:
 - (a) its *parent undertaking*;
 - (b) its *subsidiary*;
 - (c) a *subsidiary* of its *parent undertaking*; or
 - (d) an *undertaking* with which the *firm* is linked by *majority common management*.
 - (2) To obtain the *FCA* consent in (1), the *firm* must demonstrate all of the following to the satisfaction of the *FCA*:
 - (a) the counterparty is subject to appropriate prudential requirements and is one of the following:
 - (i) a *credit institution*;
 - (ii) an *investment firm*; or
 - (iii) a *financial institution*;
 - (b) the counterparty is:
 - (i) included in the same prudential consolidation group as the *firm* on a full basis in accordance

with the *UK CRR* or the consolidation provisions in *MIFIDPRU 2.5*; or

- (ii) supervised along with the *firm* for compliance with the group capital test in *MIFIDPRU 2.6*;
 - (c) the counterparty is subject to the same risk evaluation, measurement and control procedures as the *firm*;
 - (d) the counterparty is established in the *UK*; and
 - (e) there is no current or foreseen material practical or legal impediment to the prompt transfer of *own funds* or repayment of liabilities from the counterparty to the *firm*.
- (3) To apply for *FCA* consent under (1), a *firm* must complete the form in *MIFIDPRU 4 Annex 10R* and submit it using the *online notification and application system*.

Calculation of TCD own funds requirement

- 4.14.7 R The *TCD own funds requirement* for each transaction or *netting set* must be calculated using the following formula:

$$TCD\ own\ funds\ requirement = \alpha * EV * RF * CVA$$

where:

- (1) $\alpha = 1.2$
- (2) EV = the exposure value calculated in accordance with *MIFIDPRU 4.14.8R*
- (3) RF = the risk factor applicable to the counterparty type as set out in the table in *MIFIDPRU 4.14.29R*
- (4) CVA = the credit valuation adjustment calculated in accordance with *MIFIDPRU 4.14.30R*

Exposure value

- 4.14.8 R The exposure value must be calculated using the following formula:

$$\text{Exposure value} = \text{Max} (0; RC + PFE - C)$$

where:

- (1) RC = the replacement cost calculated in accordance with *MIFIDPRU 4.14.9R* (which may be a positive value, thereby increasing the exposure value, or a negative value, thereby decreasing the exposure value)

- (2) PFE = potential future exposure calculated in accordance with *MIFIDPRU* 4.14.10R
- (3) C = collateral as determined in accordance with *MIFIDPRU* 4.14.24R and *MIFIDPRU* 4.14.25R (which may be a positive value, thereby decreasing the exposure value, or a negative value, thereby increasing the exposure value)

Replacement cost

- 4.14.9 R (1) A *firm* must calculate the replacement cost for all transactions referred to in *MIFIDPRU* 4.14.3R.
- (2) The replacement cost must be determined as follows:
- (a) for derivative contracts, the replacement cost is the *CMV*;
 - (b) for *long settlement transactions*, the replacement cost is the settlement amount of cash to be paid or to be received by the *firm* upon settlement, with a receivable being treated as a positive amount and a payment being treated as a negative amount;
 - (c) unless (d) applies, for *repurchase transactions* and *securities or commodities lending or borrowing transactions*, the replacement cost is the amount of cash lent or borrowed, with cash lent by the *firm* being treated as a positive amount and cash borrowed by the *firm* being treated as a negative amount;
 - (d) for *securities financing transactions*, where both legs of the transaction are securities, the replacement cost is the *CMV* of the security lent by the *firm*, increased by the corresponding volatility adjustment in *MIFIDPRU* 4.14.25R; and
 - (e) for *margin lending transactions* and the credits and loans referred to in *MIFIDPRU* 4.14.3R(7), the replacement cost is the book value of the asset in accordance with the applicable accounting framework.

Potential future exposure

- 4.14.10 R (1) A *firm* is required to calculate potential future exposure (PFE) only for derivative contracts.
- (2) A *firm* must calculate the potential future exposure for derivative contracts in a *netting set* using one of the following approaches:

- (a) the hedging approach in *MIFIDPRU* 4.14.14R; or
- (b) the derivative netting ratio approach in *MIFIDPRU* 4.14.18R.

4.14.11 R Where a single derivative contract cannot be allocated to a *netting set* with other derivative contracts, it must be treated as a separate *netting set* for the purposes of *MIFIDPRU* 4.14.10R.

4.14.12 R A *firm* must apply its chosen approach under *MIFIDPRU* 4.14.10R:

- (1) continuously for at least 24 *months*; and
- (2) consistently across all its *netting sets*.

Potential future exposure: hedging approach

4.14.13 G (1) If a derivative contract has a negative replacement cost, a *firm* should still calculate a PFE in relation to that contract if it is possible for the replacement cost to become positive before the maturity date.

(2) As the replacement cost of an individual written option can never be a positive amount, written options are exempt from the requirement to calculate a PFE, unless they are subject to netting with contracts other than written options for the purposes of calculating PFE in accordance with *MIFIDPRU* 4.14.14R and *MIFIDPRU* 4.14.16R.

(3) If a written option is subject to netting for the purposes of calculating PFE, a *firm* may cap the PFE in relation to that option at an amount that would result in a replacement cost of zero.

4.14.14 R (1) For the purposes of calculating the PFE of derivative contracts included within a *netting set* under *MIFIDPRU* 4.14.16R, a *firm* must:

- (a) calculate the effective notional amount of each contract (EN) in accordance with *MIFIDPRU* 4.14.20R;
- (b) allocate each derivative contract to an asset class in accordance with (2) and (3); and
- (c) calculate a separate net notional amount for each asset class in (b) by netting the EN of all derivative contracts allocated to that asset class, with long positions to be treated as positive amounts and short positions to be treated as negative amounts.

(2) Subject to (3), a *firm* must assign derivative contracts to separate asset classes as follows:

- (a) except as specified in (b) to (d), a derivative contract must be allocated to the relevant asset class specified in the table in *MIFIDPRU* 4.14.22R;
 - (b) interest rate derivatives must be allocated to separate asset classes according to their currency;
 - (c) foreign exchange derivatives must be allocated to separate asset classes according to each currency pair; and
 - (d) derivative contracts falling within the “other” class in *MIFIDPRU* 4.14.22R may be allocated to the same class if their primary risk driver is identical, but otherwise must each be treated as a separate class.
- (3) Derivative contracts that would fall within a specific asset class under (2) must be allocated to a separate asset class if:
- (a) they reference the basis between two risk factors and are denominated in a single currency (i.e. they are basis transactions), in which case all basis transactions referencing that same pair of risk factors must be allocated to a separate asset class; or
 - (b) they reference the volatility of a risk factor (i.e. they are volatility transactions), in which case all volatility transactions referencing that same risk factor must be allocated to a separate asset class.
- 4.14.15 G (1) *MIFIDPRU* 4.14.14R(2) defines the main asset classes to which derivative contracts should be assigned to calculate the potential future exposure of a *netting set*. For example, a single name equity derivative would be allocated to the equity single name asset class in *MIFIDPRU* 4.14.22R, while a credit derivative would be allocated to the credit asset class in that *rule*.
- (2) *MIFIDPRU* 4.14.14R(3) requires basis transactions or volatility swaps that would otherwise fall within one of the main asset classes in *MIFIDPRU* 4.14.14R(2) to be allocated to separate asset classes. The separate asset classes are defined according to the relevant risk factor or pair of risk factors.
- (3) For example, an equity index future on Equity Index A and another equity index future on Equity Index B would be allocated to the same asset class under *MIFIDPRU* 4.14.14R(2)(a), as they both fall within the asset class (i.e. equity indices) in *MIFIDPRU* 4.14.22R. However, a volatility swap that references Equity Index A must be allocated to a separate class under *MIFIDPRU* 4.14.14R(3)(b), but can be

grouped with another volatility swap that also references Equity Index A (i.e. the same risk factor).

- (4) For derivative contracts relating to foreign exchange, a *firm* may net contracts relating to a currency pair (for example, USD/EUR) against contracts relating to the inverse pair (i.e. in this example, EUR/USD) by treating one pair as a long position and the inverse pair as a short position.
- (5) For interest rate derivative contracts that have multiple legs, the *firm* should add together the notional amounts of the positive (receive) and negative (pay) legs, after adjusting for the duration and the supervisory delta in accordance with the calculation of the effective notional amount in *MIFIDPRU* 4.14.20R. The net amount should then be included in the calculation of PFE.

4.14.16 R For the purposes of *MIFIDPRU* 4.14.10R(2)(a), a *firm* must calculate the potential future exposure of derivative contracts included within a *netting set* by:

- (1) multiplying the absolute value of the net notional amount under *MIFIDPRU* 4.14.14R(1)(c) for each asset class within the *netting set* by the supervisory factor for that asset class specified in *MIFIDPRU* 4.14.22R;
- (2) adding together the product of the calculation in (1) for all asset classes within the *netting set*; and
- (3) multiplying the sum under (2) by:
 - (a) 0.42, for *netting sets* of transactions with financial or non-financial counterparties for which, if required, collateral is exchanged bilaterally with the counterparty in accordance with the conditions laid down in article 11 of *EMIR*; or
 - (b) 1, for other *netting sets*.

Potential future exposure: derivative netting ratio approach

- 4.14.17 G
- (1) If a derivative contract has a negative replacement cost, a *firm* should still calculate a potential future exposure (PFE) in relation to that contract if it is possible for the replacement cost to become positive before the maturity date.
 - (2) As the replacement cost of an individual written option can never be a positive amount, written options are exempt from the requirement to calculate a PFE, unless they are subject to netting with contracts other than written options for the purposes of calculating PFE in accordance with *MIFIDPRU* 4.14.18R.

- 4.14.18 R A *firm* must calculate a net potential future exposure for each *netting set* using the following formula:

$$\text{PFE}_{\text{net}} = \frac{\text{RC}_{\text{net}}}{\text{RC}_{\text{gross}}} \cdot \text{PFE}_{\text{gross}}$$

where:

- (1) PFE_{net} = the net potential future exposure for the *netting set*;
- (2) $\text{PFE}_{\text{gross}}$ = the sum of the potential future exposure of all derivative contracts included in the *netting set*, calculated by multiplying the absolute value of the effective notional amount of each derivative contract (as calculated in accordance with *MIFIDPRU* 4.14.20R) by the relevant supervisory factor for the corresponding asset class specified in *MIFIDPRU* 4.14.22R;
- (3) RC_{net} = the sum of the replacement cost (as determined in accordance with *MIFIDPRU* 4.14.9R) of all transactions included in the *netting set*, unless that sum is a negative amount, in which case RC_{net} is zero; and
- (4) RC_{gross} = the sum of the replacement cost (as determined in accordance with *MIFIDPRU* 4.14.9R) of all transactions included in the *netting set* that have a positive *CMV*.

- 4.14.19 R For the purposes of *MIFIDPRU* 4.14.10R(2)(b), the potential future exposure for the derivative contracts included within a *netting set* is the product of multiplying PFE_{net} (as determined in accordance with *MIFIDPRU* 4.14.18R) by:

- (1) 0.42, for *netting sets* of transactions with financial or non-financial counterparties for which, if required, collateral is exchanged bilaterally with the counterparty in accordance with the conditions laid down in article 11 of *EMIR*; or
- (2) 1, for other *netting sets*.

Effective notional amount

- 4.14.20 R (1) The effective notional amount is calculated as follows:

$$\text{Effective notional amount} = N * D * SD$$

where:

- (a) N = the notional amount, determined in accordance with (2);
- (b) D = the duration, calculated in accordance with (3); and

- (c) SD = the supervisory delta, calculated in accordance with (5).
- (2) The notional amount, unless clearly stated and fixed until maturity, is determined as follows:
- (a) for foreign exchange derivative contracts:
 - (i) if one leg of the contract is in the domestic currency, the notional amount is the notional amount of the foreign currency leg of the contract, converted into the domestic currency;
 - (ii) if both legs of the contract are denominated in currencies other than the domestic currency, the notional amount of each leg must be converted into the domestic currency and the leg with the larger value in the domestic currency is the notional amount; and
 - (iii) the term “domestic currency”, when used in this *rule*, refers to the currency in which the *firm* reports to the *FCA*;
 - (b) for equity and commodity derivatives contracts and emissions allowances and derivatives thereof, the notional amount is the product of the market price of one unit of the instrument and the number of units referenced by the trade;
 - (c) for transactions with multiple pay-offs that are state contingent including digital options or target redemption forwards, a *firm* must calculate the notional amount for each state and use the largest resulting calculation;
 - (d) where the notional is a formula of market values, the *firm* must use the *CMVs* to determine the trade notional amount;
 - (e) for variable notional swaps such as amortising and accreting swaps, a *firm* must use the average notional over the remaining life of the swap as the trade notional amount;
 - (f) leveraged swaps must be converted to the notional amount of the equivalent unleveraged swap so that where all of the rates in a swap are multiplied by a factor, the stated notional amount is multiplied by the factor on the interest rates to determine the notional amount; and

- (g) for a derivative contract with multiple exchanges of principal, the stated notional amount must be multiplied by the number of exchanges of principal in the derivative contract to determine the notional amount.
- (3) The duration must be determined in accordance with the following:
- (a) for all derivative contracts other than interest rate contracts and credit derivative contracts, the duration is 1;
- (b) for interest rate contracts and credit derivative contracts, the duration is determined in accordance with the following formula in which the time to maturity is specified in years:
- $$\text{Duration} = (1 - \exp(-0.05 * \text{time to maturity})) / 0.05$$
- (4) The maturity of a contract must be determined as follows:
- (a) for an option, the maturity is the latest contractual exercise date as specified by the contract;
- (b) for a derivative contract that is structured such that on specified dates, any outstanding exposure is settled and the terms are reset so that the fair value of the contract is zero, the remaining maturity is the time until the next reset date;
- (c) for any other derivative contract, the maturity is the latest date on which the contract may still be executed; and
- (d) in each case, if the derivative contract references the value of another interest rate or credit instrument, the time period must be determined on the basis of that underlying instrument.
- (5) The supervisory delta must be determined as follows:
- (a) for options and swaptions, the *firm* may calculate the supervisory delta itself by using an appropriate model if:
- (i) the model the *firm* uses meets the minimum standards set out in *MIFIDPRU* 4.12.12G to 4.12.18G (Minimum standards for own estimates of delta), as modified by *MIFIDPRU* 4.14.21R, for each type of option or swaption for which it calculates delta;

- (ii) the *firm* has notified the *FCA* that the minimum standards in (i) are met before the *firm* begins to use its own estimates for the relevant supervisory delta; and
- (iii) the notification in (ii) is made using the form in *MIFIDPRU* 4 Annex 5R and submitted using the *online notification and application system*;
- (b) for transactions other than options and swaptions, or transactions in respect of which a *firm* is unable to use an appropriate model in accordance with (a), the supervisory delta is 1 or -1; and
- (c) in each case, the supervisory delta must reflect the relationship between the contract and the underlying, whereby a contract that increases exposure (by increasing RC) as the underlying increases shall have a positive supervisory delta, and a contract that decreases exposure (by decreasing RC) as the underlying increases shall have a negative supervisory delta.
- 4.14.21 R (1) When applying the minimum standards in *MIFIDPRU* 4.12.12G to 4.12.18G for the purposes of *MIFIDPRU* 4.14.20R(5)(a), the standards apply with the following modifications:
- (a) a reference to the “standardised approach” is a reference to the *rules* in this section relating to the calculation of the *K-TCD requirement*; and
- (b) a reference to the *K-NPR requirement* is a reference to the *K-TCD requirement*.
- (2) In addition to the minimum standards in *MIFIDPRU* 4.12.12G to 4.12.18G a *firm* must also confirm to the *FCA* that the relevant model estimates the rate of change of the value of the option for small changes in the market value of the underlying.
- 4.14.22 R The supervisory factor for each asset class is set out in the following table:

Asset class	Supervisory factor
Interest rate	0.5%
Foreign exchange	4%
Credit	1%

Equity single name	32%
Equity index	20%
Commodity and emission allowance	18%
Other	32%

- 4.14.23 R Transactions relating to gold or gold derivatives must be allocated to the foreign exchange asset class in *MIFIDPRU* 4.14.22R.

Value of collateral

- 4.14.24 R (1) This *rule* applies for the purposes of determining the value of C under *MIFIDPRU* 4.14.8R.
- (2) For the transactions specified in *MIFIDPRU* 4.14.3R(1), (5) and (7), the value of the C is the notional amount of collateral received by the *firm*, decreased in accordance with the relevant volatility adjustment specified in *MIFIDPRU* 4.14.25R.
- (3) Unless (4) applies, for the transactions specified in *MIFIDPRU* 4.14.3R(2), (3), (4) and (6), the value of the C is the sum of:
- (a) the *CMV* of the *security* leg; and
 - (b) the net amount of collateral posted or received by the *firm*.
- (4) For *securities financing transactions* where both legs of the transaction are *securities*, the value of the C is the *CMV* of the *security* borrowed by the *firm*.
- (5) Where the *firm* is purchasing or has lent the *security*, the *CMV* of the *security* shall be treated as a negative amount and shall be decreased to a larger negative amount, using the volatility adjustment specified in *MIFIDPRU* 4.14.25R.
- (6) Where the *firm* is selling or has borrowed the *security*, the *CMV* of the *security* shall be treated as a positive amount and be decreased by the volatility adjustment specified in *MIFIDPRU* 4.14.25R.
- (7) Where different types of transactions are covered by a contractual netting agreement that meets the requirements in *MIFIDPRU* 4.14.28R(3), the applicable volatility adjustments in column C (volatility adjustment other transactions) of the table in *MIFIDPRU* 4.14.25R must be

applied to the respective amounts calculated under (3)(a) and (b) on an issuer basis within each asset class.

- (8) Where there is a currency mismatch between the transaction and the collateral received or posted, an additional currency mismatch volatility adjustment of 8% shall apply.

4.14.25 R (1) A *firm* must apply the volatility adjustments in (2) to all transactions referred to in *MIFIDPRU* 4.14.3R.

- (2) Collateral for bilateral and cleared transactions shall be subject to volatility adjustments in accordance with the following table:

(A)		(B)	(C)
Asset class		Volatility adjustment: repurchase transactions and securities lending and borrowing transactions	Volatility adjustment: other transactions
Debt securities issued by central governments or central banks	≤ 1 year	0.707%	1%
	> 1 year ≤ 5 years	2.121%	3%
	> 5 years	4.243%	6%
Debt securities issued by other entities	≤ 1 year	1.414%	2%
	> 1 year ≤ 5 years	4.243%	6%
	> 5 years	8.485%	12%
Securitisation positions (excluding re-securitisation positions)	≤ 1 year	2.828%	4%
	> 1 year ≤ 5 years	8.485%	12%
	> 5 years	16.970%	24%
Listed equities and convertibles		14.143%	20%
Other financial instruments (including re-securitisation positions) and commodities		17.678%	25%
Gold		10.607%	15%
Cash		0%	0%

- 4.14.26 G The references to years in column A of the table in *MIFIDPRU* 4.14.25R are references to the remaining maturity of the relevant security or position.
- 4.14.27 G The following is an example of how the volatility adjustment under *MIFIDPRU* 4.14.24R and *MIFIDPRU* 4.14.25R applies. A *firm* enters into an OTC derivative contract and receives collateral in the form of a debt security issued by a central bank with a maturity of 6 years. The notional value of the debt security is 100. *MIFIDPRU* 4.14.24R(2) requires the notional value of the collateral to be decreased by the applicable volatility adjustment. In accordance with the table in *MIFIDPRU* 4.14.25R, the relevant volatility adjustment is 6%. The resulting value of the collateral after the volatility adjustment has been applied is therefore 94.

Netting

- 4.14.28 R For the purposes of calculating its *K-TCD requirement*, a *firm* may, in the following order:
- (1) first, treat perfectly matching contracts included in a netting agreement as if they were a single contract with a notional principal equivalent to the net receipts;
 - (2) second, net other transactions subject to novation under which all obligations between the *firm* and its counterparty are automatically amalgamated in such a way that the novation legally substitutes one set single net amount for the previous gross obligations; and
 - (3) third, net other transactions where the *firm* ensures that the following conditions have been met:
 - (a) the transactions are covered by a netting contract with the counterparty, or by another agreement that creates a single legal obligation, such that the *firm* would have either a claim to receive, or obligation to pay, only the net sum of the positive and negative mark-to-market values of the individual transactions if a counterparty fails to perform due to any of the following:
 - (i) default;
 - (ii) bankruptcy;
 - (iii) liquidation; or
 - (iv) similar circumstances;
 - (b) in the event of default of a counterparty, the netting contract does not contain any clause that permits a non-defaulting counterparty to make limited payments only,

or no payments at all, to the estate of the defaulting party even if the defaulting party is a net creditor;

- (c) the *firm* has obtained an independent, written and reasoned legal opinion that, in the event of a legal challenge to the netting agreement, the *firm's* claims and obligations would be equivalent to those referred to in (a) under each of the following legal regimes:
- (i) the law of the jurisdiction in which the counterparty is incorporated;
 - (ii) if a foreign branch of a counterparty is involved, the law of the jurisdiction in which the branch is located;
 - (iii) the law that governs the individual transactions included in the netting agreement; or
 - (iv) the law that governs any contract or agreement necessary to effect the netting.

Risk factor

4.14.29 R The risk factor for a counterparty is set out in the following table:

Counterparty type	Risk factor
Central governments, central banks and public sector entities	1.6%
<i>Credit institutions and investment firms</i>	1.6%
Other counterparties	8%

Credit valuation adjustment

- 4.14.30 R (1) For the purposes of this *rule*, the “credit valuation adjustment” (CVA) means an adjustment to the mid-market valuation of the portfolio of transactions with a counterparty that reflects the *CMV* of the credit risk of the counterparty to the *firm*, but does not reflect the *CMV* of the credit risk of the *firm* to the counterparty.
- (2) The CVA for all transactions is 1.5, except for the transactions in (3).
- (3) The CVA for the following transactions is 1:

- (a) the following transactions, if they do not exceed the clearing threshold specified in article 10(3) and (4) of *EMIR*:
 - (i) transactions with non-financial counterparties (as defined in point (9) of article 2 of *EMIR*); or
 - (ii) transactions with non-financial counterparties established in a *third country*;
- (b) intra-group transactions as provided for in article 3 of *EMIR*;
- (c) *long settlement transactions*;
- (d) *securities financing transactions* unless the *FCA* has notified the *firm* that the *firm's* CVA risk exposures arising from those transactions are material; and
- (e) credits and loans referred to in *MIFIDPRU* 4.14.3R(7).

4.15 K-DTF requirement

- 4.15.1 R Subject to *MIFIDPRU* 4.15.11R, the *K-DTF requirement* of a *MIFIDPRU investment firm* is equal to the sum of:
 - (1) 0.1% of *average DTF* attributable to *cash trades*; and
 - (2) 0.01% of *average DTF* attributable to *derivatives trades*.
- 4.15.2 G
 - (1) The definition of *DTF* includes transactions that a *firm* enters into when *dealing on own account* or when executing *client orders* in the *firm's* own name.
 - (2) A *firm* that has *permission to operate an organised trading facility* may engage in:
 - (a) *matched principal trading* in certain types of *financial instruments* with *client consent*, in accordance with *MAR* 5A.3.5R(1); and/or
 - (b) *dealing on own account* in illiquid *sovereign debt instruments* in accordance with *MAR* 5A.3.5R(2).
 - (3) Where a *firm* engages in either activity in (2), it must include those transactions in the measurement of its *DTF*.
 - (4) Except for the transactions in (2), *DTF* does not include orders that a *firm* handles in the course of *operating an organised trading facility*. However, *DTF* includes transactions entered into by a *firm* in its own name through an *organised trading*

facility where the firm is not operating that organised trading facility.

- 4.15.3 R A *firm* must calculate its *K-DTF requirement* on the first *business day* of each *month*.
- 4.15.4 R (1) A *firm* must calculate the amount of its *average DTF* as:
- (a) taking the total *DTF* as measured throughout each *business day* in each of the previous 9 *months*;
 - (b) excluding the daily values for the most recent 3 *months*; and
 - (c) calculating the arithmetic mean of the daily values for the remaining 6 *months*.
- (2) When measuring the value of *DTF* for a particular *business day*, a *firm* must convert any amounts in foreign currencies on that date into the *firm's* functional currency.
- (3) For the purposes of the currency conversion in (2), a *firm* must:
- (a) determine the conversion rate by reference to an appropriate market rate; and
 - (b) record the rate that was chosen.
- 4.15.5 G (1) The effect of *MIFIDPRU* 4.15.4R(2) is that when measuring the value of *DTF* at the end of each *business day*, a *firm* must apply the relevant conversion rate on that date to any amounts in foreign currencies forming part of the *DTF* attributable to that *business day*. The *DTF* for each preceding *business day* should continue to be measured by reference to the conversion rate that was applicable on that preceding day.
- (2) For the purposes of *MIFIDPRU* 4.15.4R(3), where a *firm* is carrying out a conversion that involves sterling, the *FCA* considers that an example of an appropriate market rate would be the relevant daily spot exchange rate against sterling published by the Bank of England.
- 4.15.6 R (1) When measuring its *DTF*, a *firm* must use the sum of the absolute value of each buy order and sell order, as determined in accordance with this *rule*.
- (2) For *cash trades* relating to *financial instruments*, the value of the order is the amount paid or received on the trade.
- (3) For *derivatives trades* other than orders relating to interest rate derivatives, the value of the order is the notional amount of the

contract, determined in accordance with *MIFIDPRU* 4.14.20R(2).

- (4) For orders relating to interest rate derivatives, the value of the order is the notional amount of the contract determined in accordance with *MIFIDPRU* 4.14.20R(2), adjusted in accordance with *MIFIDPRU* 4.15.8R.

4.15.7 G For *cash trades* relating to exchange-traded options, the amount paid or received on the trade under *MIFIDPRU* 4.15.6R(2) is the premium paid for the option.

4.15.8 R (1) For the purposes of *MIFIDPRU* 4.15.6R(4), a *firm* must adjust the notional amount of an interest rate derivative by multiplying that notional amount by the duration.

- (2) For the purposes of (1), the duration must be determined in accordance with the following formula:

$$\text{Duration} = \text{time to maturity (in years)} / 10$$

4.15.9 G When measuring *DTF* for the purposes of *MIFIDPRU* 4.15.4R, a *firm* must include transactions executed by a *firm* in its own name either for itself or on behalf of a *client*.

4.15.10 R (1) This *rule* applies where a *firm* has had a *daily trading flow* for less than 9 *months*.

- (2) For the purposes of its calculation of *average DTF* under *MIFIDPRU* 4.15.4R, a *firm* must use the modified calculation in *MIFIDPRU* TP 4.11R(1) with the following adjustments:

- (a) in *MIFIDPRU* TP 4.11R(1)(b), *n* is the relevant number of *months* for which the *firm* has had a *daily trading flow* (with the *month* during which the *firm* begins that activity being counted as *month zero*); and
- (b) during *month zero* of the calculation, the *firm* must:
- (i) use a best efforts estimate of expected *DTF* for that *month* based on its projections when beginning the new activity; and
- (ii) use the estimate in (i) as its *average DTF*;
- (c) during *month 1* of the calculation and each *month* thereafter, the *firm* must apply the approach in (a) using observed historical data from the preceding *months*;

- (d) the modified calculation ceases to apply on the date that falls 9 months after the date on which the *firm* first had a *daily trading flow*.

Adjusted coefficient in stressed market conditions

- 4.15.11 R (1) This *rule* applies where a *firm's* measurement of its *DTF* under *MIFIDPRU* 4.15.4R includes a proportion of *daily trading flow* that occurred on a trading segment of a *trading venue* to which stressed market conditions (as defined in article 6 of the *Market Making RTS*) applied.
- (2) Where this *rule* applies, a *firm* may apply the following adjusted coefficients:
- (a) for *cash trades*, a coefficient determined in accordance with (3) instead of the relevant coefficient in *MIFIDPRU* 4.15.1R(1); or
- (b) for *derivatives trades*, a coefficient determined in accordance with (4) instead of the relevant coefficient in *MIFIDPRU* 4.15.1R(2).
- (3) For *cash trades*, the adjusted coefficient must be determined by using the following formula:

$$\text{CadjCash} = C * (\text{DTFexcl}/\text{DTFincl})$$

where:

- (a) CadjCash = the adjusted coefficient in (2)(a);
- (b) C = the original coefficient in *MIFIDPRU* 4.15.1R(1);
- (c) DTFexcl = the *average DTF* of *cash trades* calculated in accordance with *MIFIDPRU* 4.15.4R, excluding the value of any *cash trade* that occurred on a trading segment of a *trading venue* between the time at which the *trading venue* determined that:
- (i) stressed market conditions began to apply; and
- (ii) stressed market conditions ceased to apply;
- (d) DTFincl = the *average DTF* of all *cash trades* calculated in accordance with *MIFIDPRU* 4.15.4R.
- (4) For *derivative trades*, the adjusted coefficient must be determined by using the following formula:

$$\text{CadjDer} = C * (\text{DTFexcl}/\text{DTFincl})$$

where:

- (a) CadjDer = the adjusted coefficient in (2)(b);
- (b) C = the original coefficient in *MIFIDPRU* 4.15.1R(2);
- (c) DTfexcl = the *average DTF* of *derivative trades* calculated in accordance with *MIFIDPRU* 4.15.4R, excluding the value of any *derivative trade* that occurred on a trading segment of a *trading venue* between the time at which the *trading venue* determined that:
 - (i) stressed market conditions began to apply; and
 - (ii) stressed market conditions ceased to apply;
- (d) DTfincl = the *average DTF* of all *derivative trades* calculated in accordance with *MIFIDPRU* 4.15.4R.

- 4.15.12 G (1) *MIFIDPRU* 4.15.11R permits a *firm* to apply a reduced coefficient for the purposes of determining its *K-DTF requirement* where part of the *firm's average DTF* for the relevant period is attributable to transactions that took place on a segment of a *trading venue* to which stressed market conditions applied. The relevant coefficient must be calculated separately for *cash trades* and *derivatives trades*.
- (2) *MIFIDPRU* 4.15.11R permits a *firm* to substitute a reduced coefficient that applies to the *firm's average DTF* for the relevant calculation period. The size of the reduction is proportional to the value of trades that were placed on a segment of a *trading venue* during stressed market conditions within the calculation period, relative to the overall value of trades entered into by the *firm* during that period.
- 4.15.13 G (1) The following is an example of how the adjusted coefficient in *MIFIDPRU* 4.15.11R applies.
- (2) A *firm* executes total *cash trades* in its own name worth £9,600m during the 6-month calculation period for determining *average DTF* under *MIFIDPRU* 4.15.4R(1)(c). That 6-month period includes 128 *business days*.
- (3) The total £9,600m of *cash trades* includes £375m of *cash trades* that were executed on *trading venues* during stressed market conditions (as defined in article 6 of the *Market Making RTS*).
- (4) In this example:

$$\begin{aligned}
 \text{DTFincl} &= && \text{£9,600m} / 128 \text{ days} = \text{£75m} \\
 \text{DTFexcl} &= && (\text{£9,600m} - \text{£375m}) / 128 \text{ days} = \\
 &&& \text{£9,225m} / 128 \text{ days} = \text{£72.07m} \\
 C &= && 0.1\% \\
 \text{CadjCash} &= && 0.1\% \times (72.07 / 75) = \\
 &&& 0.1\% \times 0.961 = 0.0961\%
 \end{aligned}$$

- (5) To calculate its *K-DTF requirement* for this calculation period, the *firm* multiplies the full amount of its *average DTF* for the period by the adjusted coefficient (CadjCash). Therefore:

$$\begin{aligned}
 \text{K-DTF requirement for cash trades} &= \text{£75m} \times 0.0961\% = \\
 &= \text{£72,075}
 \end{aligned}$$

4.16 K-CON requirement

- 4.16.1 G *MIFIDPRU 5* contains the provisions relating to the calculation of the *K-CON requirement* of a *MIFIDPRU investment firm*.

MIFIDPRU 4 Annex 1R

Application under MIFIDPRU 4.11.9R for permission to exclude positions taken to hedge against the adverse effect of the exchange rate on the own funds or an item deducted from capital from net open currency positions for the purpose of article 352 of the UK CRR

Details of Senior Manager responsible for this application:

If the application is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

- Please confirm in respect of which of the following this application is made:

- exclusion of a position or positions from the individual net FX requirement of one or more MIFIDPRU investment firm in the same group only
- exclusion of a position or positions from the consolidated net FX requirement only
- exclusion of a position or positions from both the individual and consolidated net FX requirement

2. Please list all MIFIDPRU investment firms in respect of whose individual net FX requirement this application is made.

FRN	MIFIDPRU investment firm name

For group applications, the section of the form that follows must be completed separately for each entity requiring the permission, including for the consolidated situation of the consolidating UK parent if the application is also being made on a consolidated basis.

3. Please confirm the FRN and name of the MIFIDPRU investment firm or consolidating UK parent this section relates to:

4. Please confirm to which of the following this application relates:

- a. Positions which are deliberately taken in order to hedge against the adverse effect of the exchange rate on the firm’s (or for an application on a consolidated basis, the group’s) own funds requirement
- b. Positions which are deliberately taken in order to hedge against the adverse effect of the exchange rate on an item which the firm (or for an application on a consolidated basis, the group’s) has deducted from its own capital

5. Please describe the positions requested to be excluded:

6. For each of the statements in the below table, please confirm whether it is met and provide further information to demonstrate how it is met:

Statement	Meets Statement? (Yes/No)	Rationale <i>Please demonstrate how the statement is met by providing supporting commentary and evidence.</i>
a. Structural FX positions are deliberately taken in order to protect capital adequacy ratios against adverse movements in FX rates.		
b. Positions are of a non-trading or structural nature.		
c. Mismatches resulting in an open position are avoided as much as possible.		
d. Positions are monitored proactively and on a regular basis to detect and remediate mismatches, where applicable.		
e. Positions are accounted for so that capital ratios are protected.		
f. Any residual risks arising from structural FX positions are considered and capitalised in the ICARA assessment of the firm.		
g. Any residual risks arising from structural FX positions are avoided as far as possible.		
h. Policies and procedures are clearly articulated and are made available to the Board and to regulators on an annual basis.		
i. The structural FX hedging strategy is clearly articulated to investors and is included in MIFIDPRU 8 disclosures.		
j. Books containing structural FX positions are segregated from other trading activities.		
k. Traders' remuneration structures do not in any way incentivise structural FX positions becoming a profit centre.		
l. Oversight of structural FX positions is carried out by the appropriate committees of the Boards of both the foreign		

entity and the group on at least a quarterly basis.

MIFIDPRU 4 Annex 2R

Application under MIFIDPRU 4.12.4R for permission to use an advanced internal market risk model

MIFIDPRU 4.12.8R to 4.12.65G set out requirements for internal models and explain the factors that the FCA will consider when deciding whether to grant permission to use an advanced internal model. Please refer to these rules and guidance when completing your application.

Details of Senior Manager responsible for this application:

If the application is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please list all MIFIDPRU investment firms covered by the model on behalf of which this application is made:

FRN	MIFIDPRU investment firm name

2. Please confirm which of the following the applicant firm wishes to calculate using an internal model:
 - a. General risk of equity instruments
 - b. Specific risk of equity instruments
 - c. General risk of debt instruments
 - d. Specific risk of debt instruments
 - e. Foreign exchange risk
 - f. Commodities risk

3. For the risk categories selected, please explain which classes of position within each risk category the applicant firm would like to apply the model to (e.g. government debt instruments, corporate debt instruments, etc.).

--

4. Please confirm the scope of the consolidated application for the model:

- Not applicable, as the model will only be used at solo level
- The use of the model at solo and consolidated level will involve the same types of instruments
- The consolidated application for a model will include a wider range of instrument types than those covered by the model at solo level ▶ Give details below

--

5. For applications on consolidated basis, please specify the FRN and name of the consolidating UK parent entity.

FRN	
Name	

6. Please explain how the applicant firm, and other group undertakings in scope of this application (if applicable), meet the relevant conditions for the use of internal model specified in Part Three, Title IV, Chapter 5 of the UK CRR as it applied on 31 December 2021.

--

7. Please explain how the internal model this application relates to covers a significant share of the positions of each relevant risk category.

--

8. Proposed implementation date (date from which the applicant firm proposes to start using the model, subject to receiving the necessary approval).

DD/MM/YYYY

9. Please attach the following information to support your application:

- a. Organisational charts for all functions that either execute trading activities or execute a control function over trading activities including internal audit.
- b. A list of all policies that govern activities by all of the above functions.

- c. List of all meetings where trading activities and the activities of control functions are discussed (we may request minutes and supporting documentation for some of these meetings).
- d. 6 months of front-office profit/loss (P/L) flashes and all subsequent P/L reporting for the same period.
- e. All management reporting by finance and product control functions for 6 months that:
 - i. Provide P/L explanations
 - ii. Validate trade booking and any necessary adjustments
 - iii. Contain monthly confirmation of position reconciliations
 - iv. Contain monthly price testing reports
- f. All management reporting by Risk Management staff, including:
 - i. A list of all market risk limits currently in place
 - ii. All market risk reporting concerning limits
 - iii. All changes to market risk limits in the past 6 months along with any supporting documentation
- g. All documentation related to the advanced market risk model (VAR), including:
 - i. Model description
 - ii. Model validation
 - iii. List of all pricing models used within the advanced market risk model
 - iv. List of model validation documents for (iii) and the date of last review
 - v. List of all risks not captured by the advanced market risk model
 - vi. List of all documentation describing how items in (v) are estimated
 - vii. List of all validation of items in (vi)
- h. Model output and pro-forma reporting for at least 3 months, which provides:
 - i. A comparison of clean P/L, raw P/L and model output
 - ii. An explanation of significant deviations between clean P/L and raw P/L
 - iii. An explanation of any exceptions
 - iv. An explanation for any significant deviations in the number of exceptions observed

- i. All management reporting by Compliance functions for the past 6 months that:
 - i. Attests to the adherence to policies and procedures by trading staff
 - ii. Reports any violation of policies and procedures by trading staff
- j. The following documentation from internal audit:
 - i. A list of all audit activities for the current year
 - ii. All audit reports from the previous year
- k. A status report on all outstanding actions identified by internal audit in trading and control functions.

Application under MIFIDPRU 4.12.6R – material change or extension to internal market risk models

3. Please list all MIFIDPRU investment firms covered by the model on behalf of which this application is made:

FRN	MIFIDPRU investment firm name

4. Please confirm to which of the following this material change/extension applies:
- a. General risk of equity instruments
 - b. Specific risk of equity instruments
 - c. General risk of debt instruments
 - d. Specific risk of debt instruments
 - e. Foreign exchange risk
 - f. Commodities risk

5. If the permission to use the model was originally granted on both solo and consolidated basis, please confirm if the permission for the material change/extension is also being sought on both solo and consolidated basis.

- Yes, the permission to change/extend the model is being sought at both solo and consolidated level
- No, the permission to change/extend the model is being sought at solo level only (i.e. it does not affect the use of the model at consolidated level)
- Not applicable; the model is, and will continue to be, used at solo level only

6. For applications on consolidated basis, please specify the FRN and name of the consolidating UK parent entity.

- d. calculating TCD own funds requirement (supervisory delta)

Note: Article 329, 352(1) and 358 UK CRR as applicable at 31 December 2021.

3. Please confirm the basis on which this notification is made (select one):

Individual basis for each MIFIDPRU investment firm covered by this notification

Consolidated basis of a UK parent entity

Where the model will be used to estimate delta only for derivatives included in the consolidated situation, but not held by an individual MIFIDPRU investment firm.

Individual and consolidated basis

Where the same model is used to estimate delta for the same type of derivatives at both levels.

4. For notifications on consolidated basis, please specify the FRN and name of the consolidating UK parent entity.

FRN

5. The pricing model used to calculate delta estimates is required to meet the following minimum standards set out in MIFIDPRU 4.12.12G to MIFIDPRU 4.12.18G for each type of option (and as modified by MIFIDPRU 4.14.21R for supervisory delta):
- a. The level of sophistication of the pricing model is proportionate to the complexity and risk of each option, and the overall risk of the firm's/group's options trading business.
 - b. Delta is re-calculated at least daily, and promptly following significant movements in the market parameters used as inputs to calculate delta.
 - c. The pricing model used to calculate delta:
 - i. is based on appropriate assumptions that have been assessed and challenged by suitably qualified parties independent of the development process
 - ii. has been independently tested, including validation of the mathematics, assumptions, and software implementation and
 - iii. has been developed or approved independently of the trading desk.
 - d. Where available, generally accepted industry standard pricing models, such as for relatively simple options, have been used for the calculation of own deltas.
 - e. The IT systems used to calculate delta are sufficient to ensure that delta can be calculated accurately and reliably.
 - f. Adequate systems and controls are in place when using a pricing model to calculate a delta. This includes the following documented policies and procedures:
 - i. clearly defined responsibilities of the various areas involved in the calculation
 - ii. frequency of independent testing of the accuracy of the model used to calculate delta; and
 - iii. guidelines for the use of unobservable inputs, where relevant.
 - g. Risk management functions are aware of weaknesses of the model used to calculate a delta.

- h. Where a weakness is identified, estimates of delta result in a prudent contribution to the K-NPR requirement or, for supervisory delta, the K-TCD requirement. The outcome is prudent across the whole portfolio of options and underlying positions at all times.
- i. The relevant model estimates the rate of change of the value of the option for small changes in the market value of the underlying (supervisory delta only).

Please confirm that the pricing model used by the firm/group to calculate delta estimates meets these minimum standards and that the firm/group is able to demonstrate this by providing supporting evidence upon request.

Yes

MIFIDPRU 4 Annex 6R

Application under MIFIDPRU 4.12.66R for permission to use sensitivity models to calculate interest rate risk on derivative instruments in accordance with article 331(1) of the UK CRR

Details of Senior Manager responsible for this application:

If the application is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please list all group undertakings in respect of which this application is being made.

FRN	Undertaking name

2. Please confirm the scope of the consolidated application for the model:

- Not applicable, as the model will only be applied at solo level
- The use of the model at solo and consolidated level will involve the same types of instruments
- The consolidated application for a model will include a wider range of instrument types than those covered by the model at solo level Give details below

--

For group applications, the below section must be completed separately for each entity requiring the permission, including for the consolidated situation of the consolidating UK parent if the application concerns a consolidated application of the model. Questions 4 and onwards

must be completed separately for each set of instruments for which a net sensitivity position, weighted by maturity, is computed.

3. Please confirm the FRN and name of the MIFIDPRU investment firm or consolidating UK parent this section relates to:

5. Please provide summary information for each of the items listed in the below table. For some items you are required to attach additional documentation.

Item	Summary Information
a. Describe the current methodology used for interest rate risk on derivative instruments covered in articles 328 to 330 UK CRR.	
b. Describe the sensitivity models used to calculate interest rate risk under article 331 UK CRR.	
c. Product scope of the requested permission – please indicate the instruments for which net sensitivity positions are used and the currencies in which those positions are denominated.	
d. For the product scope requested, confirm that the interest rate risk is managed on a discounted cashflow basis.	
e. For the product scope requested, briefly indicate any growth plans for the exposures.	
f. Capital impact of changing the calculation methodology from the existing approach (i.e. the capital impact of applying article 331 UK CRR) and total capital and market risk capital held at the same date.	
g. Provide worked examples of capital calculation under the current methodology and the new (article 331 UK CRR) methodology for a test portfolio composed of: <ul style="list-style-type: none"> • Long 100,000 1Y ATM equity index call option 	

<ul style="list-style-type: none"> • Short 100,000 1Y ATM equity index put option • Long 100,000 2Y ATM equity index call option • Short 100,000 5Y ATM equity index call option • Short 3M equity index futures in sufficient quantity to hedge the equity delta of the options <p>Assume that the base index level is 100 and that the equity index volatility is 20%. Please use the interest rate curve included for the purposes of calculating the interest rate exposure. All options are European style exercise.</p>	
h. Provide documentation describing how you construct interest rate curves from market data. List all models that rely on these curves to calculate sensitivity to interest rate movements. For each model, Provide the list of products to which it applies and the date of the last validation.	
i. Explain how you calculate the interest rate sensitivity of your portfolio in each bucket.	
j. Explain how you handle interest rate basis risk.	

4. Please complete the following [interest rate inputs template²](#) and submit it with your application.

MIFIDPRU 4 Annex 7R

Application under MIFIDPRU 4.13.9R for permission to apply K-CMG to a portfolio, instead of K-NPR

Details of Senior Manager responsible for this application:

If the application is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

- Please confirm that the applicant firm is not part of a group containing a credit institution.
 Yes
- Please list the portfolios to which this application relates. Please allocate a different name to each portfolio, and then complete the remaining questions below separately in relation to each portfolio.

#	Portfolio name
Portfolio 1	
Portfolio 2	
Portfolio 3	
Portfolio ...	

The questions that follow must be completed separately for each portfolio this application relates to.

- Please state the name of the portfolio for which a K-CMG permission is requested.

--

If the K-CMG permission in respect of this portfolio is granted, please confirm if it will also be applied for the purpose of calculating the group's consolidated market risk requirement (where applicable).

Yes/No

4. Please list all types of positions within the portfolio.

--

5. Please list all models used to value the positions within the portfolio.

--

6. Please confirm whether the portfolio covers all of the firm’s trading book positions.

If the firm has positions outside of the trading book that give rise to foreign exchange or commodities risk, the FCA would generally expect it to calculate K-NPR in relation to these positions.

- Yes
- No ▶ Give details below

--

7. Please confirm that the clearing and settlement of transactions in the relevant portfolio take place under the responsibility of a clearing member of an authorised or recognised central counterparty.

- Yes

8. Please confirm which of the following applies:

The firm itself is the clearing member	Yes/No
The firm is a direct client of the clearing member	Yes/No
The firm is an indirect client of the clearing member	Yes/No

9. Where the firm is not the clearing member itself, please provide the following information:

Name of clearing member	
Status of clearing member	<i>Select one of the following:</i> <ul style="list-style-type: none"> ● other MIFIDPRU investment firm ● a designated investment firm ● a third country investment firm ● a UK credit institution ● a third country credit institution
FRN/LEI of clearing member	

Where the firm is an indirect client of the clearing member, please provide the following information:

Name of intermediary	
Status of intermediary	Select one of the following: <ul style="list-style-type: none"> • <i>other MIFIDPRU investment firm</i> • <i>a designated investment firm</i> • <i>a third country investment firm</i> • <i>a UK credit institution</i> • <i>a third country credit institution</i>
FRN/LEI of intermediary	

Where the clearing member and/or the intermediary do not have an FRN or LEI, please explain why and, if applicable, provide alternative details.

10. One of the conditions of the K-CMG permission is that transactions in the relevant portfolio are either:
- a. centrally cleared in an authorised or recognised central counterparty; or
 - b. settled on a delivery-versus-payment basis under the responsibility of the clearing member.

Please explain how this specific condition is satisfied:

11. In order to meet the conditions of the K-CMG permission, the firm is required to provide total margin calculated on the basis of a margin model that meets the criteria set out in MIFIDPRU 4.13.14R.

- a. Please confirm whether the margin model is operated:

By the authorised or recognised central counterparty <i>[applies to self-clearing firms]</i>	Yes/No
By the relevant clearing member <i>[applies to firms other than self-clearing firms]</i>	Yes/No

- b. Please provide further details of the margin model, including how it satisfies the specific criteria in MIFIDPRU 4.13.14R:

- c. Please confirm if the parameters of the margin model meet the EMIR standards.

- Yes
- No ▶ Give details below of the mathematical adjustments that have been applied to produce an alternative margin requirement (see MIFIDPRU 4.13.14R(2))

- d. If you answered "no" under (c), please demonstrate that the alternative requirement is at least equivalent to the margin requirement that would be produced by a margin model that meets the EMIR standards.

- e. Please attach a copy of the agreement with the clearing member concerning the margin model and collateral used.

- Attached

- 12. Please explain the rationale for the decision to calculate a K-CMG requirement in relation to the portfolio to which this application relates. In your response, please demonstrate that you have taken adequate account of the nature of, and risk arising from, the firm's trading activities, including whether:

- a. the main activities of the firm are essentially trading activities that are subject to clearing and margining under the responsibility of a clearing member; and
- b. other activities performed by the firm are material in comparison to those main activities.

- 13. Please confirm that the rationale for the decision has been clearly documented and approved by the firm's management body or risk management function.

- Yes

- 14. Please show how the firm's capital requirement calculated using K-CMG compares with that calculated using K-NPR.

- 15. Please confirm who within the firm is accountable for the operation of the margin model used. Please provide details of the specific role or function where the knowledge about the margin model sits within the firm (e.g. Head of Risk Management, Head of Models, etc.), rather than an individual's name.

--

16. Please confirm that the firm's understanding of the margin model is integrated into its ICARA process to determine whether:
- a. the resulting K-CMG requirement is sufficient to cover the relevant risks to which the firm is exposed; and
 Yes
 - b. the K-CMG permission remains appropriate in relation to the portfolio for which it was granted.
 Yes
17. Please confirm your understanding that you must notify the FCA immediately if any of the conditions in MIFIDPRU 4.13.9R are no longer met by any of the portfolios to which this application relates.
 Yes

Notification under MIFIDPRU 4.13.10R – K-CMG conditions no longer satisfied

MIFIDPRU 4 Annex 8R

Notification under MIFIDPRU 4.13.10R that a firm no longer satisfies all the conditions of a K-CMG permission previously granted in relation to a portfolio

Details of Senior Manager responsible for this notification:

If the notification is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please identify the relevant K-CMG permission by providing the following information:

K-CMG permission reference number	
Portfolio name	

2. Please identify the condition(s) no longer being met in respect of the relevant K-CMG permission:

--

3. Please confirm the date the firm ceased to satisfy all the conditions of that K-CMG permission:

DD/MM/YYYY

4. Please confirm what the firm's and/or group's (if applicable) revised capital requirement would be if it was required to calculate K-NPR for this portfolio. Please state this as at the date of this notification:

	Existing capital requirement using K-CMG	Capital requirement using K-NPR
MIFIDPRU investment firm's individual requirement	£	£
Consolidated capital requirement	£	£

4. Please confirm whether the firm/group would be able to meet its revised capital requirements if it was required to calculate K-NPR for this portfolio.

Yes/No

Note: The FCA may review or revoke the K-CMG permission in response to this notification.

Notification under MIFIDPRU 4.13.20R – cancellation of K-CMG permission

4 Annex 9R [*Editor's note*: the form can be found at this address:

MIFIDPRU 4 Annex 9R

Notification under MIFIDPRU 4.13.20R to cancel a K-CMG permission for a portfolio and calculate K-NPR instead

Details of Senior Manager responsible for this notification:

If the notification is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please identify the relevant K-CMG permission by providing the following information:

a. K-CMG permission reference number	
b. Portfolio name	
c. Date K-CMG permission was granted	<i>DD/MM/YYYY</i>
d. Date K-CMG permission should cease to apply	<i>DD/MM/YYYY</i>

2. Please provide the rationale for the decision to calculate a K-NPR requirement rather than a K-CMG requirement for the above portfolio:

--

3. A firm that has obtained a K-CMG permission in relation to a portfolio must calculate a K-CMG requirement for that portfolio for a continuous period of at least 24 months from the date that the permission is granted. The exception is where the business strategy or operations of the trading desk with responsibility for the relevant portfolio have changed to such an extent that it has become a different trading desk.

If this notification is made following a period shorter than 24 months from the date the permission was granted, please confirm if the firm meets the above exception criteria:

- Yes
- No

Please provide further details below:

Note: The FCA is unlikely to grant another K-CMG permission in relation to the portfolio to which this notification relates for at least 24 months from when the previous K-CMG permission ceases to apply.

MIFIDPRU 4 Annex 11R

Application under MIFIDPRU 4.5.9R for permission to rebase fixed overhead requirement to a lower amount where firm's/group's projected relevant expenditure decreases by a material amount

Details of Senior Manager responsible for this application:

If the application is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please confirm if this application is made in respect of the applicant's individual fixed overheads requirement (FOR), a consolidated FOR, or both.
 - Individual FOR
 - Consolidated FOR
 - Individual and consolidated FOR
2. Please confirm the basis on which this application is made by selecting one or both of the following options:
 - a. There has been a decrease of 30% or more in the firm's/group's projected relevant expenditure for the current year
 - b. There has been a decrease of £2 million or more in the firm's/group's fixed overheads requirement based on projected relevant expenditure for the current year
2. Please attach relevant forecast information which demonstrates the projected decrease in the relevant expenditure in (1) and the revised fixed overhead requirement calculation on the basis of that projected decrease. If applicable, please provide this information in respect of individual and consolidated FOR separately.
 - Attached

3. Please explain the key drivers for this material change in the firm's and/or group's projected relevant expenditure for the current year.

4. Please explain the impact of the reduction on the firm's/group's ICARA process and the conclusions documented in the firm's/group's last ICARA document.

5. Please demonstrate that the firm and/or group members continue to hold own funds and liquid assets to comply with the threshold requirements under MIFIDPRU 7.

4 Annex 12G Guidance on the interaction between K-AUM and K-COH

- 12.1 G (1) This annex contains *guidance* on the interaction between the *K-AUM requirement* and the *K-COH requirement* in certain scenarios.
- (2) The scenarios contained in this annex are not intended to be exhaustive. *MIFIDPRU investment firms* should analyse any arrangement that is not covered by the *guidance* in this annex by reference to the *rules and guidance* in *MIFIDPRU 4.7* (in relation to the *K-AUM requirement*) and *MIFIDPRU 4.10* (in relation to the *K-COH requirement*). *Firms* should also refer to the *guidance* in *MIFIDPRU 4.6.2G*.
- 12.2 G (1) The following table indicates whether a *MIFIDPRU investment firm* is required to calculate a *K-AUM requirement* or a *K-COH requirement* in a particular scenario.
- (2) In the table, a reference to:
- (a) “DPM” is to the activity of discretionary *portfolio management*;
 - (b) “IF1” is to the first *MIFIDPRU investment firm*;
 - (c) “IF2” is to the second *MIFIDPRU investment firm*;
 - (d) “IF3” is to the third *MIFIDPRU investment firm*;

- (e) a dash (-) indicates that there is no second *MIFIDPRU investment firm* involved in the relevant scenario;
- (f) “Yes” means that the relevant requirement applies to that activity; and
- (g) “No” means that the relevant requirement does not apply to that activity.

5 Concentration risk

5.1 Application and purpose

Application: Who?

- 5.1.1 R This chapter applies to:
- (1) a *MIFIDPRU investment firm*; and
 - (2) a *UK parent entity* that is required by *MIFIDPRU 2.5.7R* to comply with *MIFIDPRU 5* on the basis of its *consolidated situation*.
- 5.1.2 R Where this chapter applies on the basis of the *consolidated situation* of the *UK parent entity*, any reference to a “*firm*” or “*MIFIDPRU investment firm*” in this chapter is a reference to the hypothetical single *MIFIDPRU investment firm* created under the *consolidated situation*.
- 5.1.3 G *MIFIDPRU 2.5.45G* and *2.5.46G* contain additional *guidance* on how a *UK parent entity* should apply the requirements in this chapter on a *consolidated basis*.
- 5.1.4 G *MIFIDPRU 5.2* to *5.10* do not apply to a *commodity and emission allowance dealer* in the circumstances set out in *MIFIDPRU 5.11*.

Application: What?

- 5.1.5 R *MIFIDPRU 5.2 applies to all of a firm's activities that may give rise to concentration risk.*
- 5.1.6 G *MIFIDPRU 5.2 is therefore relevant to both a MIFIDPRU investment firm that deals on own account and one that does not (e.g. an SNI MIFIDPRU investment firm).*
- 5.1.7 R *MIFIDPRU 5.3 to 5.10 apply to a firm when dealing on own account in relation to transactions that are recorded in the trading book.*
- 5.1.8 G *MIFIDPRU 5.3 to 5.10 apply whether a firm is dealing on own account for itself or on behalf of a client.*
- 5.1.9 G *A MIFIDPRU investment firm that has permission to operate an organised trading facility may rely on that permission to:*
- (1) *engage in matched principal trading in certain types of financial instruments with client consent, in accordance with MAR 5A.3.5R(1); and*
 - (2) *deal on own account in illiquid sovereign debt instruments in accordance with MAR 5A.3.5R(2).*

Purpose

- 5.1.10 G This chapter contains:
- (1) *Rules and guidance on how a MIFIDPRU investment firm must monitor and control concentration risk (MIFIDPRU 5.2).*
 - (2) *Rules and guidance on the concentration risk requirements that apply to the trading book exposures of a MIFIDPRU investment firm that is dealing on own account (MIFIDPRU 5.3 to 5.10). MIFIDPRU 5.3 sets out an overview of these requirements.*
 - (3) *Rules and guidance on when a commodity and emission allowance dealer is exempt from the requirements of this chapter (MIFIDPRU 5.11).*

Interpretation

- 5.1.11 G In this chapter, references to *client* include any counterparty of the *firm*.
- 5.1.12 R Subject to *MIFIDPRU 5.1.13R to MIFIDPRU 5.1.16R*, a *group of connected clients* means:
- (1) *two or more persons who, unless it is shown otherwise, constitute a single risk because one of them, directly or indirectly, has control over the other or others; or*
 - (2) *two or more persons between whom there is no relationship of control as described in (1) but who are to be regarded as constituting*

a single risk because they are so interconnected that, if one of them were to experience financial problems, in particular funding or repayment difficulties, the other or all of the others would also be likely to encounter funding or repayment difficulties.

- 5.1.13 R Where a central government has direct *control* over, or is directly interconnected with, more than one *person*, they do not all have to be treated as a single *group of connected clients*. Instead, the existence of a *group of connected clients* may be assessed separately at the level of each *person* directly *controlled* by or directly interconnected with the central government, which must include all of the natural and legal *persons* which are *controlled* by or interconnected with that *person*, including the central government.
- 5.1.14 R Regional governments and local authorities, whether in the *United Kingdom* or a *third country*, may be treated in the same way as central governments under *MIFIDPRU* 5.1.13R if there is no difference in the risk they pose compared to central governments.
- 5.1.15 G (1) There may be no difference in the risk posed by a regional government or local authority if it has specific revenue-raising powers, or if there are specific institutional arrangements which reduce the risk of default.
- (2) The *PRA* maintains a list of all regional governments and local authorities within the *United Kingdom* which it treats as exposures to the central government of the *United Kingdom*, in accordance with article 115 of the *UK CRR*. A *firm* may have regard to this list when applying the test in *MIFIDPRU* 5.1.14R to regional governments and local authorities in the *United Kingdom*.
- 5.1.16 R Two or more *persons* do not constitute a single *group of connected clients* solely because of their direct exposure to the same *central counterparty* for clearing purposes.

