Annex

Amendments to the Collective Investment Schemes sourcebook (COLL)

In this Annex, underlining indicates new text and striking through indicates deleted text.

Rights of unit classes

3.3.5 R …

(4) Paragraphs (2) and (3) do not prohibit a difference between the rights attached to one class of units and to another class of units that relates solely to:

…

(d) the use of derivatives and forward transactions entered into for the purpose of reducing the effect of fluctuations in the rate of exchange between the currency of a currency class of unit units and either the base currency of the scheme or any currency in which all or part of the scheme property is denominated or valued (in this section referred to as a “currency class hedging transaction”).

Hedging of currency class units unit classes

3.3.5A R A currency class hedging transaction must:

…

(2) (for the purposes of valuing scheme property and calculating the price of units in accordance with COLL 6.3 (Valuation and pricing)) be attributed only to the currency class of units for which it is undertaken.

Guidance on hedging of currency unit classes

3.3.5B G (1) Before undertaking a currency class hedging transaction for a class of units, the authorised fund manager should:

(a) ensure that the relevant prospectus clearly:

   (i) states that such a transaction may be undertaken for the relevant class of currency class units; and

   …

(b) consult the depositary about the adequacy of the systems and controls it uses to ensure compliance with COLL 3.3.5AR (Hedging of currency class units unit classes); and
(c) consult the scheme auditor … (in each case) without prejudice to unitholders of classes other than the relevant currency hedged class.

(2) Currency class Class hedging transactions should be entered into for the purpose of reducing risk by limiting the effect of movements in exchange rates on the value of a currency class unit. Such transactions are not limited to currency class units. The authorised fund manager should ensure that the total value of the hedged position does not exceed the value of the relevant currency class of units unless there is adequate cover and it is reasonable for it to do so on a temporary basis for reasons of efficiency (for example, to avoid the need to make small and frequent adjusting transactions). In such cases, the difference between the value of the hedged position and the value of the currency class of units should not be so large as to be speculative or to constitute an investment strategy.

Investment in collective investment schemes

5.2.13 R A UCITS scheme must not invest in units in a collective investment scheme (“second scheme”) unless the second scheme satisfies all of the following conditions, and provided that no more than 30% of the value of the UCITS scheme is invested in second schemes within (1)(b) to (d) (e):

(1) the second scheme must:

…

(d) be authorised in another EEA State (provided the requirements of article 19(1)(e) of the UCITS Directive are met); or

(e) be authorised by the competent authority of an OECD member country (other than another EEA State) which has:

(i) signed the IOSCO Multilateral Memorandum of Understanding; and

(ii) approved the scheme’s management company, rules and depositary/custody arrangements;

(provided the requirements of article 19(1)(e) of the UCITS Directive are met);

…

Qualifying non-UCITS collective investment schemes

5.2.14 G …
In determining whether a scheme meets the requirements of article 19(1)(e) of the UCITS Directive for the purposes of COLL 5.2.13R (1)(d) or (e), the authorised fund manager should consider the following factors before deciding that the scheme provides a level of protection for unitholders which is equivalent to that provided to unitholders in a UCITS scheme:

(a) the rules guaranteeing the autonomy of the scheme and management in the exclusive interest of the unitholders;

(b) the existence of an independent depositary/custodian with similar duties and responsibilities in relation to both safekeeping and supervision; where an independent depositary/custodian is not a requirement of local law as regards collective investment schemes, robust governance structures may provide a suitable alternative;

(c) the availability of pricing information and reporting requirements;

(d) redemption facilities and frequency;

(e) restrictions in relation to dealings by related parties;

(f) the extent of asset segregation; and

(g) the local requirements for borrowing, lending and uncovered sales of transferable securities and money market instruments regarding the portfolio of the scheme.

[Note: article 26 of CESR’s UCITS eligible assets guidelines with respect to article 19(1)(e) of the UCITS Directive]

The requirement for supervisory equivalence, as described in article 19(1)(e) (first indent) of the UCITS Directive, also applies to schemes (that are not UCITS schemes) established in other EEA States. In considering whether the second scheme satisfies this requirement, the authorised fund manager should have regard to the first section of article 26 of CESR’s UCITS eligible assets guidelines.
