40	Alternative estimate of NPV sensitivity to + shift				1											<u>.</u> Ī
41	Alternative estimate of NPV sensitivity to - shift															İ
40	NDV Canaitivity limita (antional)					1	_	_	_		_	1			·	T

Note An option that is IN the money or would be in the event of the parallel shift calculated in 45 or 46 or more should be assigned a maturity (i.e re-pricing) date equal to the expiry date of the contract. This affects data elements 12 and 26 (options).

<sup>1</sup> An option that is OUT of the money and would remain so in the event of the parallel shift calculated in 45 or 46 or more should be assigned to the 'overnight to 3 month' maturity band. This affects data elements 12 and 26 (options).

An option within these two bounds should have its re-pricing date determined by simple straight line interpolation - e.g. an option exactly at the money, would be assigned a notional maturity date halfway between overnight and the contract expiry date

## FSA055

## Systems and controls questionnaire

(If you answer no above, leave the remaining data elements blank)  Part 2 - Systems and controls  2	Part 1	Overall Framework	Α
Part 2 - Systems and controls  2	1	Does your firm have a liquidity risk management framework in place?	
Are processes, strategies and systems for liquidity risk assessment incorporated into the framework?  Is the framework documented?  Do you consider institution specific and market wide stresses and their impact upon your assets?  Do you consider your ability to raise funds under stressed market circumstances as adequate?  Part 3 - Stress testing  Does your firm undertake stress testing on your liquidity risk model?  Is your approach to stress testing documented?  How many times throughout the year do you conduct stress tests?  Part 4 - Contingency funding plans  Do you have an appropriate contingency funding plan in place?  How frequently is this plan updated? (Monthly/ Quarterly/ Semi- annually/ Annually/ less than once a year)  How many times has this plan been updated in the past 12 months?  Part 5 - Senior management oversight  Is the governing body / senior management actively involved in reviewing and updating the liquidity risk management approach? (Monthly/ Quarterly/ Semi- annually/ Annually/ less than once a year)  How frequently does the governing body / senior management formally review the liquidity risk management approach? (Monthly/ Quarterly/ Semi- annually/ Annually/ less than once a year)  Is an appropriate process in place for capturing, managing and escalating liquidity risk issues?  Does the governing body approve stress tests and contingency funding plans?  Part 6 - Provisions on measurement and management  In your liquidity risk management do you consider:  Pricing liquidity risk management?  Management of collateral positions?  How liquidity is managed across legal entities, business lines and currencies?		(If you answer no above, leave the remaining data elements blank)	
into the framework?  Is the framework documented?  Do you consider institution specific and market wide stresses and their impact upon your assets?  Do you consider your ability to raise funds under stressed market circumstances as adequate?  Part 3 - Stress testing  Does your firm undertake stress testing on your liquidity risk model?  Is your approach to stress testing documented?  How many times throughout the year do you conduct stress tests?  Part 4 - Contingency funding plans  Do you have an appropriate contingency funding plan in place?  How frequently is this plan updated? (Monthly/ Quarterly/ Semi- annually/ Annually/ less than once a year)  How many times has this plan been updated in the past 12 months?  Part 5 - Senior management oversight  Is the governing body / senior management actively involved in reviewing and updating the liquidity risk management approach?  How frequently does the governing body / senior management formally review the liquidity risk management approach? (Monthly/ Quarterly/ Semi- annually/ Annually/ less than once a year)  Is an appropriate process in place for capturing, managing and escalating liquidity risk management approach? (Monthly/ Quarterly/ Semi- annually/ Annually/ Isss than once a year)  Is an appropriate process in place for capturing, managing and escalating liquidity risk issues?  Does the governing body approve stress tests and contingency funding plans?