Exposures to trustees

- 5.1.17 R For the purposes of this chapter, if a *firm* has an exposure to a *person* ('A') when A is acting on its own behalf, and also an exposure to A when A acts in the capacity of trustee, custodian or general partner of an investment trust, unit trust, venture capital or other investment fund, pension fund or a similar fund (a "fund"), the *firm* may treat the latter exposure as if it was to the fund as a separate *client*, unless such treatment would be misleading.
- 5.1.18 G When considering whether such treatment would be misleading, a *firm* should consider factors such as:
- (1) the degree of independence of control of the fund, including the relation of the fund's board and senior management to the *firm* or to other funds or to both;

- (2) the terms on which the counterparty, when acting as trustee, is able to satisfy its obligation to the *firm* out of the fund of which it is trustee;
- (3) whether the beneficial owners of the fund are connected to the *firm*, or related to other funds managed within the *firm's* group, or both; and
- (4) for a counterparty that is connected to the *firm* itself, whether the exposure arises from a transaction entered into on an arm's length basis.

5.1.19 G In deciding whether a transaction is at arm's length, the following factors should be taken into account:

- (1) the extent to which the *person* to whom the *firm* has an exposure ('A') can influence the *firm's* operations through, for example, the exercise of voting rights;
- (2) the management role of A where A is also a *director* of the *firm*; and
- (3) whether the exposure would be subject to the *firm's* usual monitoring and recovery procedures if repayment difficulties emerged.

5.2 Monitoring obligation

5.2.1 R A *firm* must monitor and control its *concentration risk* using sound administrative and accounting procedures and robust internal control mechanisms.

5.2.2 G *MIFIDPRU* 5.2.1R requires a *firm* to monitor and control all sources of *concentration risk*. This is not limited to *trading book* exposures, but also includes any concentration in assets not recorded in a *trading book* (for example, trade debts) and off-balance sheet items. It also includes any *concentration risk* that may arise from the following:

- (1) the location of *client money*;
- (2) the location of *custody assets*;
- (3) a *firm's* own cash deposits; and
- (4) earnings.

5.3 Overview of concentration risk requirements for dealing on own account

5.3.1 G *MIFIDPRU* 5.4 to 5.10 contain the *concentration risk* requirements that apply to the *trading book* exposures of a *MIFIDPRU investment firm* that is *dealing on own account*:

- (1) *MIFIDPRU* 5.4 explains how a *firm* should calculate the value of its exposure to each *client* or *group of connected clients* (the *exposure value* or *EV*).

- (2) *MIFIDPRU 5.5.1R* explains how a *firm* should calculate the *concentration risk soft limit* for its exposure to a *client* or *group of connected clients*.
- (3) *MIFIDPRU 5.5.3R* explains how a *firm* should calculate the value by which its exposure to each *client* or *group of connected clients* exceeds the *concentration risk soft limit* (the *exposure value excess* or *EVE*). The *EVE* is relevant to the calculation of the *K-CON requirement*.
- (4) *MIFIDPRU 5.6* contains the obligation to calculate the *K-CON requirement* and to notify the *FCA* if the value of a *firm's* exposure to a *client* or *group of connected clients* exceeds the *concentration risk soft limit*.
- (5) *MIFIDPRU 5.7* explains how to calculate the *K-CON requirement*.
- (6) *MIFIDPRU 5.8* contains *rules* designed to prevent *firms* from avoiding the *K-CON requirement*.
- (7) *MIFIDPRU 5.9* contains the 'hard' concentration risk limits, and associated provisions.
- (8) *MIFIDPRU 5.10* excludes certain exposures from the *concentration risk requirements* in *MIFIDPRU 5.4* to *5.9*.

5.4 Calculation of exposure value (EV)

- 5.4.1 R For the purposes of *MIFIDPRU 5.5* to *5.10*, a *firm* must calculate an *exposure value (EV)* for each *client* or *group of connected clients* by adding together the following items:
- (1) the positive excess of the *firm's* long positions over its short positions in all the *trading book financial instruments* issued by the *client* in question, using the approach specified for *K-NPR* in *MIFIDPRU 4.12.2R* to calculate the net position for each instrument; and
 - (2) the exposure value of contracts and transactions referred to in *MIFIDPRU 4.14.3R* with the *client* in question, calculated using the approach specified for *K-TCD* in *MIFIDPRU 4.14.8R*.
- 5.4.2 R For the purposes of *MIFIDPRU 5.4.1R(1)*, where a *firm* calculates a *K-CMG requirement* in relation to a *portfolio*, it must calculate its net position for the exposures in that *portfolio* using the approach specified for *K-NPR* in *MIFIDPRU 4.12.2R*.
- 5.4.3 R The *EV* with regard to a *group of connected clients* must be calculated by adding together the exposures to the individual *clients* within the group, which must be treated as a single exposure.

- 5.4.4 R When calculating *EVs*, a *firm* must take all reasonable steps to identify underlying assets in relevant transactions and the counterparty of the underlying exposures.

5.5 The concentration risk soft limit and exposure value excess

The concentration risk soft limit

- 5.5.1 R (1) The *concentration risk soft limit* for *EVs* to an individual *client* or *group of connected clients* is 25% of a *firm's own funds*, subject to (2) and (3).
- (2) Where an individual *client* is a *MIFIDPRU-eligible institution*, the *concentration risk soft limit* for that *client* is the higher of:
- (a) 25% of the *firm's own funds*; or
 - (b) £150 million or 100% of the *firm's own funds*, whichever is the lower.
- (3) Where a *group of connected clients* includes one or more *MIFIDPRU-eligible institutions*, the *concentration risk soft limit* for the group is the higher of:
- (a) 25% of the *firm's own funds*; or
 - (b) £150 million or 100% of the *firm's own funds*, whichever is the lower, provided that for the sum of *exposure values* with regard to all connected *clients* that are not *MIFIDPRU-eligible institutions*, the *concentration risk soft limit* remains at 25% of the *firm's own funds*.

- 5.5.2 G The *Handbook* definition of *MIFIDPRU-eligible institution* includes private or public *undertakings*, including the branches of such *undertakings*, provided that those *undertakings*, if they were established in the *UK*, would be *UK credit institutions* or *MIFIDPRU investment firms*, and provided that those *undertakings* have been authorised in a *third country* that applies prudential supervisory and regulatory requirements comparable to those applied in the *UK*.

The exposure value excess (EVE)

- 5.5.3 R (1) A *firm* that exceeds the *concentration risk soft limit* for a *client* or *group of connected clients* must calculate the *exposure value excess (EVE)*.
- (2) A *firm* must calculate the *EVE* for an individual *client* or *group of connected clients* using the following formula:

$$EVE = EV - L$$

where:

L = the *concentration risk soft limit* specified in *MIFIDPRU 5.5.1R*.

5.6 Obligations for a firm that exceeds the concentration risk soft limit

- 5.6.1 R For as long as a *firm* exceeds the *concentration risk soft limit* for one or more *clients* or *groups of connected clients*, it must calculate the *K-CON requirement*.
- 5.6.2 R When a *firm* exceeds the *concentration risk soft limit* for a *client* or *group of connected clients*, it must notify the *FCA* without delay of the amount of the *EVE*, and the name of the individual *client* or *group of connected clients*.
- 5.6.3 R A *firm* must make the notification referred to in *MIFIDPRU 5.6.2R* by completing Part A of the form in *MIFIDPRU 5 Annex 1R* and submitting it using the *online notification and application system*.

5.7 Calculating K-CON

- 5.7.1 R The *K-CON requirement* of a *MIFIDPRU investment firm* is equal to the sum of the *CON own funds requirement* for each *client* or *group of connected clients* for which the *EV* exceeds the *concentration risk soft limit*.
- 5.7.2 R The *CON own funds requirement* for each *client* or *group of connected clients* in *MIFIDPRU 5.7.1R* must be calculated by:
- (1) determining the own funds requirement for the excess (*OFRE*) in accordance with *MIFIDPRU 5.7.3R*; and
 - (2) applying the relevant multiplication factor or factors in accordance with *MIFIDPRU 5.7.4R*.
- 5.7.3 R (1) The *OFRE* must be calculated using the following formula:

$$OFRE = \frac{OFR}{EV} \times EVE$$

- (2) (a) The *OFRE* for an individual *client* is the sum of:
 - (i) the *TCD own funds requirement* for exposures to that *client*; and
 - (ii) the *K-NPR requirement* for the exposures to that *client*, subject to (b).
- (b) Where exposures arise from the positive excess of a *firm's* long positions over its short positions in all the *trading book financial instruments* issued by the *client* in question, the net position of each instrument calculated using the approach specified for *K-NPR* in *MIFIDPRU 4.12.2R* shall only include specific-risk requirements.

- (c) A firm that calculates a *K-CMG requirement* for a portfolio must calculate the *OFR* using the approach specified for *K-NPR* in *MIFIDPRU* 4.12.2R, subject to (b).
- (d) The *OFR* for a group of connected clients must be calculated by adding together the exposures to individual clients within the group, and then determining a single own funds requirement for exposures to the group as if the group were a single undertaking.
- 5.7.4 R (1) Where the excess has persisted for 10 *business days* or less, the *CON own funds requirement* is the *OFRE* multiplied by 200%.
- (2) Where the excess has persisted for more than 10 *business days*:
- (a) the *EVE* must be apportioned according to the tranches in each row of Column 1 of Table 1;
- (b) the proportion of the *EVE* in each tranche must be calculated as a percentage of the overall *EVE*;
- (c) the *OFRE* must be pro-rated according to the proportion of *EVE* falling within each tranche;
- (d) each portion of the *OFRE* must be multiplied by the relevant Factor in Column 2 of Table 1; and
- (e) the *CON own funds requirement* is the sum of the amounts calculated in accordance with (d).
- (3)

Table 1	
Column 1: <i>EVE</i> as a percentage of own funds	Column 2: Factors
For the amount up to and including 40%	200%
For the amount over 40% up to and including 60%	300%
For the amount over 60% up to and including 80%	400%
For the amount over 80% up to and including 100%	500%

For the amount over 100% up to and including 250%	600%
For the amount over 250%	900%

- 5.7.5 G (1) K-CON is an additional *K-factor* own funds requirement for *concentration risk* in the *trading book*.
- (2) A *firm* must calculate a *CON own funds requirement* for each *client* or *group of connected clients* for which the *exposure value* exceeds the *concentration risk soft limit*. The *CON own funds requirement* for each *client* or *group of connected clients* is then added together determine the *K-CON requirement*.
- (3) Determining the *CON own funds requirement* for each *client* or *group of connected clients* involves a two-step calculation:
- (a) The first step involves an exposure-based calculation, known as the *OFRE* (the own funds requirement for the excess).
- (b) The second step involves applying a multiplying factor to the *OFRE* (or applying different multiplying factors to tranches of the *OFRE*) based on the length of time for which the excess has persisted and by how much (as a percentage of own funds) the *exposure value* exceeds the *concentration risk soft limit*.
- (4) The reference to how long an excess has persisted relates to how long a *firm* has had an exposure to a *client* or *group of connected clients* that exceeds the *concentration risk soft limit*, irrespective of whether the constituent parts that make up that total exposure change over the duration of that total exposure.
- (5) The 10-*business day* period referred to in *MIFIDPRU 5.7.4R* runs from the start of the *business day* on which the excess occurred.
- 5.7.6 G The following example shows how to calculate the *CON own funds requirement* for an excess to a *client* that has persisted for 10 *business days* or less:
- (1) A *firm* has:
- (a) *own funds* of 1000;
- (b) a *concentration risk soft limit* of 250 (25% of 1000);
- (c) an *EV* of 262; and
- (d) an *EVE* of 12 (262 - 250 = 12).

- (2) The exposure is all due to debt securities that have a specific risk own funds requirement of 8% (according to Table 1 in article 336 of *UK CRR*) for the purposes of K-NPR. There is zero K-TCD to this *client*.

In this example, the $OFR = 262 \times 8\% = 20.96$

- (3) To calculate the *OFRE*:

$$OFRE = OFR/EV * EVE = 20.96/262 \times 12 = 0.96$$

- (4) As the excess has persisted for 10 *business days* or less:

$$CON \text{ own funds requirement} = 0.96 \times 200\% = 1.92$$

5.7.7 G The following example shows how to calculate the *CON own funds requirement* for an excess that has persisted for more than 10 *business days*:

- (1) A *firm* has:

- (a) *own funds* of 1000;
- (b) a *concentration risk soft limit* of 250 (25% of 1000);
- (c) an *EV* of 780; and
- (d) an *EVE* of 530 (780 - 250 = 530).

- (2) The exposure is all due to debt securities that have a specific risk own funds requirement of 8% (according to Table 1 in article 336 of *UK CRR*) for the purposes of K-NPR. There is zero K-TCD to this *client*.

In this example, the $OFR = 780 \times 8\% = 62.4$

- (3) To calculate the *OFRE*:

$$OFRE = OFR/EV * EVE = 62.4/780 \times 530 = 42.4$$

- (4) As the excess has persisted for more than 10 *business days*, the *CON own funds requirement* is calculated by apportioning the *OFRE* in accordance with the relevant *EVE* tranche in Table 2, multiplying each part of the *OFRE* by the applicable factor, and then adding the resulting amounts together:

Application of Table 2			
K-CON factor tranche as per Table 1	EVE split by tranche	OFRE allocated across K-CON tranche by EVE split	CON own funds requirement (OFRE × factor in Table 1)

Up to 40%	400	$400/530 \times 42.4 = 32$	$32 \times 200\% = 64$
40%-60%	130	$130/530 \times 42.4 = 10.4$	$10.4 \times 300\% = 31.2$
Total:	530	42.4	95.2

- (5) The *CON own funds requirement* is the total amount in the last column, 95.2.

5.8 Procedures to prevent investment firms from avoiding the K-CON own funds requirement

- 5.8.1 R A *firm* must not deliberately avoid the *K-CON requirement* by:
- (1) undertaking artificial transactions to close out an exposure and create a new exposure; or
 - (2) temporarily transferring an exposure to another *undertaking*, whether within the same group or not.
- 5.8.2 R A *firm* must maintain systems which ensure that any closing out or transfer that is prohibited by *MIFIDPRU 5.8.1R* is immediately reported to the *FCA* in accordance with *SUP 15.7* (Form and method of notification).

5.9 The ‘hard’ limits on concentration risk

- 5.9.1 R
- (1) Whilst an exposure exceeding the *concentration risk soft limit* has persisted for 10 *business days* or less, a *firm’s EV* for the individual *client* or *group of connected clients* must not exceed 500% of the *firm’s own funds*.
 - (2) Whilst a *firm* has one or more exposures exceeding the *concentration risk soft limit* that have persisted for more than 10 *business days*, the aggregate *EVEs* for all such exposures must not exceed 600% of the *firm’s own funds*.
- 5.9.2 G
- (1) An exposure exceeding the *concentration risk soft limit* persists for as long as the overall exposure exceeds the *concentration risk soft limit*, irrespective of whether the constituent parts that make up that total exposure change over the duration of that total exposure.
 - (2) For the purpose of *MIFIDPRU 5.9.1R(2)*, the 600% limit applies to the aggregate of all individual *EVEs* for excesses that have persisted for more than 10 *business days*, irrespective of whether the individual concentrated exposures are connected to one another.

- (3) The 10 *business day* period referred to in *MIFIDPRU 5.9.1R* runs from the start of the *business day* on which the excess occurred.

5.9.3 R If a *firm* breaches the requirement in *MIFIDPRU 5.9.1R*, it must notify the *FCA* without delay of:

- (1) the amounts of the exposure or exposures which give rise to the breach;
- (2) the name or names of the *clients* concerned; and
- (3) any steps which the *firm* or any other *person* has taken or intends to take to rectify the breach and prevent any future potential occurrence.

5.9.4 R A *firm* must make the notification referred to in *MIFIDPRU 5.9.3R* using Part B of the form in *MIFIDPRU 5 Annex 1R*, and must submit it using the *online notification and application system*.

5.10 Exclusions

5.10.1 R The requirements in *MIFIDPRU 5.4* to *5.9* do not apply to the following exposures:

- (1) exposures which are entirely deducted from a *MIFIDPRU investment firm's own funds*;
- (2) exposures incurred in the ordinary course of the settlement of payment services, foreign currency transactions, securities transactions and the provision of money transmission;
- (3) exposures constituting claims against:
 - (a) central governments, central banks, public sector entities, international organisations or multilateral development banks and exposures guaranteed by or attributable to such *persons*, where those exposures would receive a 0% risk weight under articles 114 to 118 of the *UK CRR*;
 - (b) regional governments and *local authorities* of the *UK* or a *third country* which pose no difference in risk compared to a central government covered by (a); and
 - (c) *central counterparties* and default fund contributions to *central counterparties*;
- (4) exposures incurred by a *firm* to its *parent undertaking*, to other *subsidiaries* or *connected undertakings* of that *parent undertaking* or to its own *subsidiaries* or *connected undertakings*, insofar as those *undertakings* are supervised on a consolidated basis in accordance with *MIFIDPRU 2.5* or with *UK CRR*, are supervised for compliance with the *group capital test* in accordance with *MIFIDPRU 2.6*, or are

supervised in accordance with comparable standards in force in a *third country*, and provided that the following conditions are met:

- (a) there is no current or foreseen material practical or legal impediment to the prompt transfer of capital or repayment of liabilities; and
- (b) the risk evaluation, measurement and control procedures of the *parent undertaking* include the *firm* and any relevant *subsidiary* or *connected undertaking*.

5.11 Exemption for commodity and emission allowance dealers

5.11.1 R A *commodity and emission allowance dealer* is not required to comply with *MIFIDPRU* 5.2 to 5.10 where all of the following conditions are met:

- (1) the other counterparty is a non-financial counterparty;
- (2) both counterparties are subject to appropriate centralised risk evaluation, measurement and control procedures;
- (3) the transaction can be assessed as reducing risks directly relating to the commercial activity or treasury financing activity of the non-financial counterparty or of that group; and
- (4) the *firm* complies with *MIFIDPRU* 5.11.2R.

5.11.2 R

- (1) Before relying on the exemption in *MIFIDPRU* 5.11.1R, a *firm* must notify the *FCA*.
- (2) A *firm* must notify the *FCA* annually thereafter in order to continue to rely on the exemption in *MIFIDPRU* 5.11.1R.
- (3) The notification must explain how the *firm* expects to meet or continue to meet the conditions in *MIFIDPRU* 5.11.1R.
- (4) If there is a material change to the information provided in (1) or (2), a *firm* must notify the *FCA* without delay.
- (5) The notifications in (1), (2) and (4) must be made using the form in *MIFIDPRU* 5 Annex 2R, and must be submitted using the *online notification and application system*.

6 Basic liquid assets requirement

6.1 Application and purpose

- 6.1.1 R This chapter applies to:
- (1) a *MIFIDPRU investment firm*; and
 - (2) a *UK parent entity* that is required by *MIFIDPRU 2.5.11R* to comply with *MIFIDPRU 6* on the basis of its *consolidated situation*.
- 6.1.2 R Where this chapter applies on the basis of the *consolidated situation* of the *UK parent entity*, any reference to a “*firm*” or “*MIFIDPRU investment firm*” in this chapter is a reference to the hypothetical single *MIFIDPRU investment firm* created under the *consolidated situation*.
- 6.1.3 G *MIFIDPRU 2.5.47R* and *2.5.48G* contain additional *rules* and *guidance* on how a *UK parent entity* should apply the requirements in this chapter on a *consolidated basis*. A *UK parent entity* may apply for an exemption from the application of this chapter on a consolidated basis under *MIFIDPRU 2.5.19R*.

Purpose and interpretation

- 6.1.4 G This chapter contains:
- (1) a *basic liquid assets requirement* for *MIFIDPRU investment firms* (*MIFIDPRU 6.2*); and
 - (2) *rules* and *guidance* on which assets count as *core liquid assets* for the purposes of the *basic liquid assets requirement* (*MIFIDPRU 6.3*).
- 6.1.5 G
- (1) Where this chapter applies to a *MIFIDPRU investment firm* on a solo basis, the *firm* must comply with this chapter relying only on the *core liquid assets* it holds itself.
 - (2) However, the *FCA* recognises that there are circumstances in which it may be appropriate for a *firm* to rely on liquidity support provided by other entities within its group. Therefore, a *firm* that is subject to prudential consolidation may apply for an exemption from the application of this chapter on an individual basis under *MIFIDPRU 2.3.2R(1)*.
- 6.1.6 G *MIFIDPRU 7* contains requirements relating to a *MIFIDPRU investment firm's* systems and controls for the identification, monitoring and management of material potential harms that arise out of liquidity risk.
- 6.1.7 G The *basic liquid assets requirement* in this chapter is based on a proportion of a *firm's fixed overheads requirement* and any guarantees provided to

clients. A firm may need to hold more liquid assets to comply with its liquid assets threshold requirement under MIFIDPRU 7.

6.2 Basic liquid assets requirement

- 6.2.1 R A *firm* must hold an amount of *core liquid assets* equal to the sum of:
- (1) one third of the amount of its *fixed overhead requirement*; and
 - (2) 1.6% of the total amount of any guarantees provided to *clients*.
- 6.2.2 R Where a *firm* calculates a total amount for guarantees under *MIFIDPRU 6.2.1R(2)*, it must calculate:
- (1) the total value of guarantees that the *firm* has outstanding at the end of each *business day*; or
 - (2) an average value for the guarantees that the *firm* has had outstanding over an appropriate time period, which must be updated at regular, appropriate intervals.
- 6.2.3 G
- (1) *MIFIDPRU 6.2.2R(2)* is intended to allow a *firm* to smooth out its liquidity requirement for guarantees, where the value of its outstanding guarantees fluctuates on a daily basis.
 - (2) An appropriate time period for calculating and updating this amount is likely to be a period that produces an average value that is representative of the overall liquidity risk arising out of the provision of guarantees to *clients*.
- 6.2.4 G The approach in *MIFIDPRU 6.2.2R(2)* is illustrated by the following example:
- (1) a *firm* that executes orders on behalf of a *client* may guarantee the settlement of any resulting transactions between the *client* and a third party;
 - (2) in this case, it may be appropriate for the *firm* to use the principles for calculating *average COH* to calculate an average value for the guarantees that the *firm* has had outstanding over an appropriate time period;
 - (3) *average COH* is calculated as the arithmetic mean of historic daily *COH* values. The *firm* could use the arithmetic mean of historic daily values for outstanding guarantees to calculate its amount for guarantees;
 - (4) *average COH* is calculated by reference to the historic three-month period beginning six months ago (i.e. excluding the three most recent months). The *firm* could calculate its amount for guarantees by reference to the same time period, if this produces an average value

for guarantees that is representative of the overall liquidity risk in these guarantees; and

- (5) a *firm* could update this calculation monthly, in line with the requirement to update *average COH* in *MIFIDPRU 4*, if this produces a value that is representative of the overall liquidity risk.

6.3 Core liquid assets

6.3.1 R Subject to *MIFIDPRU 6.3.3R* to *6.3.5R*, a *core liquid asset* means any of the following, when denominated in pound sterling:

- (1) coins and banknotes;
- (2) short-term deposits at a *UK-authorised credit institution*;
- (3) assets representing claims on or guaranteed by the UK government or the Bank of England;
- (4) units or shares in a *short-term MMF*;
- (5) units or shares in a *third country* fund that is comparable to a *short-term MMF*; and
- (6) *trade receivables*, if the conditions in *MIFIDPRU 6.3.3R* are met.

6.3.2 G When assessing whether a *third country* fund is comparable to a *short-term MMF*, a *firm* should consider factors such as:

- (1) whether the restrictions on instruments eligible for inclusion in the fund are comparable to the restrictions on instruments in article 10(1) of the *Money Market Funds Regulation*; and
- (2) whether the fund is subject to requirements concerning portfolio diversification and risk management which are comparable to the requirements applicable to *short-term MMFs* in the *Money Market Funds Regulation*.

6.3.3 R A *firm* may treat *trade receivables* as *core liquid assets* if:

- (1) the *firm* is:
 - (a) an *SNI MIFIDPRU investment firm*; or
 - (b) a *MIFIDPRU investment firm* that does not have permission to carry on:
 - (i) *dealing on own account*; or
 - (ii) underwriting of *financial instruments* and/or placing of *financial instruments* on a firm commitment basis;
- (2) they are receivable within 30 days;

- (3) they account for no more than one third of the requirement based upon the *fixed overheads requirement* in *MIFIDPRU* 6.2.1R(1);
 - (4) they are not used to meet the requirement for guarantees in *MIFIDPRU* 6.2.1R(2); and
 - (5) they are subject to a minimum haircut of 50%.
- 6.3.4 R (1) If a *firm's relevant expenditure* or guarantees are incurred in a currency other than pound sterling, the *firm* may also treat the following assets as *liquid assets*, when denominated in that currency:
- (a) coins and banknotes;
 - (b) short-term deposits at a *credit institution*;
 - (c) assets representing claims on or guaranteed by a central bank or government in a *third country*;
 - (d) units or shares in a *short-term MMF*;
 - (e) units or shares in a *third country* fund that is comparable to a *short-term MMF*; and
 - (f) *trade receivables*, if the conditions in *MIFIDPRU* 6.3.3R are met.
- (2) The assets in (1) must not account for more than the proportion of fixed overheads or guarantees that the *firm* incurs in that currency.
- (3) This *rule* is subject to *MIFIDPRU* 6.3.5R.
- 6.3.5 R A *firm* must not treat any of the following as a *core liquid asset*:
- (1) any asset that belongs to a *client*; and
 - (2) any other asset that is encumbered.
- 6.3.6 G (1) For the purposes of *MIFIDPRU* 6.3.5R(1), an asset may belong to a *client* even if the asset is held in the *firm's* own name. Examples of assets belonging to a *client* include money or other assets held under the *FCA's client asset rules*.
- (2) For the purposes of *MIFIDPRU* 6.3.5R(2), an asset may be encumbered if it is pledged as security or collateral, or subject to some other legal restriction (for example, due to regulatory or contractual requirements) which affects the *firm's* ability to liquidate, sell, transfer, or assign the asset.

7 Governance and risk management

7.1 Application

- 7.1.1 G (1) *MIFIDPRU 7* applies to the following:
- (a) a *MIFIDPRU investment firm*;
 - (b) a *UK parent entity* of an *investment firm group* to which consolidation applies under *MIFIDPRU 2.5*; and
 - (c) a *parent undertaking* that operates a *group ICARA process* in accordance with *MIFIDPRU 7.9.5R*.
- (2) *MIFIDPRU 7.1.3R* explains how each section of *MIFIDPRU 7* applies to the undertakings in (1).
- 7.1.2 G The following table summarises the content of *MIFIDPRU 7*:

- 7.1.4 R (1) *MIFIDPRU 7.3 (Risk, remuneration and nomination committees)* does not apply to a *non-SNI MIFIDPRU investment firm*:

- (a) where the value of the *firm's* on-balance sheet assets and *off-balance sheet items* over the preceding 4-year period is a rolling average of £100 million or less; or
 - (b) where:
 - (i) the value of the *firm's* on-balance sheet assets and *off-balance sheet items* over the preceding 4-year period is a rolling average of £300 million or less; and
 - (ii) the conditions in (2) are (where they are relevant to a *firm*) satisfied.
 - (2) The conditions referred to in (1)(b)(ii) are that the:
 - (a) exposure value of the *firm's* on- and off-balance sheet *trading book* business is equal to or less than £150 million; and
 - (b) exposure value of the *firm's* on- and off-balance sheet derivatives business is equal to or less than £100 million.
 - (3) For the purposes of paragraph (1), paragraph (4) applies where a *non-SNI MIFIDPRU investment firm* does not have monthly data covering the 4-year period referred to in that paragraph.
 - (4) Where this paragraph applies, a *non-SNI MIFIDPRU investment firm* must calculate the rolling averages referred to in paragraph (2) using the data points that it does have.
- 7.1.5 G (1) For the purposes of *MIFIDPRU* 7.1.4R(3), the *FCA* expects a *non-SNI MIFIDPRU investment firm* to have insufficient data for a period only where it did not carry on any *MiFID business* during that period, or where (for periods prior to the application of *MIFIDPRU*) the firm did not record the relevant data on a monthly basis.
- (2) Where a *firm* does not have all the monthly data points, the *firm* should use the data points it has in the way that paints the most representative picture of the period in question. For example, if a firm has monthly data for 2 years of the 4-year period, but prior to that only recorded the relevant data on a quarterly basis, the firm could sensibly calculate its rolling average by using the quarterly figure for each of the three monthly data points in each quarter.
- 7.1.6 R (1) The amounts referred to in *MIFIDPRU* 7.1.4R must be calculated on an individual basis, and:
- (a) in the case of on-balance sheet assets, in accordance with the applicable accounting framework;

- (b) in the case of *off-balance sheet items*, using the full nominal value.
 - (2) The value of the on-balance sheet assets and *off-balance sheet items* in *MIFIDPRU* 7.1.4R(1)(a) and (b) must be the arithmetic mean of the assets and items over the preceding 4 years, based on monthly data points.
 - (3) A *firm* may choose the *day* of the *month* that it uses for the data points in (2), but once that day has been chosen the *firm* may only change it for genuine business reasons.
- 7.1.7 R
- (1) When calculating the amounts referred to in *MIFIDPRU* 7.1.4R(1)(a) and (b), a *firm* must use the total amount of its on-balance sheet assets and *off-balance sheet items*.
 - (2) A *firm* must calculate the exposure values referred to in *MIFIDPRU* 7.1.4R(2)(a) and (b) by adding together the following items:
 - (a) the positive excess of the *firm's* long positions over its short positions in all *trading book financial instruments*, using the approach specified for K-NPR in *MIFIDPRU* 4.12.2R to calculate the net position for each instrument; and
 - (b) the exposure value of contracts and transactions referred to in *MIFIDPRU* 4.14.3R, calculated using the approach specified for K-TCD in *MIFIDPRU* 4.14.8R.
 - (3) Any amounts in foreign currencies must be converted into sterling using the relevant conversion rate.
 - (4) A *firm* must determine the conversion rate in (3) by reference to an appropriate market rate and must record which rate was chosen.
- 7.1.8 G
- An example of an appropriate market rate for the purposes of *MIFIDPRU* 7.1.7R(4) is the relevant daily spot exchange rate against sterling published by the Bank of England.
- 7.1.9 R
- (1) This *rule* applies to a *non-SNI MIFIDPRU investment firm* that did not meet the conditions in *MIFIDPRU* 7.1.4R(1)(a) or (b) but subsequently does.
 - (2) *MIFIDPRU* 7.3 (Risk, remuneration and nomination committees) ceases to apply to the *firm* in (1) if:
 - (a) the *firm* has met the conditions in *MIFIDPRU* 7.1.4R(1)(a) or (b) for a continuous period of at least 6 *months* (or such longer period as may have elapsed before the *firm* submits the notification in (b)); and

- (b) the *firm* has notified the *FCA* that it has met the conditions in (a).
- (3) The notification in (2)(b) must be submitted through the *online notification and application system* using the form in *MIFIDPRU 7Annex 3R*.
- 7.1.10 G The effect of *MIFIDPRU 7.1.9R(2)(a)* is that a *firm* may move between meeting the conditions in *MIFIDPRU 7.1.4R(3)(a)* and (b) during the 6-month period.
- 7.1.11 R Where a *non-SNI MIFIDPRU investment firm* has met the conditions in *MIFIDPRU 7.1.4R(1)(a)* or (b) but then ceases to do so, it must comply with *MIFIDPRU 7.3* within 6 months from the date on which the *firm* ceased to meet the conditions.
- 7.1.12 R (1) Where a *non-SNI MIFIDPRU investment firm* ceases to meet the conditions in *MIFIDPRU 7.1.4R(1)(a)* or (b), it must promptly notify the *FCA*.
- (2) The notification in (1) must be submitted through the *online notification and application system* using the form in *MIFIDPRU 7 Annex 3R*.
- 7.1.13 G Where a *firm* ceases to meet the conditions in *MIFIDPRU 7.1.4R(1)(a)* or (b), but subsequently meets the conditions again within a period of 6 months, the *firm* will still be subject to *MIFIDPRU 7.3* 6 months after the date on which it first ceased to meet the conditions. The *firm* will only cease to be subject to *MIFIDPRU 7.3* where it meets the conditions in *MIFIDPRU 7.1.9R*.

7.2 Senior management and systems and controls

Internal governance

- 7.2.1 R (1) A *MIFIDPRU investment firm* must have robust governance arrangements, including:
- (a) a clear organisational structure with well defined, transparent and consistent lines of responsibility;
- (b) effective processes to identify, manage, monitor and report the risks the *firm* is or might be exposed to, or the *firm* poses or might pose to others; and
- (c) adequate internal control mechanisms, including sound administration and accounting procedures.
- (2) The arrangements in (1) must:

- (a) be appropriate and proportionate to the nature, scale and complexity of the risks inherent in the business model and the activities of the *firm*; and
- (b) be compatible with the requirements in the *FCA Handbook* relating to risk management and internal governance, for example those in *MIFIDPRU 7* and *SYSC*, that apply to the *firm*.

- 7.2.2 G When establishing and maintaining the arrangements in *MIFIDPRU 7.2.1R(1)*, a *firm* should consider at least the following:
- (1) the requirements that apply to the *firm* under *MIFIDPRU 7* and *SYSC 19G* (MIFIDPRU Remuneration Code);
 - (2) the legal structure of the *firm*, including its ownership and funding structure;
 - (3) whether the *firm* is part of a *group*;
 - (4) the type of activities for which the *firm* is authorised, including the complexity and volume of those activities;
 - (5) the business model and strategy of the *firm*, including its risk strategy, risk appetite and risk profile;
 - (6) the types of client the *firm* has;
 - (7) the outsourced functions and distribution channels of the *firm*; and
 - (8) the *firm's* existing IT systems, including continuity systems.

7.3 Risk, remuneration and nomination committees

Risk committee

- 7.3.1 R
- (1) Subject to (2), a *non-SNI MIFIDPRU investment firm* to which this *rule* applies must establish a risk committee.
 - (2) Subject to (3), a *firm* must ensure that:
 - (a) at least 50% of the members of the risk committee are members of the *management body* who do not perform any executive function in the *firm*; and
 - (b) the chair of the risk committee is a member of the *management body* who does not perform any executive function in the *firm*.
 - (3) The requirements in (2) do not apply to a *firm* that, solely because of its legal structure, cannot have members of the *management body* who do not perform any executive function in the *firm*.

- (4) Members of the risk committee must have the appropriate knowledge, skills and expertise to fully understand, manage and monitor the risk strategy and the risk appetite of the *firm*.
 - (5) The risk committee must advise the *management body* on the *firm's* overall current and future risk appetite and strategy and assist the *management body* in overseeing the implementation of that strategy by *senior management*.
 - (6) Notwithstanding the role of the risk committee, the *management body* of a *firm* has overall responsibility for the *firm's* risk strategies and policies.
- 7.3.2 G
- (1) *MIFIDPRU* 7.3.1R(2) only applies to *firms* that are required to establish a risk committee under *MIFIDPRU* 7.3.1R(1).
 - (2) The chair may be included for the purposes of calculating the 50% referred to in *MIFIDPRU* 7.3.1R(2)(a).
 - (3) Where a *firm* has established a risk committee, its responsibilities should typically include:
 - (a) providing advice to the *firm's management body* on risk strategy, including the oversight of current risk exposures of the *firm*, with particular, but not exclusive, emphasis on prudential risks;
 - (b) developing proposals for consideration by the *management body* in respect of overall risk appetite and tolerance, as well as the metrics to be used to monitor the *firm's* risk management performance;
 - (c) overseeing and challenging the design and execution of stress and scenario testing;
 - (d) overseeing and challenging the day-to-day risk management and the executive's oversight arrangements;
 - (e) overseeing and challenging due diligence on risk issues relating to material transactions and strategic proposals that are subject to approval by the *management body*;
 - (f) providing advice to the *firm's remuneration* committee, as appropriate, in relation to the development, implementation and review of remuneration policies and practices that are consistent with, and promote, effective risk management;
 - (g) providing advice, oversight and challenge necessary to embed and maintain a supportive risk culture throughout the *firm*.

Remuneration committee

- 7.3.3 R (1) Subject to (2), a *non-SNI MIFIDPRU investment firm* to which this rule applies must establish a *remuneration* committee.
- (2) The obligation in (1) will be deemed to be satisfied where:
- (a) the *non-SNI MIFIDPRU investment firm* is part of an *investment firm group* that is subject to prudential consolidation in accordance with *MIFIDPRU 2.5*; and
 - (b) the *UK parent entity* has established a *remuneration* committee that:
 - (i) meets the requirements of *MIFIDPRU 7.3.3R(3)* (read in conjunction with *MIFIDPRU 7.3.3R(4)*);
 - (ii) has the power to comply with those obligations on behalf of the *non-SNI MIFIDPRU investment firm*; and
 - (iii) has members with the appropriate knowledge, skills and expertise in relation to the *non-SNI MIFIDPRU investment firm*.
- (3) Subject to (4), a *firm* must ensure that:
- (a) at least 50% of the members of the *remuneration* committee are members of the *management body* who do not perform any executive function in the *firm*; and
 - (b) the chair of the *remuneration* committee is a member of the *management body* who does not perform any executive function in the *firm*.
- (4) The requirements in (3) do not apply to a *firm* that, solely because of its legal structure, cannot have members of the *management body* who do not perform any executive function in the *firm*.
- (5) A *firm* must ensure that the *remuneration* committee is constituted in a way that enables it to exercise competent and independent judgment on *remuneration* policies and practices and the incentives created for managing risk, capital and liquidity.
- (6) The *remuneration* committee must be responsible for preparing decisions regarding *remuneration*, including decisions which have implications for the risk and risk management of the *firm* and which are to be taken by the *management body*.
- (7) When preparing the decisions, the *remuneration* committee must take into account the public interest and the long-term interests of shareholders, investors and other stakeholders in the *firm*.

- 7.3.4 G (1) *MIFIDPRU 7.3.3R(3)* only applies to *firms* that are required to establish a *remuneration* committee under *MIFIDPRU 7.3.3R(1)*.
- (2) The chair may be included for the purposes of calculating the 50% referred to in *MIFIDPRU 7.3.3R(3)(a)*.

Nomination committee

- 7.3.5 R (1) A *non-SNI MIFIDPRU investment firm* to which this *rule* applies must establish a nomination committee.
- (2) Subject to (3), a *firm* must ensure that:
- (a) at least 50% of the members of the nomination committee are members of the *management body* who do not perform any executive function in the *firm*; and
- (b) the chair of the nomination committee is a member of the *management body* who does not perform any executive function in the *firm*.
- (3) The requirements in (2) do not apply to a *firm* that, solely because of its legal structure, cannot have members of the *management body* who do not perform any executive function in the *firm*.
- (4) A *firm* must ensure that the nomination committee:
- (a) is able to use any forms of resources the nomination committee deems appropriate, including external advice; and
- (b) receives appropriate funding.

- 7.3.6 G (1) *MIFIDPRU 7.3.5R(2)* only applies to *firms* that are required to establish a nomination committee under *MIFIDPRU 7.3.5R(1)*.
- (2) The chair may be included for the purposes of calculating the 50% referred to in *MIFIDPRU 7.3.5R(2)(a)*.

Establishing committees at group level

- 7.3.7 G (1) A *firm* may apply to the *FCA* for a modification under section 138A of the *Act* to permit the *firm* to establish a risk committee, remuneration committee, or nomination committee at *group* level instead of complying with the requirement on an individual basis.
- (2) The *FCA* may grant a modification under section 138A of the *Act* if:
- (a) compliance by the *firm* with the requirement to establish a committee on an individual basis would be unduly

burdensome or would not achieve the purpose for which the *rules* were made; and

- (b) granting the modification would not adversely affect the advancement of any of the *FCA*'s objectives.
- (3) To be satisfied that granting the modification would not affect the advancement of any of the *FCA*'s objectives under (2)(b), the *FCA* would normally expect the *firm* to demonstrate that the committee established at *group* level:
 - (a) meets the composition requirements in *MIFIDPRU* 7.3.1R(2), *MIFIDPRU* 7.3.3R(3) or *MIFIDPRU* 7.3.5R(2), as applicable; and
 - (b) has members with the appropriate knowledge, skills and expertise in relation to the *firm* subject to the requirement to establish a committee.

7.4 Internal capital adequacy and risk assessment (ICARA) process: overview and baseline obligations

7.4.1 R This section applies to a *MIFIDPRU investment firm*.

Purpose

7.4.2 G *MIFIDPRU* 7.4 to *MIFIDPRU* 7.9 contain *rules* and *guidance* which supplement the overarching requirements for *MIFIDPRU investment firms* under:

- (1) the appropriate resources *threshold condition* in Schedule 6 to the *Act* (as explained in *COND* 2.4) under which a *firm* must have appropriate resources in relation to the *regulated activities* that it carries on; and
- (2) *Principle* 4 (Financial prudence) under which a *firm* must maintain adequate financial resources.

7.4.3 G (1) The overall purpose of the *rules* in *MIFIDPRU* 7.4 to *MIFIDPRU* 7.9, together with the other requirements in *MIFIDPRU*, is to ensure that a *MIFIDPRU investment firm*:

- (a) has appropriate systems and controls in place to identify, monitor and, where proportionate, reduce all potential material harms that may result from the ongoing operation of its business or winding down its business; and
- (b) holds financial resources that are adequate for the business it undertakes.
- (2) The requirement for adequate financial resources is designed to achieve 2 key outcomes for *MIFIDPRU investment firms*:

- (a) to enable a *firm* to remain financially viable throughout the economic cycle, with the ability to address any potential material harms that may result from its ongoing activities (including both *regulated activities* and *unregulated activities*); and
 - (b) to enable the *firm* to conduct an orderly wind-down while minimising harm to *consumers* or to other market participants, and without threatening the integrity of the wider *UK* financial system.
- (3) The *rules* and *guidance* in *MIFIDPRU 7.4* to *MIFIDPRU 7.9* build on the *FCA*'s general approach to assessing the adequacy of financial resources explained in Finalised Guidance FG20/1. *Firms* should also refer to that *guidance* when considering their obligations under those sections of *MIFIDPRU*.

7.4.4 G The *FCA* recognises that:

- (1) there is a vast range of potential harms and it will not be possible for the *FCA* or *firms* to eliminate all potential risks and sources of harm;
- (2) the *FCA* and *firms* should focus on material harms, adopting a proportionate and risk-based approach to each *firm*'s business and operating model; and
- (3) some *firms* may still fail, but the *FCA* and *firms* should aim to ensure that any wind-down of those *firms* occurs in an orderly manner, minimising the impact on *consumers* and the wider market.

Proportionality and application to different business models

7.4.5 G Although all *MIFIDPRU investment firms* are subject to the appropriate resources *threshold condition* and *Principle 4*, the practical steps that a *firm* must take to meet these requirements will vary according to the *firm*'s business model and operating model. Therefore, a *firm* with a more complex business or operating model should generally take a more detailed approach to the monitoring and management of a wider range of potential harms than a smaller *firm* carrying on simpler activities.

7.4.6 G *MIFIDPRU 7.4* to *MIFIDPRU 7.8* contain a set of core requirements that every *MIFIDPRU investment firm* should incorporate into its *ICARA process*. This does not mean that the manner in which each *firm* implements these core requirements will be identical. When considering the appropriate way to satisfy these core requirements, a *firm* should focus on the potential material harms that may arise:

- (1) from the ongoing operation of its business; and

- (2) during a wind-down of its business.

Overall financial adequacy rule

- 7.4.7 R (1) A *firm* must, at all times, hold *own funds* and *liquid assets* which are adequate, both as to their amount and their quality, to ensure that:
- (a) the *firm* is able to remain financially viable throughout the economic cycle, with the ability to address any material potential harm that may result from its ongoing activities; and
 - (b) the *firm's* business can be wound down in an orderly manner, minimising harm to *consumers* or to other market participants.
- (2) The requirement in (1) is known as the *overall financial adequacy rule*.
- 7.4.8 G (1) The *overall financial adequacy rule* establishes the standard that the *FCA* applies to determine whether a *MIFIDPRU investment firm* has adequate financial resources. The amount and quality of *own funds* and *liquid assets* that each *firm* must hold will vary according to its business model and operating model, the environment in which it operates and the nature of its internal systems and controls.
- (2) The remainder of this section explains the basic requirements of the *ICARA process*. The *ICARA process* is the collective term for the internal systems and controls that a *firm* must operate to identify and manage potential material harms that may arise from the operation of its business, and to ensure that its operations can be wound down in an orderly manner.
- (3) A *firm* should use the *ICARA process* to identify whether it complies with the *overall financial adequacy rule*. The focus of the *ICARA process* is on identifying and managing risks that may result in material harms. Depending on the nature of the potential harms identified, the only realistic option to manage them and to comply with the *overall financial adequacy rule* may be to hold additional *own funds* or additional *liquid assets* above the *firm's own funds requirement* or *basic liquid assets requirement*. However, in other cases, there may be more appropriate or effective ways to manage the potential harms. *MIFIDPRU 7.4.16G* contains further *guidance* on reducing the risk of material potential harms.
- (4) *MIFIDPRU 7.6* contains *rules* and *guidance* about how a *firm* should use the *ICARA process* to assess the *own funds* that the *firm* requires to comply with the *overall financial adequacy rule*.

- (5) *MIFIDPRU 7.7* contains *rules* and *guidance* about how a *firm* should use the *ICARA process* to assess the *liquid assets* that the *firm* requires to comply with the *overall financial adequacy rule*.
- (6) *MIFIDPRU 7.10* contains *guidance* on how the *FCA* will normally conduct a *SREP* on a *firm's ICARA process* or may conduct a thematic review of a sector in which multiple *firms* are active. Where the *FCA* considers that the *firm's ICARA process* has not adequately identified and managed the risks of material harm, the *FCA* may require the *firm* to take corrective action. In appropriate cases, this may include requiring the *firm* to hold additional *own funds* or *liquid assets* to ensure that the *firm* is complying with the *overall financial adequacy rule*. The *FCA* may also take supervisory action in connection with the prudential requirements of a *MIFIDPRU investment firm* outside the context of a *SREP*. Where the *FCA* has conducted a sectoral review, it may impose additional requirements on some or all *firms* that are active in the relevant sector.

ICARA process: baseline obligations

- 7.4.9 R (1) A *firm* must have in place appropriate systems and controls to identify, monitor and, if proportionate, reduce all material potential harms:
- (a) that the ongoing operation of the *firm's* business may cause to:
 - (i) the *firm's clients* and counterparties;
 - (ii) the markets in which the *firm* operates; and
 - (iii) the *firm* itself; and
 - (b) that may result from winding down the *firm's* business, to ensure that the *firm* can be wound down in an orderly manner.
- (2) If any material potential harms remain after a *firm* has implemented the systems and controls in (1), the *firm* must assess whether to:
- (a) hold additional *own funds* to address the harms in accordance with *MIFIDPRU 7.6.2R*; and
 - (b) hold additional *liquid assets* to address the harms in accordance with *MIFIDPRU 7.7.2R*.
- (3) The requirements in this *rule* apply to a *firm's* entire business, including:

- (a) all *regulated activities*, irrespective of whether they are *MiFID business*; and
 - (b) any *unregulated activities*.
 - (4) The systems, controls and procedures operated by a *firm* to comply with the requirements in this *rule* are known as the *ICARA process*.
- 7.4.10 R A *firm's ICARA process* must be proportionate to the nature, scale and complexity of the business carried on by the *firm*.
- 7.4.11 R A *firm* must ensure that its *ICARA process* complies with the requirements in *MIFIDPRU 7.4* to *MIFIDPRU 7.8* in a consistent and coherent manner.
- 7.4.12 G
- (1) *MIFIDPRU 7.4.11R* requires a *firm* to ensure that the inputs to, analyses applied by, and conclusions arising from, its *ICARA process* are properly linked and reflect a consistent and coherent analysis of the *firm's* business and operating model.
 - (2) The following are examples of the consistency and coherence required by the *ICARA process*:
 - (a) the potential material harms that the *firm* identifies under *MIFIDPRU 7.4.13R* are consistent with the *firm's* articulation of its business model and strategy under *MIFIDPRU 7.5.2R(1)* and with the *firm's* stated risk appetite under *MIFIDPRU 7.5.2R(2)*;
 - (b) the *firm's* analysis under *MIFIDPRU 7.5.2R(4)* of the *own funds* and *liquid assets* that are necessary to comply with the *overall financial adequacy rule* is consistent with:
 - (i) the potential impact of the potential material harms that the *firm* identifies under *MIFIDPRU 7.4.13R*;
 - (ii) the *firm's* projections of its future requirements under *MIFIDPRU 7.5.2R(4)*; and
 - (iii) the impact of the stressed scenarios that the *firm* has identified under *MIFIDPRU 7.5.2R(5)*;
 - (c) the potential recovery actions specified by the *firm* under *MIFIDPRU 7.5.5R(2)* are consistent with the *firm's* projections of its future requirements under *MIFIDPRU 7.5.2R(4)* and the potential stressed scenarios that the *firm* has identified under *MIFIDPRU 7.5.2R(5)*;
 - (d) the *firm's* wind-down planning under *MIFIDPRU 7.5.7R* is consistent with the levels of *own funds* and *liquid assets* that the *firm* has assessed would be necessary to wind-down the *firm* for the purposes of the *overall financial adequacy rule* and with the *firm's* assessment of the

potential harms that might result from winding down its business under *MIFIDPRU* 7.4.13R; and

- (e) the *firm's* wind-down planning is consistent with the potential recovery actions specified by the *firm* under *MIFIDPRU* 7.5.5R(2) and the circumstances in which the *firm* has concluded that no further recovery actions would be feasible or desirable.

ICARA process: identifying harms

- 7.4.13 R As part of its *ICARA process*, a *firm* must assess its business model and identify all material harms that could result from:
- (1) the ongoing operation of the *firm's* business; and
 - (2) the winding-down of the *firm's* business.
- 7.4.14 G When assessing potential material harms for the purpose of *MIFIDPRU* 7.4.13R, the *FCA* considers that the following non-exhaustive list of considerations will be relevant:
- (1) the level of detail required in the assessment is likely to vary depending on the complexity of the business and operating model. More complex business and operating models are likely to involve a wider range of potential material harms and so will generally require a more detailed assessment;
 - (2) the obligation under *MIFIDPRU* 7.4.13R is to identify all material harms that could result from the *firm's* business, even if those harms can be appropriately mitigated. It is important that a *firm* starts by identifying all potential material harms that could arise from its business and operating model. The issue of how the identified harms can be mitigated should be considered separately, including assessing under *MIFIDPRU* 7.6 and 7.7 whether the *firm* should hold additional *own funds* and *liquid assets*;
 - (3) the potential for harm may evolve throughout the course of an economic cycle. Therefore, the assessment should consider how the risk of harm may develop in the future, rather than simply performing a static assessment based on current economic circumstances;
 - (4) risks to the *firm* itself may result in an increased risk of harm to the *firm's clients* or counterparties and therefore should form part of the assessment. For example, if the *firm* is affected by a significant disruption or suffers a significant loss, this may prevent the *firm* from providing important services to *clients* or from being able to meet its liabilities to counterparties. Significant and unexpected financial losses sustained by a *firm* may also decrease the financial resources available to the *firm* to address other potential harms and

may increase the risk of disorderly wind-down and sudden disruption of services to the *firm's clients*; and

- (5) *firms* should refer to the guidance in Finalised Guidance FG20/1 on “Identifying and assessing the risk of harm” when assessing the impact of potential harms.
- 7.4.15 G (1) *MIFIDPRU 7* Annex 1 contains additional *guidance* on identifying potential material harms that are relevant to the business models of most *firms*.
- (2) *MIFIDPRU 7* Annex 2 contains additional *guidance* on identifying potential material harms that are likely to be relevant to *firms* that *deal on own account* or hold significant investments on their balance sheets. This *guidance* is intended to apply in addition to the general *guidance* in *MIFIDPRU 7* Annex 1.
- (3) The *FCA* may issue further *guidance* or publish additional information to reflect its observations of how *firms* are implementing the *ICARA process* or to take into account developments in relation to particular products or sectors. *Firms* should consider any additional *guidance* or information that the *FCA* has published when applying the requirements in this section.

ICARA process: risk mitigation

- 7.4.16 G (1) The *ICARA process* is an internal risk management process that a *MIFIDPRU investment firm* must operate on an ongoing basis. As part of that process, a *firm* should consider whether the risk of material potential harms can be reduced through proportionate measures (other than holding additional financial resources) and, if so, whether it is appropriate to implement the measures. The nature of any potential measures will vary depending on the *firm's* business and operating model. Examples may include implementing additional internal systems and controls, strengthening governance and oversight processes or changing the manner in which the *firm* conducts certain business. A *firm* will need to form a judgement about what is appropriate and proportionate for its particular circumstances. That judgement will be informed by the *firm's* risk appetite.
- (2) A *firm* must assess whether it should hold additional *own funds* or additional *liquid assets* to mitigate any material potential harms that it has identified. This may be the case where the *firm* cannot identify other appropriate, proportionate measures to mitigate harms, or where it has applied these measures, but a residual risk of material harm remains. Any assessment must be realistic and based on severe but plausible assumptions.

7.5 ICARA process: capital and liquidity planning, stress testing, wind-down planning and recovery planning

7.5.1 R This section applies to a *MIFIDPRU investment firm*.

Business model assessment and capital and liquidity planning

7.5.2 R As part of its *ICARA process*, a *firm* must:

- (1) have a clearly articulated business model and strategy;
- (2) have a clearly articulated risk appetite that is consistent with the business model and strategy identified under (1);
- (3) identify any material risks of misalignment between the *firm's* business model and operating model and the interests of its *clients* and the wider financial markets, and evaluate whether those risks have been adequately mitigated;
- (4) consider on a forward-looking basis the *own funds* and *liquid assets* that will be required to meet the *overall financial adequacy rule*, taking into account any planned future growth; and
- (5) consider relevant severe but plausible stresses that could affect the *firm's* business and consider whether the *firm* would still have sufficient *own funds* and *liquid assets* to meet the *overall financial adequacy rule*.

Stress testing and reverse stress testing requirement

7.5.3 G *MIFIDPRU 7.5.2R(5)* requires a *firm* to use stress testing to identify whether it holds sufficient *own funds* and *liquid assets*. *Firms* should refer to Finalised Guidance FG20/1 for specific guidance on the *FCA's* expectations in relation to stress testing.

7.5.4 G

- (1) As part of their business model assessment and capital and liquidity planning under *MIFIDPRU 7.5.2R*, *firms* with more complex businesses or operating models should also undertake:
 - (a) more in-depth stress testing of their business model and strategy; and
 - (b) reverse stress testing.
- (2) *Firms* should refer to *MIFIDPRU 7 Annex 1.15G* to *MIFIDPRU 7 Annex 1.20G* for additional information about the *FCA's* expectations in relation to more in-depth stress testing and reverse stress testing.
- (3) The *FCA* may request individual *firms* to carry out more in-depth stress testing or reverse stress testing. In appropriate cases, the *FCA* will consider whether it is necessary or desirable to impose a *requirement* on a *firm* to carry out such stress testing. This may involve inviting a *firm* to apply for the voluntary imposition of a *requirement* under section 55L(5) of the *Act* or the *FCA* imposing a

requirement on the *FCA's* own initiative under section 55L(3) of the *Act*.

Recovery actions

- 7.5.5 R As part of its *ICARA process*, a *firm* must identify:
- (1) levels of *own funds* and *liquid assets* that the *firm* considers, if reached, may indicate that there is a credible risk that the *firm* will breach its *threshold requirements*; and
 - (2) potential recovery actions that the *firm* would expect to take:
 - (a) to avoid a breach of the *firm's threshold requirements* where the *firm's own funds* or *liquid assets* fall below the levels identified in (1); and
 - (b) to restore compliance with its *threshold requirements* if the *firm* were to breach its *threshold requirements* during a period of financial difficulty.
- 7.5.6 G (1) When a *firm* is considering potential recovery actions that the *firm* may take for the purposes of *MIFIDPRU 7.5.5R*, it should consider at least the following:
- (a) the governance arrangements of the *firm*, and in particular which *individuals* will be responsible for taking the relevant decisions within the required timeframe;
 - (b) the key business lines operated by the *firm* and the critical functions that the *firm* will need to maintain, and the steps necessary to ensure that these can continue to operate;
 - (c) the level of *own funds* and *liquid assets* that the *firm* is likely to need to restore compliance with the *threshold requirements*;
 - (d) the options available to the *firm* to raise additional *own funds* or *liquid assets*;
 - (e) the options available to the *firm* to conserve existing *own funds* or *liquid assets*;
 - (f) any significant risks that may arise in connection with proposed recovery actions; and
 - (g) any material impediments that may exist to implementing proposed recovery actions and whether these can be resolved or mitigated.
- (2) A *firm* should adopt a proportionate approach to identifying potential recovery actions, taking into account the nature, scale and complexity of the *firm's* business and operating model. The actions

that the *firm* proposes must be credible and justifiable, taking into account the circumstances in which the actions may be likely to be required.

Wind-down planning and wind-down triggers

- 7.5.7 R As part of its *ICARA process*, a *firm* must:
- (1) identify the steps and resources that would be required to ensure the orderly wind-down and termination of the *firm's* business in a realistic timescale; and
 - (2) evaluate the potential harms arising from winding down the *firm's* business and identify how to mitigate them.
- 7.5.8 G When carrying out a wind-down planning assessment under *MIFIDPRU 7.5.7R* and determining the timeline and any required actions, a *firm* should refer to the guidance in the *FCA's* Wind-Down Planning Guide and in Finalised Guidance FG20/1.
- 7.5.9 R
- (1) A *firm* must use its wind-down analysis under *MIFIDPRU 7.5.7R* to assess the amount of *own funds* and *liquid assets* that would be required to ensure an orderly wind-down of its business for the purposes of the *overall financial adequacy rule*.
 - (2) The *firm's* assessment in (1) must not result in amounts that are lower than:
 - (a) in the case of *own funds*, the *firm's* *fixed overheads requirement*; and
 - (b) in the case of *liquid assets*, the *firm's* *basic liquid assets requirement*.
- 7.5.10 G
- (1) The *overall financial adequacy rule* requires a *MIFIDPRU investment firm* to hold sufficient *own funds* and *liquid assets* to ensure that it can wind-down its business in an orderly manner (as well as operate its business on an ongoing basis). *MIFIDPRU 7.5.9R* requires a *firm* to use its wind-down analysis to assess the appropriate level of *own funds* and *liquid assets* for these purposes.
 - (2) A *firm's* assessment of the amounts that it needs to hold under the *overall financial adequacy rule* to ensure that it can be wound down in an orderly manner must never be lower than its *wind-down triggers*. The *firm* may conclude that it requires amounts that are higher than these minimum amounts to ensure an orderly wind-down.
 - (3) In appropriate cases, the *FCA* may consider that either or both of a *firm's* *wind-down triggers* should be set at a higher level. In this case, the *FCA* may invite a *firm* to apply for a *requirement* under section 55L(5) of the *Act*, or may impose a *requirement* on the

FCA's own initiative under section 55L(3) of the Act, for the firm to use an alternative wind-down trigger.

