(a) a repurchase transaction; or
(b) a securities or commodities lending or borrowing transaction; or
(c) a margin lending transaction.

securities or commodities borrowing see securities or commodities lending or borrowing transaction.

securities or commodities lending see securities or commodities lending or borrowing transaction.

securities or commodities lending or borrowing transaction (in accordance with Article 4(34) of the Banking Consolidation Directive and Article 3(1)(n) of the Capital Adequacy Directive (Definitions)) any transaction in which an undertaking or its counterparty transfers securities or commodities against appropriate collateral subject to a commitment that the borrower will return equivalent securities or commodities at some future date or when requested to do so by the transferor, that transaction being securities or commodities lending for the undertaking transferring the securities or commodities and being securities or commodities borrowing for the undertaking to which they are transferred.

securities PRR the interest rate PRR, the equity PRR, the option PRR (but only in relation to positions which under BIPRU 7.6.5R (Table: Appropriate calculation for an option or warrant) may be subject to one of the other PRR charges listed in this definition or which would be subject to such a PRR charge if BIPRU 7.6.5R did not require an option PRR to be calculated), the CIU PRR and the PRR calculated under BIPRU 7.11 (Credit derivatives in the trading book) and so that:

(a) the securities PRR includes any PRR charge calculated under a CAD 1 permission; and
(b) the securities PRR does not include any PRR charge calculated under a VaR model permission unless the provision in question provides otherwise.

securitisation credit default swap PRR method the method for calculating the specific risk portion of the interest rate PRR for credit default swaps that are securitisation positions set out in BIPRU 7.11.39R to BIPRU 7.11.53R.

securitisation position (in accordance with Article 4(40) (Definitions) and Article 96 (Securitisation) of the Banking Consolidation Directive) an exposure to a securitisation within the meaning of paragraph (2) of the definition of securitisation; and so that:
(a) where there is an exposure to different tranches in a securitisation, the exposure to each tranche must be considered as a separate securitisation position;

(b) the providers of credit protection to securitisation positions must be considered to hold positions in the securitisation; and

(c) securitisation positions include exposures to a securitisation arising from interest rate or currency derivative contracts.

**securitisation special purpose entity**

(in accordance with Article 4(44) of the Banking Consolidation Directive (Definitions)) a corporation, trust or other entity, other than a credit institution, organised for carrying on a securitisation or securitisations (within the meaning of paragraph (2) of the definition of securitisation), the activities of which are limited to those appropriate to accomplishing that objective, the structure of which is intended to isolate the obligations of the SSPE from those of the originator, and the holders of the beneficial interests in which have the right to pledge or exchange those interests without restriction.

**securitised exposure**

an exposure in the pool of exposures that has been securitised, either via a traditional securitisation or a synthetic securitisation. The cash-flows generated by the securitised exposures are used to make payments to the securitisation positions.

**senior management**

(in BIPRU 7.10 (Use of a value at risk model) and in relation to a firm) the firm’s governing body and those of the firm’s senior managers and other senior management who have responsibilities relating to the measurement and control of the risks which the firm’s VaR model is designed to measure or whose responsibilities require them to take into account those risks.

**SFT**

securities financing transaction.

**simple capital issuer**

a BIPRU firm that meets the following conditions:

(a) it does not raise capital through a special purpose vehicle;

(b) it only includes non-convertible and non-exchangeable capital instruments in its capital resources;

(c) (if it includes capital instruments in its capital resources on which coupons are payable) such coupons are not subject to a step-up;

(d) it only includes capital instruments in its tier one capital resources consisting of ordinary shares, PIBS, perpetual non-cumulative preference shares or partnership or limited liability partnership capital accounts;

(e) it only includes non-redeemable capital instruments in its tier one capital resources; and
(f) (if it includes capital instruments in its tier one capital resources on which coupons are payable) such coupons are non-cumulative, non-mandatory and in cash.

simplified equity method the method of calculating the equity PRR set out in BIPRU 7.3.29R (Simplified equity method).

solo consolidation waiver a waiver of the type described in BIPRU 2.1 (Solo consolidation).

sovereign, institutional and corporate IRB exposure class (in relation to the IRB approach) an exposure falling into the IRB exposure classes referred to in BIPRU 4.3.2R(1)-(3) (Sovereigns, institutions and corporates).

specialised lending exposure (in relation to the IRB approach) an exposure falling into BIPRU 4.5.3R (Definition of specialised lending).

specific risk PRA a PRA for specific risk including any such PRA as applied under BIPRU 7.6.8R (Table: Appropriate PRA).

specific risk backtesting exception (in BIPRU 7.10 (Use of a value at risk model) and in relation to a firm) an exception arising out of backtesting a VaR model with respect to specific risk as more fully defined in that firm's VaR model permission.

specific wrong-way risk (in accordance with Part 1 of Annex III of the Banking Consolidation Directive (Definitions) and for the purpose of BIPRU 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the risk that arises when the exposure to a particular counterparty is positively correlated with the probability of default of the counterparty due to the nature of the transactions with the counterparty; a firm is exposed to specific wrong-way risk if the future exposure to a specific counterparty is expected to be high when the counterparty’s probability of default is also high.

SPV (1) (in GENPRU 2.2 (Capital resources)) has the meaning in GENPRU 2.2.126R (Other tier one capital: innovative tier one capital: indirectly issued tier one capital).

(2) (in BIPRU 8 (Group risk - consolidation)) has the meaning in BIPRU 8.6.15R (Indirectly issued capital and group capital resources).

SREP the supervisory review and evaluation process.

SSPE a securitisation special purpose entity.

standard CIU look through method the method for calculating the PRR for a position in a CIU set out in BIPRU 7.7.4R and BIPRU 7.7.7R to BIPRU 7.7.10R.

standard equity method the method of calculating the equity PRR set out in BIPRU 7.3.32R (Standard equity method).

standardised approach one of the following:
(a) (where expressed to relate to credit risk) the method for calculating capital requirements for credit risk in BIPRU 3 (Credit risk) and BIPRU 9.2.1R(1) and BIPRU 9.11 (Standardised approach);

(b) (where expressed to relate to operational risk) the method for calculating capital requirements for operational risk in BIPRU 6.3 (Standardised approach);

(c) (where not expressed to relate to any risk and used in BIPRU 3, BIPRU 4 (IRB approach), BIPRU 5 (Credit risk mitigation), BIPRU 9 (Securitisation) or BIPRU 10 (Concentration risk requirements)) it has the meaning in (a);

(d) (where not expressed to relate to any risk and used in BIPRU 6 (Operational risk)) it has the meaning in (b);

(e) (where the one of the approaches in (a) to (d) is being applied on a consolidated basis) that approach as applied on a consolidated basis in accordance with BIPRU 8 (Group risk - consolidation); or

(f) when the reference is to the rules of or administered by a regulatory body other than the FSA, whatever corresponds to the approach in (a) to (e), as the case may be, under those rules.

standardised credit risk exposure class (in relation to the standardised approach to credit risk) one of the classes of exposure set out in BIPRU 3.2.9R (Exposure classes).

standard market risk PRR rules the rules relating to the calculation of the market risk capital requirement excluding the VaR model approach and any rules modified so as to provide for the CAD 1 model approach.

stock financing a transaction where a physical commodity is sold forward and the cost of funding is locked in until the date of the forward sale.

supervisory formula method (for the purposes of BIPRU 9 (Securitisation), in relation to a securitisation within the meaning of paragraph (2) of the definition of securitisation and in accordance with Part 1 of Annex IX of the Banking Consolidation Directive (Securitisation definitions)) the method of calculating risk weighted exposure amounts for securitisation positions set out in BIPRU 9.12.21R-BIPRU 9.12.23R and BIPRU 9.14.3R.

supervisory review and evaluation process the FSA’s assessment of the adequacy of certain firms’ capital, as more fully described in BIPRU 2.2.9G and INSFRU 7.1.8G.
**supervisory volatility adjustments approach** the approach to calculating volatility adjustments under the *financial collateral comprehensive method* under which the firm uses the adjustments specified in BIPRU 5.4 (Financial collateral) rather than in its own estimates, as more fully described in BIPRU 5.4 and including that approach as applied to master netting agreements as described in BIPRU 5.6 (Master netting agreements).

**swap** a transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis or a contract for differences.

**synthetic securitisation** (in accordance with Article 4(38) of the *Banking Consolidation Directive* (Definitions)) a securitisation (within the meaning of paragraph (2) of the definition of securitisation) where the *tranching* is achieved by the use of credit derivatives or guarantees, and the pool of *exposures* is not removed from the balance sheet of the originator.

**third country banking or investment services undertaking** (in BIPRU) an institution, a financial institution or an asset management company in a non-EEA state.

**third country BIPRU firm** an overseas firm that:

(a) is not an EEA firm;

(b) has its head office outside the EEA; and

(c) would be a BIPRU firm if it had been a UK domestic firm, it had carried on all its business in the United Kingdom and had obtained whatever authorisations for doing so are required under the Act.

**third country competent authority** a regulatory body of a state or territory that is not an EEA State.

(in relation to a financial sector in a consolidation group or a financial conglomerate and in accordance with GENPRU 3.18.4 (Cross sector groups)) the financial sector with the smallest average referred to in the box titled Threshold Test 2 in the financial conglomerate definition decision tree (10% ratio of balance sheet size and solvency requirements), the banking sector and investment services sector being treated as one financial sector in the circumstances set out in GENPRU 3.18.4.

**solo capital resources**

(1) (for the purposes of GENPRU 3 and INSINU 6PRU 8 (Group risk) and in relation to a member of a financial conglomerate in the overall financial sector) capital resources that are or would be eligible as capital under the sectoral rules that apply for the purpose of calculating its solo capital resources requirement. Paragraph 6.89 of GENPRU 3 8 Ann 1R (Solo capital resources requirement: the insurance sector) applies for the purpose of this definition in the same way as it does for the definition of solo capital resources requirement.

(2) for the purpose of BIPRU 10 (Concentration risk requirements) the definition in (1) is adjusted in accordance with BIPRU 10.8.13R (Calculation of capital resources for a UK integrated group) so that it means capital resources calculated in accordance with the rules applicable to the category of BIPRU firm identified by applying the procedure in BIPRU 8.6.6R to BIPRU 8.6.9R (Consolidated capital resources).

**solo capital resources requirement**

(for the purpose of PRU 8 (Group risk)) a capital resources requirement calculated on a solo basis as defined in paragraphs 6.2-6.9 of PRU 8 Ann 1R (Solo capital resources requirement: the insurance sector).

(1) (for the purpose of GENPRU 3) a capital resources requirement calculated on a solo basis as defined in paragraph 6.2 to 6.7 of GENPRU 3 Ann 1R.

(2) (for the purposes of INSINU 6) a capital resources requirement calculated on a solo basis as defined in paragraph 6.2 to 6.7 of GENPRU 3 Ann 1R as it would apply if references to financial conglomerate in those paragraphs were replaced with references to insurance group.
(3) (for the purposes of GENPRU 2.2.214R (Deductions from tiers one and two: Material holdings)) a capital resources requirement calculated on a solo basis as defined in paragraph 6.2 to 6.7 of GENPRU 3 Ann 1R as those paragraphs apply to the insurance sector.

**Solvency Deficit**

(in GENPRU 3 Ann 1R (Capital adequacy calculations with respect to financial conglomerates) and in respect of a member of the overall financial sector) the amount (if any) by which its solo capital resources fall short of its solo capital resources requirement.

**Specific Risk**

(1) (in SYSC) unique risk that is due to the individual nature of an asset and can potentially be diversified.

(2) (in GENPRU and BIPRU and in accordance with paragraph 12 of Annex I of the Capital Adequacy Directive) the risk of a price change in an investment due to factors related to its issuer or, in the case of a derivative, the issuer of the underlying investment.

**Sponsor**

(1) (in LR) a person approved, under section 88 of the Act by the FSA, as a sponsor.

(2) (in BIPRU), in accordance with Article 4(42) of the Banking Consolidation Directive (Definitions) and in relation to a securitisation within the meaning of paragraph (2) of the definition of securitisation) an undertaking other than an originator that establishes and manages an asset backed commercial paper programme or other securitisation scheme that purchases exposures from third party entities.

**Step-Up**

(in relation to any item of capital) any change in the coupon rate on that item that results in an increase in the amount payable at any time, including a change already provided in the original terms governing those payments. A step-up:

(1) (in relation to a tier one instrument) has the meaning set out in PRU 2.2.74R; and

(2) (in relation to a tier two instrument) has the meaning set out in PRU 2.2.118R.

(a) includes (in the case of a fixed rate) an increase in that coupon rate;

(b) includes (in the case of a floating rate calculated by adding a fixed amount to a fluctuating amount) an increase in that fixed amount;
(c) includes (in the case of a floating rate) a change in the benchmark by reference to which the fluctuating element of the coupon is calculated that results in an increase in the absolute amount of the coupon; and

(d) does not include (in the case of a floating rate) an increase in the absolute amount of the coupon caused by fluctuations in the fluctuating figure by reference to which the absolute amount of the coupon floats.

tier one capital

(a) (in ELM) …

(b) (in PRIIP, GENPRU and INSPRU) an item of capital that is specified in stages A (Core tier one capital), B (Perpetual non-cumulative preference shares) or C (Innovative tier one capital) of the capital resources table in PRIIP 2.2.14R.

tier one capital resources

the sum calculated at stage F of the calculation in the capital resources table PRIIP 2.2.14R (Total tier one capital after deductions).

tier one instrument

an item of capital that falls into GENPRU 2.2.262R (Tier one capital: General) and is eligible to form part of a firm's tier one capital resources.

tier two capital

(a) (in ELM) …

(b) (in PRIIP, GENPRU and INSPRU) an item of capital that is specified in stages G (Upper tier two capital) or H (Lower tier two capital) of the capital resources table in PRIIP 2.2.14R.

tier two capital resources

the sum calculated at stage I (Total tier two capital) of the calculation in the capital resources table PRIIP 2.2.14R.

tier two instrument

an item of capital capital instrument that meets the conditions in GENPRU 2.2.10459R (General conditions for eligibility as tier two capital instruments) or GENPRU 2.2.10577R (Upper tier two capital: General) and is eligible to form part of a firm's tier two capital resources.

trading book

(1) (in UPRU) ....
(2) (in BIPRU and GENPRU and in relation to a BIPRU firm) has the meaning in BIPRU 1.2 (Definition of the trading book) which is in summary, all that firm's positions in CRD financial instruments and commodities held either with trading intent or in order to hedge other elements of the trading book, and which are either free of any restrictive covenants on their tradability or able to be hedged.

