|       | source of funds;   |  |
|       | expected account activity;   |  |
|       | sector risk; and   |  |
|       | involvement in public contracts.   |  |
| •     | The firm identifies where there is a<br>risk that a relationship manager<br>might become too close to customers<br>to identify and take an objective view<br>of the money laundering risk. It man-<br>ages that risk effectively.  | <ul> <li>Risk assessments on<br/>money laundering are<br/>unduly influenced by<br/>the potential profitabil-<br/>ity of new or existing re<br/>lationships.</li> </ul> |
|       |  | • The firm cannot evid-<br>ence why customers are<br>rated as high, medium<br>or low risk.   |
|       |  | <ul> <li>A UK branch or subsidi-<br/>ary relies on group risk<br/>assessments without as-<br/>sessing their compliance<br/>with UK AML re-<br/>quirements.</li> </ul>  |
|       | egulation 18 of the <i>Money Launderin</i><br>C 3.2.6CR, SYSC 6.3.1R and SYSC 6.3.3R.  | ng Regulations, 🔳 SYSC 3.2.6A  |
| Custo | omer due diligence (CDD) checks  |  |
| owne  | must <b>identify</b> their customers and, when<br>rs, and then <b>verify</b> their identities. Firms<br><b>ose</b> and <b>intended nature</b> of the customer  | s must also understand the   |

and collect information about the customer and, where relevant, beneficial owner. This should be sufficient to obtain a complete picture of the risk associated with the business relationship and provide a meaningful basis for subsequent monitoring.

Firms should note that CDD measures also apply when contacting an existing customer as part of any legal duty in the course of a calendar year for the purpose of reviewing information which is relevant to the risk assessment of the customer, and relates to beneficial ownership of the customer.

Firms should also note that CDD measures must also be applied when the relevant person has to contact an existing customer in order to fulfil any duty under the International Tax Compliance Regulations 2015.

CDD measures must also include taking reasonable steps to understand the ownership and control structure of a customer where the customer is a legal person, trust, company, foundation or similar legal arrangement.

Firms are required to keep written records in circumstances where all possible means of identifying the beneficial owner of a *body corporate* have been taken and the beneficial cannot be identified satisfactorily or at all. In circumstances where the beneficial owner of a body corporate cannot be identified, reasonable measures must be taken to verify the identity of the senior person in the body corporate responsible for managing it. In doing so, firms should keep written records made of the actions taken and any difficulties encountered.

Firms are required to collect proof of company registration (or an excerpt from the register) before establishing a business relationship with certain legal entities including a company subject to the requirements of Part 21A of the Companies Act 2006, a limited liability partnership or an eligible Scottish partnership. Firms are required to report to Companies House discrepancies between this information and information which otherwise becomes available to them in the course of complying with the *Money Laundering* Regulations. Firms may wish to refer to further guidance from the Companies House.

In situations where the money laundering risk associated with the business relationship is increased, banks must carry out additional, enhanced due diligence (EDD). ■ FCG 3.2.8G below considers enhanced due diligence.

Where a firm cannot apply customer due diligence measures, including where a firm cannot be satisfied that it knows who the beneficial owner is, it must not enter into, or continue, the business relationship.

Firms should note that an electronic identification process may be regarded as a reliable source for the purposes of CDD verification where that process is independent of the person whose identity is being verified, secure from fraud and misuse and capable of providing an appropriate level of assurance that the person claiming a particular identity is in fact that person with that identity.

Self-assessment questions:

•Does your firm apply customer due diligence procedures in a risksensitive way?

•Do your CDD processes provide you with a comprehensive understanding of the risk associated with individual business relationships?

| •How does the firm identify the customer's beneficial owner(s)? Are    |
|--|
| you satisfied that your firm takes risk-based and adequate steps to    |
| verify the beneficial owner's identity in all cases? Do you understand |
| the rationale for beneficial owners using complex corporate            |
| structures?  |

•Are procedures **sufficiently flexible** to cope with customers who cannot provide more common forms of identification (ID)?