- (4) If the *firm's own funds* fall below the *own funds wind-down trigger* or if the *firm's liquid assets* fall below the *liquid assets wind-down trigger*, the *FCA* would normally expect that the *firm* would commence winding down, unless the *firm's governing body* has determined that there is an imminent and credible likelihood of recovery. The supervisory actions that the *FCA* may take in these circumstances are explained in further detail in *MIFIDPRU 7.6* in relation to the *own funds wind-down trigger* and *MIFIDPRU 7.7* in relation to the *liquid assets wind-down trigger*.
- (5) Where a *firm's own funds* or *liquid assets* fall below the level that is required to ensure an orderly wind-down of the *firm*, the *firm* will breach the *overall financial adequacy rule*. However, as explained further in *MIFIDPRU 7.6* in relation to *own funds* and *MIFIDPRU 7.7* in relation to *liquid assets*, this does not mean that a *firm* must commence winding down immediately. It is only when the *firm* breaches one or both of the *wind-down triggers* that there is a general presumption that the *firm* should wind-down. Where the *firm* has breached the *overall financial adequacy rule* but continues to hold *own funds* and *liquid assets* that exceed the *wind-down triggers*, the *FCA* would typically take the intervention measures set out in *MIFIDPRU 7.6.15G* and *MIFIDPRU 7.7.17G*. However, there may be cases where the *firm's* financial position and the projections of its likely future financial resources mean that commencing a wind-down is appropriate, even though the *firm* has not yet breached the *wind-down triggers*. The *FCA* will consider the appropriate supervisory actions according to the facts in each case.

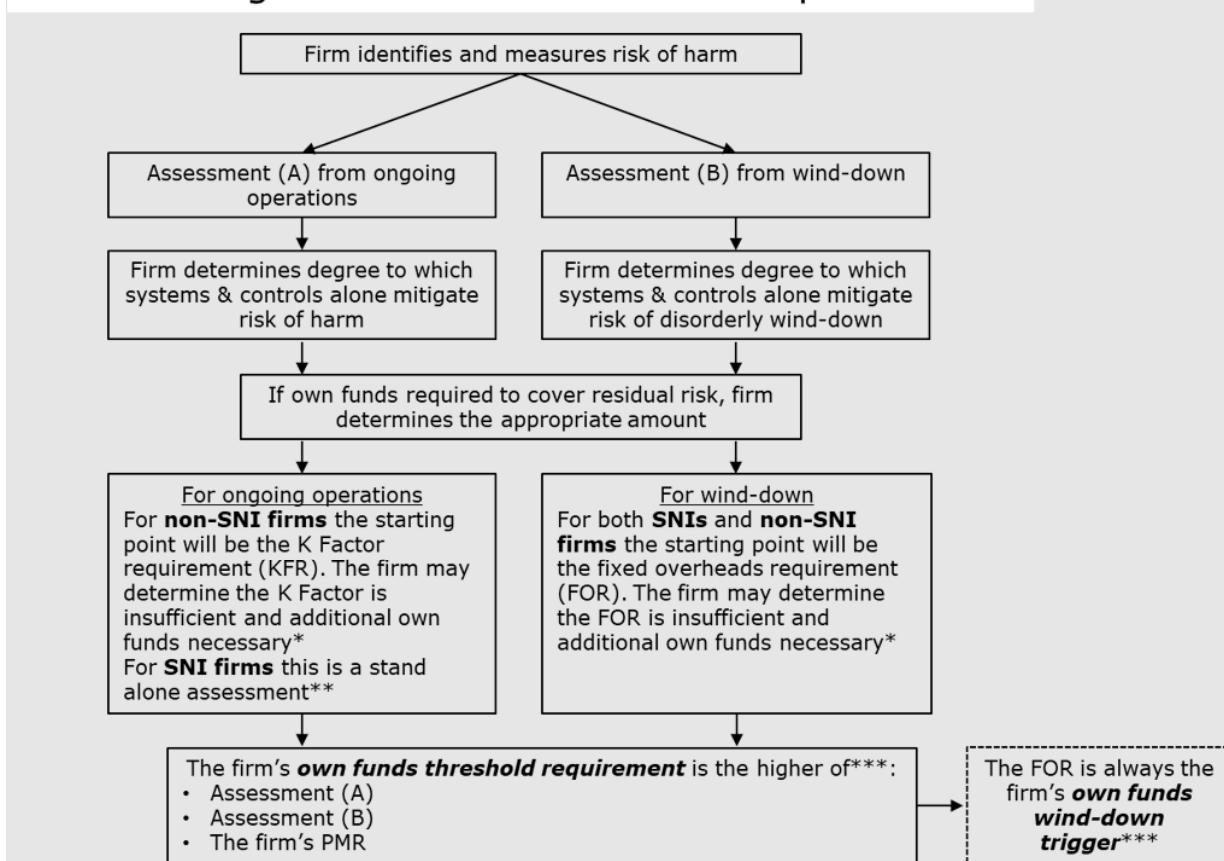

7.6 ICARA process: assessing and monitoring the adequacy of own funds

- 7.6.1 R This section applies to a *MIFIDPRU investment firm*.
- 7.6.2 R As part of its *ICARA process*, a *firm* must produce a reasonable estimate of the *own funds* it needs to hold to address:
- (1) any potential material harms that the *firm* has identified under *MIFIDPRU 7.4.13R* and in relation to which it has not taken any measures to reduce the impact of the harms under *MIFIDPRU 7.4.9R*; and
 - (2) any residual potential material harms that remain after the *firm* has taken measures to reduce the impact of the harms under *MIFIDPRU 7.4.9R*.
- 7.6.3 R (1) A *firm* must assess on the basis of its analysis under *MIFIDPRU 7.6.2R* whether it should hold additional *own funds* in excess of its

own funds requirement to comply with the *overall financial adequacy rule*.

- (2) When carrying out the assessment in (1), a *firm* must not:
- (a) determine that it needs a lower level of *own funds* for an activity or harm than is required by a *rule* in *MIFIDPRU 4* (Own funds requirements) or *MIFIDPRU 5* (Concentration risk); or
 - (b) use components of the *own funds requirement* to cover potential material harms that cannot reasonably be attributed to that component.
- 7.6.4 G (1) The *overall financial adequacy rule* requires a *firm* to hold adequate *own funds* to ensure that:
- (a) the *firm* is able to remain financially viable throughout the economic cycle, with the ability to address any potential material harms that may result from its ongoing activities; and
 - (b) the *firm's* business can be wound down in an orderly manner.
- (2) To comply with the *overall financial adequacy rule*, a *firm* must therefore hold the higher of:
- (a) the amount of *own funds* that the *firm* requires at any given point in time to fund its ongoing business operations, taking into account potential periods of financial stress during the economic cycle; and
 - (b) the amount of *own funds* that a *firm* would need to hold to ensure that the *firm* can be wound down in an orderly manner.
- (3) The *own funds threshold requirement* is the amount of *own funds* that a *firm* needs to hold at any given time to comply with the *overall financial adequacy rule*.
- (4) The *firm's* analysis of potential material harms under *MIFIDPRU 7.6.2R* is particularly relevant when it is considering the level of *own funds* that are necessary for the ongoing operation of its business. It is also be relevant when considering how the *firm* should address potential material harms as part of an orderly wind-down.
- (5) The following diagram summarises the process that a *firm* should undertake to determine its *own funds threshold requirement*:

Calculating the own funds threshold requirement

* The *own funds threshold requirement* cannot be lower than the *K-factor requirement* or the *fixed overheads requirement*.

** The *K-factor requirement* does not apply to *SNI MIFIDPRU investment firms* and the *permanent minimum capital requirement (PMR)* is not linked to harm.

*** Unless otherwise specified by the *FCA*.

- 7.6.5 R (1) Unless (2) applies, a *firm* must meet its *own funds threshold requirement* with *own funds* that satisfy the following conditions:
- (a) subject to (b), at least 75% of the *own funds threshold requirement* must be met with any combination of *common equity tier 1 capital* and *additional tier 1 capital*; and
 - (b) at least 56% of the *own funds threshold requirement* must be met with *common equity tier 1 capital*.
- (2) The *FCA* may specify an alternative combination of *own funds* for the purpose of (1) in a *requirement* applied to a *firm*.

- 7.6.6 G (1) *MIFIDPRU 7.6.7G and 7.6.8G explain the approach a non-SNI MIFIDPRU investment firm should apply to carry out the assessment in MIFIDPRU 7.6.3R.*
- (2) *MIFIDPRU 7.6.9G explains the approach that an SNI MIFIDPRU investment firm should apply to carry out the assessment in MIFIDPRU 7.6.3R.*
- (3) *MIFIDPRU 7.6.10G explains the approach that all MIFIDPRU investment firms should apply when assessing their own funds threshold requirement.*
- 7.6.7 G (1) *MIFIDPRU 4 and 5 explain how a firm must determine its own funds requirement. Where, as part of its ICARA process, a firm has identified potential material harms that cannot be fully mitigated, the firm should first consider the extent to which the impact of the residual harm on own funds is covered (wholly or partly) by the framework in MIFIDPRU 4 and 5.*
- (2) Example 1: If the potential material harm arises from the ordinary course of the firm's portfolio management business, a non-SNI MIFIDPRU investment firm should consider the potential impact of the harm by comparison with the firm's K-AUM requirement. If the harm is a harm that might typically arise from portfolio management, the firm may treat the harm as covered by the K-AUM requirement. However, if the harm is unusual in nature or might be particularly severe (for example, fraud or other irregularities), it would be unreasonable for the firm to treat the harm as fully covered by the K-AUM requirement. This is because the K-AUM requirement is designed to address typical harms from ordinary portfolio management, and not every conceivable material harm that might result from this activity.
- (3) Example 2: If the potential material harm arises from the ordinary course of the firm investing its own proprietary capital in positions allocated to the trading book, a non-SNI MIFIDPRU firm should consider the nature of that harm. For example, if the harm relates to the ordinary operational aspects of dealing on own account, the firm may treat the harm as covered by the K-DTF requirement, unless the harm is unusual or particularly severe. If the harm arises from adverse market movements in relation to the firm's trading book positions, the firm may treat the harm as covered by the K-NPR requirement (or K-CMG requirement if the position arises in a portfolio for which the firm has received a K-CMG permission), unless the relevant positions have particular features that mean the harm may be unusual or particularly severe.
- (4) Example 3: Some components of the K-factor requirement, such as the K-CON requirement, reflect specific types of harm. In this case, the firm should consider the purpose of the relevant requirement. As the K-CON requirement is designed to address the potential

harm arising from a *firm* having concentrated exposures to a counterparty or group of connected counterparties, a *non-SNI MIFIDPRU investment firm* should only compare a harm to the *K-CON requirement* where that harm arises from, or is connected to, these concentrated exposures.

- (5) Example 4: When assessing harms that may occur during a wind-down of the *firm's* business, a *non-SNI MIFIDPRU investment firm* should consider the potential impact of the harm by comparison with its *fixed overheads requirement*. In this case, the *firm* should identify the likely costs of winding down the *firm* and the potential financial impact of any material harms that might occur while doing so and compare the aggregate amount with the *fixed overheads requirement*. This will allow a *firm* to determine whether they are holding sufficient *own funds* to ensure an orderly wind-down, as required by the *overall financial adequacy rule*.

- 7.6.8 G (1) Some harms may not fit within the *own funds requirement* framework in *MIFIDPRU 4* or *5* because they cannot reasonably be attributed to the activities or risks that the *rules* in those chapters are designed to address. Where the harms are potentially material in nature, a *non-SNI MIFIDPRU investment firm* will need to assess their potential financial impact separately and cannot treat those harms as covered (either wholly or partly) by a requirement under *MIFIDPRU 4* or *5*. This includes potential material harms resulting from any *regulated activities* that are not *MiFID business* and from any *unregulated activities*.
- (2) Example 1: A *non-SNI MIFIDPRU investment firm* undertakes significant amounts of *corporate finance business*. The *K-factor requirement* does not include any components which are designed to address the potential harms arising from this type of business, as none of the *K-factor metrics* relate to *corporate finance business*. If the *firm* identifies potential material harms that may arise from its corporate finance activities, it cannot therefore compare that harm to any part of the *K-factor requirement*. In this case, the *firm* will need to assess the potential financial impact of that harm and will need to hold additional *own funds* to cover that impact.
- (3) Example 2: A *non-SNI MIFIDPRU investment firm* holds *client money* in connection with *designated investment business* that is not *MiFID business*. The *K-CMH requirement* applies only to *MiFID client money*. If the *firm* identifies potential material harms that result from holding *client money* for non-*MiFID business*, it will therefore need to assess the potential financial impact of that harm and hold additional *own funds* to cover that impact. Similarly, if there are material issues arising from currency mismatches in relation to *MiFID client money*, this may be a risk that is not adequately covered by the *K-CMH requirement*.

- (4) A *firm* is not required to map the financial impact of every potential material harm to components of its *K-factor requirement*. In some circumstances, it may be impractical or disproportionate to allocate the potential financial impact of harms in this way. Alternatively, it may not be clear that a harm can be allocated to one or more components of the *K-factor requirement*. A *firm* may therefore hold an amount that is additional to its *K-factor requirement* to address a particular harm without determining whether that harm might already be partly covered by the *K-factor requirement*.
- (5) Example 3: A *non-SNI MIFIDPRU investment firm* determines that there is a risk of material harm from a cyber incident affecting its IT systems. The *firm's* IT systems are used across all its business lines and the *firm* considers that it is impractical to allocate the financial impact of the cyber incident between particular components of the *K-factor requirement*. In this situation, the *firm* may hold an additional amount of *own funds* (i.e. over and above its *K-factor requirement*) to cover the potential financial impact of the cyber incident without mapping the impact of the harm to specific components of the *K-factor requirement*. However, the *firm* should clearly record the basis on which it has determined the amount of additional *own funds* that are required.
- 7.6.9 G (1) An *SNI MIFIDPRU investment firm* is not subject to the *K-factor requirement*. In practice, this means that its *own funds requirement* is typically determined by the *fixed overheads requirement*, although for smaller *firms*, the *permanent minimum capital requirement* may be determinative.
- (2) An *SNI MIFIDPRU investment firm* should therefore identify all relevant potential material harms from its ongoing business operations that cannot be mitigated by other means and estimate their impact on the *firm's own funds*. It should then compare the aggregate financial impact on *own funds* with the *firm's fixed overheads requirement* (or, if higher, the *permanent minimum capital requirement*).
- (3) Separately, an *SNI MIFIDPRU investment firm* should also identify the likely costs of winding down the *firm* and the potential financial impact of any material harms that might occur while doing so and should compare the aggregate amount with the *fixed overheads requirement*. This will allow the *firm* to determine if it is holding sufficient *own funds* to ensure an orderly wind-down, as required by the *overall financial adequacy rule*.
- (4) Where an *SNI MIFIDPRU investment firm* is close to exceeding one or more of the thresholds in *MIFIDPRU 1.2.1R* that would result in the *firm* being reclassified as a *non-SNI MIFIDPRU investment firm*, the *firm* should begin to compare its assessment of the *own funds* that it needs to comply with the *overall financial adequacy rule* with the *K-factor requirement* that would apply to

the *firm* if it were a *non-SNI MIFIDPRU investment firm*. The *guidance* in *MIFIDPRU 7.6.7G* and *7.6.8G* is relevant in these circumstances. Comparison with the future *K-factor requirement* will ensure that the *firm* is better prepared to comply with the additional obligations in *MIFIDPRU 4* and *5*, and that its *ICARA process* is calibrated appropriately, at the point at which the *firm* becomes a *non-SNI MIFIDPRU investment firm*.

- 7.6.10 G (1) *MIFIDPRU 7.6.7G* to *MIFIDPRU 7.6.9G* explain the approach that a *firm* should take to determine if a potential harm is covered by the *firm's own funds requirement*. Where a *firm* has identified potential harms that are not covered by its *own funds requirement*, or are covered only partly by its *own funds requirement*, the *firm* should aggregate the estimated financial impact of those harms to determine the overall additional amount of *own funds* (i.e. above its *own funds requirement*) that the *firm* needs to comply with the *overall financial adequacy rule*.
- (2) Where the *FCA* disagrees with a *firm's* assessment of the amount of *own funds* that is required by the *overall financial adequacy rule*, the *FCA* may provide individual *guidance* to that *firm* about the amount of *own funds* that the *FCA* considers is necessary to comply with that *rule*. Alternatively, the *FCA* may apply a *requirement* to the *firm* that specifies an amount of *own funds* that the *firm* must hold for that purpose.
- (3) The effect of *MIFIDPRU 7.6.3R(2)* is that a *firm* must not:
- (a) determine that it needs a lower level of *own funds* for an activity or harm than is required by a component of the *own funds requirement* that addresses that risk or harm; or
 - (b) use components of the *own funds requirement* to cover harms that cannot be attributed to that component.

This is illustrated by the example in (4).

- (4) Example: A *non-SNI MIFIDPRU investment firm* carries on *portfolio management* and determines that its *K-AUM requirement* is £50,000. However, the *firm* estimates that the actual financial impact of potential harm that may result from its *portfolio management* activities is only £30,000. The *firm* also carries on corporate finance advisory business (which does not give rise to a *K-factor requirement*) and estimates that the financial impact of the potential harm arising from this business is £40,000. The *firm* should not conclude that its *own funds threshold requirement* is £70,000. This is because the *firm* is not permitted to:
- (a) conclude that the amount of *own funds* that it holds in relation to its *portfolio management* activities is less than the *K-AUM requirement*. This means that the *firm* is not

permitted to substitute its own estimate of £30,000 for the minimum *K-AUM requirement* of £50,000; or

- (b) use part of the *K-AUM requirement* to cover potential material harms that do not arise in connection with *portfolio management*. This means that the *firm* cannot reallocate part of the *own funds* that should be held to cover the *K-AUM requirement* to cover risks arising from its corporate finance business.
- (5) Instead, assuming that there are no other relevant potential material harms to be taken into account, the *firm* should conclude that its *own funds threshold requirement* is £90,000, which is the sum of the *K-AUM requirement* and the *firm's* estimate of the potential financial impact of harms arising from its corporate finance business.

Requirement to notify the FCA of certain levels of own funds

- 7.6.11 R (1) A *firm* must notify the *FCA* immediately in each case where its *own funds* fall below the level of the *firm's*:
- (a) *early warning indicator*;
 - (b) *own funds threshold requirement*; or
 - (c) *own funds wind-down trigger*, or the *firm* considers that there is a reasonable likelihood that its *own funds* will fall below that level in the foreseeable future.
- (2) A notification under (1) must include the following information:
- (a) a clear statement of the current level of the *firm's own funds* in comparison to:
 - (i) its *own funds threshold requirement*; and
 - (ii) in the case of a notification under (1)(c), the *firm's own funds wind-down trigger*;
 - (b) an explanation of why the *firm's own funds* have reached the current level;
 - (c) in the case of a notification made under (1)(a), where the *firm* has identified that its *own funds* may fall below a level specified by the *firm* for the purposes of *MIFIDPRU* 7.5.5R(1), the recovery actions that the *firm* intends to take, as identified under *MIFIDPRU* 7.5.5R(2)(a) and 7.5.6G;
 - (d) in the case of a notification made under (1)(a), confirmation of whether the *firm* expects that its *own funds*

could fall below its *own funds threshold requirement* in the foreseeable future and an explanation of why the *firm* expects this to happen;

- (e) in the case of a notification made under (1)(b), the recovery actions specified for the purposes of *MIFIDPRU 7.5.5R(2)(b)* and *7.5.6G* that the *firm* has already taken or will take to restore compliance with its *own funds threshold requirement*; and
 - (f) in the case of a notification made under (1)(c), the *firm's* intentions in relation to activating its wind-down plan.
- (3) A *firm* must submit the notification in (1) through the *online notification and application system* using the form in *MIFIDPRU 7 Annex 4R*.
- 7.6.12 G In appropriate cases, the *FCA* may consider that the *early warning indicator* should be set at a different level from 110% of a *firm's own funds threshold requirement*. In this case, the *FCA* may invite a *firm* to apply for a *requirement* in accordance with section 55L(5) of the *Act*, or may impose a *requirement* on the *FCA's* own initiative in accordance with section 55L(3) of the *Act*, to provide for notification to the *FCA* if the *firm's own funds* reach the alternative level.
- 7.6.13 G (1) The notification requirement in *MIFIDPRU 7.6.11R* does not replace a *firm's* obligations under:
- (a) *Principle 11* to disclose appropriately to the *FCA* anything relating to the *firm* of which the *FCA* would reasonably expect notice; or
 - (b) the general notification requirements in *SUP 15.3*.
- (2) Where a *firm* has submitted a notification under *MIFIDPRU 7.6.11R*, the notification will generally discharge a *firm's* obligations under *Principle 11* and the general notification requirements in *SUP 15.3* in relation to the matters contained in the notification. However, a *firm* must still consider whether the *FCA* should be notified of developments before any of the notification indicators in *MIFIDPRU 7.6.11R* occur. In addition, *Principle 11* and *SUP 15.3* may require a *firm* to notify the *FCA* of additional material information that is not specifically referenced in *MIFIDPRU 7.6.11R*.
- (3) A *MIFIDPRU investment firm* should notify the *FCA* at an early stage of any significant event which creates a material risk of a *firm* ceasing to hold adequate financial resources, even if the impact of that event has not yet fully materialised.

FCA approach to intervention in relation to own funds

- 7.6.14 G (1) The table in *MIFIDPRU* 7.6.15G explains the interventions that the *FCA* would generally expect to make where there is evidence that a *MIFIDPRU investment firm* may be at risk of breaching the requirements that apply to its *own funds*. The table sets out the points at which the *FCA* would normally intervene and what actions it would normally take.
- (2) The *FCA* would generally expect that the interventions in the table would be cumulative – i.e. in a declining prudential situation, as the *firm* hits each intervention point in turn, the *FCA* would take some or all of the actions associated with that particular point. The actions are intended to be proportionate and progressively stronger responses to address the prudential concerns raised by each intervention point.
- (3) However, if a *firm* experiences a sudden adverse event which causes the *firm* to hit multiple intervention points simultaneously, the *FCA* may immediately take the actions associated with the most severe point.
- (4) The actions specified in the table do not prevent the *FCA* from taking alternative or additional actions in appropriate cases. The purpose of the table is to provide greater clarity for *firms* on the *FCA*'s general expectations and approach to interventions, to assist *firms*' own planning and responses.

7.6.15 G This table belongs to *MIFIDPRU* 7.6.14G.

7.7 ICARA process: assessing and monitoring the adequacy of liquid assets

7.7.1 R This section applies to a *MIFIDPRU investment firm*.

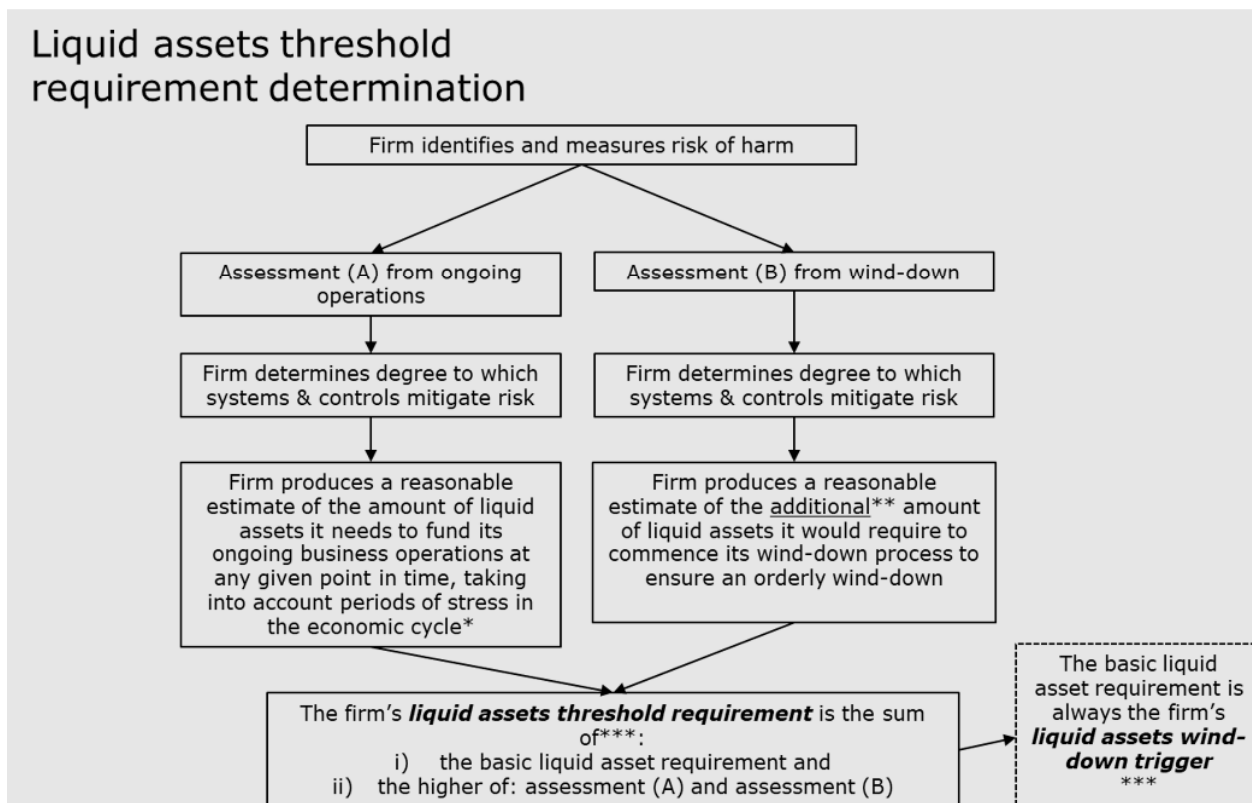

- 7.7.2 R (1) As part of its *ICARA process*, a *firm* must produce a reasonable estimate of the maximum amount of *liquid assets* that the *firm* would require to:
- (a) fund its ongoing business operations during each quarter over the next 12 *months*; and
 - (b) ensure that the *firm* could be wound down in an orderly manner.
- (2) The assessment in (1) must take into account any potential material harms that the *firm* has identified under *MIFIDPRU 7.4.9R* and been unable to reduce appropriately through its systems and controls.
- (3) Without prejudice to the ongoing nature of the *ICARA process*, the *firm* must update the analysis in (1) immediately following any material change in the *firm's* business model or operating model.

- (4) To produce the estimate in (1), the *firm* must ensure that it has in place reliable management information systems to provide timely and forward-looking information on its liquidity position.
- 7.7.3 G (1) The *overall financial adequacy rule* requires a *firm* to hold adequate *liquid assets* to ensure that:
- (a) the *firm* is able to remain financially viable throughout the economic cycle, with the ability to address any potential harm that may result from its ongoing activities; and
 - (b) the *firm's* business can be wound down in an orderly manner.
- (2) To comply with the *overall financial adequacy rule*, a *firm* must therefore hold the sum of the *basic liquid assets requirement* and the higher of:
- (a) the amount of *liquid assets* that the *firm* requires to fund its ongoing business operations, taking into account potential periods of financial stress during the economic cycle; or
 - (b) the additional amount of *liquid assets* that a *firm* would need to hold when commencing its wind-down process to ensure that the *firm* could be wound down in an orderly manner.
- (3) The *firm* should use the analysis it produces under *MIFIDPRU 7.7.2R* to ensure that it complies with the *overall financial adequacy rule*.
- (4) The *liquid assets threshold requirement* is the amount of *liquid assets* that a *firm* needs to hold at any given time to comply with the *overall financial adequacy rule*.
- 7.7.4 G (1) When considering the *liquid assets* that are required to fund its ongoing business operations under *MIFIDPRU 7.7.2R(1)*, a *firm* should consider, among other factors:
- (a) the ordinary level of *liquid assets* that would typically be required to operate the *firm's* underlying business, taking into account any seasonal variations;
 - (b) any material harms that may realistically occur during the next 12 *months* and their potential impact on the *firm's* liquidity position;
 - (c) any *liquid assets* that a *firm* may need to use as collateral or to meet margining requirements; and

- (d) any estimated gaps in funding, including during periods of severe but plausible stress.
- (2) The *liquid assets* that a *firm* requires at any given time during the 12-month period in MIFIDPRU 7.7.2R(1) may fluctuate, depending on the timing of a *firm's* expected liabilities and the nature of its business. Therefore, a *firm* should divide the 12-month period into quarters and assess the highest amount of *liquid assets* that it would require in each quarter. The FCA accepts that forecasts of the *liquid assets* that a *firm* requires may become less accurate for later quarters, but expects *firms* to use a 12-month time horizon to ensure that adequate attention is given to potential harms and significant liquidity outflows that may occur during that period.
- (3) As a *firm's* liquidity requirements are typically dynamic in nature, MIFIDPRU 7.7.2R requires a *firm* to update its *liquid assets* assessment where there has been a material change in the *firm's* business model or operating model. This ensures that the *firm* updates its liquidity analysis to reflect material changes in its circumstances that may affect the availability of *liquid assets* or the *firm's* liquidity requirements, while also assessing future needs over a rolling 12-month time horizon.
- (4) As part of its reporting obligations under MIFIDPRU 9, a *firm* must report liquidity information to the FCA on a regular basis. The FCA will use this information to monitor both the *liquid assets* that the *firm* is holding and the *firm's* assessment of its *liquid assets* threshold requirement.
- 7.7.5 G (1) A *firm's* basic *liquid assets* requirement provides a minimum level of *core liquid assets* that the *firm* must maintain at all times. The purpose of the *basic liquid assets* requirement is to ensure that the *firm* always has a minimum stock of *liquid assets* to fund the initial stages of its wind-down process if wind-down becomes necessary. The *firm* cannot, therefore, use the value of the *core liquid assets* that it holds to meet the *basic liquid assets* requirement as *liquid assets* for the liquidity needs of its ongoing business.
- (2) The *basic liquid assets* requirement may, however, be insufficient to provide the *liquid assets* that the *firm* has assessed would be necessary to facilitate an orderly wind-down as part of its wind-down planning under MIFIDPRU 7.5.7R. Therefore, the *firm* may identify that it needs to hold an additional amount of *liquid assets* to meet its funding needs as part of the wind-down process. This is not necessarily the whole amount of the *liquid assets* that would be required to fund the entire wind-down process, because in some circumstances, the *firm* may reasonably expect to generate additional *liquid assets* during wind-down. However, the *firm* should identify if it could have a funding gap during the wind-down

process that the *firm* needs to cover by holding more *liquid assets* at the point that wind-down begins.

- (3) The following diagram summarises the process that a *firm* should undertake to determine its *liquid assets threshold requirement*:

* When a *firm* assesses the amount of *liquid assets* it needs for ongoing operations, it cannot use the value of the *core liquid assets* held to meet the *basic liquid assets requirement* to fund those operations.

** The *basic liquid assets requirement* may be insufficient to provide the *liquid assets* that the *firm* has assessed would be necessary to facilitate an orderly wind-down. Therefore, the *firm* may identify that it needs to hold an additional amount of *liquid assets* to meet its funding needs to commence its wind-down process.

*** Unless otherwise specified by the *FCA*.

- 7.7.6 R (1) Subject to (2) and (3), a *firm* may hold the *liquid assets* necessary to comply with its *liquid assets threshold requirement* in any combination of:
- any *core liquid asset*, except trade receivables under *MIFIDPRU* 6.3.3R; or

- (b) any *non-core liquid asset*, as defined in *MIFIDPRU 7.7.8R*, provided that the *firm* applies an appropriate haircut in accordance with *MIFIDPRU 7.7.9R*.
 - (2) This *rule* does not apply in relation to the *liquid assets* that a *firm* is holding to meet its *basic liquid assets requirement*, which must be *core liquid assets*.
 - (3) A *firm* may only use a *non-core liquid asset* for the purpose in (1) if the *firm* is satisfied that the asset can easily and promptly be converted into cash, even in stressed market conditions.
- 7.7.7 G When considering whether a *non-core liquid asset* meets the requirement in *MIFIDPRU 7.7.6R(3)*, a *firm* should take into account the following principles:
- (1) low risk: assets that are less risky tend to have higher liquidity. High credit standing of the issuer and a low degree of subordination tends to increase an asset's liquidity. Low duration, low legal risk, low inflation risk and denomination in a convertible currency with low foreign exchange risk all tend to enhance an asset's liquidity;
 - (2) ease and certainty of valuation: an asset's liquidity tends to increase if market participants are more likely to agree on its valuation. Assets with more standardised, homogenous and simple structures tend to be more fungible, promoting liquidity. The pricing formula of a high-quality liquid asset should be easy to calculate and not depend on strong assumptions. The inputs into the pricing formula should also be publicly available. In practice, this should rule out the inclusion of most structured or exotic products;
 - (3) low correlation with risky assets: the stock of assets should not be subject to wrong-way (highly correlated) risk. For example, assets issued by financial institutions are more likely to be illiquid in times of liquidity stress in the financial sector;
 - (4) listed on a developed and recognised exchange: being listed tends to increase an asset's transparency and liquidity;
 - (5) active and sizable market: the asset should have an active market at all times. This means that:
 - (a) there should be historical evidence of market breadth and market depth. This could be demonstrated by low bid-ask spreads, high trading volumes, a large and diverse number of market participants, and the existence of a repo market. Diversity of market participants reduces market concentration and increases the reliability of the liquidity in the market; and

- (b) there should be robust market infrastructure in place. The presence of multiple committed market makers increases liquidity as quotes will most likely be available for buying or selling the asset;
 - (6) low volatility: assets whose prices remain relatively stable and are less prone to sharp price declines over time will have a lower probability of triggering forced sales to meet liquidity requirements. Volatility of traded prices and spreads are simple proxy measures of market volatility. There should be historical evidence of relative stability of market terms (e.g. prices and haircuts) and volumes during stressed periods; and
 - (7) flight to quality: historically, the market has shown tendencies to move into these types of assets in a systemic crisis. The correlation between proxies of market liquidity and financial system stress is one simple measure that could be used.
- 7.7.8 R (1) Except as specified in (2), the following assets are eligible as *non-core liquid assets*:
- (a) short-term deposits at a *credit institution* that does not have a *Part 4A permission* in the *UK* to *accept deposits*;
 - (b) assets representing claims on, or guaranteed by, multilateral development banks and international organisations;
 - (c) assets representing claims on, or guaranteed by, any *third country* central bank or government;
 - (d) *financial instruments*; and
 - (e) any other instrument eligible as collateral against the margin requirement of an *authorised central counterparty*.
- (2) A *firm* must not treat any of the following as a *non-core liquid asset*:
- (a) any asset that belongs to a *client*;
 - (b) any other asset that is encumbered; or
 - (c) any asset issued by the *firm* or any of its affiliated entities, except a short-term deposit with an affiliated *credit institution*.
- 7.7.9 G (1) For the purposes of *MIFIDPRU 7.7.8R(2)(a)*, an asset may belong to a *client* even if the asset is held in the *firm's* own name. Examples of assets belonging to a *client* include money or other assets held under the *FCA's client asset rules*.

(2) For the purposes of *MIFIDPRU 7.7.8R(2)(b)*, an asset may be encumbered if it is pledged as security or collateral, or subject to some other legal restriction (for example, due to regulatory or contractual requirements) which affects the *firm's* ability to liquidate, sell, transfer, or assign the asset.

7.7.10 R A *firm* must apply an appropriate haircut to the value of a *non-core liquid asset* to reflect the potential loss of value when converting the asset into cash during stressed market conditions.

7.7.11 G The *FCA* considers that a minimum haircut of no less than that in the range specified in the table in *MIFIDPRU 7.7.12G* is likely to be appropriate for the purposes of *MIFIDPRU 7.7.10R*.

7.7.12 G This table belongs to *MIFIDPRU 7.7.11G*.

<i>Financial instruments</i> not covered above for which there is a liquid market as defined in article 42(1)(17) of <i>MiFIR</i> or article 42(1)(17) of <i>EU MiFIR</i>	55%
Other instruments eligible as collateral against the margin requirement of an <i>authorised central counterparty</i>	25% - 55%

7.7.13 G For the purposes of applying *MIFIDPRU* 7.7.10R and 7.7.11G to shares or units in a *CIU*:

- (1) where a *firm* is aware of the exposures underlying the *CIU*, it may look through to the underlying exposures to assign an appropriate haircut;
- (2) where a *firm* is not aware of the exposures underlying the *CIU*, it should assume that the *CIU* invests, up to the maximum amount allowed under its mandate, in the highest risk assets permissible; and
- (3) in either case, a *firm* should consider applying an additional haircut to reflect any additional loss of value that could result from the underlying exposures being held through a *CIU*.

Requirement to notify the FCA of certain levels of liquid assets

- 7.7.14 R (1) A *firm* must notify the *FCA* immediately in each case where:
- (a) its *liquid assets* fall below its *liquid assets threshold requirement*; or
 - (b) its *liquid assets* fall below its *liquid assets wind-down trigger* or the *firm* considers that there is a reasonable likelihood that its *liquid assets* will fall below its *liquid assets wind-down trigger* in the foreseeable future.
- (2) A notification under (1) must include the following information:
- (a) a clear statement of the current level of the *firm's liquid assets* in comparison to:
 - (i) the *firm's liquid assets threshold requirement*; and
 - (ii) in the case of a notification under (1)(b), the *firm's liquid assets wind-down trigger*;

- (b) an explanation of why the *firm's liquid assets* have reached the current level;
 - (c) in the case of a notification under (1)(a), an explanation of the recovery actions specified for the purposes of *MIFIDPRU 7.5.5R(2)(b)* and *7.5.6G* that the *firm* has already taken or will take to restore compliance with its *liquid assets threshold requirement*; and
 - (d) in the case of a notification under (1)(b), the *firm's* intentions in relation to activating its wind-down plan.
- (3) A *firm* must submit the notification in (1) through the *online notifications and applications system* using the form in *MIFIDPRU 7 Annex 5R*.
- 7.7.15 G (1) The notification requirement in *MIFIDPRU 7.7.14R* does not replace a *firm's* obligations under:
- (a) *Principle 11* to disclose appropriately to the *FCA* anything relating to the *firm* of which the *FCA* would reasonably expect notice; or
 - (b) the general notification requirements in *SUP 15.3*.
- (2) Where a *firm* has submitted a notification under *MIFIDPRU 7.7.14R*, the notification will generally discharge a *firm's* obligations under *Principle 11* and the general notification requirements in *SUP 15.3* in relation to the matters contained in the notification. However, a *firm* must still consider whether the *FCA* should be notified of developments before any of the notification indicators in *MIFIDPRU 7.7.14R* occur. In addition, *Principle 11* and *SUP 15.3* may require a *firm* to notify the *FCA* of additional material information that is not specifically referenced in *MIFIDPRU 7.7.14R*.
- (3) A *MIFIDPRU investment firms* should notify the *FCA* at an early stage of any significant event which creates a material risk of a *firm* ceasing to hold adequate financial resources, even if the impact of that event has not yet fully materialised.

FCA approach to intervention in relation to liquid assets

- 7.7.16 G (1) The table in *MIFIDPRU 7.7.17G* explains the interventions that the *FCA* would generally expect to make where a *MIFIDPRU investment firm* has breached, or there is evidence that the *firm* may be at risk of breaching, its *liquid assets* requirements. The table sets out the points at which the *FCA* would normally intervene and what actions it would normally take. Note that unlike for *own funds*, there is no *early warning indicator* requirement in relation to *liquid assets*.

- (2) The *FCA* would generally expect that the interventions in the table would be cumulative – i.e. in a declining prudential situation, as the *firm* hits each intervention point in turn, the *FCA* would take some or all of the actions associated with that particular point. The actions are intended to be proportionate and progressively stronger responses to address the prudential concerns raised by each intervention point.
- (3) However, if the *firm* experiences a sudden adverse event which causes the *firm* to hit multiple intervention points simultaneously, the *FCA* may immediately take the actions associated with the most severe point.
- (4) The actions specified in the table do not prevent the *FCA* from taking alternative or additional actions in appropriate cases. The purpose of the table is to provide greater clarity for *firms* on the *FCA*'s general expectations and approach to interventions, to assist *firms*' own planning and responses.

7.7.17 G This table belongs to *MIFIDPRU* 7.7.16G.

<p>Threshold requirement notification: <i>Firm</i> holding insufficient <i>liquid assets</i> to meet its <i>liquid assets threshold requirement</i></p>	<p>The <i>liquid assets threshold requirement</i> is the amount of <i>liquid assets</i> that the <i>firm</i> needs at any point in time to comply with the <i>overall financial adequacy rule</i>. The <i>FCA</i> will monitor a <i>firm</i>'s assessment of its <i>liquid assets threshold requirement</i> through the information that the <i>firm</i> provides under <i>MIFIDPRU</i> 9.</p> <p>This notification is intended to prompt the <i>firm</i> and the <i>FCA</i> to address the breach of <i>threshold</i></p>	<p>The <i>FCA</i> would normally expect that:</p> <p>(a) the <i>firm</i> will have considered taking the recovery actions identified under <i>MIFIDPRU</i> 7.5.5R(2)(a) and <i>MIFIDPRU</i> 7.5.6G before breaching its <i>liquid assets threshold requirement</i> and will be considering whether to take, or will have taken, any relevant recovery actions identified under <i>MIFIDPRU</i> 7.5.5R(2)(b);</p> <p>(b) the <i>firm</i>'s <i>governing body</i> will regularly evaluate whether the <i>firm</i> should take additional actions to restore its level of <i>liquid assets</i> to at least the level of the <i>liquid assets threshold requirement</i>; and</p> <p>(c) the <i>FCA</i> will consider whether to request the <i>firm</i> to report</p>

	<p><i>conditions</i> in a timely manner.</p> <p>Where a <i>firm</i> has ceased to hold sufficient <i>liquid assets</i> to meet its <i>liquid assets threshold requirement</i>, the focus should be on restoring <i>liquid assets</i> to at least the level of the <i>liquid assets threshold requirement</i> and recovery of the <i>firm</i> (unless the <i>firm</i> chooses to exit the market by voluntarily winding down). However, any proposed actions for recovery must be credible and achievable within a reasonable and realistic timeframe.</p>	<p>additional information to the <i>FCA</i>.</p> <p>If, having considered the information provided by the <i>firm</i> about its proposed actions, the <i>FCA</i> reasonably considers that the <i>firm</i> may fail to restore its <i>liquid assets</i> to the level required by the <i>liquid assets threshold requirement</i> within a reasonable timeframe, the <i>FCA</i> may consider the following actions:</p> <ul style="list-style-type: none"> (d) requesting that the <i>firm</i> cease making discretionary payments; (e) requesting that the <i>firm</i> cease taking on new business; (f) requesting that the <i>firm's parent undertaking</i> provides additional <i>liquid assets</i> for the <i>firm</i>; (g) where appropriate, inviting the <i>firm</i> or its <i>parent undertaking</i> to apply for a <i>requirement</i> under section 55L(5) or section 143K(1) of the <i>Act</i>, or imposing a <i>requirement</i> on the <i>FCA's</i> own initiative under section 55L(3) or section 143K(2) of the <i>Act</i>, in relation to (a) – (f) above; or (h) where appropriate, inviting the <i>firm</i> to apply for variation or cancellation of <i>permission</i> under section 55H of the <i>Act</i>, or varying or cancelling the <i>firm's permission</i> on the <i>FCA's</i> own initiative under section 55J of the <i>Act</i>. <p>The <i>FCA</i> would also expect the <i>firm</i> to consider whether it is appropriate to trigger the <i>firm's</i> wind-down plan under <i>MIFIDPRU 7.5.7R</i> to ensure an orderly wind-down of its business. This may be the case where the <i>firm's</i></p>

		<p>under section 55H of the <i>Act</i>, or varying or cancelling the <i>firm's permission</i> on the <i>FCA's</i> own initiative under section 55J of the <i>Act</i>.</p> <p>If a <i>firm</i> refuses to commence an orderly wind-down despite its <i>governing body</i> or the <i>FCA</i> having concluded that there is no imminent and credible likelihood of recovery, the <i>FCA</i> will consider the full range of its supervisory powers. In particular, the <i>FCA</i> may use a combination of its own initiative powers under section 55L(3) and section 55J of the <i>Act</i> to:</p> <p>(e) prevent the <i>firm</i> from continuing to carry on any <i>regulated activities</i>; and</p> <p>(f) direct the <i>firm</i> to take appropriate actions to ensure the fair treatment and appropriate protection of <i>clients</i> and counterparties during any run-off period for its existing regulated business.</p>

7.8 Reviewing and documenting the ICARA process

7.8.1 R This section applies to a *MIFIDPRU investment firm*.

7.8.2 R A *firm* must review the adequacy of its *ICARA process*:

- (1) at least once every 12 *months*; and
- (2) irrespective of any review carried out under (1), following any material change in the *firm's* business model or operating model.

7.8.3 G The effect of *MIFIDPRU 7.8.2R(2)* is that if there is a significant change in the *firm's* business model or operating model, the *firm* should not wait until the next scheduled review of its *ICARA process*, but should carry out a review promptly. For example, if a *firm* launches a material new product or business line or merges with another business, the *firm* should, as part of its preparation for that event, analyse the impact on the *firm's ICARA process*. Similarly, if a *firm's* business undergoes a significant change due to external factors (for example, significant changes in the

structure of a market sector), the *firm* should consider the effects on the *firm's ICARA process* in a timely manner.

- 7.8.4 R (1) A *firm* must notify the *FCA* of the date on which the *firm* will submit *data item* MIF007 (ICARA assessment questionnaire) in accordance with:
- (a) in the case of a *non-SNI MIFIDPRU investment firm*, *MIFIDPRU 9.2.2R*; and
 - (b) in the case of an *SNI MIFIDPRU investment firm*, *MIFIDPRU 9.2.4R*.
- (2) The submission date that the *firm* notifies under (1) continues to apply unless the *firm* notifies the *FCA* of a change of the submission date in accordance with (3).
- (3) A *firm* may notify the *FCA* of a revised submission date for the purpose of (1), provided that the revised date will not result in the *firm* not submitting *data item* MIF007 to the *FCA* for more than 12 months.
- (4) The notifications in (1) and (3) must be submitted through the *online notification and application system* using the form in *MIFIDPRU 7 Annex 6R*.
- (5) The *FCA* may direct a *firm* to submit *data item* MIF007 on a different date from the date in (2) to ensure that the *FCA* has access to appropriate and timely information on the *firm's* financial position.
- (6) If the *FCA* gives a direction to a *firm* in accordance with (5), the *firm* must submit *data item* MIF007 to the *FCA* on the date specified in that direction until the *FCA* directs otherwise.
- 7.8.5 G (1) *Firms* may operate different internal arrangements for reviewing the adequacy of their *ICARA process*. When considering the timetable for a review, a *firm* should take into account the following 3 dates:
- (a) the date on which the underlying data used to carry out the review of the *ICARA process* was prepared (the “reference date”);
 - (b) the date on which the *firm's* review of the *ICARA process* is carried out (the “review date”); and
 - (c) the date on which the *firm* will submit *data item* MIF007 to report on its review of the *ICARA process* (the “submission date”), as notified to the *FCA* under *MIFIDPRU 7.8.4R*.

- (2) When deciding on a submission date under *MIFIDPRU 7.8.4R*, a *firm* should consider the following:
- (a) the period between the reference date and the review date should be reasonable, taking into account the time that the *firm* is likely to need to carry out a robust assessment of its *ICARA process* to meet the requirements in this section and the importance of using relevant data for these purposes; and
 - (b) the period between the review date and the submission date should also be reasonable, taking into account the importance of the *FCA* receiving timely information in relation to the *firm* and the time that is required for the *firm* to complete *data item MIF007* accurately and completely.
- (3) A *firm* should design its internal timetable for the review of its *ICARA process* and the submission of *data item MIF007* in a reasonable way, reflecting the importance of proper internal risk management. The *FCA* has provided *firms* with flexibility under *MIFIDPRU 7.8.4R* to adopt a review and reporting timetable that fits best with the *firm's* internal processes. However, under *MIFIDPRU 7.8.4R(5)*, the *FCA* may direct a *firm* to report on an alternative date if the *FCA* considers that the *firm's* proposed review and reporting timetable would not result in the *FCA* receiving the necessary information in an appropriate and timely manner.
- (4) A *firm* may change the date on which it submits *data item MIF007* by notifying the *FCA* in accordance with *MIFIDPRU 7.8.4R(3)*. However, a *firm* is not permitted to specify a revised date that would result in the *firm* not submitting *data item MIF007* to the *FCA* for more than 12 *months*. For example, a *firm* has a submission date of 1 April each year. The *firm* submits *data item MIF007* on 1 April 2023. On 1 March 2024, the *firm* wishes to change its submission date to 31 December. The *firm* would not be permitted to change the submission date in this way, as the next submission date would be 31 December 2024, which would be more than 12 *months* after 1 April 2023. However, the *firm* could have notified the *FCA* on, for example, 1 December 2023 that it intended to change its submission date to 31 December. This is because the next submission of *data item MIF007* would then have occurred on 31 December 2023, which would be within 12 *months* of the previous submission on 1 April 2023.

7.8.6 R Where a *firm* carries out a review of its *ICARA process* in accordance with *MIFIDPRU 7.8.2R(2)* following a change in its business model or operating model:

- (1) the *firm* must submit *data item* MIF007 to the *FCA* within 20 *business days* of the *governing body* having approved the *ICARA document* resulting from that review in accordance with *MIFIDPRU 7.8.8R*; and
- (2) the requirement in *MIFIDPRU 7.8.4R* to notify the *FCA* of the submission date of *data item* MIF007 does not apply to a *data item* submitted under (1).
- 7.8.7 R (1) A *firm* must document any review carried out under *MIFIDPRU 7.8.2R*.
- (2) The documentation produced by the *firm* to comply with (1):
- (a) may consist of multiple documents, provided that the relationship between them is clear, they are prepared on a consistent basis and they can all be provided to the *FCA* promptly if requested; and
- (b) is collectively referred to as the *ICARA document*.
- (3) The *ICARA document* must include the following:
- (a) a clear description of the *firm's* business model and strategy and how it aligns with the *firm's* risk appetite;
- (b) an explanation of the activities carried on by the *firm*, with a focus on the most material activities;
- (c) where the *firm* has concluded that the *ICARA process* is fit for purpose, a clear explanation of why the *firm* reached this conclusion;
- (d) where the *firm* has concluded that the *ICARA process* requires further improvement, a clear explanation of:
- (i) the improvements needed;
- (ii) the steps needed to make those improvements and the timescale for taking them; and
- (iii) who within the *firm* is responsible for taking the steps in (ii);
- (e) a clear explanation of any other changes to the *firm's ICARA process* that have occurred following the review and the reasons for those changes;
- (f) an analysis of the effectiveness of the *firm's* risk management processes during the period covered by the review;

- (g) a summary of the material harms identified by the *firm* under *MIFIDPRU 7.4.13R* and any steps taken to mitigate them;
- (h) an overview of the business model assessment and capital and liquidity planning undertaken by the *firm* under *MIFIDPRU 7.5.2R*;
- (i) a clear explanation of how the *firm* is complying with the *overall financial adequacy rule*, including a clear breakdown of the following as at the review date:
 - (i) available *own funds*;
 - (ii) available *liquid assets*; and
 - (iii) the *firm's* assessment of its *threshold requirements*;
- (j) a summary of any stress testing and reverse stress testing carried out by the *firm*;
- (k) the levels of *own funds* and *liquid assets* that, if reached, the *firm* has identified under *MIFIDPRU 7.5.5R(1)* may indicate that there is a credible risk that the *firm* will breach its *threshold requirements*;
- (l) the potential recovery actions that the *firm* has identified under *MIFIDPRU 7.5.5R(2)* and *7.5.6G*; and
- (m) an overview of the *firm's* wind-down planning under *MIFIDPRU 7.5.7R*, including:
 - (i) any required actions;
 - (ii) the anticipated timelines for actions to be taken; and
 - (iii) any key assumptions or qualifications.

Senior management responsibility for the ICARA process

- 7.8.8 R (1) The content of the *ICARA document* must be reviewed and approved by the *firm's governing body* within a reasonable period after the review under *MIFIDPRU 7.8.2R* has been completed.
- (2) As part of its review under (1), the *governing body* must specifically review and approve the key assumptions underlying the *ICARA document*.
- 7.8.9 G (1) Under *COCON 2.2.2R*, *senior conduct rules staff members* must take reasonable steps to ensure that the business of the *firm* for

which they are responsible complies with the relevant requirements and standards of the *regulatory system*.

- (2) In particular, *COCON* 4.2.12G explains that *senior conduct rules staff members* should take reasonable steps to ensure that the business for which they are responsible:
 - (a) has operating procedures and systems with well-defined steps for complying with the detail of relevant requirements and standards of the *regulatory system*; and
 - (b) is run prudently.
- (3) The *FCA* considers that the *ICARA process* is a key requirement of the *regulatory system* for *MIFIDPRU investment firms* and is an essential part of a *firm's* internal systems and procedures for ensuring that the *firm's* business is run prudently. Accordingly, *senior conduct rules staff members* should take an active role in contributing to the analysis required under the *ICARA process* in respect of the business areas for which they are responsible and in embedding its requirements into those business areas.
- (4) *Firms* and *senior conduct rules staff members* should refer to the provisions in *COCON*, and in particular the *guidance* in *COCON* 3 and *COCON* 4, for further information on the *FCA's* general approach to assessing compliance with the relevant conduct rules.

Record keeping requirements

- 7.8.10 R (1) A *firm* must keep adequate records of the following:
- (a) its *ICARA document*; and
 - (b) the review and approval of the *ICARA document* by the *firm's governing body* under *MIFIDPRU* 7.8.8R.
- (2) A *firm* must retain the records in (1) for at least 3 years from the date on which the relevant document was approved.

7.9 ICARA process: firms forming part of a group

- 7.9.1 G This section contains:
- (1) a requirement for individual *MIFIDPRU investment firms* to take into account group risk as part of their *ICARA process*;
 - (2) *rules and guidance* on the extent to which an *investment firm group* may manage risks on a *group* basis and may operate a *group ICARA process*; and

- (3) *rules and guidance* on the extent to which the position of multiple *MIFIDPRU investment firms* may be combined with a single *ICARA document*.

Analysis of group risk by individual firms

- 7.9.2 R Where a *MIFIDPRU investment firm* is a part of a *group*, the *firm's ICARA process* must take into account any material risks or potential harms that may result from the *firm's* relationship with other members of that *group* or the *group* as a whole.
- 7.9.3 G The requirement in *MIFIDPRU 7.9.2R* applies in relation to:
- (1) any *group*, irrespective of whether that *group* is an *investment firm group*; and
 - (2) any relationship that the *firm* has with any member of that *group*, irrespective of whether the other entity is an *authorised person*.

Group ICARA process

- 7.9.4 G
- (1) An *investment firm group* to which *MIFIDPRU 2.5* (Prudential consolidation) applies is not normally required to operate an *ICARA process* on a *consolidated basis*.
 - (2) However, in exceptional circumstances, the *FCA* may determine that a particular *investment firm group* should operate an *ICARA process* on a *consolidated basis*. For example, the *FCA* may conclude that the individual *ICARA process* operated by a *MIFIDPRU investment firm* within an *investment firm group*, or the *group ICARA process* operated by an *investment firm group*, does not adequately reflect certain material risks that arise in the context of the *investment firm group* as a whole. Therefore, in appropriate cases, the *FCA* may:
 - (a) invite a *UK parent entity* to apply for the imposition of a *requirement* to operate a consolidated *ICARA process* under section 55L(5) or section 143K(1) of the *Act*; or
 - (b) impose a *requirement* on the *FCA's* own initiative on a *UK parent entity* to operate a consolidated *ICARA process* under section 55L(3) or section 143K(3) of the *Act*.
 - (3) Where the *FCA* decides to impose a *requirement* on a *UK parent entity* to operate an *ICARA process* on a *consolidated basis*, it will normally discuss its expectations around the operation of that *ICARA process* in further detail with the *UK parent entity*.
 - (4) In appropriate cases, the *FCA* may specify that a particular entity (whether or not it is an *authorised person*) should be excluded from the *consolidated situation*. Where this is the case, the consolidated *ICARA process* should reflect the modified scope of

the *consolidated situation*. The *FCA* may adopt this approach where, for example, the inclusion of the entity within the *consolidated situation* would result in a misleading assessment of the financial resources available to, or the harms posed by, the relevant *investment firm group*.

- 7.9.5 R Subject to *MIFIDPRU 7.9.7R*, an *investment firm group* (whether it is subject to *MIFIDPRU 2.5* or not) may operate a *group ICARA process*, provided that the following conditions are satisfied:
- (1) the *group ICARA process* is consistent with the manner in which the business of the *investment firm group*, and the risks arising from it, are operated and managed in practice;
 - (2) any assessment under the *group ICARA process* of *own funds* or *liquid assets* that are required to cover the identified risks is allocated between individual *firms* within the *investment firm group* on a reasonable basis and that basis is properly documented;
 - (3) each *MIFIDPRU investment firm* covered by the *group ICARA process* complies with the *overall financial adequacy rule* on an individual basis;
 - (4) each *MIFIDPRU investment firm* covered by the *group ICARA process* maintains a separate wind-down plan for the purposes of *MIFIDPRU 7.5.7R* and applies the *wind-down triggers* on an individual basis;
 - (5) the notification requirements in *MIFIDPRU 7.6.11R* and *7.7.14R* apply in relation to each individual *MIFIDPRU investment firm* included within the *group ICARA process*, using the amounts determined in accordance with (2) to (4);
 - (6) the management of any risks on a *group* basis takes place within one of the following entities:
 - (a) a *MIFIDPRU investment firm* within the *investment firm group*; or
 - (b) the *UK parent entity* of the *investment firm group*;
 - (7) the *governing body* of the relevant entity in (6) has accepted overall responsibility for the *group ICARA process* and for ensuring compliance with this *rule*;
 - (8) the requirement in *MIFIDPRU 7.8.8R* for the *governing body* of an individual *MIFIDPRU investment firm* to approve the content of the *ICARA document* applies to the *governing body* of the relevant entity in (7); and

- (9) each individual *MIFIDPRU investment firm* included within the *group ICARA process* submits *data item* MIF007 (ICARA assessment questionnaire) to the *FCA* on an individual basis, reflecting the position of that *firm* as it results from the conclusions of the *group ICARA process*.
- 7.9.6 R Except as specified in *MIFIDPRU 7.9.5R*, a *MIFIDPRU investment firm* that is included within a *group ICARA process* is not required to comply with the requirements in *MIFIDPRU 7.4* to *MIFIDPRU 7.8* on an individual basis.
- 7.9.7 R (1) An *investment firm group* must not:
- (a) operate a *group ICARA process* if the *FCA* has directed the *investment firm group* to manage or assess the risks arising from its business on a different basis because one or more of the conditions in (2) applies in relation to that *investment firm group*; or
 - (b) include within a *group ICARA process* any *MIFIDPRU investment firm* that the *FCA* has directed to manage or assess the risks arising from its business on a different basis because one or more of the conditions in (2) applies in relation to that *firm*.
- (2) The relevant conditions are that:
- (a) there is a material risk that potential harms arising in relation to the *firm* or *investment firm group* would not be adequately captured through a *group ICARA process*;
 - (b) there is a material risk that a *group ICARA process* would result in excessive complexity that would interfere with the *FCA*'s ability to supervise the compliance of the *investment firm group*, or any of the individual *MIFIDPRU investment firms* within it, with its obligations under *MIFIDPRU 7*; or
 - (c) the *investment firm group* previously operated, or the *firm* was previously included within, a *group ICARA process* that did not meet the requirements in *MIFIDPRU 7.9*.
- 7.9.8 R Except as otherwise specified in *MIFIDPRU 7.9.5R*, a *group ICARA process* must comply with the requirements in *MIFIDPRU 7.4* to *MIFIDPRU 7.8* as if the references in those sections to a "*MIFIDPRU investment firm*" are references to the *investment firm group* operating that *group ICARA process*.
- 7.9.9 G (1) Under *MIFIDPRU 7.9.7R*, if an *investment firm group* is operating a *group ICARA process* that is inadequate to address the potential harms arising from its business, the *FCA* may direct all

members of the *investment firm group*, or individual *MIFIDPRU investment firms* within it, to apply the *ICARA process* on an individual basis.