(3) (in BIPRU and GENPRU and in relation to a person other than a BIPRU firm) has the meaning in (2) with references to a firm replaced by ones to a person.

**upper tier two capital**

(1) (in ELM) …

(2) (in PRU BIPRU, GENPRU and INSFRU) an item of capital that is specified in stage G of the capital resources table (Upper tier two capital) table in PRU 2.2.14R.

**upper tier two capital resources**

the sum calculated at stage G of the calculation in the capital resources table (Upper tier two capital) - PRU 2.2.14R.

**upper tier two instrument**

an item of capital capital instrument that meets the conditions in GENPRU 2.2.10477R (Upper tier two capital: General) and is eligible to form part of a firm's upper tier two capital resources.

**working day**

(1) (in PR) …

(2) (in relation to an underwriter and for the purpose of BIPRU but not for the purpose of the definition of working day 0) the number of business days after working day 0 specified by the provision in question so that, for example, working day one means the business day following working day 0.

(3) High level systems and control requirements are in SYSC. Detailed financial resources and systems requirements are in the relevant section of IPRU or PRU the Prudential Standards part of the Handbook, including specific provisions for particular types of regulated activity. ...

2.4.3 G (1) ... 

(2) In particular, although it is the firm that is being assessed, the FSA may take into consideration the impact of other members of the firm's group on the adequacy of its resources. For example, the FSA may assess the consolidated solvency of the group. The FSA's approach to the consolidated supervision of a firm and its group is in the relevant part of IPRU or PRU the Prudential Standards part of the Handbook.

2.4.4 G (1) ... 

(2) Relevant matters may include but are not limited to:

2. THE PRUDENTIAL SOURCEBOOK FOR BANKS: APPLICATION AND PURPOSE

Application

1. From December 2004 the Financial Services Authority (the FSA) has begun the phased implementation for banks of its Integrated Prudential Sourcebook (IPRU). This will eventually replace the set of sectoral prudential sourcebooks applied on an interim basis, including this one applying to banks (IPRU (BANK)).

With the implementation of the recast Capital Adequacy Directive and the Banking
Consolidation Directive in the UK from January 2007, the Integrated Prudential Sourcebook (PRU) and the Interim Prudential sourcebook for banks (IPRU (BANK)) have, so far as banks are concerned, been substantially substituted by the General Prudential Sourcebook (GENPRU), parts of the Senior Management Arrangements, Systems and Controls sourcebook (SYSC) and the Prudential Sourcebook for Banks, Building Societies and Investment Firms (BIPRU). The only remaining prudential standards in IPRU (BANK) are those that relate to liquidity. Over the transition period until all the provisions of IPRU (BANK) have been revoked, the FSA's detailed prudential standards (and some related notification requirements) applying to banks authorised under the Act are set out in a combination of PRU, GENPRU, BIPRU, SYSC and IPRU (BANK). Where a chapter of IPRU (BANK) has been substantively affected by the implementation of PRU, the introductory section of that chapter has been amended to indicate in broad terms how the chapter's provisions relate to those in PRU. Banks are responsible for ensuring that they meet all the prudential standards applying to them in both PRU, GENPRU, BIPRU, SYSC and IPRU (BANK) during the transitional period.

2. IPRU (BANK) sets out material relevant to all banks (see definition in section 3.5 of Chapter GN). However, most of the material applies only to UK banks. The only parts of IPRU (BANK) which apply to EEA banks and overseas banks are the rules and guidance on liquidity (Rule 3.3.15 and in Chapter LM) and fraud (Chapter FR). The rules and guidance in Chapter LS apply only to UK banks.

1.1 Legal resources

1  (a) …
(b) …
(c) The rules requiring a bank to maintain adequate liquidity appropriate to the nature and scale of its business, and to set out its policy on liquidity risk management in a written statement.

2  As part of the phased implementation of the Integrated Prudential Sourcebook (PRU) recast Capital Adequacy Directive and the Banking Consolidation Directive in the UK from January 2007, provisions in PRU 1.2 and PRU 5.1 relating to a firm's systems and controls for liquidity risk have been introduced, superseding—and leading to the revocation of amendment of—material formerly in this chapter in SYSC 11 and provisions concerning stress testing and scenario analysis have been introduced in GENPRU 1.2.30R. The relevant rules implement part of Article 22 and Annex V of the Banking Consolidation Directive. This chapter and chapter LS sets out the FSA's framework for monitoring the liquidity of banks authorised for the purposes of the Act to determine whether the above requirements are met.

1.2 Application

4  This chapter applies to banks in the manner set out in 1.1. In respect of EEA banks that have a branch in the UK but do not have a UK deposit-taking permission, only Sections 1, 2, 3, 4.2, 9.1 and 10 of the chapter apply. In respect of all EEA banks and overseas banks with a branch in the UK, the chapter (or applicable sections of it) only applies in relation to the liquidity of those branches and not the bank as a whole.

(a) For UK-incorporated banks, the present reporting form (LR), is completed on a solo basis. Where a bank already reports for capital and large exposure
purposes on a solo-consolidated basis with the agreement of the supervisor, the Form LR should be submitted on a solo-consolidated basis rather than a solo basis.

(i) Definitions of solo supervision and solo-consolidated supervision can be found elsewhere in the IPRU (BANK) Handbook.

Chapter LM, Section 3: Main Features Of The Liquidity Policy

This section summarises the main features of the liquidity policy. It does not cover every feature and should be read in conjunction with the sections that follow, and other parts of the Handbook referred to below. Certain of the provisions referred to implement Article 22 and Annex V of the Banking Consolidation Directive.

3.1 Main prudential policies applying to banks

See eh GN s GENPRU 1 A bank must maintain adequate liquidity at all times.

See s10 2 A bank must formulate a statement of its liquidity management policy. It should agree with the FSA standards for adherence to this policy, i.e. mismatch guidelines and the procedures for the notification of breaches of those guidelines. (The rule requiring a liquidity policy statement is GN 3.4.3R, SYSC 11 requires a bank to have policies for liquidity risk management.)

See s9 3 A bank should have adequate systems for monitoring liquidity on a daily basis. (See SYSC 11).

3A A bank should carry out stress testing and scenario analysis in relation to liquidity risk. (See GENPRU 1.2.26R and associated guidance, and SYSC 11).

3B A bank should have a contingency funding plan. (see SYSC 11)

Chapter LM, Section 4: The framework for measuring liquidity

4.2 'Global concession' policy

6. The FSA is required to supervise the liquidity of all banks operating in the United Kingdom except in the case of EEA banks and overseas banks it is only required to supervise the liquidity of their UK branches.

Chapter LM, Section 6: Stock of marketable assets
6.3 Inclusion of marketable assets in the maturity ladder

6.3.1 General

See ch BC s3 (d) The definition of Zone A/Zone B countries given in the chapter on credit risk in the banking book is as defined in the glossary of defined terms used in the Handbook.

"Zone B" comprises all countries not in Zone A countries.

6.3.2 The standard "matrix" approach

8 The discount factors applied to different types of marketable assets in the FSA's mismatch calculations are given in the table below:

<table>
<thead>
<tr>
<th>Type of Asset</th>
<th>Discount Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other securities denominated in freely tradable currencies (usually Zone A)</td>
<td></td>
</tr>
<tr>

<td>15%</td>
</tr>
<tr>
<td>Equities which (in the FSA's implementation of the CAD) qualify for a specific risk weight no higher than 42%</td>
<td>20%</td>
</tr>
</tbody>
</table>

(a) ...

See ch BC s3 (b) Qualifying debt security means qualifying for inclusion in the capital adequacy calculation at specific risk weightings is defined in the glossary of defined terms used in the Handbook.

(c) The definition of Zone A/Zone B countries is given in the chapter on credit risk in the banking book 6.3.1.7(d) above.

See ch BC s3 (g) Zone B equities, which (in the FSA's implementation of the CAD) qualify for a specific risk weight (no higher than 42%) can be considered to be marketable and are discounted at 40%.
Chapter LM, Section 8: Factors considered in setting mismatch guidelines

8.3 Home country lending

4 A branch which lends a considerable proportion of its own balance sheet back to its home country risks becoming illiquid if, for any reason, the home country is unable to meet its debt service obligations. Partly for this reason the FSA assesses whether to place limits on home country lending for branches.

See chLE 59 (a) For details on home country exposure limits see the chapter on large exposures.

Chapter LM, Section 9: Monitoring liquidity

9.1.2 Systems for monitoring liquidity

2 In order to be considered to be conducting its business in a prudent manner a bank must maintain adequate systems. A bank should therefore have in place systems which enable it to monitor its liquidity profile on a frequent and timely basis.

See SYSC 11 (a) What in detail will be considered adequate systems depend on the nature of business conducted by the bank. But every bank should have systems in place that enables it to calculate its liquidity position on a daily basis.

Chapter LM, Section 10: Policy statements

4 The policy statement should consider the management of liquidity in both normal and abnormal circumstances. In particular, it should include details of the bank’s contingency funding plan maintained as required by PRU 5.1.86E SYSC 11.1.24E.

See ch GN (3) All UK banks authorised for the purposes of the Act are required to meet these requirements except EEA banks. An EEA bank or overseas bank with a branch in
the UK is also subject to rule 3.3.15 which requires its UK branch to maintain adequate liquidity.

2 As part of the phased implementation of the Integrated Prudential Sourcebook (PRU) recast Capital Adequacy Directive and the Banking Consolidation Directive in the UK from January 2007, provisions in PRU 1.2 and PRU 5.1 relating to a firm's systems and controls for liquidity risk have been introduced, superseding—and leading to the revocation or amendment of—material formerly in this chapter in SYSC 11 and provisions concerning stress testing and scenario analysis are introduced in GENPRU 1.2.30R. The relevant rules implement part of Article 22 and Annex V of the Banking Consolidation Directive. X.2 Application

X.2.1 R The Interim Prudential Sourcebook for building societies applies to all firms with permission from the Financial Services Authority (the "FSA") to take deposits which are also building societies as defined in the Building Societies Act 1986 ("the 1986 Act") and, in this sourcebook, "society" and "societies" are construed accordingly.

Chapter 4 FINANCIAL RISK MANAGEMENT

4.1 Introduction

4.1.1 This chapter replaces PN 1998/4, issued by the Commission, and contains rules and guidance for societies on financial risk management, a key part of compliance with Principle 3 ("a firm must take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems which supplements the high level requirements in the Senior Management Arrangements, Systems and Controls sourcebook (SYSC).

4.1.1A As part of the implementation of the Capital Adequacy Directive (CAD), the Banking Consolidation Directive (BCD) and the Markets in Financial Instruments Directive (MiFID), provisions relating to a firm's organisational and risk systems and controls have been introduced in SYSC 4, SYSC 5, SYSC 6 and SYSC 7. Whilst some of the material in SYSC applies to all societies, some applies only to societies that are subject to MiFID. The guidance in this chapter generally explains the application of the high level requirements in SYSC 4, SYSC 5, SYSC 6 and SYSC 7 (even if there may not be a specific cross reference) in the context of financial risk management.

4.1.3 Rules and guidance on interest rate risk in the banking book are contained in chapter 2.3 of the Prudential sourcebook for Banks, Building Societies and Investment Firms (BIPRU). Under these requirements a society should evaluate the effect of a standard interest rate shock specified by the FSA in that chapter. The result should be taken account of in the ICAAP (as defined in the Handbook Glossary).

4.1.4 Societies with a trading book will also be subject to a market risk capital requirement calculated in accordance with BIPRU 7. This is unlikely to be applicable to any societies apart from those on the "Trading" approach – see 4A.6 below. A society with foreign currency exposures will however be subject to the foreign exchange capital requirements in BIPRU 7 whether or not it has a trading book.
4.2 Rules

4.2.1 General

In meeting the requirements of SYSC 4.1.1R and SYSC 7.1.2R in the context of financial risk management, a society must have an adequate system for managing and containing financial risks to the net worth of its business, and risks to its net income, whether arising from fluctuations in interest or exchange rates or from other factors.

4.2.2 Societies should have systems and procedures for identifying, monitoring and controlling all material maturity mismatch, interest rate, foreign exchange and similar (e.g. index related) risks, and for reporting exposures to senior management and the board of the society on a regular, and timely, basis. Societies should also have interest margin management systems in place to estimate the expected profitability of new mortgage and savings products, and to project forward the cumulative effect of mortgage incentives and loyalty schemes.

4.2.3 Societies should have credit limits in place for all counterparties both for placing liquidity and for transacting derivative contracts (further guidance also in Chapter 5 (Liquidity)) and in PRU 5, the General Prudential sourcebook (GENPRU) 1.2 and SYSC 11 – stress testing and scenario analysis, and contingency funding plans).

4.2.4 [Deleted]

4.2.5 A society must maintain, and submit to the FSA, in meeting the requirements in SYSC 7.1.4R in the context of financial risk management, the board of a society should approve and periodically review a board-approved policy statement on financial risk management.

4.3 Financial risks

Key risk categories

4.3.7 The key financial risks which, in order to comply with Rule as envisaged in 4.2.1G, societies should manage and control, are:

(1) …

(2) …

4.3.8 Societies' financial risk management policies should also cover:

(1) …

(2) …

(3) [Deleted]
Operational risk in treasury and related activities: including failure of internal controls or procedures, and the risk arising from errors in legal documentation.

[Deleted]

4.5 Supervisory approach

4.5.5 To comply with rule 4.2.1, a society’s system for financial risk management must be adequate. The policy statement envisaged under rule 4.2.5 must be appropriate for the society’s business needs and the complexity of its existing and proposed treasury activities. The FSA has devised five models, described as supervisory approaches, to assist societies to comply with these rules. The approaches are described as “administered”, “matched”, “extended”, “comprehensive” and “trading”. A society that conducts its treasury activities in accordance with the most suitable (for it) of these five models, can readily demonstrate that it complies with rule 4.2.1G and 4.2.5G in the context of financial risk management. But these models are neither mandatory nor exhaustive. Guidance on the characteristics of each approach is set out in Annex 4A.

4.5.7 Whilst the “approach” benchmarks have no legal significance, the process of moving between approaches provides a useful opportunity for the FSA to review a society’s progress, and to satisfy itself that policies, limits and systems are appropriate for the treasury activities planned, and that therefore compliance with rule 4.2.1 is adequately established.