| Exan | nples of good practice  | Exan | nples of poor practice   |
|------|---|------|--|
| •    | A firm which uses e.g.<br>electronic verification<br>checks or PEPs data-<br>bases understands<br>their capabilities and<br>limitations.  | •    | Procedures are not <b>risk-based</b> : the firm applies the same CDD measures to products and customers of varying risk.   |
| •    | The firm can cater for<br>customers who lack<br>common forms of ID<br>(such as the socially ex-<br>cluded, those in care,<br>etc).  | •    | The firm has <b>no method for tracking</b><br>whether checks on customers are<br>complete.   |
| •    | The firm understands<br>and documents the<br><b>ownership and control</b><br><b>structures</b> (including<br>the reasons for any<br>complex or opaque cor-<br>porate structures) of<br>customers and their be-<br>neficial owners.    | •    | The firm allows <b>language difficulties</b> or<br><b>customer objections</b> to get in the way<br>of proper questioning to obtain neces-<br>sary CDD information.             |
| •    | The firm obtains in-<br>formation about the<br>purpose and nature of<br>the business relation-<br>ship sufficient to be sat-<br>isfied that it <b>under-</b><br><b>stands</b> the <b>associated</b><br><b>money laundering risk</b> . | •    | Staff do <b>less CDD</b> because a customer is<br>referred by senior executives or influen-<br>tial people.  |
| •    | Staff who approve new<br>or ongoing business re-<br>lationships satisfy<br>themselves that the<br>firm has obtained <b>ad-<br/>equate CDD</b> informa-<br>tion before doing so.   | •    | The firm has <b>no procedures</b> for dealing<br>with situations requiring enhanced due<br>diligence. <b>This breaches the</b> <i>Money</i><br><i>Laundering Regulations</i> . |
|      |   | •    | The firm fails to consider:  |
|      |   |      | any individuals who ultimately<br>control more than 25% of shares<br>or voting rights of a corporate<br>customer;  |
|      |   |      | any individuals who exercise con-<br>trol over the management of a<br>corporate customer; and  |
|      |   |      | any individuals who control the body corporate   |

Examples of good practice Examples of poor practice

when identifying and verifying the customer's beneficial owners. This breaches the Money Laundering Regulations.

.....

See regulations 5, 6, 27, 28, 30A, 31, 33, 34 and 35 of the *Money Laundering Regulations*.

### Ongoing monitoring

3.2.5

G

A firm must conduct ongoing monitoring of its business relationships on a risk-sensitive basis. Ongoing monitoring means **scrutinising transactions** to ensure that they are consistent with what the firm knows about the customer, and taking steps to ensure that the firm's knowledge about the business relationship remains current. As part of this, firms must keep documents, data and information obtained in the CDD context (including information about the purpose and intended nature of the business relationship) up to date. It must apply CDD measures where it doubts the truth or adequacy of previously obtained documents, data or information (see **E**FCG 3.2.4G).

Where the risk associated with the business relationship is increased, firms must carry out enhanced ongoing monitoring of the business relationship. FCG 3.2.9G provides guidance on enhanced ongoing monitoring.

Self-assessment questions:

•How are transactions **monitored** to spot potential money laundering? Are you satisfied that your monitoring (whether automatic, manual or both) is adequate and effective considering such factors as the size, nature and complexity of your business?

•Does the firm **challenge** unusual activity and explanations provided by the customer where appropriate?

•How are **unusual transactions** reviewed? (Many alerts will be false alarms, particularly when generated by automated systems. How does your firm decide whether behaviour really is suspicious?)

•How do you feed the **findings from monitoring** back into the customer's risk profile?

| <ul> <li>dering by using an automated system to monitor transactions</li> <li>Where a firm uses automated</li> <li>Where a firm uses automated</li> <li>The MLRO can provide little</li> </ul> | Exam | ples of good practice   | Examples of poor practice |   |  |

*Regulations* and of *FCG*. Nothing in *FCG* prevents the use of 'source of funds as evidence' in situations where this is appropriate.

Where the customer is either a PEP, a family member of a PEP or known close associate of a PEP, a firm may have regard to guidance issued by the *FCA* on the treatment of PEPs.

[Editor's Note: see https://www.fca.org.uk/publications/finalised-guidance/fg17-6-treatment-politically-exposed-persons-peps-money-laundering.]