- (2) In addition, a *group ICARA process* must satisfy the requirements in *MIFIDPRU 7.9.5R* on an ongoing basis. If any of the conditions in that *rule* for the use of the *group ICARA process* are not met, all *MIFIDPRU investment firms* covered by that *group ICARA process* must operate individual *ICARA processes* instead.
- (3) An *investment firm group* that wishes to operate a *group ICARA process* must therefore ensure that its risk management processes are sufficiently robust to satisfy the requirements in *MIFIDPRU 7.9.5R* and that there is appropriate accountability of the responsible *governing body* in accordance with the requirements of that *rule*.
- (4) The *FCA* considers that it is important that there is a proper analysis of how the *overall financial adequacy rule* and wind-down planning arrangements apply to each individual *MIFIDPRU investment firm* within the *investment firm group*. This reflects the fact that the solvency of *firms* must be assessed on an individual basis and legal entities must be wound down separately.

Combined ICARA documents covering multiple group entities

- 7.9.10 R Where an *investment firm group* contains multiple *MIFIDPRU investment firms*, the *ICARA document* for each *firm* may be combined within a single document, provided that:
- (1) to the extent that any risks are managed under a *group ICARA process*, this is clearly documented and explained; and
 - (2) for any risks that are managed on an individual basis, and for any requirements that *MIFIDPRU 7.9.5R* specifies must always apply on an individual basis under a *group ICARA process*, the combined *ICARA document* clearly explains the position of each individual *firm* and how it complies with the relevant requirements.
- 7.9.11 G The effect of *MIFIDPRU 7.9.10R* is that even where an *investment firm group* does not operate a *group ICARA process*, a single *ICARA document* can be used to document the individual *ICARA processes* operated by multiple *MIFIDPRU investment firms* within that *investment firm group*. However, the single *ICARA document* must clearly explain how each *MIFIDPRU investment firm* meets the applicable requirements on an individual basis.

7.10 Supervisory review and evaluation process

Application

- 7.10.1 G (1) This section contains *guidance* on the *FCA's* approach to the *supervisory review and evaluation process (SREP)* of the *ICARA process*.
- (2) Although there are no *rules* in this section that impose direct obligations on *MIFIDPRU investment firms* or *UK parent entities*, these entities may find the *guidance* in this section helpful in understanding the *FCA's* general approach to considering whether *MIFIDPRU investment firms* are complying with the *overall financial adequacy rule* and the other requirements of the *ICARA process*.
- (3) The *guidance* in this section relates only to the *FCA's* approach to the *SREP*. It does not apply to any other supervisory action that the *FCA* may take, except where stated.

Purpose

- 7.10.2 G The *own funds* and *liquid assets* necessary to comply with the *overall financial adequacy rule* need to be assessed by the *firm* and, where appropriate, the *FCA*. This involves:
- (1) the *ICARA process* applied by the *firm*, or, in the circumstances set out in *MIFIDPRU 7.9*, by the *investment firm group*;
- (2) the *FCA's* monitoring of the information provided by a *firm* under its ongoing reporting obligations in *MIFIDPRU 9*; and
- (3) in appropriate cases, a *SREP*, which is conducted by the *FCA*.

Decision to conduct a SREP

- 7.10.3 G (1) There is no mandatory frequency with which the *FCA* will conduct a *SREP* on a particular *MIFIDPRU investment firm* or *investment firm group*. Instead, the *FCA* will prioritise its resources to conduct *SREPs* by taking into account a range of factors, which include:
- (a) the nature, scale and complexity of the business carried on by a *firm* or *investment firm group*;
- (b) the *FCA's* analysis of the risks associated with the *firm* or *investment firm group* and its potential to cause harm to *consumers* or to the financial markets;
- (c) the information provided by a *firm* or other members of its *group* to the *FCA* under any notification and reporting obligations under *MIFIDPRU* or other obligations in the *Handbook*;

- (d) the history of the *firm's* or *investment firm group's* interactions with the *FCA*;
 - (e) any broader concerns about the types of products or services offered by the *firm* or the *investment firm group*, or the markets in which it operates; and
 - (f) any concerns relating to the *firm* or *investment firm group* which may be notified to the *FCA* by other regulators (including non-financial services regulators).
- (2) In appropriate cases, the *FCA* may conduct a review of a particular population of *MIFIDPRU investment firms* or *investment firm groups* that share common features (for example, because they are all active in a particular market sector). As a result, the *FCA* may issue *guidance* on a sectoral basis or impose additional *requirements* on all, or only a subset of, the entities included within that review.
- (3) The scale of a *SREP* that the *FCA* carries out on an individual *MIFIDPRU investment firm* or *investment firm group* may vary, depending on the nature of the *FCA's* concerns and the potential degree of risk posed by the *firm* or *investment firm group*. In certain cases, the *FCA* may limit its review to only a subset of the information and factors that it would normally consider under the general approach described in *MIFIDPRU 7.10.4G* and *7.10.5G*.

Information and factors considered by the *FCA* when conducting a *SREP*

- 7.10.4 G When conducting a *SREP*, the *FCA* will take into the following:
- (1) the *firm's* or *investment firm group's ICARA document*;
 - (2) any relevant information provided by the *firm* or other members of its *group* as part of its reporting obligations under *MIFIDPRU 9* or other obligations in the *Handbook*;
 - (3) any other information or documents requested by the *FCA* for the purposes of the *SREP*;
 - (4) interviews with members of the *firm's governing body*, or its employees, advisers, service providers, and auditors;
 - (5) information shared by other authorities; and
 - (6) any other relevant information that the *FCA* holds.
- 7.10.5 G The following is a non-exhaustive list of factors that the *FCA* will normally consider when conducting its *SREP*:
- (1) the extent to which the *firm's* or *investment firm group's* risk management framework includes a clearly defined risk appetite;

- (2) the governance arrangements operated by the *firm* or *investment firm group*, including whether there are clear lines of accountability and evidence of appropriate senior management involvement;
- (3) whether the *firm* or *investment firm group* has appropriately identified and assessed the materiality of:
 - (a) the harms that may arise from the ongoing operation of the *firm's* or *group's* business;
 - (b) the harms that may result from a disorderly wind-down of the *firm* or other members of its *group*;
- (4) whether the *firm* or *investment firm group* has adequate systems and controls in place to monitor and manage the risks arising from its business;
- (5) whether the *firm* or *investment firm group* has properly integrated its *ICARA process* into day-to-day decision making within its business;
- (6) whether the *firm*, and where applicable, other individual members of its *investment firm group*, have adequate *own funds* and *liquid assets* to comply with the *overall financial adequacy rule*;
- (7) whether the capital and liquidity planning and business model analysis (and, where applicable, stress testing and reverse stress testing) conducted by the *firm* or *investment firm group* is based on plausible scenarios that are relevant to the business it undertakes; and
- (8) whether the wind-down planning assessment conducted by the *firm*, and where applicable, other individual members of its *investment firm group*, is adequate, contains a clear explanation of the key steps needed to ensure an orderly wind-down and is based on realistic assumptions.

Examples of actions that the FCA may take following a SREP

- 7.10.6 G (1) Once the *FCA* has completed a *SREP*, it will consider whether any corrective action is necessary to ensure that (among other outcomes) a *firm*:
- (a) complies with the *overall financial adequacy rule*;
 - (b) has an appropriate plan in place to ensure an orderly wind-down; and

- (c) appropriately identifies and manages the material potential harms that may result from the ongoing operation of the *firm's* business.
- (2) When considering the action that it may take, the *FCA* will consider its powers and the potential harms that it has identified during the *SREP*. The following is a non-exhaustive list of actions that the *FCA* may take:
- (a) requiring a *firm* to hold additional *own funds* or *liquid assets*;
 - (b) requiring a *firm* to implement new risk management or governance arrangements;
 - (c) requiring a *firm* to provide to the *FCA*, within a specified period, an improvement plan to ensure that the *firm* complies with the applicable requirements in the *Handbook* or other legislation;
 - (d) requiring a *firm* to apply a particular policy for provisioning or for the treatment of assets when calculating its *own funds* or *own funds requirement*;
 - (e) restricting the activities that a *firm* may undertake as part of its business (which may be on a permanent basis, for a specified period of time, or until certain specified conditions are met);
 - (f) requiring a *firm* to reduce the level of risk involved in the products or services it provides, including in relation to activities that it has outsourced to third parties;
 - (g) requiring a *firm* to reduce or limit the amount of variable remuneration it pays;
 - (h) requiring a *firm* to reduce or limit its distributions of profits;
 - (i) imposing additional or more frequent reporting requirements on a *firm*;
 - (j) requiring a *firm* to hold an *own funds* or *liquid assets* buffer in excess of the amounts necessary to comply with the *overall financial adequacy rule*;
 - (k) requiring a *firm* to make additional public disclosures;
 - (l) requiring a *firm* to strengthen its data security, confidentiality or data protection processes;

- (m) requiring a *firm* to provide additional information to *clients* or counterparties;
- (n) withdrawing a permission previously granted under *MIFIDPRU* to apply a specific treatment (such as a *K-CMG permission*, or a permission to use an internal model for the purposes of the *K-NPR requirement*);
- (o) requiring a *firm* to use a different *wind-down trigger*;
- (p) requiring a *firm* to modify its legal structure or the structure of its *group*, where doing so would improve the *FCA*'s ability to supervise the *firm*;
- (q) giving individual *guidance* to the *firm* on any of the above matters or on any other matter that the *FCA* considers is relevant.

7.10.7 G The *FCA* would normally expect to take the actions described in *MIFIDPRU* 7.10.6G by using one or more of the following approaches:

- (1) exercising the powers under section 55J of the *Act* permitting the *FCA* to vary or cancel a *firm's permission* on the *FCA's* own initiative;
- (2) inviting a *firm* to make a voluntary application for the imposition of a *requirement* under section 55L(5) of the *Act*;
- (3) imposing a *requirement* on a *firm* on the *FCA's* own initiative under section 55L(3) of the *Act*;
- (4) withdrawing a *MIFIDPRU* permission in accordance with the *rules* in *MIFIDPRU*;
- (5) imposing a *requirement* on a *parent undertaking* in accordance with section 143K of the *Act*;
- (6) requiring a *firm* or *parent undertaking* to provide additional information to the *FCA* under section 165 of the *Act*;
- (7) requiring a report by a *skilled person* in accordance with section 166 of the *Act*; or
- (8) giving individual *guidance* to a *firm* under section 139A of the *Act*, as further described in *SUP* 9.3.

General *FCA* approach to requiring a firm to hold additional own funds or liquid assets

7.10.8 G (1) Following a *SREP*, the *FCA* may conclude that a *firm* should hold an additional amount of *own funds* or *liquid assets* to comply with the *overall financial adequacy rule*.

- (2) In this case, the *FCA* will normally specify an amount of *own funds* and/or *liquid assets* that the *firm* should hold by:
 - (a) issuing individual *guidance*; or
 - (b) imposing a *requirement* on the *firm*.
 - (3) The amount in (2) normally represents the *FCA*'s assessment of the *firm*'s overall *own funds threshold requirement* or *liquid assets threshold requirement*. However, in some cases, it may be specified on a different basis (such as by reference to a specific component of the *threshold requirement* or to a particular risk or harm).
 - (4) Where the *FCA* has undertaken a sectoral review, as described in *MIFIDPRU 7.10.3G(2)*, it may issue *guidance* to, or impose a *requirement* on, some or all *firms* that are active in that sector, without conducting an individual *SREP* in relation to each *firm*. The *guidance* or *requirement* may relate to:
 - (a) additional amounts of *own funds* or *liquid assets* that the *firms* must hold; or
 - (b) other actions that the *firms* must undertake.
- 7.10.9 G (1) The *FCA* will determine whether a *requirement* or *guidance* is more appropriate. Where the *FCA* issues *guidance*, this will normally explain how the *FCA* will approach supervising the *overall financial adequacy rule* in relation to the *firm*. The *FCA* expects that the *firm* would normally confirm to the *FCA* that the *firm* will treat the amounts specified in that *guidance* as its *threshold requirements* going forward (and will therefore hold the relevant of *own funds* and *liquid assets* to comply with the *overall financial adequacy rule*), unless the *firm* subsequently determines under its *ICARA process* that higher amounts are required.
- (2) Where the *FCA* applies a *requirement* in connection with the *overall financial adequacy rule*, it may invite a *firm* to make a voluntary application under section 55L(5) of the *Act* to impose a *requirement* on the *firm* to hold the level of *own funds* or *liquid assets* that the *FCA* has assessed as being the *firm*'s *threshold requirements*.
 - (3) If a *firm* declines to make a voluntary application to impose the relevant *requirement*, the *FCA* may use its powers under section 55L(3) of the *Act* to impose the *requirement* on the *firm* on the *FCA*'s own initiative.
 - (4) The *FCA* may also consider whether it is appropriate to invite a *parent undertaking* of the *firm* to make a voluntary application under section 143K(1) of the *Act*, or to impose a *requirement* on

the *parent undertaking* on the *FCA's* own initiative under section 143K(3) of the *Act*. This *requirement* may operate by reference to the status of the *investment firm group* as a whole. Examples of when the *FCA* may choose to apply this approach include where:

- (a) an *investment firm group* is operating an *ICARA process* that covers multiple *firms* in accordance with *MIFIDPRU 7.9*; or
 - (b) the *FCA* considers that the potential harms arising from a *firm's* membership of its *group* can be addressed more effectively by imposing a *requirement* on the *parent undertaking*.
- (5) *Guidance* on a *threshold requirement* issued by the *FCA* (or, where applicable, a *requirement* to hold a minimum level of *own funds* or *liquid assets* imposed on a *firm* by the *FCA*) will apply until the *FCA* issues *guidance* on a revised *threshold requirement* (or varies or removes the *requirement* relating to *own funds* or *liquid assets*) in relation to the *firm*.
- (6) If a *firm* subsequently determines, as a result of its *ICARA process*, that it needs to hold a higher level of *own funds* or *liquid assets* to satisfy the *overall financial adequacy rule*, it must hold that higher level. This is because the *FCA's* assessment of a *firm's threshold requirement* (or a *requirement* applied to the *firm* by the *FCA*) reflects an assessment carried out at that point in time and does not relieve the *firm* of its obligation to comply with the *overall financial adequacy rule* at all times.
- (7) A *firm's* business model or operating model may change significantly, with the result that the *firm* considers that the *threshold requirement* specified in the *guidance* issued by, or the *requirement* applied by, the *FCA* exceeds the amount of *own funds* or *liquid assets* that the *firm* requires to comply with the *overall financial adequacy rule*. In this case, the *firm*:
- (a) should undertake its own assessment of the amounts that the *firm* requires to comply with the *overall financial adequacy rule* or, where applicable, to address the risks in relation to which the *requirement* was imposed; and
 - (b) having undertaken the determination in (a), may contact the *FCA* to request a review of the existing *guidance* or *requirement*.

7.10.10 G The following is a non-exhaustive list of situations in which the *FCA* may assess that a *firm* must hold additional *own funds* to comply with the *overall financial adequacy rule*:

- (1) the business of the *firm* or *investment firm group* may result in material harm that is not sufficiently covered by the *firm's*

assessment of its *own funds threshold requirement* and has not otherwise been adequately mitigated;

- (2) the *firm* or *investment firm group* does not comply with the governance requirements in *MIFIDPRU 7.2* or *7.3*;
- (3) the *firm's* or *investment firm group's ICARA process* does not comply with the relevant requirements in *MIFIDPRU 7*;
- (4) the adjustments in relation to the prudent valuation of the *firm's* or *investment firm group's trading book* are insufficient to enable the *firm* or *investment firm group* to sell out or hedge its positions within a short period without incurring material losses under normal market conditions;
- (5) the review of the *firm's* use of internal models or own estimates of delta for the purposes of the *K-NPR requirement* or *K-TCD requirement* indicates that non-compliance with the requirements for applying those models is likely to lead to inadequate levels of *own funds*;
- (6) the manner in which the *firm* or *investment firm group* operates its business suggests that there is a significant risk that it will fail to comply with the *overall financial adequacy rule* in the foreseeable future; or
- (7) the *firm's* wind-down plan does not identify realistic and credible actions for ensuring an orderly wind-down or is based on unreasonable or unrealistic assumptions.

7.10.11 G The *FCA* may provide *guidance* on a *firm's own funds threshold requirement* (or, where applicable, impose a *requirement*) by reference to:

- (1) a percentage of the *firm's own funds requirement*;
- (2) the requirement that would result from applying a modified coefficient to one or more *K-factor metrics* for the purposes of the *firm's K-factor requirement*; and/or
- (3) a fixed amount.

7.10.12 G A *firm* must meet any *own funds threshold requirement* with *own funds* that satisfy the conditions in *MIFIDPRU 7.6.5R* unless the *FCA* applies an alternative *requirement* to the *firm*.

7.10.13 G The following is a non-exhaustive list of situations in which the *FCA* may assess that a *firm* needs to hold additional *liquid assets* to comply with the *overall financial adequacy rule*:

- (1) the business of the *firm* or *investment firm group* may result in material harm that is not sufficiently covered by the *liquid assets*

threshold requirement as assessed by the *firm* and has not otherwise been adequately mitigated;

- (2) the *firm* or *investment firm group* does not comply with the governance requirements in *MIFIDPRU* 7.2 or 7.3 in one or more material respects;
- (3) the *firm's* or *investment firm group's ICARA process* does not comply with the requirements in *MIFIDPRU* 7;
- (4) the *firm* or *investment firm group's* funding profile indicates that there may be a significant liquidity mismatch between amounts payable and receivables;
- (5) the manner in which the *firm* or *investment firm group* operates its business suggests that there is a significant risk that it will fail to comply with the *overall financial adequacy rule* in the foreseeable future; or
- (6) the *firm's* wind-down plan does not identify realistic and credible actions for ensuring an orderly wind-down or is based on unreasonable or unrealistic assumptions.

- 7.10.14 G
- (1) A *firm* can normally meet its *liquid assets threshold requirement* with any type of *liquid assets*. This is subject to the overriding requirement that in all cases, a *firm* must meet its *basic liquid assets requirement* with *core liquid assets*.
 - (2) However, in appropriate cases, the *FCA* may require a *firm* to meet all or part of its *liquid assets threshold requirement* with a more limited subset of *liquid assets*. For example, in certain cases, the *FCA* may require a *firm* to hold *core liquid assets* to cover particular risks or may disallow the use of certain *non-core liquid assets*.
 - (3) The *FCA* may also:
 - (a) require a *firm* to apply modified haircuts to *non-core liquid assets*; or
 - (b) impose certain requirements relating to a *firm's* funding profile and the matching of expected liquidity outflows and inflows.
 - (4) Where the *FCA* wishes to apply the approaches in (2) or (3), it will normally invite the *firm* to apply for the imposition of a *requirement* to that effect under section 55L(5) of the *Act*. In appropriate cases, the *FCA* may impose such a *requirement* on its own initiative in accordance with section 55L(3) of the *Act*.

Purpose

- 1.1 G (1) This annex contains *guidance* on how a *MIFIDPRU investment firm* can assess the potential harms arising from its business as part of the *ICARA process*.
- (2) This *guidance* is designed to be of relevance to all *firms*, but not every aspect of this *guidance* will be relevant to every *firm*. A *firm* should consider this *guidance* in light of its particular business model.
- (3) A *firm's ICARA process* must be proportionate to the nature, scale and complexity of its activities. This *guidance* should be interpreted by reference to what is proportionate and appropriate for a particular *firm*.

General approach to assessing material potential harms

- 1.2 G (1) For the purposes of its *ICARA process*, a *firm* should identify potential harms by considering plausible hypothetical scenarios that may occur in relation to the activities that the *firm* carries on. The *firm* should also consider the possibility that certain scenarios may occur at the same time or that there may be a correlation between connected scenarios.
- (2) A *firm* should generally estimate the nature and size of potential harms by using its own knowledge and experience.
- (3) Where appropriate, a *firm* may use peer analysis to estimate potential harms. In this case, the *firm* should take into account any material differences between the *firm's* business and the business carried on by its peer, and to the extent that it is aware of them, any material differences in their respective systems and controls.
- (4) A *firm* may, but is not required to, use statistical models to identify potential harms, but where it does, the *firm* should consider the following factors:
- (a) the importance of ensuring that the statistical model is properly integrated into the *firm's* wider approach to mitigating risk under the *ICARA process* and appropriately takes into account the *guidance* on assessing harm in *MIFIDPRU 7*;
- (b) the *FCA's* expectation that relevant *individuals* within the *firm* who are responsible for the *firm's* risk management function or for the oversight of that function should fully understand how the model operates, including any relevant assumptions or limitations and

should be able to explain how this contributes to compliance with the *overall financial adequacy rule*;

- (c) the accuracy of the model depends on ensuring that the inputs into the model are appropriate and properly reflect the *firm's* business;
 - (d) the importance of periodically checking that the outputs of the model remain appropriate. This includes model validation; and
 - (e) the fact that excessive reliance on the model may result in the *firm* failing to operate wider risk management systems and controls.
- (5) In some cases, it may be reasonable for a *firm* to take into account the impact of insurance when assessing potential harms and considering how the *firm* manages risks. However, *firms* should note that in many cases, insurance may not be an adequate substitute for financial resources that are required to address harm immediately. *Firms* should also consider the terms of any insurance, including any limitations or exclusions, when assessing the extent to which insurance may be an appropriate and effective risk mitigant.

Examples of situations that may result in material harm to clients

- 1.3 G The following are non-exhaustive examples of risks to *clients* or to the market that may arise from a *firm's* business:
- (1) breach of an investment mandate, resulting in *clients* being exposed to risks outside of their specified tolerance or to investments which are otherwise unsuitable for their objectives;
 - (2) trading or dealing errors that result in losses to *clients*;
 - (3) outages in, or other problems with, the *firm's* systems that cause disruption to the continuity of the *firm's* services (for example, by preventing the *firm's* *clients* from being able to see the value of their investments or from being able to issue trading instructions), leading to financial losses for *clients*;
 - (4) corporate finance advice which results in a legal claim against the *firm*;
 - (5) losses to *clients* caused by the activities of the *firm's* *tied agents* or *appointed representatives* (including in respect of any business which is not *MiFID business* for which the *firm* may be liable as principal) for which the *firm* is responsible;

- (6) provision of unsuitable *investment advice*, for example in relation to pension transfers or investments, resulting in *clients* suffering losses;
- (7) failure to comply with any applicable provisions of CASS, resulting in potential losses to *clients*; and
- (8) the inability to return money received by the *firm* by way of *title transfer collateral arrangement* promptly to a *client* when required.

Examples of situations that may result in harm to the firm

- 1.4 G (1) Events that result in material harm to a *firm* may affect the viability of the *firm's* business. In turn, that may affect the *firm's* ability to meet its obligations to *clients* or to its other counterparties and may increase the risk of a disorderly wind-down.
- (2) The following are non-exhaustive examples of situations that may result in material harm to a *firm*:
- (a) claims on *tied agents* or *appointed representatives* that result in the *firm* being liable as principal;
 - (b) the failure of significant *clients* or counterparties upon which the *firm* relies to generate a significant proportion of its revenue;
 - (c) significant operational events, such as the failure of key systems or internal fraud; and
 - (d) obligations of the *firm* relating to liabilities under a defined benefit pension scheme.

Assessing the harm that may result from insufficient liquidity

- 1.5 G When assessing potential harms that may occur in connection with its business, a *firm* should consider any potential impact on its *liquid assets*. Where a *firm* has insufficient *liquid assets* to cover the relevant harm, it may find itself unable to pay its debts as they fall due. In turn, this could trigger an unexpected insolvent wind-down, which has the potential to cause harm to *clients*, counterparties and the wider markets.
- 1.6 G (1) The systems that the *firm* uses to identify and monitor liquidity risk should be tailored to its business lines, the currencies in which it operates and its structure (taking into account, for example, whether it operates *branches* or supports *subsidiaries* or other *group* entities). In addition, those systems should consider liquidity costs, benefits and risks, including intra-day *liquidity risk*.

- (2) The systems that a *firm* uses to identify and monitor *liquidity risk* should be proportionate to the complexity, size, structure and risk profile of the *firm* and the scope of its operations.
- 1.7 G When a *firm* is assessing the quality and amount of *liquid assets* that it has available, the following is a non-exhaustive list of factors that may be relevant:
- (1) the extent to which assets held by the *firm* can be converted into cash within a reasonable time period;
 - (2) any legal or operational restrictions that may apply to the *firm* or to particular assets, which may affect the *firm's* ability to realise assets or to access cash in a timely manner;
 - (3) the extent to which *liquid assets* may be held, or the proceeds of the *firm's* assets may be received, in currencies other than the expected currency of the *firm's* liabilities and the ease with which those currencies can be converted (including in stressed market conditions); and
 - (4) any legal or practical restrictions on the transferability of funds between the *firm* and other members of its *group*, including in stressed market conditions.
- 1.8 G When a *firm* is assessing the amount of *liquid assets* it may need to address potential harms, the following is a non-exhaustive list of factors that may be relevant:
- (1) any concentration of the *firm's* funding arrangements, including in relation to:
 - (a) counterparties (or groups of connected counterparties) providing funding;
 - (b) products or facilities used to provide funding; and
 - (c) currencies;
 - (2) the extent to which the *firm* may be exposed to mismatches between the maturity of its assets and its liabilities;
 - (3) whether stressed market conditions could lead to accelerated cash outflows from the *firm* or longer-term reductions in the availability of *liquid assets*;
 - (4) whether intra-day obligations could affect the *firm's* ability to meet its payment and settlement obligations in a timely manner (including potential margin calls in relation to the *firm's* own positions, or positions of the *firm's clients* in respect of which the *firm* has an obligation to meet the relevant margin call);

- (5) any requirements on the *firm* (whether or not they are legally binding) arising from any off-balance sheet arrangements, including:
 - (a) commitments under any credit or liquidity facilities (including those which may be cancelled at any time) or guarantees;
 - (b) obligations under any liquidity facilities supporting securitisation programmes; or
 - (c) obligations in relation to *client money*;
- (6) payments that the *firm* may make to maintain its franchise, reputation or brand or to ensure the continued viability of its business, even though the *firm* may be under no legal obligation to make the payments; and
- (7) the possibility of other unexpected payment obligations, such as:
 - (a) direct or indirect costs arising from litigation;
 - (b) redress payments; or
 - (c) fines or penalties.

- 1.9 G
- (1) When considering *liquidity risk* and potential harms, a *firm* should consider whether it has sufficient diversification in funding sources.
 - (2) A *firm* should consider whether there may be a correlation between different market conditions and the *firm's* ability to access funding from different sources.
 - (3) When analysing what level of funding diversification is appropriate for its business, a *firm* should consider the following:
 - (a) the maturity date of any funding arrangements;
 - (b) the nature of the counterparty providing the funding;
 - (c) whether the funding arrangement is secured or unsecured;
 - (d) if the funding arrangement is in the form of a *financial instrument*, the relevant type of instrument;
 - (e) the currency of the funding arrangement; and
 - (f) the geographical market of the funding arrangement.

- (4) A *firm* should regularly assess whether its ability to raise short, medium and long-term liquidity is sufficient for its ongoing requirements.
- 1.10 G (1) A *firm* should consider whether it has appropriately addressed potential harms arising from *liquidity risk* in relation to the following aspects of the *firm's* significant business activities:
- (a) product pricing;
 - (b) performance measurement and incentives; and
 - (c) the approval process for new products.
- (2) A *firm* should take into account the *liquidity risk* arising from any significant business activities and product lines, whether or not they are accounted for on the *firm's* balance sheet.
- (3) A *firm* should clearly identify the liquidity costs and benefits attributable to particular significant business and product lines and relevant *individuals* within business line management for those areas should have an appropriate understanding of such costs and benefits.
- (4) A *firm* should address all significant business activities, including those that involve the creation of contingent exposures which may not have an immediate balance sheet impact.
- (5) Incorporating liquidity pricing into a *firm's* processes may assist in aligning the risk-taking incentives of individual business lines within a *firm* with the *liquidity risk* and potential harms that may result from the activities of those business lines.
- 1.11 G (1) *Firms* should consider intra-day liquidity positions when considering the *liquidity risk* and potential harms that may result from their operations.
- (2) As part of their *ICARA process*, a *firm* should identify:
- (a) any significant time-critical payment or settlement obligations and any arrangements that are in place to prioritise the payments;
 - (b) any significant payment or settlement obligations that the *firm* may have as a result of acting as a custodian or a settlement agent;
 - (c) any potential net funding shortfalls that the *firm* may have at different points during the *day*;

- (d) potential significant disruptions to its intra-day liquidity flows and any arrangements in place to deal with these; and
 - (e) any arrangements necessary to ensure the proper management of collateral.
- 1.12 G When identifying *liquidity risk* and potential material harms that may result in relation to a *firm's* use and management of collateral, the following considerations are relevant:
- (1) the *firm's* ability to distinguish clearly at any time between encumbered assets and assets that are unencumbered and available to meet the *firm's* liquidity needs, particularly in an emergency situation;
 - (2) the jurisdiction in which the assets are based or registered and any legal or regulatory restrictions that may apply to the availability or use of the assets as a result;
 - (3) any operational restrictions that may apply in relation to the assets;
 - (4) the extent to which collateral deposited by the *firm* with a counterparty or third party may have been rehypothecated;
 - (5) the extent to which the assets available to the *firm* to use as collateral are likely to be acceptable to the *firm's* major counterparties and liquidity providers;
 - (6) the impact of any existing financing or security arrangements entered into by the *firm* (which may contain financial covenants, warranties, events of default or negative pledge clauses) on the *firm's* ability to provide collateral; and
 - (7) the potential impact of severe but plausible stressed scenarios on the *firm's* ability to provide collateral where necessary and on any collateral received by the *firm*.
- 1.13 G A *firm* that has significant positions in foreign currencies should consider the *liquidity risk* and potential harms that may arise as a result of the positions.
- 1.14 G As part of its assessment under *MIFIDPRU* 7.9.2R, a *firm* that forms part of a *group* should consider the extent to which membership of that *group* may have an impact on the *firm's* own liquidity position.

In-depth stress testing and reverse stress testing

- 1.15 G The *guidance* in *MIFIDPRU 7 Annex 1.16G* to *MIFIDPRU 7 Annex 1.20G* is relevant to *firms* with more complex businesses or operating models.
- 1.16 G Stress testing carried out by a *firm* should involve the following:
- (1) identifying severe but plausible adverse scenarios which are relevant to the *firm* and the market in which it operates;
 - (2) stating clear assumptions, when compared to the *firm's* business-as-usual projections, which are consistent with the scenarios identified in (1);
 - (3) considering the impact of the scenarios identified in (1) against the *firm's* own risk appetite, by reference to:
 - (a) individual business lines or portfolios; and
 - (b) the overall position of the *firm* as a whole;
 - (4) assessing the impact of the scenarios in (1) on the *firm's*:
 - (a) available *own funds* and *liquid assets*; and
 - (b) *own funds requirement* and *basic liquid assets requirement*;
 - (5) estimating the effects of scenarios identified in (1) on each of the following as they relate to the *firm*, both before and after taking into account any realistic management actions:
 - (a) profits and losses;
 - (b) cash flows;
 - (c) the liquidity position; and
 - (d) the overall financial position; and
 - (6) the *firm's governing body* regularly reviewing the scenarios identified in (1) to ensure that their nature and severity remain appropriate and relevant to the *firm*.
- 1.17 G When considering the impact of the scenarios in *MIFIDPRU 7 Annex 1.16G(1)* on a *firm's* available *liquid assets*, the *FCA* considers that the following factors are relevant:
- (1) correlations between funding markets;
 - (2) the effectiveness of diversification across the *firm's* chosen sources of funding;

- (3) any potential additional margin calls or collateral requirements;
- (4) contingent claims, including potential draws on committed lines extended to third parties or other entities within the *firm's group*;
- (5) *liquid assets* absorbed by off-balance sheet vehicles and activities (including conduit financing);
- (6) the transferability of *liquid assets*;
- (7) access to central bank market operations and liquidity facilities;
- (8) estimates of future balance sheet growth;
- (9) the continued availability of market liquidity in a number of currently highly liquid markets;
- (10) the ability to access secured and unsecured funding;
- (11) currency convertibility; and
- (12) access to payment or settlement systems on which the *firm* relies.

- 1.18 G Reverse stress testing carried out by a *firm* should involve the following:
- (1) identifying a range of adverse circumstances which would cause the *firm's* business model to become unviable;
 - (2) assessing the likelihood that the adverse circumstances in (1) will occur;
 - (3) determining whether the risk of the *firm's* business model becoming unviable is unacceptably high when compared with the *firm's* risk appetite or tolerance; and
 - (4) where the *firm* determines under (3) that the risk is unacceptably high, adopting effective arrangements, processes, systems or other measures to prevent or mitigate that risk. This may include making appropriate changes to the *firm's* business model or operating model.
- 1.19 G For the purposes of reverse stress testing, the following are non-exhaustive examples of when a *firm's* business model may become unviable:
- (1) all or a substantial portion of the *firm's* counterparties are unwilling to continue transacting with the *firm* or seeking to terminate their contracts with it. In some circumstances, the failure of a single major counterparty or *client* may cause a

firm's business to become unviable, particularly if this could result in wider market disruption;

- (2) another member of the *firm's group* is unable or unwilling to provide the support which is necessary for the *firm* to continue its business (for example, by withdrawing access to shared services or funding arrangements);
- (3) the *firm's* existing shareholders or owners are unwilling to provide new capital when required; or
- (4) a sustained and continued reliance on income or revenue generated from a peripheral activity (for example, interest income derived from *client money*).

1.20 G The following table is a simple example of how a *firm* might analyse and record the outcome of stress testing using the *guidance* in MIFIDPRU 7 Annex 1.18G.

Example scenario	Likelihood	Mitigants
Failure of a significant counterparty leads to a liquidity shortfall that causes the <i>firm</i> to default on its own obligations	Medium – above <i>firm's</i> risk appetite	Contingency funding plan
30% drop in revenue over a 6-month period leads to sustained losses and management actions have little impact	Low – in line with <i>firm's</i> risk appetite	
Management actions after a stress event fail to rebuild capital and the <i>firm's group</i> and shareholders are unwilling to inject further capital	Low – in line with <i>firm's</i> risk appetite	
Large numbers of staff and outsourced providers are absent due to illness during a pandemic and the <i>firm</i> is not able to operate revenue-	High – above <i>firm's</i> risk appetite	Identify back up outsourcing providers and enable staff to work from home

generating activities for a <i>month</i>		
Cyber-attack results in the <i>firm</i> being unable to access systems and provide services for 3 weeks. This results in loss of revenue, a liquidity shortfall and fines from regulators	Medium – above <i>firm's</i> risk appetite	Improvements to cyber resilience

- 1.21 G A *firm's* business model may become unviable long before the *firm's* financial resources have been exhausted. The *FCA* recognises that not every business failure is the result of a lack of financial resources and individual *firms* may vary in their assessment of when they would be unwilling or unable to continue carrying on their activities. Examples of where a *firm's* business model may become unviable before its financial resources are exhausted include:
- (1) the *firm* has a sustained and continued reliance on income or revenue generated from a peripheral or ancillary activity, such as interest income derived from *client money*; or
 - (2) the *firm* is reliant on *title transfer collateral arrangements* to meet its *basic liquid assets requirement* on a sustained basis.

7 Annex 2 Additional guidance on assessing potential harms that is relevant for firms dealing on own account or firms with significant investments on their balance sheet

Purpose

- 2.1 G (1) This annex contains *guidance* on how a *MIFIDPRU investment firm* should assess the potential harms arising from its business as part of its *ICARA process*. This *guidance* is primarily intended to be relevant to *firms* that *deal on own account* or hold significant investments on their balance sheets. It should be interpreted in light of the *firm's* individual business model.
- (2) *Firms* are reminded that their *ICARA process* must be proportionate to the nature, scale and complexity of their activities. This *guidance* should be interpreted by reference to what is proportionate for a particular *firm*.
- 2.2 G A *firm* that *deals on own account* or holds significant investments on its balance sheets may be at increased risk of events that result in significant losses or other harm to the *firm*. In turn, this may increase

the risk of a *firm* defaulting on its obligations to counterparties or becoming insolvent and entering a disorderly wind-down.

Examples of situations that may result in material harm to the firm

- 2.3 G The following are examples of situations that may result in harm to the *firm*:
- (1) material adverse changes in the book value of the *firm's* assets;
 - (2) the failure of the *firm's clients* or counterparties; and
 - (3) losses incurred or payments due in connection with positions taken by the *firm* in *financial instruments*, foreign currencies and commodities (irrespective of whether those positions form part of the *firm's trading book* or not).
- 2.4 G When a *firm* is assessing potential harms connected with material changes in the book value of the *firm's* assets, the following non-exhaustive list of factors may be relevant:
- (1) changes in the creditworthiness or the default of a *client* or counterparty, where that change or default may result in the *firm* realising assets below their book value or recording impairments, revaluations or write-downs;
 - (2) changes in market conditions which may affect relevant prices, indices or rates, including changes in equity, debt or foreign exchange markets or interest rates;
 - (3) operational events or natural disasters that may affect the value of the *firm's* assets;
 - (4) any concentration of the *firm's* assets in relation to a specific:
 - (a) *client* or counterparty (or group of connected *clients* or counterparties);
 - (b) economic sector or sub-sector; or
 - (c) geographical market.

This concentration assessment should not be limited to the particular risks covered by the requirements in *MIFIDPRU 5*, but should involve a broader assessment of the risks that may arise in relation to the concentration;
 - (5) whether any of the *firm's* assets are, or have a value which depends on, complex products, such as interests in securitisations or structured products which are complex or opaque;

- (6) the extent to which the *firm* has used leverage (including contingent leverage); and
 - (7) whether the *firm* has any exposures under off-balance sheet items, such as commitments or guarantees.
- 2.5 G When a *firm* is assessing potential harms arising from the failure of its *clients* or counterparties, the following non-exhaustive list of factors may be relevant:
- (1) changes in the creditworthiness or the default of a *client* or counterparty, which may result in direct losses for the *firm* or the need to revalue or replace transactions;
 - (2) changes in market conditions which may result in the *firm* incurring greater costs to replace a transaction that the *client* or counterparty has failed to settle;
 - (3) the risk that collateral received from the *client* or counterparty may not be as effective as expected at covering the losses arising from that *client* or counterparty's failure or default; and
 - (4) any concentration of the *firm's* exposures in relation to the *client* or counterparty or the economic sector or geographical market in which that *client* or counterparty is active.
- 2.6 G Where a *firm* is subject to the *K-TCD requirement* or the *K-CON requirement*, the *FCA* would generally expect the *firm* to consider whether those requirements are sufficient to cover the harms that may result from the failure of its *clients* or counterparties to fulfil their obligations. In some cases, those requirements may not apply in relation to the *client*, counterparty or position in question, or may not adequately address the relevant risks. Where this is the case, the *firm* should consider other measures to address the potential harm.
- 2.7 G Where a *firm* is assessing potential harms arising from the *firm's* positions in *financial instruments*, foreign currencies and commodities, the following non-exhaustive list of factors may be relevant:
- (1) the extent to which the relevant position may involve risks that are not adequately captured by the *firm's K-NPR requirement*, *K-CMG requirement* or *K-CON requirement*, such as:
 - (a) basis risk between certain products;
 - (b) risks arising from approximate valuations applied to non-linear products;
 - (c) the risk that large movements in pegged currencies may be underestimated; or

- (d) risks arising from inadequate proxy market data;
- (2) whether a position is illiquid or distressed, or whether it may become so under severe but plausible market conditions, and how this may affect the expected holding period for that position;
- (3) the extent to which it is possible to hedge a position under both normal, and severe but plausible, market conditions;
- (4) whether a position is difficult to value because of a lack of recent observable market data;
- (5) whether the intra-day exposure associated with a position differs significantly from the end-of-day exposure;
- (6) any known weaknesses in any model used by the *firm* to assess the risks arising from the position; and
- (7) the concentration of the portfolio in which the position is held, including by reference to:
 - (a) issuers or counterparties;
 - (b) economic sectors or sub-sectors; and
 - (c) geographical markets.

1. Please confirm to which of the following the notification relates:

a. Own funds of an individual firm

b. Consolidated own funds

This would only apply in a scenario where the FCA has imposed a requirement on a UK parent entity to operate an ICARA on a consolidated basis. In this case, references in this form to a "firm" refer to the consolidated situation of the relevant UK parent entity.

2. Please confirm which notification applies:

a. Early warning indicator notification

b. Threshold requirement notification

c. Wind-down trigger notification

3. Please confirm the current level of the firm's own funds in comparison to its own funds threshold requirement and, for a wind-down trigger notification, own funds wind-down trigger:

a. Own funds amount

£

b. Own funds threshold requirement amount

£

c. Own funds wind-down trigger amount (for a wind-down trigger notification)

£

d. As at date

DD/MM/YYYY

4. Please explain why the firm's own funds have reached the current level:

--

4. Early warning indicator notification

a. Does the firm expect that in the foreseeable future its own funds could fall below its own funds threshold requirement?

Yes/No

Note: The firm will be required to make a separate notification when its own funds fall below its own funds threshold requirement.

i. Please explain why the firm has this expectation:

--

ii. If you have responded "No", does the firm expect that its own funds could fall below the level specified as part of the firm's ICARA process in accordance with MIFIDPRU 7.5.1R(1), which, if reached, may indicate that it is likely to breach its threshold requirement?

Yes/No

b. If applicable, please explain what recovery actions the firm intends to take, as identified under MIFIDPRU 7.5.5R(2)(a) and 7.5.6G:

--

5. Threshold requirement notification

Please explain what recovery actions specified for the purposes of MIFIDPRU 7.5.5R(2)(b) and 7.5.6G the firm has already taken or will take to restore compliance with its own funds threshold requirement:

6. Wind-down trigger notifications

Please explain the firm’s intentions in relation to activating its wind-down plan:

9 Reporting

9.1 Application

9.1.1 R This chapter applies to:

- (1) a *MIFIDPRU investment firm*;
- (2) a *UK parent entity* that is required under *MIFIDPRU* 2.5.7R to comply with *MIFIDPRU* 9 on the basis of its *consolidated situation*; and
- (3) a *GCT parent undertaking* that is required to submit reports on its compliance with the *group capital test* in accordance with *MIFIDPRU* 2.6.10R.

9.1.2 R

- (1) The provisions of *SUP* 16.3 (General provisions on reporting) listed in (2) apply to reports submitted under this chapter as if the reports had been submitted under *SUP* 16.
- (2) The provisions are:
 - (a) *SUP* 16.3.6R to *SUP* 16.3.10G (How to submit reports);
 - (b) *SUP* 16.3.11R to *SUP* 16.3.12G (Complete reporting); and

- (c) *SUP* 16.3.14R to *SUP* 16.3.16G (Failure to submit reports).

9.1.3 G Under *SUP* 16.3.14R (as applied to reports under this chapter by *MIFIDPRU* 9.1.2R), a £250 administrative fee applies where a *firm* does not submit a complete report by the date on which that report is due under the applicable requirements and submission procedures. *SUP* 16.3.14AG explains that the *FCA* may also take disciplinary action in appropriate cases.

9.2 Periodic reporting requirements

9.2.1 R A *non-SNI MIFIDPRU investment firm* must:

- (1) submit the *data items* specified in column (A) of the table in *MIFIDPRU* 9.2.2R to the *FCA* with the frequency specified in column (C) of that table;
- (2) complete the *data items* in (1) with data that show the position on the relevant reporting reference date in column (D) of the table in *MIFIDPRU* 9.2.2R; and
- (3) submit the *data items* in (1) before the submission deadline in column (E) of the table in *MIFIDPRU* 9.2.2R.

9.2.2 R The following table belongs to *MIFIDPRU* 9.2.1R:

(A) <i>Data item</i>	(B) <i>Data item description</i>	(C) Reporting frequency	(D) Reporting reference dates	(E) Submission deadline
MIF001	Capital	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September; (4) December	20 <i>business days</i> after the reporting reference date
MIF002	Liquidity	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September; (4) December	20 <i>business days</i> after the reporting reference date

MIF003	Metrics monitoring	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September; (4) December	20 <i>business days</i> after the reporting reference date
MIF004	Non-K-CON concentration risk reporting	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September; (4) December	20 <i>business days</i> after the reporting reference date
MIF005	K-CON concentration risk reporting	Quarterly	(1) The <i>firm's accounting reference date</i> ; (2) The <i>firm's accounting reference date</i> plus 3 months; (3) The <i>firm's accounting reference date</i> plus 6 months; (4) The <i>firm's accounting reference date</i> plus 9 months;	20 <i>business days</i> after the reporting reference date
MIF007 (note 1)	ICARA assessment questionnaire	Annually (note 2)	The reference date according to which the <i>firm</i> reviews the adequacy of its <i>ICARA process</i> under <i>MIFIDPRU</i> 7.8.2R	The date notified to the <i>FCA</i> by the <i>firm</i> under <i>MIFIDPRU</i> 7.8.4R (or such other date as directed by the <i>FCA</i>)

Note 1	Where a <i>firm</i> is included in a <i>group ICARA process</i> in accordance with <i>MIFIDPRU 7.9.5R</i> , the <i>firm</i> must still submit <i>data item MIF007</i> on an individual basis, containing information about the <i>firm</i> that has been derived from that <i>group ICARA process</i> . <i>Data item MIF007</i> does not apply on a <i>consolidated basis</i> .
Note 2	Under <i>MIFIDPRU 7.8.2R</i> , in certain circumstances, a <i>firm</i> may carry out a review of its <i>ICARA process</i> more frequently than the minimum required annual frequency. If so, the <i>firm</i> must submit <i>data item MIF007</i> separately after each review.

9.2.3 R An *SNI MIFIDPRU investment firm* must:

- (1) submit the *data items* specified in column (A) of the table in *MIFIDPRU 9.2.4R* to the *FCA* with the frequency specified in column (C) of that table;
- (2) complete the *data items* in (1) with data that show the position on the relevant reporting reference date specified in column (D) of the table in *MIFIDPRU 9.2.4R*; and
- (3) submit the *data items* in (1) before the submission deadline in column (E) of the table in *MIFIDPRU 9.2.4R*.

9.2.4 R The following table belongs to *MIFIDPRU 9.2.3R*:

(A) <i>Data item</i>	(B) <i>Data item description</i>	(C) Reporting frequency	(D) Reporting reference dates	(E) Submission deadline
MIF001	Capital	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September; (4) December	20 <i>business days</i> after the reporting reference date
MIF002 (Note 1)	Liquidity	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September;	20 <i>business days</i> after the reporting reference date

			(4) December	
MIF003	Metrics monitoring	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September; (4) December	20 <i>business days</i> after the reporting reference date
MIF007 (note 2)	ICARA assessment questionnaire	Annually (note 3)	The reference date according to which the <i>firm</i> reviews the adequacy of its <i>ICARA process</i> under <i>MIFIDPRU 7.8.2R</i>	The date notified to the <i>FCA</i> by the <i>firm</i> under <i>MIFIDPRU 7.8.4R</i> (or such other date as directed by the <i>FCA</i>)
Note 1	If, exceptionally, the <i>FCA</i> has exempted an <i>SNI MIFIDPRU investment firm</i> from the liquidity requirements in <i>MIFIDPRU 6</i> , the <i>firm</i> is not required to submit MIF002.			
Note 2	Where a <i>firm</i> is included in a <i>group ICARA process</i> in accordance with <i>MIFIDPRU 7.9.5R</i> , the <i>firm</i> must still submit <i>data item MIF007</i> on an individual basis, containing information about the <i>firm</i> that has been derived from that <i>group ICARA process</i> . <i>Data item MIF007</i> does not apply on a <i>consolidated basis</i> .			
Note 3	Under <i>MIFIDPRU 7.8.2R</i> , in certain circumstances, a <i>firm</i> may carry out a review of its <i>ICARA process</i> more frequently than the minimum required annual frequency. If so, the <i>firm</i> must submit <i>data item MIF007</i> separately after each review.			

9.2.5 R Where a *firm* is required to submit any of the *data items MIF001 to MIF005* under *MIFIDPRU 9.2.1R* or *9.2.3R*, it must submit the *data items*:

- (1) in the format specified in *MIFIDPRU 9 Annex 1R*; and
- (2) in accordance with the instructions in *MIFIDPRU 9 Annex 2G*.

- 9.2.6 R Where an *investment firm group* contains multiple *MIFIDPRU investment firms*, the *firms* may designate a single *MIFIDPRU investment firm* or the *UK parent entity* to submit all necessary *data items* under this section on their behalf.
- 9.2.7 G Where a *MIFIDPRU investment firm* (“A”) designates another *MIFIDPRU investment firm* or a *UK parent entity* (“B”) to submit *data items* under *MIFIDPRU 9.2.6R*, A remains responsible for the timely submission and accuracy of any *data items* submitted by B on A’s behalf.

9.3 Reporting on a consolidated basis

- 9.3.1 R (1) A *UK parent entity* that is required by *MIFIDPRU 2.5.7R* to comply with this chapter on a *consolidated basis* must:
- (a) submit *data items* in accordance with *MIFIDPRU 9.2.1R* on the basis of its *consolidated situation* if it is treated as a *non-SNI MIFIDPRU investment firm* under *MIFIDPRU 2.5.21R*; or
 - (b) submit *data items* in accordance with *MIFIDPRU 9.2.3R* on the basis of its *consolidated situation* if it is treated as an *SNI MIFIDPRU investment firm* under *MIFIDPRU 2.5.21R*.
- (2) For the purposes of (1), *MIFIDPRU 9.2* applies with the following modifications:
- (a) a reference to a “*firm*” is a reference to the hypothetical single *MIFIDPRU investment firm* created under the *consolidated situation*; and
 - (b) the submission deadline for consolidated *data items* under column (E) of the tables in *MIFIDPRU 9.2.2R* and *MIFIDPRU 9.2.4R* is 30 *business days* after the reporting reference date.
- 9.3.2 G *MIFIDPRU 2.5* sets out guidance on how to apply the requirements in *MIFIDPRU* on the basis of the *consolidated situation* of a *UK parent entity*. The guidance may assist a *UK parent entity* in completing the *data items* required under this section.

9.4 Group capital test reporting

- 9.4.1 R A *GCT parent undertaking* that is required to report on the *group capital test* under *MIFIDPRU 2.6.10R* must:
- (1) submit the *data item* specified in column (A) of the table in *MIFIDPRU 9.4.2R* to the *FCA* with the frequency specified in column (C) of that table;

- (2) complete the *data item* in (1) with data that show the position on the relevant reporting reference date specified in column (D) of the table in *MIFIDPRU 9.4.2R*; and
- (3) submit the *data item* in (1) before the submission deadline in column (E) of the table in *MIFIDPRU 9.4.2R*.

9.4.2 R The following table belongs to *MIFIDPRU 9.4.1R*:

(A) <i>Data item</i>	(B) <i>Data item description</i>	(C) Reporting frequency	(D) Reporting reference dates	(E) Submission deadline
MIF006	Group capital test reporting	Quarterly	Last <i>business day</i> in: (1) March; (2) June; (3) September; (4) December	20 <i>business days</i> after the reporting reference date

- 9.4.3 R (1) This *rule* applies where:
- (a) a *GCT parent undertaking* is a *responsible UK parent*; and
 - (b) *MIFIDPRU 2.6.10R(2)(b)(i)* applies in relation to a *subsidiary* of that *responsible UK parent*.
- (2) Where this *rule* applies, the *responsible UK parent* must submit an additional *data item* under *MIFIDPRU 9.4.1R* that shows the position of the *subsidiary* in (1)(b).

9.4.4 R Where a *GCT parent undertaking* is required to submit *data item* MIF006 under *MIFIDPRU 9.4.1R* or *9.4.3R*, it must submit that *data item*:

- (1) in the format specified in *MIFIDPRU 9 Annex 1R*; and
- (2) in accordance with the instructions in *MIFIDPRU 9 Annex 2G*.

9.4.5 G Under *MIFIDPRU 2.6.11R*, a *GCT parent undertaking* may designate a single *parent undertaking* in the *UK* to submit *data items* to the *FCA* on behalf of all *GCT parent undertakings* within the same *investment firm group*. However, each *GCT parent undertaking* remains

responsible for ensuring the timely submission and accuracy of any *data items* submitted on its behalf.

Guidance notes for MIFIDPRU 9 Annex 2G

MIF001 – Adequate financial resources (Own funds)

Introduction

This data item provides the FCA with information on the solvency of an FCA investment firm. It is intended to reflect the underlying adequate financial resources requirements contained in MIFIDPRU and allows monitoring against the requirements set out there, and also against those individual requirements placed on firms. We have provided references to the underlying rules to assist completion of this data item.

This data item applies to all FCA investment firms. In the text below we have identified where particular data elements do not apply to all firms.

Consolidated reports

This form applies to both individual FCA investment firms and to consolidation groups. If completed on behalf of a consolidation group, it should be completed on the basis of the consolidated situation and references to an FCA investment firm should be taken to refer to the situation that would result if the consolidation group were treated as a single large FCA investment firm. Firms should refer to MIFIDPRU 2.5 for further information on how MIFIDPRU applies on a consolidated basis.

Currency

All figures should be reported in Sterling. Figures should be reported in 000s.

Defined Terms

The descriptions indicated in these notes are designed simply to repeat, summarise or amplify the relevant statutory or other definitions and terminology, including, where appropriate, the FCA investment firm's accounting framework, without departing from their full meaning or effect.

The terms used in this guidance note have the same meaning as the terms used in MIFIDPRU. Defined terms are not italicised in this note.

Data elements

These are referred to by row first, then column.

Basis of completion**1A – Basis of completion**

Is the MIF001 report on behalf of a consolidation group? Enter 'Yes' in this cell if the report is being completed by a prudential consolidation group.

2A – Details of other firms within the group

If the answer to cell 1A is yes, please list the firm reference numbers (FRN) of all FCA regulated entities in the consolidated situation, and the group reference number, if applicable.

Own funds held

This section applies to all FCA investment firms.

FCA investment firms are required to hold own funds in excess of their own funds threshold requirement. Own funds held to meet the own funds threshold requirement must be made up of Common Equity Tier 1 (CET1), Additional Tier 1 (AT1) and Tier 2 (T2) capital.

3A – Common Equity Tier 1 capital

FCA investment firms should enter the amount of CET1 capital they hold for their own funds. CET1 capital should be calculated in accordance with Article 50 of the UK CRR as applied and modified by Section 3.3 of MIFIDPRU – Common equity tier 1 capital. This cell must always be completed with a positive number.

4A – Additional Tier 1 capital

FCA investment firms should enter the amount of AT1 capital they hold for their own funds. AT1 capital should be calculated in accordance with Article 61 of the UK CRR as applied and modified by Section 3.4 of MIFIDPRU – Additional tier 1 capital.

FCA investment firms are not required to hold/issue AT1 capital. If no AT1 has been issued or is held, enter a zero in this cell.

5A – Tier 2 capital

FCA investment firms should enter the amount of T2 capital they hold for their own funds. T2 capital should be calculated in accordance with Article 71 of the UK CRR as applied and modified by Section 3.5 of MIFIDPRU – Tier 2 capital.

FCA investment firms are not required to hold/issue T2 capital. If no T2 has been issued or is held, enter a zero in this cell.

6A – total annual fixed overheads

The fixed overheads requirement is one quarter of the FCA investment firm's previous financial year's annual relevant expenditure after the distribution of profits. The annual relevant expenditure should be calculated in accordance with MIFIDPRU 4.5. The number

entered should be the total annual relevant expenditure, not the fixed overheads requirement.

If there has been a material increase to the FCA investment firm's relevant expenditure during the year (as specified in MIFIDPRU 4.5), the revised projected relevant expenditure should be included here.

If there has been a material decrease in the FCA investment firm's relevant expenditure during the year (as specified in MIFIDPRU 4.5), the revised projected relevant expenditure should only be included here if the firm has obtained permission from the FCA to substitute a reduced fixed overheads requirement based on that relevant expenditure.

7A – variation in fixed overheads

FCA investment firms should select 'Yes' if its FOR has changed due to a material change in its business model (as defined in MIFIDPRU 4.5). If this is the case, the number entered into cell A6 should be the equivalent annual relevant expenditure for the FCA investment firm's amended FOR.

8A – Permanent minimum requirement (PMR)

If completed on an individual basis, FCA investment firms should enter one of the following numbers:

- 75 if the firm has a PMR of £75,000
- 150 if the firm has a PMR of £150,000
- 750 if the firm has a PMR of £750,000

Where a transitional provision allows an FCA investment firm to substitute an alternative PMR, this figure should reflect its standard requirement (and not the alternative lower figure under the transitional provision).

If completed on a consolidated basis, FCA investment firms should enter the consolidated PMR, calculated in accordance with MIFIDPRU 2.5.27R.

K-factor requirements

This section does not apply to SNI firms and these firms should leave it blank. Where a non-SNI firm does not have permission to carry out the relevant activity, the cell should be left blank.

In this section, non-SNI firms should provide the relevant K-factor requirement. Values should be provided in thousands, rather than units.

