BANK AND BUILDING SOCIETY REPORTING CHANGES INSTRUMENT 2004

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (the "Act"):
 - (1) section 138 (General rule-making power);
 - (2) section 156 (General supplementary powers); and
 - (3) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).

Commencement

C. This instrument comes into force on 1 March 2004.

Amendments to the Supervision manual

D. The Supervision manual is amended in accordance with the Annexes A to C to this instrument.

Citation

E. This instrument may be cited as the Bank and Building Society Reporting Changes Instrument 2004.

By Order of the Board 15 January 2004

Annex A

Amendments to the Supervision manual

In this Annex, underlining indicates new text and striking through indicates deleted text.

16.7.12R Table: Financial reports from a bank established outside the EEA (see SUP 16.7.11R):

Content of report	Form (Note)	Frequency	Due date
Annual report and audited accounts, in English	<u>N/A</u>	<u>Annually</u>	9 months after the firm's accounting reference date

Method of submission

- 16.7.13R A *bank*, other than an *EEA bank* with *permission* for *cross-border services* only, must submit the reports described in *SUP* 16.7.8R, *SUP* 16.7.10R and *SUP* 16.7.12R to the following
 - (1)

...

• • •

16.7.15R Electronic submission to the Bank of England

A *bank* must submit the reports referred to in *SUP* 16.7.13R(1) either:

- (1) on paper by *post*, or by hand delivery to the Bank of England on any *business day* between 9am and 5pm; or
- (2) in electronic format using the specifications for the Bank of England Reporting System and sent either:
 - (a) by the AT&T Global Network to one of the addresses specified in the above specification; or
 - (b) by e-mail to mfsd_beers@bofe.co.uk; or
 - (c) on computer diskette but to paper reporting deadlines <u>by post</u>, or by hand delivery to the Bank of England on any <u>business</u> <u>day between 9am and 5pm</u>.

...

- 16.7.19R A *building society* must submit the reports in *SUP* 16.7.17R (other than the "analysis of interest rate gap") either:
 - (1) by means of the Remote Data Entry system supplied by the *FSA* (and previously the Building Societies Commission); or, should

this be inoperable,

- (2) by post or fax to the address in *SUP* 16.3.10R using:
 - (a) the pre-printed forms supplied by the FSA for that purpose the corresponding forms available from the *FSA*'s website; or
 - (b) its own version of the *FSA*'s specified forms, provided that the version is equivalent in terms of content and layout.

Notwithstanding a paper submission in accordance with (2), once the Remote Data Entry system is operable again, the reports must be submitted by its means.

SUP16, Ann 2G: Guidance notes on completion of banks' reporting forms (including validations)

• • •

Analysis of Profits, Large Exposures and Certain Other Miscellaneous Information (Form B7)

• • •

1.6 Other operating income

...

Investment securities are defined as securities intended for use on a continuing basis in the activities of the bank, but securities should not be treated as investment securities unless they are held for identified purpose and the securities held are clearly identifiable. From March 2004, no further breakdown of this figure is needed. Amounts within other operating income that represent more than 5% of the total income figure (item 1) should be entered in items 1.6A, 1.6B and 1.6C in descending order of size. Ignore further items if there are more than three breaking the 5% limit.

•••

2.7 Other operating charges

Include here those items of expenditure which do not fall within items 2.1 to 2.56. <u>No further</u> breakdown of this figure is needed from March 2004. Amounts within other operating charges which represent more than 5% of the total expenditure figure (item 2) should be entered in items 2.7A, 2.7B and 2.7C in descending order of size. Ignore further items if there are more than three breaking the 5% limit.

• • •

LARGE EXPOSURES

11 Twenty largest exposures to banks and building societies

<u>From March 2004, this item should not be completed.</u>List in descending order of magnitude (ie the largest exposure first) the twenty largest credit exposures to banks and building societies. The listing should commence on line 11A. Each large exposure should only be

reported once, at the top level. The total of each column of the large exposures should be entered on the first line.

For the definitions of exposures and counterparties which should be used (see SGN9 to SGN13), for banks, see SGN20 (excluding investment firms).

Exposures of up to and including 1 year remaining maturity at the reporting date should be reported in column 4.