#### Handling higher risk situations

3.2.7

G

The law requires that firms' anti-money laundering policies and procedures are sensitive to risks. This means that in higher risk situations, firms must apply enhanced due diligence and ongoing monitoring. **Situations that present a higher money laundering risk** might include, but are not restricted to: customers linked to higher risk countries or business sectors; or who have unnecessarily complex or opaque beneficial ownership structures; and transactions which are unusual, lack an obvious economic or lawful purpose, are complex or large or might lend themselves to anonymity.

Firms must take account of risk factors set out under regulation 33(6) which relate to customer risk, product risk and geographical risk when assessing whether there is a high risk of money laundering or terrorist financing in a particular situation and the extent of measures which should be taken to manage and mitigate that risk.

The Money Laundering Regulations also set out some scenarios in which specific enhanced due diligence measures have to be applied:

•Correspondent relationships: where a correspondent credit institution or financial institution is outside the EEA, the UK credit or financial institution should apply EDD measures commensurate to the risk of the relationship. This can include in higher risk situations thoroughly understanding its correspondent's business, reputation, and the quality of its defences against money laundering and terrorist financing. Senior management must also give approval before establishing a new correspondent relationship. JMLSG guidance sets out how firms should apply EDD in differing correspondent trading relationships.

•Politically exposed persons (PEPs), family members and known close associates of a PEP: a PEP is a person entrusted with a prominent public function, other than as a middle-ranking or more junior official. PEPs (as well as their family members and known close associates) must be subject to enhanced scrutiny. A senior manager at an appropriate level of authority must also approve the initiation of a business relationship with a PEP (or with a family member, or known close associate, of a PEP). This includes approving a relationship continuing with an existing customer who became a PEP after the relationship begun. In meeting these obligations firms may have regard to the FCA's guidance on a risk-based approach to PEPs.

•Business relationships or a 'relevant transaction' where either party is established in a high risk third country: the *Money Laundering Regulations* defines:

|   | (a)a high-risk third country as being one identified by the EU<br>Commission by a delegated act. See EU Regulation 2016/1675 (as<br>amended from time to time);  |
|---|--|
|   | (b)a relevant transaction as being a transaction in relation to which the relevant person is required to apply customer due diligence under Regulation 27;   |
|   | (c)established in a country in the case of a legal person as being<br>the country of incorporation or principal place of business, or, in<br>the case of a financial institution or credit institution, where its<br>principal regulatory authority is.  |
|   | In these scenarios, EDD must include specified measures which<br>include obtaining additional information on the customer, the<br>beneficial owner, the intended nature of the business relationship,<br>source of funds and wealth, reasons for the transactions and senior<br>management approval for the business relationship. Conducting<br>enhanced monitoring is also a requirement.  |
|   | •Other transactions: EDD must be performed:  |
|   | () in any case where a transaction is complex or unusually large, or<br>there is an unusual pattern of transactions, or the transaction or<br>transactions have no apparent economic or legal purpose. In this<br>scenario, there are specified EDD measures which must include, as<br>far as reasonably possible, examining the background and<br>purpose of the transaction and increasing the degree and nature<br>of monitoring of the business relationship in which the<br>transaction is made to determine whether that transaction or<br>that relationship appears to be suspicious; |
|   | <ol> <li>in any other case which by its nature can present a higher risk of<br/>money laundering or terrorist financing.</li> </ol>  |
|   | Where the customer is the beneficiary of a life insurance policy, is a<br>legal person or a legal arrangement, and presents a high risk of<br>money laundering or terrorist financing for any other reason, credit<br>and financial institutions must take reasonable measures to identify<br>and verify the identity of the beneficial owners of that beneficiary<br>before making a payment under the life insurance policy.   |
|   | The extent of enhanced due diligence measures that a firm undertakes can<br>be determined on a risk-sensitive basis. The firm must be able to<br>demonstrate that the extent of the enhanced due diligence measures it<br>applies is commensurate with the money laundering and terrorist financing<br>risks.  |
|   | See regulations 19, 20, 21, 28(16), 33 and 34 of the <i>Money Laundering Regulations</i> .   |
|   | Handling higher risk situations – enhanced due diligence (EDD)   |
| G | Firms must apply EDD measures in situations that present a higher risk of money laundering.  |
|   | EDD should give firms a <b>greater understanding</b> of the customer and their associated risk than standard due diligence. It should provide more certainty that the customer and/or beneficial owner is who they say they are and that the purposes of the business relationship are legitimate; as well as increasing opportunities to identify and deal with concerns that they are not.<br><b>FCG 3.2.3G considers risk assessment.</b>   |

