10. The information contained in the base prospectus shall, where necessary, be supplemented in accordance with Article 23.

Risk factors

2.3.3

UK

Article 16(1) to (3) of the *Prospectus Regulation* provides for the format and content of the risk factors to be included in a *prospectus*:

Article 16

Risk factors

1. The risk factors featured in a prospectus shall be limited to risks which are specific to the issuer and/or to the securities and which are material for taking an informed investment decision, as corroborated by the content of the registration document and the securities note.

When drawing up the prospectus, the issuer, the offeror or the person asking for admission to trading on a regulated market shall assess the materiality of the risk factors based on the probability of their occurrence and the expected magnitude of their negative impact.

Each risk factor shall be adequately described, explaining how it affects the issuer or the securities being offered or to be admitted to trading. The assessment of the materiality of the risk factors provided for in the second subparagraph may also be disclosed by using a qualitative scale of low, medium or high.

The risk factors shall be presented in a limited number of categories depending on their nature. In each category the most material risk factors shall be mentioned first according to the assessment provided for in the second subparagraph.

2. Risk factors shall also include those resulting from the level of subordination of a security and the impact on the expected size or timing of payments to holders of the securities in the event of

bankruptcy, or any other similar procedure, including, where relevant, the insolvency of a credit institution or its resolution or restructuring in accordance with the UK law which implemented [RRD].

3. Where there is a guarantee attached to the securities, the prospectus shall contain the specific and material risk factors pertaining to the guarantor to the extent that they are relevant to the guarantor’s ability to fulfil its commitment under the guarantee.

That requirement shall not apply to hyperlinks to information that is incorporated by reference.

2.4 Universal registration document

Universal registration document

2.4.1

UK

Article 9(1) to (13) of the *Prospectus Regulation* provides:

Article 9

The universal registration document

1.Any issuer whose securities are admitted to trading on a regulated market or an MTF may draw up every financial year a registration document in the form of a universal registration document describing the company's organisation, business, financial position, earnings and prospects, governance and shareholding structure.

2.Any issuer that chooses to draw up a universal registration document every financial year shall submit it for approval to the competent authority in accordance with the procedure set out in Article 20(2) and (4).

After the issuer has had a universal registration document approved by the competent authority for two consecutive financial years, subsequent universal registration documents may be filed with the competent authority without prior approval.

Where the issuer thereafter fails to file a universal registration document for one financial year, the benefit of filing without prior approval shall be lost and all subsequent universal registration documents shall be submitted to the competent authority for approval until the condition set out in the second subparagraph is met again.

The issuer shall indicate in its application to the competent authority whether the universal registration document is submitted for approval or filed without prior approval.

3.Issuers which, prior to 21 July 2019, have had a registration document, drawn up in accordance with Annex I to [the *PD Regulation*], approved by the competent authority for at least two consecutive financial years and have thereafter filed, in accordance with Article 12(3) of [the *PD*], or got approved such a registration document every year, shall be allowed to file a universal registration document without prior approval in accordance with the second subparagraph of paragraph 2 of this Article from 21 July 2019.

4.Once approved or filed without prior approval, the universal registration document, as well as the amendments thereto referred to in paragraphs 7 and 9 of this Article, shall be made available to

the public without undue delay, in accordance with the arrangements set out in Article 21.

6. Information may be incorporated by reference into a universal registration document under the conditions set out in Article 19.

7. Following the filing or approval of a universal registration document, the issuer may at any time update the information it contains by filing an amendment thereto with the competent authority. Subject to the first and second subparagraphs of Article 10(3), the filing of the amendment with the competent authority shall not require approval.

8. The competent authority may at any time review the content of any universal registration document which has been filed without prior approval, as well as the content of any amendments thereto.

The review by the competent authority shall consist in scrutinising the completeness, the consistency and the comprehensibility of the information given in the universal registration document and any amendments thereto.

9. Where the competent authority, in the course of the review, finds that the universal registration document does not meet the standards of completeness, comprehensibility and consistency, or that amendments or supplementary information are needed, it shall notify it to the issuer.

A request for amendment or supplementary information addressed by the competent authority to the issuer needs only be taken into account by the issuer in the next universal registration document filed for the following financial year, except where the issuer wishes to use the universal registration document as a constituent part of a prospectus submitted for approval. In that case, the issuer shall file an amendment to the universal registration document at the latest upon submission of the application referred to in Article 20(6).