For interest rate and foreign exchange rate contracts, the amounts at risk should be reported as the "credit equivalent amount" using the same basis of valuation as in item 9.

12 Twenty largest exposures to other counterparties

<u>From March 2004, this item should not be completed.</u>List in descending order of magnitude (ie the largest exposure first) the twenty largest credit exposures to counterparties other than those covered in item 11 (both UK and overseas). Include the non-bank private sector, central banks, international organisations (including regional development banks and the Bank for International Settlements (BIS)), and the UK and overseas public sectors. The listing should commence on line 12A. Each large exposure should only be reported once, at the top level. The total of each column of the large exposures should be entered on the first line.

See SGN9 to SGN13, SGN18, SGN20 to SGN23.

Exposures of up to and including 1 year remaining maturity at the reporting date should be reported in column 4.

For interest rate and foreign exchange rate contracts, the amounts at risk should be reported as the "credit equivalent amount" using the same basis of valuation as in item 9.

Exposures should be valued in accordance with the Supervisory Guidance Notes, except that, in the circumstances below, the exposure should be measured as less than the nominal exposure. In reporting large exposures, credit balances should not be offset against debit balances unless consistent with Chapter NE (Collateral and netting) of the FSA Banking Supervisory Policy Guide or the Interim Prudential Sourcebook for Banks, whichever is current at the reporting date.

Underwriting commitments

The exposure arising from underwriting commitments should be taken as the full amount of the sum underwritten, less amounts of the issue which the reporting bank has subunderwritten with, or sold to, another counterparty.

BSD3 REPORTING INSTRUCTIONS

. . .

SECTION A: BANKING BOOK

• • •

A330 Encumbered assets

List in these lines any assets not freely available to meet the claims of the generality of creditors in a liquidation of the reporting institution because they are subject to charge, pledge or other restriction.

From March 2004, no further breakdown is needed for this item. So items A330.1 and A 330.2 should be zero. Under item A330.1, list the assets and the item number (indicating whether in the Banking Book or Trading Book) within the return to which they refer, which have been given as security in connection with the reporting institution's participation in a payments/settlements system such as CREST or Euroclear. The particular payments/settlements system should be listed with the liabilities being secured at the reporting date recorded under column 1. For the purposes of detailing the total amount of assets securing liabilities, assets pledged in excess of the actual liability to individual systems at the reporting date should not be reported.

Under item A330.2, list the assets and the item number on the return to which they refer, which have been given as security to secure the reporting institution's other liabilities (for example, property which has been mortgaged and hire purchase agreements pledged as collateral). Assets reported should exclude any element of unearned finance charges.

Total liabilities being secured at the reporting date (item A330, column 1) should equal the sum of items A330.1 and A330.2 below. Total assets at the reporting date securing liabilities reported in column 1 (item A330, column 2) will not necessarily equal the sum of items A330.1 and A330.2 below as any asset which is securing more than one creditor should not be double counted in the total.

. . .

A790 Subordinated term debt

...

Dated preference shares and subordinated, unsecured loan stocks of over 5 years' original maturity issued by the reporting institution should be shown after amortisation in item A790.2. From March 2004, no further breakdown of this figure is needed. So items A790.21 and A790.22 should be zero. The amount shown in item A790.2 should be further divided between items A790.21 and A790.22 as necessary in the relevant sub-total boxes. The amount of principal outstanding before amortisation should also be entered in the sub-total boxes in the "amount" column in the currency of repayment, which should be entered in the "currency" column. The "sterling equivalent" is then this amount converted to sterling at the current exchange rate for the currency concerned on the day of the report unless, via a subordinated swap or some other hedging mechanism that is an integral part of the original

preference share or subordinated loan stock agreement, the exchange rate has effectively been fixed - in which case that fixed rate may with be used. The reporting institution should obtain the FSA's agreement before doing this.