For example, if the firm has calculated its average AUM to be £1 million, its K-AUM requirement is £200. The number to be entered in cell 10A is 0.2.

9A – Total K-factor requirement

FCA investment firms should enter the total amount of their K-factor requirement. This figure should be the sum of cells 10A to 23A.

10A – K-AUM

FCA investment firms should input their K-AUM requirement calculated in accordance with MIFIDPRU 4.7.

11A –K-CMH (segregated)

FCA investment firms should enter their K-CMH requirement for segregated accounts, calculated in accordance with MIFIDPRU 4.8.

A segregated account is defined in the Handbook Glossary.

12A –K-CMH (non-segregated)

FCA investment firms should enter their K-CMH requirement for non-segregated accounts, calculated in accordance with MIFIDPRU 4.8.

A non-segregated account is an account that does not satisfy the conditions to be a segregated account.

13A – K-ASA

FCA investment firms should enter their K-ASA requirement calculated in accordance with MIFIDPRU 4.9.

Client orders handled**14A – K-COH (cash trades)**

FCA investment firms should enter their K-COH requirement for cash trades calculated in accordance with MIFIDPRU 4.10.

15A – K-COH (derivative trades)

FCA investment firms should enter their K-COH requirement for derivatives trades calculated in accordance with MIFIDPRU 4.10.

Daily Trading Flow**16A – K-DTF (cash trades)**

FCA investment firms should enter the value of their K-DTF requirement for cash trades calculated in accordance with MIFIDPRU 4.15.

17A – this cell has been deliberately left blank**18A – K-DTF (derivative trades)**

FCA investment firms should enter the value of their K-DTF requirement for derivative trades calculated in accordance with MIFIDPRU 4.15.

19A – this cell has been deliberately left blank**20A – K-NPR (K-factor requirement)**

FCA investment firms should enter the capital requirement calculated for net position risk in accordance with MIFIDPRU 4.12.

21A – K-CMG

FCA investment firms should enter the total capital requirement calculated for K-CMG in accordance with MIFIDPRU 4.13. The value given shall be the sum of the individual K-CMG requirements for each portfolio for which the firm has obtained a K-CMG permission from the FCA.

22A – K-TCD

FCA investment firms should enter their total capital requirement calculated for K-TCD in accordance with MIFIDPRU 4.14.

23A – K-CON

FCA investment firms should enter their total own funds requirement calculated for K-CON in accordance with MIFIDPRU 5.7.

Transitional requirements

This section applies to all FCA investment firms if they are relying on transitional provisions to limit their own funds requirement. Firms that are not relying on transitional provisions should leave these fields blank.

24A – Transitional requirement

FCA investment firms should enter the current amount of any transitional own funds requirement.

Note, that where an FCA investment firm changes its permissions during this period in a manner that would result in an increase in its permanent minimum requirement under MIFIDPRU, it will no longer be able to take advantage of any transitional provisions that limit its permanent minimum own funds requirement. Before the FCA will grant any change in permission, it will assess whether the investment firm is able to meet the full permanent minimum own funds requirement and any other additional requirements that may apply as a result of the change.

25A – Basis of transitional

FCA investment firms should identify by reference to the relevant provision in MIFIDPRU the transitional provision or provisions they are relying on for their own funds requirement entered in cell 24A.

Own funds threshold requirement/wind-down trigger

This section applies to all FCA investment firms.

26A – Own funds threshold requirement

An FCA investment firm should enter the higher of:

- its own assessment of its own funds threshold requirement as determined through the ICARA process (MIFIDPRU 7.6) or
- the amount specified by the FCA to be its own funds threshold requirement

It is possible that both the FCA investment firm and the FCA have determined that no additional own funds are required to that set by the MIFIDPRU 4 requirements. In this case, the FCA investment firm should enter the higher of its PMR, its FOR and its KFR (where this applies).

27A – Own funds wind-down trigger

An FCA investment firm should enter its Fixed Overhead Requirement unless the FCA has specified an alternative own funds wind-down trigger.

MIF002 – Adequate financial resources (Liquid assets)

Introduction

This data item provides the FCA with information on the liquidity position of the FCA investment firm. This data item is intended to reflect the underlying adequate financial resources requirements in MIFIDPRU 6 and MIFIDPRU 7. It allows monitoring against these MIFIDPRU requirements and any individual requirements placed on a firm. We have provided references to the underlying rules to assist in its completion.

This data item applies to all FCA investment firms. In the text below we have identified where elements do not apply to all firms.

Additional information on liquid assets held may be required as part of the MIF007 – ICARA reporting form. We would also expect to see additional details in the FCA investment firm's report on its ICARA process, which must be provided to the FCA if requested.

MIFIDPRU 6 provides further information on the basic liquid assets requirement and core liquid assets. MIFIDPRU 7.7 provides further information on the liquid assets threshold requirement and non-core liquid assets.

Consolidated reports

This form applies to both individual FCA investment firms and to consolidation groups. If completed on behalf of a consolidation group, it should be completed on the basis of the consolidated situation and references to FCA investment firm should be taken to refer to the consolidation group.

Currency

All figures should be reported in Sterling. Figures should be reported in 000s.

Defined Terms

The descriptions in these notes are designed simply to repeat, summarise or amplify the relevant statutory or other definitions and terminology without departing from their full meaning or effect.

Data elements

These are referred to by row first, then column.

Basis of completion

1A asks FCA investment firms to specify the basis on which this report is being completed.

2A asks for the FRNs of all the FCA investment firms that form part of the consolidation group.

Basic liquid asset requirement

3A – Basic liquid asset requirement based on fixed overheads

Enter the value of the basic liquid asset requirement that is based on the requirement to hold liquid assets equivalent to one third of the FCA investment firm's fixed overheads requirement. Where the firm is making use of an FOR transitional provision, the basic liquid asset requirement is one third of its transitional FOR.

4A – Basic liquid asset requirement based on client guarantees

Enter the basic liquid asset requirement that is based on the requirement to hold core liquid assets equivalent to 1.6% of the value of guarantees that have been provided to clients.

Core liquid assets held

5A – Core liquid assets held (excluding receivables from trade debtors)

Enter the total core liquid assets held. Trade receivables should not be included in this figure.

6A – Value of qualifying trade receivables

Enter the value of receivables from trade debtors that would qualify as core liquid assets. The value reported should be before applying any haircuts.

To be counted as core liquid assets, the relevant conditions in MIFIDPRU 6.3.3R must be met.

Liquid assets threshold requirement/wind-down trigger

7A – Liquid assets threshold requirement

An FCA investment firm should enter the higher of:

- its own assessment of its liquid assets threshold requirement as determined through the ICARA process as set out in MIFIDPRU 7.7 or
- the amount specified by the FCA to be its liquid assets threshold requirement

8A – Liquid assets wind-down trigger

An FCA investment firm should enter its basic liquid assets requirement unless the FCA has specified to the firm an amount that should be its liquid assets wind-down trigger.

Non-core liquid assets held

Information on what can be counted as a non-core liquid asset and the relevant haircuts is provided in MIFIDPRU 7.7.

9A – Value of non-core liquid assets post-haircut

Enter the total value of any non-core liquid assets that the firm has and is using, to satisfy its liquid assets threshold requirement.

The value reported should be after applying any haircuts. See MIFIDPRU 7.7 for details on assets that are eligible as non-core liquid assets and MIFIDPRU 7.7.11G for more information on haircuts.

MIF003 – Monitoring metrics

Introduction

This data item provides the FCA with information on the size and complexity of an FCA investment firm. The data item is intended to reflect the SNI thresholds in MIFIDPRU and allows monitoring against those thresholds. It also allows the FCA to see any trends in the FCA investment firm's data. We have provided references to the underlying rules to assist in its completion.

This data item applies to all FCA investment firms. In the text below we have identified where particular data elements do not apply to all firms.

This data item should be completed on the basis of an FCA investment firm's MiFID business activities. If an FCA investment firm cannot determine the split between its MiFID activities and any other business activities it undertakes, it should count everything as being a MiFID activity for these purposes.

Consolidated reports

This form applies to both individual FCA investment firms and to consolidation groups. If completed on behalf of a consolidation group, it should be completed on the basis of the consolidated situation and references to an FCA investment firm should be taken to refer to the situation that would result if the consolidation group were treated as a single large FCA investment firm. Firms should refer to MIFIDPRU 2.5 for further information on how MIFIDPRU applies on a consolidated basis.

Currency

All figures should be reported in Sterling. Figures should be reported in 000s.

Defined Terms

The descriptions indicated in these notes are designed simply to repeat, summarise or amplify the relevant statutory or other definitions and terminology, including, where appropriate, the FCA investment firm's accounting framework, without departing from their full meaning or effect.

The terms used in this guidance note have the same meaning as the terms used in MIFIDPRU. Defined terms are not italicised in this note.

Data elements

These are referred to by row first, then column.

Basis of completion

1A – Basis of completion

The FCA investment firm should indicate whether MIF003 is being completed on an individual or on a consolidated basis.

2A – details of other firms within the group

Enter the firm reference numbers of all the FCA regulated entities in the consolidated situation, and the group reference number, where applicable.

Metrics

FCA investment firms should only submit information for the activities they undertake at the time at which the report is submitted (or that they have undertaken in the past, where the historical activities continue to be reflected in the calculation of one or more K-factor metrics).

Where the FCA investment firm does not undertake an activity and there is no historical activity that continues to be reflected in the calculation of the relevant K-factor metric, it should leave the field blank. For example, an FCA investment firm may have ceased discretionary portfolio management on 1 March. As the calculation of average AUM is based on a 15-month period, the firm would report a positive number for its average AUM in cell 3A until 1 June in the following year on the basis of its historical activities.

Unless specified, we are not asking for the K-factor requirement but the value of the underlying activity that is used to calculate the K-factor requirement.

3A – Average AUM

Enter the average AUM as calculated in accordance with MIFIDPRU 4.7. This will be the value used to calculate K-AUM.

The next three fields ask for the AUM at a point in time, rather than an average over a specific time period. FCA investment firms should use the value of AUM as at the last business day of each calendar month.

Where an FCA investment firm cannot determine the split of AUM for MiFID and non-MiFID activities, it must report its total AUM here.

4A – AUM at T

Enter the assets under management on the reporting date.

5A – AUM at T-1 month

Enter the total assets under management on the last working day of the month before the reporting date.

6A – AUM at T-2 months

Enter the total assets under management on the last working day of the second month before the reporting date.

7A – CMH (segregated)

Enter the average CMH held in segregated accounts as calculated in accordance with MIFIDPRU 4.8. This is the amount of MiFID client money (as defined in the Handbook Glossary) that the firm holds in segregated accounts. This will be the value used to calculate K-CMH (segregated).

A segregated account is defined in in the Handbook Glossary.

The next three fields ask for the CMH (segregated) at a point in time, rather than an average over a specific time period. FCA investment firms should use the value of CMH on the last business day of each calendar month. Over time this will provide us with a time series of the actual CMH of the FCA investment firm.

Where an FCA investment firm cannot determine the split of CMH (segregated) for MiFID and non-MiFID activities, it must report its total CMH (segregated) here.

8A – CMH (segregated) at T

Enter the amount of MiFID client money in segregated accounts on the reporting date.

9A – CMH (segregated) at T – 1 month

Enter the amount of MiFID client money in segregated accounts on the last working day of the month before the reporting date.

10A – CMH (segregated) at T – 2 months

Enter the amount of MiFID client money in segregated accounts on the last working day of the second month before the reporting date.

11A – CMH (non-segregated)

Enter the average CMH held in non-segregated accounts as calculated in accordance with MIFIDPRU 4.8. This is the amount of MiFID client money (as defined in the Handbook Glossary) that the firm holds in non-segregated accounts. This will be the value used to calculate K-CMH (non-segregated).

A non-segregated account is an account that does not satisfy the conditions to be a segregated account.

The next three fields ask for the CMH (non-segregated) at a point in time, rather than an average over a specific time period. FCA investment firms should use the value of CMH on the last business day of each calendar month. Over time this will provide us with a time series of the actual CMH of the FCA investment firm.

Where an FCA investment firm cannot determine the split of CMH (non-segregated) for MiFID and non-MiFID activities, it must report its total CMH (non-segregated) here.

12A – CMH (non-segregated) at T

Enter the amount of MiFID client money in non-segregated accounts on the reporting date.

13A – CMH (non-segregated) at T – 1 month

Enter the amount of MiFID client money in non-segregated accounts on the last working day of the month before the reporting date.

14A – CMH (non-segregated) at T – 2 months

Enter the amount of MiFID client money in non-segregated accounts on the last working day of the second month before the reporting date.

15A – Average ASA

Enter the average ASA, calculated in accordance with MIFIDPRU 4.9. ASA is the amount of client assets safeguarded and administered by the firm, where such assets are held in connection with MiFID business. This includes where such assets have been deposited by the firm into accounts opened with third parties.

The next three fields ask for the ASA at a point in time, rather than an average over a specific time period. FCA investment firms should use the value of ASA on the last business day of each calendar month. Over time this will provide us with a time series of the actual ASA of the FCA investment firm.

Where an FCA investment firm cannot determine the split of ASA for MiFID and non-MiFID activities, it must report its total ASA here.

16A – ASA at T

Enter the total amount of assets safeguarded and administered in connection with the FCA investment firm's MiFID business on the reporting date.

17A – ASA at T – 1 month

Enter the total amount of assets safeguarded and administered in connection with MiFID business on the last working day of the month before the reporting date.

18A – ASA at T – 2 months

Enter the total amount of assets safeguarded and administered in connection with MiFID business on the last working day of the second month before the reporting date.

The next two fields ask for average COH, both cash and derivatives, that the firm will then use to calculate its K-COH requirement. The K-COH requirement should not be input here.

19A – Average COH (cash)

Enter the average COH for cash trades, calculated in accordance with MIFIDPRU 4.10 on the reporting date.

20A – Average COH (derivatives)

Enter the average COH for derivatives trades, calculated in accordance with MIFIDPRU 4.10 on the reporting date.

21A – Average DTF (cash)

Enter the average DTF for cash trades, calculated in accordance with MIFIDPRU 4.15 on the reporting date.

22A – Average DTF (derivatives)

Enter the average DTF or derivatives trades, calculated in accordance with MIFIDPRU 4.15 on the reporting date.

DTF in stressed market conditions

This applies where a proportion of the DTF occurred on a trading segment of a trading venue to which stressed market conditions apply. Stressed market conditions are as defined in Article 6 of the Market Making RTS.

Cells 23A and 24A can be left blank where the firm has not experienced stressed market conditions since they previously submitted this form.

23A – DTFexcl (cash)

Enter DTFexcl (cash) calculated in accordance with MIFIDPRU 4.15.10R 3(c).

24A – DTFexcl (derivatives)

Enter DTFexcl (derivatives) calculated in accordance with MIFIDPRU 4.15.10R 4(c).

25A - On- and off-balance sheet total

Enter the sum of the on- and off-balance sheet assets using figures from the last financial year for which accounts have been finalised and approved by the management body.

Where the accounts have not been finalised and approved after 6 months from the end of the previous financial year, provisional figures may be used.

26A – Annual gross revenue from MiFID services and activities

Enter the sum of the annual gross revenues from MiFID services and activities using figures from the last financial year for which accounts have been finalised and approved by the management body.

Where the accounts have not been finalised and approved after 6 months from the end of the previous financial year, provisional figures may be used.

Where an FCA investment firm cannot determine the split of revenue between MiFID and non-MiFID activities, it must report its total revenue here (i.e. effectively, it should assume that all revenue results from MiFID services and activities).

27A – Permission to deal on own account

Indicate if the FCA investment firm has permission to deal on own account.

If the report is being completed on behalf of a consolidation group, enter a 'Yes' in this cell where any FCA regulated entity within the group has permission to deal on own account for MiFID business.

MIF004 – Non-K-CON Concentration risk monitoring

Introduction

This data item provides the FCA with information on where the FCA investment firm may have various types of concentration risk. We have provided references to the underlying rules to assist in its completion.

This data item only applies to a non-SNI FCA investment firm. We have specified where particular data items do not apply to all non-SNIs. Firms should only complete the sections where they undertake the activity. Where a section does not apply to a particular firm, it should enter 'N/A' into the first field in that section. For example, a firm that does not hold client money will put 'N/A' in cell 13A.

Information provided in the section on earnings (Rows 28 to 31) can be taken from quarters based on their most recent accounting reference date.

Consolidated reports

This form applies to both individual FCA investment firms and to consolidation groups. If completed on behalf of a consolidation group, it should be completed on the basis of the consolidated situation and references to an FCA investment firm should be taken to refer to the situation that would result if the consolidation group were treated as a single large FCA investment firm. Firms should refer to MIFIDPRU 2.5 for further information on how MIFIDPRU applies on a consolidated basis.

Currency, figures and percentages

Unless specified as a percentage, all figures should be reporting in Sterling. Figures should be reported in 000s. Percentages should be rounded to the nearest whole number.

Defined Terms

The descriptions indicated in these notes are designed simply to repeat, summarise or amplify the relevant statutory or other definitions and terminology, including, where appropriate, the FCA investment firm's accounting framework, without departing from their full meaning or effect.

The terms used in this guidance have the same meaning as the terms used in MIFIDPRU. Defined terms are not italicised in this note.

Data elements

These are referred to by row first, then column.

In this report, we are asking for the location of the FCA investment firm's client money and client securities, where these relate to its MiFID investment business, and the FCA investment firm's own cash. By location we mean the entities the investment firm uses for these purposes. We are also asking for information about the source of an FCA investment firm's earnings.

This is a broader concept than would generally be considered a concentration risk and that previously used in the CRR for large exposures. However, the potential risk from these areas is something that we require investment firms to monitor.

Basis of completion

1A – Basis of completion

Is the MIF004 report on behalf of a consolidation group? Enter 'Yes' in this cell if the report is being completed by a prudential consolidation group.

2A – details of other firms within the group

If the answer to cell 1A is yes, enter the firm reference numbers (FRN) of all the FCA regulated entities in the consolidated situation, and the group reference number, where applicable.

All positions or exposures (not including intragroup exposures)

This section only applies to FCA investment firms who deal on own account. These firms should report the total value of all exposures or positions to a counterparty, including exposures in and outside of its trading book, such as bilateral loans.

Firms should include positions or exposures to central governments, public sector entities, or other exposures that are excluded from K-CON under MIFIDPRU 5.10.1R, except that they should not include intragroup exposures. Intragroup exposures are captured in a separate data item.

Row 3 will indicate where the largest exposure/position with a counterparty is, followed by rows 3 to 7 in decreasing amounts. If a firm has less than 5 exposures, it should leave subsequent rows blank.

Where firms have exposures to multiple counterparties who constitute a single group of connected clients under MIFIDPRU 5 (Concentration risk), they should report separately on each counterparty for the purposes of this data item. However, firms are reminded that MIFIDPRU 5.2 requires them to account for groups of connected clients when monitoring and controlling concentration risk.

Cells 3A to 7A, inclusive – LEI number

Enter the Legal Entity Identifier (LEI) number of up to 5 counterparties that the FCA investment firm has the largest exposures/positions with. The LEI number must be used if available. If the counterparty does not have an LEI number, the FCA investment firm should use its internal reference number for that counterparty. This internal reference number should be consistent over time and across regulatory returns.

Cells 3B to 7B, inclusive – value of exposures/positions with that counterparty

Enter the total amount of the exposures/positions held with each counterparty, starting with the largest.

Intragroup exposures

This section only applies to FCA investment firms who deal on own account. By intragroup we mean exposures to other entities within the same group. Group for these purposes is as defined in s.421 of the Financial Services and Markets Act 2000 (FSMA). It is not limited to other entities within the FCA investment firm's consolidated situation.

Where this section is being completed on the basis of the consolidated situation, there may still be intragroup exposures from inside the consolidated situation to entities that are part of the same group, as defined in s.421 FSMA, but are outside of the consolidated situation.

FCA investment firms that are completing the form on a consolidated basis should not include intragroup exposures between firms that are part of the consolidated situation.

Firms should report the total value of all exposures or positions to a counterparty, including exposures in and outside of its trading book, such as bilateral loans.

Firms should provide details of the largest 5 intragroup exposures only. These could be to another group FCA investment firm, or to any other entity within the group. This section can be left blank where there are no intragroup exposures.

Row 8 will indicate where the largest exposure/position with a counterparty is, followed by rows 9 to 12 in decreasing amounts. If a firm has less than 5 exposures, it should leave subsequent rows blank.

Cells 8A to 12A, inclusive – LEI number

Enter the LEI number of up to 5 group entities that the FCA investment firm has the largest exposures/positions with. The LEI number must be used if available. If the counterparty does not have an LEI number, the FCA investment firm should use its FRN, if available. If the counterparty has neither an LEI nor an FRN it should use its internal reference number for that counterparty. This internal reference number should be consistent over time and across regulatory returns.

Cells 8B to 12B, inclusive – value of exposures/positions with that counterparty

Enter the total amount of the exposures/positions held with each counterparty, starting with the largest.

Location of client money

This section only applies to FCA investment firms that have permission to hold client money. It only relates to MiFID client money (as defined in the Glossary). If a firm is unable to determine whether an amount of client money is MiFID client money, it must treat it as being MiFID client money for these purposes.

Row 13 will indicate where the largest percentage of the FCA investment firm's MiFID client money is held, followed by rows 14 to 17 in decreasing amounts. If an FCA investment firm uses less than five entities to hold its MiFID client money, it should leave subsequent rows blank. In that case, the sum of percentages should be 100%.

Cells 13A – 17A, inclusive – LEI number

Enter the LEI number of up to five entities where MiFID client money is placed, beginning with the largest percentage. The LEI must be used if available. Where cash has been placed with a money market fund (MMF), the LEI of the MMF itself must be reported. If an LEI is not available, the FRN must be used where available. If the entity does not have an LEI number or an FRN, the FCA investment firm should use its internal reference number for that counterparty. This internal reference number should be consistent over time and across regulatory returns.

Cells 13B – 17B, inclusive – percentage of client money held at that institution

Enter the percentage of MiFID client money held at each institution, starting with the largest. Percentages should be rounded to the nearest whole number.

Cells 13C to 17C, inclusive – MMF (Yes/No)

Specify "Yes" or "No" to indicate if the cash has been placed with a money market fund (MMF) rather than deposited with a credit institution or central bank.

Location of client securities

This section only applies to FCA investment firms that have permission to hold client securities/assets. It relates to client securities/assets held in connection with the FCA investment firm's MiFID business.

Row 18 will indicate where the largest percentage of the FCA investment firm's client securities are held, followed by rows 19 to 22 in decreasing amounts. If an FCA investment firm uses less than five entities to hold its client securities, it should leave subsequent rows blank. In that case, the sum of percentages should be 100%.

Cells 18A to 22A, inclusive – LEI number

Enter the LEI number of up to five institutions where its client securities are held, beginning with the largest percentage. The LEI must be used if available. If not, the FRN must be used if available. If the entity does not have an LEI number or an FRN, the FCA investment firm should use its internal reference number for that counterparty. This internal reference number should be consistent over time and across regulatory returns.

Cells 18B to 22B, inclusive – percentage of client securities held at that institution

Enter the percentage of client securities held at each institution, starting with the largest. Percentages should be rounded to the nearest whole number.

Location of the investment firm's own cash and holdings in MMFs

Row 23 will indicate where the largest percentage of the FCA investment firm's own cash is held, followed by rows 24 to 27 in decreasing amounts. If an FCA investment firm uses less than five entities to hold its own cash, it should leave subsequent rows blank. In that case, the sum of percentages should be 100%.

For these purposes, FCA investment firms should report their holdings in money market funds (MMFs) alongside their holdings in cash (e.g. on deposit at a credit institution).

Cells 23A to 27A, inclusive – LEI number

FCA investment firms should enter the LEI number of up to five institutions where its own cash is held or MMFs it has holdings in, beginning with the largest percentage. The LEI must be used if available. For holdings in a money market fund (MMF), the LEI of the MMF itself must be reported. If an LEI is not available, the FRN must be used. If the entity does not have an LEI number or an FRN, the FCA investment firm should use its internal reference number for that institution. This internal reference number should be consistent over time and across regulatory returns.

Cells 23B to 27B, inclusive – percentage of FCA investment firm's own cash/MMF holdings at that institution

FCA investment firms should enter the percentage of its own cash/MMF holdings at each institution, calculated as a proportion of the value of its total combined cash and MMF holdings, and starting with the largest. Percentages should be rounded to the nearest whole number.

Cells 23C to 27C, inclusive – MMF (Yes/No)

Indicate if the cash has been placed with an MMF rather than e.g. deposited with a credit institution.

Earnings

Information provided in this section can be taken from quarters based on the most recent accounting reference date.

Row 23 will indicate where the largest percentage of the FCA investment firm's earnings are from, followed by rows 24 to 27 in decreasing amounts. If an FCA investment firm's earnings are from less than five sources, it should leave subsequent rows blank. In that case, the sum of percentages should be 100%.

Earnings includes all earnings from regulated or unregulated activities, not just earnings from MiFID business. This should include any earnings from group members, e.g. in exchange for the provision of intragroup services.

Cells 28A to 32A, inclusive – LEI number

FCA investment firms should enter the LEI number of up to five clients from which it generates its earnings, beginning with the largest percentage. The LEI must be used if available. If not, the FRN must be used. If the client does not have an LEI number or an FRN, the FCA investment firm should use its internal reference number for that client. This internal reference number should be consistent over time and across regulatory returns.

A client may be an institution or a natural person. Where the client is a natural person, the FCA investment firm should use its own internal reference number for that client. This internal reference number should be consistent over time and across regulatory returns.

Cells 28B to 32B, inclusive – percentage of total revenue earned from the client

FCA investment firms should enter the percentage of its earnings from each client, starting with the largest. Percentages should be rounded to the nearest whole number.

Cells 28C to 32C, inclusive – type of earning

FCA investment firms should indicate the type of earning that they are reporting. It may include more than one type of income stream. Where this is the case, FCA investment firms should list the main income type for that client. Options include:

- Interest and dividend income from trading book positions
- Interest and dividend income from non-trading book positions
- Fee and commission income
- Provision of intragroup services
- Other sources of income

MIF005 – K-CON – concentration risk reporting where the 'soft limit' has been exceeded

Introduction

This data item only applies to non-SNI FCA investment firms who deal on own account. It provides the FCA with information about the FCA investment firm's balance sheet concentration risk and any additional own funds that the firm is required to hold as a result. We have provided references to the underlying rules to assist in its completion.

Consolidated reports

This form applies to both individual FCA investment firms and to consolidation groups. If completed on behalf of a consolidation group, it should be completed on the basis of the consolidated situation and references to an FCA investment firm should be taken to refer to the situation that would result if the consolidation group were treated as a single large FCA investment firm. Firms should refer to MIFIDPRU 2.5 for further information on how MIFIDPRU applies on a consolidated basis.

Currency and figures

All figures should be reporting in Sterling. Figures should be reported in 000s.

Defined Terms

The descriptions indicated in these notes are designed simply to repeat, summarise or amplify the relevant statutory or other definitions and terminology, including, where appropriate, the FCA investment firm's accounting framework, without departing from their full meaning or effect.

The terms used in this guidance have the same meaning as the terms used in MIFIDPRU. Defined terms are not italicised in this note.

Groups of connected counterparties

MIFIDPRU 5 (Concentration risk) requires FCA investment firms to treat exposures to a group of connected counterparties (referred to in the rules as a "group of connected clients") as a concentrated exposure to a single counterparty for the purpose of calculating K-CON. Where an FCA investment firm has a concentrated exposure to a group of connected counterparties, it should report this as a single item, rather than reporting separately on the connected counterparties in the group.

Data elements

These are referred to by row first, then column.

Instructions

This section asks FCA investment firms to provide additional information relating to their trading book exposures that exceed the 'soft limit', which is generally 25% of their own funds but may be the lower of £150 million or 100% of own funds if a client is a MIFIDPRU-eligible institution. Trading book exposures above this limit require K-CON to be calculated and additional own funds to be held.

Cell 1A – Basis of completion

Is the MIF005 report on behalf of a consolidation group? Enter 'Yes' in this cell if the report is being completed by a prudential consolidation group.

Cell 2A – Details of other firms within the group

If the answer to cell 1A is yes, enter the firm reference numbers (FRN) of all the FCA regulated entities in the consolidated situation, and the group reference number, where applicable.

Cell 3A – LEI number

Enter the LEI number of the counterparty, where the 'soft limit', as outlined in MIFIDPRU 5.5, has been exceeded. If the counterparty does not have an LEI number, the FCA investment firm should use its internal reference number for that counterparty. This internal reference number should be consistent over time and across regulatory returns.

For a group of connected counterparties, the FCA investment firm should use an LEI number for one member of the group, but this number should be used consistently over time and across regulatory returns to refer to the relevant group of connected counterparties. If none of the connected counterparties has an LEI number, the FCA investment firm should use its internal reference number for that group of connected counterparties, or if it does not have one for that group, then its internal reference number for an individual counterparty within that group. This internal reference number should be consistent over time and across regulatory returns.

Cell 3B – Exposure Value

Enter the exposure value for that counterparty/group of connected counterparties as calculated in accordance with MIFIDPRU 5.4.

Cell 3C – Exposure Value Excess

Enter the exposure value excess for that counterparty/group of connected counterparties as calculated in accordance with MIFIDPRU 5.5.

Cell 3D – Own funds requirement for that excess

Enter the own funds requirement for the excess for that counterparty/group of connected counterparties as calculated in accordance with MIFIDPRU 5.7.

Cell 3E - £150m/100% limit for MIFIDPRU-eligible institutions used (Yes/No)

Indicate if the counterparty/group of connected counterparties includes a credit institution or an FCA investment firm, and the £150m/100% limit in MIFIDPRU 5.5.1R is being used, where this is higher than 25% of its own funds.

MIF006 – GCT reporting – instructions for completion

The aim of this data item is to ensure that any parent undertaking that has investments in relevant financial undertakings (as defined in the Glossary) in the same investment firm group is holding appropriate amounts and quality of capital to cover the value of those investments.

The quality of capital held by the parent undertaking should be at least equivalent to the quality of capital that has been invested by the parent undertaking in the relevant financial undertakings forming part of the same investment firm group. The template must be completed by the parent undertaking that has to meet the GCT requirement in MIFIDPRU 2.6.5R. The exception is a responsible UK parent which, in accordance with MIFIDPRU 2.6.10R (2)(b)(i), is reporting on the position of one of its subsidiaries that is a parent undertaking of another relevant financial undertaking. In that case, the responsible UK parent must submit two MIF006 reports: one containing data relating to that subsidiary that is a parent undertaking; the other containing data relating to the responsible UK parent itself.

However, if the responsible UK parent has chosen to hold own funds instruments to cover the group capital test requirements in relation to both itself and a subsidiary in accordance with MIFIDPRU 2.6.10R (2)(b)(ii), the responsible UK parent will submit only one MIF006 report. In that case, the responsible UK parent should complete MIF006 by including information relating to its own direct investments in relevant financial undertakings and the relevant investments of its subsidiary.

Currency

All figures should be reporting in Sterling. Figures should be reported in 000s.

Defined Terms

The descriptions in these notes are designed simply to repeat, summarise or amplify the relevant statutory or other definitions and terminology, including, where appropriate, the FCA investment firm's accounting framework, without departing from their full meaning or effect.

The terms used in this guidance have the same meaning as the terms used in MIFIDPRU. Defined terms are not italicised in this note.

Cell 1A

The parent undertaking should enter its name – free text.

Cell 2A

The parent undertaking should enter its FCA firm reference number (FRN). If the parent undertaking does not have an FRN, it may be a third country parent or an unregulated UK parent, and it should enter its LEI number.

Identifying the relevant subsidiaries

The relevant subsidiaries for the purposes of the group capital test are:

- FCA investment firms
- Collective portfolio management investment firms
- Financial institutions (including authorised payment institutions, electronic money issuers and AIFMD and UCITS collective portfolio management firms)

- Ancillary services undertakings
- Tied agents – including appointed representatives that meet the definition of tied agent

Capital of the parent undertaking

Cell 3A – CET1

The parent undertaking should input the amount of its own CET1 own funds.

Cell 4A – AT1

The parent undertaking should input the amount of its own AT1 own funds.

Cell 5A – T2

The parent undertaking should input the amount of its own T2 own funds.

Row 6.1

This row will contain the information needed to be able to identify the subsidiary and the types of capital the parent entity has invested in that subsidiary.

Subsidiary company identifier

Cell 6.1A

Enter the firm reference number (FRN) of the subsidiary if this is an authorised firm in the UK.

Cell 6.1B

Enter the LEI of the subsidiary if the subsidiary is not authorised in the UK.

Firms may complete both the FRN and the LEI. At least one of them must be completed.

Cell 6.1C

A parent undertaking may choose to hold own funds instruments to cover the GCT requirements of a third country undertaking for this subsidiary. In this case, it will indicate in this cell that the firm identified in this row is an indirect subsidiary.

Book value and type of investments/contingent liabilities in subsidiaries

Cell 6.1D

The parent undertaking enters its total CET1 investment in this subsidiary.

Cell 6.1E

The parent undertaking enters its total AT1 investment in this subsidiary.

Cell 6.1F

The parent undertaking enters its total T2 investment in this subsidiary.

Cell 6.1G

The parent undertaking enters its total contingent liabilities to this subsidiary. Note: The parent undertaking must hold CET1 capital against any contingent liabilities it has in respect of this subsidiary.

Where there is more than one subsidiary, please continue with Rows 6.2, 6.3 etc until all subsidiaries have been captured.

MIF007 – ICARA Questionnaire

Introduction

This data item provides the FCA with information on the overall financial position of the FCA investment firm. This data item is intended to reflect the overall financial adequacy rule (OFAR) requirements contained in MIFIDPRU and allows monitoring against the MIFIDPRU requirements, and also any individual requirements placed on a firm. We have provided references to the underlying rules to assist in its completion.

This data item applies to all FCA investment firms. In the text below we have identified where elements do not apply to all firms.

Further information about the ICARA process is in MIFIDPRU 7.

Group ICARA processes

Under MIFIDPRU 7.9.5R, an investment firm group may operate a group ICARA process if certain conditions are met. In this situation, each individual MIFIDPRU investment firm that is included within the group ICARA process must submit this data item separately, using the conclusions arising from the group process.

Currency

All figures should be reported in Sterling. Figures should be reported in 000s.

Defined Terms

The descriptions indicated in these notes are designed simply to repeat, summarise or amplify the relevant statutory or other definitions and terminology without departing from their full meaning or effect.

Part A: Basis of completion of the ICARA process

1A asks FCA investment firms to specify the basis on which the ICARA process is being completed.

2A asks for the FRNs of all the FCA investment firms that form part of the consolidation group, where the answer to 1A is 'Yes'.

3A asks if the ICARA process review has been completed through a group-level arrangement.

4A asks for the ICARA process reference date of the information included in the questionnaire. This is the date at which the information used to complete the ICARA process was prepared. See MIFIDPRU 7.8.6G (1)(a).

5A asks whether the ICARA process and resulting document have been reviewed and signed off by the FCA investment firm's governing body.

6A asks for the date that the ICARA process and resulting document were signed off by the FCA investment firm's governing body.

Part B: Assessing and monitoring the adequacy of own funds

Part B should be completed by all FCA investment firms. It should be completed with information as at the accounting reference date.

Own funds held as at the ICARA accounting reference date

7A – Common Equity Tier 1 capital

FCA investment firms should enter the amount of CET1 capital they hold for their own funds. CET1 capital should be calculated in accordance with Article 50 of the UK CRR as applied and modified by Section 3.3 of MIFIDPRU – Common equity tier 1 capital. This cell must always be completed with a positive number.

8A – Additional Tier 1 capital

FCA investment firms should enter the amount of AT1 capital they hold for their own funds. AT1 capital should be calculated in accordance with Article 61 of the UK CRR as applied and modified by Section 3.4 of MIFIDPRU – Additional tier 1 capital.

FCA investment firms are not required to hold/issue AT1 capital. If no AT1 has been issued, or is held, a zero should be entered in this cell.

9A – Tier 2 capital

FCA investment firms should enter the amount of T2 capital they hold for their own funds. T2 capital should be calculated in accordance with Article 71 of the UK CRR as applied and modified by Section 3.5 of MIFIDPRU – Tier 2 capital.

FCA investment firms are not required to hold/issue T2 capital. If no T2 has been issued, or is held, a zero should be entered in this cell.

Own funds threshold requirement

10A – Own funds threshold requirement identified through the ICARA process

FCA investment firms should enter their own funds threshold requirement as determined through the ICARA process set out in MIFIDPRU 7.6. This amount should not include any additional own funds amount specified by the FCA.

If the FCA investment firm has determined that no additional own funds are required to that set by the MIFIDPRU 4 requirements, it should enter the higher of its PMR, its FOR and its KFR (where this applies).

11A – Own funds to address risks from ongoing activities

FCA investment firms should enter their assessment of the own funds needed to address risks from ongoing activities, as identified through the ICARA process (MIFIDPRU 7.6). For non-SNI firms this amount cannot be lower than the K-Factor requirement.

Where this amount is higher than the own funds necessary for an orderly wind-down it should be equal to the amount entered in cell 10A.

12A – Own funds necessary for an orderly wind-down

FCA investment firms should enter their assessment of the own funds necessary for orderly wind-down, as identified through the ICARA process (MIFIDPRU 7.6). For all firms this amount cannot be lower than the Fixed Overhead Requirement.

Where this amount is higher than the own funds necessary to address risks from ongoing activities it should be equal to the amount entered in cell 10A.

Additional own funds requirement specified by the FCA

This asks FCA investment firms to confirm whether the following have been set by the FCA.

- own funds threshold requirement
- own funds wind-down trigger

13A – Has the FCA specified an own funds requirement for the firm?

FCA investment firms should indicate whether the FCA has specified an own funds requirement amount. This could be as the result of a SREP or through other means.

If the answer is 'Yes', FCA investment firms should put a 'Yes' in at least one of 14A and 15A. Both can be completed if appropriate.

The basis for the FCA specified own funds requirement can be as either an own funds thresholds requirement or an own funds wind-down trigger, or both.

14A – Own funds threshold requirement

FCA investment firms should indicate whether the FCA has specified an own funds threshold requirement. If 'Yes', 16A must be completed.

15A – Own funds wind-down trigger

FCA investment firms should indicate whether the FCA has specified an own funds wind-down trigger. If 'Yes', 17A must be completed.

16A – Own funds threshold requirement set by the FCA

FCA investment firms should state their own funds threshold requirement where this has been set by the FCA.

17A – Own funds wind-down trigger set by the FCA

FCA investment firms should state their own funds wind-down trigger where this has been set by the FCA.

Part B1: Breakdown of additional own funds requirement to address risks from ongoing activities

This section only applies to non-SNI firms. SNI firms should leave this section blank.

This section asks for a breakdown of how the value in cell 11A has been reached.

Where a non-SNI firm does not calculate a particular K-factor because it does not carry on the relevant activity, it should leave that entry blank.

The sum of rows 18A to 27A should be equal to the amount put in 11A.

18A – Additional own funds for asset management activity

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm due to their asset management activity, that is not covered by K-AUM.

19A – Additional own funds for holding client money

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm due to holding client money, that is not covered by K-CMH.

20A – Additional own funds for safeguarding assets

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm due to safeguarding assets, that is not covered by K-ASA.

21A – Additional own funds for reception and transmission of orders, or executing client orders

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm due to reception and transmission of orders, or executing client orders, that is not covered by K-COH.

22A – Additional own funds for market risk

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm to the firm from its market risk, that is not covered by K-NPR.

23A – Additional own funds for positions associated with clearing risk

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm to the firm from its market risk, that is not covered by K-CMG.

24A – Additional own funds for trading activity on the firm's own account

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm to the firm from its trading activity in the market, that is not covered by K-DTF.

25A – Additional own funds for trading activity in clients' names

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm to the firm from its trading activity in the market that is not covered by K-DTF.

26A – Additional own funds for trading counterparty risk

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm to the firm from its activity in the market that is not covered by K-TCD.

27A – Additional own funds for concentration risk

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm to the firm from any concentration risk that is not covered by K-CON.

28A – Additional own funds for other risks from ongoing activities

FCA investment firms should enter the amount of the additional own funds that they have identified as a result of the ICARA process as being required to cover material harm from ongoing activities, that are not covered by the own funds amounts in rows A18 to A26.

29A – Description of the risks captured in 28A

FCA investment firms should enter a description of the risks that have led to the additional own funds requirement stated in 28A. This only needs to be at a very high level. We expect full details to be provided in the ICARA document.

Part B2: Breakdown of additional own funds requirement necessary for orderly wind-down

This section only applies to non-SNI firms if the amount entered in 12A is higher than the FOR. SNI firms should leave this section blank.

30A – Description of risks

FCA investment firms should enter a description of the risks that have led to the additional own funds identified as necessary. This only needs to be at a very high level. We expect full details to be provided in the ICARA document.

Part C: Assessing and monitoring the adequacy of liquid assets held

Part C must be completed by all FCA investment firms.

Liquid assets held as at the ICARA accounting reference date

FCA investment firms are reminded that:

- their basic liquid asset requirement must be met from core liquid assets
- they are not obliged to hold any non-core liquid assets and they can meet their base and additional liquid asset requirements using core liquid assets
- non-core liquid assets can only be counted towards any additional liquid asset requirement an FCA investment firm has identified and a haircut must be applied

31A – Core liquid assets held

FCA investment firms should enter the total value of the core liquid assets they hold. The definition of core liquid assets is in MIFIDPRU 6.3.

33A – Non-core liquid assets – post-haircut

FCA investment firms should enter the total post-haircut value of any non-core liquid assets that they are using to satisfy any additional liquid assets requirement. See MIFIDPRU 7.7 for details on assets that are eligible as non-core liquid assets and MIFIDPRU 7.7.11G for more information on haircuts.

Liquid assets required as identified through the ICARA process

33A – Liquid assets threshold requirement

FCA investment firms should enter their liquid assets threshold requirement from their ICARA assessment here.

This will be the sum of the firm’s basic liquid asset requirement; and the higher of

- the amount of liquid assets the firm requires at any given point in time to fund its ongoing business operations (cell 34A)
- the additional amount of liquid assets the firm requires to start its wind-down (cell 39A)

This amount should not include any additional liquid assets amount specified by the FCA.

34A – Liquid assets required to fund ongoing business operations

FCA investment firms should enter the amount of liquid assets they need to fund ongoing business operations at any given point in time, taking into account periods of stress in the economic cycle. More information on this assessment is in MIFIDPRU 7.7.

35A to 38A – Breakdown of liquid assets estimate to fund ongoing business operations by quarter

As part of the ICARA process to estimate funding needs for ongoing business operations, FCA investment firms must produce a reasonable estimate of the amount of liquid assets they would require to fund their ongoing business during each quarter over the next 12 months from the ICARA assessment date. FCA investment firms should enter those quarterly values into cells A35 to A38. See MIFIDPRU 7.7 and particularly MIFIDPRU 7.7.4G, for more information and guidance on this assessment.

35A – Quarter 1

Enter the maximum amount of liquid assets required at any point during the first quarter after the ICARA assessment.

36A – Quarter 2

Enter the maximum amount of liquid assets required at any point during the second quarter after the ICARA assessment.

37A – Quarter 3

Enter the maximum amount of liquid assets required at any point during the third quarter after the ICARA assessment.

38A – Quarter 4

Enter the maximum amount of liquid assets required at any point during the fourth quarter after the ICARA assessment.

39A – Liquid assets required to begin an orderly wind-down

FCA investment firms should enter their assessment of the liquid assets they need to hold to begin an orderly wind-down, as determined through the ICARA process (MIFIDPRU 7.7).

Meeting debts as they fall due

40A – Has the firm at any point not been able to meet its debts as they fall due?

FCA investment firms should indicate if at any point during the previous accounting period they have been unable to meet their debts as they fall due.

41A – Please provide details

FCA investment firms should provide full details of issue(s) referred to in 40A, including:

- reasons they were unable to meet their debts as they fell due
- what action they took to remedy the situation
- what changes have been made to systems and controls to prevent this from re-occurring

Additional liquid assets requirement set by the FCA

This section asks the FCA investment firm to indicate whether the FCA has set a liquid assets requirement for it. This could be the liquid assets threshold requirement or the liquid assets wind-down trigger.

42A– Has the FCA specified a liquid asset requirement for the firm?

FCA investment firms should indicate whether the FCA has specified a liquid asset requirement amount. This could be as the result of a SREP or through other means. If the answer is 'Yes', FCA investment firms must also answer 'Yes' to at least one of 43A and 44A. Both can be completed if appropriate.

43A –Liquid assets threshold requirement

FCA investment firms should indicate whether the FCA has specified a liquid assets threshold requirement. If 'Yes', 45A must be completed.

44A – Liquid assets wind-down trigger

FCA investment firms should indicate whether the FCA has specified liquid assets wind-down trigger. If 'Yes', 46A must be completed.

45A – Liquid assets threshold requirement set by the FCA

FCA investment firms should state their liquid assets threshold requirement where this has been set by the FCA.

46A – Liquid assets wind-down trigger set by the FCA

FCA investment firms should state their liquid assets wind-down trigger where this has been set by the FCA.

Part D: MiFID investment services and activities and business model information

Part D should be completed by all FCA investment firms.

47A to 55A – MiFID investment services and activities

FCA investment firms should put a 'Yes' for each MiFID service they provide. Where a service is not provided, please put a 'No'.

NB. FCA investment firms must have the relevant FSMA permissions for the services they provide.

Other business activities

56A – 62A

FCA investment firms should put a 'Yes' for each business activity they carry on. Where a service is not provided, please put a 'No'.

63A – Financial conglomerate

The FCA investment firm should put a 'Yes' where it is part of a financial conglomerate. They should put a 'No' where they are not.

Firms should refer to the financial conglomerate decision tree in GENPRU 3 Annex 4R.

All firms are reminded that they should inform us where their group structure changes.

64A – delegation of discretionary portfolio management to other firms

FCA investment firms should put a 'Yes' if they delegate the discretionary portfolio management of assets to another firm. They should put a 'No' where they do not.

65A should only be completed where 64A has been answered 'Yes'. It should be left blank otherwise. Firms should enter the amount **delegated to** other firms.

66A – delegation of discretionary portfolio management from other firms

FCA investment firms should put a 'Yes' if they undertake the discretionary portfolio management of assets on a delegated basis on behalf of other firms. They should put a 'No' where they do not.

67A should only be completed where 66A has been answered 'Yes'. It should be left blank otherwise. Firms should enter the amount of assets **delegated from** other firms.

68A – provision of advice on an ongoing nature

FCA investment firms should put a 'Yes' if they provide advice of an ongoing nature. They should put a 'No' where they do not.

69A should only be completed where 68A has been answered 'Yes'. It should be left blank otherwise. Firms should enter the amount of assets under ongoing advice they have included within their K-AUM calculation.

70A - Calculation of AUM at ICARA accounting reference date excluding offsetting

FCA investment firms should enter 'Yes' if at the ICARA accounting reference date they have calculated their AUM and applied any offsetting of negative values or liabilities

attributed to positions (see MIFIDPRU 4.7.5R to 4.7.7R). They should enter a 'No' where they have not.

71A should only be completed where 70A has been answered 'Yes'. It should be left blank otherwise.

FCA investment firms should enter the value of AUM according to MIFIDPRU 4.7.5R at the ICARA accounting reference date **without** applying any offsetting according to MIFIDPRU 4.7.7(2)R.

NB. FCA investment firms must have the relevant FSMA permissions for the services they provide.

10 Firms acting as clearing members and indirect clearing firms

10.1 Application

10.1.1 R This chapter applies to a *MIFIDPRU investment firm* that is:

- (1) a *clearing member*; or
- (2) an *indirect clearing firm*.

10.1.2 R This chapter also applies to the *UK parent entity* of an *investment firm group* that contains a *clearing member* or an *indirect clearing firm*.

10.2 Categorisation of clearing firms as non-SNI MIFIDPRU investment firms

10.2.1 R (1) A *MIFIDPRU investment firm* that is a *clearing member* or an *indirect clearing firm* is a *non-SNI MIFIDPRU investment firm*.

- (2) The classification in (1) applies irrespective of whether the *firm* satisfies the conditions in *MIFIDPRU 1.2* (SNI MIFIDPRU investment firms) or not.

10.2.2 R (1) This *rule* applies where:

- (a) an *investment firm group* contains a *clearing member* or an *indirect clearing firm*; and
- (b) the *UK parent entity* of the *investment firm group* in (a) is subject to prudential consolidation in accordance with *MIFIDPRU 2.5*.

- (2) Where this *rule* applies, the *UK parent entity* in (1) must comply with the relevant obligations in *MIFIDPRU* on a *consolidated basis* as if it were a *non-SNI MIFIDPRU investment firm*.

- (3) The requirement in (2) applies irrespective of whether the *UK parent entity* satisfies the conditions in *MIFIDPRU 2.5.21R* or not.

10.2.3 G (1) The effect of *MIFIDPRU 10.2.1R* is that a *firm* that acts as a *clearing member* or *indirect clearing firm* will always be a *non-SNI MIFIDPRU investment firm*. This is the case even where the *firm* may otherwise satisfy all the other criteria in *MIFIDPRU 1.2* to be classified as an *SNI MIFIDPRU investment firm*.

- (2) The effect of *MIFIDPRU 10.2.2R* is that where the *consolidated situation* of a *UK parent entity* includes a *clearing member* or *indirect clearing firm*, the *UK parent entity* will always be a *non-SNI MIFIDPRU investment firm* on a *consolidated basis*.

- (3) *MIFIDPRU* 10.2.1R applies equally to a *firm* that is a self-clearing *firm*.

10.3 Application of K-DTF requirement to clearing activities

- 10.3.1 R (1) This *rule* applies to transactions in *financial instruments* in relation to which a *MIFIDPRU investment firm* provides clearing services in its capacity as a *clearing member* or an *indirect clearing firm*.
- (2) Except where *MIFIDPRU* 10.3.2R applies, a *firm* must include the transactions in (1) in its calculation of *DTF* for the purposes of the *K-DTF requirement* in accordance with the remainder of this *rule*.
- (3) The transactions in (1) must be included in a *firm's DTF* on the following basis:
- (a) where the order that gave rise to the clearing transaction was a *cash trade*, the clearing transaction must also be treated as if it were a *cash trade* (irrespective of whether it would otherwise meet that definition); and
- (b) where the order that gave rise to the clearing transaction was a *derivatives trade*, the clearing transaction must also be treated as if it were a *derivatives trade* (irrespective of whether it would otherwise meet that definition).
- 10.3.2 R (1) This *rule* applies where a *firm*:
- (a) executes an order:
- (i) in its own name (whether for its own account or on behalf of a *client*); or
- (ii) in the name of a *client*; and
- (b) also provides clearing services in its capacity as a *clearing member* or *indirect clearing firm* in relation to a transaction that results from the order in (a).
- (2) Where this *rule* applies, the value of the relevant order in (1)(a) is not included in the *firm's* measurement of *DTF* attributable to clearing services under *MIFIDPRU* 10.3.1R, provided that the value of the order has already been included in one of the following in relation to the *firm's* execution services:
- (a) the calculation of the *firm's COH* under *MIFIDPRU* 4.10 (K-COH requirement); or
- (b) the calculation of the *firm's DTF* under *MIFIDPRU* 4.15 (K-DTF requirement).

- 10.3.3 G (1) *MIFIDPRU* 10.3.1R requires a *MIFIDPRU investment firm* to calculate an additional *K-DTF requirement* for any clearing transactions it undertakes in relation to *financial instruments*.
- (2) *MIFIDPRU* 10.3.2R applies to a *MIFIDPRU investment firm* that both executes an order and subsequently provides clearing services in relation to the resulting transaction (including where the *firm* is acting as a self-clearing *firm*). In this case, the *firm* is not required to include the clearing transaction in its calculation of *DTF*, provided that the value of the original executed order has already been included in either the *firm's* measurement of its *DTF* or *COH*.
- (3) The intention of *MIFIDPRU* 10.3.2R is that a *firm* is not required to “double-count” the value of the original order and the resulting clearing transaction where the *firm* is involved in both executing and clearing the same trade.
- 10.3.4 R Where prudential consolidation applies to a *UK parent entity* under *MIFIDPRU* 2.5.7R, the *UK parent entity* must include within the calculation of its consolidated *K-DTF requirement* any transactions that are cleared by *clearing members* or *indirect clearing firms* that are included within its *consolidated situation*.

10.4 Own funds requirement for CCP default fund exposures

- 10.4.1 R This section applies to:
- (1) a *MIFIDPRU investment firm* that is a *clearing member*; and
- (2) a *UK parent entity* to which consolidation under *MIFIDPRU* 2.5.7R applies, where the relevant *investment firm group* includes one or more *clearing members*.
- 10.4.2 R (1) A *MIFIDPRU investment firm* must include its pre-funded contributions to the default fund of a *CCP* in the calculation of its *K-TCD requirement* in accordance with the remainder of this *rule*.
- (2) The *firm* must apply the *rules* and *guidance* in *MIFIDPRU* 4.14 (K-TCD requirement) in relation to the relevant default contribution with the following modifications:
- (a) the transactions specified in *MIFIDPRU* 4.14.3R are deemed to include pre-funded contributions made by the *firm* to the default fund of a *CCP*;
- (b) for the purposes of *MIFIDPRU* 4.14.7R, the value of α shall be 1;
- (c) for the purposes of *MIFIDPRU* 4.14.9R, the replacement cost (RC) of the default fund contribution is the book value

of that asset in accordance with the applicable accounting framework;

- (d) for the purposes of *MIFIDPRU* 4.14.29R, the applicable risk factor is:
 - (i) the value of a C-factor calculated in accordance with the methodology in *MIFIDPRU* 10.4.3R where that C-factor has been published by an *authorised central counterparty* in relation to the default fund of the *CCP*;
 - (ii) in the case of an *authorised central counterparty* that has not published a C-factor relating to its default fund, 1.6%; and
 - (iii) where the *CCP* is not an *authorised central counterparty*, 8%; and
- (e) for the purposes of *MIFIDPRU* 4.14.30R, the credit valuation adjustment (CVA) is 1.

- 10.4.3 R (1) For the purposes of *MIFIDPRU* 10.4.2R(2)(d), a C-factor is:
- (a) in the case of an *authorised central counterparty* that is subject to national rules implementing the requirements in BCBS 282 (Capital requirements for bank exposures to central counterparties) published by the Basel Committee on Banking Supervision in April 2014, a value determined in accordance with the formula in (2); or
 - (b) in the case of any other *authorised central counterparty*, a value determined in accordance with the formula in (3).

- (2) The relevant formula under (1)(a) is:

$$\text{C-factor} = \max\left(\frac{K_{CCP}}{DF_{CCP} + DF_{CM^{pref}}}; 8\% \cdot 2\%\right)$$

where, in each case, the values of K_{CCP} , DF_{CCP} and $DF_{CM^{pref}}$ are calculated in accordance with the methodology in BCBS 282.

- (3) The relevant formula under (1)(b) is:

$$\text{C-factor} = \left(1 + \beta \cdot \frac{N}{N - 2}\right) \cdot \frac{K_{CM}}{DF_{CM}}$$

where, in each case, the values of β , N , K_{CM} and DF_{CM} are calculated in accordance with the methodology in BCBS 227

(Capital requirements for bank exposures to central counterparties) published by the Basel Committee on Banking Supervision in July 2012.

- 10.4.4 G An *authorised central counterparty* may publish C-factors for the purposes of national rules implementing both BCBS 227 and BCBS 282. In this case, the effect of *MIFIDPRU* 10.4.3R(1)(a) is that the C-factor published for the purpose of BCBS 282 must be used. Where the default fund relates to derivatives, the C-factor published for the purposes of the Standardised Approach to Counterparty Credit Risk (SA-CCR) will normally be the relevant C-factor.
- 10.4.5 G (1) Where a *MIFIDPRU investment firm* that is a *clearing member* or an *indirect clearing firm* has trade exposures to a *CCP*, it should consider whether the exposures arise from a transaction listed in *MIFIDPRU* 4.14.3R as being within scope of the *K-TCD requirement*. *MIFIDPRU* 4.14.3R(1)(a) and *MIFIDPRU* 4.14.4R exclude from the scope of the *K-TCD requirement* derivatives contracts that are directly or indirectly cleared through an *authorised central counterparty*.
- (2) However, the exclusion in (1) does not apply to a pre-funded contribution of a *clearing member* to the default fund of a *CCP*, as this exposure is not a contract cleared through the *authorised central counterparty*. *MIFIDPRU* 10.4.2R explains how a *firm* should calculate the *K-TCD requirement* for the contribution.
- 10.4.6 R Where this section applies to a *UK parent entity* in accordance with *MIFIDPRU* 10.4.1R(2), the requirement in *MIFIDPRU* 10.4.2R and the modifications it makes to the *rules and guidance* in *MIFIDPRU* 4.14 apply to the *UK parent entity* in relation to any pre-funded contributions to the default fund of a *CCP* made by any entities included within the *consolidated situation*.

TP 1 Own funds transitional provisions

Application

- 1.1 R *MIFIDPRU* TP 1 applies to:
- (1) a *MIFIDPRU investment firm*;
 - (2) a *UK parent entity* that is required by *MIFIDPRU* 2.5.7R to comply with *MIFIDPRU* 3 on the basis of its *consolidated situation*; and
 - (3) a *parent undertaking* to which the *group capital test* applies.

Purpose

- 1.2 G *MIFIDPRU* TP 1 contains transitional provisions relating to certain permissions granted by the *FCA* before 1 January 2022 for the purposes of the *own funds* provisions of the *UK CRR*. These provisions set out where a *firm* with such a permission may continue to rely on it under the *MIFIDPRU* regime.
- 1.3 G *MIFIDPRU* TP 1 also contains transitional provisions relating to the continued eligibility of *additional tier 1 instruments* issued before 1 January 2022 under the *UK CRR* (in the form in which the *UK CRR* stood prior to that date).

Continuing application of certain *UK CRR* permissions

- 1.4 R *MIFIDPRU* TP 1.5 applies for the duration of a permission to which it relates, except to the extent that the *FCA* revokes, varies or replaces the permission.
- 1.5 R (1) This *rule* applies to any permission listed in column (A) of the table in *MIFIDPRU* TP 1.6R where that permission was granted to a *firm* by the *FCA* for the purposes of the *UK CRR* before 1 January 2022.
- (2) Where this *rule* applies, a permission in column (A) of the table in *MIFIDPRU* TP 1.6R is deemed to have been granted for its remaining duration on equivalent terms by the *FCA* under the corresponding provision in column (B) of that table.
- 1.6 R This table belongs to *MIFIDPRU* TP 1.5R.