By way of derogation from the second subparagraph, where the competent authority notifies the issuer that its request for amendment or supplementary information concerns a material omission or a material mistake or material inaccuracy, which is likely to mislead the public with regard to facts and circumstances essential for an informed assessment of the issuer, the issuer shall file an amendment to the universal registration document without undue delay.

The competent authority may request that the issuer produces a consolidated version of the amended universal registration document, where such a consolidated version is necessary to ensure comprehensibility of the information provided in that document. An issuer may voluntarily include a consolidated version of its amended universal registration document in an annex to the amendment.

10. Paragraphs 7 and 9 shall only apply where the universal registration document is not in use as a constituent part of a prospectus. Whenever a universal registration document is in use as a constituent part of a prospectus, only Article 23 on supplementing the prospectus shall apply between the time when the prospectus is approved and the final closing of the offer of securities to the public

or, as the case may be, the time when trading on a regulated market begins, whichever occurs later.

11. An issuer fulfilling the conditions set out in the first or second subparagraph of paragraph 2 or in paragraph 3 of this Article shall have the status of frequent issuer and shall benefit from the faster approval process in accordance with Article 20(6), provided that:

- (a) upon the filing or submission for approval of each universal registration document, the issuer provides written confirmation to the competent authority that, to the best of its knowledge, all regulated information which it was required to disclose under the UK law which implemented [the *Transparency Directive*], if applicable, and under Regulation (EU) No 596/2014 has been filed and published in accordance with those acts over the last 18 months or over the period since the obligation to disclose regulated information commenced, whichever is the shorter; and
- (b) where the competent authority has undertaken a review as referred to in paragraph 8, the issuer has amended its universal registration document in accordance with paragraph 9.

Where any of the above conditions is not fulfilled by the issuer, the status of frequent issuer shall be lost.

12. Where the universal registration document filed with or approved by the competent authority is made public at the latest four months after the end of the financial year, and contains the information required to be disclosed in the annual financial report referred to in [■ DTR 4.1], the issuer shall be deemed to have fulfilled its obligation to publish the annual financial report required under that Article.

Where the universal registration document, or an amendment thereto, is filed or approved by the competent authority and made public at the latest three months after the end of the first six months of the financial year, and contains the information required to be disclosed in the half-yearly financial report referred to in [■ DTR 4.2], the issuer shall be deemed to have fulfilled its obligation to publish the half-yearly financial report required under that Article.

In the cases referred to in the first and second subparagraph, the issuer:

- (a) shall include in the universal registration document a cross reference list identifying where each item required in the annual and half-yearly financial reports can be found in the universal registration document;
- (b) shall file the universal registration document in accordance with Article 19(1) of [the *Transparency Directive*] and make it available to the officially appointed mechanism referred to in Article 21(2) of that Directive;

Where only certain parts of a document are incorporated by reference, a statement shall be included in the prospectus that the non-incorporated parts are either not relevant for the investor or covered elsewhere in the prospectus.

[Note: “Regulated information” is defined in the *Prospectus Regulation* as information defined in point (k) of article 2(1) of the *Transparency Directive*.]

2. When incorporating information by reference, issuers, offerors or persons asking for admission to trading on a regulated market shall ensure accessibility of the information. In particular, a cross-reference list shall be provided in the prospectus in order to enable investors to identify easily specific items of information, and the prospectus shall contain hyperlinks to all documents containing information which is incorporated by reference.

Where possible alongside the first draft of the prospectus submitted to the competent authority, and in any case during the prospectus review process, the issuer, the offeror or the person asking for admission to trading on a regulated market shall submit in searchable electronic format any information which is incorporated by reference into the prospectus, unless such information has already been approved by or filed with the competent authority approving the prospectus.

2.8 Omission of information

Omission of information

2.8.1

UK

Article 18(1) to (3) of the *Prospectus Regulation* provides for the circumstances in which certain information may be omitted from the *prospectus*:

Article 18

Omission of information

1.The competent authority may authorise the omission from the prospectus, or constituent parts thereof, of certain information to be included therein, where it considers that any of the following conditions is met:

(a)disclosure of such information would be contrary to the public interest;

(b)disclosure of such information would be seriously detrimental to the issuer or to the guarantor, if any, provided that the omission of such information would not be likely to mislead the public with regard to facts and circumstances essential for an informed assessment of the issuer or guarantor, if any, and of the rights attached to the securities to which the prospectus relates;

(c)such information is of minor importance in relation to a specific offer or admission to trading on a regulated market and would not influence the assessment of the financial position and prospects of the issuer or guarantor, if any.

