CONSEQUENTIAL AMENDMENTS (FINANCIAL SERVICES ACT 2010)  
INSTRUMENT 2010

Powers exercised

A. The Financial Services Authority makes this instrument in the exercise of:

   (1) the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
       (a) section 138 (General rule-making power);
       (b) section 156 (General supplementary powers);
       (c) section 157(1) (Guidance); and

   (2) the other powers and related provisions listed in Schedule 4 (Powers exercised) to the General Provisions of the Handbook.

B. The rule-making powers referred to above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

C. This instrument comes into force on 6 August 2010.

Amendments to the Handbook

D. The modules of the FSA’s Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

Citation

E. This instrument may be cited as the Consequential Amendments (Financial Services Act 2010) Instrument 2010.

By order of the Board
22 July 2010
Annex A

Amendments to the Glossary of definitions

In this Annex, underlining indicates new text and striking through indicates deleted text.

**consumer**

(1) …

(2) (in relation to the FSA’s power to make general rules (section 138 of the Act (General rule-making power)), the approval requirements for controllers (section 186 of the Act (Objection to acquisition of control)), the publication of notices (section 391 of the Act (Publication)) and the exercise of Treaty rights (Schedule 4 to the Act (Treaty rights)) (as defined in section 138(7) of the Act (General rule-making power)) a person:

…

**prudential context** in relation to activities carried on by a firm, the context in which the activities have, or might reasonably be regarded as likely to have, a negative effect on:

(a) confidence in the **UK financial system**; or

…

**regulatory objectives** (as described in sections 2(2) and 3 to 6 of the Act)

(a) market confidence;

(b) public awareness;

(c) the protection of consumers; and

(d) the reduction of financial crime; and

(e) financial stability.
Annex B

Amendments to the Principles for Businesses (PRIN)

In this Annex, underlining indicates new text and striking through indicates deleted text.

1.1.6 G As set out in PRIN 3.3 (Where?), Principles 1 (Integrity), 2 (Skill, care and diligence) and 3 (Management and control) apply to world-wide activities in a prudential context. Principle 5 (Market conduct) applies to world-wide activities which might have a negative effect on confidence in the UK financial system operating in the United Kingdom. In considering whether to take regulatory action under these Principles in relation to activities carried on outside the United Kingdom, the FSA will take into account the standards expected in the market in which the firm is operating. Principle 11 (Relations with regulators) applies to world-wide activities; in considering whether to take regulatory action under Principle 11 in relation to cooperation with an overseas regulator, the FSA will have regard to the extent of, and limits to, the duties owed by the firm to that regulator. (Principle 4 (Financial prudence) also applies to world-wide activities.)

3.3.1 R Territorial application of the Principles

Annex C

Amendments to the Senior Management Arrangements, Systems and Controls sourcebook (SYSC)

In this Annex, underlining indicates new text and striking through indicates deleted text.

3.2.11 G (1) …

(2) Risks of regulatory concern are those risks which relate to the fair treatment of the firm's customers, to the protection of consumers, to confidence in the UK financial system, and to the use of that system in connection with financial crime, and to financial stability.

…

14.1.4 G The purpose of this section is to serve the FSA's regulatory objectives of consumer protection, and market confidence and financial stability. In particular, this section aims to reduce the risk that a firm may pose a threat to these regulatory objectives, either because it is not prudently managed, or because it has inadequate systems to permit appropriate senior management oversight and control of its business.

…

14.1.51 G SYSC 3.2.20R requires a firm to take reasonable care to make and retain adequate records. The following policy on record keeping supplements SYSC 3.2.20R by providing some additional rules and guidance on record keeping in a prudential context. The purpose of this policy is to:

(1) …

(2) help the FSA to satisfy itself that a firm is operating in a prudent manner and is not prejudicing the interests of its customers or market confidence or financial stability.