(A)	(B)
<i>UK CRR</i> permission granted before 1 January 2022	Deemed basis for permission on or after 1 January 2022
Article 26(2) <i>UK CRR</i> : inclusion of interim or year-end profits in <i>common equity tier 1 capital</i> before the <i>firm</i> has taken a formal decision confirming the final profit or loss for the year	<i>MIFIDPRU</i> 3.3.2R
Article 26(3) <i>UK CRR</i> : classification of an issuance of capital instruments as <i>common equity tier 1 capital</i>	<i>MIFIDPRU</i> 3.3.3R

- 1.7 G The effect of *MIFIDPRU* TP 1.5 and *MIFIDPRU* TP 1.6 is that a permission that was initially granted under article 26(2) or 26(3) of the

UK CRR will continue to produce an equivalent effect under the corresponding provisions in *MIFIDPRU* 3.3. The duration of the original permission is not affected. For example, a permission granted on 1 June 2021 for a one-year duration will be treated from 1 January 2022 as if it had been granted under *MIFIDPRU* 3.3, but will still expire on 1 June 2022.

Additional tier 1 capital instruments issued before 1 January 2022

- 1.8 R (1) This *rule* applies where:
- (a) a *firm* which became a *MIFIDPRU investment firm* on 1 January 2022 issued instruments before that date which satisfied the conditions to be classified as *additional tier 1 instruments* under the *UK CRR* in the form in which it stood immediately before 1 January 2022; and
 - (b) the instruments in (1) remain in issue on 1 January 2022.
- (2) Where this *rule* applies, by no later than 1 February 2022, a *MIFIDPRU investment firm* must:
- (a) notify the *FCA* using the form in *MIFIDPRU TP 1 Annex 1R*, submitted via the *online notification and application* system, to confirm whether:
 - (i) the relevant instruments satisfy the conditions in *MIFIDPRU* 3.4 to be classified as *additional tier 1 instruments*; or
 - (ii) the relevant instruments do not satisfy the relevant conditions in *MIFIDPRU* 3.4 and the *firm* has therefore ceased to recognise them as part of its *additional tier 1 capital* or has otherwise redeemed or replaced them; or
 - (b) apply to the *FCA* under section 138A of the *Act* for a modification of the relevant provisions in *MIFIDPRU* 3.4 to continue to allow the *firm* to classify the instruments as *additional tier 1 instruments* for the purposes of *MIFIDPRU*.
- 1.9 G (1) A *MIFIDPRU investment firm* may have issued instruments that, immediately before 1 January 2022, met the conditions in the *UK CRR* (in the form in which it then stood) to be classified as *additional tier 1 instruments* and which remain in issue on 1 January 2022.
- (2) Although *MIFIDPRU* 3.4 contains provisions for the classification of instruments under *MIFIDPRU* as *additional*

tier 1 instruments which are broadly equivalent to those in the *UK CRR*, the trigger event under article 54(1)(a) of the *UK CRR* does not apply under *MIFIDPRU*. This is because the *own funds requirement* under *MIFIDPRU* is calculated on a different basis and therefore the trigger event for conversion of *additional tier 1 instruments* under *MIFIDPRU* is defined by reference to different criteria.

1.10 G An *additional tier 1 instrument* issued before 1 January 2022 under the *UK CRR* may satisfy the conditions in *MIFIDPRU* 3.4 so that it can be classified as an *additional tier 1 instrument* for the purposes of *MIFIDPRU*. This may depend upon how the trigger events were defined in the terms of the relevant instrument and whether additional trigger events (i.e. over and above the mandatory *UK CRR* trigger event that was applicable at the time of issuance) were also included.

1.11 G (1) A *firm* may apply to the *FCA* under section 138A of the *Act* to modify the provisions of *MIFIDPRU* 3.4 for existing *additional tier 1 instruments* issued under the *UK CRR* before 1 January 2022, to allow those instruments to be recognised as *additional tier 1 instruments* under *MIFIDPRU*.

(2) In the application, the *FCA* would expect a *firm* to demonstrate how the conversion or write-down of the *additional tier 1 instruments* would function to enable the *firm* to continue to satisfy its *own funds requirement* under *MIFIDPRU* in times of financial stress.

(3) If the *FCA* grants a modification under section 138A of the *Act* in such circumstances, it may grant it on a temporary basis to facilitate the *firm's* orderly transition to the *MIFIDPRU* regime.

Continuing validity of IFPRU own funds notifications

1.12 R (1) This *rule* applies to any notification listed in column (A) of the table in *MIFIDPRU* TP 1.13R, where the notification was validly submitted by a *firm* or *parent undertaking* to the *FCA* for the purposes of the relevant *rule* in the *IFPRU* sourcebook before 1 January 2022.

(2) Where this *rule* applies, a notification in column (A) of the table in *MIFIDPRU* TP 1.13R is deemed to have been a valid notification for the purposes of the corresponding provision in column (B) in the same row of that table.

1.13 R The table belongs to *MIFIDPRU* TP 1.12R.

(A)	(B)
-----	-----

IFPRU notification submitted before 1 January 2022	Deemed notification for the purposes of MIFIDPRU on or after 1 January 2022
<i>IFPRU</i> 3.2.10R: notification of issuance of own funds instruments	<p><i>MIFIDPRU</i> 3.6.5R(1) (for a <i>MIFIDPRU investment firm</i>)</p> <p><i>MIFIDPRU</i> 3.6.8R(1)(b) (for a <i>UK parent entity</i> to which consolidation under <i>MIFIDPRU</i> 2.5.7R applies)</p> <p><i>MIFIDPRU</i> 3.7.4R(1)(b) (for a <i>parent undertaking</i> to which the <i>group capital test</i> applies)</p>
<i>IFPRU</i> 3.2.13R: notification of issuance of ordinary <i>shares</i> or debt instruments under a debt securities programme	<p><i>MIFIDPRU</i> 3.6.5R(1) (for a <i>MIFIDPRU investment firm</i>)</p> <p><i>MIFIDPRU</i> 3.6.8R(1)(b) (for a <i>UK parent entity</i> to which consolidation under <i>MIFIDPRU</i> 2.5.7R applies)</p> <p><i>MIFIDPRU</i> 3.7.4R(1)(b) (for a <i>parent undertaking</i> to which the <i>group capital test</i> applies)</p>

- 1.14 G The effect of *MIFIDPRU* TP 1.12R and 1.13R is that a notification that was validly submitted for the purposes of the *rules* relating to the issuance of own funds in *IFPRU* is valid for the purposes of the notification requirements relating to the issuance of *own funds* in *MIFIDPRU* 3.6 or 3.7. This means that:
- (1) a *MIFIDPRU investment firm* or *parent undertaking* to which *IFPRU* applied is not required to submit another notification to the *FCA* in relation to pre-existing instruments to treat those instruments as *additional tier 1 instruments* or *tier 2 instruments* under *MIFIDPRU*; and
 - (2) where the *MIFIDPRU investment firm* or *parent undertaking* issues the same class of instruments on or after 1 January 2022, it can rely on the exemption from the notification requirement in *MIFIDPRU* 3.6.5R(2), provided that the instruments are identical in all material respects to the previous issuance notified to the *FCA* under *IFPRU*.
- 1.15 G *MIFIDPRU* TP 1.12R and 1.13R do not affect the underlying criteria in *MIFIDPRU* 3 for classifying an instrument as *own funds*. Instead, the provisions deem existing notifications to be notifications for equivalent purposes under *MIFIDPRU*. This means that if the instruments that are the subject of the notifications do not meet the criteria in *MIFIDPRU* 3 to be classified as *own funds*, a *firm* or *parent undertaking* must not treat those instruments as such. It is the responsibility of the *firm* or *parent undertaking* relying on the

transitional provisions in this annex to assess whether the relevant criteria are met in relation to any particular instrument.

MIFIDPRU TP 1 Annex 1R

**Notification under MIFIDPRU TP 1.8R of the intended treatment of instruments
which were issued and met the conditions to be classified as *additional tier 1
instruments* in accordance with the UK CRR before 1 January 2022**

Details of Senior Manager responsible for this notification:

If the notification is being made in respect of a MIFIDPRU investment firm or another SMCR firm, we would expect the individual responsible for it to hold a senior management function (SMF).

Name of individual	
Job title / position	
Individual reference number (if applicable)	

1. Please confirm which of the following the notifying firm will be under MIFIDPRU:
 - a. MIFIDPRU investment firm that is not a consolidating UK parent entity or a GCT parent undertaking
 - b. MIFIDPRU investment firm that is a consolidating UK parent entity
 - c. MIFIDPRU investment firm that is a GCT parent undertaking
 - d. Consolidating UK parent entity (other than a MIFIDPRU investment firm)
 - e. GCT parent undertaking (other than a MIFIDPRU investment firm)

2. This notification is made in respect of the following classes/issuances of AT1 instruments issued before 1 January 2022 which:

- met the conditions to be classified as additional tier 1 (AT1) instruments in accordance with the UK CRR in the form in which it stood immediately before 1 January 2022; and
- remain in issue on 1 January 2022:

Class / issuance of AT1 instruments	Outstanding nominal value of class / issuance

3. Please confirm which of the following the notification relates to:
- a. The relevant instruments satisfy the conditions in MIFIDPRU 3.4 to be classified as AT1 instruments for the purposes of MIFIDPRU
- b. The relevant instruments do not satisfy the conditions in MIFIDPRU 3.4 and the firm has therefore ceased to recognise them as forming part of its AT1 capital for the purposes of MIFIDPRU or has otherwise redeemed or replaced them

Note: Where the relevant instruments do not satisfy the conditions in MIFIDPRU 3.4, a firm may apply under section 138A of FSMA for a modification of the relevant provisions to continue to allow it to classify the instruments as AT1 instruments for the purposes of MIFIDPRU. A firm does not have to submit this notification if it has applied by 1 February 2022 for a modification that allows it to classify all its CRR AT1 instruments as MIFIDPRU AT1 instruments.

4. Where the notification relates to 3b, please explain how the firm ensures compliance with own funds requirements following the declassification:

TP 2 Own funds requirements: transitional provisions

Application

- 2.1 R *MIFIDPRU* TP 2 applies to a *MIFIDPRU investment firm* on an individual basis.
- 2.2 R *MIFIDPRU* TP 2.23R applies to a *UK parent entity* when it is applying *MIFIDPRU 4* on the basis of its *consolidated situation* in accordance with *MIFIDPRU 2.5*.

Purpose

- 2.3 G *MIFIDPRU* TP 2 contains temporary transitional provisions that permit certain *MIFIDPRU investment firms* to apply a lower *own funds requirement* than would otherwise apply under *MIFIDPRU 4.3*. These provisions are designed to provide a smooth transition for *firms* from their regulatory capital requirements under previous prudential regimes to the requirements under *MIFIDPRU*.
- 2.4 G (1) *MIFIDPRU* TP 2 permits a *firm* (or, in the case of *MIFIDPRU* TP 2.23R, a *UK parent entity*) to substitute an alternative requirement for one or more of its standard *permanent minimum capital requirement*, its *fixed overheads requirement* or its *K-factor requirement*. Where a *firm* does so, the alternative requirement also replaces the standard requirement for the purposes of calculating the *firm's own funds requirement* under *MIFIDPRU 4.3*.
- (2) For example, under *MIFIDPRU* TP 2.21R, a former *exempt BIPRU commodities firm* may substitute alternative requirements for its *fixed overheads requirement* and its *K-factor requirement*. During the transitional period, the *own funds requirement* of the *firm* under *MIFIDPRU 4.3.2R* would be the highest of:
- (a) its *permanent minimum capital requirement*;
 - (b) the alternative requirement substituted for its standard *fixed overheads requirement*; and
 - (c) the alternative requirement substituted for its standard *K-factor requirement*.

References to “UK CRR”

- 2.5 R Any reference in *MIFIDPRU* TP 2 to the “*UK CRR*” is as a reference to the *UK CRR* in the form in which it stood on 31 December 2021.

Duration of transitional arrangements

- 2.6 R *MIFIDPRU* TP 2 applies until 1 January 2027, except in the circumstances set out in *MIFIDPRU* TP 2.19R or *MIFIDPRU* TP 2.20R(4).

Transitional provisions for fixed overheads requirement and K-factor requirement for former IFPRU investment firms and BIPRU firms

- 2.7 R (1) This *rule* applies to a *MIFIDPRU investment firm* that, under the *rules* in force on 31 December 2021, was classified as:
- (a) an *IFPRU investment firm* (other than an *exempt IFPRU commodities firm*); or
 - (b) a *BIPRU firm* (other than an *exempt BIPRU commodities firm*).
- (2) A *firm* may substitute the alternative requirement in (3) for each of:
- (a) its *fixed overheads requirement* under *MIFIDPRU* 4.5; and
 - (b) to the extent applicable, its *K-factor requirement* under *MIFIDPRU* 4.6.
- (3) Subject to (4), the alternative requirement is an amount equal to twice the following, if it had continued to apply to the *firm*:
- (a) for a former *IFPRU investment firm*, the own funds requirement in Chapter 1 of Title I of Part Three of the *UK CRR*; or
 - (b) for a former *BIPRU firm*, the variable capital requirement in *GENPRU* 2.1.40R and 2.1.45R.
- (4) The alternative requirement in (3) is subject to:
- (a) for a former *IFPRU investment firm* (other than a *collective portfolio management investment firm*), article 93(1) of the *UK CRR*, with the reference to the initial capital requirement in that provision being read as a reference to the base own funds requirement that would have applied under *IFPRU* 3.1 if it had continued to apply to the *firm*;
 - (b) for a former *BIPRU firm* (other than a *collective portfolio management investment firm*), the base capital requirement that would have applied under *GENPRU* 2.1.47R and 2.1.48R; or
 - (c) for a *collective portfolio management investment firm*, the *base own funds requirement* that applies under *IPRU(INV)* 11.3.1R(1).

- 2.8 G (1) The effect of *MIFIDPRU* TP 2.7R(2) is that even where *MIFIDPRU* TP 2.7R applies, it does not affect the calculation of a *MIFIDPRU investment firm's permanent minimum capital requirement* under *MIFIDPRU* 4.4. *MIFIDPRU* TP 2.13R to *MIFIDPRU* 2.18R set out the circumstances in which separate transitional arrangements may also apply to the *permanent minimum capital requirement* of a former *IFPRU investment firm* or *BIPRU firm*.
- (2) Therefore, where the *permanent minimum capital requirement* (where applicable, as limited by *MIFIDPRU* TP 2.13R to 2.18R) is higher than the alternative requirement in *MIFIDPRU* TP 2.7R(3), the *firm* must still ensure that it has sufficient *own funds* to meet that higher *permanent minimum capital requirement* in accordance with *MIFIDPRU* 4.3.

- 2.9 G Where a *MIFIDPRU investment firm* applies the transitional arrangements in *MIFIDPRU* TP 2.7, the alternative requirement under *MIFIDPRU* TP 2.7R(3) reflects how the previous requirements under the *UK CRR* or *GENPRU* would have applied to the *firm* on an ongoing basis. The *firm* should therefore recalculate the alternative requirement under the *UK CRR* or *GENPRU* regularly. The *FCA* considers that it would be appropriate for the *firm* to carry out such calculations at least as frequently as it reports information on its *own funds requirement* to the *FCA* under *MIFIDPRU* 9.

Transitional provisions for fixed overheads requirement and K-factor requirement for former exempt CAD firms

- 2.10 R (1) This *rule* applies to a *MIFIDPRU investment firm* that under the rules in force on 31 December 2021 was classified as an *exempt CAD firm*.
- (2) A *firm* may substitute the alternative requirement in (3) for each of:
- (a) its *fixed overheads requirement* under *MIFIDPRU* 4.5; and
- (b) to the extent applicable, its *K-factor requirement* under *MIFIDPRU* 4.6.
- (3) The alternative requirement is:
- (a) from 1 January 2022 to 31 December 2022, an amount equal to the *firm's permanent minimum capital requirement* after any transitional relief that may apply under *MIFIDPRU* TP 2.12R has been taken into account; and
- (b) from 1 January 2023 to 31 December 2026:

- (i) in relation to the *firm's fixed overheads requirement*, the relevant percentage specified in (4) of the *firm's fixed overheads requirement* (as that requirement would be determined if the substitution in (2)(a) did not apply); and
- (ii) in relation to the *firm's K-factor requirement*, the relevant percentage specified in (4) of the *firm's K-factor requirement* (as that requirement would be determined if the substitution in (2)(b) did not apply).

(4) The relevant percentage is:

- (a) from 1 January 2023 to 31 December 2023: 10%;
- (b) from 1 January 2024 to 31 December 2024: 25%;
- (c) from 1 January 2025 to 31 December 2025: 45%; and
- (d) from 1 January 2026 to 31 December 2026: 70%.

Transitional provisions for K-factor requirement for firms not in existence before 1 January 2022

- 2.11 R (1) This *rule* applies to a *MIFIDPRU investment firm* that immediately before 1 January 2022:
- (a) was not in existence; or
 - (b) did not have a *Part 4A permission* that permitted the *firm* to carry on any *investment services and/or activities*.
- (2) A *firm* may substitute the alternative requirement in (3) for its *K-factor requirement* under *MIFIDPRU* 4.6 (to the extent that such a requirement applies).
- (3) The alternative requirement is an amount equal to twice the *fixed overheads requirement* of the *firm* calculated in accordance with *MIFIDPRU* 4.5 from time to time.

Transitional provisions for permanent minimum capital requirement: former exempt CAD firms

- 2.12 R (1) This *rule* applies to a *MIFIDPRU investment firm* that under the *rules* in force on 31 December 2021 was classified as an *exempt CAD firm*.
- (2) A *firm* may substitute the alternative requirement in (3) for its *permanent minimum capital requirement* under *MIFIDPRU* 4.4.

- (3) The alternative requirement is as follows:
- (a) from 1 January 2022 to 31 December 2022: £50,000;
 - (b) from 1 January 2023 to 31 December 2023: £55,000;
 - (c) from 1 January 2024 to 31 December 2024: £60,000;
 - (d) from 1 January 2025 to 31 December 2025: £65,000; and
 - (e) from 1 January 2026 to 31 December 2026: £70,000.
- (4) This *rule* is subject to *MIFIDPRU* TP 2.19R.

Transitional provisions for permanent minimum capital requirement: former IFPRU investment firms

- 2.13 R (1) Subject to (2), this *rule* applies to a *MIFIDPRU investment firm* that under the *rules* in force on 31 December 2021 was classified as an *IFPRU 50K firm*.
- (2) This *rule* does not apply to a *firm* to which *MIFIDPRU* TP 2.18R applies.
- (3) A *firm* may substitute the alternative requirement in (4) for its *permanent minimum capital requirement* under *MIFIDPRU* 4.4.
- (4) The alternative requirement is as follows:
- (a) from 1 January 2022 to 31 December 2022: £50,000;
 - (b) from 1 January 2023 to 31 December 2023: £55,000;
 - (c) from 1 January 2024 to 31 December 2024: £60,000;
 - (d) from 1 January 2025 to 31 December 2025: £65,000; and
 - (e) from 1 January 2026 to 31 December 2026: £70,000.
- (5) This *rule* is subject to *MIFIDPRU* TP 2.19R.
- 2.14 R (1) Subject to (2), this *rule* applies to a *MIFIDPRU investment firm* that:
- (a) under the *rules* in force on 31 December 2021 was classified as an *IFPRU 125K firm*; or
 - (b) is a *collective portfolio management investment firm* that would be subject to a *permanent minimum capital requirement* of £150,000 under *MIFIDPRU* 4.4.3R if this *rule* did not apply.

- (2) This *rule* does not apply to a *firm* to which *MIFIDPRU* TP 2.18R applies.
 - (3) A *firm* may substitute the alternative requirement in (4) for its *permanent minimum capital requirement* under *MIFIDPRU* 4.4.
 - (4) The alternative requirement is as follows:
 - (a) from 1 January 2022 to 31 December 2022: £125,000;
 - (b) from 1 January 2023 to 31 December 2023: £130,000;
 - (c) from 1 January 2024 to 31 December 2024: £135,000;
 - (d) from 1 January 2025 to 31 December 2025: £140,000; and
 - (e) from 1 January 2026 to 31 December 2026: £145,000.
 - (5) This *rule* is subject to *MIFIDPRU* TP 2.19R.
- 2.15 R (1) This *rule* applies to a *MIFIDPRU investment firm* that under the *rules* in force on 31 December 2021 was classified as an *IFPRU 730K firm*.
- (2) A *firm* may substitute the alternative requirement in (3) for its *permanent minimum capital requirement* under *MIFIDPRU* 4.4.
 - (3) The alternative requirement is as follows:
 - (a) from 1 January 2022 to 31 December 2022: £730,000;
 - (b) from 1 January 2023 to 31 December 2023: £735,000;
 - (c) from 1 January 2024 to 31 December 2024: £740,000;
 - (d) from 1 January 2025 to 31 December 2025: £745,000; and
 - (e) from 1 January 2026 to 31 December 2026: £750,000.
 - (4) This *rule* is subject to *MIFIDPRU* TP 2.19R.

Transitional provisions for permanent minimum capital requirement: former BIPRU firms

- 2.16 R (1) This *rule* applies to a *MIFIDPRU investment firm* that under the *rules* in force on 31 December 2021 was classified as a *BIPRU firm* (other than an *exempt BIPRU commodities firm* or a *collective portfolio management investment firm*).
- (2) This *rule* does not apply to a *firm* to which *MIFIDPRU* TP 2.18R applies.

- (3) A *firm* may substitute the alternative requirement in (4) for its *permanent minimum capital requirement* under *MIFIDPRU* 4.4.
- (4) The alternative requirement is as follows:
 - (a) from 1 January 2022 to 31 December 2022: £50,000;
 - (b) from 1 January 2023 to 31 December 2023: £55,000;
 - (c) from 1 January 2024 to 31 December 2024: £60,000;
 - (d) from 1 January 2025 to 31 December 2025: £65,000; and
 - (e) from 1 January 2026 to 31 December 2026: £70,000.
- (5) This *rule* is subject to *MIFIDPRU* TP 2.19R.

- 2.17 G
- (1) The transitional arrangements in *MIFIDPRU* TP 2.13R to 2.16R permit the relevant *MIFIDPRU investment firms* to substitute an alternative requirement for their *permanent minimum capital requirement*. Those provisions do not affect the *fixed overheads requirement* or, where applicable, the *K-factor requirement* for such *firms*.
 - (2) The effect of (1) is that where the *fixed overheads requirement* or the *K-factor requirement* of the relevant *MIFIDPRU investment firm* (in each case, as modified by any other relevant transitional arrangements in this section) is higher than the alternative requirement substituted for the *firm's permanent minimum capital requirement*, the *firm's own funds requirement* under *MIFIDPRU* 4.3 will still be the higher of those other two requirements.

Transitional provisions for permanent minimum capital requirement: former IFPRU and BIPRU firms that relied on IFPRU 1.1.12R or BIPRU 1.1.23R (former “matched principal” firms)

- 2.18 R
- (1) This *rule* applies to a *firm* that, under the *rules* in force on 31 December 2021, was classified as one of the following:
 - (a) an *IFPRU 50K firm*, due to the application of *IFPRU* 1.1.12R (Meaning of dealing on own account);
 - (b) an *IFPRU 125K firm*, due to the application of *IFPRU* 1.1.12R (Meaning of dealing on own account); or
 - (c) a *BIPRU firm*, due to the application of *BIPRU* 1.1.23R (Meaning of dealing on own account).
 - (2) A *firm* may substitute the alternative requirement in (3) for its *permanent minimum capital requirement* under *MIFIDPRU* 4.4.

- (3) The alternative requirement is as follows:
- (a) from 1 January 2022 to 31 December 2022:
 - (i) for a former *BIPRU firm* or a former *IFPRU 50K firm*: £50,000; or
 - (ii) for a former *IFPRU 125K firm*: £125,000;
 - (b) from 1 January 2023 to 31 December 2023: £190,000;
 - (c) from 1 January 2024 to 31 December 2024: £330,000;
 - (d) from 1 January 2025 to 31 December 2025: £470,000; and
 - (e) from 1 January 2026 to 31 December 2026: £610,000.

Disapplication of permanent minimum capital requirement transitional provisions because of changes to a firm's permissions

- 2.19 R The transitional arrangements in *MIFIDPRU* TP 2.12R to 2.16R cease to apply if there is a change to the *permissions* of the relevant *MIFIDPRU investment firm*, or any *limitation* or *requirement* that applies to the *firm*, on or after 1 January 2022 that increases the *permanent minimum capital requirement* that would apply to the *firm* under *MIFIDPRU* 4.4.

Transitional provisions for own funds requirement: former local firms

- 2.20 R (1) Subject to (4), this *rule* applies to a *MIFIDPRU investment firm* that:
- (a) was in existence before 25 December 2019; and
 - (b) under the *rules* in force on 31 December 2021, was classified as a *local firm*.
- (2) A *firm* may substitute the alternative requirement in (3) for its *own funds requirement* under *MIFIDPRU* 4.3.
- (3) The alternative requirement is as follows:
- (a) from 1 January 2022 to 31 December 2022: £250,000;
 - (b) from 1 January 2023 to 31 December 2023: £350,000;
 - (c) from 1 January 2024 to 31 December 2024: £450,000;
 - (d) from 1 January 2025 to 31 December 2025: £550,000; and
 - (e) from 1 January 2026 to 31 December 2026: £650,000.
- (4) This *rule* ceases to apply to a *firm* where:

- (a) there is a change to the *permissions* of the *firm*, or any *limitation* or *requirement* that applies to the *firm*, on or after 1 January 2022; and
- (b) if the change in (a) had occurred immediately before 1 January 2022, the *firm* would have ceased to meet the definition of a *local firm*.

Transitional provisions for fixed overheads and K-factor requirements: exempt commodities firms

- 2.21 R (1) This *rule* applies to a *MIFIDPRU investment firm* that, under the *rules* in force on 31 December 2021, was classified as:
- (a) an *exempt IFPRU commodities firm*; or
 - (b) an *exempt BIPRU commodities firm*.
- (2) A *firm* may substitute the alternative requirement in (3) for each of:
- (a) its *fixed overheads requirement* under *MIFIDPRU* 4.5; and
 - (b) to the extent applicable, its *K-factor requirement* under *MIFIDPRU* 4.6.
- (3) Subject to (5), the alternative requirement is:
- (a) from 1 January 2022 to 31 December 2022: an amount equal to the *firm's permanent minimum capital requirement*;
 - (b) from 1 January 2023 to 31 December 2026:
 - (i) in relation to the *firm's fixed overheads requirement*, the relevant percentage specified in (4) of the *firm's fixed overhead requirement* (as that requirement would be determined if the substitution in (2)(a) did not apply); and
 - (ii) in relation to the *firm's K-factor requirement*, the relevant percentage specified in (4) of the *firm's K-factor requirement* (as that requirement would be determined if the substitution in (2)(b) did not apply).
- (4) The relevant percentage is:
- (a) from 1 January 2023 to 31 December 2023: 10%;
 - (b) from 1 January 2024 to 31 December 2024: 25%;

- (c) from 1 January 2025 to 31 December 2025: 45%; and
 - (d) from 1 January 2026 to 31 December 2026: 70%.
- (5) Subject to (6), if the *firm* was subject to *IPRU(INV) 3* on 31 December 2021, the alternative requirement can never be lower than the amount of the financial resources requirement that would have applied to the *firm* if it had continued to be subject to *IPRU(INV) 3* in the form in which that chapter stood on that date.
- (6) When determining the amount of the financial resources requirement under *IPRU(INV) 3* for the purposes of (5), a *firm* may determine the delta of an option as follows:
- (a) if an option is traded on an exchange, the *firm* must use the delta provided by that exchange; or
 - (b) if the delta is not available from the exchange, or if the option is an over-the-counter option, the *firm* may use its own estimates of delta where the conditions in *MIFIDPRU 4.12.10R* are met.

2.22 G *MIFIDPRU TP 2.21R(5)* means that the alternative *fixed overheads requirement* and alternative *K-factor requirement* of an *exempt IFPRU commodities firm* or an *exempt BIPRU commodities firm* under the transitional arrangements are subject to a floor if the *firm* was previously subject to *IPRU(INV) 3*. The base requirement under *IPRU(INV) 3-71R* (in the form in which it stood on 31 December 2021) is calculated by reference to the highest of an absolute minimum requirement, an expenditure requirement and a volume of business requirement. The *firm* should therefore recalculate the alternative requirement under *IPRU(INV) 3* regularly. The *FCA* considers that it would be appropriate for the *firm* to carry out such calculations at least as frequently as it reports information on its *own funds requirement* to the *FCA* under *MIFIDPRU 9*.

Transitional provisions for consolidated own funds requirement

- 2.23 R (1) This *rule* applies to a *UK parent entity* that is required to apply prudential consolidation to an *investment firm group* in accordance with *MIFIDPRU 2.5*.
- (2) A *UK parent entity* may substitute the alternative requirements in (3) for the following, as they result from applying *MIFIDPRU 4* to its *consolidated situation*:
- (a) the consolidated *fixed overheads requirement*; and
 - (b) the consolidated *K-factor requirement*.

- (3) Subject to (8), the alternative requirement is:
- (a) in relation to the *fixed overheads requirement*, an amount calculated in accordance with the formula in (4); and
 - (b) in relation to the *K-factor requirement*, an amount calculated in accordance with the formula in (6).

- (4) The formula for calculating the alternative requirement for the consolidated *fixed overheads requirement* is:

$$A = B - C$$

where:

A = the alternative requirement for the consolidated *fixed overheads requirement*.

B = the consolidated *fixed overheads requirement* that results from applying *MIFIDPRU* 4 to the *consolidated situation* in accordance with *MIFIDPRU* 2.5 without applying *MIFIDPRU* TP 2.

C = the transitional credit, determined in accordance with (5).

- (5) For the purposes of (4), the transitional credit (C) is the sum of the output of the following formula as applied to each *MIFIDPRU investment firm* in the *investment firm group*:

$$C = D - E$$

where:

D = the individual *fixed overheads requirement* that would apply to the *MIFIDPRU investment firm* under *MIFIDPRU* 4, ignoring any transitional relief under *MIFIDPRU* TP 2.

E = the alternative requirement that applies to the *MIFIDPRU investment firm* under *MIFIDPRU* TP 2 in place of the individual *fixed overheads requirement*. If no alternative requirement applies to the *firm* in place of its individual *fixed overheads requirement*, the value of E is equal to D.

- (6) The formula for calculating the alternative requirement for the consolidated *K-factor requirement* is:

$$F = G - H$$

where:

F = the alternative requirement for the consolidated *K-factor requirement*.

G = the consolidated *K-factor requirement* that results from applying *MIFIDPRU 4* to the *consolidated situation* in accordance with *MIFIDPRU 2.5* without applying *MIFIDPRU TP 2*.

H = the transitional credit, determined in accordance with (7).

- (7) For the purposes of (6), the transitional credit (H) is the sum of the output of the following formula as applied to each *MIFIDPRU investment firm* in the *investment firm group*:

$$H = J - K$$

where:

J = the *K-factor requirement* that would apply to the individual *MIFIDPRU investment firm* under *MIFIDPRU 4*, ignoring any transitional relief under *MIFIDPRU TP 2*.

K = the alternative requirement that applies to the *MIFIDPRU investment firm* under *MIFIDPRU TP 2* in place of the individual *K-factor requirement*. If no alternative requirement applies to the *firm* in place of its individual *K-factor requirement*, the value of K is equal to J.

- (8) The alternative requirement can never be lower than the following:
- (a) in relation to the consolidated *fixed overheads requirement*, the sum of the following in relation to the *investment firm group*:
 - (i) for each *MIFIDPRU investment firm* that is subject to an alternative requirement under *MIFIDPRU TP 2* in place of its individual *fixed overheads requirement*, that alternative requirement; and
 - (ii) for every other *MIFIDPRU investment firm*, the *firm's* individual *fixed overheads requirement*;
 - (b) in relation to the consolidated *K-factor requirement*, the sum of the following in relation to the *MIFIDPRU investment firms* in the *investment firm group*:
 - (i) for each *MIFIDPRU investment firm* that is subject to an alternative requirement under *MIFIDPRU TP*

2 in place of its individual *K-factor requirement*, that alternative requirement; and

- (ii) for other *MIFIDPRU investment firms*, the individual *K-factor requirement*.

Interaction between alternative fixed overheads requirement and basic liquid assets requirement

- 2.24 R (1) This *rule* applies where:
- (a) a *firm* is applying an alternative requirement for its *fixed overheads requirement* under any of the following:
 - (i) *MIFIDPRU TP 2.7R(2)(a)*;
 - (ii) *MIFIDPRU TP 2.10R(2)(a)*;
 - (iii) *MIFIDPRU TP 2.21R(2)(a)*; or
 - (b) a *UK parent entity* is applying an alternative requirement for its consolidated *fixed overheads requirement* under *MIFIDPRU TP 2.23R(2)(a)*.
- (2) Where this *rule* applies to a *firm* in (1)(a), the requirement in *MIFIDPRU 6.2.1R(1)* applies as if the reference to the *fixed overheads requirement* is a reference to the alternative requirement.
- (3) Where this *rule* applies to a *UK parent entity* in (1)(b), the requirement in *MIFIDPRU 6.2.1R(1)*, as it applies on a *consolidated basis*, applies as if the reference to the *fixed overheads requirement* is a reference to the alternative requirement.
- 2.25 G (1) The effect of *MIFIDPRU TP 2.24R* is that where a *firm* is applying an alternative requirement for its *fixed overheads requirement* under a transitional provision in this annex, the amount of *core liquid assets* that it must hold under *MIFIDPRU 6.2.1R(1)* is calculated by reference to the alternative requirement. This does not affect any amount of *core liquid assets* that the *firm* must hold under *MIFIDPRU 6.2.1R(2)* in relation to guarantees provided to *clients*.
- (2) *MIFIDPRU TP 2.24R* also applies on an equivalent basis to a *UK parent entity* that is applying an alternative requirement for its consolidated *fixed overheads requirement*.
- (3) The following is an example of how *MIFIDPRU TP 2.24R* applies in practice:

- (a) A former *exempt CAD firm* is calculating its *basic liquid assets requirement* under *MIFIDPRU* 6.2.1R after *MIFIDPRU* has been in force for 18 months. The *firm's fixed overheads requirement* (calculated without any transitional relief) is 900. The *firm* has provided total guarantees to clients of 100.
- (b) Under *MIFIDPRU* TP 2.10R(2)(a), the *firm* can apply an alternative requirement of 10% of its standard *fixed overheads requirement* in accordance with *MIFIDPRU* TP 2.10R(4)(a). The alternative requirement is therefore 90 (i.e. 10% of 900).
- (c) Under *MIFIDPRU* TP 2.24R, the *firm* calculates the amount of *core liquid assets* that it requires under *MIFIDPRU* 6.2.1R(1) by reference to the alternative requirement. This means that the *firm* must hold *core liquid assets* of 30 for these purposes (i.e. one third of 90).
- (d) Under *MIFIDPRU* 6.2.1R(2), the *firm* must also hold *core liquid assets* of 1.6% of the total amount of the guarantees it has provided to clients. In this case, that means that the *firm* must hold a further 1.6 in *core liquid assets* (i.e. 1.6% of 100). This amount is not affected by the transitional relief in *MIFIDPRU* TP 2.24R.
- (e) The *firm* would therefore need to hold *core liquid assets* of 31.6 to satisfy its *basic liquid assets requirement*.

Continuing validity of UK CRR market risk permissions

- 2.26 R (1) This *rule* applies to any permission listed in column (A) of the table in *MIFIDPRU* TP 2.27R, where that permission was granted to a *firm* by the *FCA* for the purposes of the *UK CRR* before 1 January 2022.
- (2) Where this *rule* applies, a permission in column (A) of the table in *MIFIDPRU* TP 2.27R is deemed to have the effect described in column (B) in the same row of that table.
- 2.27 R This table belongs to *MIFIDPRU* TP 2.26R.

Article 331 <i>UK CRR</i> : permission to use sensitivity models to calculate interest rate risk	The permission in column (A) is deemed to have been granted on equivalent terms for its remaining duration under <i>MIFIDPRU</i> 4.12.66R

- 2.28 G (1) *MIFIDPRU* 4.12.10R requires a *MIFIDPRU investment firm* that wishes to use its own estimates of delta for the purposes of the standardised approach for the market risk of options to notify the *FCA* that it meets certain minimum standards before doing so. Previously, *firms* that were subject to the *UK CRR* were required to seek the *FCA*'s permission before using their own estimates of delta for these purposes. The effect of *MIFIDPRU* TP 2.25R and 2.26R is that any permission granted for these purposes to a former *CRR firm* that has subsequently become a *MIFIDPRU investment firm* will be treated as a valid notification for the purposes of *MIFIDPRU* 4.12.10R. This means that the *firm* does not need to submit a new notification under *MIFIDPRU* 4.12.10R to use its own estimates of delta under that *rule* for which the *firm* previously had permission.
- (2) The effect of *MIFIDPRU* TP 2.26R and 2.27R is that a former *CRR firm* that was granted a permission to use interest rate sensitivity models under article 331 *UK CRR* and that has subsequently become a *MIFIDPRU investment firm* can treat that permission as having been granted on equivalent terms for the purposes of the corresponding requirement under *MIFIDPRU*. The duration of the original permission is not affected. For example, if a *firm* was granted permission to use an interest rate sensitivity model on 1 June 2021 for a one-year duration, that permission will be treated from 1 January 2022 as if it had been granted under *MIFIDPRU*, but will still expire on 1 June 2022.

TP 3 Group capital test: transitional arrangements

Application

- 3.1 R *MIFIDPRU* TP 3 applies to:
- (1) a *MIFIDPRU investment firm*;
 - (2) a *UK parent entity*; and

- (3) a *GCT parent undertaking* in an *investment firm group*.

Purpose

- 3.2 G *MIFIDPRU* TP 3 contains transitional provisions which allow an *investment firm group* to apply the *group capital test* on a temporary basis before the *FCA* has determined an application under *MIFIDPRU* 2.4.17R, provided that certain conditions are met.

Temporary application of the group capital test

- 3.3 R (1) This *rule* applies to an *investment firm group* where:
- (a) the *UK parent entity* or a *MIFIDPRU investment* within that *investment firm group* has submitted an application to the *FCA* under *MIFIDPRU* 2.4.17R by no later than 1 February 2022; and
 - (b) the *management body* of the *UK parent entity* or *MIFIDPRU investment firm* has determined that there is a reasonable basis to conclude that the *investment firm group* satisfies the requirements in *MIFIDPRU* 2.4.17R(2)(a) and (b).
- (2) This *rule* applies from 1 January 2022 until the earlier of the following:
- (a) 1 January 2024; or
 - (b) the date specified in the notification to the *UK parent entity* or *MIFIDPRU investment firm* of the *FCA*'s decision in relation to the application in (1)(a).
- (3) Where this *rule* applies, the *undertakings* in *MIFIDPRU* TP 3.1 may apply the *group capital test* in accordance with *MIFIDPRU* 2.6, even though the *FCA* has not granted permission to use the *group capital test* under *MIFIDPRU* 2.4.17R.
- 3.4 G Under *MIFIDPRU* 2.4.18R(2)(g), an application submitted under *MIFIDPRU* 2.4.17R must demonstrate how the *investment firm group* would comply with the consolidated requirements under *MIFIDPRU* 2.5 if the *FCA* did not grant permission to apply the *group capital test*. The application must also explain the timeframe in which the *investment firm group* would expect to comply with the consolidated requirements. If the *FCA* does not grant the application, it will use this information to determine an appropriate date under *MIFIDPRU* TP 3.3R(2)(b) on which the transitional arrangements will end.

TP 4 K-factor metric calculations: transitional

Application

- 4.1 R *MIFIDPRU* TP 4 applies to a *MIFIDPRU investment firm* where:
- (1) immediately before 1 January 2022, the *firm* was carrying on *investment services and/or activities*; and
 - (2) the *investment services and/or activities* in (1) result in *K-factor metrics* that are relevant to the calculation of the following on or after 1 January 2022:
 - (i) the *firm's K-factor requirement*; or
 - (ii) an alternative requirement in *MIFIDPRU* TP 2 that is calculated by reference to the *K-factor requirement*.
- 4.2 R *MIFIDPRU* TP 4.11 applies to a *UK parent entity* where the following conditions are met:
- (1) the *UK parent entity* is required to apply *MIFIDPRU* 4 on a *consolidated basis* in accordance with *MIFIDPRU* 2.5.7R; and
 - (2) the *consolidated situation* of the *UK parent entity* includes one or more of the following:
 - (a) a *MIFIDPRU investment firm* to which *MIFIDPRU* TP 4.1R applies; or
 - (b) a *third country* entity to which *MIFIDPRU* TP 4.1R would apply if it were established in the *UK*.

Purpose

- 4.3 G
- (1) The standard *rules* in *MIFIDPRU* 4 require a *MIFIDPRU investment firm* to collect data on the *K-factor metrics* that are relevant to the *investment services and/or activities* that the *firm* carries on. Certain *K-factor average metric* calculations are based on average values and require a minimum level of historical data.
 - (2) *MIFIDPRU* TP 4 contains transitional rules for the calculation of a *firm's K-factor requirement* where a *firm* was carrying on *investment services and/or activities* immediately before *MIFIDPRU* began to apply, but does not have the historical data necessary to calculate the relevant *K-factor average metric*.
 - (3) *MIFIDPRU* TP 4 is not relevant to the calculation of the following elements of the *K-factor requirement* because they do not use historical data:

- (1) the *K-NPR requirement*;
- (2) the *K-TCD requirement*; and
- (3) the *K-CON requirement*.

Duration

- 4.4 G The duration of the transitional arrangements in *MIFIDPRU* TP 4 depends on the relevant *K-factor average metric*. Under *MIFIDPRU* TP 4.5.R(3), the transitional arrangements cease to apply when a *firm* has (or should have) collected sufficient historical information to perform the necessary calculations in accordance with the standard calculation *rules* for the relevant *K-factor average metric* in *MIFIDPRU* 4.

Missing historical data for K-factor calculations: transitional provisions for individual MIFIDPRU firms

- 4.5 R
- (1) This *rule* applies to the extent that a *MIFIDPRU investment firm* does not have the necessary historical data to calculate the *K-factor average metric* required for any of the following in accordance with the relevant *rules* in *MIFIDPRU* 4:
 - (a) its *K-AUM requirement*;
 - (b) its *K-CMH requirement*;
 - (c) its *K-ASA requirement*;
 - (d) its *K-COH requirement*;
 - (e) its *K-DTF requirement*; or
 - (f) its *K-CMG requirement*.
 - (2) Subject to *MIFIDPRU* TP 4.13R(2)(a), a *firm* may either:
 - (a) use reasonable estimates to fill any missing historical data points in the calculation of the relevant *K-factor average metric*; or
 - (b) as an exception to the standard calculation *rules* in *MIFIDPRU* 4, use the modified calculation in *MIFIDPRU* TP 4.11R to calculate the relevant *K-factor average metric*.
 - (3) This *rule* ceases to apply in relation to a *K-factor metric* on the earlier of the following:

- (a) the date on which the *firm* has collected sufficient historical information to calculate the *K-factor average metric* in accordance with the *rules* in *MIFIDPRU 4*; or
- (b) the date that falls *n months* after the date on which *MIFIDPRU* first began to apply, where *n* is the number of *months*' worth of data points required to calculate that *K-factor average metric* in accordance with the standard calculation *rules* in *MIFIDPRU 4*.
- 4.6 G (1) *MIFIDPRU* TP 4.5R(3) specifies the date on which the transitional arrangements for calculating a *K-factor average metric* will cease to apply and the *firm* must therefore use the standard calculation *rules* in *MIFIDPRU 4* for that *K-factor average metric*. This date may vary depending on the position of the individual *firm*.
- (2) Under *MIFIDPRU* TP 4.5R(3)(a), once a *firm* has sufficient historical information to perform the calculation in the standard way, it is no longer permitted to use either reasonable estimates for missing data points or to use the modified calculation in *MIFIDPRU 4.11R*. For example, on the date on which *MIFIDPRU* begins to apply, Firm A already has historical data on its *AUM* covering the previous 10 *months*. The standard calculation of *average AUM* in *MIFIDPRU 4* requires 15 *months* of historical data. Since the *firm* must begin collecting *AUM* data no later than the date that *MIFIDPRU* begins to apply, the *firm* will have sufficient data to perform the standard calculation 5 *months* later. At that point, the transitional arrangements under *MIFIDPRU* TP 4 will no longer apply to the *firm's* calculation of *average AUM*.
- (3) *MIFIDPRU* TP 4.5R(3)(b) acts as a "long-stop" date for the transitional arrangements under *MIFIDPRU* TP 4. A *firm* must begin collecting data on its *K-factor metrics* no later than the date that *MIFIDPRU* begins to apply. Therefore, a *MIFIDPRU investment firm* should have sufficient historical data to perform the standard calculation of a *K-factor metric* once sufficient *months* have elapsed to cover at least the standard calculation period for that *K-factor metric*. For example, the standard calculation for *average CMH* requires 9 *months* of historical data. For the purposes of *MIFIDPRU* TP 4.5.R(3)(b), the value of *n* is therefore 9, and the transitional arrangements under *MIFIDPRU* TP 4 will cease to apply to the calculation of *average CMH* 9 *months* after *MIFIDPRU* first begins to apply.
- 4.7 R (1) A *firm* must apply its chosen approach under *MIFIDPRU* TP 4.5R(2) consistently for a specific *K-factor average metric*.

- (2) A *firm* may apply different approaches under *MIFIDPRU* TP 4.5R(2) for different *K-factor average metrics*.
- 4.8 G *MIFIDPRU* TP 4.7R prevents a *firm* from changing its approach to missing historical data points for a particular *K-factor average metric*. For example, if a *firm* is missing the necessary historical data points and chooses to apply the modified calculation in *MIFIDPRU* TP 4.11R to determine *average AUM*, it cannot subsequently decide to estimate the missing values for *average AUM* instead. However, a *firm* may choose, for example, to use reasonable estimates for missing values for *average AUM*, but to apply the modified calculation in *MIFIDPRU* TP 4.11R for the purposes of missing values for *average COH*. In the example, this could reflect the fact that the *firm* has a reasonable basis on which to estimate *AUM*, but is unable to produce reasonable estimates for *COH*.
- 4.9 R If the *FCA* requests it, a *firm* that uses reasonable estimates in accordance with *MIFIDPRU* TP 4.5R(2)(a) must explain how it has determined the relevant estimates.
- 4.10 G If a *firm* does not have a reasonable basis on which to estimate missing historical data points for a *K-factor average metric*, it should apply the modified calculation in *MIFIDPRU* TP 4.11R.
- 4.11 R (1) A *firm* that is using the modified calculation for determining a *K-factor average metric*, other than for the *K-CMG requirement*, must apply the following requirements:
- (a) the *firm* must calculate the arithmetic mean of the daily values (or in the case of *AUM*, monthly values) for the *K-factor metric* over the previous *n months*, excluding the most recent *y months*;
 - (b) *n* is the number of *months* that have elapsed since *MIFIDPRU* began to apply (with the *month* during which *MIFIDPRU* begins to apply being counted as month 1);
 - (c) *y* is the greater of:
 - (i) zero; or
 - (ii) *n* minus *x*; and
 - (d) *x* is a fixed value, being:
 - (i) 12 for *average AUM*;
 - (ii) 6 for *average CMH*, *average ASA* or *average DTF*; and
 - (iii) 3 for *average COH*.

- (2) A *firm* that uses the modified calculation for determining the level of margin for the purposes of the *K-CMG requirement* must apply the following requirements:
- (a) the *firm* must calculate the third highest amount of total margin as calculated under *MIFIDPRU* 4.13.5R required from the *firm* on a daily basis over the preceding *n months*; and
 - (b) *n* is the number of *months* that have elapsed since *MIFIDPRU* began to apply (with the *month* during which *MIFIDPRU* begins to apply being counted as month 1).
- 4.12 G (1) The following are worked examples of the modified calculation in *MIFIDPRU* TP 4.11R.
- (2) Firm A has chosen to apply the modified calculation for *average AUM*. *MIFIDPRU* has been in force for 6 *months*. Firm A would calculate its *average AUM* as follows:
- (a) the value of *n* is 6, being the length of time that *MIFIDPRU* has been in force;
 - (b) the value of *y* is zero, as zero is greater than *n* minus *x* (i.e. 6 minus 12). This means that Firm A must not exclude any of the most recent *months* of daily figures; and
 - (c) when calculating *average AUM* for present purposes, Firm A must therefore calculate the arithmetic mean of the previous 6 *months* of daily values for *AUM*.
- (3) Firm B applies the modified calculation for *COH*, as it is unable to generate reasonable estimates for missing data points for *COH*. *MIFIDPRU* has been in force for 4 *months*. Firm B would calculate its *COH* as follows:
- (a) the value of *n* is 4, being the length of time that *MIFIDPRU* has been in force;
 - (b) the value of *y* is 1, as *n* minus *x* (i.e. 4 minus 3) is greater than zero; and
 - (c) when calculating *average COH* for present purposes, Firm B must therefore calculate the arithmetic mean of the previous 4 *months* of daily values for *COH*, excluding the values for the most recent *month*.
- (4) *MIFIDPRU* has been in force for 10 *months*. Although Firm C would like to apply the modified calculation for *average CMH*, under *MIFIDPRU* TP 4.5R(3)(b), this is not permitted. This is

because the standard calculation of *average CMH* under *MIFIDPRU* 4 requires only 9 months of daily values. Firm C should therefore have collected sufficient data by that time to be able to apply the standard calculation.

Missing historical data for K-factor calculations: transitional provisions for investment firm groups to which consolidation applies

- 4.13 R (1) If the conditions in (2) are met, a *UK parent entity* may apply the transitional arrangements in *MIFIDPRU* TP 4.5R to *MIFIDPRU* TP 4.11R, as modified by *MIFIDPRU* TP 4.14R, when calculating *K-factor average metrics* on a *consolidated basis*.
- (2) The conditions are as follows:
- (a) to the extent that it is relying on the transitional arrangements in *MIFIDPRU* TP 4, each *MIFIDPRU investment firm* in the *investment firm group* must apply the same approach under *MIFIDPRU* TP 4.5R(2) to calculate a specific *K-factor average metric* on an individual basis; and
- (b) the *UK parent entity* must apply the same approach under *MIFIDPRU* TP 4.5R(2) to calculate a specific *K-factor average metric* on a *consolidated basis* as the *firms* in (a) have applied on an individual basis.
- 4.14 R Where a *UK parent entity* is applying *MIFIDPRU* TP 4.5R to 4.11R in accordance with *MIFIDPRU* TP 4.13R, the following modifications apply:
- (1) a reference to a “*K-factor metric*” or a “*K-factor average metric*” is a reference to that *K-factor metric* or *K-factor average metric* as it applies on a *consolidated basis*;
- (2) a reference to the “*K-AUM requirement*”, “*K-COH requirement*”, “*K-ASA requirement*”, “*K-CMH requirement*”, “*K-DTF requirement*” or “*K-CMG requirement*” is a reference to those requirements as they apply on a *consolidated basis*;
- (3) a reference to *MIFIDPRU* 4 is a reference to that chapter as it applies on a *consolidated basis* in accordance with *MIFIDPRU* 2.5; and
- (4) a reference to a “*firm*” is a reference to the *UK parent entity*.
- 4.15 G (1) Under *MIFIDPRU* 2.5, a *third country* entity that would be a *MIFIDPRU investment firm* if it were established in the *UK* may contribute towards a consolidated *K-factor metric*. A *UK parent entity* may rely on the transitional arrangements in *MIFIDPRU*

TP 4 in relation to missing data points relating to such entities that the *UK parent entity* requires to calculate the consolidated *K-factor requirement*.

- (2) However, under *MIFIDPRU 2.5.9R*, a *UK parent entity* must ensure that any *subsidiaries* that are not subject to *MIFIDPRU* (including *third country* entities) implement the necessary arrangements to ensure that the *UK parent entity* can comply with consolidated requirements. As a result, the guidance in *MIFIDPRU TP 4.6G(2)* is equally applicable to *third country* entities within the *investment firm group*, which must ensure that they begin to collect the necessary data once *MIFIDPRU* begins to apply.

TP 6 Application of criteria to be classified as an SNI MIFIDPRU investment firm: transitional

Application

6.1 R *MIFIDPRU TP 6* applies to the following:

- (1) a *MIFIDPRU investment firm*; and
- (2) a *UK parent entity*, in accordance with *MIFIDPRU TP 6.9R*.

Purpose

- 6.2 G (1) *MIFIDPRU TP 6* explains how a *MIFIDPRU investment firm*, or a *UK parent entity* which is applying *MIFIDPRU 1.2* on a *consolidated basis*, should determine whether it meets the conditions to be classified as an *SNI MIFIDPRU investment firm* on the date on which *MIFIDPRU* begins to apply.
- (2) Under *MIFIDPRU TP 6.4R*, a *MIFIDPRU investment firm* or a *UK parent entity* may use either the reasonable estimates approach or the alternative calculation in *MIFIDPRU TP 4.5R(2)* to determine missing historical data points for the purposes of applying the *average AUM* or *average COH* conditions under *MIFIDPRU 1.2.1R(1)* and (2).
- (3) Under *MIFIDPRU TP 6.7R*, a *MIFIDPRU investment firm* or a *UK parent entity* must use its best efforts to estimate any missing historical data points for the purposes of applying the condition relating to total annual gross revenue from *investment services and/or activities* in *MIFIDPRU 1.2.1R(7)*.
- (4) The transitional arrangements in *MIFIDPRU TP 6* apply only to the extent that the firm has missing historical data points. If a *firm* has observed historical data covering any part of the

relevant period, the *firm* should use those data points when applying the relevant calculations.

Duration

- 6.3 G The duration of the transitional arrangements in *MIFIDPRU* TP 6 depends on the relevant condition for classification as an *SNI MIFIDPRU investment firm* under *MIFIDPRU* 1.2. Under *MIFIDPRU* TP 6.4R(5) and *MIFIDPRU* TP 6.7R(3), the transitional arrangements cease to apply once a *firm* or *UK parent entity* has (or should have) collected sufficient historical information to apply the relevant condition in accordance with the applicable methodology in *MIFIDPRU* 1.2.

Missing historical data for application of SNI classification criteria: transitional for individual *MIFIDPRU* investment firms

- 6.4 R (1) This *rule* applies to the extent that a *MIFIDPRU investment firm* does not have the necessary historical data to determine whether the following conditions are met:
- (a) the *average AUM* condition in *MIFIDPRU* 1.2.1R(1); or
 - (b) the *average COH* condition in *MIFIDPRU* 1.2.1R(2).
- (2) If a *firm* decides to apply the alternative approach in *MIFIDPRU* 1.2.4R for the purposes of assessing whether a condition in (1) is met, this *rule* applies to the extent that the *firm* does not have the necessary historical data to apply that alternative approach to the relevant condition.
- (3) Where this *rule* applies, a *firm* may (subject to (4) and *MIFIDPRU* TP 6.5R) use either of the approaches set out in *MIFIDPRU* TP 4.5R(2) to assess whether the relevant condition in (1) is met.
- (4) A *firm's* choice of approach under (3) must be consistent with any choice that the *firm* has made under *MIFIDPRU* TP 4.5R(2) in relation to the same *K-factor average metric* for the purposes of applying the transitional arrangements in *MIFIDPRU* TP 4.
- (5) This *rule* ceases to apply in relation to a condition in (1) on the earlier of the following:
- (a) the date on which the *firm* has collected sufficient historical information necessary to apply the condition in accordance with the applicable methodology under *MIFIDPRU* 1.2; or

- (b) the date that falls *n months* after the date on which *MIFIDPRU* began to apply, where *n* is the number of *months*' worth of data points required to apply that condition in accordance with the applicable methodology under *MIFIDPRU* 1.2.
- 6.5 R (1) This *rule* applies where a *firm* has chosen to apply both of the approaches below to determine whether the *average AUM* condition in *MIFIDPRU* 1.2.1R(1) or the *average COH* conditions in *MIFIDPRU* 1.2.1R(2) is met:
- (a) the alternative approach in *MIFIDPRU* 1.2.4R; and
- (b) the modified calculation under *MIFIDPRU* TP 4.5R(2)(b).
- (2) Where this *rule* applies, the modified calculation applies as if:
- (a) in *MIFIDPRU* TP 4.11R(1)(a), the words “excluding the most recent *y months*” were deleted; and
- (b) *MIFIDPRU* TP 4.11R(1)(c) and (d) were omitted.
- 6.6 R (1) A *firm* must apply its chosen approach under *MIFIDPRU* TP 6.4R(2) consistently in relation to a specific condition in *MIFIDPRU* TP 6.4R(1).
- (2) A *firm* may apply different approaches under *MIFIDPRU* TP 6.4R(2) in relation to different conditions in *MIFIDPRU* TP 6.4R(1).
- 6.7 R (1) This *rule* applies to the extent that a *MIFIDPRU investment firm* does not have the necessary historical data to determine if the condition relating to the total annual gross revenue from *investment services and/or activities* in *MIFIDPRU* 1.2.1R(7) is met.
- (2) Where this *rule* applies, a *firm* must use its best efforts to estimate any missing historical data points for the calculation of the condition in (1).
- (3) This *rule* ceases to apply in relation to a condition in (1) on the earlier of the following:
- (a) the date on which the *firm* has collected sufficient historical information necessary to apply the condition in accordance with the standard methodology under *MIFIDPRU* 1.2; or

- (b) the date on which two complete financial years for the *firm* have elapsed after the date that *MIFIDPRU* began to apply.
- 6.8 R If the *FCA* requests, a *firm* must provide a reasonable explanation of how the *firm* has determined any estimate under *MIFIDPRU* TP 6.4R(3) or *MIFIDPRU* TP 6.7R(2).
- 6.9 G (1) It is unnecessary to provide transitional arrangements for the following conditions:
- (a) the *average ASA* condition in *MIFIDPRU* 1.2.1R(3);
 - (b) the *average CMH* condition in *MIFIDPRU* 1.2.1R(4);
 - (c) whether the *firm* has *permission to deal on own account* in *MIFIDPRU* 1.2.1R(5);
 - (d) the condition relating to the balance sheet total of the *firm* in *MIFIDPRU* 1.2.1R(6); and
 - (e) the *average DTF* condition in *MIFIDPRU* 1.2.1R(9).
- (2) The *average ASA* and *average CMH* conditions require that the *firm* has not held any *MiFID client money*, or any *client assets* in the course of *MiFID business*, during the preceding 9 *months*, excluding the most recent 3 *months*. A *firm* should already have information on whether it has held *client money* or *client assets* in the past. If the *firm* is unable to determine whether any amounts of *client money* or *client assets* were held in connection with *MiFID business*, it should apply *MIFIDPRU* 4.8.6R or *MIFIDPRU* 4.9.6R and treat the amounts as if they were held in connection with *MiFID business* for these purposes.
- (3) The conditions in (1)(c) and (1)(d) do not rely on historical information and therefore can be assessed by the *firm* at the point at which *MIFIDPRU* first begins to apply without any need for transitional arrangements.
- (4) The *average DTF* condition requires that the *firm* must not have entered into any transactions by *dealing on own account* or through the *execution of orders on behalf of clients* in the *firm's* own name during the preceding 9 *months*, excluding the most recent 3 *months*. The *FCA* considers that a *firm* should already know whether it executed any transactions in that capacity during the relevant period.
- 6.10 G (1) *MIFIDPRU* TP 6.4R(5) and *MIFIDPRU* TP 6.7R(3) specify the date on which the transitional arrangements for applying certain conditions under *MIFIDPRU* 1.2.1R will cease to

apply. From that date onwards, the *firm* will need to apply the standard methodology for determining whether it meets the relevant condition. This date may vary depending on the position of the individual *firm* and the relevant condition.