4.6 Management responsibilities

4.6.1 [Deleted]

4.7 Risk management systems

4.7.1 In order to demonstrate compliance with rule 4.2.1, the guidance in this section amplifies SYSC 7.1.2R and SYSC 7.1.3R specifically in the context of treasury management. A society should have in place information systems that are capable of:

1. ... 

2. assessing the potential impact of interest rate (and if applicable, currency exchange rate) changes on its earnings and economic value (including the effect of any standard interest rate shock as specified by the FSA in BIPRU 2.3);

3. reporting accurately, and promptly, on risk positions – to management, to the board and, if requested, to the FSA - including generating the information necessary to carry out its ICAAP and reporting the results of stress testing for interest rate risk in the banking book;
Control limits

4.7.3  G  Control limits confine structural risk positions within levels considered by board and management to be prudent, given the size, complexity and capital needs of the society's business. Where applicable, limits should also be applied to individual instrument types, asset/liability portfolios, and to separate business activities or subsidiaries. The size of the limits set will be a factor in the FSA's assessment of the overall risk profile of the society, and thus in the threshold solvency ratio which is set for it.

Stress testing

4.7.7  G  The risk measurement systems put in place should evaluate the impact, on income or economic value as appropriate, of abnormal market conditions. The amount and type of such stress testing required will depend upon the sophistication of treasury operations undertaken, and the level of risk taken, but where required should be regular and systematic. Boards and management should, periodically, review the extent of such stress testing to ensure that any "worst case" scenarios remain valid. Contingency plans should be in place to deal with the consequences should such scenarios become reality. Rules and guidance on stress testing, and scenario analysis and contingency funding plans specifically for liquidity risk are in PRUGENPRU 1.2 and PRU 5.1BIPRU 2.2. Material on this subject specifically relating to liquidity risk, including liquidity contingency plans, is in SYSC 11. Requirements for stress testing for interest rate risk in the banking book are set out in BIPRU 2.3

Board information reporting

4.7.8  G  The FSA attaches considerable importance to the quality, timeliness, and frequency of the management information which the board uses to inform itself of the society's risk positions and to satisfy itself that treasury activities are being undertaken in accordance with its policies and guidelines. Information obtained by the board should not be confined to the current position, but should include regular and systematic stress testing, as described above, which should be taken into account when policies and limits are established or reviewed.

4.8  Counterparty Risk

4.8.5A  G  The guidance in this section complements the high level rules and guidance on credit and counterparty risk in SYSC 7.1.9R to SYSC 7.1.11R.

Committed facilities

4.8.8  G  A society with high levels of maturing funding, or vulnerability to withdrawal of individual deposits, should consider arranging committed facilities (or to maintain higher than average levels of liquidity). In arranging committed facilities, a society should consider:

4.10 Independent review and controls

Internal audit

4.10.1 G The guidance in this section amplifies SYSC 6.2.1R in the context of treasury management. Each board should ensure that its society's internal audit department (if it has one) has the skills and resources available to undertake an audit of the treasury function. Internal audit should evaluate, on a continuing basis, the adequacy and integrity of the society's controls over maturity mismatch, over the level of structural risk taken and should assess the effectiveness of treasury management procedures.

4.10.2 G Societies with complex treasuries or lacking internal auditors with treasury expertise may outsource treasury audit to an audit firm with the appropriate expertise and experience. The work of outsourced internal audit should be fully integrated into the
society’s overall audit procedures and plans, with appropriate reporting lines into the audit committee. However, in order to avoid conflicts of interest, internal audit should not be contracted out to the society's own external auditors – even if the function were to be performed by a completely different branch of the audit firm (see also Chapter 11 on Outsourcing).

4A.5.5 G Risk positions could reflect an interest view, subject to sensitivity limits set by board/ALCO and incorporating basic risk assessment/control. 5.8 Outsoourcing of Liquidity Management and Brokers' Advice

... 

5.1 Introduction

5.1.1 G This chapter now sets out the FSA's quantitative regime for building societies' prudential liquidity, and further guidance specific to building societies on the management of their liquidity in accordance with the five approaches to financial risk management set out in Chapter 4. This chapter complements PRU 5.1 (which contains rules and guidance for a wider range of firms on systems and controls appropriate for liquidity risk). Only certain provisions of PRU 5.1 apply to building societies, by virtue of PRU 5.1.3R and PRU 5.1.4R. Similarly it also complements PRU GENPRU 1.2 and BIPRU 2.2 (which contain rules and guidance for systems and controls relating to adequacy of financial resources generally) and SYSC 11 (which sets out the high level requirements for liquidity for deposit takers and own-account dealers, as well as insurers). The chapter outlines the factors the FSA will take into account in assessing whether a society meets the rules set out in section 5.2 and PRU GENPRU 1.2 and the guidance in PRU 5.1 SYSC 11 so far as liquidity risk is concerned. A list of types of asset suitable for inclusion in prudential liquidity for societies on each of the approaches to financial risk management is set out in Annex 5A. "Prudential liquidity" has the meaning set out in paragraph 5.3.4G.

5.1.1A G As part of the implementation of the Capital Adequacy Directive (CAD), the Banking Consolidation Directive (BCD) and the Markets in Financial Instruments Directive (MiFID), provisions relating to a firm's organisational and risk systems and controls have been introduced in SYSC 4, SYSC 5, SYSC 6 and SYSC 7. Whilst some of the material in SYSC applies to all societies, some applies only to societies that are subject to MiFID. The guidance in this chapter generally explains the application of the high level requirements in SYSC 4, SYSC 5, SYSC 6 and SYSC 7 (even if there is no specific cross reference) in the context of managing liquidity.

5.1.2 G Some material on liquidity systems and controls, previously in this chapter and superseded by PRU 5.1 SYSC 11, has been deleted, but the original numbering has been retained: where an entire section has been deleted this is noted alongside the original section number. The new material in PRU 5.1 SYSC 11 covers requirements for stress testing and scenario analysis, as well as contingency funding plans and their documentation.

5.2 Rules

5.2.4 E (1) ... 

(2) Contravention of 5.2.4(1) may be relied upon as tending to establish contravention of PRU 1.2.22R GENPRU 1.2.26R.

... 

5.2.8 G Guidance on the content of a liquidity policy statement is set out in 5.6.2 to 5.6.4 and in Annex 5B. Societies will also find guidance on the requirements (set out at PRU 1.2.26R, PRU 1.2.27R, PRU 1.2.31R, PRU 1.2.33R, PRU 1.2.35R, PRU 1.2.37R and PRU 1.2.38R) for stress testing and scenario analysis at PRU 5.1.58 to PRU 5.1.62. Further guidance on the requirements (set out at PRU 1.2.22R, PRU 1.2.35R and PRU 1.2.37R) on contingency funding plans and documentation is provided at PRU 5.1.8G - PRU 5.1.9G. Societies may, for convenience, wish to combine their liquidity policy statement with their general requirements with their liquidity policy statement.
contingency funding plans and documentation referred to in paragraph 5.1.1 and the other material in GENPRU, BIPRU and SYSC referred to in section 5.1. However if they do so, but societies need to be clear on how any combined document meets the separate requirements.

5.4 Short-term Liquidity

5.4.3 The following liquid assets may be counted as short-term liquidity:

1. cash, current account balances, and Treasury, Local Authority and eligible bank bills;

2. deposits with relevant authorities (as defined in Annex 4F5A), banks and building societies with not more than 8 days' notice, or within 8 days of maturity;

5.5.1 Supervisory Approach to Liquidity

5.5.1 Societies should adopt a risk-averse approach to the management of liquid assets. Societies should ensure that treasury systems and controls are adequate for the scale of activity undertaken and that treasury personnel have appropriate expertise and competence, including dealing, settlement and accounting skills. Chapter 4 suggests that dealings in certain categories of liquid assets should be confined to societies on an advanced approach to financial risk management.

5.6 Board and Management Responsibilities

5.6.2 Rule 5.2.7 requires each society to have a liquidity policy statement. This should be approved by the society's board and be consistent with the society's strategic plan and its financial risk management policy statement. Societies should also have regard to the rules and guidance in PRU GENPRU 1.2, SYSC 4, SYSC 5, SYSC 7 and PRU 5.4 SYSC 11, set out in more detail at PRU 5.2.8G.

5.6.4 A liquidity policy statement should be a working document and personnel in the treasury and settlement areas should be familiar with its contents, as should members of ALCO or Finance Committee. When aspects of the policy or limits become out of date, the policy document should be amended and the revised copy must be sent to the FSA (see rule 5.2.9).
5.6.5 G Boards should establish the objectives for liquidity including meeting obligations as they fall due (including any unexpected adverse cash flow), smoothing out the effect of maturity mismatches and the maintenance of public confidence. The need to earn a return may also be recognised as an objective, although this should be secondary to the security of the assets. Societies should also have regard to the rules and guidance in \textit{PRU GENPRU} 1.2 and \textit{PRU SYSC} 5.1, set out in more detail at \textit{PRU} 5.2.8G.

Part VII

LLOYD'S OF LONDON

Application

9.47 PART VII of IPRU(INS) chapter 9 applies to the Society and to managing agents.

Requirement to report to the FSA

9.48 (1) The Society must report to the FSA within 6 months of the end of each financial year on its financial situation and solvency and on the whole of the insurance business carried on by members.

(2) The report in IPRU(INS) 9.48 (1) must be prepared in accordance with GENPRU 1.3.4 R and this chapter.

(3) The report in IPRU(INS) 9.48 (1) must include:
(a) the *Lloyd's Return* which comprises a completed set of the forms set out in *IPRU(INS)* Appendix 9.11, together with any statements, notes, reports or certificates required by this chapter; and

(b) a copy of the *syndicate* accounts for each *syndicate* that is required by *byelaw* to prepare accounts for the *financial year*.

(4) With the exception of the statements required to be annexed to the *Lloyd's Return* by *IPRU(INS)* 9.49 (6), the *Lloyd's Return* must be examined and reported on by the auditors appointed to audit the affairs of the *Society*.

(5) The *Society* must provide a printed copy of the *Lloyd's Return* to the *FSA*, with Form 9 signed by three signatories who are senior officers of the *Society* each duly authorised by the *Council* to sign the *Lloyd's Return* on behalf of the *Society*.

(6) If the *FSA* notifies the *Society* that any part of the *Lloyd's Return* is not in conformity with this chapter, the *Society* must promptly make any appropriate corrections or adjustments and if necessary re-submit the *Lloyd's Return* (or relevant part of it).

**Content and form of the Lloyd's Return**

9.49 (1) In preparing the *Lloyd's Return*, the *Society* must:

(a) complete the forms in *IPRU(INS)* Appendix 9.11, following the requirements of and making the disclosures required under Appendices 9.1, 9.2, 9.3 and 9.4 of *IPRU(INS)* as if in the documents referred to in those Appendices references to an *insurer* were references to the *Society* and *members*, and adapting the requirements in those Appendices where necessary;

(b) complete the forms in *IPRU(INS)* Appendix 9.11 using standard *accounting classes* as set out in *IPRU(INS)* Appendix 9.16 where the forms require reporting by accounting class;

(c) report treaty reinsurance general business falling in *accounting classes* 9 to 10 as set out in *IPRU(INS)* Appendix 9.16 in Forms 28 and 29 in *IPRU (INS)* Appendix 9.11 by reference to the categories in the underlying accounting classes; and

(d) complete forms 13, 14, 40-60 in *IPRU(INS)* Appendix 9.11 for each *long-term insurance business syndicate*.

(2) (a) Where a reinsurance contract in *IPRU(INS)* 9.49 (1)(c) covers more than one underlying accounting class as set out in *IPRU(INS)* Appendix 9.16 it must be apportioned between accounting classes in the way that best reflects its underlying composition.

(b) However, where the apportionment in (a) cannot be made with reasonable accuracy or without disproportionate effort, then the contract must be allocated to the accounting class as set out in *IPRU*
Appendix 9.16 that most closely reflects its underlying composition.

(c) Whether apportioned under (a) or allocated under (b), a consistent approach must be taken to reporting:

(i) the progress of a treaty in subsequent years; and

(ii) substantially similar insurance business in subsequent years.

(d) Where a different policy is subsequently followed a suitable explanatory note must be provided.

(3) If, during the financial year in question, the Society has agreed to, or carried out, a material connected party transaction, it must provide a brief description of that transaction by way of a supplementary note to the Lloyd's Return.

(4) The description to be provided under IPRU(INS) 9.49 (3) must state:

(a) the names of the transacting parties;

(b) a description of the connection between the parties;

(c) a description of the transaction;

(d) the amounts involved;

(e) any other elements of the transaction needed for an understanding of its effect or potential effect upon the financial position of the Society; and

(f) amounts written off in the period in respect of debts due to or from transacting parties which are connected parties.

(5) Transactions with the same connected party may be disclosed on an aggregated basis unless separate disclosure is needed for a proper understanding of the effect of the transactions upon the financial position of the Society.

(6) The Society must annex to the Lloyd's Return a copy of each statement completed by a managing agent under IPRU(INS) 9.60 (7).

(7) For the purposes of the Lloyd's Return and IPRU(INS) 9.49 (6), the Society must, for each statement annexed, identify the syndicate to which the contract of insurance or 'financing arrangement' relates.

Risk groups for general insurance business

9.50 (1) The Society must for the purposes of reporting under this chapter:

(a) classify the direct and facultive general insurance business of members according to appropriate risk groups; and
(b) where the risks are material, complete a separate Form 34 in IPRU(INS) Appendix 9.11 for each group.

(2) The Society must not include:

(a) policies falling within classes 14, 15, 16, 17 or 18 within the same risk group as policies falling within any other class, except that policies falling within class 14 may be included in the same risk group as policies falling within class 15; or

(b) policies in respect of private motor car risks, within the same risk group as policies in respect of other risks falling within accounting class 2 as set out in IPRU(INS) Appendix 9.16; or

(c) policies in respect of comprehensive private motor car risks, within the same risk group as policies in respect of non-comprehensive private motor car risks; or

(d) policies transferred to members by way of a transfer under section 111 of the Act (Sanction of the court for business transfer schemes), within the same risk group as other policies.

(3) The Society must give the FSA notice of proposed changes to the definition or classification of the risk groups in IPRU(INS) 9.50 (1), sufficient to allow the FSA properly to assess the implications of the proposals.