…

15.1.5 G Credit risk concerns the FSA in a prudential context because inadequate systems and controls for credit risk management can create a threat to the regulatory objectives of market confidence and consumer protection and financial stability by:

…

…

17.1.4 G Insurance risk concerns the FSA in a prudential context because inadequate systems and controls for its management can create a threat to the regulatory objectives of market confidence and consumer protection and financial
stability. Inadequately managed insurance risk may result in:

...
Annex D

Amendments to the Threshold Conditions (COND)

In this Annex, underlining indicates new text and striking through indicates deleted text.

2.5.7 G In determining whether a firm will satisfy and continue to satisfy threshold condition 5 in respect of having competent and prudent management and exercising due skill, care and diligence, relevant matters, as referred to in COND 2.5.4G(2), may include, but are not limited to whether:

…

(2) if appropriate, the governing body of the firm includes non-executive representation, at a level which is appropriate for the control of the regulated activities proposed, for example, as members of an audit committee (see COND 3.2.15G (Audit Committee));

…

(9) the firm has conducted enquiries (for example, through market research or the previous activities of the firm) that are sufficient to give it reasonable assurance that it will not be posing unacceptable risks to consumers or the UK financial system;

…
Annex E

Amendments to the Prudential sourcebook for Banks, Building Societies and Investment Firms (BIPRU)

In this Annex, underlining indicates new text.

12.3.9  G As part of the SLRP, the FSA will assess the appropriateness of the liquidity risk tolerance adopted by an ILAS BIPRU firm to ensure that this risk tolerance is consistent with maintenance by the firm of adequate liquidity resources for the purpose of the overall liquidity adequacy rule. The FSA will expect a firm to provide it with an adequately reasoned explanation for the level of liquidity risk which that firm's governing body has decided it should assume. In assessing the appropriateness of the liquidity risk tolerance adopted by a firm, the FSA will consider whether the tolerance adopted is consistent with the firm's satisfaction of threshold condition 5 (COND 2.5.7G(6)). Consistent with the FSA's statutory objectives under the Act, in assessing the appropriateness of a firm's adopted liquidity risk tolerance the FSA will also have regard to the role and importance of a firm in the UK financial system.

...  

12.4.3  G Consistent with BIPRU 12.3.5R, the FSA expects that the extent and frequency of such testing, as well as the degree of regularity of governing body review under BIPRU 12.4.2R, should be proportionate to the nature scale and complexity of a firm's activities, as well as to the size of its liquidity risk exposures. Consistent with the FSA's statutory objectives under the Act, in assessing the adequacy of a firm's stress testing arrangements (including their frequency and the regularity of governing body review) the FSA will also have regard to the role and importance of that firm in the UK financial system. The FSA will, however, expect stress testing and governing body review to be carried out no less frequently than annually. The FSA expects that a firm will build into its stress testing arrangements the capability to increase the frequency of those tests in special circumstances, such as in volatile market conditions or where requested by the FSA.

...  

12.8.5  G This section represents merely an indication of the matters to which the FSA will have regard in considering an application for a whole-firm liquidity modification or an intra-group liquidity modification. In considering such an application, the FSA will always take into account anything that it reasonably considers to be relevant for the purposes of assessing whether the statutory tests in section 148 of the Act are met. In doing so, it will have regard to the role and importance of a firm or UK branch in the UK financial system.

...
12.8.12 G In determining the appropriate duration of an *intra-group liquidity modification*, the FSA will have regard to the role and importance of the *firm* in question in the *UK financial system*. In some cases, the FSA may take the view that an *intra-group liquidity modification* covering a *firm* whose role and importance in the *UK financial system* are significant ought to be reviewed more regularly than one granted in respect of a less systemically significant *firm*. The FSA will consider this issue in determining the appropriate duration of such a modification.

…

12.8.30 G In determining the appropriate duration of a *whole-firm liquidity modification*, the FSA will have regard to the role and importance of the *UK branch* in question in the *UK financial system*. In some cases, the FSA may take the view that a *whole-firm liquidity modification*, covering a *UK branch* whose role and importance in the *UK financial system* are significant, ought to be reviewed more regularly than one granted in respect of a less systemically significant *branch*. …
Annex F

Amendments to the Prudential sourcebook for Insurers (INSPRU)

In this Annex, underlining indicates new text and striking through indicates deleted text.