- (2) Under *MIFIDPRU* TP 6.4R(5)(a), if a *firm* has sufficient historical information to apply a condition in *MIFIDPRU* TP 6.4R(1), it is no longer permitted to rely on the transitional arrangements. The following are examples of how this requirement applies:
- (a) Example 1: On the date on which *MIFIDPRU* begins to apply, Firm A already has historical data on its *AUM* covering the previous 10 *months*. Assuming that the *firm* is applying the standard criteria under *MIFIDPRU* 1.2.1R (and not the alternative approach in *MIFIDPRU* 1.2.4R), the *average AUM* condition under *MIFIDPRU* 1.2.1R(1) requires 15 *months* of historical data. Since the *firm* must be collecting *AUM* data once *MIFIDPRU* begins to apply, Firm A will have sufficient data to apply the standard calculation for the *average AUM* condition 5 *months* later. At that point, the *firm* will no longer be able to rely on the transitional arrangements under *MIFIDPRU* TP 6, but instead must use the observed historical data to determine whether the condition in *MIFIDPRU* 1.2.1R(1) is met.
- (b) Example 2: Firm B has notified the *FCA* under *MIFIDPRU* 1.2.4R that it is using the alternative approach to applying the *average AUM* condition in *MIFIDPRU* 1.2.1R. Firm B has 13 *months* of historical data on its *AUM*. Under *MIFIDPRU* TP 6.4R(5)(a), Firm B may not rely on the transitional arrangements in *MIFIDPRU* TP 6. Although the standard calculation for the *AUM* condition in *MIFIDPRU* 1.2.1R(1) would require 15 *months* of historical data, the alternative approach under *MIFIDPRU* 1.2.4R(2) requires only 12 *months* of data. As Firm B has sufficient observed historical data to apply its chosen methodology, the transitional arrangements do not apply.

- 6.11 G (1) *MIFIDPRU* 6.4R(4) and 6.6R are designed to ensure consistency in a *firm's* approach to applying the transitional arrangements in *MIFIDPRU* TP 4 and *MIFIDPRU* TP 6.
- (2) *MIFIDPRU* TP 6.4R(4) requires a *firm* to be consistent in its choice of approaches for the purposes of *MIFIDPRU* TP 4 and *MIFIDPRU* TP 6. For example, Firm A does not have

sufficient information to calculate its *average AUM* for the purposes of the condition in *MIFIDPRU* 1.2.1R(1) and the *K-AUM requirement* under *MIFIDPRU* 4.7. If Firm A chooses to use the reasonable estimates approach under *MIFIDPRU* TP 4.5R(2) to calculate its *K-AUM requirement*, the *firm* must also use the reasonable estimates approach under *MIFIDPRU* TP 6.4R(3) to apply the *average AUM* condition in *MIFIDPRU* 1.2.1R(1). The estimates that Firm A uses for both purposes must be consistent.

- (3) *MIFIDPRU* TP 6.6R prevents a *firm* from alternating between approaches for the purposes of *MIFIDPRU* TP 6. For example, Firm B chooses under *MIFIDPRU* TP 6.4R(3) to apply the alternative calculation in *MIFIDPRU* TP 4.11R for the purposes of determining whether the *average COH* condition in *MIFIDPRU* TP 6.4R(1) is met. Firm B may not later decide to switch to applying the reasonable estimates approach to determine whether that condition is met.

- 6.12 G Under *MIFIDPRU* TP 5, a *MIFIDPRU investment firm* is required to collect at least 1 *month* of *K-factor metrics* that are relevant to any *investment services and/or activities* it carries on before *MIFIDPRU* begins to apply in full. When determining any estimate for the purposes of *MIFIDPRU* TP 6.4R(3) or *MIFIDPRU* 6.7R(2), a *firm* should consider any observed historical data that is available. Where the observed historical data covers a short period, a *firm* should take into account possible seasonal variations in figures or other factors which may be relevant to the accuracy of the estimate.

transitional for investment firm groups to which consolidation applies

- 6.13 R (1) A *UK parent entity* to which consolidation under *MIFIDPRU* 2.5 applies may apply the transitional arrangements in *MIFIDPRU* TP 6.4R to 6.12G to its *consolidated situation* in accordance with this *rule*.
- (2) Where a *UK parent entity* is applying *MIFIDPRU* TP 6.4R to 6.12G in accordance with (1), the following modifications apply:
- (a) a reference to a condition in *MIFIDPRU* 1.2.1R is a reference to that condition as it applies on a *consolidated basis*; and
- (b) a reference to a “*MIFIDPRU investment firm*” or a “*firm*” is a reference to the *UK parent entity*.
- (3) Any estimate produced by the *UK parent entity* of an *investment firm group* under *MIFIDPRU* TP 6.4R(3) or *MIFIDPRU* TP 6.7R(2) for the purposes of its *consolidated*

situation must be consistent with any estimates produced on an individual basis by any *MIFIDPRU investment firms* forming part of that *investment firm group*.

TP 7 Former non-CRR firms and parent undertakings: transitional for own funds instruments

Application

- 7.1 R *MIFIDPRU* TP 7 applies to a *MIFIDPRU investment firm* that, immediately before 1 January 2022:
- (1) was an *authorised person*; and
 - (2) was not classified as a *CRR firm* in accordance with the *rules* then in force.
- 7.2 R (1) *MIFIDPRU* TP 7 also applies to the following if the conditions in (2) are met:
- (a) a *UK parent entity* to which *MIFIDPRU* 3 applies on a *consolidated basis* in accordance with *MIFIDPRU* 2.5.7R; and
 - (b) a *parent undertaking* to which the *group capital test* applies.
- (2) The conditions are that immediately before 1 January 2022 the *UK parent entity* or *parent undertaking*:
- (a) formed part of the same *investment firm group* as a *firm*, which, on 1 January 2022 became a *MIFIDPRU investment firm*; and
 - (b) was not required to hold *own funds* on either an individual or a consolidated basis in accordance with the *UK CRR*.

Purpose

- 7.3 G (1) Before *MIFIDPRU* applied, certain *firms* that subsequently became *MIFIDPRU investment firms* determined their available capital resources according to various provisions in *GENPRU* or *IPRU-INV*. In addition, certain other *firms* were not subject to a dedicated prudential sourcebook in the *FCA Handbook* that contained a detailed regime for recognising the eligibility of capital resources.
- (2) The *rules* on *own funds* in *MIFIDPRU* 3 broadly replicate the approach to recognising capital resources under the *UK CRR*.

The purpose of *MIFIDPRU* TP 7 is to permit *firms* that were not *CRR firms* immediately before *MIFIDPRU* began to apply to recognise instruments as *own funds* under *MIFIDPRU* without requiring separate permission from, or notification to, the *FCA* if those instruments:

- (a) were issued before *MIFIDPRU* began to apply; and
 - (b) meet the conditions to be classified as *own funds* under *MIFIDPRU* 3 (other than the conditions relating to the requirements to seek prior *FCA* consent or to notify the *FCA*).
- (3) Under *MIFIDPRU* TP 1, a permission recognising the issuance of capital instruments as *common equity tier 1 capital* under the *UK CRR* is deemed to be an equivalent permission under *MIFIDPRU*. Therefore, a notification made before *MIFIDPRU* began to apply by a former *CRR firm* in relation to the issuance of *additional tier 1 instruments* and *tier 2 instruments* will continue to be valid.
- (4) *MIFIDPRU* TP 7 also applies to *UK parent entities* to which *MIFIDPRU* 3 applies on a *consolidated basis* and *parent undertakings* to which the *group capital test* applies, where those entities were not required to hold *own funds* on an individual or consolidated basis under the *UK CRR* immediately before *MIFIDPRU* began to apply. This means that provided that the existing instruments issued by these entities meet the relevant conditions in *MIFIDPRU* 3, they can be treated as *own funds* for the purposes of the application of *MIFIDPRU* 3 on a *consolidated basis* or the *group capital test* as long as the entity complies with *MIFIDPRU* TP 7.

Eligibility of pre-MIFIDPRU capital resources meeting requirements in MIFIDPRU 3 to qualify as own funds under MIFIDPRU without a separate permission or notification

- 7.4 R (1) This *rule* applies to any capital instrument that:
- (a) was issued by a *firm*, *UK parent entity* or *parent undertaking* before 1 January 2022; and
 - (b) was still in issue on 1 January 2022.
- (2) The *firm*, *UK parent entity* or *parent undertaking* in (1)(a) is deemed to have been granted the permission, or to have complied with the notification obligation, in column (A) of the table in *MIFIDPRU* 7.5R in relation to a capital instrument where the following conditions are met:

- (a) the conditions in column (B) of the same row of the table in *MIFIDPRU 7.5R* are met in relation to that instrument; and
 - (b) the *firm* has submitted the notification in *MIFIDPRU TP 7 Annex 1R* using the *online notification and application system* by no later than 1 January 2022.
- (3) A deemed permission or notification under (2) ceases to apply in relation to a capital instrument if the terms of the instrument are varied on or after 1 January 2022 and the instrument ceases to meet:
- (a) in relation to an instrument being treated as *common equity tier 1 capital*, the conditions in *MIFIDPRU 3.3* (other than the condition for prior *FCA* permission to classify the instrument as *common equity tier 1 capital*);
 - (b) in relation to an instrument being treated as *additional tier 1 capital*, the conditions in *MIFIDPRU 3.4*; and
 - (c) in relation to an instrument being treated as *tier 2 capital*, the conditions in *MIFIDPRU 3.5*.

- 7.6 G Where a *firm*, *UK parent entity* or *parent undertaking* is deemed under *MIFIDPRU TP 7.3R* and *7.4R* to have notified the *FCA* of its intention to issue *additional tier 1 instruments* or *tier 2 instruments*, *MIFIDPRU 3.6.5R(2)(a)* will apply to a subsequent issuance of the same class of instruments. TP 10 Transitional capital and liquidity requirements for former IFPRU investment firms, BIPRU firms or their groups with ICG or ILG issued before 1 January 2022

Purpose

- 10.1 G (1) *MIFIDPRU TP 10 contains transitional rules that explain how a firm or a group that was subject to individual capital guidance or individual liquidity guidance immediately before 1 January 2022 should take that guidance into account when first determining the own funds threshold requirement under MIFIDPRU.*
- (2) The general purpose of *MIFIDPRU TP 10* is to ensure that a *firm* does not apply an inappropriately low *own funds threshold requirement* at the outset of the *MIFIDPRU* regime, before the *firm* has properly considered the outcome of its *ICARA process*. *MIFIDPRU TP 10* is also designed to ensure that the *FCA* has sufficient opportunity to review a *firm's* conclusions from its *ICARA process*, if the *FCA* considers it necessary, before any pre-*MIFIDPRU* individual capital guidance or individual liquidity guidance ceases to be relevant to the *firm*.
- (3) *MIFIDPRU TP 10* also requires a *firm* for which pre-*MIFIDPRU* individual capital guidance or individual liquidity guidance is relevant to submit *data item MIF007* (*ICARA* assessment questionnaire) for the first time by no later than 31 March 2023. This will ensure that the *FCA* can begin considering the *firm's* approach to the *firm's own funds threshold requirement* and any pre-*MIFIDPRU* guidance by no later than that date.

Application

- 10.2 R (1) *MIFIDPRU TP 10* applies to an *undertaking* in (2) or (3) where the condition in (4) is met.
- (2) This *rule* applies to a *MIFIDPRU investment firm* that, under the *rules* in force on 31 December 2021, was classified as:
- (a) an *IFPRU investment firm*; or

- (b) a *BIPRU firm*.
- (3) This *rule* also applies to the following where they form part of an *investment firm group* containing a *MIFIDPRU investment firm* to which (2) applies:
 - (a) a *UK parent entity*; and
 - (b) an *authorised person*.
- (4) The relevant condition is that on 31 December 2021, the *firm* in (2), or any *investment firm group* (or any larger *group* that included the *investment firm group*) of which it formed a part, was subject to either or both of the following:
 - (a) *individual capital guidance* (including, for these purposes, any specified capital planning buffer and any other obligation to hold a capital buffer under *IFPRU 10*); or
 - (b) *individual liquidity guidance*.
- (5) For the purposes of *MIFIDPRU TP 10*:
 - (a) “pre-MIFIDPRU ICG” means the *individual capital guidance* in (4); and
 - (b) “pre-MIFIDPRU ILG” means the *individual liquidity guidance* in (4).

Requirement to submit an ICARA assessment questionnaire by 31 March 2023

- 10.3 R (1) A *MIFIDPRU investment firm* to which *MIFIDPRU TP 10* applies must submit *data item MIF007* for the first time by no later than the end of 31 March 2023.
- (2) This *rule* applies notwithstanding any provision in *MIFIDPRU 7.8* or in *MIFIDPRU 9.2* that would otherwise permit the *firm* to submit *data item MIF007* for the first time on a later date.
- 10.4 G (1) The effect of *MIFIDPRU TP 10.3R* is that where, on 31 December 2021, a *MIFIDPRU investment firm* was classified as an *IFPRU investment firm* or a *BIPRU firm* and the *firm* was subject to *individual capital guidance* or *individual liquidity guidance* (or both), the *firm* must submit *data item MIF007* for the first time by no later than 31 March 2023. This requirement also applies where the *firm* forms part of an *investment firm group* and that *group* (or a larger *group* of which it forms part) was, on 31 December 2021, subject to *individual capital guidance* or *individual liquidity guidance* (or both) issued on a *consolidated basis*.

- (2) Under *MIFIDPRU* 7.8, in order to submit *data item* MIF007, a *firm* must have carried out a review of its *ICARA process* and documented that review in an *ICARA document*. Therefore, a *firm* to which *MIFIDPRU* TP 10.3R applies must ensure that it has taken these steps to allow sufficient time to submit *data item* MIF007 by no later than 31 March 2023. When reviewing its *ICARA process*, the *firm* should consider the potential relevance of any pre-MIFIDPRU ICG or pre-MIFIDPRU ILG to which it is subject (including where it forms part of a *group* that is subject to such guidance on a *consolidated basis*).
- (3) A *firm* may choose to submit *data item* MIF007 for the first time on an earlier date. *Firms* are reminded that under *MIFIDPRU* 7.8.2R, they must review the adequacy of their *ICARA process* at least once every 12 *months*. A *firm* may therefore wish to choose a review date during 2022 that aligns with the *firm's* preferred date for an annual review in subsequent years. The *FCA* has specified a deadline of 31 March 2023 for the submission of *data item* MIF007 by *firms* subject to *MIFIDPRU* TP 10.3R to allow *firms* flexibility about their choice of review date, while also allowing a sufficient period of time to complete and submit *data item* MIF007 if their chosen review date falls near the end of 2022.

Individual capital guidance

- 10.5 R (1) This *rule* applies to a *firm* that on 31 December 2021 was subject to pre-MIFIDPRU ICG that was issued to the *firm* on an individual basis.
- (2) This *rule* applies from 1 January 2022 until the earliest of:
- (a) 6 *months* after the date on which the *firm* submits *data item* MIF007 in accordance with *MIFIDPRU* TP 10.3R;
 - (b) the date on which the *FCA* first communicates to the *firm* the outcome of a *SREP* carried out on the *firm*; or
 - (c) the date on which the *FCA* first issues individual guidance to, or imposes a *requirement* on, the *firm* for the purposes of specifying the amount of *own funds* that the *firm* must hold to comply with the *overall financial adequacy rule*.
- (3) During the period in (2), the *firm's own funds threshold requirement* must be at least equal to the transitional requirement in (4).
- (4) A *firm* must calculate the transitional requirement by:

- (a) determining the absolute amount of *own funds* that the *firm* was required to hold to comply with the pre-MIFIDPRU ICG on:
 - (i) in the case of an *IFPRU investment firm*, the following dates: 31 December 2020, 31 March 2021, 30 June 2021 and 30 September 2021; and
 - (ii) in the case of a *BIPRU firm*, the reporting reference dates of the two most recent FSA003 *data items* submitted on or before 31 December 2021; and
- (b) calculating the arithmetic mean of the absolute values in (a).

- 10.6 G (1) As part of its *ICARA process*, a *firm* to which *MIFIDPRU TP 10* applies must assess its *own funds threshold requirement* (i.e. the amount of *own funds* that the *firm* must hold to comply with the *overall financial adequacy rule*). The transitional requirement in *MIFIDPRU TP 10.5R(4)* is a “floor” to the amount of a *firm’s own funds threshold requirement*, not a maximum amount and applies only during the transitional period specified in *MIFIDPRU TP 10.5R(2)*.
- (2) The transitional requirement is therefore relevant only to extent that the *firm* would otherwise have sought to apply an *own funds threshold requirement* during the transitional period that is lower than the transitional requirement.
- (3) The transitional requirement is intended to ensure that a *firm* that is subject to pre-MIFIDPRU ICG does not apply an inappropriately low *own funds threshold requirement* as a result of its *ICARA process* before the *FCA* has been able to consider the *firm’s* assessment. The transitional period will therefore allow the *FCA* sufficient time to understand the *firm’s* approach to assessing its *own funds threshold requirement* under *MIFIDPRU*, during which the *firm* must ensure that it maintains *own funds* at least equal to the transitional requirement.
- (4) Once the transitional period in *MIFIDPRU TP 10.5R(2)* has expired, the transitional requirement no longer applies. In its *ICARA document*, the *firm* should therefore explain what it considers its *own funds threshold requirement* will be when the “floor” under the transitional requirement is no longer applicable. The *FCA* can then review the *firm’s* assessment during the transitional period to determine if the *firm* has formed a reasonable judgement about its *own funds threshold requirement*.

- 10.7 G (1) The reference dates in *MIFIDPRU* TP 10.5R(4)(a)(i) for an *IFPRU investment firm* are designed to be aligned to the reference dates of the *firm's* COREP – Own Funds reports.
- (2) Under *MIFIDPRU* TP 10.5R(4)(a)(ii), the reference dates for a *BIPRU firm* are determined in accordance with the reference dates of its FSA003 (Capital adequacy) reports.
- (3) In each case, this means that the *firm* can use its previous regulatory capital returns to assist in the calculation of its transitional requirement under *MIFIDPRU* TP 10.
- 10.8 G (1) The following is a worked example of the effect of *MIFIDPRU* TP 10.5R.
- (2) An *IFPRU investment firm* has been issued with pre-*MIFIDPRU* ICG specifying that the *firm* should hold *own funds* of 200% of its Pillar 1 requirement under the *UK CRR*, plus a £50 million fixed add-on. The pre-*MIFIDPRU* ICG applies to the *firm* on 31 December 2021. From 1 January 2022, the *firm* will be a *MIFIDPRU investment firm*.
- (3) Under *MIFIDPRU* TP 10.3R, the *firm* must submit *data item* MIF007 by no later than 31 March 2023. The *firm* chooses to review its *ICARA process* on 1 December 2022 and submits *data item* MIF007 for the first time on 15 January 2023.
- (4) As part of its *ICARA process*, the *firm* assesses its *own funds threshold requirement* – i.e. the amount of *own funds* that the *firm* considers it will need to hold to comply with the *overall financial adequacy rule*. The *firm* will then need to compare the *firm's* assessment with the transitional requirement under *MIFIDPRU* TP 10.5R and apply the higher of the two amounts. This is because under *MIFIDPRU* TP 10.5R(3), the *firm's own funds threshold requirement* must be at least equal to the transitional requirement in *MIFIDPRU* TP 10.5R(4). However, the *own funds threshold requirement* can still be higher than the transitional requirement if:
- (a) the *firm's own funds requirement* under *MIFIDPRU* 4.3 (as limited by any applicable transitional provision) exceeds the transitional requirement under *MIFIDPRU* TP 10.5R; or
- (b) the *firm* determines that it should hold a higher level of *own funds* to comply with the *overall financial adequacy rule*.
- (5) The *firm's* Pillar 1 requirement on each of the reference dates in *MIFIDPRU* TP 10.5R(4)(a)(i) was as follows:

- (a) 31 December 2020: £70 million
- (b) 31 March 2021: £115 million
- (c) 30 June 2021: £125 million
- (d) 30 September 2021: £90 million
- (6) The *firm* would calculate the absolute amounts required by its pre-MIFIDPRU ICG as follows:
- (a) 31 December 2020:
 $£70\text{m} \times 200\% = £140\text{m}$
 $£140\text{m} + £50\text{m} = £190\text{m}$
- (b) 31 March 2021:
 $£115\text{m} \times 200\% = £230\text{m}$
 $£230\text{m} + £50\text{m} = £280\text{m}$
- (c) 30 June 2021:
 $£125\text{m} \times 200\% = £250\text{m}$
 $£250\text{m} + £50\text{m} = £300\text{m}$
- (d) 30 September 2021:
 $£90\text{m} \times 200\% = £180\text{m}$
 $£180\text{m} + £50\text{m} = £230\text{m}$
- (7) The *firm* would calculate the arithmetic mean of those absolute values as:
- $$£190\text{m} + £280\text{m} + £300\text{m} + £230\text{m} = £1,000\text{m}$$
- $$£1,000\text{m} / 4 = £250\text{m}$$
- (8) Under *MIFIDPRU* TP 10.5R(3), the *firm's own funds threshold requirement* can therefore be no lower than £250m from 1 January 2022 until the earliest of:
- (a) 15 July 2023 (i.e. 6 months after 15 January 2023, which was the date on which the *firm* first submitted *data item* MIF007);
- (b) the date on which the *FCA* informs the *firm* of the outcome of a *SREP* carried out on the *firm*; or
- (c) the date on which the *FCA* otherwise issues *individual guidance* to, or imposes a *requirement* on, the *firm* for the purposes of specifying the amount of *own funds* that

the *firm* needs to hold to comply with the *overall financial adequacy rule*.

- (9) However, the transitional requirement under *MIFIDPRU* TP 10.5R does not limit the *firm's own funds threshold requirement* during the period in (8). If the *firm's* own assessment of its *own funds threshold requirement* under its *ICARA process* results in a number that is higher than £250m, the *firm* must therefore hold *own funds* that are at least equal to the higher amount. If the *firm's* assessment results in a number that is lower than £250m, then the *firm* must hold *own funds* of at least £250m until the period in (8) has elapsed.
- 10.9 G The worked example in *MIFIDPRU* TP 10.8G is based on a simple example of pre-*MIFIDPRU* ICG that is based on a fixed percentage of the *firm's* Pillar 1 requirement and a simple fixed add-on. Many *firms* may have pre-*MIFIDPRU* ICG that is set by reference to a more complicated calculation. Where relevant, this may also include capital planning buffers and other capital buffers required under *IFPRU* 10. This may include the use of scalars, other add-ons and percentages of particular components of the Pillar 1 calculation. When determining the absolute amounts for the purpose of *MIFIDPRU* TP 10.5R(4)(a), the *firm* must follow whatever methodology was specified in the applicable pre-*MIFIDPRU* ICG.
- 10.10 R (1) This *rule* applies to the *UK parent entity* of, and *firms* forming part of, an *investment firm group* that on 31 December 2021 was subject to pre-*MIFIDPRU* ICG issued on a *consolidated basis*.
- (2) This *rule* applies from 1 January 2022 until the earliest of:
- (a) 6 months after the date on which all *firms* in the *investment firm group* have first submitted *data item MIF007* in accordance with *MIFIDPRU* TP 10.3R;
- (b) the date on which the *FCA* has first communicated to each *MIFIDPRU investment firm* in the *investment firm group* the outcome of a *SREP* carried out on the *firm*; or
- (c) the date on which the *FCA* had first issued individual guidance to, or imposed a *requirement* on, each *MIFIDPRU investment firm* in the *investment firm group* for the purposes of specifying the amount of *own funds* that the *firm* must hold to comply with the *overall financial adequacy rule*.
- (3) Where this *rule* applies, the *UK parent entity* of the *investment firm group* must:
- (a) determine the absolute amount of *own funds* that was required on a *consolidated basis* to comply with the pre-

MIFIDPRU ICG on:

- (i) in the case of *individual capital guidance* set under *IFPRU*, the following dates: 31 December 2020, 31 March 2021, 30 June 2021 and 30 September 2021; and
 - (ii) in the case *individual capital guidance* set under *BIPRU*, the reporting reference dates of the two most recent consolidated FSA003 *data items* submitted on or before 31 December 2021;
- (b) calculate the arithmetic mean of the absolute values in (a); and
 - (c) allocate the amount in (b) between the entities in the *investment firm group* on an equivalent basis to that used by the *group* to comply with the consolidated pre-MIFIDPRU ICG immediately before 1 January 2022.
- (4) During the period in (2):
- (a) the *own funds threshold requirement* of each *MIFIDPRU investment firm* included in the pre-MIFIDPRU ICG must be at least equal to the amount allocated to that *firm* under (3)(c); and
 - (b) any other *authorised person* included in the pre-MIFIDPRU ICG must hold financial resources that cover at least the amount allocated to that *authorised person* under (3)(c).
- (5) The *UK parent entity* must record the basis for any allocation under (3)(c).

Individual liquidity guidance

- 10.11 R (1) This *rule* applies to a *firm* that on 31 December 2021 was subject to pre-MIFIDPRU ILG issued on an individual basis.
- (2) This *rule* applies from 1 January 2022 until the earliest of:
- (a) 6 *months* after the date on which the *firm* submits *data item* MIF007 in accordance with *MIFIDPRU TP 10.3R*;
 - (b) the date on which the *FCA* first communicates to the *firm* the outcome of a *SREP* carried out on the *firm*; or
 - (c) the date on which the *FCA* first issues individual guidance to, or imposes a *requirement* on, the *firm* for the purposes of specifying the amount of *liquid assets* that the *firm* must hold to comply with the *overall*

financial adequacy rule.

- (3) During the period in (2), the *firm's liquid assets threshold requirement* must be at least equal to the liquidity resources that the *firm* would need to hold to comply with the pre-MIFIDPRU ILG if the *firm* had continued to be subject to that *individual liquidity guidance*.
 - (4) The *ICARA document* that is the subject of *data item* MIF007 referred to in (2)(a) must explain any difference between the *firm's* assessment of its *liquid assets threshold requirement* and the transitional requirement that applies under (3).
- 10.12 G (1) *MIFIDPRU* TP 10.11R requires a *firm* that is subject to pre-MIFIDPRU ILG to apply a minimum transitional “floor” to its *liquid assets threshold requirement* from 1 January 2022 until the earlier of:
- (a) 6 months after the *firm* has first submitted *data item* MIF007 to the *FCA* under *MIFIDPRU* TP2; or
 - (b) the date on which the *FCA* has either communicated to the *firm* the outcome of a *SREP* carried out on the *firm* or the *FCA* has otherwise issued the *firm* with *individual guidance* or imposed a *requirement* on the *firm* in connection with the amount of *liquid assets* that it must hold to satisfy the *overall financial adequacy rule*.
- (2) Under *MIFIDPRU* TP 10.11R(4), the “floor” is determined as the amount of *liquid assets* that the *firm* would need to hold to comply with its pre-MIFIDPRU ILG if that guidance had continued to apply to the *firm*. This means that the *firm* should continue to calculate the impact of the pre-MIFIDPRU ILG and where appropriate, update the resulting required amount of liquidity resources during the transitional period in *MIFIDPRU* TP 10.11R(2).
 - (3) The purpose of *MIFIDPRU* TP 10.11R is to apply an equivalent approach in relation to the *liquid assets threshold requirement* to that described in *MIFIDPRU* TP 10.6G in relation to the *own funds threshold requirement*. This ensures that the *FCA* has sufficient time to understand the *firm's* approach to determining its *liquid assets threshold requirement* before the “floor” of the transitional requirement for liquidity ceases to apply.
 - (4) The transitional requirement under *MIFIDPRU* TP 10.11R(4) specifies a minimum level for the *liquid assets threshold requirement*. During the transitional period in *MIFIDPRU* TP 10.10R(2), the *firm* may nonetheless determine that its *liquid assets threshold requirement* is higher than the transitional

requirement because:

- (a) the *firm's basic liquid assets requirement* under *MIFIDPRU 6* (as limited by any other applicable transitional provision) exceeds the transitional requirement; or
- (b) the *firm* determines that it should hold a higher level of *liquid assets* to comply with the *overall financial adequacy rule*.

- 10.13 R (1) This *rule* applies to the *UK parent entity* of, and *firms* forming part of, an *investment firm group* that on 31 December 2021 was subject to pre-MIFIDPRU ILG issued on a *consolidated basis*.
- (2) This *rule* applies from 1 January 2022 until the earliest of:
- (a) 6 *months* after the date on which all *firms* in the *investment firm group* have first submitted *data item MIF007* in accordance with *MIFIDPRU TP 10.3R*;
 - (b) the date on which the *FCA* has first communicated to each *MIFIDPRU investment firm* in the *investment firm group* the outcome of a *SREP* carried out on the *firm*; or
 - (c) the date on which the *FCA* has first issued individual guidance to, or imposed a *requirement* on, each *MIFIDPRU investment firm* in the *investment firm group* for the purposes of specifying the amount of *liquid assets* that the *firm* must hold to comply with the *overall financial adequacy rule*.
- (3) Where this *rule* applies, the *UK parent entity* of the *investment firm group* must allocate the consolidated liquidity resources that would be required to comply with the pre-MIFIDPRU ILG if it continued to apply on an ongoing basis between the entities in the *investment firm group* in accordance with (4).
- (4) The allocation in (3) must be on an equivalent basis to that used by the *group* to comply with the consolidated pre-MIFIDPRU ILG immediately before 1 January 2022.
- (5) During the period in (2):
- (a) the *liquid assets threshold requirement* of each *MIFIDPRU investment firm* included in the consolidated pre-MIFIDPRU ILG must be at least to the amount allocated to that *firm* by the *UK parent entity* under (3); and
 - (b) any other *authorised person* included in the

consolidated pre-MIFIDPRU ICG must hold liquidity resources that cover at least the amount allocated to that *authorised person* under (3).

- (6) The *UK parent entity* must record the basis for any allocation under (3).
- (7) Each *ICARA document* that is the subject of *data item* MIF007 referred to in (2)(a) must explain any difference between the *firm's* assessment of its *liquid assets threshold requirement* and the transitional requirement that applies under (5).

Sch 3 Fees and other payment requirements

Sch 3.1 G *MIFIDPRU* does not contain any *rules* that directly impose fees or other payments. However, *MIFIDPRU* 9.1.2R(2)(c) applies the administrative fee in *SUP* 16.3.14R for failure to submit reports by their due date to the late submission of any reports that are required under *MIFIDPRU* 9.

Sch 4 Rights of action for damages

Sch 4.1 G

- (1) The table below sets out the *rules* in *MIFIDPRU*, contravention of which by an *authorised person* may be actionable under section 138D of the *Act* (Actions for damages) by a *person* who suffers loss as a result of the contravention.
- (2) If “Yes” appears in the column headed “For private person”, the *rule* may be actionable by a *private person* under section 138D (or, in certain circumstances, that *person’s* fiduciary or representative: see regulation 6(2) and 6(3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/2256)). If “Yes” appears in the column headed “Removed”, this indicates that the *FCA* has removed the right of action under section 138D(3) of the *Act*. If so, a reference to the *rule* in which the right of action is removed is also given.
- (3) The column headed “For other person” indicates whether the *rule* may be actionable by a *person* other than a *private person* (or that *person’s* fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of *person* by whom the *rule* may be actionable is given.

Sch 5 Rules that can be waived or modified

Sch 5.1 G The *rules* in *MIFIDPRU* may be waived or modified by the *FCA* under section 138A of the *Act* (Modification or waiver of rules) where the conditions in that section are met.

Part 2: Comes into force on 1 December 2021**TP 5 Advance data collection**

Application

- 5.1 R *MIFIDPRU* TP 5 applies to:
- (1) a *MIFIDPRU investment firm*; and
 - (2) a *UK parent entity*.

Duration

- 5.2 R *MIFIDPRU* TP 5 applies from 1 December 2021 until 1 January 2022 (the “relevant period”).

Purpose

- 5.3 G
- (1) *MIFIDPRU* TP 5 requires *MIFIDPRU investment firms* and *UK parent entities* to begin collecting data on *K-factor metrics* one month before the *MIFIDPRU* sourcebook begins to apply in full.
 - (2) If *firms* and *parent undertakings* will be using the alternative calculation in *MIFIDPRU* TP 4 after *MIFIDPRU* begins to apply in full, the data covering the relevant period will allow them to calculate their *K-factor requirement* during the first month.
 - (3) If *firms* and *parent undertakings* will be using the reasonable estimates approach in *MIFIDPRU* TP 4 after *MIFIDPRU* begins to apply in full, the data covering the relevant period will provide at least one month’s observed historical data which must be used in the relevant calculations. The observed data may also be helpful for verifying whether any remaining estimated historical data points are reasonable.

Requirement to collect data on K-factor metrics

- 5.4 R
- (1) A *MIFIDPRU investment firm* or *UK parent entity* must collect the required information in (2) throughout the relevant period.
 - (2) The required information is:
 - (a) for a *MIFIDPRU investment firm*, data on the *K-factor metrics* that the *firm* would be required to collect to calculate its individual *K-factor requirement* if *MIFIDPRU* applied in full; and

- (b) for a *UK parent entity*, data on the *K-factor metrics* that the *investment firm group* would be required to collect to calculate its *K-factor requirement* on a *consolidated basis* if *MIFIDPRU* applied in full.

5.5 G *MIFIDPRU* TP 5.4R only requires a *firm* or *parent undertaking* to collect data on *K-factor metrics* that are relevant to the *investment services/and or activities* that it carries on (or in the case of a *parent undertaking*, that relevant entities within its *investment firm group* carry on).

19G **MIFIDPRU Remuneration Code**

19G.1 **General application**

Application: non-SNI MIFIDPRU investment firms

- 19G.1.1 R (1) Subject to (2), the *MIFIDPRU Remuneration Code* applies to a *non-SNI MIFIDPRU investment firm*.
- (2) The provisions in (4) do not apply to a *non-SNI MIFIDPRU investment firm*:
- (a) where the value of the *firm's* on-balance sheet assets and *off-balance sheet items* over the preceding 4-year period is a rolling average of £100 million or less; or
- (b) where:
- (i) the value of the *firm's* on-balance sheet assets and *off-balance sheet items* over the preceding 4-year period is a rolling average of £300 million or less; and
- (ii) the conditions in (3) are (where they are relevant to a *firm*) satisfied.
- (3) The conditions referred to in (2)(b)(ii) are:
- (a) that the exposure value of the *firm's* on- and off-balance sheet *trading book* business is equal to or less than £150 million; and
- (b) that the exposure value of the *firm's* on- and off-balance sheet derivatives business is equal to or less than £100 million.

- (4) The provisions referred to in (2) are:
 - (a) SYSC 19G.6.19R to SYSC 19G.6.21G (Shares, instruments and alternative arrangements);
 - (b) SYSC 19G.6.22R and SYSC 19G.6.23G (Retention policy);
 - (c) SYSC 19G.6.24R to SYSC 19G.6.29R (Deferral); and
 - (d) SYSC 19G.6.35R(2) (Discretionary pension benefits).
 - (5) For the purposes of paragraph (2), paragraph (6) applies where a *non-SNI MIFIDPRU investment firm* does not have monthly data covering the 4-year period referred to in that paragraph.
 - (6) Where this paragraph applies, a *non-SNI MIFIDPRU investment firm* must calculate the rolling averages referred to in paragraph (2) using the data points that it does have.
- 19G.1.2 G (1) For the purposes of SYSC 19G.1.1R(5), the *FCA* expects a *non-SNI MIFIDPRU investment firm* to have insufficient data for a period only where it did not carry on any *MiFID business* during that period, or where (for periods prior to the application of the *MIFIDPRU Remuneration Code*) the *firm* did not record the relevant data on a monthly basis.
- (2) Where a *firm* doesn't have all the monthly data points, the *firm* should use the data points it has in the way that paints the most representative picture of the period in question. For example, if a *firm* has monthly data for 2 years of the 4-year period, but prior to that only recorded the relevant data on a quarterly basis, the *firm* could sensibly calculate its rolling average by using the quarterly figure for each of the 3 monthly data points in each quarter.
- 19G.1.3 R (1) The amounts referred to in SYSC 19G.1.1R must be calculated on an individual basis, and:
- (a) in the case of on-balance sheet assets, in accordance with the applicable accounting framework;
 - (b) in the case of *off-balance sheet items*, using the full nominal value.
- (2) The value of the on-balance sheet assets and *off-balance sheet items* in SYSC 19G.1.1R(2)(a) and (b) must be an arithmetic mean of the assets and items over the preceding 4 years, based on monthly data points.
- (3) A *firm* may choose the day of the *month* that it uses for the data points in (2), but once that day has been chosen the *firm* may only change it for genuine business reasons.

- 19G.1.4 R (1) When calculating the amounts referred to in SYSC 19G.1.1R(2)(a) and (b), a *firm* must use the total amount of its on-balance sheet assets and *off-balance sheet items*.
- (2) A *firm* must calculate the exposure values referred to in SYSC 19G.1.1R(3)(a) and (b) by adding together the following items:
- (a) the positive excess of the *firm's* long positions over its short positions in all *trading book financial instruments*, using the approach specified for K-NPR in MIFIDPRU 4.12.2R to calculate the net position for each instrument; and
- (b) the exposure value of contracts and transactions referred to in MIFIDPRU 4.14.3R, calculated using the approach specified for K-TCD in MIFIDPRU 4.14.8R.
- (3) Any amounts in foreign currencies must be converted into pound sterling using the relevant conversion rate.
- (4) A *firm* must determine the relevant conversion rate referred to in (3) by reference to an appropriate market rate and must record which rate was chosen.
- 19G.1.5 G The FCA considers that an example of an appropriate market rate for the purposes of SYSC 19G.1.4R(4) is the relevant daily spot exchange rate against pound sterling published by the Bank of England.

Application: SNI MIFIDPRU investment firms

- 19G.1.6 R (1) The provisions in (2) apply to a *SNI MIFIDPRU investment firm*.
- (2) The provisions referred to in (1) are:
- (a) SYSC 19G.2 (Remuneration policies and practices);
- (b) SYSC 19G.3.1R to SYSC 19G.3.3R (Oversight of remuneration policies and practices);
- (c) SYSC 19G.3.6R to SYSC 19G.3.8G (Control functions);
- (d) SYSC 19G.4.1R to SYSC 19G.4.5R and SYSC 19G.4.7G(1) and (2) (Fixed and variable components of remuneration);
- (e) SYSC 19G.6.1R (Remuneration and capital);
- (f) SYSC 19G.6.2R (Exceptional government intervention); and
- (g) SYSC 19G.6.5R to SYSC 19G.6.6G (Assessment of performance).

Application: summary of application to MIFIDPRU investment firms

- 19G.1.7 G (1) The effect of the application provisions in SYSC 19G.1.1R to 19G.1.6R is summarised in the following table.

Type of firm	Applicable sections
<i>Non-SNI MIFIDPRU investment firm</i> not falling within SYSC 19G.1.1R(2)	The <i>MIFIDPRU Remuneration Code</i>
<i>Non-SNI MIFIDPRU investment firm</i> falling within SYSC 19G.1.1R(2)	The <i>MIFIDPRU Remuneration Code</i> except for: SYSC 19G.6.19R to SYSC 19G.6.21G (Shares, instruments and alternative arrangements); SYSC 19G.6.22R and SYSC 19G.6.23G (Retention policy); SYSC 19G.6.24R to SYSC 19G.6.29R (Deferral); and SYSC 19G.6.35R(2) (Discretionary pension benefits)
<i>SNI MIFIDPRU investment firm</i>	SYSC 19G.2 (Remuneration policies and practices); SYSC 19G.3.1R to SYSC 19G.3.3R (Oversight of remuneration policies and practices); SYSC 19G.3.6R to SYSC 19G.3.8G (Control functions); SYSC 19G.4.1R to SYSC 19G.4.5R and SYSC 19G.4.7G(1) and (2) (Fixed and variable components of remuneration); SYSC 19G.6.1R (Remuneration and capital); SYSC 19G.6.2R (Exceptional government intervention); and SYSC 19G.6.5R to SYSC 19G.6.6G (Assessment of performance)

- (2) *MIFIDPRU 1.2* contains provisions regarding the classification of a firm as a *SNI MIFIDPRU investment firm* and *non-SNI MIFIDPRU investment firm*.

Application: where the application of SYSC 19G.1.1R changes in relation to a firm

- 19G.1.8 R (1) This *rule* applies to a *non-SNI MIFIDPRU investment firm* that did not meet either condition in SYSC 19G.1.1R(2)(a) or (b) but subsequently does.
- (2) The provisions referred to in SYSC 19G.1.1R(2) cease to apply to the *firm* in (1) if:
- (a) the *firm* has met the conditions in either SYSC 19G.1.1R(2)(a) or (b) for a continuous period of at least 6 *months* (or such longer period as may have elapsed before the *firm* submits the notification in (b)); and
- (b) it has notified the *FCA* that it has met the conditions in (a).
- (3) The notification in (2)(b) must be submitted through the *online notification and application system* using the form in *MIFIDPRU 1 Annex 3R*.
- 19G.1.9 G The effect of SYSC 19G.1.8R(2)(a) is that a *firm* may move between meeting the conditions in SYSC 19G.1.1R(2)(a) and (b) during the 6-*month* period.
- 19G.1.10 R Where a *non-SNI MIFIDPRU investment firm* has met the conditions in SYSC 19G.1.1R(2)(a) or (b) but then ceases to do so, it must comply with the provisions referred to in SYSC 19G.1.1R(2) within 12 *months* from the date on which the *firm* ceased to meet the conditions.
- 19G.1.11 R (1) Where a *non-SNI MIFIDPRU investment firm* ceases to meet the conditions in SYSC 19G.1.1R(2)(a) or (b), it must promptly notify the *FCA*.
- (2) The notification in (1) must be submitted through the *online notification and application system* using the form in *MIFIDPRU 1 Annex 3R*.
- 19G.1.12 G Where a *firm* ceases to meet the conditions in SYSC 19G.1.1R(2)(a) or (b), but subsequently meets the conditions again within a period of 6 *months*, the *firm* will still be subject to the provisions referred to in SYSC 19G.1.1R(2) for 12 *months* after the date on which it first ceased to meet the conditions. The *firm* only ceases to be subject to the provisions referred to in SYSC 19G.1.1R(2) where it meets the conditions in SYSC 19G.1.8R(2).
- 19G.1.13 R The requirements in SYSC 19G.1.8R(2)(b) and SYSC 19G.1.11R(1) do not apply where a *non-SNI MIFIDPRU investment firm* has notified the *FCA* in accordance with the requirements of *MIFIDPRU 7.1.9R(2)(b)* or *MIFIDPRU 7.1.12R(1)* of the same event.

Application: collective portfolio management investment firms

- 19G.1.14 G The *MIFIDPRU Remuneration Code* applies to a *collective portfolio management investment firm*.
- 19G.1.15 G (1) A *collective portfolio management investment firm* must assess the thresholds in SYSC 19G.1.1R(2) and (3) on the basis of the total of both its *MiFID business* and *non-MiFID business*.
- (2) SYSC 19G.1.20R to SYSC 19G.1.23G explain the position for *firms* subject to the *MIFIDPRU Remuneration Code* and another *FCA* remuneration code.

Application: levels of application

- 19G.1.16 G SYSC 19G.1.1R to SYSC 19G.1.15R and SYSC 19G.1.17R explain when the *MIFIDPRU Remuneration Code* applies to a *firm* on an individual basis. SYSC 19G.1.18R and 19G.1.19R explain when the *MIFIDPRU Remuneration Code* applies on a consolidated basis, and what that means.
- 19G.1.17 R The *MIFIDPRU Remuneration Code* applies to a *firm* on an individual basis where the *FCA* has granted a *firm* permission under *MIFIDPRU* 2.4.17R and *MIFIDPRU* 2.4.18R to apply the *group capital test*.
- 19G.1.18 R (1) Subject to (3), where *MIFIDPRU* 2.5 applies to a *UK parent entity*, the *MIFIDPRU Remuneration Code* applies to that *UK parent entity* on a consolidated basis.
- (2) A *UK parent entity* that is treated as an *SNI MIFIDPRU investment firm* in accordance with *MIFIDPRU* 2.5.21R is also treated as an *SNI MIFIDPRU investment firm* when applying the *MIFIDPRU Remuneration Code* on a consolidated basis.
- (3) A *UK parent entity* that is treated as a *non-SNI MIFIDPRU investment firm* in accordance with *MIFIDPRU* 2.5.21R is also treated as a *non-SNI MIFIDPRU investment firm* when applying the *MIFIDPRU Remuneration Code* on a consolidated basis.
- (4) The following provisions only apply to a *firm* on an individual basis:
- (a) SYSC 19G.1.1R(2), (3), (5) and (6);
 - (b) The provisions listed in SYSC 19G.1.1R(4);
 - (c) SYSC 19G.1.2G to 19G.1.5G; and
 - (d) SYSC 19G.1.8G to 19G.1.13G.
- (5) For the purposes of the *MIFIDPRU Remuneration Code*, application on a consolidated basis means on the basis of the situation that results from applying the requirements in the *MIFIDPRU Remuneration*

Code to a UK parent entity as if that undertaking, together with all the investment firms, financial institutions, ancillary services undertakings and tied agents in the investment firm group, formed a single MIFIDPRU investment firm.

- (6) For the purposes of (5), the terms *investment firm, financial institution, ancillary services undertaking* and *tied agent* apply to *undertakings* established in *third countries*, which, if established in the *UK*, would satisfy the definitions of those terms.
- (7) Where an *undertaking* in a *third country* is included in the consolidated situation of a *UK parent entity* as a result of (6), the *MIFIDPRU Remuneration Code* only applies in relation to *material risk takers* at that *undertaking* who oversee or are responsible for business activities that take place in the *UK*.

- 19G.1.19 G
- (1) Where the *MIFIDPRU Remuneration Code* applies on a consolidated basis, the effect of SYSC 19G.1.18R(5) is that the *UK parent entity* and all the *investment firms, financial institutions, ancillary services undertakings* and *tied agents* in the *investment firm group* are treated for these purposes as a single *MIFIDPRU investment firm*. This means, for example, treating a staff member of an *undertaking* within the *investment firm group* as if they were a staff member of the *UK parent entity*.
 - (2) When considering which rules in the *MIFIDPRU Remuneration Code* apply on a consolidated basis, a *UK parent entity* must consider whether it is treated as an *SNI MIFIDPRU investment firm* or a *non-SNI MIFIDPRU investment firm* under *MIFIDPRU 2.5.21R* (which, as SYSC 19G.1.18R(2) and (3) explain, also determines its categorisation under the *MIFIDPRU Remuneration Code*).
 - (3) The effect of SYSC 19G.1.18R(4)(b) is that a *UK parent entity* need not comply with the provisions listed in SYSC 19G.1.1R(4) on a consolidated basis. These provisions apply on an individual basis where a *firm* exceeds the thresholds in SYSC 19G.1.1R(2)(a) or (b). As these thresholds are not relevant where the *MIFIDPRU Remuneration Code* applies on a consolidated basis, the provisions concerning them are also disapplied.

Application: firms subject to different remuneration requirements

- 19G.1.20 R
- (1) Where a *firm* is subject to the *MIFIDPRU Remuneration Code* and, as a result of the application of any of the requirements listed in (2), to provisions imposing different *remuneration* requirements, only one of which can be complied with, it must comply with the most stringent of the relevant provisions.
 - (2) The requirements referred to in (1) are:
 - (a) different requirements in the *MIFIDPRU Remuneration Code*;

- (b) the *AIFM Remuneration Code*;
- (c) the *Dual-regulated firms Remuneration Code*; and
- (d) the *UCITS Remuneration Code*.

- 19G.1.21 G (1) SYSC 19G.1.20R states that where different *remuneration* requirements apply to a *firm* it must comply with the most stringent of the relevant provisions. Some non-exhaustive examples follow.
- (2) Example 1: A *firm* may be subject to different requirements under the *MIFIDPRU Remuneration Code* on an individual basis and on a consolidated basis. This scenario may arise because a *firm* is an *SNI MIFIDPRU investment firm* on an individual basis but a *non-SNI MIFIDPRU investment firm* on a consolidated basis.
- (3) Example 2: Different *remuneration* requirements may apply to a *firm* when an *investment firm group* contains both a *PRA-designated investment firm* and an *FCA investment firm* (but not a *credit institution*). This may lead to a *firm* being subject to both the *MIFIDPRU Remuneration Code* and the *Dual-regulated firms Remuneration Code*.
- (4) Example 3: A staff member at a *collective portfolio management investment firm* may be a *material risk taker* and also *AIFM Remuneration Code Staff* or *UCITS Remuneration Code Staff*. In this case the *material risk taker* will be subject to the *MIFIDPRU Remuneration Code* and the requirements of the *AIFM Remuneration Code* or the *UCITS Remuneration Code*.

19G.1.22 G The effect of SYSC 19G.1.20R is that a *firm* must consider which requirement is the most stringent on a provision by provision basis.

19G.1.23 G SYSC 19G.1.20R is not relevant where a *firm* can comply with both sets of *remuneration* requirements, for example requirements to establish, implement and maintain *remuneration* policies and practices on both an individual basis and a consolidated basis.

Application: staff

19G.1.24 G The term ‘staff’ should be interpreted broadly in the *MIFIDPRU Remuneration Code* to include, for example, employees of the *firm* itself, *partners* or members (in the case of partnership structures), *employees* of other entities in the *group*, *employees* of joint service companies, and secondees.

Application: performance periods

19G.1.25 G The rules in the *MIFIDPRU Remuneration Code* apply to each performance period, regardless of whether it is annual, quarterly, or another frequency. A

firm must comply with the rules on performance assessment and risk adjustment in relation to each such performance period.

Application: proportionality

- 19G.1.26 R A *firm* must comply with the *MIFIDPRU Remuneration Code* in a manner that is appropriate to its size and internal organisation and to the nature, scope and complexity of its activities.

Application: carried interest

- 19G.1.27 R (1) The *MIFIDPRU Remuneration Code* applies to *remuneration*, including carried interest (which represents a share in the profits of a *fund* managed by the *firm's* staff, as compensation for the management of the *fund*).
- (2) Where arrangements concerning carried interest meet the conditions in (3), the following provisions do not apply:
- (a) SYSC 19G.6.19R to SYSC 19G.6.21G (Shares, instruments and alternative arrangements);
 - (b) SYSC 19G.6.22R and SYSC 19G.6.23G (Retention policy);
 - (c) SYSC 19G.6.24R to SYSC 19G.6.29R (Deferral); and
 - (d) SYSC 19G.6.30R to SYSC 19G.6.34G (Performance adjustment).
- (3) The conditions referred to in (2) are that:
- (a) the value of the carried interest must be determined by the performance of the *fund* in which the carried interest is held;
 - (b) the period between the award of the carried interest and any payment under it must be at least 4 years; and
 - (c) there are provisions for the forfeiture or cancellation of carried interest that include at least the circumstances set out in SYSC 19G.6.31R(3)(a) and (b).

- 19G.1.28 R For the purposes of the *MIFIDPRU Remuneration Code*, a carried interest must be valued at the time of its award.

Application: general

- 19G.1.29 G While the rules in the *MIFIDPRU Remuneration Code* set out the minimum regulatory requirements that a *MIFIDPRU investment firm* must comply with, the *FCA* considers it good practice for a *firm* to assess whether going beyond those regulatory requirements would contribute to sound risk management or a healthy firm culture.

When?

- 19G.1.30 R A *firm* must apply the *MIFIDPRU Remuneration Code* from the start of its first performance period that begins on or after 1 January 2022.

19G.2 Remuneration policies and practices

General requirements

- 19G.2.1 R A *MIFIDPRU investment firm* must establish, implement and maintain *remuneration* policies and practices.
- 19G.2.2 G The *remuneration* policies and practices referred to in SYSC 19G.2.1R should cover all aspects of *remuneration* within the scope of the *MIFIDPRU Remuneration Code*, and all staff.
- 19G.2.3 G In line with the record-keeping requirements in SYSC 9, a *firm* should ensure that its *remuneration* policies and practices (including performance assessment processes and decisions) are clear and documented.

Proportionality

- 19G.2.4 R A *firm's remuneration* policies and practices must be appropriate and proportionate to the nature, scale and complexity of the risks inherent in the business model and the activities of the *firm*.
- 19G.2.5 G The proportionality principle in SYSC 19G.2.4R means that the content and level of detail of a *firm's remuneration* policy may depend on a number of factors. These may include the number of staff it employs, the different types of roles, the activities it carries out, and whether the *firm* is part of a *group* with a *group-wide remuneration* policy.

Gender neutral remuneration policies and practices

- 19G.2.6 R A *firm* must ensure that its *remuneration* policy is a *gender neutral remuneration policy* and the practices referred to in SYSC 19G.2.1R are gender neutral.
- 19G.2.7 G *Firms* are reminded that the Equality Act 2010 prohibits discrimination on the basis of an *individual's* protected characteristics both before and after employment is offered. The Act applies to pay and all other contractual terms, including variable *remuneration*. A *firm* must ensure that its *remuneration* policy complies with the Equality Act 2010.

Risk management, business strategy and avoiding conflicts of interest

- 19G.2.8 R A *firm* must ensure that its *remuneration* policies and practices are consistent with, and promote sound and effective, risk management.
- 19G.2.9 R A *firm* must ensure that its *remuneration* policies and practices are in line with the business strategy, objectives and long-term interests of the *firm*.

- 19G.2.10 G For the purposes of SYSC 19G.2.9R, the business strategy, objectives and long-term interests of the *firm* should include consideration of:
- (1) the *firm's* risk appetite and strategy, including environmental, social and governance risk factors;
 - (2) the *firm's* culture and values; and
 - (3) the long-term effects of the investment decisions taken.
- 19G.2.11 R A *firm* must ensure that its *remuneration* policy:
- (1) contains measures to avoid conflicts of interest;
 - (2) encourages responsible business conduct; and
 - (3) promotes risk awareness and prudent risk taking.
- 19G.2.12 R A MIFIDPRU investment *firm* must not pay variable *remuneration* to members of the *management body* who do not perform any executive function in the *firm*.

19G.3 Governance and oversight

Oversight of remuneration policies and practices

- 19G.3.1 R A MIFIDPRU investment *firm* must ensure that its *management body in its supervisory function* adopts and periodically reviews the *remuneration* policy and has overall responsibility for overseeing its implementation.
- 19G.3.2 G
- (1) Each *firm* should assess the most appropriate frequency for the periodic reviews referred to in SYSC 19G.3.1R, taking into account all relevant factors.
 - (2) The development and review of the *remuneration* policy should be supported by the *control functions*, including (where they exist) risk management, compliance, internal audit and human resources, and by *business units*.
 - (3) The processes and decision-making around the development, review and amendment of *remuneration* policies and practices are subject to the general record-keeping requirements set out in SYSC 9.
- 19G.3.3 R A *firm's* *remuneration* committee, where it has one, must oversee the implementation of the *firm's* *remuneration* policies and practices established under SYSC 19G.2.1R.
- 19G.3.4 R A non-SNI MIFIDPRU investment *firm* must, at least annually, conduct a central and independent internal review of whether the implementation of its *remuneration* policies and practices complies with the *remuneration*

policy and practices adopted by the *management body in its supervisory function*.

- 19G.3.5 G (1) The *FCA* would expect the central and independent internal review to assess whether the implementation of the *remuneration* policies and practices:
- (a) results in *remuneration* awards that are in line with the *firm's* business strategy;
 - (b) reflects the risk profile, long-term objectives and other relevant goals of the *firm*; and
 - (c) complies with all relevant legal requirements.
- (2) A *non-SNI MIFIDPRU investment firm* may outsource part or all of the independent review in SYSC 19G.3.4R. The *management body in its supervisory function* remains responsible for ensuring the review is carried out and any necessary follow up actions are taken.
- (3) A *non-SNI MIFIDPRU investment firm* should document appropriately the results of the review and the actions taken to remedy any findings.

Control functions

- 19G.3.6 R A *MIFIDPRU investment firm* must ensure that staff engaged in *control functions*:
- (1) are independent from the *business units* they oversee;
 - (2) have appropriate authority; and
 - (3) are remunerated in accordance with the achievement of the objectives linked to their functions, independent of the performance of the business areas they control.
- 19G.3.7 R A *MIFIDPRU investment firm* must ensure that the *remuneration* of the senior officers in risk management and compliance functions is directly overseen by the *remuneration* committee, or, if such a committee has not been established, by the *management body in its supervisory function*.
- 19G.3.8 G SYSC 19G.3.6R and SYSC 19G.3.7R are designed to manage the conflicts of interest which may arise if other business areas had undue influence over the *remuneration* of staff in *control functions*. Conflicts of interest can easily arise when staff members are involved in the determination of *remuneration* for their own business area. Where these could arise, they need to be managed by having in place independent *control functions* (in particular risk management, compliance and human resources functions).