The extent of EDD must be commensurate to the risk associated with the business relationship or occasional transaction but firms can decide, in most cases, which aspects of CDD they should enhance. This will depend on the reason why a relationship or occasional transaction was classified as high risk. Examples of EDD include: •obtaining more information about the customer's or beneficial owner's business •obtaining more robust verification of the beneficial owner's identity based on information from a reliable and independent source •gaining a better understanding of the customer's or beneficial owner's reputation and/or role in public life and assessing how this affects the level of risk associated with the business relationship •carrying out searches on a corporate customer's directors or other individuals exercising control to understand whether their business or integrity affects the level of risk associated with the business relationship •establishing how the customer or beneficial owner acquired their wealth to be satisfied that it is legitimate •establishing the source of the customer's or beneficial owner's funds to be satisfied that they do not constitute the proceeds from crime. Self-assessment questions: •How does EDD differ from standard CDD? How are issues that are flagged during the due diligence process followed up and resolved? Is this adequately documented? •How is EDD information gathered, analysed, used and stored? •What involvement do senior management or committees have in approving high risk customers? What information do they receive to inform any decision-making in which they are involved? The MLRO (and their team) Senior management do not give approval for taking on have adequate oversight of all high risk relationships. high risk customers. If the customer is a PEP or a non-EEA correspondent , this breaches the Money Laundering Regulations. The firm establishes the legit-[deleted] imacy of, and documents, the source of wealth and source of funds used in high risk business relationships. Where money laundering risk The firm **does not distinguish** is very high, the firm obtains between the customer's independent internal or exsource of funds and their source of wealth. ternal intelligence reports.

| Exam   | ples of good practice   | Exam    | ples of poor practice  |
|--------|---|---------|--|
| •      | When assessing EDD, the firm <b>complements staff knowledge</b> of the customer or beneficial owner with more objective information.  | •       | The firm relies entirely on<br>single source of information<br>for its enhanced due<br>diligence.  |
| •      | The firm is able to provide<br>evidence that relevant in-<br>formation staff have about<br>customers or beneficial<br>owners is <b>documented and</b><br><b>challenged</b> during the CDD<br>process.                                 | •       | A firm relies on intra-grou<br>troductions where <b>oversea</b><br><b>standards are not UK-equi</b><br><b>lent</b> or where due diligend<br>data is <b>inaccessible</b> becaus<br>legal constraints. |
| •      | A member of a group satisfies<br>itself that it is appropriate to<br>rely on due diligence per-<br>formed by <b>other entities</b> in<br>the same group.  | •       | The firm considers the <b>cre</b><br><b>risk</b> posed by the custome<br>but not the <b>money laun-</b><br><b>dering risk</b> .  |
| •      | The firm proactively <b>follows</b><br><b>up gaps in, and updates,</b> CDD<br>of higher risk customers.   | •       | The firm <b>disregards</b> allegations of the customer's or<br>neficial owner's <b>criminal a</b><br><b>ity</b> from reputable sources<br>peated over a sustained<br>period of time.                 |
| •      | A correspondent bank seeks<br>to <b>identify PEPs</b> associated<br>with their respondents  | •       | The firm ignores adverse a<br>legations simply because o<br>tomers hold a UK <b>investm</b><br><b>visa</b> .   |
| •      | . A correspondent bank takes<br>a view on the strength of the<br><b>AML regime</b> in a respondent<br>bank's home country, drawing<br>on discussions with the re-<br>spondent, overseas regulators<br>and other relevant bodies.      | •       | A firm grants <b>waivers</b> from<br>tablishing source of funds<br>source of wealth or other<br>diligence without good<br>reason.  |
| •      | A correspondent bank gathers<br>information about <b>respondent</b><br><b>banks' procedures</b> for sanc-<br>tions screening, PEP identifica-<br>tion and management, ac-<br>count monitoring and suspi-<br>cious activity reporting. | •       | A correspondent bank cor<br>ducts inadequate due dili-<br>gence on <b>parents</b> and <b>affi</b><br><b>ates</b> of respondents.   |
|        |   | •       | A correspondent bank <b>reli</b><br><b>exclusively</b> on the Wolfsbo<br>Group AML questionnaire   |