5.1.4 G Operational risk concerns the FSA in a prudential context because inappropriate management of operational risk can adversely affect the solvency or business continuity of a firm, threatening the regulatory objectives of market confidence and consumer protection and financial stability.
Annex G

Amendments to the Prudential sourcebook for UCITS Firms (UPRU)

In this Annex, underlining indicates new text and striking through indicates deleted text.

1.2.1 G (1) The purpose of this sourcebook is to amplify Principle 4 (Financial prudence) which requires a firm to maintain adequate financial resources to meet its designated investment business commitments and to withstand the risks to which its business is subject. This assists in the achievement of the regulatory objectives of consumer protection, and market confidence, and financial stability.

...
Annex H

Amendments to the Supervision manual (SUP)

In this Annex, underlining indicates new text and striking through indicates deleted text.

1.1.3 G The design of these arrangements is shaped by the regulatory objectives. These are set out in section 2 of the Act (The Authority's general duties) and are:

(1) maintaining confidence in the UK financial system;

(1A) contributing to the protection and enhancement of the stability of the UK financial system;

(2) promoting public understanding of the UK financial system;

...

1.3.3 G The impact of a firm is assessed by reference to a range of factors derived from the regulatory objectives, including:

(1) …

(1A) the extent to which the firm may pose risks to the stability of the UK financial system;

...

2.1.3 G Achieving the regulatory objectives involves the FSA informing itself of developments in firms and in markets. The Act requires the FSA to monitor a firm's compliance with requirements imposed by or under the Act (paragraph 6 (1) of Schedule 1). The Act also requires the FSA to take certain steps to cooperate with other relevant bodies and regulators (section 354). For these purposes, the FSA needs to have access to a broad range of information about a firm's business.

...

2.1.5 G Part XI of the Act (Information Gathering and Investigations) gives the FSA statutory powers, including:

(1) to require the provision of information (see section sections 165, 165A, and EG 3 and FINMAR 1);

...
2.3.12 G In complying with Principle 11, the FSA considers that a firm should cooperate with it in providing information for other regulators. Section 169 of the Act (Investigations etc. in support of overseas regulator) and 169A (Support of overseas regulator with respect to financial stability) of the Act give the FSA certain statutory powers to obtain information and appoint investigators for overseas regulators if required (see DEPP 7 and EG 3 and FINMAR 1).

6.3.28 G (1) The FSA is required by section 41(2) of the Act to ensure that a firm applying to vary its Part IV permission satisfies and will continue to satisfy the threshold conditions in relation to all the regulated activities for which the firm has or will have Part IV permission after the variation. However, the FSA's duty under the Act does not prevent it, having regard to that duty, from taking such steps as it considers necessary in relation to a particular firm, to secure its consumer protection objective and meet any of its regulatory objectives. This may include granting a firm's application for variation of Part IV permission when it wishes to wind down (run off) its business activities and cease to carry on new business as a result of no longer being able to satisfy the threshold conditions.

(2) In addition, the FSA may refuse the application if it appears that the interests of consumers, or a group of consumers, any of its regulatory objectives would be adversely affected if the application were to be granted and it is desirable in the interests of consumers, or that group of consumers, in order to meet any of its regulatory objectives for the application to be refused.

6.4.2 G Under section 44(3) of the Act, the FSA may refuse an application from a firm to cancel its Part IV permission if it appears that it is desirable for the application to be refused in order to meet any of the FSA's regulatory objectives.

(1) the interests of consumers, or potential consumers, would be adversely affected if the application were to be granted; and

(2) it is desirable in the interests of consumers, or potential consumers, for the application to be refused.