Major treaty reinsurers

9.51 (1) The Society must, in connection with the general insurance business carried on by members, include in the Lloyd's Return a statement of major treaty reinsurers.

(2) A major treaty reinsurer is any insurance company to which in the financial year in question or any of the five preceding financial years:

(a) in the case of proportional reinsurance, 2% or more of the gross premiums receivable in respect of general insurance business of the members in aggregate has been ceded; or

(b) in the case of non-proportional reinsurance, 5% or more of the gross premiums receivable in respect of general insurance business has been ceded.

(3) The statement required under IPRU(INS) 9.51 (1) must include:

(a) the full name of each major treaty reinsurer;

(b) the amount of the reinsurance premiums payable in the financial year to each such reinsurer;

(c) whether and if so how the reinsurer was connected to any member or any managing agent;
(d) the amount of any debt of each such reinsurer included at line 75 of Form 13 in \textit{IPRU(INS)} Appendix 9.11;

(e) the amount of any deposit received from each such reinsurer under reinsurance treaties included at line 31 of Form 15 in \textit{IPRU(INS)} Appendix 9.11; and

(f) the reinsurers' share of technical provisions shown on Form 13 in \textit{IPRU(INS)} Appendix 9.11 except that in respect of claims incurred but not reported, such recoveries need only be included to the extent that they are in respect of specific occurrences for which provisions have been allocated;

or, as the case may be, a statement that having aggregated the reinsurance ceded by members no reinsurer is a major treaty reinsurer.

(4) The requirements of \textit{IPRU(INS)} 9.51 (1), \textit{IPRU(INS)} 9.52 (1) and \textit{IPRU(INS)} 9.53 (1) may be satisfied by giving a fair view and making use of an appropriate degree of approximation. The Society may employ any reasonable methods to establish the information required.

Major facultative reinsurers

\textbf{9.52 (1)} The Society must, in connection with the \textit{general insurance business} carried on by members, include in the \textit{Lloyd's Return} a statement of major facultative reinsurers.

(2) A major facultative reinsurer is an insurance company to which or with respect to which:

(a) 0.5% or more of the gross premiums \textit{receivable} in respect of \textit{general insurance business} of the members in aggregate has been ceded; or

(b) the addition of the amounts in items (d) and (e) of \textit{IPRU(INS)} 9.51 (3) produces an amount exceeding 1% of the aggregate gross assets of members.

(3) The statement required under \textit{IPRU(INS)} 9.52 (1) must include the matters listed in \textit{IPRU(INS)} 9.51 (3), with appropriate amendments.

Major reinsurance cedants

\textbf{9.53 (1)} The Society must, in connection with the \textit{general insurance business} carried on by members, include in the \textit{Lloyd's Return} a statement of major reinsurance cedants.

(2) A major reinsurance cedant is an insurance company which in the \textit{financial year} in question or any of the three preceding \textit{financial years}:

(a) cedes an amount which exceeds 5% of the gross premiums \textit{receivable} by members in respect of \textit{general insurance business} accepted under reinsurance treaties; and
(b) cedes an amount which exceeds 2% of the gross premiums receivable by members in respect of general insurance business.

(3) The statement required under IPRU(INS) 9.53 (1) must include the matters listed in IPRU(INS) 9.51 (3), with appropriate amendments.

Derivative contracts

9.54 (1) The Society must annex a statement to the Lloyd's Return comprising a brief description of:

(a) any byelaws and guidelines issued by the Society governing the use of derivative contracts;

(b) any provision in those guidelines governing the use of contracts under which members have a right or obligation to acquire or dispose of assets which was not, at the time when the contract was entered into, reasonably likely to be exercised and the circumstances in which, pursuant to that provision, such contracts may be used;

(c) the extent to which members were during the financial year a party to any contracts of the kind described in (b);

(d) the extent to which any of the amounts recorded in Form 13 would be changed if assets which members had a right or obligation to acquire or dispose of under derivative contracts outstanding at the end of the financial year (being, in the case of options, only those options which it would have been prudent to assume would be exercised) had been acquired or disposed of;

(e) the difference between (d) and the amount which would result under (d) if such options had been exercised and this were reflected in Form 13 to the maximum extent;

(f) how different the information provided pursuant to (d) and (e) would have been if, instead of applying to contracts outstanding at the end of the financial year, (d) and (e) had applied to derivative contracts outstanding at such other time during the financial year as would have changed the amounts in Form 13 to the maximum extent;

(g) the maximum loss which would be incurred by members on the failure by any one other person to fulfil its obligations under derivative contracts outstanding at the end of the financial year, both under existing market conditions and in the event of other foreseeable market conditions, together with an assessment of whether such maximum loss would have been materially different at any other time during the financial year;

(h) the circumstances surrounding the use of any derivative contract held at any time during the financial year which did not fulfil the criteria in INSPRU 4.2.5 R; and
(i) the total value of any fixed consideration received by members (whether in cash or otherwise) during the financial year in return for granting rights under derivative contracts and a summary of contracts under which such rights have been granted.

(2) For the purposes of IPRU(INS) 9.54 (1), if members are a party to:

(a) a contract for differences; or
(b) any other contract which is to be, or may be, settled in cash they must be treated as having a right or obligation to acquire or dispose of the assets underlying the contract.

General insurance business ceded

9.55 (1) The Society must annex to the Lloyd's Return a statement:

(a) of each major treaty reinsurer and major facultative reinsurer; and
(b) for each of the realistic disaster scenarios set by the Society when fulfilling its obligations under INSPRU and GENPRU to monitor aggregation of risk within the Lloyd's market of the contribution it is assumed each such reinsurer would provide in the event of that disaster occurring.

The Society

9.56 (1) The Society must annex to the Lloyd's Return a statement naming each individual who has served:

(a) on the Council;
(b) as Chairman of the Council; and
(c) as Chief Executive Officer of the Society;

at any time during the financial year, including in each case the dates of commencement or end of service (as the case may be) of any individual who has not served for the entire year.

Capacity controlled

9.57 (1) The Society must annex to the Lloyd's Return a statement identifying any members, members' agents or managing agents that control a significant share of the underwriting capacity of the Society.

(2) To control a significant share means:

(a) in relation to a managing agent, managing, directing through one or more Members' Agent Pooling Arrangements or owning, whether directly or in conjunction with connected persons, capacity which in aggregate is greater than 5% of the total underwriting capacity of the Society;
(b) in relation to a members' agent, directing through one or more Members' Agent Pooling Arrangements or owing, whether directly or in conjunction with connected persons, underwriting capacity which in aggregate is greater than 2.5% of the total underwriting capacity of the Society; and

(c) in relation to a member, owning, whether directly or in conjunction with connected persons, underwriting capacity which, in aggregate, is greater than 2.5% of the total underwriting capacity of the Society.

Certificates and audit report

9.58 (1) Certificates

The Society must annex to the Lloyd's Return:

(a) a certificate from the Council, including the statements required by IPRU (INS) Appendix 9.12;

(b) a statement from the Lloyd's actuary, including the statements required by IPRU (INS) Appendix 9.13;

(c) a certificate from the syndicate actuary of each syndicate which carries on long-term insurance business, including the statements required by IPRU (INS) Appendix 9.14, and;

(d) an abstract from the syndicate actuary of each syndicate which carries on long-term insurance business of the actuary's report made under SUP 4.6.14G.

(2) Audit report

The Society must ensure that the Lloyd's Return and every document annexed to or provided with it has been examined by the Society's auditors and must provide with the Lloyd's Return an audit certificate in respect of that examination.

(3) The certificate in IPRU(INS) 9.58 (2) must be in the form set out in IPRU(INS) Appendix 9.15.

Public disclosure

9.59 (1) The Society must provide within a period not exceeding 30 days:

(a) on demand to any member or policyholder a copy of the Lloyd's Return and the global account most recently submitted to the FSA; and

(b) if specifically requested by a member or policyholder, a copy of any syndicate account submitted to the FSA.
Syndicate-level reporting

9.60 (1) Each managing agent must:

(a) prepare a return for each financial year in respect of the insurance business carried on through each syndicate managed by it; and

(b) provide the return in (a) to the Society as soon as practicable after the end of the financial year but in any event in time to enable the Society to report to the FSA in accordance with IPRU(INS) 9.48 (1).

(2) The Society must:

(a) issue instructions to managing agents setting out the form and content of the return under IPRU(INS) 9.60 (1); and

(b) issue the instructions in (a) as soon as practicable but in any event in time to enable managing agents to comply with IPRU(INS) 9.60 (1).

(3) A managing agent must annex to each return which it prepares under IPRU(INS) 9.60 (1), a certificate signed by the persons referred to in IPRU(INS) 9.60 (4), including the statements required by IPRU(INS) Appendix 9.17.

(4) The certificate in IPRU(INS) 9.60 (3) must be signed by:

(a) where there are more than two directors of the managing agent, at least two of those directors and, where there are not more than two directors, all the directors; and

(b) a chief executive, if any, of the managing agent or (if there is no chief executive) the secretary.

(5) A managing agent must ensure for each syndicate managed by it that the return required under IPRU(INS) 9.60 (1) is examined and reported on by the syndicate auditor.

(6) A managing agent must annex to each return required under IPRU(INS) 9.60 (1) an audit certificate provided by the syndicate auditor including the statements required by IPRU(INS) Appendix 9.18.

(7) A managing agent must annex to each return which it prepares under IPRU(INS) 9.60 (1) a statement of the information required by IPRU(INS) rule 9.32A, as if in that rule references to:

(a) ‘insurer’ were to the members carrying on insurance business through the relevant syndicate;

(b) the ‘return’ were to the return required to be prepared by it in respect of the business carried on through the relevant syndicate under IPRU(INS) 9.60 (1)

(c) the ‘insurer’s balance sheet’ were to the syndicate balance sheet;
The ‘insurer’s capital resources’ were to the capital resources managed by or at the direction of the managing agent in respect of the insurance business carried on through the relevant syndicate; and

The ‘insurer’s total technical provisions’ were to the technical provisions in respect of the insurance business carried on through the relevant syndicate.

The Central Fund

9.61 (1) The Society must give the FSA a report on the Central Fund as at the end of each calendar quarter.

(2) The report referred to in IPRU(INS) 9.61 (1) must reach the FSA within two weeks of the end of each calendar quarter and must include information on:

(a) the net market value of the Central Fund;

(b) payments made from the Central Fund in that quarter;

(c) the types of investment in which the Central Fund is held;

(d) the commencement or cessation of, or any changes in the terms of, any insurance policy taken out to protect the Central Fund; and

(e) any claim made, or circumstances notified that are likely to lead to a claim, under any insurance policy taken out to protect the Central Fund.

Information about the capacity transfer market

9.62 (1) The Society must give the FSA a report as at the end of each calendar quarter in which any capacity is transferred.

(2) The report referred to in INSPRU 8.4.3 R must reach the FSA within one month of the end of the relevant calendar quarter and must include information on:

(a) the total capacity in syndicates transferred during the quarter, analysed by syndicate and method of transfer;

(b) the number, and nature, of all investigations by the Society into conduct in the capacity transfer market undertaken or continued during the quarter; and

(c) the number, and nature, of all complaints received during the quarter about the operation of the capacity transfer market.
9.63 (1) IPRU(INS) Chapter 9 Part VII requires the Society to report on the insurance business carried on by members and on the assets and liabilities of members and the Society, and requires reports from the Society on the Central Fund and the capacity transfer market. It also requires managing agents to report on the insurance business carried on through each syndicate they manage. Reporting at syndicate level is required to enable the Society to prepare the Lloyd's Return. The statements required to be annexed to the return by IPRU(INS) 9.60 (7) should not be included in the audit under IPRU(INS) 9.49 (6).

(2) The Lloyd's Return is made annually and contains the statement required from the Society that capital resources at least equal to the capital resources requirements for general insurance business and long-term insurance business under GENPRU 2 have been maintained at all times throughout the financial year.

(3) For general insurance business, the capital resources requirement for the Society is the higher of the aggregate of the members' capital resources requirements for general insurance business, calculated in accordance with GENPRU 2.3.5 R, and the Society GICR. For long-term business, the capital resources requirement for the Society is the aggregate of the members' capital resources requirements, calculated in accordance with GENPRU 2.3.7 R. The Society is required to ensure that each member's capital resources requirement is covered by that member's capital resources, or, where there is a shortfall in the member's capital resources, by the Society's own capital resources. For general insurance business, the Society must ensure that the Society GICR is covered by the aggregate capital resources supporting the insurance business of all the members.

(4) Where appropriate, the Society is also required to modify prudential reporting to make it more like that of an insurer. This is to aid comparisons between Lloyd's and insurers.

9.64 The Society should make the report referred to in IPRU(INS) 9.48 (1), including amendments and corrections, and amalgamated syndicate accounts available at its head office for inspection by policyholders and potential policyholders and members.

9.65 (1) In assessing what are appropriate risk groups for reporting purposes the Society should ensure where possible that:

(a) each risk group should include only risks from within a single accounting class and in relation to a single country;

(b) policies are not included in the same risk group where, having regard to the patterns of risk, claims incurrence and settlement patterns, it is necessary to group them separately for the purposes of applying statistical methods in calculating the provision for claims outstanding in accordance with generally accepted accounting practice; and

(c) claims-made policies are not included in the same risk group as policies which are not claims-made policies, except:
(i) where this is not possible without disproportionate expense; and
(ii) where the policies within the risk group do not exhibit materially different characteristics.

(2) Subject to IPRU(INS) 9.50 (2)(a) and IPRU(INS) 9.50 (2)(b) and IPRU (INS) 9.65 (1)(c), the Society may in respect of any accounting class include all insurance business carried on by members in any country in any financial year as a single risk group.

(3) Notwithstanding the provisions of IPRU(INS) 9.50 (2)(a) and IPRU(INS) 9.50 (2)(b) and IPRU(INS) 9.65 (1)(c), the Society may classify all insurance business carried on by members in any country in respect of any accounting class in any financial year as a single risk group, as long as gross premiums written for that year in respect of that insurance business are less than 5% of the world-wide gross premiums written for all accounting classes for that year.

(4) The requirements to report a separate risk group in IPRU(INS) 9.50 (2)(a) do not apply where, in the case of any financial year, the gross premiums receivable for that year in respect of that risk group would be less than £1 million.

9.66 The Society should be treated as if it were a major treaty reinsurer when inter-syndicate reinsurance in aggregate exceeds the amounts set out in IPRU(INS) 9.51 (2).