| Hand   | ling higher risk situations   | – enh   | anced ongoing monito   |
| Firms  | must enhance their ongoing more   | nitorin | g in higher risk situations.   |
| Self-a | ssessment questions:  |         |  |
|        | •How does your firm <b>monitor</b><br>How does enhanced ongoing r   |         |  |

|   |   | •Are reviews carried out independently of relationship managers?   |  |  |
|---|---|--|--|--|
|   |   | •What <b>information</b> do you store in the files of high risk customers? Is<br>it useful? (Does it include risk assessment, verification evidence,<br>expected account activity, profile of customer or business relationship<br>and, where applicable, information about the ultimate beneficial<br>owner?) |  |  |
|   | Е   | xamples of good practice   | Examples of poor practice  |  |
|   | •   | Key AML staff have a <b>good un-<br/>derstanding</b> of, and <b>easy ac-<br/>cess</b> to, information about a<br>bank's highest risk customers.  |  |  |
|   | •   | New higher risk clients are<br>more closely monitored to con-<br>firm or amend <b>expected ac-</b><br>count activity.  | • A firm in a group relies on<br>others in the group to carry<br>out monitoring <b>without un-</b><br><b>derstanding</b> what they did<br>and what they found.                         |  |
|   | •   | Alert thresholds on auto-<br>mated monitoring systems are<br>lower for PEPs and other<br>higher risk customers. Excep-<br>tions are escalated to more<br>senior staff.   | • There is <b>insufficient challenge</b><br>to explanations from relation-<br>ship managers and customers<br>about unusual transactions.   |  |
|   | •   | Decisions across a group on<br>whether to keep or exit high<br>risk relationships are <b>consist-</b><br><b>ent</b> and in line with the firm's<br>overall risk appetite or as-<br>sessment.   | • The firm focuses too much on reputational or business issues when deciding whether to exit relationships with a high money laundering risk.  |  |
|   |   |  | • The firm makes no enquiries<br>when accounts are used for<br>purposes <b>inconsistent with ex-</b><br><b>pected</b> activity (e.g. personal<br>accounts being used for<br>business). |  |
|   | See regulation 33(1) of the Money Laundering Regulations.   |  |  |  |
|   | Lia   | aison with law enforcement   |  |  |
| G | Firms must have a <b>nominated officer</b> . The nominated officer has a legal obligation to <b>report any knowledge or suspicions</b> of money laundering to the National Crime Agency (NCA) through a 'Suspicious Activity Report', also known as a 'SAR'. (See <b>FCG</b> Annex 1 list of common terms for more information about nominated officers and Suspicious Activity Reports.) |  |  |  |
|   | of<br>or<br>in  |  | her a report to NCA is necessary based<br>al. Law enforcement agencies may seek<br>istomer, often through the use of   |  |
|   | Self-assessment questions:  |  |  |  |

•Is it clear who is **responsible** for different types of liaison with the authorities?