6 Annex 4.1G Additional guidance for a firm winding down (running off) its business
3. If appropriate, in the interests of consumer protection its regulatory objectives, the FSA will require details of the firm’s plans and will discuss them with the firm and monitor the winding down or transfer of the firm’s business. During the period in which it is winding down, a firm will also be required to notify the FSA of any material changes to the information provided such as, for example, receipt of new complaints and changes to plans.

4. …

Use of own-initiative powers

5. If, for example, the FSA has consumer protection concerns relating to any of the regulatory objectives, it may, however, use its own-initiative power under section 45 of the Act (Variation etc. on the Authority's own initiative) (see SUP 7 (Individual requirements) and EG 8 (Variation and cancellation of permission on the FSA's own initiative and intervention against incoming firms)), to vary the Part IV permission of a firm which is winding down or transferring its regulated activities.

…

7.1.5 G By waiving or modifying the requirements of a rule or imposing an additional requirement or limitation, the FSA can ensure that the rules, and any other requirements or limitations imposed on a firm, take full account of the firm’s individual circumstances, and so assist the FSA in meeting the regulatory objectives (for example, to protect consumers, and maintain market confidence and contribute to financial stability).

…

7.2.2 G The circumstances in which the FSA may vary a firm's Part IV permission on its own initiative under section 45 of the Act include where it appears to the FSA that:

(1) …

(2) it is desirable to vary a firm's permission in order to protect the interests of consumers or potential consumers meet any of the FSA’s regulatory objectives.

…

7.3.4 G The FSA will seek to give a firm reasonable notice of an intent to vary its permission and to agree with the firm an appropriate timescale. However, if the FSA considers that a delay may be prejudicial to the interest of consumers create a risk to any of the FSA’s regulatory objectives, the FSA may need to act immediately using its powers under section 45 of the Act to
vary a firm's Part IV permission with immediate effect.

...  

15.3.1 R A firm must notify the FSA immediately it becomes aware, or has information which reasonably suggests, that any of the following has occurred, may have occurred or may occur in the foreseeable future:

...  

(4) any matter in respect of the firm which could result in serious financial consequences to the UK financial system or to other firms.

...

18.2.2 G The FSA's regulatory objectives include market confidence, financial stability and the protection of consumers. Either or both Any or all of these might be impaired if a transfer were approved that led to loss, or perceived loss, to consumers or other market participants. On the other hand a transfer that led to improved security or benefits for consumers would promote the FSA's regulatory objectives. When considering a transfer, the FSA needs to take into account the interests of existing consumers of the transferee and of consumers remaining with the transferor as well as of those whose contracts are being transferred. The guidance in this section is intended to protect consumers. By so doing it promotes the market confidence objective.

Annex I

Amendments to the Compensation sourcebook (COMP)

In this Annex, underlining indicates new text.

1.1.9  G  This sourcebook is one of the means by which the FSA will meet its regulatory objectives of securing the appropriate degree of protection for consumers, contributing to the protection and enhancement of the financial stability of the United Kingdom and maintaining confidence in the UK financial system.

...  

15.1.1  G  When a relevant person is in default with claims against it for protected deposits, it may be desirable for the FSCS to make accelerated payments of compensation, for the protection of consumers, to contribute to financial stability and to maintain market confidence.
Annex J

Amendments to the Credit Unions sourcebook (CRED)

In this Annex, underlining indicates new text.

14.1.4 G The design of these arrangements is shaped by the regulatory objectives. These are set out in section 2 of the Act (The Authority's general duties) and are:

(1) maintaining confidence in the UK financial system;

(1A) contributing to the protection and enhancement of the stability of the UK financial system;

(2) promoting public understanding of the UK financial system;

...

14.6.4 G The FSA may vary a credit union's Part IV permission on its own initiative where:

(1) one or more of the threshold conditions is, or is likely to be, no longer satisfied;

(2) it is desirable in order to protect members;

(3) it is otherwise desirable in order to meet any of the FSA’s regulatory objectives.

...

14.9.3 G SUP 15.3.1R states that a credit union must notify the FSA immediately it becomes aware, or has information which reasonably suggests, that any of the following has occurred, may have occurred or may occur in the foreseeable future:

...

