Power exercised

A. The Financial Conduct Authority ("the FCA") makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):  

(1) section 137A (The FCA’s general rules);  
(2) section 137T (General supplementary powers); and  
(3) section 139A (Power of the FCA to give guidance);  

B. The rule making powers listed above are specified for the purpose of section 138G (rule-making instruments) of the Act.

Commencement

C. This instrument comes into force on 6 April 2020.

Amendments to the Handbook

D. The modules of the FCA’s Handbook of rules and guidance listed in column (1) are amended in accordance with the Annexes to this instrument listed in column (2).

Annex B

Amendments to the Senior Management Arrangements, Systems and Controls sourcebook (SYSC)

Insert the following new subheading and provision after SYSC 3.2.22G. The text is not underlined.

Investment strategy and investment decision making

3.2.23 G (1) This guidance sets out the FCA’s expectation on how a firm may take into account ESG financial considerations and other financial considerations and non-financial matters as part of its investment strategy and investment decision making, to demonstrate compliance with Principles 2, 3, 6 or 8.

(2) This guidance only applies where the firm’s investment strategy or investment decision could have a material impact on a policyholder’s investment returns and relates to a product where:

(a) the primary purpose is to provide an investment return; and

(b) any investment risk is borne by a policyholder who is a natural person or a relevant policyholder.

(3) As part of its investment strategy or investment decision making, a firm should take into account ESG financial considerations and other financial considerations over the period of time that the firm reasonably considers is needed to achieve the investment objective or investment strategy.

(4) References to other financial considerations in (3) may include (but are not limited to) interest rate, liquidity, concentration, exchange rate, political and counterparty risks.

(5) As part of its investment strategy or investment decision making in relation to a product, a firm may take into account non-financial matters if:

(a) the firm has good reason to consider that affected policyholders or relevant policyholders would generally share the views on which the non-financial matters are based; and

(b) taking those matters into account would not involve a risk of a significant financial detriment to any affected investment.

(6) (5) does not apply to a firm’s investment strategy or investment decision making in relation to a product (other than in relation to a
relevant scheme or a pathway investment), that has been deliberately designed by the firm to take into account non-financial matters, and policyholders or relevant policyholders make an active decision to select that product.

Insert the following new subheading and provision after SYSC 4.1.14G. The text is not underlined.

**Investment strategy and investment decision making of an operator of a personal pension scheme or stakeholder pension scheme**

4.1.15 G (1) This guidance sets out the FCA’s expectation on how an operator of a personal pension scheme or a stakeholder pension scheme may take into account ESG financial considerations and other financial considerations and non-financial matters as part of its investment strategy or investment decision making, to demonstrate compliance with Principles 2, 3, 6 or 8.

(2) This guidance only applies where the personal pension scheme or stakeholder pension scheme operator’s investment strategy or investment decision could have a material impact on a client or a relevant policyholder’s investment returns and relates to a product where:

(a) the primary purpose of the product is to provide an investment return; and

(b) the investment risk is borne by a client who is a natural person or a relevant policyholder.

(3) As part of its investment strategy or investment decision making, an operator of a personal pension scheme or a stakeholder pension scheme should take into account ESG financial considerations and other financial considerations, over the period of time that the firm reasonably considers is needed to achieve the objective of the investment or the investment strategy.

(4) References to other financial considerations in (3) may include (but are not limited to) interest rates, liquidity, concentration, exchange rate, political and counterparty risks.

(5) As part of its investment strategy or investment decision making in relation to a product, an operator of a personal pension scheme or a stakeholder pension scheme may take into account non-financial matters if:

(a) the firm has good reason to consider that affected clients or relevant policyholders would generally share the views on
which the non-financial matters are based; and

(b) taking those matters into account would not involve a risk of a significant financial detriment to an affected investment.

(6) (5) does not apply to a firm’s investment strategy or investment decision making in relation to a product (other than in relation to a relevant scheme or a pathway investment) that has been deliberately designed by the firm to take into account non-financial matters, and clients or relevant policyholders make an active decision to select that product.
Annex C

Amendments to the Conduct of Business sourcebook (COBS)

In this Annex, underlining indicates new text and striking through indicates deleted text.

19  Pensions supplementary provisions

...  

19.5  Independent governance committees (IGCs)

Application

19.5.1  R  This section applies to:

(1)    a firm which operates a relevant scheme in which there are at least two relevant policyholders; or

(2)    a firm which offers or has decided to offer a pathway investment.