## FCG 3 : Money laundering and terrorist financing

|   |      | •How does the <b>decision-making</b> process related to <b>SARs</b> work in the firm?   |          |  |  |  |
|---|------|---|----------|--|--|--|
|   |      | •Are procedures clear to staff?   |          |  |  |  |
|   |      | •Do staff report suspicions to the <b>nominated officer</b> ? If not, does the nominated officer take steps to identify why reports are not being made? How does the nominated officer deal with reports received?        |          |  |  |  |
|   |      | •What evidence is there of the rationale <b>underpinning decisions</b> about whether a SAR is justified?  |          |  |  |  |
|   |      | •Is there a documented proces with clear timetables?  | s for re | esponding to <b>Production Orders</b> ,  |  |  |
|   | Exar | nples of good practice  | Exam     | ples of poor practice  |  |  |
|   | •    | All staff understand proced-<br>ures for escalating suspicions<br>and follow them as required.  | •        | The nominated officer <b>passes</b><br>all internal reports to NCA<br>without considering whether<br>they truly are suspicious.<br>These 'defensive' reports are<br>likely to be of little value.            |  |  |
|   | •    | The firm's <b>SARs</b> set out a clear<br>narrative of events and in-<br>clude detail that law enforce-<br>ment authorities can use (e.g.<br>names, addresses, passport<br>numbers, phone numbers, em-<br>ail addresses). | •        | The nominated officer <b>dis-<br/>misses concerns</b> escalated by<br>staff without reasons being<br>documented.   |  |  |
|   | •    | SARs set out the reasons for<br>suspicion in <b>plain English</b> .<br>They include some context on<br>any previous related SARs ra-<br>ther than just a cross-<br>reference.   | •        | The firm <b>does not train</b> staff<br>to make internal reports,<br>thereby exposing them to per-<br>sonal legal liability and in-<br>creasing the risk that suspi-<br>cious activity goes un-<br>reported. |  |  |
|   | •    | There is a clear process for <b>documenting</b> decisions.  | •        | The nominated officer <b>turns a</b><br><b>blind eye</b> where a SAR might<br>harm the business. <b>This could</b><br><b>be a criminal offence</b> .   |  |  |
|   | •    | A firm's processes for dealing<br>with suspicions reported to it<br>by <b>third party administrators</b><br>are clear and effective.  | •        | A firm provides extraneous<br>and irrelevant detail in re-<br>sponse to a <b>Production Order</b> .  |  |  |
|   |      | egulation 21 of the <i>Money Laund</i><br>POCA and s.21A of the Terrorism   |          | <i>Regulations</i> and s.330 POCA and 000.   |  |  |
|   | Reco | rd keeping and reliance on  | othe     | rs   |  |  |

laundering and terrorist financing. Regulation 40(5) requires that any data collected is deleted after these periods. Regulation 41 also sets out that personal data collected under the *Money Laundering Regulations* should only be processed for the purposes of preventing money laundering or terrorist financing.

Self-assessment questions:

•Can your firm retrieve records **promptly** in response to a Production Order?

•If the firm **relies on others** to carry out AML checks (see 'Reliance' in FCG Annex 1), is this within the limits permitted by the *Money Laundering Regulations*? How does it satisfy itself that it can rely on these firms?

| Examples of good practice   | Examples of poor practice   |
|---|---|
| <ul> <li>Records of customer ID and<br/>transaction data can be re-<br/>trieved quickly and without<br/>delay.</li> </ul>   | • The firm keeps customer re-<br>cords and related information<br>in a way that <b>restricts</b> the<br><b>firm's access</b> to these records<br>or their timely sharing with<br>authorities. |
| • Where the firm routinely re-<br>lies on checks done by a third<br>party (for example, a fund pro-<br>vider relies on an IFA's<br>checks), it <b>requests sample</b><br><b>documents</b> to test their re-<br>liability. | • A firm cannot access CDD and related records for which it has relied on a third party. <b>This breaches the</b> <i>Money Laundering Regulations.</i>  |
|   | <ul> <li>Significant proportions of<br/>CDD records cannot be re-<br/>trieved in good time.</li> </ul>  |
|   | • The firm has not considered whether a <b>third party</b> consents to being relied upon.   |
|   | • There are <b>gaps</b> in customer re-<br>cords, which cannot be<br>explained.   |

See regulations 28(16), 40 and 40(7) of the Money Laundering Regulations.

### Countering the finance of terrorism

3.2.12

G

Firms have an important role to play in providing information that can assist the authorities with counter-terrorism investigations. Many of the controls firms have in place in relation to terrorism will overlap with their anti-money laundering measures, covering, for example, risk assessment, customer due diligence checks, transaction monitoring, escalation of suspicions and liaison with the authorities.

Self-assessment questions:

•How have **risks** associated with terrorist finance been assessed? Did assessments consider, for example, risks associated with the customer base, geographical locations, product types, distribution channels, etc.?

•Is it clear who is responsible for **liaison with the authorities** on matters related to countering the finance of terrorism? (See ■ FCG 3.2.10G)

| Exar   | nples of good practice  | Exam  | ples of poor practice  |
|--|---|---|--|
| •  | The firm has and uses an ef-<br>fective <b>process</b> for liaison with<br>the authorities.   | •   | Financial crime <b>training</b> does<br>not mention terrorist<br>financing.  |
| •  | A firm identifies <b>sources of in-</b><br><b>formation</b> on terrorist finan-<br>cing risks: e.g. press reports,<br>NCA alerts, Financial Action<br>Task Force typologies, court<br>judgements, etc.  | •   | A firm doing cross-border business has not assessed terror-<br>ism-related risks in <b>countries</b><br>in which it has a presence or<br>does business.  |
| •  | This information informs the design of <b>transaction mon-</b><br><b>itoring systems</b> .  | •   | A firm has not considered if<br>its approach to <b>customer due</b><br><b>diligence</b> is able to capture in<br>formation relevant to the<br>risks of terrorist finance.  |
| •  | Suspicions raised within the firm inform its own <b>ty-</b><br><b>pologies</b> .  |   |  |