Individual stocks which are repayable in full on maturity should be listed in item A790.21 in lines a to e. Where there are more than five stocks issued (ie a to e) annotate the form "see attached list" in this section and attach a full list of such stocks. The amounts to be reported after amortisation are shown below and relate to the period between the date of the return and maturity date:

Years to maturity	<u>Amortised amount</u>
more than 4	<u>100% of nominal</u>
less than and including 4 but more than 3	80% of nominal
less than and including 3 but more than 2	<u>60% of nominal</u>
less than and including 2 but more than 1	40% of nominal
less than and including 1	20% of nominal

The amount of subordinated, unsecured loan stock should be multiplied by the amortisation values shown above. In the case of optional repayment dates the longest date should be used to determine the final maturity if the exercise of the option lies with the issuer, and the shortest date if with investors.

Report in item A790.22 in lines a to h the original outstanding value of individual stocks which are repayable in instalments. Where banks have more than 10 such holdings, they may aggregate the smallest holdings (by value) and record the total under A190.21j and A790.22j. The amortised amount shown should be agreed with the FSA.

BSD3-SECTION B: TRADING BOOK FOR SOLO BANK AND LINE BY LINE CONSOLIDATED ENTITIES

. . .

APPENDIX B-IV: COUNTERPARTY RISK ON REPOS AND REVERSE REPOS

• • •

Counterparty Risk On Documented Repos/Reverse Repos

• • •

When completing Lines 60 to 90 and Lines 110 to 140, it should be assumed that each individual repo or reverse repo cannot be over collateralised in the absence of netting any over-collateralisation should be shown. However, Regarding regarding repos (lines 60 to 90): if collateral held is worth more than 100% of the market value of the securities sold or lent, then the reported value of the collateral on that deal should be the same as the market value of the securities the figure reported as the amount at risk in Column 3 should be the higher of zero or the excess of Column 1 over Column 2. Excess collateral held for a repo with one counterparty should not offset a shortfall in collateral held for another repo with the same counterparty or another counterparty. Regarding reverse repos (lines 110 to 140): if the market value of securities bought or borrowed on a reverse repo is more than 100% of the

market value of the collateral given, the reported value of the securities on that deal should be the same as the market value of the collateral the figure reported as the amount at risk in Column 3 should be the higher of zero or the excess of column 1 over column 2. Excess securities received under a reverse repo with one counterparty should not offset a shortfall in securities received under another reverse repo with the same counterparty or another counterparty.

• • •

In both-all cases, Column 3 should be Column 1 minus Column 2 (or zero, in the case of items 60 to 90 and 110 to 140 if that is greater). The weighted amount in Column 5 should be the multiple of the amount at risk (Column 3) and the Weight (Column 4). Item 100 is the sum of the Weighted Amount (Column 5) in rows 60 to 90. Item 150 is the sum of the Weighted Amount (Column 5) in rows 110 to 140.

...

BSD SECTION C – CONSOLIDATION VIA AGGREGATION PLUS INTO THE TRADING BOOK

...

Column B Trigger Individual capital ratio applied

Where the *FSA*'s requirements are applied, the trigger individual capital ratio applied should be the consolidated Trading Book-trigger ratio individual capital ratio. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg, a ratio of 8.50% should be reported as 850).

•••

Column C Trigger Individual capital requirement

Institutions should report here for each subsidiary the total capital requirement set by the supervisor whose rules or requirements are applied. If the *FSA* requirements are applied, the capital charges should be calculated for the subsidiary in accordance with Chapters CS (Consolidated supervision) and CO (Capital adequacy overview) of the FSA Policy Guide/IPRU(BANK) and should be scaled up (ie the capital charge divided by 8% and multiplied by the trigger individual capital ratio) by the institution's consolidated Trading Book-trigger individual capital ratio.

If another (CAD-equivalent) supervisor's rules are applied, the capital requirement is the amount set by that supervisor. *FSA*'s consolidated Trading Book-trigger individual capital ratio should not be applied.

...

Column L Target capital requirement

<u>For *banks* which have been set a Trading Book individual capital requirement, this column should equal Column C.</u> Report here the capital requirement when the target ratio is applied. Where the *FSA* requirements are applied to a subsidiary, the capital requirements reported in Column C should be multiplied by the consolidated Trading Book target ratio and divided by the consolidated Trading Book trigger individual capital requirements for subsidiaries consolidated using local regulators' rules need not be scaled up.

BSD3 SECTION D: CAPITAL ADEQUACY SUMMARY

• • •

. . .