19G.4 Fixed and variable components of remuneration

Categorising fixed and variable remuneration

- 19G.4.1 R A *MIFIDPRU investment firm* must ensure that the *remuneration* policy makes a clear distinction between criteria for setting fixed and variable *remuneration*.
- 19G.4.2 G (1) The effect of SYSC 19G.4.1R is that all *remuneration* paid to a staff member must be clearly categorised as either fixed or variable *remuneration*.
- (2) In allocating individual *remuneration* components to fixed or variable *remuneration*, it is the quality and purpose of the component that is decisive, not the label applied to it.
- (3) The *FCA* considers that:
- (a) fixed *remuneration*:
- (i) should primarily reflect a staff member's professional experience and organisational responsibility as set out in the staff member's job description and terms of employment; and
- (ii) should be permanent, pre-determined, non-discretionary, non-revocable and not dependent on performance; and
- (b) variable *remuneration*:
- (i) should be based on performance or, in exceptional cases, other conditions;
- (ii) where based on performance, should reflect the long-term performance of the staff member as well as performance in excess of the staff member's job description and terms of employment; and
- (iii) includes *discretionary pension benefits*.
- 19G.4.3 G Returns made by staff on co-investment arrangements are shares in the profits as a pro rata return on an investment. The *FCA* does not usually consider these returns to be *remuneration* for the purposes of the *MIFIDPRU Remuneration Code*. However, the *FCA* considers these returns will be *remuneration* if the investment was made using a loan provided by the *firm* or by an *undertaking* in the same *group* as the *firm*, and if the loan was either not provided on commercial terms or had not been repaid in full by the date on which the returns on investment were paid.
- 19G.4.4 G (1) In relation to *remuneration* received by a *partner* or a member in a *limited liability partnership*, the *FCA's* view on how to categorise certain payments received by those *individuals* is as follows:

- (a) at the end of each year, the residual profits of a *partnership* or *limited liability partnership* are distributed among the *partners* or members. The level of ownership of each *partner* or member is reflected in the number of ownership shares they have. Residual profits are distributed according to the ownership shares, so are not linked to work or performance. In the *FCA*'s view, payments on this basis are not *remuneration*;
 - (b) a *partner* or member may receive an amount fixed at the beginning of the year and subject only to the *firm* making a profit. These are often called fixed profit shares. A *partner* or member usually takes drawings on it throughout the year, often monthly. If profits at year-end are insufficient, drawings may have to be paid back. The *FCA* considers that drawings on fixed profit shares are usually fixed *remuneration*;
 - (c) a *partner* or member may receive a discretionary share of the profit at the end of the year. These may be distributed to all *partners* or members but are usually dependent on the performance of the *individual* or their *business unit*. Awards may be at the discretion of the *remuneration* committee. The *FCA* considers that payments made on this basis are usually variable *remuneration*.
- (2) A *firm* that is a *partnership* or *limited liability partnership* may use a benchmarking approach instead of, or in addition to, the approach in (1) to categorise payments made to *partners* or members of *limited liability partnerships*. For example, it may take into account:
- (a) the *remuneration* structures of other *individuals* performing similar tasks or working in similar businesses as the *partner* or member in question; or
 - (b) the return expected in a similar investment context where the *partner* or member has invested in a *fund* or *firm*.
- (3) Where a *partner* or member of a *limited liability partnership* works full-time for a *firm* the *FCA* would expect a reasonable portion of the *partner's* or member's profit share to be categorised as *remuneration*. Where a *partner* or member works part-time and receives less *remuneration* than a *partner* or member who works full-time, the *FCA* would expect a smaller proportion of the part-time *partner* or member's profit share to be classed as *remuneration*.

Balance of fixed and variable components of total remuneration

19G.4.5 R A *MIFIDPRU investment firm* must ensure that:

- (1) the fixed and variable components of the total *remuneration* are appropriately balanced; and

- (2) the fixed component represents a sufficiently high proportion of the total *remuneration* to enable the operation of a fully flexible policy on variable *remuneration*, including the possibility of paying no variable *remuneration* component.
- 19G.4.6 R For the purposes of SYSC 19G.4.5R, a *non-SNI MIFIDPRU investment firm* must set an appropriate ratio between the variable component and the fixed component of the total *remuneration* in their *remuneration* policies.
- 19G.4.7 G (1) When determining what is an appropriate balance and an appropriate ratio for the purposes of SYSC 19G.4.5R and SYSC 19G.4.6R respectively, a *firm* should consider all relevant factors, including:
- (a) the *firm's* business activities and associated prudential and conduct risks; and
 - (b) the role of the *individual* in the *firm* and, in the case of *material risk takers*, the impact that different categories of staff have on the risk profile of the *non-SNI MIFIDPRU investment firm* or of the assets it manages.
- (2) It may be appropriate for some staff to receive only fixed *remuneration*. The *FCA* does not consider it would be an appropriate balance for any *individual* to receive only variable *remuneration*.
- 19G.4.8 G A *non-SNI MIFIDPRU investment firm* may set different ratios for different categories of staff. For example, the *FCA* considers that it will usually be appropriate to set a lower ratio of variable to fixed *remuneration* for *control functions* than for the *business units* they control.
- 19G.4.9 G Ratios may differ from one performance period to the next.
- 19G.4.10 G When setting a ratio, a *firm* should consider all potential scenarios, including that a firm exceeds its financial objectives. The ratio should reflect the highest amount of variable *remuneration* that can be awarded in the most positive scenario. A *firm* should be satisfied that it has considered all relevant factors and should be able to explain its decision to the *FCA* if requested.
- 19G.4.11 R When a *firm* is assessing whether the award of variable *remuneration* is consistent with the ratio set in accordance with SYSC 19G.4.6R, it may exclude from that calculation any amount of severance pay that:
- (1) exceeds the maximum amount of severance pay that can be paid under the *firm's remuneration policy* (in accordance with SYSC 19G.6.12R(2)); and
 - (2) the *firm* has become obliged to pay as a result of a legal obligation that has arisen after the date on which the *firm* adopted the relevant version of its *remuneration* policy.

- 19G.4.12 G As explained in SYSC 19.6.12R(2), where severance pay is payable a *firm's remuneration* policy must set out the maximum level of severance pay or the criteria for determining the amount. *Firms* should therefore take these policies into account when establishing the ratio between variable and fixed *remuneration* in accordance with SYSC 19G.4.6R. The *FCA* accepts that in rare circumstances, for reasons that wouldn't have been clear to a *firm* when setting its *remuneration* policy, a *firm* may become legally obliged to pay a higher amount of severance pay, for example as a result of legal proceedings. In these situations, SYSC 19G.4.11 states that the difference between the maximum severance pay permitted under the *firm's remuneration* policy and the higher amount the *firm* is legally obliged to pay may be excluded from an assessment of whether an award of variable *remuneration* is consistent with the ratio set in accordance with SYSC 19G.4.6R.

19G.5 Application of remuneration requirements to material risk takers

Identifying material risk takers

- 19G.5.1 R A *material risk taker* is a staff member at a *non-SNI MIFIDPRU investment firm* whose professional activities have a material impact on the risk profile of the *firm* or of the assets that the *firm* manages.
- 19G.5.2 R A *non-SNI MIFIDPRU investment firm* must assess at least once a year which of its staff members are *material risk takers*.
- 19G.5.3 R For the purposes of SYSC 19G.5.1R, a staff member's professional activities are deemed to have a material impact on a *firm's* risk profile or the assets the *firm* manages if one or more of the following criteria are met:
- (1) the staff member is a *member of the management body* in its management function;
 - (2) the staff member is a *member of the management body* in respect of the *management body in its supervisory function*;
 - (3) the staff member is a member of the *senior management*;
 - (4) the staff member has *managerial responsibility* for *business units* that are carrying on at least one of the following *regulated activities*:
 - (a) *arranging (bringing about) deals in investments*;
 - (b) *dealing in investments as agent*;
 - (c) *dealing in investments as principal*;
 - (d) *managing investments*;
 - (e) *making investments with a view to transactions in investments*;

- (f) *advising on investments (except P2P agreements); and/or*
 - (g) *operating an organised trading facility;*
 - (5) the staff member has *managerial responsibilities* for the activities of a *control function*;
 - (6) the staff member has *managerial responsibilities* for the prevention of *money laundering* and terrorist financing;
 - (7) the staff member is responsible for managing a material risk within the *firm*;
 - (8) in a *firm* that has permission for carrying on at least one of the *regulated activities* in (4)(a) to (g), the staff member is responsible for managing one of the following activities:
 - (a) information technology;
 - (b) information security; and/or
 - (c) outsourcing arrangements of critical or important functions as referred to in article 30(1) of the *MiFID Org Regulation*; and
 - (9) the staff member has authority to take decisions approving or vetoing the introduction of new products.
- 19G.5.4 G The *FCA* considers the following are key indicators that the professional activities of a staff member (X) have a material impact on the risk profile of the *firm* or of the assets that the *firm* manages for the purposes of *SYSC 19G.5.1R*:
- (1) there is no sufficiently senior and experienced *material risk taker* who supervises X on a day-to-day basis or to whom X reports;
 - (2) X is responsible for key strategic decisions; and
 - (3) X is responsible for significant revenue, material assets under management or for approving transactions.
- 19G.5.5 G The *FCA* expects *individuals* in the following roles would usually be categorised as *material risk takers*:
- (1) in relation to portfolio management business, heads of key areas including equities, fixed income, alternatives, private equity;
 - (2) heads of investment research;
 - (3) *individuals* responsible for a high proportion of revenue;
 - (4) senior advisors where they can exert key strategic influence;

- (5) chief market strategists, where media profile is linked to reputational risk and risk to market integrity;
 - (6) heads of a trading or broking desk; and
 - (7) all *individuals* with responsibility for information technology, information security and outsourcing where there is not a single person with responsibility for all three areas. For example, if there is a chief operating officer and a chief information technology officer who are both equally senior and have shared responsibility for these areas, then both should be identified as *material risk takers*.
- 19G.5.6 G (1) A *firm* should update its assessment under SYSC 19G.5.2R as necessary throughout the year.
- (2) It is important that *firms* consider all types of roles that may have a material impact on the *firm's* risk profile or on the assets it manages. The categories of staff referred to in SYSC 19G.5.3G are intended to be a starting point only. A *firm* should develop its own additional criteria to identify further *individuals* based on the specific types of activities and risks relevant to the *firm*.
 - (3) In identifying its *material risk takers*, a *firm* should consider all types of risks involved in its professional activities. These may include prudential, operational, market, conduct and reputational risks.
 - (4) The decisive factor when identifying *material risk takers* is not the name of the function or role, but the authority and responsibility held by the *individual*.
- 19G.5.7 R (1) If a *non-SNI MIFIDPRU investment firm* is part of an *FCA investment firm group* to which prudential consolidation applies, its *material risk takers* must be identified at both *individual* and consolidated level.
- (2) The *UK parent entity* of a *firm* is responsible for the *material risk taker* identification process at a consolidated level and must identify as *material risk takers*:
 - (a) all staff members whose professional activities have a material impact on the risk profile of the *investment firm group*; and
 - (b) all staff members of an *undertaking* in the *investment firm group* ('*undertaking A*') whose professional activities have a material impact on:
 - (i) the risk profile of another *undertaking* within the *investment firm group* to whom the *MIFIDPRU Remuneration Code* applies on an individual basis ('*undertaking B*'); or

(ii) the risk profile of any assets managed by *undertaking B*.

19G.5.8 G It may be helpful for the *UK parent entity* to coordinate the process for identifying *material risk takers* across the *group* entities.

Exemption for individuals

19G.5.9 R (1) The provisions in (2) do not apply in relation to a *material risk taker* (X), where X's annual variable *remuneration*:

- (a) does not exceed £167,000; and
- (b) does not represent more than one-third of X's total annual *remuneration*.

(2) The provisions referred to in (1) are:

- (a) SYSC 19G.6.19R to SYSC 19G.6.21G (Shares, instruments and alternative arrangements);
- (b) SYSC 19G.6.22R and SYSC 19G.6.23G (Retention policy);
- (c) SYSC 19G.6.24R to SYSC 19G.6.29R (Deferral); and
- (d) SYSC 19G.6.35R(2) (Discretionary pension benefits).

19G.5.10 G (1) SYSC 19G.5.9R applies only to *material risk takers* of *non-SNI MIFIDPRU investment firms* that do not fall within SYSC 19G.1.1R(2).

(2) A *non-SNI MIFIDPRU investment firm* not falling within SYSC 19G.1.1R(2) should therefore assess whether staff members are *material risk takers* before applying the thresholds in SYSC 19G.5.9R.

(3) As the provisions listed in SYSC 19G.5.9R(2) don't apply on a consolidated basis (see 19G.1.18R(4)(b)), the exemption for *individuals* in SYSC 19G.5.9R(1) will not be relevant on a consolidated basis.

19G.5.11 R When considering whether an *individual* that becomes a *material risk taker* at a point during the *firm's* performance period falls within SYSC 19G.5.9R, a *firm* must:

- (1) apply the full £167,000 variable *remuneration* threshold;
- (2) apply the requirement that the variable *remuneration* must not be more than one-third of the *individual's* total *remuneration* to the relevant portion of the total *remuneration* paid for the part of the performance period that the *individual* is a *material risk taker* at that *firm*; and

- (3) include any guaranteed variable *remuneration*, for example a ‘sign-on bonus’, in the *individual’s* variable *remuneration* for the part of the performance period that the *individual* is a *material risk taker* at that *firm*.
- 19G.5.12 G (1) An *individual* may become a *material risk taker* at any point during the *firm’s* performance period, either by changing role within the *firm* or by joining the *firm*.
- (2) The effect of SYSC 19G.5.11R is illustrated by the following example:
- An *individual* (‘X’), becomes a *material risk taker* 6 months into the *firm’s* performance period. X receives annual fixed *remuneration* of £900,000. This means X will receive £450,000 for the 6 months of the performance period for which X is a *material risk taker*. X receives variable *remuneration* of £100,000 in respect of the first 6 months. X falls below the thresholds in SYSC 19G.5.9R because X’s variable *remuneration* of £100,000 is:
- (a) less than the £167,000 threshold in SYSC 19G.5.9R(1), and
- (b) less than one-third of the £450,000 fixed *remuneration* received (which would be £150,000) for the purposes of SYSC 19G.5.9R(2).
- 19G.5.13 G The FCA considers it good practice for a *firm* to consider whether applying any of the rules applicable to *material risk takers* to other members of *staff* would contribute to sound risk management or a healthy firm culture.

19G.6 Variable remuneration

Remuneration and capital

- 19G.6.1 R A MIFIDPRU investment firm must ensure that variable *remuneration* does not affect the *firm’s* ability to ensure a sound capital base.

Exceptional government intervention

- 19G.6.2 R A MIFIDPRU investment firm that benefits from exceptional government intervention must ensure that:
- (1) no variable *remuneration* is paid to members of its *management body*, unless it is justified to do so; and
- (2) variable *remuneration* is limited to a portion of net revenue when its payment to staff that are not members of its *management body* would be inconsistent with:
- (a) the maintenance of the *firm’s* sound capital base; and

(b) its timely exit from exceptional government intervention.

- 19G.6.3 G An example of where it may be justifiable to pay variable *remuneration* to a member of the *management body* of a *MIFIDPRU investment firm* that benefits from exceptional government intervention is where that *person* was not in office at the time the exceptional government intervention was first required.

Assessment of performance

- 19G.6.4 R A *non-SNI MIFIDPRU investment firm* must ensure that where variable *remuneration* is performance-related:
- (1) the total amount of the variable *remuneration* is based on a combination of the assessment of the performance of:
 - (a) the *individual*;
 - (b) the *business unit* concerned; and
 - (c) the overall results of the *firm*;
 - (2) the assessment of performance is part of a multi-year framework that ensures:
 - (a) the assessment of performance is based on longer-term performance; and
 - (b) the payment of performance-based *remuneration* is spread over a period that takes account of the business cycle of the *firm* and its business risks.
- 19G.6.5 R When assessing individual performance to determine the amount of variable *remuneration* to be paid to an *individual*, a *MIFIDPRU investment firm* must take into account financial as well as non-financial criteria.
- 19G.6.6 G
- (1) For some *firms* it may be appropriate to give equal weight to financial and non-financial criteria for the purposes of SYSC 19G.6.5R. For other *firms* a slightly different split may be appropriate.
 - (2) Non-financial criteria under SYSC 19G.6.5R should:
 - (a) form a significant part of the performance assessment process;
 - (b) override financial criteria, where appropriate;
 - (c) include metrics on conduct, which should make up a substantial portion of the non-financial criteria; and

- (d) include how far the *individual* adheres to effective risk management and complies with relevant regulatory requirements.
- (3) Examples of non-financial criteria under SYSC 19G.6.5R include:
- (a) measures relating to building and maintaining positive customer relationships and outcomes, such as positive customer feedback;
 - (b) performance in line with firm strategy or values, for example by displaying leadership, teamwork or creativity;
 - (c) adherence to the *firm's* risk management and compliance policies;
 - (d) achieving targets relating to:
 - (i) environmental, social and governance factors; and
 - (ii) diversity and inclusion.
- (4) A *firm* should ensure that when it assesses individual performance, the assessment process and any variable *remuneration* awarded in accordance with SYSC 19G.6.4R does not discriminate on the basis of the protected characteristics of an *individual* in accordance with the Equality Act 2010.

General requirements for awards of non-standard forms of variable remuneration

- 19G.6.7 R (1) A *non-SNI MIFIDPRU investment firm* must ensure that all guaranteed variable *remuneration*, retention awards, severance pay and buy-out awards falling under SYSC 19G.6.8R to SYSC 19G.6.14G are:
- (a) subject to malus and clawback;
 - (b) in the case of *non-SNI MIFIDPRU investment firms* to which those *rules* apply:
 - (i) subject to the requirements in SYSC 19G.6.19R and SYSC 19G.6.21G (Shares, instruments and alternative arrangements), SYSC 19G.6.22R and SYSC 19G.6.23G (Retention policy), and SYSC 19G.6.24R to SYSC 19G.6.29R (Deferral); and
 - (ii) included in the variable component of the variable to fixed ratio for the performance period in which the award is made.

- (2) A *non-SNI MIFIDPRU investment firm* must ensure that each decision it makes to award variable *remuneration* falling within the scope of (1) is appropriate, taking all relevant circumstances into account.

Guaranteed variable remuneration

- 19G.6.8 R A *non-SNI MIFIDPRU investment firm* must not award, pay or provide guaranteed variable *remuneration* to a *material risk taker* unless:
- (1) it occurs in the context of hiring a new *material risk taker*;
 - (2) it is limited to the first year of service; and
 - (3) the *firm* has a strong capital base.
- 19G.6.9 G (1) Guaranteed variable *remuneration* is sometimes referred to as a ‘sign-on bonus’ or ‘golden handshake’.
- (2) Guaranteed variable *remuneration* can be used as a way to compensate new staff members where they have lost the opportunity to receive variable *remuneration* by leaving their previous employment during the performance period. These awards may be called ‘lost opportunity bonuses’.
- (3) The *FCA* expects *non-SNI MIFIDPRU investment firms* to award guaranteed *remuneration* only rarely and not as common practice.

Retention awards

- 19G.6.10 R Retention awards must only be paid to *material risk takers*:
- (1) after a defined event; or
 - (2) at a specified point in time.
- 19G.6.11 G (1) Retention awards are bonuses which are dependent on an *individual* remaining in a role until a defined event or for a set period of time. For example, retention bonuses can be used under restructurings, in wind-down or in the context of specific projects within a *firm*.
- (2) The payment of a retention award may be made dependent on the *material risk taker* meeting certain performance criteria that have been defined in advance.
- (3) The *FCA* expects *non-SNI MIFIDPRU investment firms* to make retention awards to *material risk takers* only rarely and not as common practice.

Severance pay

- 19G.6.12 R (1) A *non-SNI MIFIDPRU investment firm* must ensure that payments to *material risk takers* relating to the early termination of an employment contract reflect the *individual's* performance over time and do not reward failure or misconduct.
- (2) A *non-SNI MIFIDPRU investment firm* must set out in its *remuneration* policy whether severance payments may be paid, and any maximum amount or criteria for determining the amount.

Buy-out awards

- 19G.6.13 R A *non-SNI MIFIDPRU investment firm* must ensure that *remuneration* packages relating to compensation for, or buy out from, a *material risk taker's* contracts in previous employment:
- (1) align with the long term interests of the *firm*; and
- (2) contain provisions on periods of retention, deferral, vesting and exit risk adjustment that are no shorter than any corresponding periods that applied to unvested variable *remuneration* under the previous contract of employment, and which remained outstanding.
- 19G.6.14 G Buy-out awards involve a *firm* compensating a new staff member, or 'buying out' their previous contract with another employer, where the deferred variable *remuneration* of the staff member was reduced, revoked or cancelled by the previous employer. This could be because they terminated their contract or because the *individual* has to pay back some money, for example where the employer has paid for a training course or qualification for the *individual* that was attached to a retention clause.

Risk adjustment

- 19G.6.15 R A *non-SNI MIFIDPRU investment firm* must ensure that any measurement of performance used as a basis to calculate pools of variable *remuneration* takes into account all types of current and future risks and the cost of the capital and liquidity required in accordance with *MIFIDPRU*.
- 19G.6.16 R A *non-SNI MIFIDPRU investment firm* must ensure that the allocation of variable *remuneration* components within the *firm* takes into account all types of current and future risks.
- 19G.6.17 R For the purposes of SYSC 19G.6.15R and SYSC 19G.6.16R, a *non-SNI MIFIDPRU investment firm* must:
- (1) determine at what level the adjustments should be applied (for example at *business unit*, trading desk or individual level), which risks are relevant, and which risk adjustment techniques and measures are most appropriate; and
- (2) in considering all types of current and future risks, include both financial risks (for example economic profit or economic capital) and

non-financial risks (for example reputation, conduct and customer outcomes, values and strategy).

- 19G.6.18 R A *non-SNI MIFIDPRU investment firm* must ensure that its total variable remuneration is generally considerably contracted, including through malus or clawback arrangements, where the financial performance of the *firm* is subdued or negative.

Shares, instruments and alternative arrangements

- 19G.6.19 R A *non-SNI MIFIDPRU investment firm* to which this rule applies must ensure that at least 50% of the variable remuneration paid to a *material risk taker* in relation to a performance period consists of any of the following *eligible instruments*:

- (1) *shares*, or subject to the *firm's* legal structure, equivalent ownership interests;
- (2) *share-linked instruments*, or subject to the *firm's* legal structure, equivalent non-cash instruments;
- (3) instruments that comply with the requirements in SYSC 19G Annex 1R; or
- (4) non-cash instruments (including those settled in cash) which reflect the instruments of the portfolios managed.

- 19G.6.20 R Where an *eligible instrument* that falls within the scope of SYSC 19G.6.19R(1) or (2) relates to an ownership interest in a *parent undertaking* of the *MIFIDPRU investment firm*, it will only satisfy the requirements of SYSC 19G.6.19R where its value moves in line with the value of an equivalent ownership interest in the *MIFIDPRU investment firm*.

- 19G.6.21 G
- (1) Where a *MIFIDPRU investment firm* is unable to issue *eligible instruments*, the *firm* may apply to the *FCA* for a modification under section 138A of the *Act* to permit the *firm* to use alternative arrangements. The *firm* will need to provide a detailed explanation in its application of the alternative arrangements it is proposing to operate.
 - (2) The *FCA* may grant a modification under section 138A of the *Act* for these purposes only where it is satisfied that:
 - (a) compliance by the *firm* with the requirement to issue variable remuneration in *eligible instruments* would be unduly burdensome or would not achieve the purpose for which the rules were made; and
 - (b) granting the modification would not adversely affect the advancement of any of the *FCA's* objectives.

- (3) As part of its assessment of whether the modification would adversely affect the advancement of its objectives, the *FCA* will consider whether the proposed alternative arrangements for variable *remuneration* achieve similar outcomes to the standard requirements applicable to *eligible instruments*. In particular, the *FCA* will normally consider the following non-exhaustive list of factors:
- (a) whether the proposed alternative arrangement ensures suitable alignment between the interests of the staff member and the long-term interests of the *firm*, its *clients* and creditors;
 - (b) whether the proposed alternative arrangement is subject to a retention policy that is of sufficient length to align the incentives of the staff member with the long-term interests of the *firm*, its *clients* and creditors;
 - (c) whether the proposed alternative arrangement is clear and transparent to the staff member and contains sufficient detail on the applicable conditions;
 - (d) whether the *firm* will ensure that any amounts that are subject to deferral and retention arrangements cannot be accessed, transferred or redeemed by the staff member during the deferral and retention periods;
 - (e) whether the proposed alternative arrangement would facilitate the appropriate application of malus and clawback requirements;
 - (f) whether the proposed alternative arrangements adequately ensure that the value of the variable *remuneration* received does not increase during the deferral period through distributions or other payments on the instrument; and
 - (g) where the proposed alternative arrangements allow for predetermined changes of the value received as variable *remuneration* during deferral and retention periods, based on the performance of the *firm* or the managed assets, whether the following conditions would be met:
 - (i) the change of the value is based on predefined performance indicators that are based on the credit quality of the *firm* or the performance of the managed assets;
 - (ii) where deferral and retention must be applied, value changes are calculated at least annually and at the end of the retention period;

- (iii) the rate of possible positive and negative value changes is equally based on the level of positive or negative credit quality changes or performance measured;
 - (iv) where the value change under (i) is based on the performance of assets managed, the percentage of value change should be limited to the percentage of value change of the managed assets;
 - (v) where the value change under (i) is based on the credit quality of the *firm*, the percentage of value change should be limited to the percentage of the annual total gross revenue in relation to the *firm's* total *own funds*.
- (4) If a *firm* cannot issue *eligible instruments* because of its legal structure, that is likely to be a reason for the *FCA* to conclude that requiring the *firm* to comply with *SYSC* 19G.6.19R would not achieve the purpose for which that *rule* was made.

Retention policy

- 19G.6.22 R A *non-SNI MIFIDPRU investment firm* to which this *rule* applies must establish an appropriate retention policy for *eligible instruments* that is designed to align the interests of the staff member with the longer-term interests of the *firm*, its creditors and clients.
- 19G.6.23 G (1) In considering what is an appropriate retention policy for the purposes of *SYSC* 19G.6.22R, a *firm* should consider at least the following:
- (a) the length of the deferral period referred to in *SYSC* 19G.6.24R(1);
 - (b) the length of the *firm's* business cycle;
 - (c) the types of risks relevant to the role of the staff member; and
 - (d) how long it could take for the risks underlying the staff member's performance to crystallise.
- (2) The greater the impact of the *material risk taker* on the risk profile of the *firm* and of the assets managed, the longer the retention period should be. Different retention periods for different *material risk takers* may be appropriate, particularly where the applicable deferral periods differ.

Deferral

- 19G.6.24 R (1) A *non-SNI MIFIDPRU investment firm* to which this *rule* applies must not award, pay or provide a variable *remuneration* component unless at least 40% is deferred over a period which is at least 3 years.

- (2) Where the variable *remuneration* is a particularly high amount, and in all cases where the variable *remuneration* is £500,000 or more, at least 60% of the amount must be deferred.
 - (3) Deferred variable *remuneration* must vest no faster than on a pro-rata basis.
 - (4) The first deferred portion of the variable *remuneration* must not vest sooner than a year after the start of the deferral period.
- 19G.6.25 R (1) A *non-SNI MIFIDPRU investment firm* must take into account the factors in (2) when determining:
- (a) the amount of variable *remuneration* to be deferred under SYSC 19G.6.24R(1) and (2);
 - (b) the length of the deferral period under SYSC 19G.6.24R(1); and
 - (c) the speed of vesting of the variable *remuneration* for the purposes of SYSC 19G.6.24R(3).
- (2) The factors referred to in (1) are:
- (a) the *firm's* business cycle, the nature of its business and its risk profile;
 - (b) the activities and responsibilities of the staff member in question and how these may impact the risk profile of the *firm* or the assets the *firm* manages;
 - (c) whether the deferred variable *remuneration* is paid out in instruments or cash;
 - (d) the amount of the variable *remuneration*; and
 - (e) the ratio of variable to fixed *remuneration*.
- 19G.6.26 G (1) Where appropriate, a *firm* should tailor the proportion of deferred variable *remuneration*, the deferral period and the speed of vesting in different ways for different categories of *material risk taker*.
- (2) The *FCA* considers that it may be appropriate for the most senior *material risk takers* at a *firm* (for example members of the *management body*), to be subject to a deferral period longer than the 3-year minimum.
 - (3) It may be appropriate for *firms* to apply different proportions of deferred variable *remuneration*, deferral periods or vesting arrangements to the portion of variable *remuneration* paid out in cash and the portion paid out in instruments.

- (4) In the *FCA's* view, the higher the amount of the variable *remuneration*, and the higher the ratio of variable to fixed *remuneration*, the more appropriate it is likely to be to defer a greater proportion of the variable *remuneration*.
- (5) In certain circumstances variable *remuneration* below £500,000 may still be considered 'particularly high' and so subject to 60% deferral. A *firm* should take into account the average *remuneration* at the *firm*, the ratio of the variable to fixed *remuneration* of the *material risk taker*, and the amount of variable *remuneration* compared to that of other staff at the *firm*.
- (6) After the first deferred portion of the variable *remuneration* vests in accordance with SYSC 19G.6.24R(4), the *FCA* does not expect vesting to take place more often than once a year.
- 19G.6.27 R A *non-SNI MIFIDPRU investment firm* must pay out at least 50% of the variable *remuneration* deferred under SYSC 19G.6.24R in instruments falling within SYSC 19G.6.19R.
- 19G.6.28 G The *FCA* considers it good practice for the deferred portion to contain a higher proportion of instruments than the non-deferred portion.
- 19G.6.29 R A *non-SNI MIFIDPRU investment firm* may only pay to a *material risk taker* interest or dividends on an instrument which is subject to deferral under SYSC 19G.24R where:
- (1) the rate of interest or level of dividends paid on that instrument is no higher than would have been paid to an ordinary holder of such an instrument; and
 - (2) payment is not made before the date on which the instrument vests.

Performance adjustment

- 19G.6.30 R A *non-SNI MIFIDPRU investment firm* must ensure that any variable *remuneration*, including a deferred portion, is paid or vests only if it is sustainable according to the financial situation of the *firm* as a whole, and justified on the basis of the performance of the *firm*, the *business unit* and the *individual* concerned.
- 19G.6.31 R A *non-SNI MIFIDPRU investment firm* must:
- (1) ensure that all of the total variable *remuneration* is subject to in-year adjustments, malus or clawback arrangements;
 - (2) set specific criteria for the application of malus and clawback; and
 - (3) ensure that the criteria for the application of malus and clawback in particular cover situations where the *material risk taker*:

- (a) participated in or was responsible for conduct which resulted in significant losses to the *firm*; and/or
- (b) failed to meet appropriate standards of fitness and propriety.

19G.6.32 R A *non-SNI MIFIDPRU investment firm* must:

- (1) set minimum malus and clawback periods as part of its *remuneration* policies;
- (2) ensure that malus can be applied until the award has vested in its entirety; and
- (3) ensure that the clawback period spans at least the combined length of any deferral and retention periods.

- 19G.6.33 G
- (1) The effect of SYSC 19G.6.31R(1) is that (save in the circumstances explained in (2)) a *non-SNI MIFIDPRU investment firm* must include in its *remuneration* policy the possibility of applying in-year adjustments, malus and clawback to the variable *remuneration* of its *material risk takers*. Where performance adjustment is required, the appropriate tool or tools (in-year adjustments, malus or clawback) should then be applied.
 - (2) A *non-SNI MIFIDPRU investment firm* that is not required by SYSC 19G.6.24R to apply deferral will not be able to apply malus, so should foresee the use of in-year adjustments and clawback arrangements only. Alternatively, the *firm* may choose to use deferral, which would enable the use of malus arrangements in addition to in-year adjustments and clawback.
 - (3) A *non-SNI MIFIDPRU investment firm* should ensure that the malus and clawback periods it sets and applies allow sufficient time for any potential risks to crystallise. This may mean that different periods are set for different categories of *material risk takers*.
 - (4) In setting appropriate malus and clawback periods, a *non-SNI MIFIDPRU investment firm* should take into account all relevant factors, including:
 - (a) the nature of the *material risk taker's* activities;
 - (b) the *material risk taker's* impact on the risk profile of the *firm* or of the assets it manages; and
 - (c) the length of the business cycle that is relevant for the *material risk taker's* role.
 - (5) For a *non-SNI MIFIDPRU investment firm* that satisfies the conditions in SYSC 19G.1.1R(2)(a) or (b), the FCA considers that 3

years will generally be an appropriate starting point for the *firm's* consideration of the appropriate clawback period.

- (6) The *FCA's* 'General guidance on the application of ex-post risk adjustment to variable remuneration' provides further detail of the *FCA's* expectations on *firms'* use of malus and clawback arrangements.

- 19G.6.34 G (1) In the *FCA's* view, malus should be applied when, as a minimum:
- (a) there is reasonable evidence of staff member misbehaviour or material error;
 - (b) the *firm* or the relevant *business unit* suffers a material downturn in its financial performance; or
 - (c) the *firm* or the relevant *business unit* suffers a material failure of risk management.
- (2) In the *FCA's* view, clawback should, in particular, be applied in cases of fraud or other conduct with intent or severe negligence which led to significant losses.

Discretionary pension benefits

- 19G.6.35 R (1) A *non-SNI MIFIDPRU investment firm* must ensure that:
- (a) any *discretionary pension benefits* it awards or pays to *material risk takers* are:
 - (i) in line with its business strategy, objectives, values and long-term interests; and
 - (ii) paid only in *eligible instruments*;
 - (b) it applies malus and clawback arrangements to *discretionary pension benefits* in the same way as to other elements of *variable remuneration*.
- (2) A *non-SNI MIFIDPRU investment firm* to which this paragraph applies must ensure that:
- (a) where a *material risk taker* leaves the *firm* before retirement age, any *discretionary pension benefits* are held by the *firm* for a period of 5 years; and
 - (b) where a *material risk taker* reaches retirement age, any *discretionary pension benefits* are subject to a 5-year retention period by that *individual*.

Personal investment strategies

- 19G.6.36 R A *non-SNI MIFIDPRU investment firm* must take all reasonable steps to ensure that *material risk takers* do not use personal hedging strategies or *remuneration-* and liability-related *contracts of insurance* to undermine the *remuneration rules* in the *MIFIDPRU Remuneration Code*.
- 19G.6.37 G Actions a *firm* may take under SYSC 19G.6.36R include requesting an undertaking or declaration from its *material risk takers* and implementing policies regarding dealing in *financial instruments*.

Avoidance of the MIFIDPRU Remuneration Code

- 19G.6.38 R A *non-SNI MIFIDPRU investment firm* must not pay variable *remuneration* through financial vehicles or methods that facilitate non-compliance with the *MIFIDPRU Remuneration Code* or *MIFIDPRU*.

19G.7 Remuneration committee

- 19G.7.1 G (1) *MIFIDPRU 7.3.3R(1)* requires a *non-SNI MIFIDPRU investment firm* to establish a *remuneration committee*, unless *MIFIDPRU 7.3.3R(2)* applies.
- (2) The *FCA* encourages *non-SNI MIFIDPRU investment firms* that are not required to establish a *remuneration committee* under *MIFIDPRU 7.3.3R(1)* to consider whether establishing and maintaining a *remuneration committee* would contribute to the better alignment of risk and individual reward across the *firm*.

19G Other instruments for use in variable remuneration Annex 1

Purpose

- 1.1 G SYSC 19G.6.19R requires that at least 50% of variable *remuneration* must be paid in *eligible instruments*. Under SYSC 19G.6.19R(3), *eligible instruments* include instruments that meet the requirements set out in this Annex. The instruments within the scope of this Annex include *additional tier 1 instruments*, *tier 2 instruments* and other instruments which can be fully converted to *common equity tier 1 instruments*, or written down, and that adequately reflect the *firm's* credit quality.

Requirements for instruments

- 1.2 R An instrument under SYSC 19G.6.19R(3) must satisfy the following requirements:
- (1) the instrument must be issued by the *firm*;

- (2) the instrument must not be secured or subject to a guarantee or any other arrangement that enhances the seniority of the claims of its holder in insolvency;
- (3) the terms of the instrument must provide that any distributions on the instrument will be paid on at least an annual basis and will be paid to the holder;
- (4) the instrument must be priced at its value at the time of issuance under the accounting framework applicable to the *firm*;
- (5) the valuation of the instrument in (4) must be subject to independent review;
- (6) if the instrument is part of an issuance which has the sole purpose of being used for variable *remuneration*, the price at which the instrument is redeemed, called, repurchased or converted must be subject to an independent valuation in accordance with the accounting framework applicable to the *firm*;
- (7) if the instrument is not perpetual, at the time at which it is awarded as variable *remuneration*, the remaining period before the maturity of the instrument must be at least equal to the sum of any deferral and retention periods that would apply to the staff member to whom the instrument is awarded;
- (8) the instrument must not be subject to redemption, call or repurchase during any deferral and retention periods that would apply to the *material risk taker* to whom the instrument is awarded;
- (9) any right to redeem, call or repurchase the instrument must be exercisable only at the sole discretion of the *firm*;
- (10) the holder of the instrument must have no rights to accelerate the future scheduled payment of interest or principal, except in the insolvency or liquidation of the *firm*;
- (11) the terms of the instrument must provide that the claim on the principal amount of the instrument is wholly subordinated to the claim of all non-subordinated creditors;
- (12) one of the requirements in SYSC 19G Annex 1.3R must be satisfied; and
- (13) the instrument must be either:

- (a) a *convertible instrument*, in which case the requirements in SYSC 19 Annex 1.4R and SYSC 19 Annex 1.5R must be satisfied; or
 - (b) a *write-down instrument*, in which case the requirements in SYSC 19 Annex 1.6R must be satisfied.
- 1.3 R (1) An instrument under SYSC 19G.6.19R(3) must meet either the conditions in (2) or the conditions in (4).
- (2) The first set of conditions is as follows:
- (a) the instrument must be part of an issuance which has the sole purpose of being used as variable *remuneration*; and
 - (b) the terms of the instrument must ensure that any distributions payable on the instrument are paid at a rate which is:
 - (i) consistent with market rates for similar issuances issued by other *firms* with comparable credit quality; and
 - (ii) subject to (3), no higher than 8% above the Consumer Price Index 12-month rate as published by the UK Office of National Statistics from time to time.
- (3) If the instrument has been awarded to a member of staff whose professional duties are predominantly performed outside the *UK* and the instruments are denominated in a currency other than pound sterling, a *firm* may substitute another similar independently-calculated consumer price index for a relevant *third country* in place of the rate specified in (2)(b)(ii).
- (4) The second set of conditions is that, at the time at which the instrument was awarded as variable *remuneration*, at least 60% of that class of instrument in issuance was:
- (1) issued other than for use as variable *remuneration*; and
 - (2) not held by any *person* who has close links to:
 - (i) the *firm*;
 - (ii) the *firm's group*; or
 - (iii) a *connected undertaking* included within the *firm's investment firm group*.

Additional requirements for convertible instruments

- 1.4 R A *firm* must satisfy the following requirements in relation to an instrument referred to SYSC 19G.6.19R(3) that is a *convertible instrument*:
- (1) the instrument must contain a trigger event which, if it occurs, results in the full principal amount of the instrument being converted into *common equity tier 1 capital* of the *firm*;
 - (2) the trigger event in (1) must occur where the *common equity tier 1 capital* of the *firm* falls below a specified level that is no lower than 64% of the *firm's own funds requirement*;
 - (3) the *firm* issuing the instrument must ensure the following to the extent necessary to give full effect to the required conversion following the trigger event in (1):
 - (a) where applicable, the *firm* has sufficient authorised share capital;
 - (b) the *firm* has all necessary permissions, authorisations and corporate authorities; and
 - (c) there are no other restrictions in the *firm's* constitutional documents, contractual arrangements or applicable national law that would prevent the *firm* from issuing the required *common equity tier 1 capital* instruments.
- 1.5 R The rate of conversion of the principal amount into *common equity tier capital* of the *firm* specified in the terms governing an instrument under SYSC 19G.6.19R(3) that is a *convertible instrument* must be set at a level that ensures that the value of the *common equity tier 1 capital* received by the holder upon conversion:
- (1) would not be higher than the value of the instrument at the time that it was originally awarded as variable *remuneration*; and
 - (2) if the *convertible instrument* is part of an issuance which has the sole purpose of being used as variable *remuneration*, would not be higher than the value of the instrument at the time of conversion.

Additional requirements for write-down instruments

- 1.6 R A *firm* must satisfy the following requirements in relation to an instrument under SYSC 19G.6.19R(3) that is a *write-down instrument*:
- (1) the instrument must contain a trigger event which, if it occurs, results in the principal amount of the instrument being written down;

- (2) the trigger event in (1) must occur where the *common equity tier 1 capital* of the *firm* falls below a specified level that is no lower than 64% of the *firm's own funds requirement*;
- (3) the aggregate principal amount of *write-down instruments* that must be written down following the trigger event in (1) must be at least equal to the lower of the following:
 - (a) the amount required to ensure that the *common equity tier 1 capital* of the *firm* referenced in the trigger event is restored to a level that is higher than the specified trigger; or
 - (b) the full principal amount of the instrument;
- (4) any write-down in the principal amount of the instrument following the trigger event in (1) must:
 - (a) apply on a pro rata basis across all *write-down instruments* that contain the same trigger event;
 - (b) generate items that, under the accounting framework applicable to the *firm*, qualify as *common equity tier 1 capital*;
 - (c) result in a proportional reduction in the holder's entitlement to receive:
 - (i) distributions paid in connection with the instrument;
 - (ii) payment if the instrument is called or redeemed; and
 - (iii) repayment in the insolvency or liquidation of the *firm*;
- (5) any write-down in the principal amount of the instrument following the trigger event in (1) may be permanent or temporary, but if it is temporary, any subsequent write-up must comply with the following requirements:
 - (a) it cannot increase the principal amount of the instrument beyond its level before the write-down occurred;
 - (b) it must be at the absolute discretion of the *firm*;
 - (c) the *firm* must have a reasonable basis to conclude that the write-up is appropriate, having regard to the following factors, among others:
 - (i) the importance of effectively aligning the interests of the recipient with the longer-term interests of the *firm*, its clients and its creditors;

- (ii) the financial position of the *firm* and the effect of the write-up on the *firm's own funds*; and
 - (iii) if the *firm* or any member of its *group* has been subject to exceptional government intervention, whether the write-up is consistent with the objective of ensuring the timely exit from that support;
- (d) it must be applied on a pro rata basis between all recipients of instruments falling under SYSC 19G.6.19R(3) that are *write-down instruments* where those instruments have previously been subject to a write-down.

SYSC TP 11 MIFIDPRU Remuneration Code transitional provision

Application

- 11.1 R SYSC TP 11 applies to an *undertaking* to whom the *MIFIDPRU Remuneration Code* will apply for the first time in the performance period beginning on or after 1 January 2022.

Duration of transitional

- 11.2 R SYSC TP 11 applies to *remuneration* awarded for performance or services provided in the performance period before the performance period to which the *MIFIDPRU Remuneration Code* first applies.
- 11.3 G While the *MIFIDPRU Remuneration Code* comes into force on 1 January 2022, it only applies to performance periods that begin on or after that date (see SYSC 19G.1.30R). This transitional provision therefore addresses the position for remuneration for performance or services provided in any performance period prior to the performance period to which the *MIFIDPRU Remuneration Code* first applies.

Transitional

- 11.4 R (1) Where an *undertaking* was subject to any of the remuneration codes listed in (2) immediately before the *MIFIDPRU Remuneration Code* came into force, that remuneration code (and any related reporting requirements) continues to apply in accordance with SYSC TP 11.2.
- (2) The remuneration codes referred to in (1) are:
- (a) SYSC 19A (IFPRU Remuneration Code); and

- (b) SYSC 19C (BIPRU Remuneration Code).
- 11.5 G (1) The effect of the transitional provision in SYSC TP 11.4 is to preserve the application of the IFPRU and BIPRU remuneration codes to performance or services provided in any performance period prior to the performance period to which the *MIFIDPRU Remuneration Code* first applies.
- (2) This means, for example, that *remuneration* paid to a member of the *Remuneration Code staff* of an *IFPRU investment firm* for performance in a performance period from 2019 to 2020 would continue to be subject to the *remuneration* rules in SYSC 19A (the IFPRU Remuneration Code).
- (3) As the application of the transitional provision is determined by the date of the performance period in which the performance or services were provided (not when the *remuneration* was awarded or paid out) this would remain the case even if the member of the *Remuneration Code staff* was paid the *remuneration* after the *MIFIDPRU Remuneration Code* applied to a *firm*.
- 11.6 R The reference in SYSC TP 11.4R(1) to an *undertaking* being subject to a remuneration code includes the situation in which those *rules* include an obligation for a *firm* to ensure a *parent undertaking* complies with certain requirements.
- 11.7 G Under previous remuneration codes, certain obligations were not applied directly to unregulated *parent undertakings* but were applied indirectly through the imposition of an obligation on a *firm* within the *group* to ensure compliance by the *parent undertaking*. SYSC TP 11.6R makes clear that the transitional provision in SYSC TP 11.4R also applies to those indirect obligations on the *parent undertaking*. This means that where provisions in SYSC 19A or SYSC 19C applied on an indirect basis to a *parent undertaking* before the *MIFIDPRU Remuneration Code* began to apply, those remain the relevant obligations for performance or services provided during the performance period in which the *MIFIDPRU Remuneration Code* began to apply.

- 16.12.4B G ~~Reporting at group level for liquidity purposes by firms falling within BIPRU 12 (Liquidity) is by reference to defined liquidity groups. Guidance about the different types of defined liquidity groups and related material is set out in SUP 16 Annex 26 (Guidance on designated liquidity groups in SUP 16.12). [deleted]~~

Investment firm group reporting

- 16.12.4C G MIFIDPRU 9 contains reporting requirements for:
- (1) UK parent entities of investment firm groups that are subject to consolidation under MIFIDPRU 2.5; and
 - (2) parent undertakings that are subject to the group capital test.
- The reporting requirements apply even if the UK parent entity or parent undertaking is not an authorised person.

16.17 Remuneration reporting [deleted]

Insert the following new section after SUP 16.28 (Home insurance and motor insurance pricing reporting). The text is not underlined.

16.29 MIFIDPRU Remuneration Report

Application

- 16.29.1 R This section applies to a *MIFIDPRU investment firm*, except where:
- (1) the *MIFIDPRU investment firm* is part of a *group* to which prudential consolidation applies in accordance with provisions of the *UK CRR* and the *PRA Rulebook*; and
 - (2) the reports in (3) have been submitted to the *PRA* on behalf of the consolidation group and each covers the *MIFIDPRU investment firm*.
 - (3) the reports referred to in (2) are:
 - (a) the Remuneration Benchmarking Information Report; and
 - (b) the Higher Earners Report.

Purpose

- 16.29.2 G The purpose of this section is to ensure that the *FCA* receives regular information in a standard format to assist it in assessing the effectiveness of a *MIFIDPRU investment firm's remuneration* and incentive arrangements.

Reporting requirement

- 16.29.3 R A *firm* to which this section applies must submit the MIFIDPRU Remuneration Report:
- (1) in the format set out in *SUP 16 Annex 51R*;
 - (2) in accordance with the instructions in *SUP 16 Annex 51G*; and
 - (3) online through the appropriate systems accessible from the *FCA's* website.
- 16.29.4 R The information in the MIFIDPRU Remuneration Report must be denominated in pound sterling.
- 16.29.5 R Where a *MIFIDPRU investment firm* does not form part of an *investment firm group* to which consolidation applies under *MIFIDPRU 2.5*, it must

complete the report on a solo basis in respect of *remuneration* awarded in the last completed financial year to all relevant staff of the *firm* who mainly carried on their professional activities within the *UK*.

- 16.29.6 R Where a *MIFIDPRU investment firm* forms part of an *investment firm group* to which consolidation applies under *MIFIDPRU 2.5*, it must not complete the report on a solo basis. The *MIFIDPRU investment firm* must complete the report on a consolidated basis in respect of *remuneration* awarded in the last completed financial year to all relevant staff of the *firm* who mainly undertook their professional activities within the *UK*.
- 16.29.7 G *SUP 16.3.25G* permits a single report to be submitted to meet the reporting requirements of all *firms* in a *group*.

Frequency and timing of report

- 16.29.8 R (1) A *firm* to which this section applies must submit a MIFIDPRU Remuneration Report to the *FCA* annually.
- (2) The *firm* must submit that report to the *FCA* within 4 months of the end of the *firm's accounting reference date*.

FIN067 – Additional reporting for Collective Portfolio Management Investment firms (CPMIs)

This form only applies to Collective Portfolio Management Investment firms

Capital held as own funds

Collective Portfolio Management Investment firms (CPMIs) should note that the definition of capital given in IPRU-INV uses the definitions in UK CRR as onshored, and not as amended by MIFIDPRU.

1A – Common Equity Tier 1 capital

CPMIs should enter the amount of CET1 capital they hold for their own funds. CET1 capital should be calculated in accordance with Article 50 of the UK CRR. This cell must always be completed with a positive number.

2A – Additional Tier 1 capital

CPMIs should enter the amount of AT1 capital they hold for their own funds. AT1 capital should be calculated in accordance with Article 61 of the UK CRR. CPMIs are not required to hold/issue AT1 capital. If no AT1 has been issued, or is held, a zero should be entered in this cell.

3A – Tier 2 capital

CPMIs should enter the amount of T2 capital they hold for their own funds. T2 capital should be calculated in accordance with Article 71 of the UK CRR. CPMIs are not required to hold/issue T2 capital. If no T2 has been issued/is held, a zero should be entered in this cell.

Capital requirements

IPRU-INV Funds under management requirement

4A – Total funds under management

This should be reported by all firms with permission to manage investments. It should be the total non-MiFID funds under management of the firm even if this exceeds the amount that affects the funds under management capital requirement.

5A – Funds under management requirement

This is the base capital resources requirement plus 0.02% of the amount by which the firm's funds under management exceeds €250,000,000.

The appropriate definition of funds under management to be used in this calculation is that set out in the FCA Handbook Glossary of definitions.

6A – Total annual relevant expenditure

The fixed overheads requirement is one quarter of the CPMI's previous financial year's relevant expenditure. The annual relevant expenditure should be calculated in accordance with MIFIDPRU 4.5.3R. The number entered should be the total annual relevant expenditure, not the fixed overheads requirement. If we have varied a CPMI's annual relevant expenditure due to a material change in its business model, that is the figure that should be included here. This should be the same number that has been entered in 6A in MIF001.

7A – variation in fixed overheads

A firm should select 'Yes' if we have amended its FOR due to a material change in its business model. An example of a material change is adding or removing permissions during the reporting year. If this is the case, the number entered into Cell A4 should be the equivalent annual relevant expenditure for their amended FOR.

Professional negligence

8A – Capital requirement or PII

The firm should report either "Own funds" or "PII". Where a firm has PII but also holds own funds to cover any excesses and/or exclusions on the policy, the firm should report "PII".

CPMIs should then only complete A9 or A10.

9A – Additional funds under management (IPRU-INV 11.3.14UK)

The amount of additional own funds used to cover potential liability risks arising from professional negligence for AIFM activities instead of professional indemnity insurance. When calculating this amount, firms should include the amount of any assets under management that are delegated to the firm by mandate. Note that this treatment is different from that prescribed for the funds under management requirement.

10A – PII capital requirement (IPRU-INV 11.3.15UK AND 11.13.16R)

The amount of any additional own funds required to cover any defined excess and exclusions in the insurance policy.

Liquid asset requirement

11A – Liquid asset requirement

The amount of own funds required by IPRU-INV 11.2.1R3.

12A – Amount of liquid assets held

The amount of liquid assets held at the reporting date. Assets are regarded as liquid if they are readily convertible to cash within one month. This figure must not include speculative positions.

MIF008 – Remuneration

Introduction

The purpose of the MIFIDPRU Remuneration Report is to ensure that the FCA receives regular information in a standard format to assist it in assessing the effectiveness of MIFIDPRU investment firms' remuneration and incentive arrangements.

Consolidated reports

This form should be completed by all FCA investment firms in scope of the MIFIDPRU Remuneration Code.

Where a firm is not part of an FCA investment firm group or is part of an FCA investment firm group to which the group capital test applies, the firm should complete the form on a solo basis.

Where a firm forms part of an FCA investment firm group to which consolidation applies, it should complete the report on a consolidated basis. References to FCA investment firms should be taken to refer to the consolidation group. Accordingly, the consolidation group should be treated as a single entity. A consolidation group may choose to submit a single report to satisfy the reporting requirements of all FCA investment firms in the group.

Currency

All monetary values should be provided in Sterling.

Data elements

These are referred to by row first and then by column, so data element 2B will be in row 2 and column B. All data should be entered in full figures, not in 000s.

Basis of completion

1A asks FCA investment firms to specify whether they are submitting the report on behalf of a prudential consolidation group.

2A should only be completed by firms responding 'Yes' to 1A. It asks for the FRNs of all the FCA investment firms that form part of the consolidation group on behalf of which the report is being submitted.

Part A: Remuneration

This part of the form must be completed by all FCA investment firms.

Columns A and B

FCA investment firms that are small and non-interconnected firms (SNI firms) should complete only column A of Part A. They should enter the data in relation to all their staff. Column B should be left blank.

FCA investment firms that are not small and non-interconnected firms (non-SNI firms) should complete columns A and B of Part A. They should split the data according to which staff were and were not identified as material risk takers in the performance year concerned (see the rules and guidance in Chapter 5 of SYSC 19G for the definition of a material risk taker). Data relating to individuals who were identified as material risk takers for only part of the performance year should be included in column B.

3A - Number of staff (non-material risk takers)

The number of staff should be reported as a headcount figure (not as full-time equivalent), so based on the number of natural persons and independent of the individual's working hours. The headcount figure on the accounting reference date should be used.

3B – Number of staff (material risk takers)

The number of staff should be reported as a headcount figure (not as full-time equivalent), so based on the number of natural persons and independent of the individual's working hours. The figure should include all individuals who were identified as material risk takers for any part of the performance year.

4A and 4B - Total fixed remuneration

This is the total of all fixed remuneration paid by the firm for work and services in the performance year in question. Fixed remuneration includes salary payments; regular and non-discretionary pension contributions, for example under the terms of an employee pension scheme; and any other benefits that are not linked to performance criteria. See also our guidance in sections 4.2G to 4.4G of SYSC on categorising fixed and variable remuneration.

5A and 5A - Total variable remuneration

This is the total of all variable remuneration awarded by the firm (but not necessarily paid out) in respect of the performance year in question.

Amounts reported should include bonus awards (whether in cash, shares or other non-cash instruments), executive reward schemes (e.g. long term incentive schemes), carried interest plans, and discretionary pension benefits. The latter are enhanced pension benefits granted on a discretionary basis as part of an employee's variable remuneration package. See also our guidance in sections 4.2G to 4.4G of SYSC 19G on categorising fixed and variable remuneration.

Variable remuneration awarded based on a multi-year accrual period that does not revolve on an annual basis (where the firm does not start a new multi-year period every year), should be fully allocated to the performance year in which it was awarded, regardless when it is paid out.

Guaranteed variable remuneration (such as 'sign-on bonuses'), retention bonuses, buy-out awards, and severance pay should also be included. They should be reported for the year in which they are awarded, which may not always be the year in which they are also paid out.

Both upfront and, where applicable, deferred awards of variable remuneration in respect of the performance year in question should be included.

6A and 6B - Variable remuneration awarded in cash

Both upfront and, where applicable, deferred awards of variable remuneration in respect of the performance year in question, in cash should be included.

7A and 7B - Variable remuneration awarded in non-cash

Non-cash refers here to variable remuneration that is awarded in any of the eligible instruments listed in section 6.19R of SYSC 19G (shares, share-linked instruments, other instruments that comply with the requirements in Annex 1R of SYSC 19G or non-cash instruments which reflect the instruments of the portfolios managed by the firm), or by means of alternative arrangements approved for use by the FCA (see section 6.21G of SYSC 19G).

Both upfront and, where applicable, deferred awards of variable remuneration in respect of the performance year in question should be included.

8A and 8B - Proportion of total variable remuneration deferred

Firms should enter the percentage of the total variable remuneration in row 6 which has been deferred. Only the relevant proportion of variable remuneration awarded in respect of the performance year in question should be reported (not deferred variable remuneration from previous performance years).

Part B: Adjustments

This part of the form must be completed by all non-SNI firms. Columns A (non-material risk takers) and B (material risk takers) must be completed.

9A and 9B - Number of individual awards of variable remuneration that have been downwardly adjusted in-year

The number of instances in which the value of an award of variable remuneration has been reduced in-year, so during the performance year in question and before it was awarded.

10A and 10B - Total of all in-year adjustments to variable remuneration

The total value of the in-year downward adjustments reported in 9A and 9B.

11A and 11B - Number of individual awards of variable remuneration from previous years that have been downwardly adjusted (malus)

The number of instances in which the value of variable remuneration awarded in a previous performance year has been reduced (or cancelled) after it has been awarded but before it has vested. Only the new instances in which malus has been applied should be reported (earlier applications of malus will have been reported previously).

12A and 12B - Total of adjustments to previous years' awards of variable remuneration

The total value of the malus adjustments reported in 11A and 11B.

13A and 13B - Number of individual awards of variable remuneration to which clawback has been applied

The number of instances in which the value of variable remuneration awarded in a previous performance year has been reduced (or cancelled) after it has vested. Only the new instances in which clawback has been applied should be reported (earlier applications of clawback will have been reported previously).

14A and 14B - Total amount of clawback applied

The total value of the instances of clawback reported in 13A and 13B.

Part C: Highest earning individuals

This part of the form must be completed by non-SNI firms which do not meet the conditions in SYSC 19G.1.1R(2), so are subject to the rules on deferral, retention and pay-out in instruments.

Columns A, B and C must be completed in relation to the three individuals who were awarded the highest total remuneration (fixed plus variable remuneration) in respect of the performance year in question. The data on the highest earner should be put in column A, on the second highest earner in column B, and on the third highest earner in column C.

15A, 15B and 15C - Is the individual a material risk taker?

Firms should enter 'Yes' or 'No' to indicate whether the individual was identified as a material risk taker for any part of the performance year concerned.

16A, 16B and 16C - Does the individual work in the front, middle or back office?

Firms should enter 'front', 'middle' or 'back' to indicate in which kind of role the individual spent most of the performance year concerned. The following should serve as a guide:

Front office: Usually client-facing staff that generate revenue for the firm. They may work in sales, trading, broking, wealth/asset management, private equity or capital markets. Research analysts, for example on the buy-side, sell-side or in corporate finance, are usually also considered front office staff.

Middle office: Staff that work in risk management, financial control, compliance and legal. It may also include strategic management and some IT functions, such as creating and maintaining software for use by traders and brokers.

Back office: Staff providing administrative and operational support, including payment services. Areas will usually include human resources, accounting, settlement, clearing, records maintenance and IT services.

17A, 17B and 17C - Fixed remuneration

This is the fixed remuneration paid to the individual for work and services in the performance year in question. See notes on 4A and 4B for information on what should be included in fixed remuneration.

18A, 18B and 18C - Variable remuneration

This is the variable remuneration awarded (but not necessarily paid out) to the individual in respect of the performance year in question. See notes on 5A and 5B for information on what should be included in variable remuneration.

19A, 19B and 19C - Variable remuneration awarded in cash

See notes on 6A and 6B for information on what should be reported.

20A, 20B and 20C - Variable remuneration awarded in non-cash

See notes on 7A and 7B for information on what should be reported.

21A, 21B and 21C - Proportion of variable remuneration deferred

Firms should enter the percentage of the individual's variable remuneration in row 18 which has been deferred. Only the relevant proportion of variable remuneration awarded in respect of the performance year in question should be reported (not deferred variable remuneration from previous performance years).