Definitions

19.5.1A  R  In this section:

(1)    “drawdown fund” means either a capped drawdown pension fund or a flexi-access drawdown pension fund;

(2)    “offer” means where a firm (F1) makes a pathway investment available for investment in the drawdown fund which F1 operates, where the pathway investment is either:

(a)    manufactured by F1; or

(b)    manufactured by another firm (F2);

(3)    “pathway firm” means a firm which offers a pathway investment;

(4)    “pathway investor” means a retail client investing in a firm’s pathway investment;

(5)    “referring” means a firm which arranges for a retail client to invest in a pathway investment available through a transfer to the drawdown fund operated by another firm (F2), where F2 offers its own manufactured pathway investment;

(6)    “stewardship” relates to a firm’s exercise of rights or engagement activities in relation to the investments attributable to the firm’s relevant policyholders or pathway investors, and may include:
(a) the exercise of a firm’s voting rights in those investments; and

(b) monitoring and engaging on matters such as strategy, performance, risk, culture and governance of the investments;

(7) “IGC’s remit of review” means the remit of the IGC as described in COBS 19.5.5R(2), COBS 19.5.5R(2A), COBS 19.5.5R(2B), COBS 19.5.5R(2C), and, where applicable COBS 19.5.5R(2D) and COBS 19.5.5R(2E).

Purpose

19.5.1B G The purpose of this section is:

(1) to ensure that relevant policyholders and pathway investors benefit from independent review of the investments they invest in through the establishment of an IGC or (where appropriate) a governance advisory arrangement.

The specific objectives of the IGC or governance advisory arrangement are to:

(a) assess whether a firm provides value for money for relevant policyholders or pathway investors;

(b) provide an independent consideration of a firm’s policies on:

(i) ESG financial considerations;

(ii) non-financial matters;

(iii) stewardship; and

(iv) where applicable, other financial considerations to the extent that they pose a particular and significant risk of financial harm to the relevant policyholders or pathway investors.

Requirement to establish an IGC

19.5.2 R (4) Subject to COBS 19.5.3R, a firm (Firm A) must establish an IGC unless:

(1) Firm A has established a governance advisory arrangement in accordance with COBS 19.5.3R; or

(2) This rule does not apply to a firm if another firm in Firm A’s group has made arrangements already established an IGC under this section, for an IGC and Firm A has made arrangements with that IGC to cover a relevant schemes scheme operated by Firm A or a pathway investment offered by Firm A.
Governance advisory arrangements

19.5.3 R (1) If a firm considers it appropriate, having regard to the size, nature and complexity of the relevant schemes it operates, it may establish a governance advisory arrangement instead of an IGC, having regard to:

(a) for a relevant scheme operator, the size, complexity and nature of the relevant scheme it operates; or

(b) for a pathway firm, the size of the take up, or expected size of the take up, complexity and nature of the pathway investment.

…

19.5.4 G …

(3) A pathway firm that has, or expects to have, a large take up of a pathway investment should establish an IGC.

(4) A firm may determine whether it has, or expects to have, a large take up of a pathway investment by reference to:

(a) the number of retail clients invested, or expected to invest, in a pathway investment offered by the firm; or

(b) the amount of the firm’s pathway investors’ funds under, or expected to be under management in a pathway investment offered by the firm.

(5) Examples of features that might indicate a complex pathway investment include:

(a) a pathway investment that has multiple charging structures; or

(b) a pathway investment that uses a sophisticated or complex investment strategy, which may include investments in a with-profits fund.

(6) Having regard to the nature of the pathway investment, a firm may consider that it is more appropriate to use a governance advisory arrangement where the pathway investment it offers is manufactured by another firm.

(7) If a firm manufactures its own pathway investment, it may be more appropriate for the firm to establish an IGC.

(8) A firm should consider establishing an IGC instead of a governance advisory arrangement if the firm both operates a relevant scheme and also manufactures its own pathway investment.

Terms of reference for an IGC
19.5.5 R A firm must include, as a minimum, the following requirements in its terms of reference for an IGC:

(1) the IGC will act solely in the interests of:

   (a) relevant policyholders and any other members or clients a firm asks the IGC to consider; or

   (b) pathway investors;

(2) the IGC will assess the ongoing value for money for relevant policyholders delivered by a relevant scheme scheme particularly, though not exclusively, through assessing:

   …

   (d) the levels of charges borne by relevant policyholders; and

   (e) the direct and indirect costs incurred as a result of managing and investing, and activities in connection with the managing and investing of, the pension savings of relevant policyholders, including transaction costs; and

   (f) whether the communications to relevant policyholders are fit for purpose and properly take into account the relevant policyholders’ characteristics, needs and objectives;

(2A) the IGC will assess the ongoing value for money for pathway investors delivered by a pathway investment particularly, though not exclusively, through assessing:

   (a) whether the pathway investment offered by the firm:

      (i) is designed and managed in the interests of pathway investors; and

      (ii) has a clear statement of aims and objectives;

   (b) whether the characteristics and net performance of the pathway investment are regularly reviewed by the firm to ensure alignment with the interests of pathway investors and that the firm takes action to make any necessary changes;