9.67 The Society should be treated as if it were a major facultative reinsurer when inter-syndicate reinsurance in aggregate exceeds the amounts set out in IPRU (INS) 9.52 (2).

9.68 The Society should be treated as if it were a major reinsurance cedant when inter-syndicate cessions in aggregate exceed the amounts set out in IPRU (INS) 9.53 (2).

9.69 In relation to required disclosures of derivative contracts in IPRU(INS) 9.54 (1), references to a derivative contract and related expressions should be taken to include:

(1) any derivative contract entered into by a managing agent on behalf of a member as part of that member's insurance business; and

(2) any derivative contract entered into by the Society.

9.70 Contracts that are quasi-derivative contracts should be treated as derivative contracts.

9.71 The requirements of IPRU(INS) 9.55(1) may be satisfied by giving a fair view and may make use of an appropriate degree of approximation. The Society may employ any reasonable methods to establish the information required. The Society may also include such explanation as it considers to be necessary to allow a reasonable interpretation to be put on this statement.
9.72 (1) Because of the significance of the *Central Fund* in the protection of policyholders, the *Society* should notify the *FSA* under *IPRU(INS)* 9.61 (2)(e) of all matters relevant to any actual or potential claim. These include but are not limited to the facts on which that claim is based, the circumstances under which those facts arose and any relevant response to the claim from any *insurer* or reinsurer concerned.

(2) The report referred to in *IPRU(INS)* 9.61 (1) must be submitted in writing in accordance with *SUP* 16.3.7 to *SUP* 16.3.10 (see *SUP* 16.3.6).

**Statement by the Lloyd's actuary**

1. The statement required by *IPRU (INS)* 9.58 (1)(b) must be prepared and signed by the *Lloyd's actuary*, and must:
   - **(a)** state whether, for every *syndicate year* in which members carry on *general insurance business* either:
     - *(i)* the *syndicate actuary* has provided an unqualified opinion, which:
       - *(1)* is in a form conforming to guidance from the *actuarial bodies*; and
       - *(2)* confirms that the *technical provisions* set by the *managing agent* are at least equal to the *syndicate actuary's* best estimate; or
     - *(ii)* the *Lloyd's actuary* has set the *technical provisions* (both gross and net of reinsurance recoveries); and
   - **(b)** describe any source of uncertainty in the liabilities covered by the *technical provisions*, which in his opinion is material to the *Society* as a whole:
     - *(i)* which any *syndicate actuary* mentions in his opinion; or
     - *(ii)* which affects any *syndicate year* for which the *Lloyd's actuary* has set the *technical provisions*.

2. If the *Lloyd's actuary* has set the *technical provisions* for any *syndicate year*, the statement must include an opinion covering those *technical provisions*, which:
   - **(a)** confirms that they are at least equal to his best estimate; and
   - **(b)** is in a form conforming to guidance for *syndicate actuaries* from the *actuarial bodies*, modified to show:
     - *(i)* that he is retained by the *Society* and not the *managing agent*;
     - *(ii)* that he, and not the *managing agent*, set the *technical provisions*; and
     - *(iii)* separately, the *technical provisions* of each *syndicate year* covered.

3. If the *Lloyd's actuary* considers it necessary, such qualification, amplification or explanation as may be appropriate must be added to the statement.

## Appendix 9.15 (rule IPRU (INS) 9.58 (3))

### Auditors' report

1. The certificate required by *IPRU (INS)* 9.58 (2) must, in addition to any statement required by section 237(2) and (3) of the Companies Act, state:

   (a) that in the auditors' opinion, Forms 9 to 17, 20 to 42, the supplementary notes to the forms and the statements required under *IPRU (INS)* 9.51 (1), *IPRU (INS)* 9.52 (1), *IPRU (INS)* 9.53 (1) and *IPRU (INS)* 9.54 (1) have been properly prepared in accordance with *IPRU (INS)* Chapter 9 Part VI, *INSPRU* and *GENPRU*;

   (b) that according to the information and explanations that the auditors have received:

   (i) in their opinion, the certificate required to be signed in accordance with *IPRU (INS)* 9.58 (1)(a), otherwise than in relation to statements to which paragraph 1(c) of this table relates, has been properly prepared in accordance with *IPRU (INS)* Chapter 9 Part VII, *INSPRU* and *GENPRU*; and

   (ii) subject to paragraph 1(c), it was or was not unreasonable for the persons giving the certificate to have made the statements in it (other than statements to which paragraph 1(c) relates); and

   (c) the extent to which, in giving their opinion, the auditors have relied:

   (i) in respect of financial information supplied to the *Society* by *managing agents* on behalf of *syndicates*, on work carried out by *syndicate auditors*; and

   (ii) in respect of *long-term insurance business* carried on by *members*, on the certificates of the *syndicate actuaries* given in accordance with the requirements of *IPRU (INS)* Chapter 9 Part VII, *INSPRU* and *GENPRU* with respect to the amounts in Form 60.

2. The audit opinion required by 1(b)(i) does not extend to cover the statements required under:

   (a) *IPRU (INS)* 9.55 (1) and ; and *IPRU (INS)* 9.57 (1)

   (b) *IPRU (INS)* Appendix 9.12 1(d), but only in so far as it relates to relevant guidance which either states that compliance with the guidance need not be audited or which relates to controls with respect to money laundering.

3. To the extent that the information and explanations they have received do not allow the auditors to express an opinion on whether it was or was not unreasonable for the *Council* to have made the statement required by *IPRU (INS)* Appendix 9.12 1(a)(iii) the auditors must add to their report such qualification, amplification or explanation as may be appropriate.
Where the auditors refer in their report or in any note attached to their report to any uncertainty, the report must state whether, in the auditors’ opinion, that uncertainty is material to determining whether the Society is able to meet the solvency requirements of IPRU (INS) Chapter 9 Part VII, INSPRU and GENPRU.

1 Chapter 1: Application and General Provisions

1.1 Purpose

1.1.1 G Before 1 January 2007, the Interim Prudential Sourcebook for Investment Businesses (IPRU (INV)) sets out the detailed financial resources and prudential standards which the FSA applies to certain firms on an interim basis pending the introduction of a single prudential sourcebook applying to all firms regulated by the FSA—the Integrated Prudential Sourcebook. It was the part of the Handbook that dealt with capital requirements for investment firms subject to the position risk requirements of the previous version of the Capital Adequacy Directive. Now however, investment firms which are subject to the risk-based capital requirements of the Capital Adequacy Directive are subject to the General Prudential sourcebook (GENPRU) and the Prudential sourcebook for Banks, Building Societies and Investment Firms (BIPRU). However the FSA has not yet removed the parts of IPRU (INV) that deal with requirements for firms subject to risk-based capital requirements of the previous version of the Capital Adequacy Directive. Consequently, many provisions of IPRU (INV) will not apply to any firm. The FSA intends to remove these provisions in due course.

...

1.1.3A G This sourcebook does not apply to BIPRU investment firms except as provided in chapter TP of BIPRU applying parts of IPRU (INV) to certain BIPRU investment firms on a transitional basis.

...

1.1.6 G The Supervision manual sets out provisions relating to the periodic reporting and notification of financial information to the FSA or to the auditing of accounts. However, this sourcebook contains a few additional notification requirements (notification rules) arising out of EU Directives.

1.2 APPLICATION

1.2.1 ...

1.2.2 R (1) IPRU (INV) applies to:

(a) …

...

(g) the Society of Lloyd's (in relation to underwriting agents); and

(h) a UCITS management company; and

(i) …

(2) IPRU (INV) does not apply to:
(a) a lead regulated firm; or
(b) a media firm; or
(c) a BIPRU investment firm.

(3) …

1.2.3 G For the avoidance of doubt, IPRU (INV) does not apply to any of the following:

GLOSSARY OF TERMS FOR CHAPTER 5 (FORMER IMRO FIRMS)

Amend the following definitions in Appendix 1 as shown:

*category b body* means:

(a) …

…

(e) an investment firm or credit institution authorised in any other country, which applies a financial supervision regime at least equivalent to the Capital Adequacy Directive (No. 93/6/EEC) *Capital Adequacy Directive*.

*exempt exposure* means:

(a) …

…

(g) to a connected company provided that the group is supervised on a consolidated basis in accordance with the Second Consolidated Supervision Directive *Banking Consolidation Directive* and the consolidation requirements of the Capital Adequacy Directive (No. 93/6/EEC) *Capital Adequacy Directive*. 
Adequacy Directive; or

financial resources requirement

(a) (in relation to a UCITS management company) has the meaning given in rule 7.2.1R(2) and (3);

(b) (in relation to a firm other than one in (a)) has the meaning given in rule 5.2.3(1)(a) to (c) (Determination of requirement).

liquid capital

(a) (in relation to a UCITS management company) means capital calculated in accordance with Table 7.3.1R composed of the specified items set out in that Table;

(b) (in relation to a firm other than one in (a)) has the meaning given in rule 5.2.2(1) (Calculation of own funds and liquid capital).

otc derivative

means interest rate and foreign exchange contracts covered by Annex III to the previous version of the Banking Consolidation Directive (i.e. Directive (2000/12/EC) and off balance sheet contracts based on equities which are not traded on a recognised or designated investment exchange or other exchange where they are subject to daily margin requirements, excluding any foreign exchange contract with an original maturity of 14 calendar days or less.

own funds

(a) (in relation to a UCITS management company) has the meaning given in Table 7.3.1R composed of the specified items set out in that Table;

(b) (in relation to a firm other than one in (a)) has the meaning given in rule 5.2.2(1) (Calculation of own funds and liquid capital).

recognised third country investment firm

means an investment firm which is authorised in a country other than a member state and which is subject to and complies with prudential rules equivalent to the requirements of the Capital Adequacy Directive (No. 93/6/EEC) Capital Adequacy Directive.

10-32(6) A firm which is subject to the waiver from consolidated supervision in accordance with rule 10-204.14.1.4 R is exempt from (5) above.

10-60 FIRMS TO WHICH RULES 10-61 TO 10-20410-196 APPLY

Category A, B and C firms

10-60(1) Rules 10-61 to 10-20410-196 apply to a category A, B or C firm

10-61(7) A firm must deduct the full value of its material holdings in credit or financial institutions, in accordance with Table 10-61(1)B, unless:

(a) the firm has been granted a waiver from rules 10-200 to 10-203 IPRU(INV) 14, in which case it must:

(i) deduct in full from original own funds those material holdings in credit or financial institutions which would have been included in the scope of consolidation in accordance with rule 10-200(3)14.2.1R if the waiver had not been granted; and

10-62(2) A firm must calculate its financial resources in accordance with Table 10-62(2)(2)A below, unless:

(a) it has been granted a waiver from rules 10-200 to 10-203 IPRU(INV) 14, in which case it must calculate financial

DEFINITION OF A QUALIFYING DEBT SECURITY

R A debt security is a qualifying debt security if:

(1) …

(4) it is a mortgage backed security relating to residential real estate of the type referred to in BIPRU 3.4.94R(1)(d)(i) which meets the criteria in 7e of section 3.2.5 of chapter BC of IPRU (BANK) requirements about legal certainty referred to in BIPRU 3.4.62R.

Chapter 10, Appendix 10: Use of CAD 1 Model

5. G As explained in SUP 8.3.1G, waivers permitting the use of models in the calculation of PRR will not be granted if that would be contrary to the CAD, and any waiver which is granted will only be granted on terms that are compatible with the CAD. The FSA considers it unlikely that it will deviate from this even where the firm making the waiver application is not subject to CAD. Accordingly, it is generally the case that only waivers permitting the use of models that the FSA is likely to grant are CAD1 and VaR models in accordance with the policy in this appendix.

Chapter 10, Appendix 11: Use of Value at Risk Model

2. G The models described in this appendix are described as VaR models in order to distinguish them from the kinds of model originally contemplated by the Capital Adequacy Directive (CAD) previous version of the Capital Adequacy Directive (i.e. Directive 93/6/EEC). (These are covered in Appendix 10 and referred to as "CAD 1 models"). A VaR model is a risk management model which uses a statistical measure to predict profit and loss movement ranges with a confidence interval. The standards described in this appendix, and which will be applied by the
12. REGULATORY CAPITAL TREATMENT

... Furthermore, the FSA is constrained by the requirements of the Capital Adequacy Directive, and the associated pieces of legislation; it is possible that what seems a common sense approach could be illegal.

... Offset for capital adequacy purposes

The Capital Adequacy Directive allows the competent authorities to FSA recognises certain offsets for general market risk, but requires that the specific risk charge is applied to gross positions.

... Risk assessment models

In the light of the forthcoming CADII package of directives, firms may also wish to consider whether to approach the FSA for permission to use an appropriate risk assessment model as the basis for calculating regulatory capital requirements.

... Netting

A firm may net long and short positions in the same equity, debt and derivative instruments (under Chapter 10 rule 10-8323R of appendix 5 for equities based instruments and rule 10-40237R of appendix 4 for interest rate based products) before the specific risk charge is applied to the resultant net long or short position. Instruments are considered to be the same where the issuer is the same, they have equivalent ranking in liquidation, and the currency, coupon and maturity are the same. These netting criteria are taken from Annex 1 (Position Risk) of the Capital Adequacy Directive ("CAD 1") previous version of the Capital Adequacy

14 Chapter 14: Consolidated supervision for investment business
14.1 Application
14.1.1 R Subject to rule 14.1.2, consolidated supervision and this chapter apply to a firm which is a member of a group if it is:

(1) a securities and futures firm, subject to the financial rules in Chapter 3, which is a broad scope firm but not a venture capital firm it is:
(a) a securities and futures firm, subject to the financial rules in Chapter 3, which is a broad scope firm but not a venture capital firm;

(b) a securities and futures firm, subject to the financial rules in Chapter 10, unless the firm is a category D firm; or

(c) a category A personal investment firm, subject to the financial rules in Chapter 13; and

(2) it is not a BIPRU firm, an investment management firm, which is a CAD investment firm subject to the financial rules in Chapter 5;

(3) a UCITS investment firm, subject to the financial rules in Chapter 7;

(4) a securities and futures firm, subject to the financial rules in Chapter 10, unless the firm is a category D firm; or

(5) a category A personal investment firm, subject to the financial rules in Chapter 13.

Cases where consolidated supervision under this chapter will not apply

14.1.2 R A firm is not subject to consolidated supervision under the rules in this Chapter where any of the following conditions are fulfilled:

(1) the firm is included in the supervision on a consolidated basis of the group of which it is a member by a competent authority other than the FSA;

(2) the firm is a member of a UK consolidation group already included in the supervision on a consolidated basis of the group of which it is a member by the FSA under IPRU(BANK) or IPRU(BSOC) BIPRU 8.