2.Subject to adequate information being provided to investors, where, exceptionally, certain information required to be included in a prospectus, or constituent parts thereof, is inappropriate to the sphere of activity or to the legal form of the issuer or of the guarantor, if any, or to the securities to which the prospectus relates, the prospectus, or constituent parts thereof, shall contain information equivalent to the required information, unless no such information exists.

3.Where securities are guaranteed by a state, an issuer, an offeror or a person asking for admission to trading on a regulated market, when drawing up a prospectus in accordance with Article 4, shall be entitled to omit information pertaining to that state.

Request to omit information

2.8.2

G

Article 42(2) of the *PR Regulation* sets out requirements regarding the submission of requests to omit information from a prospectus. The *FCA* considers that a reasoned request for this purpose would:

- (1) be in writing from the *applicant*;
- (2) identify the specific information concerned and the reasons for its omission; and
- (3) State why in the *applicant's* opinion one or more of the grounds in article 18(1) of the *Prospectus Regulation* applies.

3.1 Approval of prospectus

Criteria for scrutiny and approval of prospectus

3.1.1

UK

Chapter V of the *PR Regulation* sets out requirements regarding scrutiny and approval of the *prospectus* and review of the *universal registration document*:

Article 35

Scope of the scrutiny

For the purposes of the scrutiny of the prospectus and the review of the universal registration document, references to the prospectus shall mean the prospectus or any of its constituent parts, including a universal registration document whether submitted for approval or filed without prior approval and any amendments thereto as well as supplements to the prospectus.

Article 36

Criteria for the scrutiny of the completeness of the information contained in the prospectus

1. For the purposes of scrutinising the completeness of the information in a draft prospectus, the competent authority shall consider all of the following:

- (b) whether the issuer has a complex financial history or has made a significant financial commitment, as referred to in Article 18.

2. For the purposes of point (b) of paragraph 1, the competent authority may require the issuer to include, modify or remove information from a draft prospectus, taking into account the following:

- (a) the type of securities;
- (b) the information already included in the prospectus and the existence and content of information already included in a prospectus of the entity other than the issuer, as well as the applicable accounting and auditing principles;
- (c) the economic nature of the transactions by which the issuer has acquired, or disposed of, its undertaking or any part of it, and the specific nature of that undertaking;

(d) whether the issuer can obtain with reasonable effort information about the entity other than the issuer.

Article 37

Criteria for the scrutiny of the comprehensibility of the information contained in the prospectus

1. For the purposes of scrutinising the comprehensibility of the information in a draft prospectus, the competent authority shall consider all of the following:

- (a) whether the draft prospectus has a clear and detailed table of contents;
- (b) whether the draft prospectus is free from unnecessary reiterations;
- (c) whether related information is grouped together;
- (d) whether the draft prospectus uses an easily readable font size;
- (e) whether the draft prospectus has a structure that enables investors to understand its contents;
- (f) whether the draft prospectus defines the components of mathematical formulas and, where applicable, clearly describes the product structure;
- (g) whether the draft prospectus is written in plain language;
- (h) whether the draft prospectus clearly describes the nature of the issuer's operations and its principal activities;
- (i) whether the draft prospectus explains trade or industry specific terminology.

However, the competent authority shall not be required to consider points (g), (h) and (i) where a draft prospectus is to be used exclusively for the purposes of admission to trading on a regulated market of non-equity securities for which a summary is not required by Article 7 of [the *Prospectus Regulation*].

2. For the purposes of the first paragraph, the competent authority may, on a case-by-case basis and in addition to the information referred to in Article 7 of [the *Prospectus Regulation*] and Article 33 of this Regulation, require that certain information provided in the draft prospectus be included in the summary.

Article 38

Criteria for the scrutiny of the consistency of the information contained in the prospectus

For the purposes of scrutinising the consistency of the information in a draft prospectus, the competent authority shall consider all of the following:

- (a) whether the draft prospectus is free of material discrepancies between the different pieces of information provided therein, including any information incorporated by reference;
- (b) whether any material and specific risks disclosed elsewhere in the draft prospectus are included in the risk factors section;

(c) whether the information in the summary is in line with information elsewhere in the draft prospectus;

(d) whether any figures on the use of proceeds correspond to the amount of proceeds being raised and whether the disclosed use of proceeds is in line with the disclosed strategy of the issuer;

(e) whether the description of the issuer in the operating and financial review, the historical financial information, the description of the issuer's activity and the description of the risk factors are consistent;

(f) whether the working capital statement is in line with the risk factors, the auditor's report, the use of proceeds and the disclosed strategy of the issuer and how that strategy will be funded.

