

Chapter 3

Commission Implementing Regulation (EU) 2016/1799

Article 11 Creditworthiness of items assigned the same rating category

(1) The creditworthiness of items assigned the same rating category shall be determined by considering at least their size and the degree of sector and geographical diversification of their business activity.

(2) Different measures of creditworthiness assigned to items of the same rating category may be used, to the extent appropriate, to complement the information provided by the quantitative factors referred to in Article 1 where they are reliable and relevant for the mapping.