14.1.3 G (1) The rules in this chapter apply even if the firm is subject to the rules in PRU 8.4 (the financial conglomerates rules) or PRU 8.3 (the insurance group rules), if the firm is part of an investment sub-group. Financial conglomerates are subject to the Financial Groups Directive (2002/87/EC). Insurance groups are subject to the Insurance Groups Directive (98/78/EC). Neither directive allows a waiver of consolidation of a Capital Adequacy Directive group. So if there is an investment sub-group within an insurance group, the rules in this chapter apply, regardless of the application of a group capital assessment to the wider group. [Deleted]

(2) Where firms authorised in two or more member states have as their parent the same financial holding company, supervision on a consolidated basis will be exercised by the competent authority of the firms authorised in the member state in which the financial holding company was set up. If no firm has been authorised in the Member State in which the financial holding company was set up, the competent authorities of the Member States concerned will seek to reach agreement as to who amongst them will exercise supervision
on a consolidated basis. In the absence of such an agreement, supervision on a consolidated basis will be exercised by the competent authority that granted authorisation to the firms with the greatest balance sheet total (measured on the basis of total assets). If that figure is the same for more than two authorised firms, supervision on a consolidated basis will be exercised by the competent authority which first gave the authorisation. [Deleted]

(3) Where there is more than one authorised firm in the group, subject to the rules of this chapter, one consolidated supervision return may be submitted on behalf of all the firms in the group in accordance with SUP 16.3.25G.

Exemption from consolidated supervision

14.1.4 R A firm need not meet the requirements in rules 14.3.1 and 14.3.2 if:

(1) …

(2) …

(3) each member of the group which is a CAD investment firm:

(a) deducts any material holdings in credit and financial institutions from its financial resources;

(b) complies with its solo applicable financial resources requirement and the large exposures requirements; and

(c) has systems and controls to monitor and control the sources of capital and funding of all other financial institutions within the group. [Deleted]

(4) …

(5) …

(6) …

(7) …

…

14.1.6 G (4) The Capital Adequacy Directive (articles 7(4) to 7(6)) provides that a competent authority such as the FSA may waive consolidated supervision provided certain conditions are met. The conditions in rule 14.1.4 are mainly derived from the Capital Adequacy Directive. [Deleted]

(2) …

…
14.2 Scope of consolidation

14.2.4 G (1) A firm's parent is a financial holding company if it is either a financial institution or a securities and futures firm that is subject to the financial rules in Chapter 3 and that is a broad scope firm (but not a venture capital firm) and if its subsidiary undertakings carry out mainly listed activities, activities of a credit institution or activities undertaken by a Chapter 3 broad scope firm. For this purpose the FSA interprets the phrases 'mainly' or 'main business' to mean where the balance of business is over 40% of the relevant group or sub-group's balance sheet (measured on the basis of total assets) or profit and loss statement (measured on the basis of gross income). In addition, if the firm’s parent has significant holdings in insurance undertakings or reinsurance undertakings, it is a mixed financial holding company, and the firm is subject to the rules in GENPRU 3.1 PRU 8.4 instead of the rules in this chapter. This is because a parent cannot be a financial holding company and a mixed financial holding company at the same time. GENPRU 3.1 PRU 8.4 sets out what constitutes significant insurance holdings (broadly more than 10% of the financial sector activities of the group). A firm's parent is a financial holding company and not regarded as a mixed financial holding company unless:

(a) the parent has been notified by its coordinator that the group it heads is a financial conglomerate (in accordance with Article 4(2) of the Financial Groups Directive); and

(b) it has not been notified that the coordinator and the relevant competent authorities have agreed not to treat the group as a financial conglomerate in accordance with Article 3(3) of the Financial Groups Directive.

(2) A firm with an ultimate non-EEA parent may also be subject to the provisions in GENPRU 3.2 PRU 8.5.

14.4 Group financial resources

14.4.2 R (1) If more than one firm in the group is subject to the rules of this chapter, group financial resources are defined according to the relevant rules applicable to the main firm in the group to which this chapter applies, with Tier 1 minority interests being allowed as Group Tier 1 capital and Tier 2 minority interests being allowed as Group Tier 2 capital.

(2) …

14.4.3 R Financial resources will be defined based upon the main firm in the group to
which this chapter applies as follows:

(1) …

(2) if an investment management firm, Table 5.2.2(1)R but excluding any illiquid assets or qualifying property adjustments required by that Table;

(3) if a UCITS investment firm, Table 7.3.1R but excluding any illiquid assets or qualifying property adjustments required by that Table;

(4) …

(5) …

14.5 Group financial resources requirement

…

14.5.2 R Financial resources requirements for individual entities in the group are:

(1) for firms regulated by the FSA, their regulatory capital requirement under FSA rules;

(2) for entities regulated by an EEA regulator or one of the regulators listed in IPRU(INV) 10 App 59 or IPRU(BANK) CS Appendix D and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement; and

(2A) for entities that are recognised third country credit institutions or recognised third country investment firms and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement;

(2B) for entities not in (2A) that are regulated by a third country competent authority named in the table in BIPRU 8 Annex 3R and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement; and

(3) for other entities in the group, a notional financial resources requirement calculated as if the entity were regulated by the FSA.

…

14.5.4 G A firm may apply for a waiver of rule 14.5.1R, to permit a line-by-line approach to determine its group financial resources requirement. Any waiver application should demonstrate (where relevant) that the constraints for intra-group offsets under the Capital Adequacy Directive (article 7) are met. A firm should also demonstrate that calculating its requirement in this way does not result in a distortion of the group financial resources requirement.
APPENDIX 14(1) (INTERPRETATION)

Amend the following definitions as shown:

**CAD Article 53 exempting criteria**
the following criteria in respect of the firm’s dealing positions:
- such positions arise only as a result of the firm’s failure to match investors orders precisely;
- the total market value of all such positions is subject to a ceiling of 15% of the firm’s initial capital; and
- such positions are incidental and provisional in nature and strictly limited to the time required to carry out the transaction in question.

**CAD investment firm**
a firm subject to the requirements of the Capital Adequacy Directive (CAD) (93/6/EEC) excluding a person to whom the CAD does not apply under Article 3.1(b)2.2 of that Directive.

**financial holding company**
an undertaking that satisfies the following conditions:

(a) …

(b) …

one of which at least is a credit institution, a firm falling within IPRU(INV) rule 14.1.1(1) or an investment firm; and

(c) it is not a mixed financial holding company within the meaning of PRU 8.4

**parent**
any parent undertaking as defined in section 258 of the Companies Act 1985 or paragraph 14 of Financial Reporting Standard No 2 and any undertaking which effectively exercises a dominant influence over another undertaking.

Annex K

Amendments to the Market Conduct sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend MAR 3.3.3G as follows:

3.3.2 G MAR 3 is not the only chapter of the Handbook that applies to firms doing inter-professional business. Firms should always consider what other parts of the Handbook may apply to them. A table listing the applicable Principles is set out in MAR 3 Annex 2. The table also sets out the key provisions of COB and CASS that may also apply to firms doing inter-professional business, but it should not be read as an exhaustive list. Firms should also consider the other provisions of the Handbook, especially but not exclusively IPRU and PRA, the Prudential Standards part of the Handbook.
Annex L

Amendments to the Supervision manual

For the convenience of readers this Annex is in four parts.

Part 1: amendments relating to the Society of Lloyd's

Amend SUP 15.1.1R as follows. New text is underlined and deleted text is shown struck-through:

Who?
15.1.1 R This chapter applies to every firm except that:
(1) only SUP 15.10 applies to an ICVC or a UCITS qualifier; and
(2) SUP 15.3.22D to SUP 15.3.25D apply only to the Society.

Insert the following text after SUP 15.3.21R. The text is redesignated and restated and amendments to the text are not shown:

Lloyd's of London

15.3.22 D SUP 15.3.22D to SUP 15.3.25D are given in relation to the exercise of the powers of the Society and of the Council generally, with a view to achieving the objective of enabling the FSA to:

(1) comply with its general duty under section 314 of the Act (Authority's general duty);
(2) determine whether underwriting agents, or approved persons acting for them or on their behalf, are complying with the requirements imposed on them by or under the Act;
(3) enforce the provisions of the Act, or requirements made under the Act, by enabling the FSA to consider, where appropriate, whether it should use its powers, for example, to:

(a) vary or cancel the permission of an underwriting agent, under section 45 of the Act (Variation etc on the Authority's own initiative);
(b) withdraw approval from an approved person acting for or on behalf of an underwriting agent, under section 63 of the Act (Withdrawal of approval) (see ENF 7);
(c) prohibit an individual acting for or on behalf of an
underwriting agent from involvement in regulated activities, under section 56 of the Act (Prohibition orders) (see ENF 8);

(d) require an underwriting agent to make restitution, under section 384 of the Act (Power of Authority to require restitution) (see ENF 9);

(e) discipline an underwriting agent, or an approved person acting for it or on its behalf, for a breach of a requirement made under the Act, including the Principles, Statements of Principle and rules (see ENF 11, ENF 12 and ENF 13);

(f) apply to court for an injunction, restitution order or insolvency order (see ENF 6, ENF 9 and ENF 10); and

(g) prosecute any criminal offence that the FSA has power to prosecute under the Act (see ENF 15).

15.3.23 D The Society must immediately inform the FSA in writing if it becomes aware that any matter likely to be of material concern to the FSA may have arisen in relation to:

(1) the regulated activities for which the Society has permission; or

(2) underwriting agents; or

(3) approved persons or individuals acting for or on behalf of underwriting agents.

15.3.24 D The Society must inform the FSA if it commences investigations or disciplinary proceedings relating to apparent breaches:

(1) of the Act or requirements made under the Act, including the threshold conditions or the Principles or other rules, by an underwriting agent; or

(2) of the Statements of Principle by an individual or other person who carries out controlled functions for or on behalf of an underwriting agent.

15.3.25 D The Society must inform the FSA if it commences investigations or disciplinary proceedings which do not fall within the scope of SUP 15.3.24D but which:

(1) involve an underwriting agent, or an approved person who carries out controlled functions for it or on its behalf; or

(2) may indicate that an individual acting for or on behalf of an underwriting agent may not be a fit and proper person to perform functions in relation to regulated activities.
Insert a new section SUP App 2.16 (Regulatory intervention points for Lloyd's) as follows. The text is redesignated and restated and amendments to the text are not shown:

App 2.16
Regulatory intervention points for Lloyd's

Application

App 2.16.1
The rules and guidance in SUP App 2 apply to the Society:

(1) with the modifications set out in SUP App 2.16.2R to SUP App 2.16.5G; but

(2) except SUP App 2.8.1G to SUP App 2.8.5G, SUP App 2.9.1R, SUP App 2.10.1R, SUP App 2.12.1R(2)(a), SUP App 2.12.2G and SUP App 2.12.7R.

Interpretation

Interpretation

App 2.16.2
For the purpose of SUP App 2.16 and the application of SUP App 2 to the Society:

(1) "capital resources", as the context requires:

(a) in relation to the Society's own capital resources, means its own capital resources calculated in accordance with the capital resources table;

(b) in relation to a member's capital resources, means the member's capital resources calculated in accordance with GENPRU 2.3.22R;

(c) in relation to the aggregate capital resources of the Society and the members supporting the insurance business of the members, means the aggregate of the capital resources in (1)(a) and (b) but excluding the Society's callable contributions;

(2) "guarantee fund":

(a) in relation to the general insurance business carried on by members, means the amount of capital resources required in order to comply with GENPRU 2.2.26R, GENPRU 2.3.17R and GENPRU 2.3.26R; and the "member's share of the guarantee fund" for general insurance business means the result of the calculation set out in GENPRU 2.3.27R;

(b) in relation to the long-term insurance business carried on by members, means the amount of capital resources required in order to comply with GENPRU 2.2.25R and GENPRU 2.3.17R; and the "member's share of the guarantee fund" for long-term insurance business means the result of the calculation set out in GENPRU 2.3.25R;
(3) "required margin of solvency":

(a) in relation to the *general insurance business* carried on by *members*, means the higher of the *Society GICR* and the *general insurance capital requirement* for the *members* in aggregate; and

(b) in relation to the *long-term insurance business* carried on by *members*, means the *long-term insurance capital requirement* for the *members* in aggregate.

**Capital resources below guarantee fund**

App 2.16.3 R For the purposes of *SUP App 2.4.1R* and *SUP App 2.4.2G*, *capital resources* will have fallen below the guarantee fund if the *Society's own capital resources are such that they are no longer sufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's capital resources* fall short of the *member's share of the guarantee fund.*

**Capital resources below required margin of solvency**

App 2.16.4 R For the purposes of *SUP App 2.5.1R* to *SUP App 2.5.3G*, capital resources will be such that they no longer equal or exceed the required solvency margin if the *Society's own capital resources are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's capital resources* fall short of the *member's share of the required solvency margin.*

**Capital resources below capital resources requirement**

App 2.16.5 R For the purposes of *SUP App 2.6.1G*, capital resources will have fallen below the *capital resources requirement* if the *Society's own capital resources are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's capital resources* fall short of the *member's share of the capital resources requirement for the members in aggregate.*

**Capital resources below the level of individual capital guidance**

App 2.16.6 G For the purposes of *SUP App 2.7.1G* to *SUP App 2.7.5G*, capital resources will have fallen below the level of *individual capital guidance* if the *Society's own capital resources have fallen below the level advised in *individual capital guidance* given to the *Society in respect of those capital resources.*

Amend SUP App 2.1 to 2.14 as follows:

2 Insurers: Regulatory intervention points

2.1 Application

2.1.1 R This appendix applies *SUP App 2.1 to 2.15 apply* to an *insurer* unless it is:

1. a *Swiss general insurer*; or
2. an *EEA-deposit insurer*; or
3. an *incoming EEA firm*; or
4. an *incoming Treaty firm*.

2.1.2 G This appendix applies *SUP App 2.1 to 2.15 apply* to every *friendly society* as a *friendly society* is an *insurer*.