   (c) whether core financial transactions are processed promptly and accurately;

   (d) the levels of charges borne by pathway investors;

   (e) the direct and indirect costs incurred as a result of managing and investing, and activities in connection with the managing and investing of, the drawdown fund of pathway investors, including
transaction costs; and

(f) whether the communications to pathway investors are fit for purpose and properly take into account the pathway investors’ characteristics, needs and objectives;

(2B) where a firm has an investment strategy or makes investment decisions which could have a material impact on the relevant policyholders’ or pathway investors’ investment returns, the IGC will consider and report on:

(a) the adequacy and quality of the firm’s policy (if any) in relation to ESG financial considerations;

(b) the adequacy and quality of the firm’s policy (if any) in relation to non-financial matters; and

(c) how the considerations or matters in (a) and (b) are taken into account in the firm’s investment strategy or investment decision making; and

(d) the adequacy and quality of the firm’s policy (if any) in relation to stewardship;

(2C) where the firm does not have a policy in relation to ESG financial considerations, non-financial matters or stewardship, the IGC will in each case consider and report on the firm’s reasons for not having a policy;

(2D) where the firm has not already adequately taken into account, in its investment strategy or investment decision making, other financial considerations that pose a particular and significant risk of financial harm to the relevant policyholders or pathway investors, the IGC will also:

(a) consider and report on the adequacy and quality of the firm’s policy (if any) in relation to those other financial considerations, and whether and how those considerations are taken into account in the firm’s investment strategy or investment decision; or

(b) consider and report on the firm’s reasons for not having a policy in relation to those considerations;

(2E) the IGC will consider and report on the extent to which the firm has implemented its stated policies in relation to the considerations and matters in (2B), (2C), and, where applicable (2D);

(3) in relation to the IGC’s remit of review, the IGC will raise with the firm’s governing body any concerns it may have:
(a) in relation to the value for money for relevant policyholders delivered by a relevant scheme, any of the matters it has assessed or considered; or

(b) where the IGC is unable to obtain or has difficulties obtaining from the firm the information it requires;

(3A) once a decision has been made by a firm to offer a pathway investment, the IGC must raise any concerns under (3):

(a) in good time to give the firm’s governing body a proper opportunity to consider and address the IGC’s concerns, before the pathway investment is offered to retail clients; and

(b) on an ongoing basis in relation to the pathway investment it offers;

…

(6) the Chair of the IGC will be responsible for the production of an annual report setting out:

(a) the IGC’s opinion on:

(i) the value for money delivered by a relevant scheme or a pathway investment, particularly against the matters listed under (2) or (2A); and

(ii) the adequacy and quality of the firm’s policies, or reasons for not having policies, in relation to the considerations and matters listed under (2B), (2C) and (if applicable) (2D);

(aa) the extent to which the firm has implemented its stated policies in relation to the consideration and matters in (2B), (2C) and (if applicable) (2D);

(b) how the IGC has considered relevant policyholders’ or pathway investors’ interests;

…

(d) how the IGC has sufficient expertise, experience and independence to act in relevant policyholders’ or pathway investors’ interests;

…

(f) the arrangements put in place by the firm to ensure that the views of relevant policyholders or pathway investors are directly represented to the IGC.
19.5.6 G (1) An IGC is expected to act in the interests of relevant policyholders or pathway investors both individually and collectively. Where there is the potential for conflict between individual and collective interests, the IGC should manage this conflict effectively. An IGC is not expected to deal directly with complaints from individual policyholders or pathway investors.

(2) The primary focus of an IGC should be the interests of relevant policyholders or pathway investors in accordance with COBS 19.5.5R(1). Should a firm ask an IGC also to consider the interests of other members or clients, the firm should provide additional resources and support to the IGC such that the IGC’s ability to act in the interests of relevant policyholders or pathway investors is not compromised.

(3) An IGC should assess whether all the investment choices available to relevant policyholders or pathway investors, including default options, are regularly reviewed to ensure alignment with the interests of relevant policyholders or pathway investors.

(4) Where an IGC is unable to obtain from a firm, and ultimately from any other person providing relevant services, the information it requires to assess or to consider and report on the matters in COBS 19.5.5R(2) the IGC’s remit of review, the IGC should explain in the annual report why it has been unable to obtain the information and how it will take steps to be granted access to that information in the future.

(5) If, having raised concerns with the firm’s governing body about the value for money offered to relevant policyholders by a relevant scheme the matters in the IGC’s remit of review, the IGC is not satisfied with the response of the firm’s governing body, the IGC Chair may escalate concerns to the FCA if the IGC thinks that would be appropriate. The IGC may also alert relevant policyholders or pathway investors and employers and make its concerns public.