D50 Banking Book trigger individual capital ratio

This item equals the Banking Book-trigger individual capital ratio (formerly the trigger ratio) set by the *FSA*. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg, a ratio of 10.5% should be reported as 1050).

D60 Banking Book target ratio

Where an institution has had an individual capital ratio set by the *FSA*, this box should be left blank (ie zero). Prior to the introduction of individual capital ratios, Thisthis item-equals equalled the Banking Book target ratio set by the *FSA*. The ratio (ie percentage rounded to 2 decimal places) should be was multiplied by 100 and reported as integers (eg, a ratio of 12% should be reported as 1200).

. . .

D140 Trading Book trigger individual capital ratio

This is the Trading Book <u>individual capital trigger</u> ratio set by the FSA for CAD banks. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg, a ratio of 11% should be reported as 1100).

D150 Trading Book target ratio

Where an institution has a Trading Book individual capital This is the Trading Book target ratio set by the FSA for CAD banks-, this box should be left blank (ie zero). Prior to the introduction of Trading Book individual capital ratios, this item equalled the Trading Book target ratio set by the FSA. The ratio (ie percentage rounded to 2 decimal places) should be was multiplied by 100 and reported as integers (eg, a ratio of 11.50% should be reported as 1150).

• • •

D530 Trigger Individual capital adequacy ratio

This is the institution's capital adequacy relative to its <u>individual capital</u> trigger requirements. It is the ratio of the institution's adjusted capital base to its supervisory capital requirement according to the trigger individual capital ratios set by the FSA (or by the local regulator for entities consolidated using the aggregation plus methodology). The ratio is expressed as a percentage: an institution with a trigger an individual capital adequacy ratio less than 100 has insufficient capital to meet its regulatory requirements and it should contact its line supervisor immediately. This item should equal (item D490 multiplied by 100) and divided by item D500.

• • •

D540 Target capital adequacy ratio

This is the institution's capital adequacy relative to it supervisory target capital requirements. It is the ratio of the institution's adjusted capital base to its supervisory capital requirement according to the target ratios set by the FSA. The ratio is

expressed as a percentage: an institution with a target capital adequacy ratio less than 100 has insufficient capital to meet its regulatory requirements and it should contact its line supervisor immediately. This item should equal item D490 multiplied by 100 and divided by the sum of (item D70 multiplied by item D60/1000, item D150 divided by item D140 and multiplied by items [D220 plus D250], and item C30 column L).

The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg, a ratio of 105.35% should be reported as 110535).

For institutions where an individual capital ratio has been set by the *FSA* this item, like items D60 and D150, should be left blank (ie be zero).

M1 REPORTING INSTRUCTIONS

• • •

80 Holdings in excess of 10% of other credit and financial institutions' capital

<u>This is the value of all holdings in</u> List all credit and financial institutions in which the reporting institution has direct or indirect holdings which amount to more than 10% of the acquired institutions' capital; <u>this the</u> calculations may be based on information contained in public financial statements. Identify both the total value of the holdings and the amount by which they exceed 10% of the other credit or financial institutions' capital. <u>Details of individual holdings are not needed from March 2004</u>. Where banks have more than 10 such holdings, they may aggregate the smallest holdings (by value) and record the total under 80.10.

. . .

140 Five largest holdings in credit and financial institutions, at reporting date

<u>From March 2004, this item should be zero, as no details are needed</u> <u>thereafter.Include the five largest holdings (taking direct and indirect together) in</u> <u>credit and financial institutions, ranked by the value of holdings. Include holdings</u> <u>taken in the Banking and Trading Books. Include the name of the credit and financial</u> <u>institution and the book value of the reporting institution's holding. Banks may agree</u> <u>a de minimis reporting level with their line supervisor.</u>

Supervisory Guidance Notes (SGN)

- ... 3
- The reporting dates for the various supervisory returns are set out on the front of the individual forms and are summarised below. The reporting schedule for January 2001 to December 2001 is contained in Appendix I. detailed in *SUP* 16.7.