|          | •These failings were particularly serious given that the firm did business over the internet and had customers from higher risk jurisdictions.  |
|----------|---|
|          | •The firm failed to ensure that resources in its compliance and anti-<br>money laundering areas kept pace with the firm's significant growth.   |
|          | Alpari's former money laundering reporting officer was also fined £14,000 for failing to fulfil his duties.   |
|          | See the FSA's press release for more information: www.fsa.gov.uk/pages/<br>Library/Communication/PR/2010/077.shtml  |
|          | Case studies – wire transfer failures   |
| 3.2.15 G | A UK bank that falls short of our expectations when using payment messages does not just risk <i>FCA</i> enforcement action or prosecution; it can also face criminal sanctions abroad.   |
|          | In January 2009, Lloyds TSB agreed to pay US\$350m to US authorities after<br>Lloyds offices in Britain and Dubai were discovered to be deliberately<br>removing customer names and addresses from US wire transfers connected<br>to countries or persons on US sanctions lists. The US Department of Justice<br>concluded that Lloyds TSB staff removed this information to ensure<br>payments would pass undetected through automatic filters at American<br>financial institutions. See its press release: www.usdoj.gov/opa/pr/2009/<br>January/09-crm-023.html.                                    |
|          | In August 2010, Barclays Bank PLC agreed to pay US\$298m to US authorities after it was found to have implemented practices designed to evade US sanctions for the benefit of sanctioned countries and persons, including by stripping information from payment messages that would have alerted US financial institutions about the true origins of the funds. The bank self-reported the breaches, which took place over a decade-long period from as early as the mid-1990s to September 2006. See the US Department of Justice's press release: www.justice.gov/opa/pr/2010/August/10-crm-933.html. |
|          | Case study – poor AML controls: PEPs and high risk customers  |
| 3.2.16 G | The FSA fined Coutts & Company £8.75 million in March 2012 for poor AML systems and controls. Coutts failed to take reasonable care to establish and maintain effective anti-money laundering systems and controls in relation to their high risk customers, including in relation to customers who are Politically Exposed Persons.  |
|          | •Coutts failed adequately to assess the level of money laundering risk posed by prospective and existing high risk customers.   |
|          | •The firm failed to gather sufficient information to establish their<br>high risk customers' source of funds and source of wealth, and to<br>scrutinise appropriately the transactions of PEPs and other high risk<br>accounts.   |
|          | •The firm failed to ensure that resources in its compliance and anti-<br>money laundering areas kept pace with the firm's significant growth.   |
|          | These failings were serious, systemic and were allowed to persist for almost three years. They were particularly serious because Coutts is a high profile   |

### FCG 3 : Money laundering and terrorist financing

bank with a leading position in the private banking market, and because the weaknesses resulted in an unacceptable risk of handling the proceeds of crime.

This was the largest fine yet levied by the FSA for failures related to financial crime.

See the FSA's press release for more information: www.fsa.gov.uk/library/ communication/pr/2012/032.shtml

### Poor AML controls: risk assessment

3.2.17

G

The FSA fined Habib Bank AG Zurich £525,000, and its MLRO £17,500, in May 2012 for poor AML systems and controls.

Habib Bank AG Zurich failed adequately to assess the level of money laundering risk associated with its business relationships. For example, the firm excluded higher risk jurisdictions from its list of high risk jurisdictions on the basis that it had group offices in them.

•Habib Bank AG Zurich failed to conduct timely and adequate enhanced due diligence on higher risk customers by failing to gather sufficient information and supporting evidence

•The firm also failed to carry out adequate reviews of its AML systems and controls.

•The MLRO failed properly to ensure the establishment and maintenance of adequate and effective anti- money laundering risk management systems and controls.

See the FSA's press release for more information: www.fsa.gov.uk/library/ communication/pr/2012/055.shtml