Article 39

Scrutiny of the information contained in the prospectus of specialist issuers

The competent authority may require additional information to be included in the prospectus based on the activities of the specialist issuers falling under one of the categories set out in Annex 29.

Article 40

Additional criteria for the scrutiny of the completeness, consistency and comprehensibility of the information contained in the prospectus

Where necessary for investor protection, the competent authority may apply criteria in addition to those laid down in Articles 36, 37 and 38 for the purposes of scrutinising the completeness, comprehensibility and consistency of the information in the draft prospectus.

Article 41

Proportionate approach in the scrutiny of draft prospectuses and review of the universal registration document

1. Where a first draft of a prospectus that is submitted to the competent authority is substantially similar to a prospectus that the competent authority has already approved, and where that draft prospectus highlights all changes made to that approved prospectus, the competent authority shall only be required to apply the criteria laid down in Articles 36, 37 and 38 to scrutinise those changes and any other information affected by them.

2. For the purposes of scrutinizing a universal registration document filed without prior approval that has already been reviewed, or an amendment to such a document, the competent authority shall only be required to apply the criteria laid down in Article 36, 37 and 38 to those parts of the universal registration document or the amendment that have not been reviewed.

5. Where subsequent drafts of the prospectus are submitted to the competent authority, that competent authority, when scrutinising such subsequent drafts, shall only be required to apply the criteria laid down in Articles 36, 37 and 38 to changes made to the preceding draft and to any other information affected by those changes.

Article 44

Article 23(1) to (6) of the *Prospectus Regulation* provides for requirements applicable to *supplementary prospectuses*:

Article 23

Supplements to the prospectus

1. Every significant new factor, material mistake or material inaccuracy relating to the information included in a prospectus which may affect the assessment of the securities and which arises or is noted between the time when the prospectus is approved and the closing of the offer period or the time when trading on a regulated market begins, whichever occurs later, shall be mentioned in a supplement to the prospectus without undue delay.

Such a supplement shall be approved in the same way as a prospectus in a maximum of five working days and published in accordance with at least the same arrangements as were applied when the original prospectus was published in accordance with Article 21. The summary shall also be supplemented, where necessary, to take into account the new information included in the supplement.

2. Where the prospectus relates to an offer of securities to the public, investors who have already agreed to purchase or subscribe for the securities before the supplement is published shall have the right, exercisable within two working days after the publication of the supplement, to withdraw their acceptances, provided that the significant new factor, material mistake or material inaccuracy referred to in paragraph 1 arose or was noted before the closing of the offer period or the delivery of the securities, whichever occurs first. That period may be extended by the issuer or the offeror. The final date of the right of withdrawal shall be stated in the supplement.

The supplement shall contain a prominent statement concerning the right of withdrawal, which clearly states:

- (a) that a right of withdrawal is only granted to those investors who had already agreed to purchase or subscribe for the securities before the supplement was published and where the securities had not yet been delivered to the investors at the time when the significant new factor, material mistake or material inaccuracy arose or was noted;

(b)the period in which investors can exercise their right of withdrawal; and

(c)whom investors may contact should they wish to exercise the right of withdrawal.

The financial intermediary shall contact investors on the day when the supplement is published.

Where the securities are purchased or subscribed directly from the issuer, that issuer shall inform investors of the possibility of a supplement being published and where it would be published and that in such case, they could have a right to withdraw the acceptance.

4.Where the issuer prepares a supplement concerning information in the base prospectus that relates to only one or several individual issues, the right of investors to withdraw their acceptances pursuant to paragraph 2 shall only apply to the relevant issue(s) and not to any other issue of securities under the base prospectus.

5.In the event that the significant new factor, material mistake or material inaccuracy referred to in paragraph 1 concerns only the information contained in a registration document or a universal registration document and that registration document or universal registration document is simultaneously used as a constituent part of several prospectuses, only one supplement shall be drawn up and approved. In that case, the supplement shall mention all the prospectuses to which it relates.

6.When scrutinising a supplement before approval, the competent authority may request that the supplement contains a consolidated version of the supplemented prospectus, registration document or universal registration document in an annex, where such consolidated version is necessary to ensure comprehensibility of the information given in the prospectus. Such a request shall be deemed to be a request for supplementary information under Article 20(4). An issuer may in any event voluntarily include a consolidated version of the supplemented prospectus, registration document or universal registration document in an annex to the supplement.