Frequency	Report	Reporting dates	Basis of reporting
Monthly	SLR1	Second Wednesday	Consolidated (unless agreed otherwise), UK banks
Quarterly	BSD3, M1	End calendar quarters, or at dates coinciding with the financial year end	Unconsolidated or solo consolidated, UK banks
	LE2	End calendar quarters, or at dates coinciding with the financial year end	Unconsolidated or solo consolidated and consolidated, UK-banks
	LR	End February, May, August and November for Form BT monthly reporter, or end calendar quarters for Form BT quarterly reporter	Unconsolidated including any overseas branches or solo-consolidated if capital and large exposures are reported on a solo- consolidated basis

			(UK banks), or business conducted by EEA banks and banks established outside the EEA
Half yearly	BSD3, M1	End June and December, or at dates coinciding with the financial year end	Consolidated, UK banks
	B7	End June and December, or at dates coinciding with accounting periods	UK branches of banks incorporated outside the EEA ⁴ (banks established outside the EEA)

Footnote 1 The EEA comprises the European Union and Norway, Iceland and Liechtenstein.

Note: As a consequence of removing this footnote, all subsequent footnotes in the Supervisory Reporting Notes will be renumbered.

Eligible banks (banks whose acceptances are eligible for discount at the Bank of England) <u>An up-to-date list of eligible banks is available from the Bank of England's Internet site</u> <u>on www.bankofengland.co.uk/markets/money/eligiblebanks.htm.</u>

This list (21 May 2001) is issued by the Bank of England.

An institution's appearance on the list should not be misconstrued as evidence that it is qualitatively different in terms of financial soundness, standards of conduct or otherwise, from institutions which are not included on the list. The inclusion of an institution on this list does not mean that the Bank of England in any way guarantees its obligations.

Appendix I REPORTING SCHEDULE FOR SUPERVISORY RETURNS 2001

- 1. This schedule covers the period from January 2001 to December 2001. Not all the forms listed may be required from every reporting institution. The most common exceptions are covered in the footnotes. Individual reporting institutions which have been requested specifically by the FSA not to complete certain forms, or complete them less frequently or at different days from those shown below, should continue to follow their special arrangements.
- 2. The submission of these forms is covered by the rules and guidance set out in SUP 16.7.7R SUP 16.7.15R. Failure to submit a report in accordance with the rules in SUP Chapter 16 may lead to the imposition of a financial penalty and other disciplinary actions (see ENF 13.5) once the Financial Services and Markets Act 2001 comes into force.
- 3. Institutions should note that the due dates set out below are based on the Bank Holidays applicable in England. The due dates should be adjusted to take account of local Bank Holidays (but not Public Holidays) and any waivers or concessions agreed with the FSA. Reporting institutions should telephone their regular supervisor in the FSA in advance of any difficulty they may have in meeting a deadline.
- 4. Banks with any questions on this reporting schedule may also ring Financial Risk Analysis and Monitoring Unit, FSA on 020 7676 0660.

For footnotes, see over.

- 1. Form SLR1 should also be completed for any exception during the month. These exception reports should be submitted directly to your supervisor (and not the Bank of England).
- 2. Until notified by the FSA, these returns should be sent direct to your supervisor.
- 3. Forms BSD3 and M1 apply only to UK banks. They may be submitted alternatively on a different quarterly cycle to coincide with a reporting institution's accounting year end. Institutions wishing to report at dates which coincide with the financial year end should agree this with the FSA. For institutions reporting on an unconsolidated / solo consolidated basis, these forms must be completed within 10 business days of the reporting date (12 business days if reported electronically). Institutions reporting on a consolidated basis are required to submit Forms BSD3 and M1 at the reporting group's accounting year end and half year end. The consolidated forms must be returned within 20 business days of the reporting date (22 business days for electronic reporters).
- 4. Form M1 applies only to market makers holding loan capital issued by banks and non-resident banks. These reporting institutions are required to submit Form M1 in conjunction with Form BSD3.