2.1.3 R *SUP App 2.16 applies to the Society*.

2.2 Interpretation
2.2.1 R For the purpose of SUP App 2.1 to 2.14:

(1) “capital resources”:

(a) …;

(b) in relation to a participating insurance undertaking, means $P+T$, where $P$ and $T$ have the meanings given by PRU 8.3.45R(3)(a) INSPRU 6.1.45R(3)(a) and (e) respectively, as calculated in accordance with PRU 8.3.43R INSPRU 6.1.43R; and

(c) in relation to any other firm, means the firm’s capital resources as calculated in accordance with GENPRU 2.2.12R;

(2) “guarantee fund”:

(a) …;

(b) in relation to a participating insurance undertaking, means the amount of capital resources which that firm must hold to comply with PRU 8.3.45R(2) INSPRU 6.1.45R(2);

(c) in relation to a firm which is not covered by (a) or (b), carrying on general insurance business, means the amount of capital resources which that firm must hold to comply with PRU 2.2.18R GENPRU 2.2.34R; and

(d) in relation to a firm which is not covered by (a) or (b), carrying on long-term insurance business, means the amount of capital resources which that firm must hold to comply with PRU 2.2.17R GENPRU 2.2.33R;

(3) …

(4) “required margin of solvency”:

(a) …;

(b) in relation to a participating insurance undertaking, means $R-S-U$, where $R$, $S$ and $U$ have the meanings given by PRU 8.3.45R INSPRU 6.1.45R (3)(c), (d) and (f) respectively;

2.2.2 G The calculation of each of the base capital resources requirement, the long-term insurance capital requirement and the general insurance capital requirement is set out in GENPRU 2.1. The calculation of each of the “guarantee fund” and “required margin of solvency” for non-directive friendly societies is set out in chapter 4 of IPRU(FSOC).

2.3 Purpose
2.3.1 G …

2.3.2 G The rules in this appendix SUP App 2.1 to 2.14 require a firm to submit reports and information to the FSA when:

…

2.3.3 G The FSA may also ask a firm to submit reports and information to it when the firm’s capital resources fall below the level advised in individual capital guidance given to the firm.

…

2.3.7 G Principle 4 of the FSA’s Principles for Businesses provides that firms should hold adequate financial resources, while PRU 1.2.22R GENPRU 1.2.26R requires a firm to maintain overall financial resources which are adequate to ensure that there is no significant risk that it cannot meet its liabilities as they fall due. In considering these requirements, a firm may decide to maintain capital resources above the level advised in individual capital guidance given by the FSA, or, if no individual capital guidance has been given, above its capital resources requirement. The amount of any such additional capital resources held is at the discretion of the firm. However, the extent to which a firm matches these additional capital resources to the volatility of its capital base, in conjunction with the strength of its systems and controls environment, is likely to affect the frequency with which it is subject to intervention under this appendix.

…

2.5 Capital resources below required margin of solvency

2.5.1 R Unless SUP App 2.5.3R applies:

(1) if a firm’s capital resources are such that they no longer equal or exceed its required margin of solvency; or

(2) if a firm no longer complies with PRU 2.2.16R GENPRU 2.2.32R and PRU 2.2.24R GENPRU 2.2.28R, or PRU 8.3.45R INSPRU 6.1.45R(1)(a) and PRU 8.3.45R INSPRU 6.1.45R(1)(b), as applicable;

it must, within 28 days of becoming aware of this event, submit to the FSA a plan for the restoration of a sound financial position, including:

(3) a scheme of operations; and

(4) an explanation of how, if at all, and by when:

(a) it expects its capital resources to be restored to the required margin of solvency; or

(b) as the case may be, it expects to comply with PRU 2.2.16R GENPRU 2.2.32R and PRU 2.2.24R GENPRU 2.2.28R, or PRU
2.5.2 G ....

2.5.3 R If a firm:

(1) falls into SUP App 2.5.1R(1) or (2); and

(2) it has previously submitted either a run-off plan in accordance with SUP App 2.8.1R or a scheme of operations in accordance with SUP App 2.5.1R;

it must, within 28 days of becoming aware that it falls into SUP App 2.5.1R(1) or (2):

(3) notify the FSA; and

(4) submit a plan for restoration which:

(a) explains why the firm’s capital resources have fallen below its required margin of solvency or, as the case may be, it no longer complies with PRU 2.2.16R GENPRU 2.2.32R or PRU 2.2.24R GENPRU 2.2.28R, or PRU 8.3.45R INSPRU 6.1.45R(1)(a) and PRU 8.3.45R INSPRU 6.1.45R(1)(b), as applicable; and

(b) demonstrates how, if at all, and by when, the firm will restore it or, as the case may be, resume compliance with PRU 2.2.16R GENPRU 2.2.32R and PRU 2.2.24R GENPRU 2.2.28R, or PRU 8.3.45R INSPRU 6.1.45R(1)(a) and PRU 8.3.45R INSPRU 6.1.45R(1)(b), as applicable.

2.6 Capital resources below capital resources requirement

...

2.7 Capital resources below the level of individual capital guidance

2.7.1 G Unless any of SUP App 2.4.1R, 2.5.1R, 2.5.3R or 2.6.1R applies, if a firm’s circumstances change, such that its capital resources have fallen, or are expected to fall, below the level advised in individual capital guidance given to the firm by the FSA, then, consistent with PRIN 2.1.1R Principle 11 (Relations with regulators), a firm should inform the FSA of this fact as soon as practicable, explaining why capital resources have fallen, or are expected to fall, below the level advised in individual capital guidance, and:

(1) what action the firm intends to take to increase its capital resources; or

(2) what modification the firm considers should be made to the individual capital individual capital guidance which it has been given.
In relation to a firm carrying on with-profits insurance business, if it intends either (a) to remedy a fall in the level of capital resources advised in its individual capital guidance, or (b) to prevent a fall in the level advised in that guidance, for example, in either case, by taking management action to de-risk a with-profits fund or by reducing non-contractual benefits for policyholders, it should explain to the FSA how such proposed actions are consistent with the firm’s obligations under PRIN 2.1 Principle 6 (Customers’ interests).

If a firm’s capital resources fall below the level advised in individual capital guidance given to the firm and, at the same time, any one or more of SUP App 2.4.1R, 2.5.1R, 2.5.3R or 2.6.1R applies, the firm should first comply with those rules. Those rules are concerned with circumstances where capital resources are likely to have fallen to levels much lower than the level advised in individual capital guidance and are, in some cases, requirements imposed by the Insurance Directives.

If a firm has not accepted individual capital guidance given by the FSA it should, nevertheless, inform the FSA as soon as practicable if its capital resources have fallen below the level suggested by that individual capital guidance. In such circumstances, the FSA may ask the firm for further explanation as to why it does not consider the individual capital guidance to be appropriate. The FSA may also consider using its powers under section 45 of the Act to, on its own initiative, vary a firm’s Part IV permission, so as to require it to hold such capital as the FSA considers is necessary for the firm to comply with GENPRU 1.2.22R.

In relation to firms covered by this appendix, SUP App 2.1 to 2.14, IPRU(FSOC) 4.1 sets out the rules relating to capital resources for non-directive friendly societies and GENPRU 2.1, 2.2 and 8.3 INSPRU 6.1 set out the rules relating to capital resources for every other firm.

To reflect its obligations under GENPRU 2.1.14R or IPRU(FSOC) 4.1(2) (as applicable), in order to comply with SUP App 2.12.1R, a firm which carries on both long-term insurance business and general insurance business should submit separate information for each type of insurance business.

10.12.3 G In accordance with section 60 of the Act (Applications for approval), applications must be submitted by, or on behalf of, the firm itself, not by the candidate. Usually this will be the firm that is employing the candidate to perform the controlled function. Where a firm has outsourced the performance of a controlled function, the details of the outsourcing determine where responsibility lies and whom the FSA anticipates will submit approved persons forms. SUP 10.12.4 G describes some common situations. The firm which is outsourcing is referred to as "A" and the person to whom the performance of the function has been outsourced, or which makes the arrangement for the function to be performed, is referred to as "B". In each situation, A must take reasonable care to ensure that, in accordance with section 59(2) of the Act, no person performs a controlled function under an arrangement entered into by its contractor in relation to the carrying on by A of a regulated activity, without approval from the FSA. See also SYSC 3.2.4 G and if applicable IPRU (BANK) OS, IPRU (BSOC) OS, and for insurers SYSC 13.9.

App 1.2.2  G  The FSA is developing its approach to prudential standards and some provisions in the Supervision manual in a two-stage approach. Initially the FSA is including in the Handbook interim material as set out in the five Interim Prudential sourcebooks and the Supervision manual, for example SUP 16 (Reporting requirements). The FSA is developing material which will provide an integrated approach to the setting of prudential standards. Each of the Interim Prudential sourcebooks is based on the prudential regime that existed before commencement, changed, mainly where the Act, and other statutory and international developments, have made a change desirable or essential. The Lloyd’s sourcebook shows less continuity with the prudential regime previously applied to the Society of Lloyd’s, as it introduces requirements similar to those already applied to insurers. Most grandfathered firms have a prudential category and sub-category equivalent to that which they had before commencement.

Prudential requirements for firms are set out in the Prudential Standards part of the Handbook according to their prudential category. Certain reporting requirements and other prudential material are contained in the Supervision manual, for example SUP 16 (Reporting requirements).

Amendments to the Dispute Resolution: Complaints manual

Part 1: amendments relating to the redesignation of LLD 7

Amend DISP 1.7.12G as follows. Deleted text is shown struck-through:

1.7.12 G Complaints from members of the Society of Lloyd's regarding the activities of members' advisers, which cannot be resolved by the members' adviser, cannot be referred to the Financial Ombudsman Service. (See LLD (the Lloyd's sourcebook), for further information concerning complaints by members of the Society of Lloyd's.)

Insert the following text after DISP 1.7.12G. The text is redesignated and restated text. Amendments to the redesignated text are not shown.

1.7.13 G The Financial Ombudsman Service is not be able to deal with the complaints listed in DISP 1.7.14R and separate rules and guidance are therefore required.

1.7.14 R The Society must establish and maintain appropriate and effective arrangements for handling any complaint from a member or a former member about:

(1) regulated activities carried on by the Society;

(2) the Society's regulatory functions carried on by the Society, the Council or those to whom the Council delegates authority to carry out such functions;

(3) advice given by an underwriting agent to a person to become, continue or cease to be, a member of a particular syndicate; and

(4) the management by a managing agent of the underwriting capacity of a syndicate on which the complainant participates or has participated.

1.7.15 R The Society must maintain by byelaw one or more appropriate effective schemes for the resolution of disputes between an individual member or a former member who was an individual member and:

(1) his underwriting agent; or

(2) the Society.

1.7.16 R For the purposes of DISP 1.7.14R "individual member" includes a member which is a limited liability partnership or a body corporate whose members consist only of, or of the nominees for, a single natural person or a group of connected persons.

1.7.17 G The schemes to which DISP 1.7.14R currently refers are the Lloyd's
Arbitration Scheme and the Lloyd's Members’ Ombudsman respectively, but the Society may maintain other independent dispute resolution schemes in addition to, or instead of, either of these schemes.

1.7.18 G The schemes referred to in DISP 1.7.14R should be operationally independent of the Society.

1.7.19 G An individual member or former member who was an individual member should not have access to the schemes referred to in DISP 1.7.14R unless the complaints arrangements maintained by the Society have failed to resolve the complaint to his satisfaction within eight weeks of receiving it.

1.7.20 G The Society should give the FSA adequate notice of all proposed changes to the byelaws relating to the schemes referred to in DISP 1.7.14R.

1.7.21 G When considering what is required to ensure the operational independence of the schemes referred to in DISP 1.7.14R, or proposed changes in such schemes, the Society should take account of similar arrangements operated by the Financial Ombudsman Service.

1.7.22 R A contravention of DISP 1.7.14R or DISP 1.7.15R does not give rise to a right of action by a private person under section 150 of the Act (Actions for damages) and each of those rules is specified under section 150(2) of the Act as a provision giving rise to no such right of action.

**Part 2: amendments relating to the redesignation of LLD 6**

Amend DISP 2.1.4G as follows. New text is underlined and deleted text is shown struck-through:

2.1.4 G References in this chapter to "firms" are to be construed, where relevant, as including:

1. in accordance with the Ombudsman Transitional Order, unauthorised persons subject to the Compulsory Jurisdiction in relation to relevant complaints; and

2. as a result of section 226 of the Act, unauthorised persons who were formerly firms in respect of complaints about acts or omissions which occurred at the time when they were authorised, provided that the Compulsory Jurisdiction rules were in force in relation to the activity in question; and

3. members of the Society of Lloyd's (see DISP 2.5.3G).

Members of the Society of Lloyd's

2.5.3 G Members of the Society of Lloyd's are treated as firms for the purposes of the Compulsory Jurisdiction (including the rules in DISP 1 relating to firms' complaints procedures) and are subject to DISP 1 as a result of the insurance market direction given in LLD 6.2.1 D, under section 316 of the Act (Direction by Authority). However, as set out in DISP 1.7, members will individually comply with DISP 1 if and only if all complaints by
policyholders against members are dealt with under the internal procedures established by the Society of Lloyd's for handling those complaints, provided that these procedures themselves comply with DISP 1. Accordingly, certain of the obligations under DISP 1, for example, the obligation to report on complaints received, must be complied with by the Society on behalf of members.

The insurance market direction given in DISP 2.5.5D is given under section 316(1) of the Act (Direction by Authority) and applies to members of the Society of Lloyd's.

2.5.4 D (1) With effect from commencement, Part XVI of the Act (The Ombudsman Scheme), and in particular section 226 (Compulsory jurisdiction), applies to the carrying on of insurance business by members. 
(2) For the purposes of (1) 'insurance business' means the regulated activities of effecting or carrying out contracts of insurance written at Lloyd's.

Amend DISP 3.1.5G as follows. New text is underlined and deleted text is shown struck-through:

3.1.5 G References in this chapter to "firms" are to be construed, where relevant, as including:

Amendments to the Compensation manual

Amend COMP 1.5.1G as follows. Deleted text is shown struck-through and new text is underlined:

1.5 Application to Lloyd's

1.5.1 G

The FSA has exercised its power under section 316 of the Act (Direction by Authority) to direct in LLD 8A (Compensation Arrangements for policyholders) COMP 1.5.5D that certain core provisions in the Act should apply to members of the Society of Lloyd's (an "insurance market direction"). The effect of the direction is that the FSA may, in relation to members, and in respect of insurance market activities carried on by them, exercise any of the statutory powers conferred by the provisions which are applied by the direction. Those include the powers in Part X to make general rules and give guidance and also the powers in Part XV to make rules for the establishment and operation of a compensation scheme. Accordingly this sourcebook makes provision for the payment of compensation by the FSCS in certain cases arising from insurance business carried on by members, and for raising levies on the Society.