(6) The IGC Chair should raise with the firm’s governing body any concerns that the IGC has about the information or resources that the firm provides, or arrangements that the firm puts in place to ensure that the views of relevant policyholders or pathway investors are directly represented to the IGC. If the IGC is not satisfied with the response of the firm’s governing body, the IGC Chair may escalate its concerns to the FCA, if appropriate. The IGC may also make its concerns public.

(7) The IGC should make public the names of those members of the IGC who are employees of the provider firm, unless there are compelling
reasons not to do so. The IGC should consult *employee* members as to whether there are such reasons.

(8) **The IGC need not consider and report on ESG financial considerations or non-financial matters or stewardship or other financial considerations** as set out in COBS 19.5.5R(2B) and COBS 19.5.5R(2D) if the firm does not have an *investment* strategy or make *investment* decisions which could have a material impact on the relevant *policyholders’* or pathway investors’ *investment* returns.

(9) **The IGC should only consider and report on other financial considerations** as set out in COBS 19.5.5R(2D) where it considers that:

(a) they are likely to pose a particular and significant risk of financial harm to the relevant *policyholders* or pathway investors; and

(b) the firm has not already adequately taken those other financial considerations into account in its *investment* strategy or *investment* decision making.

(10) **When an IGC is considering the adequacy and quality of a firm’s policies regarding ESG financial considerations, non-financial matters, stewardship or other financial considerations**, the IGC should form a view as to whether:

(a) a policy sufficiently characterises the relevant risks or opportunities;

(b) it considers that a policy seeks to appropriately mitigate those risks and take advantage of those opportunities;

(c) a firm’s processes have been designed to properly take into account those risks or opportunities;

(d) a policy is appropriate in the context of the expected duration of the investment; and

(e) a policy is appropriate in the context of the main characteristics of the actual or expected relevant *policyholders* or pathway investors.

(11) **Where an IGC is considering whether a firm has adequately taken other financial considerations into account for the purposes of COBS 19.5.5R(2D)**, it should also take into account the factors in COBS 19.5.6(10)G, whether or not contained in a policy.

Duties of firms in relation to an IGC
A firm must:

(2) take reasonable steps to provide the IGC with all the information reasonably requested by the IGC in good time for the purposes of carrying out its role;

(4) have arrangements to ensure that the views of relevant policyholders or pathway investors can be directly represented to the IGC;

(5A) for any pathway investment, take reasonable steps to address any concerns raised by the IGC about the matters in COBS 19.5.5R(3) and (3A):

(a) before the firm offers the pathway investment, and

(b) promptly, for any pathway investment it already offers.

(8) make the terms of reference and the annual report of the IGC publicly available the IGC’s terms of reference and the three most recent annual reports, in a way appearing to the firm to be best calculated to bring them to the attention of relevant policyholders and their employers or to the attention of pathway investors.

A firm should not unreasonably withhold from the IGC information that would enable the IGC to carry out a comprehensive assessment of value for money its duties in the IGC’s remit of review.

A firm should provide the IGC with sufficient support and resources so that the IGC is properly able to carry out its duties in the IGC’s remit of review.

A firm should use best endeavours to obtain, and should provide the IGC with, information on the costs incurred as a result of managing and investing, and activities in connection with the managing and investing of, the assets of a relevant schemes scheme or which could impact a pathway investment, including transaction costs. Information about costs and charges more broadly should also be provided, so that the IGC can properly assess the value for money of a relevant schemes scheme or a pathway investment and the funds held within these.
(8) A firm can make the IGC’s terms of reference for the IGC’s three most recent and the annual report reports of the IGC publicly available in a way designed to bring them to relevant policyholders’ and their employers’ attention or to the attention of pathway investors by placing them in an appropriately prominent and relevant position on its website, and by providing them on request to relevant policyholders and their employers or to pathway investors.

Appointment of IGC members

19.5.9 G (1) A firm must take reasonable steps to ensure that the IGC has sufficient collective expertise and experience to be able to make judgements on the value for money of relevant schemes matters in the IGC’s remit of review.

19.5.10 G (1) The effect of COBS 19.5.9R(3)(b) is that employees of the firm who serve on an IGC should be subject to appropriate contractual terms so that, when acting in the capacity of an IGC member, they are free to act within the terms of reference of the IGC without conflict with other terms of their employment. In particular, when acting as an IGC member, an employee will be expected to act solely in the interests of relevant policyholders or pathway investors and should be able to do so without breaching any terms of his their employment contract.

IGC members who are independent

19.5.12 G (2) A firm may appoint a body corporate to an IGC, including as Chair. The corporate member should notify the firm of the individual who will act as the member’s representative on the IGC. A firm should consider the circumstances of a corporate IGC member and any representative of the corporate member with the objective of ensuring that any potential conflicts of interest are managed effectively so that they do not affect the corporate IGC member’s ability to represent the interests of relevant policyholders or pathway investors.