- 5. Form B7 applies only to UK branches of banks established outside the EEA. Banks may complete Form B7 at dates coinciding with their accounting year end: this should be agreed with the FSA.
- 6. Form LE2 applies only to UK banks. Those banks which complete Form LE2 on an unconsolidated basis should report at dates which coincide with Form BSD3. The form must be completed within 10 business days of the reporting date on an unconsolidated / solo consolidated basis, or 20 business days when completed on a consolidated basis.
- 7. Banks (other than those which report to the Bank of England on Form BT quarterly), should complete the Form LR as at end February, May, August and November. For those banks reporting to the Bank of England on Form BT quarterly, Form LR should be completed at end March, June, September and December.
- 8. These returns should be sent direct to your supervisor unless the FSA has requested otherwise ...
- 9. Forms BSD3 and M1 apply only to UK banks. They may be submitted alternatively on a different quarterly cycle to coincide with a reporting institution's accounting year end. Institutions wishing to report at dates which coincide with the financial year end should agree this with the FSA. For institutions reporting on an unconsolidated / solo consolidated basis, these forms must be completed within 10 business days of the reporting date (12 business days if reported electronically). Institutions reporting on a consolidated basis are required to submit Forms BSD3 and M1 at the reporting group's accounting year end and half year end. The consolidated forms must be returned within 20 business days of the reporting date (22 business days for electronic reporters).
- 10. Form M1 applies only to UK banks which have been granted a trading book concession, or have qualifying holdings in non-financial companies. These reporting institutions are required to submit Form M1 in conjunction with Form BSD3.

SUP 16.7 sets out the submission times allowed for the various reports required from banks.

Annex B

Amendments to the Supervision manual

In SUP16 Annex 1R, make the following changes.

In Form BSD3, amend pages 1, 42, 44 and 46 as shown.

To be used for all reports completed as at 1 December 2001 March 2004 or after

APPENDIX B-IX: BACKTESTING RESULTS

Multiplication factor

53.3 53.4 53.5

	Manipheation rac										
10	Minimum multiplication factor (rounded to 2 decimal places x 100, ie input as integers)										
20	Number of regulatory backtesting exceptions recorded over last 250 business days										
30	Plus factor (rounded to	2 decimal places x 100, ie input as integers)									
40	Multiplication factor (ite	Multiplication factor (items 10 and 30)									
	Backtesting on to	tal portfolio									
50	Number of recorded b	acktesting exceptions in last reporting period									
51.0	Exceptions recorded d	luring last reporting period:									
	Date (dd / mm / yyy	y) VaR measure (note 1) (000s)	Actual loss (note 2) (000s)								
51.01	/ /										
51 02											
51.03											
51.05											
51.04											
51.05											
51.06											
51.07											
51.08											
51.09											
51.10											
51.11											
51.12											
52.0	Five largest daily losse	ys over last reporting period.									
50.4		y) VaR measure (note 1) (000s)	Actual loss (note 2) (000s)								
52.1											
52.2											
52.3											
52.4											
53.0	Five largest backtesting	VaRs1 over last reporting period:									
	Date (dd / mm / yyy	y) VaR measure (note 1) (000s)	Actual loss (note 2) (000s)								
53.1											
53.2	/ /										

Note 1. The VaR measure for backtesting purposes should be calibrated to a one-day holding period and a 99% one-tailed confidence limit.

Note 2 Actual profit/loss is the day's actual P&L arising from trading activities within the scope of the model.
Backtesting on portfolios for specific risk

60 Number of backtesting exceptions on interest rate portfolio in last reporting period

60.1 Exceptions reported during last reporting period:

	Date (dd / mm / yyyy)					VaR measure (note 3) (000s)	Actual loss (note 4) (000s)
60.11		/		/			
60.12		/		/			
60.13		/		/			
60.14		/		/			
60.15		/		/			
60.16		/		/			
60.17		/		/			
60.18		/		/			
60.19		/		/			
60.20		/		/			
60.21		/		/			
60.22		/		/			

If the reporting institution conducts backtesting on a sub-portfolio level, this should be repeated for each sub-portfolio that is subject to interest rate specific risk

70 Number of backtesting exceptions on equities portfolio in last reporting period

70.1 Exceptions reported during last reporting period:

	Date (dd / mm / yyyy)				ууу)	VaR measure	(note 3) (000s)	Actual loss (note 4) (000s)
70.11		/		/				
70.12		/		/				
70.13		/		/				
70.14		/		/				
70.15		/	,	/				
70.16		/	,	/				
70.17		/	,	/				
70.18		/	,	/				
70.19		/		/				
70.20		/		/				
70.21		/		/				
70.22		/		/				

If the reporting institution conducts backtesting on a sub-portfolio level, this should be repeated for each sub-portfolio that is subject to interest rate specific risk

Note 3This is the VaR measure (99% confidence limit, one-day holding period) related to specific risk on the sub-portfolio.Note 4This is the actual loss related to specific risk on the sub-portfolio.