Insert the following text after COMP 1.5.3G. The text is redesignated and restated text. Amendments to the redesignated text are not shown.

Compensation arrangements for policyholders

1.5.4 G

The insurance market direction in COMP 1.5.5D is intended to protect the interests of policyholders and potential policyholders by:

(1) providing for the application of the compensation scheme in respect of contracts of insurance issued by members; and

(2) providing for the application of such other provisions of the Act as will enable the application of the compensation scheme to be effective in relation to insurance market activities carried on by members.

1.5.5 D

With effect from 15 October 2003 the following core provisions of the Act apply to the carrying on of insurance market activities by members:

(1) Part X (Rules and guidance) for the purpose of applying the rules in COMP and relevant interpretative provisions; and

(2) Part XV (Financial Services Compensation Scheme).

1.5.6 G

Section 317(2) of the Act (The core provisions) provides that references in
an applied core provision to an authorised person are to be read as references to a person in the class to which the insurance market direction applies. In particular, with effect from 15 October 2003, references to a relevant person in Part XV of the Act include a person who was a member at the time the act or omission giving rise to the claim against him took place.

Compensation arrangements for individual members

1.5.7 G The compensation scheme will not compensate members or former members if firms are unable to satisfy claims made in connection with regulated activities relating to their participation in Lloyd's syndicates. Separate rules and guidance are therefore needed.

1.5.8 R The Society must maintain byelaws establishing appropriate and effective arrangements to compensate individual members and former members who were individual members if underwriting agents are unable, or likely to be unable, to satisfy claims by those members relating to regulated activities carried on in connection with their participation in Lloyd's syndicates.

1.5.9 R For the purposes of COMP 1.5.8R "individual member" includes a member which is a limited liability partnership or a body corporate whose members consist only of, or of the nominees for, a single natural person or a group of connected persons.

1.5.10 G The arrangements referred to in COMP 1.5.8R:

(1) will not compensate losses arising only as a result of underwriting or investment risk to which individual members or former members who were individual members are or were exposed by their participation in Lloyd's syndicates;

(2) may be restricted to compensation for losses arising out of fraud, dishonesty or failure to account; and

(3) should cover all regulated activities carried on by underwriting agents relating to Lloyd's syndicate capacity and syndicate membership.

1.5.11 G The arrangements referred to in COMP 1.5.8R should have a governance structure that is operationally independent from the Society, but which is nevertheless accountable to the Society for the proper administration of the compensation arrangements.

1.5.12 R A contravention of COMP 1.5.8R does not give rise to a right of action by a private person under section 150 of the Act (Actions for damages) and that rule is specified under section 150(2) of the Act as a provision giving rise to no such right of action.

Amend COMP Sch 4 (Powers exercised) as follows:

As from 1 January 2007 the version of the Banking Consolidation Directive in force when the E-Money Directive came into force (Directive 2000/12/EC) was replaced by the current version. The FSA’s policy in implementing the parts of the Banking Consolidation Directive that apply to ELMIs is generally that the current version of the Banking Consolidation Directive applies except that generally:

(1) ELM does not implement provisions of the current version of the Banking Consolidation Directive that have no counterpart in the previous version; and

(2) where the E-Money Directive applied a part of the previous version of the Banking Consolidation Directive that does not have a direct counterpart in the current version, ELM continues to implement the
previous version.

2.4 Calculation of initial capital and own funds

2.4.13 R Subordinated debt capital does not form part of a firm's upper tier two capital unless the following requirements are met (in addition to those in ELM 2.4.11 R):

(1) ...

(2) ...

(4) the subordinated debt capital complies with the conditions in article 3563(2)(d) of the Banking Consolidation Directive;
2.4.16 G  *ELM 2.4.13 R (4) refers to article 3563(2)(d) of the Banking Consolidation Directive*. This article says that the documents governing the issue of the [subordinated debt capital] must provide for debt and unpaid interest to be such as to absorb losses, whilst leaving the [firm] in a position to continue trading. Compliance with the other conditions of *ELM 2.4.11 R* and *ELM 2.4.13 R* will usually ensure that a firm complies with article 3563(2)(d). …

2.4.17 R  Material holdings

(1) …

…

(6) An item falls into this paragraph if it is a subordinated debt or other item of capital that:

(a) …

(b) (in the case of a relevant financial services company or financial institution) falls into Article 3563 or Article 3664(3) of the Banking Consolidation Directive.

2.4.20 R  Adjustments to own funds

In accordance with article 34(4)61 of the Banking Consolidation Directive, tier one capital and revaluation reserves must not be included within a firm's own funds to the extent that those items do not represent capital that is available to the firm for unrestricted and immediate use to cover risks and losses as soon as these occur, whether because of taxation charges, any future foreseeable taxation charges or for any other reason.

2.4.22 R  Exclusion from own funds

In accordance with article 64(4) of the Banking Consolidation Directive, the fair value reserves related to gains or losses on cash flow hedges of financial instruments measured at amortised cost or any gains or losses on their liabilities valued at fair value that are due to changes in the firm's own credit standing must not be included within a firm's own funds.

2.4.23 G  *ELM 2.4.22R reflects article 64(4) of the Banking Consolidation Directive.*

…

3.5 Large exposure risk

…

3.5.17 R  A firm may not recognise the benefits of collateral under *ELM 3.5.14R*
unless:

(1) …

(2) the securities are listed on a recognised investment exchange or designated investment exchange; and

(3) …

(a) …

(b) …

(c) the percentage figure is 150% rather than 200% in the case of debentures or government and public securities issued by regional or local authorities of an EEA State or by a multilateral development bank; and

(4) the securities issued by any credit institution do not form part of its regulatory capital resources.

3.5.20 G [Deleted]

5.1 Application

5.1.2 R ELM 5.4A applies with respect to the carrying on of:

(1) regulated activities; and

(2) ancillary activities in relation to regulated activities.

5.1.3 R ELM 5.4A also:

(1) applies with respect to the carrying on of unregulated activities in a prudential context; and

(2) takes into account any activity of other members of a group of which the firm is a member.

5.2 Purpose

5.2.6 G This chapter implements article 7 of the E-money Directive and (for ELMIs) articles 611(1) and 22 of the Banking Consolidation Directive.

5.3 Business to be directed by at least two individuals
5.3.2 G ELM 5.3.1 R, sometimes known as the 'four eyes requirement', provides that at least two individuals must effectively direct the business of a firm. Compliance with the rule would help to establish a firm's compliance with Principle 3 ('Management and control') and its continued meeting of the threshold condition 5 ('Suitability'). It also reflects the requirement in Article 61(1) of the Banking Consolidation Directive.

5.4A Organisation and internal control mechanisms

5.4A.1 R A firm must have robust governance arrangements, which include a clear organisational structure with well defined, transparent and consistent lines of responsibility, effective processes to identify, manage, monitor and report the risks it is or might be exposed to, and adequate internal control mechanisms, including sound administrative and accounting procedures.

5.4A.2 R The arrangements, processes and mechanisms referred to in ELM 5.4A.1R must be comprehensive and proportionate to the nature, scale and complexity of the firm's activities.

5.4A.3 G ELM 5.4A.1R and ELM 5.4A.2R reflect article 22 of the Banking Consolidation Directive.

6.2 Purpose

6.2.3 G This chapter implements article 3 of the E-Money Directive and article 33a of the previous version of the Banking Consolidation Directive (Directive 2000/12/EC).

6.5 Methods of redemption

6.5.4 G ELM 6.5.1 R reflects article 3(1) of the E-Money Directive and article 33a of the previous version of the Banking Consolidation Directive (Directive 2000/12/EC). Neither ELM 6.5.1 R nor ELM 6.5.2 R takes precedence over the other. A firm must therefore organise its affairs so that it can comply with both rules.

7.3 Consolidated capital adequacy

7.3.1 R If:

(1) …

(2) another member of that group (firm B) is a firm that is subject to
(4) firm A is included in the scope of the consolidation under BIPRU 8 as it applies to firm B; firm A must comply with BIPRU 8 as it applies to firm B except that the rules in BIPRU 8 relating to non-EEA sub-group do not apply, at all times, maintain capital resources (calculated in accordance with the relevant rules) at a level that ensures that, taking into account (in the manner and to the extent provided for in those rules) the capital resources of other members of the group, firm B complies with the FSA consolidation rules applicable to it. If there is more than one firm in the group that fits the description of firm B, the obligation of this rule applies in relation to all of them.

7.3.2 R If:

(1) ELM 7.3.1R does not apply to a firm;
(2) the firm is a member of an EEA consolidated group or UK consolidated group;
(3) there is a full credit institution or an investment firm in that EEA consolidated group or UK consolidated group; and
(4) the undertaking in (3) is in the firm's immediate group; and
(5) that EEA consolidated group is not subject to supervision on a consolidated basis by a competent authority of another EEA State under the Banking Consolidation Directive, the E-Money Directive or the Capital Adequacy Directive;

the firm must comply with BIPRU 8 with respect to that EEA consolidated group as follows:

at all times, maintain capital resources (calculated in accordance with the relevant rule) at a level that ensures that, taking into account (in the manner and to the extent provided for in that rule) the capital resources of other members of the firm's group, the firm would comply with BIPRU 8 as it the bank consolidation rules if it applied to the firm.

(6) BIPRU 8 applies as it does to a bank in a UK consolidation group; and
(7) the rules in BIPRU 8 relating to non-EEA sub-group do not apply.

7.3.2A R If:

(1) ELM 7.3.1R and ELM 7.3.2R do not apply to a firm;
(2) the firm is a member of an UK consolidated group;
(3) there is a full credit institution or an investment firm in that UK
the firm; and

(4) the undertaking in (3) is in the firm's immediate group;

the firm must, at all times, maintain capital resources (calculated in accordance with the relevant rule) at a level that ensures that, taking into account (in the manner and to the extent provided for in that rule) the capital resources of other members of the firm's group, the firm would comply with BIPRU 8 as it applies when there is a bank in the UK consolidation group if it applied to the firm. For the purposes of ELM 7.3.3R, the rules in BIPRU 8 apply to the UK consolidated group in the same way as they apply to a UK consolidation group under BIPRU 8. The rules in BIPRU 8 relating to non-EEA sub-group do not apply.

7.3.3 R If:

(1) ELM 7.3.1R, ELM 7.3.2R and ELM 7.3.2AR do not apply to a firm;

(2) …

7.3.4 R If:

(1) ELM 7.3.1R, ELM 7.3.2R, ELM 7.3.2AR and ELM 7.3.3 do not apply to a firm; and

(2) …

7.5 Calculation of capital adequacy on a consolidated basis

EEA group risk own funds

7.5.1 R …. 

(3) the adjustments provided for in article 65³ of the Banking Consolidation Directive apply (if required by the Banking Consolidation Directive), in accordance with (1);

…

7.7 Waiver

7.7.1 G Article 7352(3) of the Banking Consolidation Directive says that competent authorities responsible for the exercising supervision on a consolidated basis may decide that a credit institution, financial institution or ancillary services undertaking auxiliary banking services undertaking which is a subsidiary or in which a participation is held need not be included in the consolidation in certain cases. …

(1) where the undertaking concerned that should be included is situated in a third country where there are legal impediments to the transfer of the necessary information;

(2) if, in the opinion of the competent authorities responsible for exercising supervision on a consolidated basis, the consolidation of the financial situation of the undertaking concerned that should be
would be inappropriate or misleading as far as the objectives of the supervision of credit institutions are concerned.

7.8 Summary of consolidation rules

7.8.3 G ELM 7.3.1R says that if the firm is part of a group that is subject to consolidated supervision under IPRU(BANK), IPRU(BSOC) or IPRU(INV), consolidated supervision of the firm will also be carried out under those rules.

Broadly speaking, ELM 7.3.1R to ELM 7.3.2AR apply the consolidation rules in BIPRU 8 to an ELMI.

7.8.4 G ELM 7.3.12R says, broadly, that if ELM 7.3.1R does not apply but the firm is part of a group with a full credit institution or investment firm as a member the banking consolidation rule applies. This means that the firm will be subject to the consolidation requirements for banks. These can be found in chapter CS of IPRU(BANK) (consolidated supervision).

If an ELMI is a member of a group that has another member in it subject to BIPRU 8, then ELM 7.3.1R applies BIPRU 8 to the ELMI in the same way as it applies to the other firm.

7.8.5 G Generally, the guidance in IPRU(BANK) says if a firm is part of a group subject to lead supervision under the EU banking or investment services Directives by a competent authority in another EEA State, consolidates supervision in accordance with BIPRU 8 the detailed quantitative guidance in IPRU(BANK) does not apply at the level of the EEA group. Instead it applies at the level of the UK sub-group.

ELM 7.3.2R and ELM 7.3.2AR say that where ELM 7.3.1R does not apply, BIPRU 8 applies to the ELMI if there is a full credit institution or investment firm in the group. If the ELMI is part of an EEA consolidated group of which the FSA is the lead regulator, BIPRU 8 applies to that EEA consolidated group. If the ELMI is not part of such a group or another EEA competent authority is lead regulator for the EEA consolidated group, then BIPRU 8 applies to the UK consolidated group of the ELMI.

7.8.10 G If a firm is part of a financial conglomerate, the provisions of GENPRU 3.1 PRU 8.4 apply. If a firm is part of a third-country group, the provisions of GENPRU 3.2 PRU 8.5 apply.

Annex T

Amendments to the Handbook consequential on the redesignation of PRU

1. The references in the provisions of the *Handbook* specified in column (2) of Tables 1 and 2 in this Annex T to the provisions in column (3) of those Tables are replaced with references to the corresponding provisions in column (4) of those Tables.

2. A reference in the *Handbook* (other than those mentioned specifically elsewhere in this CRD (Consequential Amendments) Instrument 2006) to a provision in column (1) of the Table in Annex A to the General Prudential Sourcebook Instrument 2006 is replaced with a reference to the corresponding provision in column (2) of that Table.

3. A reference in the *Handbook* (other than those mentioned specifically elsewhere in this instrument) to a provision in column (2) of the Table in Annex A (Creation of INSPRU) to the Prudential Sourcebook for Insurers Instrument 2006 is replaced with a reference to the corresponding provision in column (1) of that Table.