(4) any matter in respect of the credit union which could result in serious financial consequences to the UK financial system or to other firms.

Annex K

Amendments to the Electronic Money sourcebook (ELM)

In this Annex, underlining indicates new text and striking through indicates deleted text.

1.2.4 G The rules and guidance in ELM will help the FSA to meet the regulatory objectives of protecting consumers, and maintaining market confidence and protecting financial stability. They do so by setting standards about the backing of e-money issued by an ELMI with high quality liquid assets. They also do so by setting minimum capital and other risk management standards. This mitigates the risk that ELMIs will be unable to meet their liabilities and commitments to consumers. ELM also protects consumers by regulating the relationship between issuers of e-money and those who hold their e-money.

5.4.4 G The risks referred to in SYSC 7.1.4R and SYSC 7.1.5R relating to e-money include the following risks:

(4) use of the system referred to in (2) for financial crime or in a way that may harm or misuse any part of the UK financial system.

8.7.9 G The information or documents referred to in ELM 8.7.6G must be provided or produced before the end of the reasonable period, and at the place, specified by the FSA. The FSA may require the information to be provided in such form as it may reasonably require. The FSA may require the information to be verified, and the document authenticated, in such manner as it may reasonably require (see article 9G(6) of the Regulated Activities Order (Obtaining information from certified persons etc.) and section 165 of the Act (Authority’s power to require information: authorised persons etc.)). The FSA may use the power to require information and documents from small e-money issuers in support of its enforcement functions.
Annex L

Amendments to the Professional Firms sourcebook (PROF)

In this Annex, underlining indicates new text.

1.1.6  G The rules and guidance in this sourcebook are intended to:

   (1) …

   (2) promote public understanding of the UK financial system by ensuring that the clients of an exempt professional firm are made aware that the firm is not an authorised person;

   …
Annex M

Amendments to the Recognised Investment Exchanges and Recognised Clearing Houses sourcebook (REC)

In this Annex, underlining indicates new text and striking through indicates deleted text.

2.3.5  G In assessing whether a UK recognised body has sufficient financial resources in relation to counterparty and market risks, the FSA may have regard to:

(1) the amount and liquidity of its financial assets and the likely availability of liquid financial resources to the UK recognised body during periods of major market turbulence or other periods of major stress for the UK financial system; and

...

...

2.13.3  G In determining whether a UK recognised body is able and willing to promote and maintain high standards of integrity and fair dealing in the carrying on of regulated activities, the FSA may have regard to the extent to which the UK recognised body seeks to promote and encourage, through its rules, practices and procedures, conduct in regulated activities which is consistent with the Code of Market Conduct (see MAR 1) and with any other codes of conduct, rules or principles relating to behaviour in regulated activities which users of the UK financial system in the United Kingdom would normally expect to apply to the regulated activity and the conduct in question.

...

3.18.1  G ...

(3) The information required under REC 3.18 is relevant to the FSA’s supervision of the UK recognised body's obligations in relation to the enforceability of compliance with the UK recognised body's rules. It is also relevant to the FSA’s broader responsibilities concerning market confidence and financial stability and, in particular, its functions in relation to market abuse and financial crime. It may also be necessary in the case of members based outside the United Kingdom to examine the implications for the enforceability of default rules or collateral and the settlement of transactions, and thus the ability of the UK recognised body to continue to meet the recognition requirements. It follows that the admission of a member from outside the United Kingdom who is not an authorised person could require notification under both REC 3.18.2R and REC 3.18.3R, although a single report from the UK recognised body covering both notifications would be acceptable to
4.6.4 Under section 298(7) of the Act (Directions and revocation: procedure), the FSA need not follow the consultation procedure set out in the rest of section 298 (see REC 4.8), or may cut short that procedure, if it considers it essential to do so. The FSA is likely to consider it essential to cut short the procedure if, in the absence of immediate action, there would be:

(2) a serious threat to market confidence or to the stability of the UK financial system; or