APPENDIX B-X: EXPOSURES COLLATERALISED/GUARANTEED/NETTED

This return records the adjustments made by the reporting institution in respect of exposures collateralised or guaranteed or netting, where the collateral/guarantee has been used to reduce the risk weight coefficient of the underlying asset, eg show the amounts in column 3 transferred from item B40.4 (100% weight) to item B40.1 (0% weight).

SECTION D - CAPITAL ADEQUACY SUMMARY

	CAPITAL BASE	000s
D10	Tier 1 (A550)	D10
D20	Eligible Tier 2 (A630)	D20
D30	Eligible Tier 3 (A638)	D30
D40	TOTAL ELIGIBLE CAPITAL (D10 to D30)	D40
	BANKING BOOK CAPITAL REQUIREMENTS/RISK WEIGHTED ASSETS	
D50	Banking Book Individual Capital Ratio (% multiplied by 100, ie input as integers) D50]
D60	Banking Book Target Ratio (% multiplied by 100, ie input as integers) D60	
D70	Total Banking Book Risk Weighted Assets by risk weighting bands:	D70
D70.1	Risk weighted at 0%	D70.1
D70.2	Risk weighted at 10%	D70.2
D70.3	Risk weighted at 20%	D70.3
D70.4	Risk weighted at 50%	D70.4
D70.5	Risk weighted at 100%	D70.5
D70.6	Items A452, A472 and A474 of Section A	D70.6
D80	Banking Book Capital Requirements	D80
	CAPITAL ALLOCATED TO THE BANKING BOOK	
D90	Tier 1 capital	D90
D100	Eligible Tier 2 capital	D100
D110	Total capital allocated to the Banking Book (items D90 + D100)	D110
	TRADING BOOK CAPITAL REQUIREMENT/NOTIONAL RISK WEIGHTED ASSET	S
D120	Exempt from CAD capital requirements at reporting date ? (please tick if yes)	Yes
D130	If yes, number of days over threshold in reporting period	
D140	Trading Book Individual Capital Ratio (% multiplied by 100, ie input as integers)	D140
D150	Trading Book Target Ratio (% multiplied by 100, ie input as integers)	D150

Knowingly or recklessly giving the FSA information which is false or misleading in a material particular may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.1R and SUP 15.6.3R require an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. SUP 16.3.10R requires an authorised person to submit reports containing all the information required. Contravention of these requirements may lead to disciplinary action or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. Any additional information of relevance should be provided by letter direct to the FSA.

I confirm the information in this form is accurate and complete to the best of my knowledge and belief and that I have read the Guidance Notes to this form.

	•	٦			-

Notes for completing Part 5

- a) Principal customer in the case of closely related depositors/lenders.
- b) Where an individual deposit comprises 25% or more of the total for a particular depositor / group of depositors and has a different maturity from the remainder, it should be reported separately and bracketed. Otherwise where deposits have been received with a variety of maturity dates, reporting institutions need not supply a full list of dates but may write the letter V in the first section of column 2. Where the deposit is undated, this column should be left blank.
- c) Enter the currency and not the amount. The codes used for each currency should be consistent with the international codes used for the Bank of England returns. Where an individual deposit comprises 25% or more of the total for a particular depositor/group of depositors and has a different currency from the remainder, it should be reported separately and bracketed. Otherwise, where deposits are received in a variety of currencies, reporting institutions need not supply details of each currency amount but may write the letter V in the first section of column 3. Where the deposit is in sterling, this column should be left blank.
- d) Enter the sterling (or euro amount, if appropriate) or the sterling equivalent (or euro equivalent) if the deposit/loan is in currency other than sterling (or euro).
- e) Only complete this column for deposits still outstanding at the reporting date.
- f) Funds subject to the FSA's (previously SIB's) client money regulations.
- g) Funds held in accounts operated by a Financial Services Act authorised firm under a mandate signed by the account holder.

Immediately before the SLR1 definitions, insert the following:
