

## Chapter 2

# Short selling

## 2.5 Measures to prohibit, restrict or limit transactions in short selling

### Approach to imposing measures

- 2.5.1** **G** The *FCA* is required by article 23 of the *short selling regulation* to consider whether to impose measures to prohibit or restrict short selling or otherwise limit transactions in a *financial instrument* on a *trading venue* where the price of that *financial instrument* on that *trading venue* has fallen significantly during a single *trading day* in relation to the closing price on that venue on the previous *trading day*. In fulfilling this obligation, the *FCA* will assess:
- (1) whether the price fall is or may become disorderly; and, if so in either case,
  - (2) whether the imposition of measures to prohibit, restrict or limit transactions will prevent a further disorderly decline in the price of the *financial instrument*.
- 2.5.2** **G** The *FCA* will assess whether the price fall in a *financial instrument* on a *trading venue* is or may become disorderly having regard to at least the following factors:
- (1) whether there have been violent movements in the price of the particular *financial instrument* on a particular *trading venue*, including any sudden or significant movements in price of a *financial instrument* during the *trading day*;
  - (2) whether there is evidence of unusual or improper trading in the *financial instrument* on a particular *trading venue* which could indicate that there was pressure to set the price of the *financial instrument* at a level that would be considered abnormal for that *financial instrument*; and
  - (3) whether there are unsubstantiated rumours or dissemination of false or misleading information regarding the *financial instrument*.
- The list above is not exhaustive and the *FCA* will consider such other factors as it considers appropriate.
- 2.5.3** **G** The *FCA* may consider that the price fall in a *financial instrument* is not disorderly, for example, if the *FCA* considers that there is legitimate cause for a price fall in trading, such as the announcement of poor financial results.

- 2.5.4 **G** The *FCA* will consider at least the following factors when assessing whether measures to prohibit or restrict short selling or otherwise limit transactions are necessary or likely to prevent a further disorderly decline in the price of the *financial instrument*:
- (1) the volume of trading in that *financial instrument* on the *trading venue* as compared with the total trading volume in the *financial instrument* over at least that *trading day*; and
  - (2) whether the price of the *financial instrument* has stabilised after the significant fall in price.
- The list above is not exhaustive and the *FCA* will consider such other factors as it considers appropriate.
- 2.5.5 **G** Where the *FCA* imposes measures under article 23 of the *short selling regulation* it will normally specify that the measures will not apply to natural or legal persons who have satisfied the criteria to use the *market maker exemption* or the *authorised primary dealer exemption* and who are included on the list maintained and published by the *FCA* pursuant to article 17(13) of the *short selling regulation*.
- Exchange rate calculations**
- 2.5.6 **G**
- (1) For the purposes of article 23(1)(b) of the *SSR Delegated Regulation 2* the *FCA* will convert the figure of EUR 0.50 into pounds sterling using the daily spot foreign exchange rate of Sterling to Euro of the Bank of England applicable at the end of the first *business day* of October 2012 rounded up to the nearest £0.01. The *FCA* will state this figure (the 'sterling figure') on its public website.
  - (2) The rate will be calculated on the same basis at the end of the first *business day* of October every subsequent year, unless the situation in (3) occurs in the intervening period, in which case the *FCA* will recalculate the sterling figure.
  - (3) The situation referred to in (2) is if the daily spot foreign exchange rate of the Bank of England of Sterling to Euro fluctuates for a period of 20 consecutive *business days* by more than 10% from the rate last used to calculate the sterling figure.
  - (4) If the situation in (3) occurs more than once in a year, the *FCA* will convert the figure of EUR 0.50 into pounds sterling using the daily spot foreign exchange rate of Sterling to Euro of the Bank of England applicable at the end of the 20th *business day* of the period referred to in (3).
- 2.5.7 **G** The *FCA* will treat the FTSE 100 index as the main national equity index of the *United Kingdom* for the purposes of article 6(4) of the *SSR Implementing Regulation* and article 23(1) of the *SSR Delegated Regulation 20*.
